VOLUME I-PARTS 1 TO 51

REVOLUTIONARY FEDERAL ACQUISITION REGULATION OVERHAUL

GENERAL SERVICES ADMINISTRATION

DEPARTMENT OF DEFENSE

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Effective: April 17, 2026

TITLE 48-FEDERAL ACQUISITION REGULATIONS SYSTEM

Chapter1

FEDERAL ACQUISITION REGULATION

Volume I

FOREWORD

The FAR is the primary regulation for use by all executive agencies in their acquisition of supplies and services with appropriated funds. It became effective on April 1, 1984, and is issued within applicable laws under the joint authorities of the Administrator of General Services, the Secretary of Defense, and the Administrator for the National Aeronautics and Space Administration, under the broad policy guidelines of the Administrator, Office of Federal Procurement Policy, Office of Management and Budget.

The FAR precludes agency acquisition regulations that unnecessarily repeat, paraphrase, or otherwise restate the FAR, limits agency acquisition regulations to those necessary to implement FAR policies and procedures within an agency, and provides for coordination, simplicity, and uniformity in the Federal acquisition process. It also provides for agency and public participation in developing the FAR and agency acquisition regulation.

On April 20th, 2026, the Federal Acquisition Regulatory Council has updated the Revolutionary FAR Overhaul (RFO) to conform with the changes to support the implementation of Executive Order (E.O.) 14398, Addressing DEI Discrimination by Federal Contractors, dated March 26, 2026.

PART 1 - FEDERAL ACQUISITION REGULATIONS SYSTEM

This page intentionally left blank.

1.000 Scope of part.

This part describes the framework and guiding principles for the Federal Acquisition Regulations System (the System).

Subpart 1.1 - Framework

1.101 Framework.

(a) The System is a collection of acquisition regulations and guidance, and consists of the following:

(1) The Federal Acquisition Regulation (FAR), which is a single acquisition regulation for all acquisitions (see 2.101), and all executive agencies. The FAR is located at 48 CFR chapter 1.

(2) Agency acquisition regulations that implement or supplement the FAR (see 48 CFR chapters 2 through 99); and

(3) Acquisition guides, which show best practices (add link to location).

(b) The System does not include internal guidance supplementing agency acquisition regulations described in paragraph (a)(2) of this section.

1.102 Guiding principles for the System.

(a) The System will-

(1) Meet an agency's mission efficiently and effectively first;

(2) Ensure the most effective use of taxpayer dollars in ways that recognize the value of time, encourage innovation, promote merit, satisfy the customer, and balance these interests and objectives;

(3) Maximize buying commercial products or commercial services rather than requiring Government-unique solutions;

(4) Award contracts to contractors who demonstrate a superior ability to perform;

(5) Promote competition and fair opportunity;

(6) Conduct business with integrity, fairness, and openness; and

(7) Delegate the authority to make decisions and the accountability for the decisions to the lowest level within the System, consistent with law. The contracting officer must have the authority, to the maximum extent practicable and consistent with law, to determine how and when to apply rules, regulations, and policies on a specific contract.

(b) (1) Acquisition team members in the System include Government acquisition representatives from the technical, supply, sourcing, small business and procurement areas; the customers they support; and the contractors who deliver the products and services.

(2) The role of each acquisition team member in the System is to exercise personal initiative and sound business judgment to meet the agency's mission and manage risk.

(3) To continually promote innovation, the FAR encourages acquisition team members to pursue new approaches, and document successes and lessons learned.

(4) In this spirit, acquisition team members may assume that if a specific strategy, practice, policy, or procedure is in the best interests of the Government and is not addressed in the FAR, nor prohibited by law (statute or case law), Executive order or other regulation, then they are allowed to use the strategy, practice, policy, or procedure.

(5) Acquisition team members should work together as a team and be empowered to make decisions within their area of responsibility.

(6) Acquisition team members can propose deviations from FAR regulations if the deviation would promote economy, efficiency, or innovation (see subpart 1.3).

(c) To achieve efficient operations, the System must focus on "risk management." Attempting to eliminate all risk is prohibitive in terms of cost to the taxpayer.

1.103 Authority.

(a) The System has been developed according to the requirements of 41 U.S.C. chapter 13, Acquisition Councils.

(b) The Federal Acquisition Regulatory Council, or FAR Council, consists of the Administrator for Federal Procurement Policy, the Secretary of Defense, the Administrator of General Services, and the Administrator of National Aeronautics and Space. The FAR is prepared and jointly issued by the FAR Council under their several statutory authorities.

1.104 Publication and code arrangement.

(a) Changes to the FAR are published in the daily issue of the Federal Register. A cumulative version of the FAR is published–

(1) In the Code of Federal Regulations (CFR), in an annually updated version, at https://www.govinfo.gov/app/collection/cfr, and as a daily updated version at ecfr.gov; and

(2) In an enhanced daily updated version available at https://www.acquisition.gov/browse/index/far.

(b) Each numbered unit or segment (*e.g.*, part, subpart, section, etc.) of an agency acquisition regulation that is codified in the CFR must begin with the chapter number. However, the chapter number assigned to the FAR will not be included in the numbered units or segments of the FAR.

(c) Using the FAR coverage at (d) as a typical illustration, reference to the part would be "FAR part 9" outside the FAR and "part 9" within the FAR. Reference to the section would be "FAR 9.106" outside the FAR and "9.106" within the FAR.

(d) If required by 41 U.S.C. 1707, proposed revisions must be published in the Federal Register for public comment.

(e) The General Services Administration is responsible for establishing and operating the FAR Regulatory Secretariat to publish and distribute the FAR through the CFR system.

1.105 OMB approval under the Paperwork Reduction Act.

The list of information collections and recordkeeping requirements contained in this regulation have been approved by the OMB. They can be found at www.acquisition.gov/FAR-PRA.

1.106 Certifications.

Unless allowed under 41 U.S.C. 1304, the FAR must not require a certification from an offeror or contractor.

1.107 FAR conventions.

(a) *Words and terms*. (1) Definitions in part 2 apply to the entire regulation unless specifically defined in another part, subpart, section, provision, or clause. Words or terms defined in a specific part, subpart, section, provision, or clause have that meaning when used in that part, subpart, section, provision, or clause.

(2) Undefined words retain their common dictionary meaning.

(b) *Delegation of authority.* Each authority is delegable unless specifically stated otherwise.

(c) *Dollar thresholds*. (1) Unless otherwise specified, a specific dollar threshold is the final anticipated dollar value of the action, including the dollar value of all options.

(2) The final anticipated dollar value must be the highest final priced alternative to the Government, including the dollar value of all options, if the action establishes—

(i) A maximum quantity of supplies or services to be acquired;

(ii) A ceiling price; or

(iii) The final price to be based on future events.

(d) *Applying FAR changes to solicitations and contracts*. Unless otherwise specified—

(1) FAR changes apply to solicitations issued on or after the effective date of the change;

(2) Contracting officers may, at their discretion, include the FAR changes in solicitations issued before the effective date, provided award of the resulting contract(s) occurs on or after the effective date; and

(3) Contracting officers may, at their discretion, include the changes in any existing contract with appropriate consideration.

(e) *Citations*. When the FAR cites a statute, Executive order, Office of Management and Budget circular, Office of Federal Procurement Policy policy letter, or relevant portion of the Code of Federal Regulations, the citation includes all applicable amendments, unless otherwise stated.

(f) *Required action*. When a sentence directs action, the contracting officer is responsible for the action, unless another party is expressly cited.

1.108 Statutory acquisition–related dollar thresholds-adjustment for inflation.

The FAR adjusts statutory acquisition-related dollar thresholds for inflation every 5 years. The statute at 41 U.S.C. 1908 establishes the calculation used to escalate the thresholds. The statute also identifies certain thresholds that must not be escalated. A matrix of the most recent calculations is available at http://www.regulations.gov (search FAR Case 2024-001, open the docket folder, and go to the supporting documents file).

1.109 Regulatory sunset.

All FAR sections that are not required by statute must expire 4 years after the effective date of the sections, unless renewed by the Federal Acquisition Regulatory Council.

1.110 Positive law codification.

Titles 40 and 41 of the United States Code were revised and reorganized, as a result of positive law codifications. A table identifying the original "popular name" of the public laws in those titles, and how they are referred to in the FAR, is available at www.acquisition.gov/renamingpubliclaws.

This page intentionally left blank.

Subpart 1.2 - Agency Acquisition Regulations

1.201 Policy.

(a) (1) An agency head may issue agency acquisition regulations that are necessary to implement the FAR, or to supplement the FAR to satisfy a specific agency need, according to 41 U.S.C. 1303(a)(2).

(2) Agency acquisition regulations must not—

(i) Unnecessarily repeat, paraphrase, or otherwise restate material contained in the FAR or higher-level agency acquisition regulations; or

(ii) Conflict or be inconsistent with the FAR, except as required by law or as provided in subpart 1.3.

(b) (1) If required by 41 U.S.C. 1707, agencies must publish their acquisition regulations for comment in the Federal Register. However, publication is not required for issuances that merely implement or supplement higher level issuances that have previously undergone the public comment process, unless such implementation or supplementation results in an additional significant cost or administrative impact on contractors or offerors or effect beyond the internal operating procedures of the issuing organization.

(2) Agencies must also comply with other applicable statutes, (*e.g.*, the Paperwork Reduction Act (44 U.S.C. 3501, *et seq*.) and the Regulatory Flexibility Act (5 U.S.C. 601, *et seq*.)).

(c) An agency head may authorize internal agency guidance at any organizational level (*e.g.*, designations and delegations of authority, assignments of responsibilities, work-flow procedures, and internal reporting requirements). Internal agency guidance does not need to be published in the Federal Register for comment, unless the agency guidance has a significant effect beyond the internal operating procedures of the agency or creates an additional significant cost or administrative impact on contractors or offerors.

This page intentionally left blank.

Subpart 1.3 - Deviations from the FAR

1.300 Scope of subpart.

This subpart prescribes the policies and procedures for authorizing deviations from the FAR. Exceptions regarding the use of forms prescribed by the FAR are covered in part 53.

1.301 Definition.

Deviation means one or any combination of the following:

(a) Issuing or using a policy, procedure, solicitation provision (see definition in 2.101), contract clause (see definition in 2.101), method, or practice of conducting acquisition actions of any kind at any stage of the acquisition process that is inconsistent with the FAR.

(b) Leaving out any solicitation provision or contract clause when its prescription requires including it.

(c) Using any solicitation provision or contract clause with modified or alternate language that is not authorized by the FAR (see definition of “modification” in (a) and definition of "alternate" in 2.101).

(d) Using a solicitation provision or contract clause prescribed by the FAR on a substantially as follows or substantially the same as basis (see definitions in 2.101 and (a)), if such use is inconsistent with the intent, principle, or substance of the prescription or related coverage on the subject matter in the FAR.

(e) Authorizing lesser or greater limitations on the use of any solicitation provision, contract clause, policy, or procedure required by the FAR.

(f) Issuing policies or procedures that govern the contracting process or otherwise control contracting relationships that are not incorporated into agency acquisition regulations according to 1.201(a).

1.302 Policy.

(a) Unless not allowed by law, Executive order, or regulation, agencies may deviate from the FAR as specified in this subpart when necessary to meet an agency’s specific needs (e.g., to encourage developing and testing new techniques and methods of acquisition).

(b) Refer to 31.101 for instructions on deviating from part 31, Contract Cost Principles and Procedures.

(c) Agencies are not authorized to deviate from 30.201-3 and 30.201-4, or the requirements of the Cost Accounting Standards Board (CASB) rules and regulations (48 CFR chapter 99). Refer to 30.201-5 for instructions on deviating from the Cost Accounting Standards.

1.303 Individual deviations.

Individual deviations affect only one contract action. The agency head may authorize individual deviations. The contracting officer must document the justification and agency approval in the contract file.

1.304 Class deviations.

(a) Class deviations affect more than one contract action. A deviation for any solicitation that will result in multiple contract awards will need to be done as a class deviation. When an agency knows that it will require a class deviation on a permanent basis, it may develop and propose a FAR revision.

(b) Agency heads may authorize class deviations from the FAR. Agency-specific class deviations must be approved by the FAR Council, except where required to implement agency-specific executive or statutory direction. Agencies requesting approval must send the proposed class deviation to the FAR Secretariat at GSARegSec@gsa.gov.

(c) The FAR Council will review and provide a decision to the requesting agency within 5 business days, unless the request is urgent. Urgent requests will be decided within 24 hours of receipt of the request. Agencies may proceed if they do not receive responses within these time frames.

(d) Agencies must email a copy of each agency-approved class deviation to the FAR Secretariat at GSARegSec@gsa.gov.

(e) The Administrator for Federal Procurement Policy may require the FAR Council to issue deviation guidance to promote uniformity .

1.305 Deviations pertaining to treaties and executive agreements.

(a) Deviations from the FAR that are necessary to comply with a treaty to which the United States is a party are authorized, unless the deviation would be inconsistent with FAR coverage based on a law enacted after the treaty’s execution.

(b) Deviations from the FAR that are necessary to comply with an executive agreement (*i.e.*, a Government-to-Government agreement, including an agreement with international organizations, to which the United States is a party) are authorized unless the deviation would be inconsistent with FAR coverage based on law.

Subpart 1.4 - Career Development, Contracting Authority, and Responsibilities

1.401 Contracting Functions.

The agency head may establish contracting activities and delegate contracting functions to the contracting activities. Per 41 U.S.C. 3102(b), agency heads may mutually agree to—

(a) Delegate contracting functions and responsibilities from one agency to another; and

(b) Create joint or combined offices to exercise acquisition functions and responsibilities.

1.402 Contracting officers.

1.402-1 Authority.

(a) Only contracting officers may sign, administer, or terminate contracts on behalf of the Government. Contracting officers may bind the Government based on the authority delegated to them. The appointing authority must provide the contracting officer with clear instructions in writing about what they can and cannot do.

(b) Contracting officers have wide latitude to exercise business judgment.

1.402-2 Responsibilities.

Contracting officers are responsible for—

(a) Before signing a contract-

(1) Ensuring it meets all requirements of law, Executive orders, regulations, and all other applicable procedures, including clearances and approvals; and

(2) Ensuring funds are available for obligation;

(b) Ensuring compliance with the contract terms;

(c) Ensuring offerors and contractors receive impartial, fair, and equitable treatment; and

(d) Requesting and considering the advice of specialists in audit, law, engineering, information security, transportation, and other fields, as appropriate.

1.403 Selecting, appointing, and terminating the appointment for contracting officers.

1.403-1 General.

(a) 41 U.S.C. 1702(b)(3)(G) requires agency heads to establish and maintain a procurement career management program, which includes a system to select, appoint, and terminate contracting officers' appointments.

(b) Agency heads or their designees may select and appoint contracting officers and terminate their appointments.

(c) These selections and appointments must be consistent with Office of Federal Procurement Policy (OFPP) standards for skill-based training in performing contracting and purchasing duties as published in OFPP Policy Letter No. 05-01, Developing and Managing the Acquisition Workforce, April 15, 2005, and OFPP Memo dated January 19, 2023, Federal Acquisition Certification in Contracting (FAC-C) Modernization.

1.403-2 Appointment.

(a) (1) Contracting officers must be appointed in writing, using a Standard Form (SF) 1402, Certificate of Appointment. The certificate must state any limitations placed on the contracting officer's scope of authority, other than limitations contained in applicable law or regulation.

(2) Appointing officials must keep copies of all current appointments.

(b) (1) Agency heads should delegate micro-purchase authority to individuals who are employees of an executive agency or members of the Armed Forces of the United States who will use the supplies or services being purchased.

(2) Agency heads must appoint these individuals in writing but are not required to use an SF 1402.

1.403-3 Termination.

(a) Agency heads must terminate a contracting officer appointment by letter, unless the Certificate of Appointment contains other provisions for automatic termination.

(b) Terminations may occur for reasons such as reassignment, termination of employment, or unsatisfactory performance. Agency heads cannot terminate a contracting officer appointment retroactively.

1.404 Contracting officer's representative.

(a) *Designation*. (1) The contracting officer’s representative (COR) must be nominated either by the requiring activity or according to agency procedures. The contracting officer designates and authorizes a COR, in writing and according to agency procedures. See 7.104(e), which directs the COR designation as early as possible.

(2) The COR designation must-

(i) Specify the extent of the COR's authority to act on behalf of the contracting officer;

(ii) Specify the period covered by the designation;

(iii) State the authority cannot be delegated further; and

(iv) State that the COR may be personally liable for unauthorized acts.

(3) (i) Contracting officers may not delegate to a COR responsibilities that are delegated to a contract administration office under 42.202. Contracting officers may assign the COR other duties described at 42.302.

(ii) The contracting officer must communicate the COR’s duties clearly and in writing.

(4) The contracting officer must send copies of the COR’s designation to the contractor and the contract administration office.

(b) *Types of contracts and orders*. The contracting officer must assign a COR to all contracts and orders other than firm fixed-price contracts and orders. For firm fixed-price contracts and orders, the contracting officer may assign a COR.

(c) *COR Qualifications*. The COR-

(1) Must be a Government employee, unless otherwise authorized in agency regulations;

(2) Must be certified and must maintain certification. The certification must align with the current Office of Management and Budget memorandum on the Federal Acquisition Certification for Contracting Officer Representatives (FAC-COR) guidance, or for DoD, according to DoD policy guidance; and

(3) Must be qualified by training and experience.

(d) *Lack of authority.* A COR has no authority to make any commitments or changes that affect price, quality, quantity, delivery, or other terms and conditions of the contract. The COR must not direct the contractor or its subcontractors to operate in conflict with the contract terms and conditions.

(e) *Responsibilities*.

(1) A COR assists in the technical monitoring or administration of a contract.

(2) The COR must maintain a file for each assigned contract. The file must include, at a minimum—

(i) A copy of the contracting officer's letter of designation and other documents describing the COR's duties and responsibilities; and

(ii) Documentation of COR actions taken according to the delegation of authority.

1.405 Ratification of unauthorized commitments.

(a) *Definitions.*

As used in this section-

Ratification means the act of approving an unauthorized commitment by an official who has the authority to do so.

Unauthorized commitment means an agreement that is not binding solely because the Government representative who made it lacked the authority to enter into that agreement on behalf of the Government.

(b) *Policy.* (1) Agencies should take actions to avoid the need for ratifications.

(2) (i) The head of the contracting activity may ratify an unauthorized commitment, subject to the criteria in paragraph (c).

(ii) Agencies may delegate the authority to ratify an unauthorized commitment. Agencies cannot delegate this authority below the level of the chief of the contracting office.

(3) Unauthorized commitments which involve claims subject to resolution under 41 U.S.C. chapter 71, Contract Disputes, should be processed under subpart 33.2, Disputes and Appeals.

(c) *Criteria.* Agencies may use the authority in paragraph (b)(2) of this section only when—

(1) The Government accepted supplies or services from the contractor, or the Government received a benefit from performance of the unauthorized commitment;

(2) The ratifying official has the authority to enter into a contractual commitment

(3) The resulting contract would otherwise have been proper if made by an authorized contracting officer;

(4) The contracting officer reviewing the unauthorized commitment determines the price to be fair and reasonable;

(5) The contracting officer recommends payment and legal counsel concurs with the recommendation; and

(6) Funds are available and were available at the time the unauthorized commitment was made.

(d) *Nonratifiable commitments.* Actions that do not meet the criteria in paragraph (c) of this section may be subject to resolution according to 31 U.S.C. 3702, or as authorized by subpart 50.1.

This page intentionally left blank.

Subpart 1.5 - Determinations and Findings

1.500 Scope of subpart.

This subpart prescribes general policies and procedures for using determinations and findings (D&Fs).

1.501 Definition.

Determination and findings (D&F) means a special form of written approval by an authorized official that is required by statute or regulation before taking certain contract actions.

The *determination* is a conclusion or decision supported by the *findings.* The findings are statements of fact or reasons essential to support the determination, and must cover each requirement of the statute or regulation.

1.502 General.

(a) (1) Ordinarily a D&F applies to an individual contract action. Unless otherwise prohibited, agencies may execute class D&Fs for classes of contract actions (see 1.503). The approval granted by a D&F is restricted to the proposed contract action(s) reasonably described in that D&F. D&Fs may provide for a reasonable degree of flexibility.

(2) Unless the D&F states otherwise, reasonable variations in estimated quantities or prices are permitted.

(b) When an option is anticipated, the D&F shall state the approximate quantity to be awarded at first and the extent of the increase the option permits.

1.503 Class determinations and findings.

(a) A class D&F provides authority for a class of contract actions. A class may consist of contract actions for the same or related supplies, services, or other contract actions that require essentially identical justification.

(b) (1) The findings in a class D&F must fully support the proposed action either for the class as a whole or for each action. A class D&F must be for a specified period, with the expiration date stated in the document.

(2) When a solicitation has been furnished to prospective offerors before the expiration date, the authority under the D&F will continue until award of the contract(s) resulting from that solicitation.

(c) The contracting officer must ensure that individual actions taken under the authority of a class D&F are within the scope of the D&F.

1.504 Content.

At a minimum, each D&F must include the following information:

(a) Identification of the agency and the contracting activity and specific identification of the document as a *Determination and Findings*.

(b) Nature and/or description of the action being approved.

(c) Citation to the appropriate statute and/or regulation upon which the D&F is based.

(d) Findings that detail the particular circumstances, facts, or reasoning essential to support the determination. Necessary supporting documentation shall come from appropriate requirements and technical personnel.

(e) A determination based on the findings that the proposed action is justified under the applicable statute or regulation.

(f) For class D&Fs, an expiration date.

(g) The signature of the official authorized to sign the D&F (see 1.506) and the date signed.

1.505 Replacement and modification.

(a) If a D&F is replaced by another D&F, that action will not invalidate any action taken under the original D&F before the date of its replacement.

The contracting officer is not required to cancel the solicitation if the modified D&F supports the contract action.

1.506 Signatory authority.

When a D&F is required, the appropriate official according to agency regulations must sign it. Authority to sign or delegate signature authority for the various D&Fs is shown in the applicable FAR part.

This page intentionally left blank.

PART 2 - DEFINITIONS OF WORDS AND TERMS

This page intentionally left blank.

2.000 Scope of part.

(a) This part-

(1) Defines words and terms that are frequently used in the FAR;

(2) Provides cross-references to other definitions in the FAR of the same word or term; and

(3) Provides for the incorporation of these definitions in solicitations and contracts by reference.

(b) Other parts, subparts, and sections of this regulation (48 CFR chapter 1) may define other words or terms and those definitions only apply to the part, subpart, or section where the word or term is defined.

Subpart 2.1 - Definitions

2.101 Definitions.

A word or a term, defined in this section, has the same meaning throughout this chapter (the Federal Acquisition Regulation (FAR)) unless the context in which the word or term is used clearly requires a different meaning or another FAR part, subpart, or section provides a different definition for the particular part or portion of the part. If a word or term that is defined in this section is defined differently in another part, subpart, or section of this chapter, the definition in this section includes a cross-reference to the other definitions and that part, subpart, or section applies to the word or term when used in that part, subpart, or section.

Acquisition means the acquiring by contract with appropriated funds of supplies or services (including construction) by and for the use of the Federal Government through purchase or lease, whether the supplies or services are already in existence or must be created, developed, demonstrated, and evaluated. Acquisition begins at the point when agency needs are established and includes the description of requirements to satisfy agency needs, solicitation and selection of sources, award of contracts, contract financing, contract performance, contract administration, and those technical and management functions directly related to the process of fulfilling agency needs by contract.

Acquisition planning means the process by which the efforts of all personnel responsible for an acquisition are coordinated and integrated through a comprehensive plan for fulfilling the agency need in a timely manner and at a reasonable cost. It includes developing the overall strategy for managing the acquisition.

Activity Address Code (AAC) means a distinct six-position code consisting of a combination of alpha and/or numeric characters assigned to identify specific agency offices, units, activities, or organizations by the General Services Administration for civilian agencies and by the Department of Defense for defense agencies.

Adequate evidence means information sufficient to support the reasonable belief that a particular act or omission has occurred.

Advisory and assistance services means those services provided under contract by nongovernmental sources to support or improve: organizational policy development; decision-making; management and administration; program and/or project management and administration; or R&D activities. It can also mean the furnishing of professional advice or assistance rendered to improve the effectiveness of Federal management processes or procedures (including those of an engineering and technical nature). In rendering the foregoing services, outputs may take the form of information, advice, opinions, alternatives, analyses, evaluations, recommendations, training and the day-to-day aid of support personnel needed for the successful performance of ongoing Federal operations. All advisory and assistance services are classified in one of the following definitional subdivisions:

(1) Management and professional support services, *i.e.,* contractual services that provide assistance, advice or training for the efficient and effective management and operation of organizations, activities (including management and support services for R&D activities), or systems. These services are normally closely related to the basic responsibilities and mission of the agency originating the requirement for the acquisition of services by contract. Included are efforts that support or contribute to improved organization of program management, logistics management, project monitoring and reporting, data collection, budgeting, accounting, performance auditing, and administrative technical support for conferences and training programs.

(2) Studies, analyses and evaluations, *i.e.,* contracted services that provide organized, analytical assessments/evaluations in support of policy development, decision-making, management, or administration. Included are studies in support of R&D activities. Also included are acquisitions of models, methodologies, and related software supporting studies, analyses or evaluations.

(3) Engineering and technical services, *i.e.,* contractual services used to support the program office during the acquisition cycle by providing such services as systems engineering and technical direction (see 9.505-1(b)) to ensure the effective operation and maintenance of a weapon system or major system as defined in OMB Circular No.A-109 or to

provide direct support of a weapon system that is essential to research, development, production, operation or maintenance of the system.

Affiliates means associated business concerns or individuals if, directly or indirectly either one controls or can control the other; or third party controls or can control both, except as follows:

(1) For use in subpart 9.4, see the definition at 9.403.

(2) For use of affiliates in size determinations, see the definition of "small business concern" in this section.

Agency head or "head of the agency" means the Secretary, Attorney General, Administrator, Governor, Chairperson, or other chief official of an executive agency, unless otherwise indicated, including any deputy or assistant chief official of an executive agency.

Alternate means a substantive variation of a basic provision or clause prescribed for use in a defined circumstance. It adds wording to, deletes wording from, or substitutes specified wording for a portion of the basic provision or clause. The alternate version of a provision or clause is the basic provision or clause as changed by the addition, deletion, or substitution (see 52.105(a)).

Architect-engineer services, as defined in 40 U.S.C. 1102, means—

(1) Professional services of an architectural or engineering nature, as defined by State law, if applicable, that are required to be performed or approved by a person licensed, registered, or certified to provide those services;

(2) Professional services of an architectural or engineering nature performed by contract that are associated with research, planning, development, design, construction, alteration, or repair of real property; and

(3) Those other professional services of an architectural or engineering nature, or incidental services, that members of the architectural and engineering professions (and individuals in their employ) may logically or justifiably perform, including studies, investigations, surveying and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual designs, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals, and other related services.

Assignment of claims means the transfer or making over by the contractor to a bank, trust company, or other financing institution, as security for a loan to the contractor, of its right to be paid by the Government for contract performance.

Assisted acquisition means a type of interagency acquisition where a servicing agency performs acquisition activities on a requesting agency's behalf, such as awarding and administering a contract, task order, or delivery order.

Basic research means that research directed toward increasing knowledge in science. The primary aim of basic research is a fuller knowledge or understanding of the subject under study, rather than any practical application of that knowledge.

Best value means the expected outcome of an acquisition that, in the Government's estimation, provides the greatest overall benefit in response to the requirement.

Bid sample means a product sample required to be submitted by an offeror to show characteristics of the offered products that cannot adequately be described by specifications, purchase descriptions, or the solicitation (*e.g.,* balance, facility of use, or pattern).

Biobased product means a product determined by the U.S. Department of Agriculture to be a commercial product or industrial product (other than food or feed) that is composed, in whole or in significant part, of biological products, including renewable domestic agricultural materials and forestry materials, or that is an intermediate ingredient or feedstock. The term includes, with respect to forestry materials, forest products that meet biobased content requirements, notwithstanding the market share the product holds, the age of the product, or whether the market for the product is new or emerging. (7 U.S.C. 8101) (7 CFR 4270.2).

Broad agency announcement means a general announcement of an agency’s research interest including criteria for selecting proposals and soliciting the participation of all offerors capable of satisfying the Government’s needs (see 6.102(d)(2)).

Building or work means construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work. The terms include, without limitation, buildings, structures, and improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, pumping stations, heavy generators, railways, airports, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, canals, dredging, shoring, rehabilitation and reactivation of plants, scaffolding, drilling, blasting, excavating, clearing, and landscaping. The manufacture or furnishing of materials, articles, supplies, or equipment (whether or not a Federal or State agency acquires title to such materials, articles, supplies, or equipment during the course of the manufacture or furnishing, or owns the materials from which they are manufactured or furnished) is not "building" or "work" within the meaning of this definition unless conducted in connection with and at the site of such building or work as is described in the foregoing sentence, or under the United States Housing Act of 1937 and the Housing Act of 1949 in the construction or development of the project.

Bundling—

(1) Means a subset of consolidation that combines two or more requirements for supplies or services, previously provided or performed under separate smaller contracts (see paragraph (2) of this definition), into a solicitation for a single contract, a multiple-award contract, or a task or delivery order that is likely to be unsuitable for award to a small business concern (even if it is suitable for award to a small business with a Small Business Teaming Arrangement) due to—

(i) The diversity, size, or specialized nature of the elements of the performance specified;

(ii) The aggregate dollar value of the anticipated award;

(iii) The geographical dispersion of the contract performance sites; or

(iv) Any combination of the factors described in paragraphs (1)(i), (ii), and (iii) of this definition.

(2) "Separate smaller contract" as used in this definition, means a contract that has been performed by one or more small business concerns or that was suitable for award to one or more small business concerns.

Business unit means any segment of an organization, or an entire business organization that is not divided into segments.

Certified cost or pricing data means "cost or pricing data" that were required to be submitted in accordance with FAR 15.403-4 and 15.403-5 and have been certified, or is required to be certified, in accordance with 15.406-2. This certification states that, to the best of the person’s knowledge and belief, the cost or pricing data is accurate, complete, and current as of a date certain before contract award. Cost or pricing data is required to be certified in certain procurements (10 U.S.C. chapter 271 and 41 U.S.C. chapter 35).

Change-of-name agreement means a legal instrument executed by the contractor and the Government that recognizes the legal change of name of the contractor without disturbing the original contractual rights and obligations of the parties.

Change order means a written order, signed by the contracting officer, directing the contractor to make a change that the Changes clause authorizes the contracting officer to order without the contractor’s consent.

Chief Acquisition Officer means an executive level acquisition official responsible for agency performance of acquisition activities and acquisition programs created pursuant to 41 U.S.C. 1702.

Chief of mission means the principal officer in charge of a diplomatic mission of the United States or of a United States office abroad which is designated by the Secretary of State as diplomatic in nature, including any individual assigned under section 502(c) of the Foreign Service Act of 1980 (Public Law 96-465) to be temporarily in charge of such a mission or office.

Claim means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to the contract. However, a written demand or written assertion by the contractor seeking the payment of money exceeding $100,000 is not a claim under 41 U.S.C. chapter 71, Contract Disputes, until certified as required by the statute. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim. The submission may be converted to a claim, by written notice to the contracting officer as provided in 33.206(a), if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

Classified acquisition means an acquisition in which offerors must have access to classified information to properly submit an offer or quotation, to understand the performance requirements, or to perform the contract.

Classified contract means any contract in which the contractor or its employees must have access to classified information during contract performance. A contract may be a classified contract even though the contract document itself is unclassified.

Classified information means any knowledge that can be communicated or any documentary material, regardless of its physical form or characteristics, that—

(1) (i) Is owned by, is produced by or for, or is under the control of the United States Government; or

(ii) Has been classified by the Department of Energy as privately generated restricted data following the procedures in 10 CFR 1045.21; and

(2) Must be protected against unauthorized disclosure according to Executive Order12958, Classified National Security Information, April 7,1995, or classified in accordance with the Atomic Energy Act of 1954.

Cognizant Federal agency means the Federal agency that, on behalf of all Federal agencies, is responsible for establishing final indirect cost rates and forward pricing rates, if applicable, and administering cost accounting standards for all contracts in a business unit.

Combatant commander means the commander of a unified or specified combatant command established in accordance with 10 U.S.C. 161.

Commercial and Government Entity (CAGE) code means—

(1) An identifier assigned to entities located in the United States or its outlying areas by the Defense Logistics Agency (DLA) Commercial and Government Entity (CAGE) Branch to identify a commercial or government entity by unique location; or

(2) An identifier assigned by a member of the North Atlantic Treaty Organization (NATO) or by the NATO Support and Procurement Agency (NSPA) to entities located outside the United States and its outlying areas that the DLA Commercial and Government Entity (CAGE) Branch records and maintains in the CAGE master file. This type of code is known as a NATO CAGE (NCAGE) code.

Commercial component means any component that is a commercial product.

Commercial computer software means any computer software that is a commercial product or commercial service.

Commercial product means—

(1) A product, other than real property, that is of a type customarily used by the general public or by nongovernmental entities for purposes other than governmental purposes (i.e., purposes that are not unique to a government), and—

(i) Has been sold, leased, or licensed to the general public; or

(ii) Has been offered for sale, lease, or license to the general public;

(2) A product that evolved from a product described in paragraph (1) of this definition through advances in technology or performance and that is not yet available in the commercial marketplace, but will be available in the commercial marketplace in time to satisfy the delivery requirements under a Government solicitation;

(3) A product that would satisfy a criterion expressed in paragraph (1) or (2) of this definition, except for—

(i) Modifications of a type customarily available in the commercial marketplace; or

(ii) Minor modifications of a type not customarily available in the commercial marketplace made to meet Federal Government requirements. A minor modification does not significantly alter the function or essential physical characteristics of an item or component or change the purpose of a process.

(4) Any combination of products meeting the requirements of paragraph (1), (2), or (3) of this definition that are of a type customarily combined and sold in combination to the general public;

(5) A product, or combination of products, referred to in paragraphs (1) through (4) of this definition, even though the product, or combination of products, is transferred between or among separate divisions, subsidiaries, or affiliates of a contractor; or

(6) A nondevelopmental item developed exclusively at private expense and sold in substantial quantities, on a competitive basis to multiple State and local governments or to multiple foreign governments.

Commercial service means—

(1) Installation services, maintenance services, repair services, training services, and other services if—

(i) Such services are procured for support of a commercial product, as defined in this section regardless of whether such services are provided by the same source or at the same time as the commercial product; and

(ii) The source of such services provides similar services at the same time to the general public under terms and conditions similar to those offered to the Government;

(2) Services, including construction, of a type offered and sold competitively in substantial quantities in the commercial marketplace based on established catalog or market prices for specific tasks performed or specific outcomes to be achieved and under standard commercial terms and conditions. For purposes of these services—

(i) Catalog price means a price included in a catalog, price list, schedule, or other form that the manufacturer or vendor regularly maintains, customers can inspect, and states prices at which sales are currently, or were last, made to a significant number of buyers constituting the general public; and

(ii) Market prices means current prices that are established in the course of ordinary trade between buyers and sellers free to bargain and that can be substantiated through competition or from sources independent of the offerors; or

(3) A service referred to in paragraph (1) or (2) of this definition, even though the service is transferred between or among separate divisions, subsidiaries, or affiliates of a contractor.

Commercially available off-the-shelf item or COTS item —

(1) Means any item of supply that is—

(i) A commercial product (as defined in paragraph (1) of the definition of "commercial product" in this section);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government without modification, in the same form in which it is sold in the commercial marketplace; but

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

Common item means material that is common to the applicable Government contract and the contractor's other work, except that for use in the clause at 52.246-26, see the definition in paragraph (a) of that clause.

Component means any item supplied to the Government as part of an end item or of another component, except that for use in—

(1) Part 25, see the definition in 25.003;

(2) 52.225-1 and 52.225-3, see the definition in 52.225-1(a) and 52.225-3(a);

(3) 52.225-9 and 52.225-11, see the definition in 52.225-9(a) and 52.225-11(a); and

(4) 52.225-21 and 52.225-23, see the definition in 52.225-21(a) and 52.225-23(a).

Computer database or "database" means a collection of recorded information in a form capable of, and for the purpose of, being stored in, processed, and operated on by a computer. The term does not include computer software.

Computer software —

(1) Means (i) Computer programs that comprise a series of instructions, rules, routines, or statements, regardless of the media in which recorded, that allow or cause a computer to perform a specific operation or series of operations; and

(ii) Recorded information comprising source code listings, design details, algorithms, processes, flow charts, formulas, and related material that would enable the computer program to be produced, created, or compiled.

(2) Does not include computer databases or computer software documentation.

Computer software documentation means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

Consent to subcontract means the contracting officer's written consent for the prime contractor to enter into a particular subcontract.

Consolidation or consolidated requirement—

(1) Means a solicitation for a single contract, a multiple-award contract, a task order, or a delivery order to satisfy-

(i) Two or more requirements of the Federal agency for supplies or services that have been provided to or performed for the Federal agency under two or more separate contracts, each of which was lower in cost than the total cost of the contract for which offers are solicited; or

(ii) Requirements of the Federal agency for construction projects to be performed at two or more discrete sites.

(2) "Separate contract" as used in this definition, means a contract that has been performed by any business, including small and other than small business concerns.

Construction means construction, alteration, or repair (including dredging, excavating, and painting) of buildings, structures, or other real property. For purposes of this definition, the terms "buildings, structures, or other real property" include, but are not limited to, improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, cemeteries, pumping stations, railways, airport facilities, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, canals, and channels. Construction does not include the manufacture, production, furnishing, construction, alteration, repair, processing, or assembling of vessels, aircraft, or other kinds of personal property (except that for use in subpart 22.5, see the definition at 22.502).

Contiguous United States (CONUS) means the 48 contiguous States and the District of Columbia.

Contingency operation (10 U.S.C. 101(a)(13)) means a military operation that-

(1) Is designated by the Secretary of Defense as an operation in which members of the armed forces are or may become involved in military actions, operations, or hostilities against an enemy of the United States or against an opposing military force; or

(2) Results in the call or order to, or retention on, active duty of members of the uniformed services under sections 688, 12301(a), 12302, 12304, 12304a, 12305, or 12406 of title 10 of the United States Code, Chapter 13 of title 10 of the United States Code, and section 3713 of title 14 of the United States Code, or any other provision of law during a war or during a national emergency declared by the President or Congress.

Continued portion of the contract means the portion of a contract that the contractor must continue to perform following a partial termination.

Contract means a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. It includes all types of commitments that obligate the Government to an expenditure of appropriated funds and that, except as otherwise authorized, are in writing. In addition to bilateral instruments, contracts include (but are not limited to) awards and notices of awards; job orders or task letters issued under basic ordering agreements; letter contracts; orders, such as purchase orders, under which the contract becomes effective by written acceptance or performance; and bilateral contract modifications. Contracts do not include grants and cooperative agreements covered by 31 U.S.C.6301, *et seq.* For discussion of various types of contracts, see part 16.

Contract administration office means an office that performs-

(1) Assigned postaward functions related to the administration of contracts; and

(2) Assigned preaward functions.

Contract clause or "clause" means a term or condition used in contracts or in both solicitations and contracts, and applying after contract award or both before and after award.

Contract modification means any written change in the terms of a contract (see 43.103).

Contracting means purchasing, renting, leasing, or otherwise obtaining supplies or services from nonfederal sources. Contracting includes description (but not determination) of supplies and services required, selection and solicitation of sources, preparation and award of contracts, and all phases of contract administration. It does not include making grants or cooperative agreements.

Contracting activity means an element of an agency designated by the agency head and delegated broad authority regarding acquisition functions.

Contracting office means an office that awards or executes a contract for supplies or services and performs postaward functions not assigned to a contract administration office (except for use in part 48, see also 48.001).

Contracting officer means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the contracting officer acting within the limits of their authority as delegated by the contracting officer. "Administrative contracting officer (ACO)" refers to a contracting officer who is administering contracts. "Termination contracting officer (TCO)" refers to a contracting officer who is settling terminated contracts. A single contracting officer may be responsible for duties in any or all of these areas. Reference in this regulation (48 CFR chapter 1) to administrative contracting officer or termination contracting officer does not-

(1) Require that a duty be performed at a particular office or activity; or

(2) Restrict in any way a contracting officer in the performance of any duty properly assigned.

Contracting officer's representative (COR) means an individual, including a contracting officer's technical representative (COTR), designated and authorized in writing by the contracting officer to perform specific technical or administrative functions.

Conviction means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of nolo contendere. For use in subpart 9.4, see the definition at 9.403. For use in subpart 26.5, see the definition at 26.503.

Cost or pricing data (10 U.S.C. 3701(1) and 41 U.S.C. chapter 35) means all facts that, as of the date of price agreement, or, if applicable, an earlier date agreed upon between the parties that is as close as practicable to the date of agreement on price, prudent buyers and sellers would reasonably expect to affect price negotiations significantly. Cost or pricing data are factual, not judgmental; and are verifiable. While they do not indicate the accuracy of the prospective contractor's judgment about estimated future costs or projections, they do include the data forming the basis for that judgment. Cost or pricing data are more than historical accounting data; they are all the facts that can be reasonably expected to contribute to the soundness of estimates of future costs and to the validity of determinations of costs already incurred. They also include, but are not limited to, such factors as-

(1) Vendor quotations;

(2) Nonrecurring costs;

(3) Information on changes in production methods and in production or purchasing volume;

(4) Data supporting projections of business prospects and objectives and related operations costs;

(5) Unit-cost trends such as those associated with labor efficiency;

(6) Make-or-buy decisions;

(7) Estimated resources to attain business goals; and

(8) Information on management decisions that could have a significant bearing on costs.

Cost realism means that the costs in an offeror's proposal-

(1) Are realistic for the work to be performed;

(2) Reflect a clear understanding of the requirements; and

(3) Are consistent with the various elements of the offeror's technical proposal.

Cost sharing means an explicit arrangement under which the contractor bears some of the burden of reasonable, allocable, and allowable contract cost.

Customs territory of the United States means the 50 States, the District of Columbia, and Puerto Rico.

Covered territory business, as defined at 15 U.S.C. 632(ff) and 13 CFR 125.1, means a small business concern that has its principal office located in the United States Virgin Islands, American Samoa, Guam, or the Commonwealth of the Northern Mariana Islands.

Data other than certified cost or pricing data means pricing data, cost data, and judgmental information necessary for the contracting officer to determine a fair and reasonable price or to determine cost realism. Such data may include the identical types of data as certified cost or pricing data, consistent with Table 15-2 of 15.408, but without the certification. The data may also include, for example, sales data and any information reasonably required to explain the offeror’s estimating process, including, but not limited to–

(1) The judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data; and

(2) The nature and amount of any contingencies included in the proposed price.

Day means, unless otherwise specified, a calendar day.

Debarment means action taken by a suspending and debarring official under 9.406 to exclude a contractor from Government contracting and Government-approved subcontracting for a reasonable, specified period; a contractor that is “debarred” is excluded.

Delivery order means an order for supplies placed against an established contract or with Government sources.

Depreciation means a charge to current operations that distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life refers to the prospective period of economic usefulness in a particular contractor’s operations as distinguished from physical life; it is evidenced by the actual or estimated retirement and replacement practice of the contractor.

Descriptive literature means information provided by an offeror, such as cuts, illustrations, drawings, and brochures, that shows a product’s characteristics or construction of a product or explains its operation. The term includes only that information needed to evaluate the acceptability of the product and excludes other information for operating or maintaining the product.

Design-to-cost means a concept that establishes cost elements as management goals to achieve the best balance between life-cycle cost, acceptable performance, and schedule. Under this concept, cost is a design constraint during the design and development phases and a management discipline throughout the acquisition and operation of the system or equipment.

Designated operational area means a geographic area designated by the combatant commander or subordinate joint force commander for the conduct or support of specified military operations.

Direct acquisition means a type of interagency acquisition where a requesting agency places an order directly against a servicing agency’s indefinite-delivery contract. The servicing agency manages the indefinite-delivery contract but does not participate in the placement or administration of an order.

Direct cost means any cost that is identified specifically with a particular final cost objective. Direct costs are not limited to items that are incorporated in the end product as material or labor. Costs identified specifically with a contract are direct costs of that contract. All costs identified specifically with other final cost objectives of the contractor are direct costs of those cost objectives.

Disaster Response Registry means a voluntary registry of contractors who are willing to perform debris removal, distribution of supplies, reconstruction, and other disaster or emergency relief activities established in accordance with 6 U.S.C. 796, Registry of Disaster Response Contractors. The Registry contains information on contractors who are willing to perform disaster or emergency relief activities within the United States and its outlying areas. The Registry is accessed via the Internet at https://www.sam.gov, Search Records, Advanced Search, Disaster Response Registry Search. (See 26.205.)

Drug-free workplace means the site(s) for the performance of work done by the contractor in connection with a specific contract where employees of the contractor are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance.

Earned value management system means a project management tool that effectively integrates the project scope of work with cost, schedule and performance elements for optimum project planning and control. The qualities and operating characteristics of an earned value management system are described in Electronic Industries Alliance Standard 748 (EIA-748), Earned Value Management Systems. (See OMB Circular A-11, part 7.)

Economically disadvantaged women-owned small business (EDWOSB) concern- (see definition of "Women-Owned Small Business (WOSB) Program" in this section).

Effective date of termination means the date on which the notice of termination requires the contractor to stop performance under the contract. If the contractor receives the termination notice after the date fixed for termination, then the effective date of termination means the date the contractor receives the notice.

Electronic commerce means electronic techniques for accomplishing business transactions including electronic mail or messaging, World Wide Web technology, electronic bulletin boards, purchase cards, electronic funds transfer, and electronic data interchange.

Electronic data interchange (EDI) means a technique for electronically transferring and storing formatted information between computers utilizing established and published formats and codes, as authorized by the applicable Federal Information Processing Standards.

Electronic Funds Transfer (EFT) means any transfer of funds, other than a transaction originated by cash, check, or similar paper instrument, that is initiated through an electronic terminal, telephone, computer, or magnetic tape, for the purpose of ordering, instructing, or authorizing a financial institution to debit or credit an account. The term includes Automated Clearing House transfers, Fedwire transfers, and transfers made at automatic teller machines and point-of-sale terminals. For purposes of compliance with 31 U.S.C.3332 and implementing regulations at 31 CFR part 208, the term "electronic funds transfer" includes a Governmentwide commercial purchase card transaction.

Electronic Funds Transfer (EFT) indicator means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

Emergency, as used in 6.208, 13.201, 13.500, 18.001, 18.202, 18.203, and subpart 26.2, means any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States (42 U.S.C. 5122).

End product means supplies delivered under a line item of a Government contract, except for use in part 25 and the associated clauses at 52.225-1, 52.225-3, and 52.225-5, see the definitions in 25.003, 52.225-1(a), 52.225-3(a), and 52.225-5(a).

Excess personal property means any personal property under the control of a Federal agency that the agency head determines is not required for its needs or for the discharge of its responsibilities.

Executive agency means an executive department, a military department, or any independent establishment within the meaning of 5 U.S.C.101, 102, and 104(1), respectively, and any wholly owned Government corporation within the meaning of 31 U.S.C. 9101.

Facilities capital cost of money means "cost of money as an element of the cost of facilities capital" as used at 48 CFR 9904.414-Cost Accounting Standard-Cost of Money as an Element of the Cost of Facilities Capital.

Federal agency means any executive agency or any independent establishment in the legislative or judicial branch of the Government (except the Senate, the House of Representatives, the Architect of the Capitol, and any activities under the Architect's direction).

Federally-controlled facilities means—

(1) Federally-owned buildings or leased space, whether for single or multi-tenant occupancy, and its grounds and approaches, all or any portion of which is under the jurisdiction, custody or control of a department or agency;

(2) Federally-controlled commercial space shared with non-government tenants. For example, if a department or agency leased the 10th floor of a commercial building, the Directive applies to the 10th floor only;

(3) Government-owned, contractor-operated facilities, including laboratories engaged in national defense research and production activities; and

(4) Facilities under a management and operating contract, such as for the operation, maintenance, or support of a Government-owned or Government-controlled research, development, special production, or testing establishment.

Federally-controlled information system means an information system (44 U.S.C. 3502(8) used or operated by a Federal agency, or a contractor or other organization on behalf of the agency (44 U.S.C. 3544(a)(1)(A)).

Federally Funded Research and Development Centers (FFRDC's) means activities that are sponsored under a broad charter by a Government agency (or agencies) for the purpose of performing, analyzing, integrating, supporting, and/or managing basic or applied research and/or development, and that receive 70 percent or more of their financial support from the Government; and-

(1) A long-term relationship is contemplated;

(2) Most or all of the facilities are owned or funded by the Government; and

(3) The FFRDC has access to Government and supplier data, employees, and facilities beyond that common in a normal contractual relationship.

Final indirect cost rate means the indirect cost rate established and agreed upon by the Government and the contractor as not subject to change. It is usually established after the close of the contractor's fiscal year (unless the parties decide upon a different period) to which it applies. For cost-reimbursement research and development contracts with educational institutions, it may be predetermined; that is, established for a future period on the basis of cost experience with similar contracts, together with supporting data.

First article means a preproduction model, initial production sample, test sample, first lot, pilot lot, or pilot models.

First article testing means testing and evaluating the first article for conformance with specified contract requirements before or in the initial stage of production.

F.o.b. means free on board. This term is used in conjunction with a physical point to determine-

(1) The responsibility and basis for payment of freight charges; and

(2) Unless otherwise agreed, the point where title for goods passes to the buyer or consignee.

F.o.b. destination means free on board at destination; *i.e.,* the seller or consignor delivers the goods on seller's or consignor's conveyance at destination. Unless the contract provides otherwise, the seller or consignor is responsible for the cost of shipping and risk of loss. For use in the clause at 52.247-34, see the definition at 52.247-34(a).

F.o.b. origin means free on board at origin; *i.e.,* the seller or consignor places the goods on the conveyance. Unless the contract provides otherwise, the buyer or consignee is responsible for the cost of shipping and risk of loss. For use in the clause at 52.247-29, see the definition at 52.247-29(a).

F.o.b.... (For other types of F.o.b., see 47.303).

Forward pricing rate agreement means a written agreement negotiated between a contractor and the Government to make certain rates available during a specified period for use in pricing contracts or modifications. These rates represent reasonable projections of specific costs that are not easily estimated for, identified with, or generated by a specific contract, contract end item, or task. These projections may include rates for such things as labor, indirect costs, material obsolescence and usage, spare parts provisioning, and material handling.

Forward pricing rate recommendation means a rate set unilaterally by the administrative contracting officer for use by the Government in negotiations or other contract actions when forward pricing rate agreement negotiations have not been completed or when the contractor will not agree to a forward pricing rate agreement.

Freight means supplies, goods, and transportable property.

Full and open competition, when used with respect to a contract action, means that all responsible sources are permitted to compete.

General and administrative (G&A) expense means any management, financial, and other expense which is incurred by or allocated to a business unit and which is for the general management and administration of the business unit as a whole. G&A expense does not include those management expenses whose beneficial or causal relationship to cost objectives can be more directly measured by a base other than a cost input base representing the total activity of a business unit during a cost accounting period.

Governmentwide acquisition contract (GWAC) means a task-order or delivery-order contract for information technology established by one agency for Governmentwide use that is operated-

(1) By an executive agent designated by the Office of Management and Budget pursuant to 40 U.S.C. 11302(e); or

(2) Under a delegation of procurement authority issued by the General Services Administration (GSA) prior to August 7,1996, under authority granted GSA by former section 40 U.S.C. 759, repealed by Pub. L. 104-106. The Economy Act does not apply to orders under a Governmentwide acquisition contract.

Governmentwide commercial purchase card means a purchase card, similar in nature to a commercial credit card, issued to authorized agency personnel to use to acquire and to pay for supplies and services.

Governmentwide point of entry (GPE) means the single point where Government business opportunities, including synopses of proposed contract actions, solicitations, and associated information, can be accessed electronically by the public. The GPE is located at https://www.sam.gov.

Head of the agency (see "agency head").

Head of the contracting activity means the official who has overall responsibility for managing the contracting activity.

Historically black college or university means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 608.2.

HUBZone means a historically underutilized business zone that is an area located within one or more qualified census tracts, qualified nonmetropolitan counties, lands within the external boundaries of an Indian reservation, qualified base closure areas, redesignated areas, governor-designated covered areas, or qualified disaster areas, as defined in 13 CFR 126.103.

HUBZone contract means a contract awarded to a Small Business Administration certified "HUBZone small business concern" through any of the following procurement methods:

(1) A sole-source award to a HUBZone small business concern.

(2) Set-aside awards based on competition restricted to HUBZone small business concerns.

(3) Awards to HUBZone small business concerns through full and open competition after a price evaluation preference in favor of HUBZone small business concerns.

(4) Awards based on a reserve for HUBZone small business concerns in a solicitation for a multiple-award contract.

HUBZone small business concern means a small business concern that meets the requirements described in 13 CFR 126.200, is certified by the Small Business Administration (SBA) and designated by SBA as a HUBZone small business concern in the Dynamic Small Business Search (DSBS) (13 CFR 126.103). SBA's designation also appears in SAM.

Humanitarian or peacekeeping operation means a military operation in support of the provision of humanitarian or foreign disaster assistance or in support of a peacekeeping operation under chapter VI or VII of the Charter of the United Nations. The term does not include routine training, force rotation, or stationing ((10 U.S.C. 3015(2) and 41 U.S.C. 153(2)).

In writing, "writing," or "written" means any worded or numbered expression that can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

Indirect cost means any cost not directly identified with a single final cost objective, but identified with two or more final cost objectives or with at least one intermediate cost objective.

Indirect cost rate means the percentage or dollar factor that expresses the ratio of indirect expense incurred in a given period to direct labor cost, manufacturing cost, or another appropriate base for the same period (see also "final indirect cost rate").

Ineligible means excluded from Government contracting (and subcontracting, if appropriate) pursuant to statutory, Executive order, or regulatory authority other than this regulation (48 CFR chapter 1) and its implementing and supplementing regulations; for example, pursuant to–

(1) 40 U.S.C. chapter 31, subchapter IV, Wage Rate Requirements (Construction), and its related statutes and implementing regulations;

(2) 41 U.S.C. chapter 67, Service Contract Labor Standards;

(3) The Equal Employment Opportunity Acts and Executive orders;

(4) 41 U.S.C. chapter 65, Contracts for Material, Supplies, Articles, and Equipment Exceeding $10,000;

(5) 41 U.S.C. chapter 83, Buy American; or

(6) The Environmental Protection Acts and Executive orders.

Information and communication technology (ICT) means information technology and other equipment, systems, technologies, or processes, for which the principal function is the creation, manipulation, storage, display, receipt, or transmission of electronic data and information, as well as any associated content. Examples of ICT include but are not limited to the following: Computers and peripheral equipment; information kiosks and transaction machines; telecommunications equipment; customer premises equipment; multifunction office machines; software; applications; websites; videos; and electronic documents.

Information security means protecting information and information systems from unauthorized access, use, disclosure, disruption, modification, or destruction in order to provide-

(1) Integrity, which means guarding against improper information modification or destruction, and includes ensuring information nonrepudiation and authenticity;

(2) Confidentiality, which means preserving authorized restrictions on access and disclosure, including means for protecting personal privacy and proprietary information; and

(3) Availability, which means ensuring timely and reliable access to, and use of, information.

Information technology means any equipment, or interconnected system(s) or subsystem(s) of equipment, that is used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the agency.

(1) For purposes of this definition, equipment is used by an agency if the equipment is used by the agency directly or is used by a contractor under a contract with the agency that requires-

(i) Its use; or

(ii) To a significant extent, its use in the performance of a service or the furnishing of a product.

(2) The term "information technology" includes computers, ancillary equipment (including imaging peripherals, input, output, and storage devices necessary for security and surveillance), peripheral equipment designed to be controlled by the central processing unit of a computer, software, firmware and similar procedures, services (including support services), and related resources.

(3) The term "information technology" does not include any equipment that-

(i) Is acquired by a contractor incidental to a contract; or

(ii) Contains imbedded information technology that is used as an integral part of the product, but the principal function of which is not the acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. For example, HVAC (heating, ventilation, and air conditioning) equipment, such as thermostats or temperature control devices, and medical equipment where information technology is integral to its operation, are not information technology.

Inherently governmental function means, as a matter of policy, a function that is so intimately related to the public interest as to mandate performance by Government employees. This definition is a policy determination, not a legal determination. An inherently governmental function includes activities that require either the exercise of discretion in applying Government authority, or the making of value judgments in making decisions for the Government. Governmental functions normally fall into two categories: the act of governing, *i.e.,* the discretionary exercise of Government authority, and monetary transactions and entitlements.

(1) An inherently governmental function involves, among other things, the interpretation and execution of the laws of the United States so as to-

(i) Bind the United States to take or not to take some action by contract, policy, regulation, authorization, order, or otherwise;

(ii) Determine, protect, and advance United States economic, political, territorial, property, or other interests by military or diplomatic action, civil or criminal judicial proceedings, contract management, or otherwise;

(iii) Significantly affect the life, liberty, or property of private persons;

(iv) Commission, appoint, direct, or control officers or employees of the United States; or

(v) Exert ultimate control over the acquisition, use, or disposition of the property, real or personal, tangible or intangible, of the United States, including the collection, control, or disbursement of Federal funds.

(2) Inherently governmental functions do not normally include gathering information for or providing advice, opinions, recommendations, or ideas to Government officials. They also do not include functions that are primarily ministerial and internal in nature, such as building security, mail operations, operation of cafeterias, housekeeping, facilities operations and maintenance, warehouse operations, motor vehicle fleet management operations, or other routine electrical or mechanical services.

Inspection means examining and testing supplies or services (including, when appropriate, raw materials, components, and intermediate assemblies) to determine whether they conform to contract requirements.

Insurance means a contract that provides that for a stipulated consideration, one party undertakes to indemnify another against loss, damage, or liability arising from an unknown or contingent event.

Interagency acquisition means a procedure by which an agency needing supplies or services (the requesting agency) obtains them from another agency (the servicing agency), by an assisted acquisition or a direct acquisition. The term includes —

(1) Acquisitions under the Economy Act (31 U.S.C. 1535); and

(2) Non-Economy Act acquisitions completed under other statutory authorities, (*e.g.*, General Services Administration Federal Supply Schedules in subpart 8.4 and Governmentwide acquisition contracts (GWACs)).

Invoice means a contractor's bill or written request for payment under the contract for supplies delivered or services performed (see also "proper invoice").

Irrevocable letter of credit means a written commitment by a federally insured financial institution to pay all or part of a stated amount of money, until the expiration date of the letter, upon the Government's (the beneficiary) presentation of a written demand for payment. Neither the financial institution nor the offeror/contractor can revoke or condition the letter of credit.

Labor surplus area means a geographical area identified by the Department of Labor in accordance with 20 CFR part 654, subpart A, as an area of concentrated unemployment or underemployment or an area of labor surplus.

Labor surplus area concern means a concern that together with its first-tier subcontractors will perform substantially in labor surplus areas. Performance is substantially in labor surplus areas if the costs incurred under the contract on account of manufacturing, production, or performance of appropriate services in labor surplus areas exceed 50 percent of the contract price.

Latent defect means a defect that exists at the time of acceptance but cannot be discovered by a reasonable inspection.

Line item means the basic structural element in a procurement instrument that describes and organizes the required product or service for pricing, delivery, inspection, acceptance, invoicing, and payment. The use of the term "line item" includes "subline item," as applicable.

Line item number means either a numeric or alphanumeric format to identify a line item.

Major disaster, as used in 6.208, 13.201, 13.500, 18.001, 18.202, 18.203, and subpart 26.2, means any natural catastrophe (including any hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought), or regardless of cause, any fire, flood, or explosion, in any part of the United States, which, in the determination of the President, causes damage of sufficient severity and magnitude to warrant major disaster assistance under the Stafford Act to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby (42 U.S.C. 5122).

Major system means that combination of elements that will function together to produce the capabilities required to fulfill a mission need. The elements may include hardware, equipment, software, or any combination thereof, but exclude construction or other improvements to real property. A system is a major system if-

(1) The Department of Defense is responsible for the system and the total expenditures for research, development, test, and evaluation for the system are estimated to be more than $185 million based on Fiscal Year 2014 constant dollars or the eventual total expenditure for the acquisition exceeds $835 million based on Fiscal Year 2014 constant dollars (or any update of these thresholds based on a more recent fiscal year, as specified in the DoD Instruction 5000.02, "Operation of the Defense Acquisition System");

(2) A civilian agency is responsible for the system and total expenditures for the system are estimated to exceed $3 million or the dollar threshold for a "major system" established by the agency pursuant to Office of Management and Budget Circular A-109, entitled "Major System Acquisitions," whichever is greater; or

(3) The system is designated a "major system" by the head of the agency responsible for the system (10 U.S.C. 3041 and 41 U.S.C. 109).

Make-or-buy program means that part of a contractor's written plan for a contract identifying those major items to be produced or work efforts to be performed in the prime contractor's facilities and those to be subcontracted.

Manufactured end product means any end product in product and service codes (PSC) 1000-9999, except-

(1) PSC 5510, Lumber and Related Basic Wood Materials;

(2) Product or service group (PSG) 87, Agricultural Supplies;

(3) PSG 88, Live Animals;

(4) PSG 89, Subsistence;

(5) PSC 9410, Crude Grades of Plant Materials;

(6) PSC 9430, Miscellaneous Crude Animal Products, Inedible;

(7) PSC 9440, Miscellaneous Crude Agricultural and Forestry Products;

(8) PSC 9610, Ores;

(9) PSC 9620, Minerals, Natural and Synthetic; and

(10) PSC 9630, Additive Metal Materials.

Market research means collecting and analyzing information about capabilities within the market to satisfy agency needs.

Master solicitation means a document containing special clauses and provisions that have been identified as essential for the acquisition of a specific type of supply or service that is acquired repetitively.

May denotes the permissive. However, the words "no person may..." mean that no person is required, authorized, or permitted to do the act described.

Micro-purchase means an acquisition of supplies or services, the aggregate amount of which does not exceed the micro-purchase threshold when using the procedures in subpart 12.4.

Micro-purchase threshold means $15,000, except it means-

(1) For acquisitions of construction subject to 40 U.S.C. chapter 31, subchapter IV, Wage Rate Requirements (Construction), $2,000;

(2) For acquisitions of services subject to 41 U.S.C. chapter 67, Service Contract Labor Standards, $2,500;

(3) For acquisitions of supplies or services that, as determined by the head of the agency, are to be used to support a contingency operation; to facilitate defense against or recovery from cyber, nuclear, biological, chemical or radiological attack; to support a request from the Secretary of State or the Administrator of the United States Agency for International

Development to facilitate provision of international disaster assistance pursuant to 22 U.S.C. 2292 *et seq.;* or to support response to an emergency or major disaster (42 U.S.C. 5122), as described in 13.201(g)(1), except for construction subject to 40 U.S.C. chapter 31, subchapter IV, Wage Rate Requirements (Construction) (41 U.S.C. 1903)—

(i) $25,000 in the case of any contract to be awarded and performed, or purchase to be made, inside the United States; and

(ii) $40,000 in the case of any contract to be awarded and performed, or purchase to be made, outside the United States; and

(4) For acquisitions of supplies or services from institutions of higher education (20 U.S.C. 1001(a)) or related or affiliated nonprofit entities, or from nonprofit research organizations or independent research institutes—

(i) $15,000; or

(ii) A higher threshold, as determined appropriate by the head of the agency and consistent with clean audit findings under 31 U.S.C. chapter 75, Requirements for Single Audits; an internal institutional risk assessment; or State law.

Minority Institution means an institution of higher education meeting the requirements of Section 365(3) of the Higher Education Act of 1965 (20 U.S.C. 1067k), including a Hispanic-serving institution of higher education, as defined in Section 502(a) of the Act (20 U.S.C. 1101a).

Multi-agency contract (MAC) means a task-order or delivery-order contract established by one agency for use by Government agencies to obtain supplies and services, consistent with the Economy Act (see 17.502-2). Multi-agency contracts include contracts for information technology established pursuant to 40 U.S.C. 11314(a)(2).

Multiple-award contract means a contract that is—

(1) A Multiple Award Schedule contract issued by GSA (*e.g.*, GSA Schedule Contract) or agencies granted Multiple Award Schedule contract authority by GSA (*e.g.*, Department of Veterans Affairs) as described in FAR part 38;

(2) A multiple-award task-order or delivery-order contract issued in accordance with FAR subpart 16.5, including Governmentwide acquisition contracts; or

(3) Any other indefinite-delivery, indefinite-quantity contract entered into with two or more sources pursuant to the same solicitation.

Must (see "shall").

National defense means any activity related to programs for military or atomic energy production or construction, military assistance to any foreign nation, stockpiling, or space, except that for use in subpart 11.6, see the definition in 11.601.

Neutral person means an impartial third party, who serves as a mediator, fact finder, or arbitrator, or otherwise functions to assist the parties to resolve the issues in controversy. A neutral person may be a permanent or temporary officer or employee of the Federal Government or any other individual who is acceptable to the parties. A neutral person must have no official, financial, or personal conflict of interest with respect to the issues in controversy, unless the interest is fully disclosed in writing to all parties and all parties agree that the neutral person may serve (5 U.S.C. 583).

Nondevelopmental item means —

(1) Any previously developed item of supply that is in use by a Federal agency, a State or local government, or a foreign government with which the United States has a mutual defense cooperation agreement;

(2) Any item described in paragraph (1) of this definition that requires only minor modification or modifications of a type customarily available in the commercial marketplace in order to meet the requirements of the procuring department or agency; or

(3) Any item of supply being produced that does not meet the requirements in paragraphs (1) or (2) solely because the item is not yet in use.

Novation agreement means a legal instrument-

(1) Executed by the-

(i) Contractor (transferor);

(ii) Successor in interest (transferee); and

(iii) Government; and

(2) By which, among other things, the transferor guarantees performance of the contract, the transferee assumes all obligations under the contract, and the Government recognizes the transfer of the contract and related assets.

Offer means a response to a solicitation that, if accepted, would bind the offeror to perform the resulting contract.

(1) It includes responses to invitations for bids (sealed bidding) called “bids” or “sealed bids” and responses to requests for proposals (negotiation) called “proposals.”

(2) It does not include responses to requests for quotations or “quotations.”

Offeror means an entity that makes an offer or bid.

Office of Small and Disadvantaged Business Utilization means the Office of Small Business Programs when referring to the Department of Defense.

OMB Uniform Guidance at 2 CFR part 200 is the abbreviated title for Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR part 200), which supersedes OMB Circulars A-21, A-87, A-89, A-102, A-110, A-122, and A-133, and the guidance in Circular A-50 on Audit Followup.

Option means a unilateral right in a contract by which, for a specified time, the Government may elect to purchase additional supplies or services called for by the contract, or may elect to extend the term of the contract.

Organizational conflict of interest means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the Government, or the person's objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage.

Outlying areas means-

(1) Commonwealths

(i) Puerto Rico.

(ii) The Northern Mariana Islands;

(2) *Territories*.

(i) American Samoa.

(ii) Guam.

(iii) U.S. Virgin Islands; and

(3) *Minor outlying islands*.

(i) Baker Island.

(ii) Howland Island.

(iii) Jarvis Island.

(iv) Johnston Atoll.

(v) Kingman Reef.

(vi) Midway Islands.

(vii) Navassa Island.

(viii) Palmyra Atoll.

(ix) Wake Atoll.

Overtime means time worked by a contractor's employee in excess of the employee's normal workweek.

Overtime premium means the difference between the contractor's regular rate of pay to an employee for the shift involved and the higher rate paid for overtime. It does not include shift premium, *i.e.,* the difference between the contractor's regular rate of pay to an employee and the higher rate paid for extra-pay-shift work.

Partial termination means the termination of a part, but not all, of the work that has not been completed and accepted under a contract.

Past performance means an offeror's or contractor's performance on active and physically completed contracts (see 4.804-4).

Performance-based acquisition (PBA) means an acquisition structured around the results to be achieved as opposed to the manner by which the work is to be performed.

Performance Work Statement (PWS) means a statement of work for performance-based acquisitions that describes the required results in clear, specific and objective terms with measurable outcomes.

Personal property means property of any kind or interest in it except real property, records of the Federal Government, and naval vessels of the following categories:

(1) Battleships;

(2) Cruisers;

(3) Aircraft carriers;

(4) Destroyers; and

(5) Submarines.

Personal services contract means a contract that, by its express terms or as administered, makes the contractor personnel appear to be, in effect, Government employees (see 37.104).

Plant clearance officer means an authorized representative of the contracting officer, appointed in accordance with agency procedures, responsible for screening, redistributing, and disposing of contractor inventory from a contractor's plant or work site. The term "Contractor's plant" includes, but is not limited to, Government-owned contractor-operated plants, Federal installations, and Federal and non-Federal industrial operations, as may be required under the scope of the contract.

Power of attorney means the authority given one person or corporation to act for and obligate another, as specified in the instrument creating the power; in corporate suretyship, an instrument under seal that appoints an attorney-in-fact to act in behalf of a surety company in signing bonds (see also "attorney-in-fact" at 28.001).

Preaward survey means an evaluation of a prospective contractor's capability to perform a proposed contract.

Preponderance of the evidence means proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Pricing means the process of establishing a reasonable amount or amounts to be paid for supplies or services.

Principal means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

Procurement (see "acquisition").

Procuring activity means a component of an executive agency having a significant acquisition function and designated as such by the head of the agency. Unless agency regulations specify otherwise, the term "procuring activity" is synonymous with "contracting activity."

Products has the same meaning as "supplies."

Projected average loss means the estimated long-term average loss per period for periods of comparable exposure to risk of loss.

Proper invoice means an invoice that meets the minimum standards specified in 32.905(b).

Purchase order, when issued by the Government, means an offer by the Government to buy supplies or services, including construction and research and development, upon specified terms and conditions, using simplified procedures (see 12.201-1 and part 13).

Qualification requirement means a Government requirement for testing or other quality assurance demonstration that must be completed before award of a contract.

Qualified products list (QPL) means a list of products that have been examined, tested, and have satisfied all applicable qualification requirements.

Qualifying offeror, as used in 13.106-1 and 15.304, means an offeror that is determined to be a responsible source, submits a technically acceptable proposal that conforms to the requirements of the solicitation, and the contracting officer has no reason to believe would be likely to offer other than fair and reasonable pricing (10 U.S.C. 3206(c)(4)).

Receiving report means written evidence that indicates Government acceptance of supplies delivered or services performed (see subpart 46.6). Receiving reports must meet the requirements of 32.905(c).

Recovered material means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process (42 U.S.C. 6903).

Registered in the System for Award Management (SAM) means that—

(1) The Contractor has entered all mandatory information, including the unique entity identifier and the Electronic Funds Transfer indicator (if applicable), the Commercial and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14), into SAM;

(2) The Contractor has completed the Core, Assertions, Representations and Certifications, and Points of Contact sections of the registration in SAM;

(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The contractor will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and

(4) The Government has marked the record Active.

Requesting agency means the agency that has the requirement for an interagency acquisition.

Residual value means the proceeds, less removal and disposal costs, if any, realized upon disposition of a tangible capital asset. It usually is measured by the net proceeds from the sale or other disposition of the asset, or its fair value if the asset is traded in on another asset. The estimated residual value is a current forecast of the residual value.

Responsible audit agency means the agency that is responsible for performing all required contract audit services at a business unit.

Responsible prospective contractor means a contractor that meets the standards in 9.104.

Reverse auction means the process for obtaining pricing, usually supported by an electronic tool, in which offerors see competing offerors' price(s), without disclosure of the competing offerors' identity, and have the opportunity to submit lower priced offers until the close of the auction.

Scrap means personal property that has no value except its basic metallic, mineral, or organic content.

Segment means one of two or more divisions, product departments, plants, or other subdivisions of an organization reporting directly to a home office, usually identified with responsibility for profit and/or producing a product or service. The term includes-

(1) Government-owned contractor-operated (GOCO) facilities; and

(2) Joint ventures and subsidiaries (domestic and foreign) in which the organization has-

(i) A majority ownership; or

(ii) Less than a majority ownership, but over which it exercises control.

Self-insurance means the assumption or retention of the risk of loss by the contractor, whether voluntarily or involuntarily. Self-insurance includes the deductible portion of purchased insurance.

Senior procurement executive means the individual appointed pursuant to 41 U.S.C. 1702(c) who is responsible for management direction of the acquisition system of the executive agency, including implementation of the unique acquisition policies, regulations, and standards of the executive agency.

Service-disabled veteran-owned small business (SDVOSB) concern means a small business concern–

(1) (i) Not less than 51 percent of which is owned and controlled by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and

(ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a service-disabled veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran; or

(2) A small business concern eligible under the SDVOSB Program in accordance with 13 CFR part 128 (see subpart 19.14).

(3) *Service-disabled veteran*, as used in this definition, means a veteran as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16), and who is registered in the Beneficiary Identification and Records Locator Subsystem, or successor system that is maintained by the Department of Veterans Affairs' Veterans Benefits Administration, as a service-disabled veteran.

Service-disabled veteran-owned small business (SDVOSB) concern eligible under the SDVOSB Program means an SDVOSB concern that—

(1) Effective January 1, 2024, is designated in the System for Award Management (SAM) as certified by the Small Business Administration (SBA) in accordance with 13 CFR 128.300; or

(2) Has represented that it is an SDVOSB concern in SAM and submitted a complete application for certification to SBA on or before December 31, 2023.

Service-disabled veteran-owned small business (SDVOSB) Program means a program that authorizes contracting officers to limit competition, including award on a sole-source basis, to SDVOSB concerns eligible under the SDVOSB Program.

Servicing agency means the agency that will conduct an assisted acquisition on behalf of the requesting agency.

Shall denotes the imperative.

Shipment means freight transported or to be transported.

Shop drawings means drawings submitted by the construction contractor or a subcontractor at any tier or required under a construction contract, showing in detail either or both of the following:

(1) The proposed fabrication and assembly of structural elements.

(2) The installation (*i.e.,* form, fit, and attachment details) of materials or equipment.

Should means an expected course of action or policy that is to be followed unless inappropriate for a particular circumstance.

Signature or "signed" means the discrete, verifiable symbol of an individual that, when affixed to a writing with the knowledge and consent of the individual, indicates a present intention to authenticate the writing. This includes electronic symbols.

Simplified acquisition procedures means the methods prescribed in part 13 for making purchases of supplies or services.

Simplified acquisition threshold means $350,000, except for—

(1) Acquisitions of supplies or services that, as determined by the head of the agency, are to be used to support a contingency operation; to facilitate defense against or recovery from cyber, nuclear, biological, chemical, or radiological attack; to support a request from the Secretary of State or the Administrator of the United States Agency for International Development to facilitate provision of international disaster assistance pursuant to 22 U.S.C. 2292 *et seq.;* or to support response to an emergency or major disaster (42 U.S.C. 5122), (41 U.S.C. 1903), the term means—

(i) $1 million for any contract to be awarded and performed, or purchase to be made, inside the United States; and

(ii) $2 million for any contract to be awarded and performed, or purchase to be made, outside the United States; and

(2) Acquisitions of supplies or services that, as determined by the head of the agency, are to be used to support a humanitarian or peacekeeping operation (10 U.S.C. 3015), the term means $650,000 for any contract to be awarded and performed, or purchase to be made, outside the United States.

Single, Governmentwide point of entry, means the one point of entry to be designated by the Administrator of OFPP that will allow the private sector to electronically access procurement opportunities Governmentwide.

Small business concern—

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria and size standards in 13 CFR part 121 (see 19.102).

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

Small business subcontractor means a concern that does not exceed the size standard for the North American Industry Classification Systems code that the prime contractor determines best describes the product or service being acquired by the subcontract.

Small Business Teaming Arrangement—

(1) Means an arrangement where–

(i) Two or more small business concerns have formed a joint venture; or

(ii) A small business offeror agrees with one or more other small business concerns to have them act as its subcontractors under a specified Government contract. A Small Business Teaming Arrangement between the offeror and its small business subcontractor(s) exists through a written agreement between the parties that–

(A) Is specifically referred to as a "Small Business Teaming Arrangement"; and

(B) Sets forth the different responsibilities, roles, and percentages (or other allocations) of work as it relates to the acquisition;

(2) (i) For civilian agencies, may include two business concerns in a mentor-protégé relationship when both the mentor and the protégé are small or the protégé is small and the concerns have received an exception to affiliation pursuant to 13 CFR 121.103(h)(3)(ii) or (iii).

(ii) For DoD, may include two business concerns in a mentor-protégé relationship in the DoD Mentor-Protégé Program (see 10 U.S.C. 4902) when both the mentor and the protégé are small. There is no exception to joint venture size affiliation for offers received from teaming arrangements under the DoD Mentor-Protégé Program; and

(3) See 13 CFR 121.103(b)(9) regarding the exception to affiliation for offers received from Small Business Teaming Arrangements in the case of a solicitation of offers for a bundled contract with a reserve.

Small disadvantaged business concern consistent with 13 CFR 124.1001, means a small business concern under the size standard applicable to the acquisition, that:

(1) Is at least 51 percent unconditionally and directly owned (as defined at 13 CFR 124.105) by—

(i) One or more socially disadvantaged (as defined at 13 CFR 124.103) and economically disadvantaged (as defined at 13 CFR 124.104) individuals who are citizens of the United States; and

(ii) Each individual claiming economic disadvantage has a net worth not exceeding the threshold at 13 CFR 124.104(c)(2) after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(2) The management and daily business operations of which are controlled (as defined at 13 CFR 124.106) by individuals who meet the criteria in paragraphs (1)(i) and (ii) of this definition.

Sole source acquisition means a contract for the purchase of supplies or services that is entered into or proposed to be entered into by an agency after soliciting and negotiating with only one source.

Solicitation means any request to submit offers or quotations to the Government. Solicitations under sealed bid procedures are called "invitations for bids." Solicitations under negotiated procedures are called "requests for proposals." Solicitations under simplified acquisition procedures may require submission of either a quotation or an offer.

Solicitation provision or provision means a term or condition used only in solicitations and applying only before contract award.

Source selection information means any of the following information that is prepared for use by an agency for the purpose of evaluating a bid or proposal to enter into an agency procurement contract, if that information has not been previously made available to the public or disclosed publicly:

(1) Bid prices submitted in response to an agency invitation for bids, or lists of those bid prices before bid opening.

(2) Proposed costs or prices submitted in response to an agency solicitation, or lists of those proposed costs or prices.

(3) Source selection plans.

(4) Technical evaluation plans.

(5) Technical evaluations of proposals.

(6) Cost or price evaluations of proposals.

(7) Competitive range determinations that identify proposals that have a reasonable chance of being selected for award of a contract.

(8) Rankings of bids, proposals, or competitors.

(9) Reports and evaluations of source selection panels, boards, or advisory councils.

(10) Other information marked as "Source Selection Information-See FAR 2.101 and 3.104" based on a case-by-case determination by the head of the agency or the contracting officer, that its disclosure would jeopardize the integrity or successful completion of the Federal agency procurement to which the information relates.

Special competency means a special or unique capability, including qualitative aspects, developed incidental to the primary functions of the Federally Funded Research and Development Centers to meet some special need.

Special test equipment means either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special purpose testing in performing a contract. It consists of items or assemblies of equipment including foundations and similar improvements necessary for installing special test equipment, and standard or general purpose items or components that are interconnected and interdependent so as to become a new functional entity for special testing purposes. Special test equipment does not include material, special tooling, real property, and equipment items used for general testing purposes or property that with relatively minor expense can be made suitable for general purpose use.

Special tooling means jigs, dies, fixtures, molds, patterns, taps, gauges, and all components of these items including foundations and similar improvements necessary for installing special tooling, and which are of such a specialized nature that without substantial modification or alteration their use is limited to the development or production of particular supplies or parts thereof or to the performance of particular services. Special tooling does not include material, special test equipment, real property, equipment, machine tools, or similar capital items.

State and local taxes means taxes levied by the States, the District of Columbia, outlying areas of the United States, or their political subdivisions.

Statement of Objectives (SOO) means a Government-prepared document incorporated into the solicitation that states the overall performance objectives. It is used in solicitations when the Government intends to provide the maximum flexibility to each offeror to propose an innovative approach.

Subline item means a subset of a line item.

Substantial evidence means information sufficient to support the reasonable belief that a particular act or omission has occurred.

Substantially as follows or "substantially the same as," when used in the prescription and introductory text of a provision or clause, means that authorization is granted to prepare and utilize a variation of that provision or clause to accommodate requirements that are peculiar to an individual acquisition; provided that the variation includes the salient features of the FAR provision or clause, and is not inconsistent with the intent, principle, and substance of the FAR provision or clause or related coverage of the subject matter.

Supplemental agreement means a contract modification that is accomplished by the mutual action of the parties.

Supplies means all property except land or interest in land. It includes (but is not limited to) public works, buildings, and facilities; ships, floating equipment, and vessels of every character, type, and description, together with parts and accessories; aircraft and aircraft parts, accessories, and equipment; machine tools; and the alteration or installation of any of the foregoing.

Supporting a diplomatic or consular mission means performing outside the United States under a contract administered by Federal agency personnel who are subject to the direction of a Chief of Mission.

Surety means an individual or corporation legally liable for the debt, default, or failure of a principal to satisfy a contractual obligation. The types of sureties referred to are as follows:

(1) An individual surety is one person, as distinguished from a business entity, who is liable for the entire penal amount of the bond.

(2) A corporate surety is licensed under various insurance laws and, under its charter, has legal power to act as surety for others.

(3) A cosurety is one of two or more sureties that are jointly liable for the penal sum of the bond. A limit of liability for each surety may be stated.

Surplus property means excess personal property not required by any Federal agency as determined by the Administrator of the General Services Administration (GSA). (See 41 CFR 102-36.40).

Suspending and debarring official means—

(1) An agency head; or

(2) A designee authorized by the agency head to impose a suspension and/or a debarment.

Suspension means action taken by a suspending and debarring official under 9.407 to disqualify a contractor temporarily from Government contracting and Government-approved subcontracting; a contractor that is "suspended" is disqualified.

System for Award Management (SAM) means the primary Government repository for prospective Federal awardee and Federal awardee information and the centralized Government system for certain contracting, grants, and other assistance-related processes. It includes—

(1) Data collected from prospective Federal awardees required for the conduct of business with the Government;

(2) Prospective contractor-submitted annual representations and certifications in accordance with FAR subpart 4.12; and

(3) Identification of those parties excluded from receiving Federal contracts, certain subcontracts, and certain types of Federal financial and non-financial assistance and benefits.

Task order means an order for services placed against an established contract or with Government sources.

Taxpayer Identification Number (TIN) means the number required by the IRS to be used by the offeror in reporting income tax and other returns. The TIN may be either a Social Security Number or an Employer Identification Number.

Technical data means recorded information (regardless of the form or method of the recording) of a scientific or technical nature (including computer databases and computer software documentation). This term does not include computer software or financial, administrative, cost or pricing, or management data or other information incidental to contract administration. The term includes recorded information of a scientific or technical nature that is included in computer databases (see 41 U.S.C. 116).

Terminated portion of the contract means the portion of a contract that the contractor is not to perform following a partial termination. For construction contracts that have been completely terminated for convenience, it means the entire contract, notwithstanding the completion of, and payment for, individual items of work before termination.

Termination for convenience means the exercise of the Government's right to completely or partially terminate performance of work under a contract when it is in the Government's interest.

Termination for default means the exercise of the Government's right to completely or partially terminate a contract because of the contractor's actual or anticipated failure to perform its contractual obligations.

Termination inventory means any property purchased, supplied, manufactured, furnished, or otherwise acquired for the performance of a contract subsequently terminated and properly allocable to the terminated portion of the contract. It includes Government-furnished property. It does not include any facilities, material, special test equipment, or special tooling that are subject to a separate contract or to a special contract requirement governing their use or disposition.

Unallowable cost means any cost that, under the provisions of any pertinent law, regulation, or contract, cannot be included in prices, cost-reimbursements, or settlements under a Government contract to which it is allocable.

Unique and innovative concept, when used relative to an unsolicited research proposal, means that-

(1) In the opinion and to the knowledge of the Government evaluator, the meritorious proposal-

(i) Is the product of original thinking submitted confidentially by one source;

(ii) Contains new, novel, or changed concepts, approaches, or methods;

(iii) Was not submitted previously by another; and

(iv) Is not otherwise available within the Federal Government.

(2) In this context, the term does not mean that the source has the sole capability of performing the research.

Unique entity identifier means a number or other identifier used to identify a specific commercial, nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing unique entity identifiers.

United States, when used in a geographic sense, means the 50 States and the District of Columbia, except as follows:

(1) For use in subpart 3.10, see the definition at 3.1001.

(2) For use in subpart 22.8, see the definition at 22.801.

(3) For use in subpart 22.10, see the definition at 22.1001.

(4) For use in subpart 22.13, see the definition at 22.1301.

(5) For use in subpart 22.16, see the definition at 22.1601.

(6) For use in subpart 22.17, see the definition at 22.1702.

(7) For use in subpart 22.18, see the definition at 22.1801.

(8) For use in subpart 22.19, see the definition at 22.1901.

(9) [Reserved]

(10) For use in part 25, see the definition at 25.003.

(11) For use in part 27, see the definition at 27.001.

(12) For use in subpart 47.4, see the definition at 47.401.

Unsolicited proposal means a written proposal for a new or innovative idea that is submitted to an agency on the initiative of the offeror for the purpose of obtaining a contract with the Government, and that is not in response to a request for proposals, Broad Agency Announcement, Small Business Innovation Research topic, Small Business Technology Transfer Research topic, Program Research and Development Announcement, or any other Government-initiated solicitation or program.

Value engineering means an analysis of the functions of a program, project, system, product, item of equipment, building, facility, service, or supply of an executive agency, performed by qualified agency or contractor personnel, directed at improving performance, reliability, quality, safety, and life-cycle costs (41 U.S.C. 1711). For use in the clause at 52.248-2, see the definition at 52.248-2(b).

Value engineering change proposal (VECP)—

(1) Means a proposal that–

(i) Requires a change to the instant contract to implement; and

(ii) Results in reducing the overall projected cost to the agency without impairing essential functions or characteristics, provided, that it does not involve a change–

(A) In deliverable end item quantities only;

(B) In research and development (R&D) items or R&D test quantities that are due solely to results of previous testing under the instant contract; or

(C) To the contract type only.

(2) For use in the clauses at-

(i) 52.248-2, see the definition at 52.248-2(b); and

(ii) 52.248-3, see the definition at 52.248-3(b).

Veteran-owned small business concern means a small business concern—

(1) Not less than 51 percent of which is owned and controlled by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and

(2) The management and daily business operations of which are controlled by one or more veterans.

Virgin material means—

(1) Previously unused raw material, including previously unused copper, aluminum, lead, zinc, iron, other metal or metal ore; or

(2) Any undeveloped resource that is, or with new technology will become, a source of raw materials.

Voluntary consensus standards means common and repeated use of rules, conditions, guidelines or characteristics for products, or related processes and production methods and related management systems. Voluntary Consensus Standards are developed or adopted by domestic and international voluntary consensus standard making bodies (*e.g.*, International Organization for Standardization (ISO) and ASTM-International). See OMB Circular A-119.

Warranty means a promise or affirmation given by a contractor to the Government regarding the nature, usefulness, or condition of the supplies or performance of services furnished under the contract.

Women-owned small business concern means—

(1) A small business concern–

(i) That is at least 51 percent owned by one or more women; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and

(ii) Whose management and daily business operations are controlled by one or more women; or

(2) A small business concern eligible under the Women-Owned Small Business Program in accordance with 13 CFR part 127 (see subpart 19.15).

Women-Owned Small Business (WOSB) Program.

(1) "Women-Owned Small Business (WOSB) Program" means a program that authorizes contracting officers to limit competition, including award on a sole-source basis, to—

(i) Economically disadvantaged women-owned small business (EDWOSB) concerns eligible under the WOSB Program for Federal contracts assigned a North American Industry Classification Systems (NAICS) code in an industry in which the Small Business Administration (SBA) has determined that WOSB concerns are underrepresented in Federal procurement; and

(ii) WOSB concerns eligible under the WOSB Program for Federal contracts assigned a NAICS code in an industry in which SBA has determined that WOSB concerns are substantially underrepresented in Federal procurement.

(2) "Economically disadvantaged women-owned small business (EDWOSB) concern" means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States and who are economically disadvantaged in accordance with 13 CFR part 127, and the concern is certified by SBA or an approved third-party certifier in accordance with 13 CFR 127.300 . It automatically qualifies as a women-owned small business (WOSB) concern eligible under the WOSB Program.

(3) "Women-owned small business (WOSB)" concern eligible under the WOSB Program means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States, and the concern is certified by SBA or an approved third-party certifier in accordance with 13 CFR 127.300.

Writing or written (see "in writing").

Subpart 2.2 - Definitions Clause

2.201 Contract clause.

Insert the clause at 52.202-1, Definitions, in solicitations and contracts that exceed the simplified acquisition threshold.

This page intentionally left blank.

PART 3 - IMPROPER BUSINESS PRACTICES AND PERSONAL CONFLICTS OF INTEREST

Subpart 3.9 - Whistleblower Protections for Contractor Employees

Subpart 3.10 - Contractor Code of Business Ethics and Conduct

Subpart 3.11 - Preventing Personal Conflicts of Interest for Contractor Employees Performing Acquisition Functions

3.000 Scope of part.

This part prescribes policies and procedures for avoiding improper business practices and personal conflicts of interest and for dealing with their apparent or actual occurrence.

Subpart 3.1 - Safeguards

3.101 Standards of conduct.

3.101-1 General.

Government business must be conducted in a manner above reproach. Except as authorized by statute or regulation, business must be conducted with complete impartiality and without preferential treatment for anyone. Transactions involving public funds require the highest degree of public trust and impeccable standards of conduct. The general rule is to avoid any conflict of interest or even the appearance of a conflict of interest in Government-contractor relationships. Many Federal laws restrict Government personnel actions. Beyond these restrictions, official conduct must meet a standard where personnel would have no reluctance to fully disclose their actions to the public.

3.101-2 Solicitation and acceptance of gratuities by Government personnel.

(a) As a rule, and as required by Executive Order 12731, no Government employee may solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who-

(1) Has or is seeking to obtain Government business with the employee's agency;

(2) Conducts activities that are regulated by the employee's agency; or

(3) Has interests that may be substantially affected by the performance or nonperformance of the employee's official duties.

(b) Certain limited exceptions are authorized in agency regulations.

3.101-3 Agency regulations.

(a) Agencies must prescribe *Standards of Conduct* as required by 5 CFR part 735. These agency standards contain—

(1) Agency-authorized exceptions to 3.101-2; and

(2) Disciplinary measures for persons violating the standards of conduct.

(b) Requirements for employee financial disclosure and restrictions on private employment for former Government employees are contained in Office of Personnel Management and agency regulations implementing Public Law 95-521, which amended 18 U.S.C. 207.

3.102 [Reserved]

3.103 Independent pricing.

3.103-1 Solicitation provision.

The contracting officer must include the provision at 52.203-2, Certificate of Independent Price Determination, in solicitations for firm-fixed-price contracts or fixed-price contracts with economic price adjustment, unless-

(a) The purchase uses simplified acquisition procedures from part 13;

(b) The solicitation only requests technical proposals under two-step sealed bidding; or

(c) The solicitation is for utility services with rates established by law or regulation.

3.103-2 Evaluating the certification.

(a) *Evaluation guidelines*. (1) The following activities are not considered "disclosure" as used in paragraph (a)(2) of the Certificate of Independent Price Determination (the certificate):

(i) A firm has published price lists, rates, or tariffs for items the Government is buying.

(ii) A firm has told potential customers about upcoming new or revised price lists for items the Government is buying.

(iii) A firm has sold the same items to commercial customers at the same prices offered to the Government.

(iv) A firm participates in a reverse auction (explained in part 17).

(2) For paragraph (b)(2) of the certificate, an individual may use a blanket authorization to act as an agent for the person(s) responsible for determining the offered prices if-

(i) The proposed contract is clearly within the scope of the authorization; and

(ii) The person giving the authorization is responsible for determining the offered prices at the time the certification is made for that offer.

(3) For joint offers from multiple companies, each company's certification applies only to its own activities.

(b) *Rejecting potentially collusive offers*. (1) If an offeror removes or modifies paragraph (a)(1), (a)(3), or (b) of the certificate, the contracting officer must reject their bid or proposal.

(2) If an offeror deleted or modified paragraph (a)(2) of the certificate-

(i) The offeror must furnish with its offer a signed explanation about how prices were disclosed;

(ii) The chief of the contracting office must review both the changed certificate and explanation;

(iii) The chief must determine in writing if the disclosure was made for the purpose or had the effect of limiting competition;

(iv) If the determination finds the disclosure was made for the purpose or had the effect of limiting competition, the bid must be rejected; and

(v) If the determination finds no competition issues, the bid may be considered for award.

(3) When rejecting offers under paragraphs (b)(1) or (b)(2), or when suspecting false certification, the contracting officer must report the situation to the Attorney General in accordance with 3.303.

(4) The determination in paragraph (2) does not prevent prosecution of criminal or civil actions involving the transactions to which the certificate relates.

3.104 Procurement integrity.

3.104-1 Definitions.

As used in this section—

Agency ethics official means the designated agency ethics official described in 5 CFR 2638.201 or other designated person, including–

(1) Deputy ethics officials described in 5 CFR 2638.204, to whom authority under 3.104-6 has been delegated by the designated agency ethics official; and

(2) Alternate designated agency ethics officials described in 5 CFR 2638.202(b).

Compensation means wages, salaries, honoraria, commissions, professional fees, and any other form of payment, provided directly or indirectly for services rendered. Compensation is indirectly provided if it is paid to an entity other than the individual, specifically in exchange for services provided by the individual.

Contractor bid or proposal information means any of the following information submitted to a Federal agency as part of or in connection with a bid or proposal to enter into a Federal agency procurement contract, if that information has not been previously made available to the public or disclosed publicly:

(1) Cost or pricing data (as defined by 10 U.S.C. 3701(1) with respect to procurements subject to that section, and 41 U.S.C. 3501(a)(1), with respect to procurements subject to that section.

(2) Indirect costs and direct labor rates.

(3) Proprietary information about manufacturing processes, operations, or techniques marked by the contractor in accordance with applicable law or regulation.

(4) Information marked by the contractor as "contractor bid or proposal information" in accordance with applicable law or regulation.

(5) Information marked in accordance with 52.215-1(e).

Decision to award a subcontract or modification of subcontract means a decision to designate award to a particular source.

Federal agency procurement means the acquisition (by using competitive procedures and awarding a contract) of goods or services (including construction) from non-Federal sources by a Federal agency using appropriated funds. For broad agency announcements and small business innovation research programs, each proposal received by an agency counts as a separate procurement for purposes of 41 U.S.C. chapter 21.

In excess of $10,000,000 means–

(1) The value, or estimated value, at the time of award, of the contract, including all options;

(2) The total estimated value at the time of award of all orders under an indefinite-delivery, indefinite-quantity, or requirements contract;

(3) Any multiple award schedule contract, unless the contracting officer documents a lower estimate;

(4) The value of a delivery order, task order, or an order under a Basic Ordering Agreement;

(5) The amount paid or to be paid in settlement of a claim; or

(6) The estimated monetary value of negotiated overhead or other rates when applied to the Government portion of the applicable allocation base.

Official means–

(1) An officer, as defined in 5 U.S.C.2104;

(2) An employee, as defined in 5 U.S.C.2105;

(3) A member of the uniformed services, as defined in 5 U.S.C.2101(3); or

(4) A special Government employee, as defined in 18 U.S.C.202.

Participating personally and substantially in a Federal agency procurement means–

(1) Active and significant involvement of an official in any of the following activities directly related to that procurement:

(i) Drafting, reviewing, or approving the specification or statement of work for the procurement.:

(ii) Preparing or developing the solicitation.

(iii) Evaluating bids or proposals, or selecting a source.

(iv) Negotiating price or terms and conditions of the contract.

(v) Reviewing and approving the award of the contract.

(2) "Participating personally" means participating directly and includes the direct and active supervision of a subordinate's participation in the matter.

(3) "Participating substantially" means that the official's involvement is of significance to the matter. Substantial participation requires more than official responsibility, knowledge, perfunctory involvement, or involvement on an administrative or peripheral issue. Participation may be substantial even though it is not determinative of the outcome of a particular matter. A finding of substantiality should be based not only on the effort devoted to a matter, but on the importance of the effort. While a series of peripheral involvements may be insubstantial, the single act of approving or participating in a critical step may be substantial. However, the review of procurement documents solely to determine compliance with regulatory, administrative, or budgetary procedures, does not constitute substantial participation in a procurement.

(4) Generally, an official will not be considered to have participated personally and substantially in a procurement solely by participating in the following activities:

(i) Agency-level boards, panels, or other advisory committees that review program milestones or evaluate and recommend alternative technologies or approaches for broad agency-level missions or objectives.

(ii) General technical, engineering, or scientific work with broad application not directly tied to a specific procurement, even if that work later becomes part of a procurement.

(iii) Clerical functions supporting a particular procurement.

(iv) For OMB Circular A-76 procurements, participation in management studies, preparation of in-house cost estimates, preparation of "most efficient organization" analyses, or providing data or technical support for others to develop performance standards, statements of work, or specifications.

Source selection evaluation board means any board, team, council, or other group that evaluates bids or proposals.

3.104-2 General.

(a) This section implements 41 U.S.C. chapter 21, Restrictions on Obtaining and Disclosing Certain Information. The senior procurement executive of the agency must approve any agency changes to 3.104. This includes specific definitions identifying individuals who occupy positions specified in 3.104-3(d)(1)(ii), and any required clauses. A law may establish a higher level of approval for that agency.

(b) Agency officials need to remember that other statutes and regulations also address similar prohibited conduct, for example—

(1) The offer or acceptance of a bribe or gratuity is prohibited by 18 U.S.C. 201 and 10 U.S.C. 4651. The 5 U.S.C. 7353 and 5 CFR part 2635 prohibit accepting certain gifts;

(2) Contact with an offeror during an acquisition may constitute "seeking employment" (see subpart F of 5 CFR part 2636 and 3.104-3(c)(2)). Government employees cannot participate personally and substantially in any matter that would affect the financial interests of a person with whom they are seeking employment, as prohibited by 18 U.S.C. 208 and 5 CFR

part 2635. An employee negotiating or seeking employment with an offeror or who has an arrangement concerning future employment with an offeror must follow the disqualification requirements in 5 CFR 2635.604 and 2635.606. The prohibition in 18 U.S.C. 208 may require employee disqualification from participation in the acquisition even if their duties are not considered "participating personally and substantially" as defined in 3.104-1;

(3) Post-employment restrictions under 18 U.S.C. 207 and 5 CFR parts 2637 and 2641 prohibit certain activities by former Government employees. This includes representing a contractor before the Government regarding any contract or other particular matter involving specific parties where the former employee participated personally and substantially while employed by the Government. Additional restrictions apply to certain senior Government employees and for matters under an employee's official responsibility;

(4) Parts 14 and 15 restrict the release of procurement information and other contractor information that must be protected under 18 U.S.C. 1905;

(5) The Privacy Act (5 U.S.C. 552a), the Trade Secrets Act (18 U.S.C. 1905), and other laws may prohibit releasing information both before and after award (see 3.104-4); and

(6) Using nonpublic information for an employee's private interest or another's benefit and engaging in financial transactions using nonpublic information are prohibited by 5 CFR 2635.703.

3.104-3 Statutory and related prohibitions, restrictions, and requirements.

(a) *Prohibition on disclosing procurement information (41 U.S.C. 2102)*. (1) A person described in paragraph (a)(2) of this subsection must not knowingly disclose contractor bid or proposal information or source selection information before a Federal agency awards the procurement contract to which the information relates. This restriction applies except when disclosure is allowed by law. (See 3.104-4(a).)

(2) Paragraph (a)(1) of this subsection applies to any person who—

(i) Is a present or former official of the United States, or a person who is acting or has acted for or on behalf of, or who is advising or has advised the United States with respect to, a Federal agency procurement; and

(ii) By virtue of that office, employment, or relationship, has or had access to contractor bid or proposal information or source selection information.

(b) *Prohibition on obtaining procurement information (41 U.S.C. 2102)*. A person must not knowingly obtain contractor bid or proposal information or source selection information before a Federal agency awards the procurement contract to which the information relates. This restriction applies except when obtaining such information is allowed by law.

(c) *Actions required when an agency official contacts or is contacted by an offeror regarding non-Federal employment (41 U.S.C. 2103)*. (1) An agency official who participates personally and substantially in a Federal agency procurement for a contract over the simplified acquisition threshold must take specific actions if they contact or are contacted by an offeror in that Federal agency procurement about possible non-Federal employment for that official. The official must—

(i) Promptly report the contact in writing to the official's supervisor and to the agency ethics official; and

(ii) Either reject the possibility of non-Federal employment or disqualify himself or herself from further personal and substantial participation in that Federal agency procurement (see 3.104-5). This disqualification remains until the agency authorizes the official to resume participation in that procurement, according to the requirements of 18 U.S.C. 208 and applicable agency regulations, because—

(A) The person is no longer an offeror in that Federal agency procurement; or

(B) All discussions with the offeror regarding possible non-Federal employment have ended without an agreement or arrangement for employment.

(2) A contact is any action included as "seeking employment" in 5 CFR 2635.603(b). Unsolicited communications from offerors regarding possible employment also count as contacts.

(3) Agencies must retain reports of employment contacts for 2 years from the date the report was submitted.

(4) Even if conduct complies with 41 U.S.C. 2103, other criminal statutes and the Standards of Ethical Conduct for Employees of the Executive Branch may prohibit it. See 3.104-2(b)(2).

(d) *Prohibition on former official's acceptance of compensation from a contractor (41 U.S.C. 2104)*. (1) A former official of a Federal agency must not accept compensation from a contractor as an employee, officer, director, or consultant for 1 year after the former official—

(i) Served, when the contractor was selected or awarded a contract, as the procuring contracting officer, the source selection authority, a member of a source selection evaluation board, or the chief of a financial or technical evaluation team in a procurement where that contractor received a contract in excess of $10,000,000;

(ii) Served as the program manager, deputy program manager, or administrative contracting officer for a contract in excess of $10,000,000 awarded to that contractor; or

(iii) Personally made for the Federal agency a decision to—

(A) Award a contract, subcontract, modification of a contract or subcontract, or a task order or delivery order in excess of $10,000,000 to that contractor;

(B) Establish overhead or other rates for that contractor's contracts valued in excess of $10,000,000;

(C) Approve issuing a contract payment or payments in excess of $10,000,000 to that contractor; or

(D) Pay or settle a claim in excess of $10,000,000 with that contractor.

(2) The 1-year prohibition begins on the date—

(i) Of contract award for positions described in paragraph (d)(1)(i) of this subsection, or the date of contractor selection if the official was not serving in the position on the date of award;

(ii) The official last served in one of the positions described in paragraph (d)(1)(ii) of this subsection; or

(iii) The official made one of the decisions described in paragraph (d)(1)(iii) of this subsection.

(3) The prohibition in paragraph (d)(1) of this subsection does not prevent a former official from accepting compensation from any division or affiliate of a contractor that does not produce the same or similar products or services than the entity responsible for the contract referred to in paragraph (d)(1).

3.104-4 Disclosure, protection, and marking of contractor bid or proposal information and source selection information.

(a) No person or entity may disclose contractor bid or proposal information or source selection information to any person other than those authorized to receive that information, in accordance with applicable agency regulations or procedures, by the agency head or contracting officer. This restriction applies except as specifically provided in this subsection.

(b) Contractor bid or proposal information and source selection information must be protected from unauthorized disclosure according to 14.401, 15.207, applicable law, and agency regulations.

(c) Individuals who are unsure if specific information is source selection information, as defined in 2.101, should consult with agency officials. Individuals preparing material that may be source selection information as described in paragraph (10) of the "source selection information" definition in 2.101 must mark the cover page and each page they believe contains source selection information with this legend: "Source Selection Information—See FAR 2.101 and 3.104." Although information in paragraphs (1) through (9) of the definition in 2.101 counts as source selection information whether or not marked, all reasonable efforts must be made to mark such material with the same legend.

(d) The contracting officer must notify the contractor in writing if the contracting officer believes proprietary information, contractor bid or proposal information, or information marked under 52.215-1(e) has been inappropriately marked. The contractor who applied the marking must be given an opportunity to justify the marking. This requirement does not apply to situations covered in paragraph (d)(3) of this subsection.

(1) If the contractor agrees the marking is not justified or does not respond within the time specified in the notice, the contracting officer may remove the marking and release the information.

(2) If, after reviewing the contractor's justification, the contracting officer determines the marking is not justified, the contracting officer must notify the contractor in writing before releasing the information.

(3) For technical data marked as proprietary by a contractor, the contracting officer must follow the procedures in part 27.

(e) This section does not restrict or prohibit—

(1) A contractor from disclosing its own bid or proposal information or the recipient from receiving that information. During reverse auctions, agencies may reveal offered price(s) to all offerors, but must not reveal any offeror's identity except for the awardee's identity after making an award resulting from the auction (see subpart 17.8);

(2) The disclosure or receipt of information, not otherwise protected, relating to a canceled Federal agency procurement before contract award, unless the Federal agency plans to resume the procurement;

(3) Individual meetings between a Federal agency official and an offeror or potential offeror for, or recipient of, a contract or subcontract under a Federal agency procurement, provided that unauthorized disclosure or receipt of contractor bid or proposal information or source selection information does not occur; or

(4) The Government's use of technical data in a manner consistent with the Government's rights in the data.

(f) This section does not authorize—

(1) Withholding any information from a proper request by Congress, any committee or subcommittee thereof, a Federal agency, the Comptroller General, or an Inspector General of a Federal agency, except as otherwise authorized by law or

regulation. Any release containing contractor bid or proposal information or source selection information must clearly identify the information as contractor bid or proposal information or source selection information related to a Federal agency procurement. The release must also notify the recipient that disclosure of the information is restricted by 41 U.S.C. chapter 21;

(2) Withholding information from, or restricting its receipt by, the Comptroller General during a protest against the award or proposed award of a Federal agency procurement contract;

(3) Releasing information after award of a contract or cancellation of a procurement if such information is contractor bid or proposal information or source selection information that relates to another procurement; or

(4) Disclosing, soliciting, or receiving bid or proposal information or source selection information after award if such actions are prohibited by law. (See 3.104-2(b)(5) and part 24.)

3.104-5 Disqualification.

(a) *Contacts through agents or other intermediaries*. Employment contacts between an employee and an offeror conducted through agents or other intermediaries may require disqualification under 3.104-3(c)(1). These contacts may also require disqualification under other statutes and regulations. (See 3.104-2(b)(2).)

(b) *Disqualification notice*. An agency official who must disqualify himself or herself under 3.104-3(c)(1)(ii) must submit the contact report required by 3.104-3(c)(1). The official must also promptly submit written notice of disqualification from further participation in the procurement to the contracting officer, the source selection authority (if different from the contracting officer), and the agency official's immediate supervisor. At a minimum, the notice must—

(1) Identify the procurement;

(2) Describe the nature of the agency official's participation in the procurement and specify the approximate dates or time period of participation; and

(3) Identify the offeror and describe its interest in the procurement.

(c) *Resumption of participation in a procurement*. (1) The official must remain disqualified until the agency, at its sole and exclusive discretion, authorizes the official to resume participation in the procurement according to 3.104-3(c)(1)(ii).

(2) After the conditions of 3.104-3(c)(1)(ii)(A) or (B) have been met, the head of the contracting activity (HCA), after consultation with the agency ethics official, may authorize the disqualified official to resume participation in the procurement, or may determine that an additional disqualification period is necessary to protect the procurement process integrity. When determining the disqualification period, the HCA must consider any factors that create an appearance that the disqualified official acted without complete impartiality. The HCA should document the reinstatement decision in writing.

(3) Government officers or employees must also comply with 18 U.S.C. 208 and 5 CFR part 2635 regarding resumed participation in procurement matters. A government officer or employee may not resume participating in a procurement matter affecting the financial interest of someone with whom they are seeking employment, unless the individual receives—

(i) A waiver pursuant to 18 U.S.C. 208(b)(1) or (b)(3); or

(ii) An authorization according to the requirements of subpart F of 5 CFR part 2635.

3.104-6 Ethics advisory opinions regarding prohibitions on a former official's acceptance of compensation from a contractor.

(a) An official or former official of a Federal agency may request advice from the appropriate agency ethics official before accepting compensation from a contractor. This applies when the individual does not know whether 41 U.S.C. 2104 (see 3.104-3(d)) prevents them from accepting such compensation.

(b) The request for an advisory opinion must be in writing, include all relevant information reasonably available to the official or former official, and be dated and signed. The request must include information about the—

(1) Procurement(s), or decision(s) on matters under 3.104-3(d)(1)(iii), involving the particular contractor. This includes contract or solicitation numbers, dates of solicitation or award, a description of the supplies or services procured or to be procured, and contract amount;

(2) Individual's participation in the procurement or decision, including the dates or time periods of that participation, and the nature of the individual's duties, responsibilities, or actions; and

(3) Contractor, including a description of the products or services produced by the division or affiliate of the contractor from whom the individual proposes to accept compensation.

(c) The agency ethics official should issue an opinion within 30 days after receiving a complete request, or as soon as practicable after that. The opinion should address whether the proposed conduct would violate 41 U.S.C. 2104.

(d) (1) If the request does not include complete information, the agency ethics official may ask the requester to provide more information. The ethics official may also request information from other persons, including the source selection authority, the contracting officer, or the requester's immediate supervisor.

(2) When issuing an opinion, the agency ethics official may rely on the accuracy of information provided by the requester or other agency sources. This applies unless the official has reason to believe the information is fraudulent, misleading, or otherwise incorrect.

(3) If the requester receives a written opinion from the agency ethics official stating they may accept compensation from a particular contractor and accepts such compensation in good faith reliance on that opinion, neither the requester nor the contractor will be found to have knowingly violated 41 U.S.C. 2104. However, if the requester or contractor has actual knowledge or reason to believe the opinion is based on fraudulent, misleading, or otherwise incorrect information, their reliance on the opinion will not be considered good faith.

3.104-7 Violations or possible violations.

(a) A contracting officer who receives information about a violation or possible violation of procurement integrity laws (41 U.S.C. 2102, 2103, or 2104) must determine if this affects the pending award or contractor selection.

(1) If the contracting officer determines there is no impact on the procurement, the contracting officer must forward the information about the violation, including documentation supporting the "no impact" determination, and send these materials to the individual designated per agency procedures.

(i) If that individual agrees with the "no impact" assessment, the contracting officer may continue with the procurement.

(ii) If that individual disagrees, that person must promptly forward all information to the HCA and advise the contracting officer to withhold award.

(2) If the contracting officer determines the violation does impact the procurement, the contracting officer must promptly forward all information to the HCA.

(b) The HCA must review all available information and, following agency procedures, take appropriate action, such as-

(1) Advise the contracting officer to continue with the procurement;

(2) Begin an investigation;

(3) Refer the information disclosed to appropriate criminal investigative agencies;

(4) Conclude that a violation occurred; or

(5) Recommend that the agency head determine that the contractor, or someone acting for the contractor, has engaged in conduct constituting an offense punishable under 41 U.S.C. 2105, for the purpose of voiding or rescinding the contract.

(c) Before concluding that an offeror, contractor, or person has violated 41 U.S.C. chapter 21, the HCA may request information from appropriate parties regarding the violation or possible violation.

(d) If the HCA concludes that 41 U.S.C. chapter 21 has been violated, the HCA may direct the contracting officer to—

(1) If a contract has not been awarded—

(i) Cancel the procurement;

(ii) Disqualify an offeror; or

(iii) Take other appropriate actions to protect Government interests.

(2) If a contract has been awarded—

(i) Apply appropriate contractual remedies, including profit recapture under the clause at 52.203-10 (Price or Fee Adjustment for Illegal or Improper Activity), or, if the contract has been rescinded, recovery of the amount expended under the contract.

(ii) Void or rescind the contract when:

(A) The contractor or someone acting for the contractor has been convicted for an offense where the conduct constitutes a violation of 41 U.S.C. 2102 for the purpose of either-

(1) Exchanging the information for anything of value; or

(2) Obtaining or giving anyone a competitive advantage in the award of a Federal agency procurement contract; or

(B) The agency head has determined, based upon a preponderance of the evidence, that the contractor or someone acting for the contractor has engaged in conduct constituting an offense punishable under 41 U.S.C. 2105(a); or

(iii) Take any other appropriate actions in the best interests of the Government.

(3) Refer the matter to the agency suspending and debarring official.

(e) The HCA should recommend or direct an administrative or contractual remedy that matches the severity and effect of the violation.

(f) If the HCA determines that urgent and compelling circumstances justify an award, or award is otherwise in the interests of the Government, the HCA, in accordance with agency procedures, may authorize the contracting officer to award the contract or execute the contract modification after notifying the agency head.

(g) The HCA may delegate authority under this subsection to an individual at least one organizational level above the contracting officer and of General Officer, Flag, Senior Executive Service, or equivalent rank.

3.104-8 Criminal and civil penalties, and further administrative remedies.

Criminal penalties, civil penalties, and administrative remedies may apply to conduct that violates procurement integrity laws in 41 U.S.C. chapter 21 (see 3.104-3). For a special rule about bid protests see 41 U.S.C. 2106. For administrative remedies related to contracts, see 3.104-7.

(a) An official who knowingly fails to follow the requirements of 3.104-3 is subject to penalties and administrative action described in 41 U.S.C. 2105.

(b) An offeror who engages in employment discussion with an official subject to the restrictions of part 3, knowing that the official has not complied with part 3, is subject to the criminal, civil, or administrative penalties set forth in 41 U.S.C. 2105.

(c) An official who refuses to terminate employment discussions (see 3.104-5) may be subject to agency administrative actions under 5 CFR 2635.604(d) if the official's disqualification from participation in a particular procurement interferes substantially with the individual's ability to perform assigned duties.

3.104-9 Contract clauses.

In solicitations and contracts that exceed the simplified acquisition threshold, other than those for commercial products or commercial services, insert the clauses at—

(a) 52.203-8, Cancellation, Rescission, and Recovery of Funds for Illegal or Improper Activity; and

(b) 52.203-10, Price or Fee Adjustment for Illegal or Improper Activity.

Subpart 3.2 - Contractor Gratuities to Government Personnel

3.201 Applicability.

This subpart applies to all executive agencies, except that coverage concerning exemplary damages applies only to the Department of Defense (10 U.S.C. 4651).

3.202 Contract clause.

The contracting officer must insert the clause at 52.203-3, Gratuities, in solicitations and contracts with a value exceeding the simplified acquisition threshold, except those for personal services and those between military departments or defense agencies and foreign governments that do not obligate any funds appropriated to the Department of Defense.

3.203 Reporting suspected violations of the Gratuities clause.

Agency personnel must report suspected violations of the Gratuities clause to the contracting officer or other designated official in accordance with agency procedures. The agency reporting procedures must be published as an implementation of this section and must clearly specify—

(a) What to report and how to report it; and

(b) The channels through which reports must pass, including the function and authority of each official designated to review them.

3.204 Treatment of violations.

(a) Before taking action against a contractor, the agency head or designee must determine, after notice and hearing under agency procedures, whether the contractor, its agent, or representative, under a contract containing the Gratuities clause:

(1) Offered or gave a gratuity (such as entertainment or a gift) to a Government officer, official, or employee; and

(2) Intended to use this gratuity to obtain a contract or favorable treatment under a contract (this intent typically must be inferred from circumstances).

(b) Agency procedures must give the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the agency presents. The procedures should be as informal as practicable, while maintaining principles of fundamental fairness.

(c) When the agency head or designee determines that a violation has occurred, the Government may—

(1) Terminate the contractor's right to proceed;

(2) Initiate debarment or suspension measures described in part 9; and

(3) Assess exemplary damages, if the contract uses money appropriated to the Department of Defense.

This page intentionally left blank.

Subpart 3.3 - Reports of Suspected Antitrust Violations

3.301 [Reserved]

3.302 Definitions.

As used in this subpart-

Identical bids means bids for the same line item that are determined to be identical as to unit price or total line item amount, with or without the application of evaluation factors (e.g., discount or transportation cost).

3.303 Reporting suspected antitrust violations.

(a) Agencies are required by 41 U.S.C. 3707 and 10 U.S.C. 3307 to report to the Attorney General any bids or proposals that evidence a violation of the antitrust laws. These reports are in addition to those required by part 9.

(b) The antitrust laws are intended to ensure that markets operate competitively. Any agreement or mutual understanding among competing firms that restrains the natural operation of market forces is suspect. Paragraph (c) of this section identifies behavior patterns that are often associated with antitrust violations. Activities meeting the descriptions in paragraph (c) are not necessarily improper, but they are sufficiently questionable to warrant notifying the appropriate authorities, in accordance with agency procedures.

(c) Practices or events that may show violations of antitrust laws include-

(1) The existence of an *industry price list* or *price agreement* to which contractors refer in formulating their offers;

(2) A sudden change from competitive bidding to identical bidding;

(3) Simultaneous price increases or follow-the-leader pricing;

(4) Rotation of bids or proposals where each competitor takes turns being the low bidder, or where certain competitors bid low only on some sizes of contracts and high on other sizes;

(5) Division of the market, so that certain competitors bid low only for contracts awarded by certain agencies, or for contracts in certain geographical areas, or on certain products, and bid high on all other jobs;

(6) Establishment by competitors of a collusive price estimating system;

(7) The filing of a joint bid by two or more competitors when at least one of the competitors has sufficient technical capability and productive capacity for contract performance;

(8) Any incidents suggesting direct collusion among competitors, such as the appearance of identical calculation or spelling errors in two or more competitive offers or the submission by one firm of offers for other firms; and

(9) Statements by current employees, former employees, or competitors that an agreement to restrain trade exists.

(d) Contracting officers must report identical bids when the agency has reason to believe the bids resulted from collusion.

(e) For offers from foreign contractors on contracts to be performed outside the United States and its outlying areas, contracting officers may refer suspected collusive offers to the relevant foreign government authorities for appropriate action.

(f) Agency reports must be addressed to the Attorney General, U.S. Department of Justice, Washington, DC 20530, Attention: Assistant Attorney General, Antitrust Division, and must include—

(1) A brief statement describing the suspected practice and the reason for the suspicion; and

(2) The name, address, and telephone number of an individual in the agency who can be contacted for further information.

This page intentionally left blank.

Subpart 3.4 - Contingent Fees

3.400 Scope of subpart.

This subpart prescribes policies and procedures that restrict contingent fee arrangements for soliciting or obtaining Government contracts to those permitted by 10 U.S.C. 3321(b)(1) and 41 U.S.C. 3901.

3.401 Definitions.

As used in this subpart-

Bona fide agency, means an established commercial or selling agency, maintained by a contractor for the purpose of securing business, that neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds itself out as being able to obtain any Government contract or contracts through improper influence.

Bona fide employee, means a person, employed by a contractor and subject to the contractor's supervision and control as to time, place, and manner of performance, who neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds out as being able to obtain any Government contract or contracts through improper influence.

Contingent fee, means any commission, percentage, brokerage, or other fee that is contingent upon the success that a person or concern has in securing a Government contract.

Improper influence, means any influence that induces or tends to induce a Government employee or officer to give consideration or to act regarding a Government contract on any basis other than the merits of the matter.

3.402 Statutory requirements.

Contractors' arrangements to pay contingent fees for soliciting or obtaining Government contracts have long been considered contrary to public policy because such arrangements may lead to attempted or actual improper influence. In 10 U.S.C. 3321(b) and 41 U.S.C. 3901, Congress affirmed this public policy but permitted certain exceptions. These statutes—

(a) Require every negotiated contract to include a warranty by the contractor against contingent fees;

(b) Permit, as an exception to the warranty, contingent fee arrangements between contractors and bona fide employees or bona fide agencies; and

(c) Provide that if a contractor breaches or violates this warranty, the Government may annul the contract without liability or deduct from the contract price or consideration, or otherwise recover, the full amount of the contingent fee.

3.403 Applicability.

This subpart applies to all contracts. Statutory requirements for negotiated contracts are, as a matter of policy, extended to sealed bid contracts.

3.404 Contract clause.

The contracting officer must insert the clause at 52.203-5, Covenant Against Contingent Fees, in all solicitations and contracts exceeding the simplified acquisition threshold, other than those for commercial products or commercial services (see parts 2 and 12).

3.405 Misrepresentations or violations of the Covenant Against Contingent Fees.

(a) Government personnel who suspect or have evidence of any of the following must report the matter promptly to the contracting officer or appropriate higher authority according to agency procedures:

(1) Attempted or actual exercise of improper influence;

(2) Misrepresentation of a contingent fee arrangement; or

(3) Other violations of the Covenant Against Contingent Fees.

(b) When specific evidence or other reasonable basis exists to suspect one or more violations described in paragraph (a) of this section, the chief of the contracting office must review the facts and, if appropriate, take or direct one or more of the following actions:

(1) If before award, reject the bid or proposal.

(2) If after award, enforce the Government's right to annul the contract or to recover the fee.

(3) Initiate suspension or debarment action under part 9.

(4) Refer suspected fraudulent or criminal matters to the Department of Justice, as prescribed in agency regulations.

This page intentionally left blank.

Subpart 3.5 - Other Improper Business Practices

3.501 Buying-in.

3.501-1 Definition.

Buying-in, as used in this section, means submitting an offer below anticipated costs, expecting to—

(1) Increase the contract amount after award (e.g., through unnecessary or excessively priced change orders); or

(2) Receive follow-on contracts at artificially high prices to recover losses incurred on the buy-in contract.

3.501-2 General.

(a) Buying-in may decrease competition or result in poor contract performance. The contracting officer must take appropriate action to ensure buying-in losses are not recovered by the contractor through the pricing of—

(1) Change orders; or

(2) Follow-on contracts subject to cost analysis.

(b) The Government should minimize the opportunity for buying-in by seeking a price commitment covering as much of the entire program concerned as is practical by using—

(1) Multiyear contracting, with a requirement in the solicitation that a price be submitted only for the total multiyear quantity; or

(2) Priced options for additional quantities that, together with the firm contract quantity, equal the program requirements (see part 17).

(c) Other safeguards are available to the contracting officer to preclude recovery of buying-in losses (e.g., amortization of nonrecurring costs (see 15.408, Table 15-2, paragraph A., column (2) under "Formats for Submission of Line Item Summaries") and treatment of unreasonable price quotations (see part 15).

3.502 Subcontractor kickbacks.

3.502-1 Definitions.

As used in this section—

Kickback means any money, fee, commission, credit, gift, gratuity, thing of value, or compensation of any kind which is provided to any prime contractor, prime contractor employee, subcontractor, or subcontractor employee for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or in connection with a subcontract relating to a prime contract.

Person means a corporation, partnership, business association of any kind, trust, joint-stock company, or individual.

Prime contract means a contract or contractual action entered into by the United States for the purpose of obtaining supplies, materials, equipment, or services of any kind.

Prime Contractor means a person who has entered into a prime contract with the United States.

Prime Contractor employee, as used in this section, means any officer, partner, employee, or agent of a prime contractor.

Subcontract means a contract or contractual action entered into by a prime contractor or subcontractor for the purpose of obtaining supplies, materials, equipment, or services of any kind under a prime contract.

Subcontractor—

(1) Means any person, other than the prime contractor, who offers to furnish or furnishes any supplies, materials, equipment, or services of any kind under a prime contract or a subcontract entered into in connection with such prime contract; and

(2) Includes any person who offers to furnish or furnishes general supplies to the prime contractor or a higher tier subcontractor.

3.502-2 Subcontractor kickbacks.

The Anti-Kickback Act of 1986 (now codified at 41 U.S.C. chapter 87, Kickbacks,) was passed to deter subcontractors from making payments and contractors from accepting payments for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or a subcontract relating to a prime contract. The Kickbacks statute—

(a) Prohibits any person from—

(1) Providing, attempting to provide, or offering to provide any kickback;

(2) Soliciting, accepting, or attempting to accept any kickbacks; or

(3) Including, directly or indirectly, the amount of any kickback in the contract price charged by a subcontractor to a prime contractor or a higher tier subcontractor or in the contract price charged by a prime contractor to the United States.

(b) Imposes criminal penalties on any person who knowingly and willfully engages in the prohibited conduct addressed in paragraph (a) of this section.

(c) Provides for the recovery of civil penalties by the United States from any person who knowingly engages in such prohibited conduct and from any person whose employee, subcontractor, or subcontractor employee provides, accepts, or charges a kickback.

(d) Provides that—

(1) The contracting officer may offset the amount of a kickback against monies owed by the United States to the prime contractor under the prime contract to which such kickback relates;

(2) The contracting officer may direct a prime contractor to withhold from any sums owed to a subcontractor under a subcontract of the prime contract the amount of any kickback which was or may be offset against the prime contractor under paragraph (d)(1) of this section; and

(3) An offset under paragraph (d)(1) or a direction under paragraph (d)(2) of this section is a claim by the Government for the purposes of 41 U.S.C. chapter 71, Contract Disputes.

(e) Authorizes contracting officers to order that sums withheld under paragraph (d)(2) of this section be paid to the contracting agency, or if the sum has already been offset against the prime contractor, that it be retained by the prime contractor.

(f) Requires the prime contractor to notify the contracting officer when the withholding under paragraph (d)(2) of this section has been accomplished unless the amount withheld has been paid to the Government.

(g) Requires a prime contractor or subcontractor to report in writing to the inspector general of the contracting agency, the head of the contracting agency if the agency does not have an inspector general, or the Attorney General any possible violation of the Kickbacks statute when the prime contractor or subcontractor has reasonable grounds to believe such violation may have occurred.

(h) Provides that, for the purpose of determining whether there has been a violation of the Kickbacks statute on any prime contract, the Government Accountability Office and the inspector general of the contracting agency, or a representative of such contracting agency designated by the head of such agency if the agency does not have an inspector general, must have access to and may inspect the facilities and audit the books and records of any prime contractor or subcontractor under a prime contract awarded by the agency.

(i) Requires each contracting agency to include in each prime contract, other than for commercial products or commercial services, exceeding $200,000, a requirement that the prime contractor must—

(1) Have in place and follow reasonable procedures designed to prevent and detect violations of the Kickbacks statute in its own operations and direct business relationships (e.g., company ethics rules prohibiting kickbacks by employees, agents, or subcontractors; education programs for new employees and subcontractors, explaining policies about kickbacks, related company procedures and the consequences of detection; procurement procedures to minimize the opportunity for kickbacks; audit procedures designed to detect kickbacks; periodic surveys of subcontractors to elicit information about kickbacks; procedures to report kickbacks to law enforcement officials; annual declarations by employees of gifts or gratuities received from subcontractors; annual employee declarations that they have violated no company ethics rules; personnel practices that document unethical or illegal behavior and make such information available to prospective employers); and

(2) Cooperate fully with any Federal agency investigating a possible violation of the Kickbacks statute.

(j) Notwithstanding paragraph (i) of this section, a prime contractor must cooperate fully with any Federal Government agency investigating a violation of 41 U.S.C. 8702 (see 41 U.S.C. 8703(b)).

3.502-3 Contract clause.

The contracting officer must insert the clause at 52.203-7, Anti-Kickback Procedures, in solicitations and contracts exceeding $200,000, other than those for commercial products or commercial services (see part 12).

3.503 Unreasonable restrictions on subcontractor sales.

3.503-1 Policy.

10 U.S.C. 4655 and 41 U.S.C. 4704 require that subcontractors not be unreasonably precluded from making direct sales to the Government of any supplies or services made or furnished under a contract. However, this does not preclude contractors from asserting rights that are otherwise authorized by law or regulation.

3.503-2 Contract clause.

The contracting officer must insert the clause at 52.203-6, Restrictions on Subcontractor Sales to the Government, in solicitations and contracts exceeding the simplified acquisition threshold. For the acquisition of commercial products or commercial services, the contracting officer must use the clause with its Alternate I.

This page intentionally left blank.

Subpart 3.6 - Contracts with Government Employees or Organizations Owned or Controlled by Them

3.601 Policy.

(a) Except as specified in 3.602, a contracting officer must not knowingly award a contract to a Government employee or to a business concern or other organization owned or substantially owned or controlled by one or more Government employees. This policy is intended to avoid any conflict of interest that might arise between the employees' interests and their Government duties, and to avoid the appearance of favoritism or preferential treatment by the Government toward its employees.

(b) For purposes of this subpart, special Government employees (as defined in 18 U.S.C. 202) performing services as experts, advisors, or consultants, or as members of advisory committees, are not considered Government employees unless—

(1) The contract arises directly out of the individual's activity as a special Government employee;

(2) In the individual's capacity as a special Government employee, the individual is in a position to influence the award of the contract; or

(3) Another conflict of interest is determined to exist.

3.602 Exceptions.

The agency head, or a designee not below the level of the head of the contracting activity, may authorize an exception to the policy in 3.601 only if there is a compelling reason to do so, such as when the Government's needs cannot reasonably be otherwise met.

3.603 Responsibilities of the contracting officer.

(a) Before awarding a contract, the contracting officer must obtain an authorization under 3.602 if—

(1) The contracting officer knows, or has reason to believe, that a prospective contractor is one to which award is otherwise prohibited under 3.601; and

(2) There is a most compelling reason to make an award to that prospective contractor.

(b) The contracting officer must comply with the requirements and guidance of the conflicts of interest subpart in part 9 before awarding a contract to an organization owned or substantially owned or controlled by Government employees.

This page intentionally left blank.

Subpart 3.7 - Voiding and Rescinding Contracts

3.700 Scope of subpart.

This subpart prescribes Governmentwide policies and procedures for exercising discretionary authority to declare void and rescind contracts.

3.701 Purpose.

This subpart provides—

(a) An administrative remedy with respect to contracts in relation to which there has been—

(1) A final conviction for bribery, conflict of interest, disclosure or receipt of contractor bid or proposal information or source selection information in exchange for a thing of value or to give anyone a competitive advantage in the award of a Federal agency procurement contract, or similar misconduct; or

(2) An agency head determination that contractor bid or proposal information or source selection information has been disclosed or received in exchange for a thing of value, or for the purpose of obtaining or giving anyone a competitive advantage in the award of a Federal agency procurement contract; and

(b) A method to deter similar misconduct in the future by those who are involved in the award, performance, and administration of Government contracts.

3.702 Definition.

Final conviction means a conviction, whether entered on a verdict or plea, including a plea of nolo contendere, for which sentence has been imposed.

3.703 Authority.

(a) Section 1(e) of Pub. L. 87-849, 18 U.S.C. 218 (*the Act*), gives the President or the heads of executive agencies acting under regulations prescribed by the President, the power to declare void and rescind contracts and other transactions listed in the Act. This applies when there has been a final conviction for bribery, conflict of interest, or any other violation of Chapter 11 of Title 18 of the United States Code (18 U.S.C. 201-224). Executive Order 12448, November 4, 1983, delegates the President's authority under the Act to the heads of the executive agencies and military departments.

(b) 41 U.S.C. 2105(c) requires Federal agencies, upon receiving information that a contractor or person has violated 41 U.S.C. 2102, to consider rescinding a contract when-

(1) The contractor or someone acting for the contractor has been convicted of an offense punishable under 41 U.S.C. 2105(a); or

(2) The agency head, or designee, has determined, based on a preponderance of the evidence, that the contractor or someone acting for the contractor has engaged in conduct constituting such an offense.

3.704 Policy.

(a) In cases with a final conviction for any violation of 18 U.S.C. 201-224 involving or relating to agency-awarded contracts, the agency head or designee must consider the available facts. If appropriate, they must declare contracts void and rescind them, and recover the amounts spent and property transferred by the agency according to the policies and procedures in this subpart.

(b) A final conviction under 18 U.S.C. 201-224 relating to a contract may also indicate the party is not presently responsible. The agency should consider starting debarment proceedings according to part 9, if debarment has not already begun or is not in effect when the final conviction occurs.

(c) If there is a final conviction for an offense punishable under 41 U.S.C. 2105, or if the agency head or designee has determined, based on a preponderance of the evidence, that the contractor or someone acting for the contractor has engaged in such conduct, then the head of the contracting activity must consider, in addition to any other penalty prescribed by law or regulation—

(1) Declaring contracts void and rescinding them, as appropriate, and recovering the amounts spent under the contracts by using the procedures at 3.705 (see 3.104-7); and

(2) Recommending the initiation of suspension or debarment proceedings according to part 9.

3.705 Procedures.

(a) *Reporting*. The facts concerning any final conviction for any violation of 18 U.S.C. 201-224 involving or relating to agency contracts must be reported promptly to the agency head or designee for consideration. The agency head or designee must promptly notify the Civil Division, Department of Justice, that an action is being considered under this subpart.

(b) *Decision*. Following an assessment of the facts, the agency head or designee may declare void and rescind contracts with respect to which a final conviction has been entered, and recover the amounts expended and the property transferred by the agency under the terms of the contracts involved.

(c) *Decision-making process*. Agency procedures governing the voiding and rescinding decision-making process must be as informal as is practicable, consistent with the principles of fundamental fairness. At a minimum, agencies must provide the following:

(1) A notice of the proposed action to declare void and rescind the contract must be made in writing.

(2) A thirty calendar day period after receipt of the notice, for the contractor to submit pertinent information before any final decision is made.

(3) Upon request made within the period for submission of pertinent information, an opportunity must be afforded for a hearing at which witnesses may be presented, and any witness the agency presents may be confronted. However, no inquiry may be made regarding the validity of a conviction.

(4) If the agency head or designee decides to declare void and rescind the contracts involved, that official must issue a written decision which—

(i) States that determination;

(ii) Reflects consideration of the fair value of any tangible benefits received and retained by the agency; and

(iii) States the amount due, and the property to be returned, to the agency.

(d) Notice of proposed action. The notice of the proposed action, at a minimum must—

(1) Advise that consideration is being given to declaring void and rescinding contracts awarded by the agency, and recovering the amounts expended and property transferred therefor, under the provisions of 18 U.S.C. 218;

(2) Specifically identify the contracts affected by the action;

(3) Specifically identify the offense or final conviction on which the action is based;

(4) State the amounts expended and property transferred under each of the contracts involved, and the money and the property demanded to be returned;

(5) Identify any tangible benefits received and retained by the agency under the contract, and the value of those benefits, as calculated by the agency;

(6) Advise that pertinent information may be submitted within 30 calendar days after receipt of the notice, and that, if requested within that time, a hearing must be held at which witnesses may be presented and any witness the agency presents may be confronted; and

(7) Advise that action must be taken only after the agency head or designee issues a final written decision on the proposed action.

(e) *Final agency decision*. The agency head or designee must base the final decision on all available information, and any relevant information submitted in writing or presented during a hearing. If the agency decision declares void and rescinds the contract, the final decision must specify the amounts due and property to be returned to the agency and reflect consideration of the fair value of any tangible benefits received and retained by the agency. Notice of the decision must be sent promptly by certified mail, return receipt requested. When contracts are rescinded under the Act's authority and the agency head demands recovery of amounts expended and property transferred, this is not considered a claim under 41 U.S.C. chapter 71, Contract Disputes or part 33. Therefore, the procedures required by the statute and the FAR for the issuance of a final contracting officer decision are not applicable to final agency decisions under this subpart and must not be followed.

Subpart 3.8 - Limitations on the Payment of Funds to Influence Federal Transactions

3.800 Scope of subpart.

This subpart prescribes policies and procedures implementing 31 U.S.C. 1352, "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions."

3.801 Definitions.

As used in this subpart-

Agency means executive agency as defined in 2.101.

Covered Federal action means any of the following actions:

(1) Awarding any Federal contract.

(2) Making any Federal grant.

(3) Making any Federal loan.

(4) Entering into any cooperative agreement.

(5) Extending, continuing, renewing, amending, or modifying any Federal contract, grant, loan, or cooperative agreement.

Indian tribe and "tribal organization" have the meaning provided in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b) and include Alaskan Natives.

Influencing or attempting to influence means making, with the intent to influence, any communication to or appearance before an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.

Local government means a unit of government in a State and, if chartered, established, or otherwise recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.

Officer or employee of an agency includes the following individuals who are employed by an agency:

(1) An individual who is appointed to a position in the Government under Title 5, United States Code, including a position under a temporary appointment.

(2) A member of the uniformed services, as defined in subsection 101(3), Title 37, United States Code.

(3) A special Government employee, as defined in section 202, Title 18, United States Code.

(4) An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, Title 5, United States Code, appendix 2.

Person means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization eligible to receive Federal contracts, grants, cooperative agreements, or loans from an agency, but only with respect to expenditures by such tribe or organization that are made for purposes specified in paragraph 3.802(a) and are permitted by other Federal law.

Reasonable compensation means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

Reasonable payment means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

Recipient includes the contractor and all subcontractors. This term excludes an Indian tribe, tribal organization, or any other Indian organization eligible to receive Federal contracts, grants, cooperative agreements, or loans from an agency, but only with respect to expenditures by such tribe or organization that are made for purposes specified in paragraph 3.802(a) and are permitted by other Federal law.

Regularly employed means, with respect to an officer or employee of a person requesting or receiving a Federal contract, an officer or employee who is employed by such person for at least 130 working days within 1 year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract. An officer or employee who is employed by such person for less than 130 working days within 1 year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.

State means a State of the United States, the District of Columbia, an outlying area of the United States, an agency or instrumentality of a State, and multi-State, regional, or interstate entity having governmental duties and powers.

3.802 Statutory prohibition and requirement.

(a) 31 U.S.C. 1352 prohibits recipients of Federal contracts, grants, loans, or cooperative agreements from using appropriated funds to pay any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress regarding covered Federal actions.

(1) For purposes of this subpart the term "appropriated funds" does not include profit or fee from a covered Federal action.

(2) If a person shows they have enough non-Federal appropriated funds, the Government must assume these other funds were used for any influencing activities that would be unallowable if paid for with Federal appropriated funds.

(b) 31 U.S.C. 1352 also requires offerors to submit a declaration that includes both certification and disclosure, with regular updates of the disclosure after contract award. These requirements appear in the provision at 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions, and the clause at 52.203-12, Limitation on Payments to Influence Certain Federal Transactions.

3.803 Exceptions.

(a) The prohibition of paragraph 3.802(a) does not apply under the following conditions:

(1) *Agency and legislative liaison by own employees.* (i) Payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action is permitted when the payment is for agency and legislative liaison activities not directly related to a covered Federal action. Providing any information specifically requested by an agency or Congress is permitted at any time.

(ii) Participating with an agency in discussions unrelated to a specific solicitation for any covered Federal action, is permitted when discussions concern-

(A) The qualities and characteristics (including demonstrations) of the person's products or services, sales terms, and service capabilities; or

(B) How the person's products or services might be adapted for agency use.

(iii) Providing information not specifically requested but necessary for an agency to make an informed decision about starting a covered Federal action is permitted before formal solicitation.

(iv) Participating in technical discussions about preparing an unsolicited proposal before its official submission is permitted.

(v) Making capability presentations before formal solicitation when seeking an award under the Small Business Act, as amended by Public Law 95-507 and later amendments, is permitted.

(2) *Professional and technical services*. (i) Reasonable compensation to an officer or employee of a person requesting or receiving a covered Federal action is permitted when payment is for professional or technical services directly related to preparing, submitting, or negotiating bids, proposals, or applications for that Federal action, or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action.

(ii) Reasonable payment to persons who are not officers or employees of a person requesting or receiving a covered Federal action is permitted when payment is for professional or technical services directly related to preparing, submitting, or negotiating bids, proposals, or applications for that Federal action, or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal Action. These persons may include consultants and trade associations.

(iii) In this section, "professional and technical services" means advice and analysis directly applying professional or technical expertise. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional or a technical person are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client's proposal, but generally advocate one proposal over another, are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(iv) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal action includes those in laws, regulations, and the actual award documents.

(b) Only the communications and services specifically authorized in paragraph (a) are permitted.

(c) The disclosure requirements in paragraph 3.802(b) do not apply to reasonable compensation paid to regularly employed officers of a person.

3.804 Policy.

The contracting officer shall obtain certifications and disclosures as required by the provision at 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions, prior to the award of any contract exceeding $200,000.

3.805 Exemption.

The Secretary of Defense may exempt, on a case-by-case basis, a covered Federal action from the prohibitions of this subpart whenever the Secretary determines, in writing, that such an exemption is in the national interest. The Secretary shall transmit a copy of the exemption to Congress immediately after making the determination.

3.806 Processing suspected violations.

The contracting officer must report suspected violations of the requirements of 31 U.S.C. 1352 in accordance with agency procedures.

3.807 Civil penalties.

Agencies must impose and collect civil penalties according to the Program Fraud and Civil Remedies Act, 31 U.S.C. 3803 (except subsection (c)), 3804-3808, and 3812. These penalties apply when the Act's provisions do not conflict with the requirements of this subpart.

3.808 Solicitation provision and contract clause.

(a) Insert the provision at 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions, in solicitations expected to exceed $200,000.

(b) Insert the clause at 52.203-12, Limitation on Payments to Influence Certain Federal Transactions, in solicitations and contracts expected to exceed $200,000.

This page intentionally left blank.

Subpart 3.9 - Whistleblower Protections for Contractor Employees

3.900 Scope of subpart.

This subpart implements various statutory whistleblower programs. This subpart does not implement 10 U.S.C. 4701, which is applicable only to DoD, NASA, and the Coast Guard.

(a) 41 U.S.C. 4712 is implemented in 3.900 through 3.906. These sections do not apply to—

(1) DoD, NASA, and the Coast Guard; or

(2) Any element of the intelligence community, as defined in section 3(4) of the National Security Act of 1947 (50 U.S.C. 3003(4)). Sections 3.900 through 3.906 do not apply to any disclosure made by an employee of a contractor or subcontractor of an element of the intelligence community if such disclosure—

(i) Relates to an activity of an element of the intelligence community; or

(ii) Was discovered during contract or subcontract services provided to an element of the intelligence community.

(b) Section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions), is implemented in 3.909, which is applicable to all agencies.

3.901 Definitions.

As used in this subpart-

Abuse of authority means an arbitrary and capricious exercise of authority that is inconsistent with the mission of the executive agency concerned or the successful performance of a contract of such agency.

Authorized official of the Department of Justice means any person responsible for the investigation, enforcement, or prosecution of any law or regulation.

Inspector General means an Inspector General appointed under chapter 4 of title 5 of the United States Code and any Inspector General that receives funding from, or has oversight over contracts awarded for, or on behalf of, the executive agency concerned.

Internal confidentiality agreement or statement means a confidentiality agreement or any other written statement that the contractor requires any of its employees or subcontractors to sign regarding nondisclosure of contractor information, except that it does not include confidentiality agreements arising out of civil litigation or confidentiality agreements that contractor employees or subcontractors sign at the behest of a Federal agency.

Subcontract means any contract as defined in subpart 2.1 entered into by a subcontractor to furnish supplies or services for performance of a prime contract or a subcontract. It includes but is not limited to purchase orders, and changes and modifications to purchase orders.

Subcontractor means any supplier, distributor, vendor, or firm (including a consultant) that furnishes supplies or services to or for a prime contractor or another subcontractor.

3.902 Classified information.

41 U.S.C. 4712 does not provide any right to disclose classified information not otherwise provided by law.

3.903 Policy.

(a) (1) Contractors and subcontractors are prohibited from discharging, demoting, or otherwise discriminating against an employee as a reprisal for disclosing, to any of the entities listed at paragraph (b) of this section, information that the employee reasonably believes is—

(i) Evidence of gross mismanagement of a Federal contract;

(ii) A gross waste of Federal funds;

(iii) An abuse of authority relating to a Federal contract;

(iv) A substantial and specific danger to public health or safety; or

(v) A violation of law, rule, or regulation related to a Federal contract (including the competition for or negotiation of a contract).

(2) A reprisal is prohibited even when requested by an executive branch official, unless the request takes the form of a non-discretionary directive and is within the authority of the executive branch official making the request.

(b) Disclosure may be made to the following entities:

(1) A Member of Congress or a representative of a committee of Congress.

(2) An Inspector General.

(3) The Government Accountability Office.

(4) A Federal employee responsible for contract oversight or management at the relevant agency.

(5) An authorized official of the Department of Justice or other law enforcement agency.

(6) A court or grand jury.

(7) A management official or other employee of the contractor or subcontractor who has the responsibility to investigate, discover, or address misconduct.

(c) An employee who initiates or provides evidence of contractor or subcontractor misconduct in any judicial or administrative proceeding relating to waste, fraud, or abuse on a Federal contract must be deemed to have made a disclosure.

3.904 Complaints.

3.904-1 Procedures for filing complaints.

A contractor or subcontractor employee who believes that he or she has been discharged, demoted, or otherwise discriminated against contrary to the policy in 3.903 may submit a complaint with the Inspector General of the agency concerned. Procedures for submitting fraud, waste, abuse, and whistleblower complaints are generally accessible on agency Office of Inspector General hotline or whistleblower internet sites or the complainant may directly contact the cognizant Office of the Inspector General for submission instructions. A complaint under 41 U.S.C. 4712 must be filed within three years from the date on which the alleged reprisal occurred.

3.904-2 Procedures for investigating complaints.

(a) Investigation of complaints will be conducted according to 41 U.S.C. 4712(b).

(b) After the investigation is complete, the head of the agency must ensure the Inspector General provides the report of findings to-

(1) The head of the agency;

(2) The complainant and any person acting on the complainant's behalf; and

(3) The contractor and/or subcontractor alleged to have committed the violation.

(c) The complainant, contractor, and/or subcontractor must have the opportunity to submit a written response to the report of findings. This response must be submitted to the head of the agency and the Office of Inspector General within a timeframe set by the agency that allows the agency head to take action within 30 days after receiving the report, as required by 3.905-1(a).

3.905 Remedies and enforcement of orders.

3.905-1 Remedies.

(a) *Agency response to Inspector General report.* Not later than 30 days after receiving a report pursuant to 3.904-2, the head of the agency shall—

(1) Determine whether sufficient basis exists to conclude that the contractor or subcontractor has subjected the employee who submitted the complaint to a reprisal as prohibited by 3.903; and

(2) Either issue an order denying relief or take one or more of the following actions:

(i) Order the contractor or subcontractor to take affirmative action to abate the reprisal.

(ii) Order the contractor or subcontractor to reinstate the complainant employee to their previous position, with compensatory damages (including back pay), employment benefits, and other terms and conditions of employment that would apply if the reprisal had not occurred.

(iii) Order the contractor or subcontractor to pay the complainant employee an amount equal to all costs and expenses (including attorneys' fees and expert witnesses' fees) reasonably incurred by the complainant for, or in connection with, bringing the complaint regarding the reprisal, as determined by the head of the agency.

(iv) Consider disciplinary or corrective action against any executive agency official, if appropriate.

(b) *Complainant's right to go to court*. (1) Paragraph (b)(2) of this section applies if-

(i) The head of the agency issues an order denying relief; or

(ii) (A) The head of the agency has not issued an order-

(1) Within 210 days after the submission of the complaint; or

(2) Within 30 days after the expiration of an extension of time granted in accordance with 41 U.S.C. 4712(b)(2)(B) for the submission of the report to those stated in 3.904-2(b); and

(B) There is no showing that such delay is due to the bad faith of the complainant.

(2) If the conditions in either paragraph (b)(1)(i) or (ii) of this section are met:

(i) The complainant must be deemed to have exhausted all administrative remedies with respect to the complaint; and

(ii) The complainant may bring a de novo action at law or equity against the contractor or subcontractor to seek compensatory damages and other relief available under 41 U.S.C. 4712 in the appropriate U.S. district court, which has jurisdiction regardless of the amount in controversy.

(A) Such an action must, at the request of either party to the action, be tried by the court with a jury.

(B) An action under this authority may not be brought more than 2 years after the date on which remedies are deemed to have been exhausted.

(c) *Admissibility in evidence*. An Inspector General determination and an agency head order denying relief under this section must be admissible in evidence in any *de novo* action at law or equity brought pursuant to 41 U.S.C. 4712.

(d) *No waiver*. The rights and remedies provided for in 41 U.S.C. 4712 may not be waived by any agreement, policy, form, or condition of employment.

3.905-2 Enforcement of orders.

(a) When a contractor or subcontractor fails to comply with an order issued under 3.905-1(a)(2), the head of the agency concerned must file an action to enforce the order in the U.S. district court for the district where the reprisal occurred. In any action brought under this authority, the court may grant appropriate relief, including injunctive relief, compensatory and exemplary damages, and attorney fees and costs. The complainant employee upon whose behalf an order was issued may also file such an action or join an action filed by the head of the agency.

(b) Any person adversely affected or aggrieved by an order issued under 3.905-1(a)(2) may seek review of the order's compliance with 41 U.S.C. 4712 and its implementing regulations in the U.S. court of appeals for the circuit where the reprisal is alleged to have occurred. The petition for review must be filed within 60 days after the head of the agency issues the order. Filing such an appeal does not stop enforcement of the agency head's order unless the court specifically grants a stay.

3.906 Contract clause.

The contracting officer must insert the clause at 52.203-17, Contractor Employee Whistleblower Rights, in all solicitations and contracts, except solicitations and contracts of DoD, NASA, the Coast Guard, or applicable elements of the intelligence community (see 3.900(a)).

3.907 [Reserved]

3.908 [Reserved]

3.909 Prohibition on providing funds to an entity that requires certain internal confidentiality agreements or statements.

3.909-1 Prohibition.

(a) The Government cannot use fiscal year 2015 and later fiscal year funds for contracts with entities that require employees or subcontractors to sign internal confidentiality agreements or statements that prohibit or restrict these employees or subcontractors from lawfully reporting waste, fraud, or abuse to a designated investigative or law enforcement representative of a Federal department or agency authorized to receive such information. This prohibition comes from section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and continues in subsequent appropriations acts (including continuing resolutions).

(b) The prohibition in paragraph (a) of this section does not conflict with requirements for Standard Form 312 (Classified Information Nondisclosure Agreement), Form 4414 (Sensitive Compartmented Information Nondisclosure Agreement), or any other Federal government form governing nondisclosure of classified information.

3.909-2 Representation by the offeror.

(a) To be eligible for contract award, an offeror must represent that it will not require its employees or subcontractors to sign internal confidentiality agreements or statements that prohibit or restrict them from lawfully reporting waste, fraud, or abuse related to Government contract performance to authorized Federal investigators (such as agency Office of the Inspector General). Any offeror that does not make this representation is ineligible for contract award.

(b) The contracting officer may rely on an offeror's representation unless there is reason to question it.

3.909-3 Solicitation provision and contract clause.

When using funding subject to the prohibitions in 3.909-1(a), the contracting officer must:

(a) (1) Include provision 52.203-18, Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements—Representation, in all solicitations, except as provided in paragraph (a)(2) of this section; and

(2) Not insert the provision in solicitations for personal services contracts with individuals if the individual will perform all services personally (rather than through contractor or subcontractor employees).

(b) (1) Include clause 52.203-19, Prohibition on Requiring Certain Internal Confidentiality Agreements or Statements, in all solicitations and resulting contracts, other than personal services contracts with individuals.

(2) Modify existing contracts, other than personal services contracts with individuals, to include the clause before obligating FY 2015 or later funds that are subject to the same prohibition on internal confidentiality agreements or statements.

Subpart 3.10 - Contractor Code of Business Ethics and Conduct

3.1000 Scope of subpart.

This subpart—

(a) Implements 41 U.S.C. 3509, Notification of Violations of Federal Criminal Law or Overpayments; and

(b) Prescribes policies and procedures for the establishment of contractor codes of business ethics and conduct, and display of agency Office of Inspector General (OIG) fraud hotline posters.

3.1001 Definitions.

As used in this subpart-

Subcontract means any contract entered into by a subcontractor to furnish supplies or services for performance of a prime contract or a subcontract.

Subcontractor means any supplier, distributor, vendor, or firm that furnished supplies or services to or for a prime contractor or another subcontractor.

United States means the 50 States, the District of Columbia, and outlying areas.

3.1002 Policy.

(a) Government contractors must conduct themselves with the highest degree of integrity and honesty.

(b) Contractors should have a written code of business ethics and conduct. To promote compliance with such code of business ethics and conduct, contractors should have an employee business ethics and compliance training program and an internal control system that—

(1) Are suitable to the size of the company and extent of its involvement in Government contracting;

(2) Facilitate timely discovery and disclosure of improper conduct in connection with Government contracts; and

(3) Ensure corrective measures are promptly instituted and carried out.

3.1003 Requirements.

(a) *Contractor requirements*. (1) Although the policy at 3.1002 provides guidance for all Government contractors, the contract clauses at 52.203-13, Contractor Code of Business Ethics and Conduct, and 52.203-14, Display of Hotline Poster(s), become mandatory when contracts meet the conditions specified in 3.1004.

(2) A contractor may be suspended and/or debarred if a principal knowingly fails to promptly disclose to the Government credible evidence of Federal criminal law violations involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 of the United States Code, or Civil False Claims Act violations. This disclosure requirement applies whether or not clause 52.203-13 is applicable. Failure to timely disclose credible evidence of such violations remains grounds for suspension and/or debarment until 3 years after final contract payment (see part 9).

(3) The Payment clauses at FAR 52.212-4(i)(5), 52.232-25(d), 52.232-26(c), and 52.232-27(l) require contractors to return any contract financing or invoice overpayments they discover to the Government. A contractor may be suspended and/or debarred if a principal knowingly fails to timely disclose credible evidence of a significant overpayment, except for overpayments resulting from contract financing payments as defined in 32.001 (see part 9).

(b) *Notification of possible contractor violation*. If the contracting officer learns of a possible contractor violation of Federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 U.S.C., or a violation of the civil False Claims Act, the contracting officer must:

(1) Coordinate the matter with the agency Office of the Inspector General; or

(2) Take action according to agency procedures.

(c) *Fraud Hotline Poster*. (1) Agency Offices of Inspector General (OIGs) determine the need for and content of their respective agency OIG fraud hotline poster(s).

(2) When requested by the Department of Homeland Security, agencies must ensure that contracts funded with disaster assistance funds require display of applicable fraud hotline posters. As established by the agency OIG, these posters may be displayed instead of, or in addition to, the agency's standard poster.

3.1004 Contract clauses.

(a) Insert the clause at FAR 52.203-13, Contractor Code of Business Ethics and Conduct, in solicitations and contracts if the value of the contract is expected to exceed $7.5 million and the performance period is 120 days or more.

(b) (1) Unless the contract is for the acquisition of a commercial product or commercial service or will be performed entirely outside the United States, insert the clause at 52.203-14, Display of Hotline Poster(s), if—

(i) The contract exceeds $7.5 million or a lesser amount established by the agency; and

(ii) (A) The agency has a fraud hotline poster; or

(B) The contract is funded with disaster assistance funds.

(2) In paragraph (b)(3) of the clause, the contracting officer shall—

(i) Identify the applicable posters; and

(ii) Insert the website link(s) or other contact information for obtaining the agency and/or Department of Homeland Security poster.

(3) In paragraph (d) of the clause, if the agency has established policies and procedures for display of the OIG fraud hotline poster at a lesser amount, the contracting officer shall replace "$7.5 million" with the lesser amount that the agency has established.

Subpart 3.11 - Preventing Personal Conflicts of Interest for Contractor Employees Performing Acquisition Functions

3.1100 Scope of subpart.

This subpart implements policy on personal conflicts of interest by employees of Government contractors as required by 41 U.S.C. 2303.

3.1101 Definitions.

As used in this subpart-

Acquisition function closely associated with inherently governmental functions means supporting or providing advice or recommendations with regard to the following activities of a Federal agency:

(1) Planning acquisitions.

(2) Determining what supplies or services are to be acquired by the Government, including developing statements of work.

(3) Developing or approving any contractual documents, to include documents defining requirements, incentive plans, and evaluation criteria.

(4) Evaluating contract proposals.

(5) Awarding Government contracts.

(6) Administering contracts (including ordering changes or giving technical direction in contract performance or contract quantities, evaluating contractor performance, and accepting or rejecting contractor products or services).

(7) Terminating contracts.

(8) Determining whether contract costs are reasonable, allocable, and allowable.

Covered employee means an individual who performs an acquisition function closely associated with inherently governmental functions and is-

(1) An employee of the contractor; or

(2) A subcontractor that is a self-employed individual treated as a covered employee of the contractor because there is no employer to whom such an individual could submit the required disclosures.

Personal conflict of interest means a situation in which a covered employee has a financial interest, personal activity, or relationship that could impair the employee’s ability to act impartially and in the best interest of the Government when performing under the contract. (A *de minimis* interest that would not "impair the employee’s ability to act impartially and in the best interest of the Government" is not covered under this definition.)

(1) Among the sources of personal conflicts of interest are-

(i) Financial interests of the covered employee, of close family members, or of other members of the covered employee's household;

(ii) Other employment or financial relationships (including seeking or negotiating for prospective employment or business); and

(iii) Gifts, including travel.

(2) For example, financial interests referred to in paragraph (1) of this definition may arise from-

(i) Compensation, including wages, salaries, commissions, professional fees, or fees for business referrals;

(ii) Consulting relationships (including commercial and professional consulting and service arrangements, scientific and technical advisory board memberships, or serving as an expert witness in litigation);

(iii) Services provided in exchange for honorariums or travel expense reimbursements;

(iv) Research funding or other forms of research support;

(v) Investment in the form of stock or bond ownership or partnership interest (excluding diversified mutual fund investments);

(vi) Real estate investments;

(vii) Patents, copyrights, and other intellectual property interests; or

(viii) Business ownership and investment interests.

3.1102 Policy.

The Government's policy is to require contractors to—

(a) Identify and prevent personal conflicts of interest of their covered employees; and

(b) Prohibit covered employees who have access to non-public information by reason of performance on a Government contract from using such information for personal gain.

3.1103 Procedures.

(a) By use of the contract clause at 52.203-16, as prescribed at 3.1106, the contracting officer must require each contractor whose employees perform acquisition functions closely associated with inherently Government functions to—

(1) Have procedures in place to screen covered employees for potential personal conflicts of interest by—

(i) Obtaining and maintaining from each covered employee, when the employee is initially assigned to the task under the contract, a disclosure of interests that might be affected by the task to which the employee has been assigned, as follows:

(A) Financial interests of the covered employee, of close family members, or of other members of the covered employee's household.

(B) Other employment or financial relationships of the covered employee (including seeking or negotiating for prospective employment or business).

(C) Gifts, including travel; and

(ii) Requiring each covered employee to update the disclosure statement whenever the employee's personal or financial circumstances change in such a way that a new personal conflict of interest might occur because of the task the covered employee is performing.

(2) For each covered employee—

(i) Prevent personal conflicts of interest, including not assigning or allowing a covered employee to perform any task under the contract for which the Contractor has identified a personal conflict of interest that cannot be satisfactorily prevented or reduced in consultation with the contracting agency;

(ii) Prohibit use of non-public information (information not available to the public) accessed through Government contract work for personal gain; and

(iii) Obtain a signed non-disclosure agreement to prohibit disclosure of non-public information accessed through performance of a Government contract.

(3) Inform covered employees of their obligation—

(i) To disclose and prevent personal conflicts of interest;

(ii) Not to use non-public information accessed through performance of a Government contract for personal gain; and

(iii) To avoid even the appearance of personal conflicts of interest;

(4) Maintain effective oversight to verify compliance with personal conflict-of-interest safeguards;

(5) Take appropriate disciplinary action when covered employees fail to comply with policies established pursuant to this section; and

(6) Report any personal conflict-of-interest violation by a covered employee to the contracting officer as soon as identified. This report must include-

(i) A description of the violation;

(ii) The proposed actions the contractor will take in response to the violation; and

(iii) Follow-up reports of corrective actions taken, as necessary.

(b) If a contractor reports a personal conflict-of-interest violation by a covered employee to the contracting officer according to paragraph (b)(6) of clause 52.203-16, Preventing Personal Conflicts of Interest, the contracting officer must—

(1) Review the actions taken by the contractor;

(2) Determine whether the contractor's actions have resolved the violation satisfactorily; and

(3) Take any appropriate action in consultation with agency legal counsel if the contracting officer determines that the contractor has not resolved the violation satisfactorily.

3.1104 Mitigation or waiver.

(a) In exceptional circumstances, if the contractor cannot satisfactorily prevent a personal conflict of interest as required by paragraph (b)(2)(i) of the clause at 52.203-16, Preventing Personal Conflicts of Interest, the contractor may submit a request, through the contracting officer asking the head of the contracting activity to—

(1) Agree to a plan to mitigate the personal conflict of interest; or

(2) Waive the requirement to prevent personal conflicts of interest.

(b) If the head of the contracting activity determines in writing that such action is in the best interest of the Government, the head of the contracting activity may impose conditions that provide mitigation of a personal conflict of interest or grant a waiver.

(c) This authority shall not be redelegated.

3.1105 Violations.

If the contracting officer suspects violation by the contractor of a requirement of paragraph (b), (c)(3), or (d) of the clause at 52.203-16, Preventing Personal Conflicts of Interest, the contracting officer must contact the agency legal counsel for advice and/or recommendations on a course of action.

3.1106 Contract clause.

(a) Insert the clause at 52.203-16, Preventing Personal Conflicts of Interest, in solicitations and contracts that—

(1) Exceed the simplified acquisition threshold; and

(2) Include a requirement for services by contractor employee(s) that involve performance of acquisition functions closely associated with inherently governmental functions for, or on behalf of, a Federal agency or department.

(b) If only a portion of a contract involves the performance of acquisition functions closely associated with inherently governmental functions, the contracting officer must still insert the clause but must limit the clause's applicability to only that portion of the contract that involves such services.

(c) Do not insert the clause in solicitations or contracts with a self-employed individual if the acquisition functions closely associated with inherently governmental functions are to be performed entirely by the self-employed individual, rather than an employee of the contractor.

This page intentionally left blank.

PART 4 - ADMINISTRATIVE AND INFORMATION MATTERS

This page intentionally left blank.

4.000 Scope of part.

This part prescribes policies and procedures relating to the administrative aspects of contract execution, contractor-submitted documents, reporting, retention, and files.

4.001 Definitions.

As used in this part-

Executive means officers, managing partners, or any other employees in management positions.

First-tier subcontract means a subcontract awarded directly by the Contractor to acquire supplies or services (including construction) for performing a prime contract. It does not include the contractor's supplier agreements with vendors, such as long-term arrangements for materials or supplies that benefit multiple contracts and/or the costs of which are normally applied to a contractor's general and administrative expenses or indirect costs.

Generic entity identifier means an identifier assigned to a category of vendors, not specific to any individual or entity.

Total compensation means the cash and noncash dollar value earned by the executive during the contractor's preceding fiscal year and includes the information described at 17 CFR 229.402(c)(2).

4.002 Electronic commerce in contracting.

Agencies must use electronic commerce to the maximum extent that is practicable and cost-effective, see 41 U.S.C. 2301.

Subpart 4.1 - Presolicitation

4.101 Contract files.

(a) Each office performing contracting, contract administration, or paying functions must establish a file containing the records of each solicitation and contractual action.

(b) The file documentation must comprehensively record the transaction history to ensure—

(1) A complete background is available for making informed decisions at each step in the acquisition process;

(2) There is clear support for all actions taken;

(3) Necessary information is accessible for reviews and investigations; and

(4) Essential facts are available in case litigation or congressional inquiries arise.

This page intentionally left blank.

Subpart 4.2 - Solicitation, Evaluation, and Award

4.201 Unique procurement instrument identifiers.

(a) Agencies must use a procurement instrument identifier (PIID) unique Governmentwide to identify each solicitation, contract, agreement, or order. The PIID must be used in all related procurement actions including forms and electronic generated formats.

(b) The PIID consists of a combination of thirteen to seventeen alpha and/or numeric characters sequenced to convey certain information. Do not use special characters (such as hyphens, dashes, or spaces).

(1) *Positions 1 through 6*. Use the issuing office Activity Address Code to identify the department/agency and office issuing the instrument.

(2) *Positions 7 through 8*. Use the last two digits of the fiscal year in which the procurement instrument is issued or awarded (i.e., signed).

(3) *Position 9*. Use one of the upper-case letters according to Table 4-1. Departments and independent agencies may assign those letters identified for department use below according to agency policy; however, any use must be applied to the entire department or agency.

Table 4-1—PIID Instrument Designation

Instrument	**Letter designation**
(i) Blanket purchase agreements	A
(ii) Invitations for bids	B
(iii) Contracts of all types except indefinite-delivery contracts (see part 16)	C
(iv) Indefinite-delivery contracts (including Federal Supply Schedules, Governmentwide acquisition contracts (GWACs), and multi-agency contracts)	D
(v) Reserved for future Federal Governmentwide use	E
(vi) Task orders, delivery orders or calls under—	F
• Indefinite-delivery contracts (including Federal Supply Schedules, Governmentwide acquisition contracts (GWACs), and multi-agency contracts);	
• Blanket purchase agreements; or	
• Basic ordering agreements.	
(vii) Basic ordering agreements	G
(viii) Agreements, including basic agreements and loan agreements, but excluding blanket purchase agreements, basic ordering agreements, and leases. Do not use this code for contracts or agreements with provisions for orders or calls	H
(ix) Do not use this letter	I
(x) Reserved for future Federal Governmentwide use	J
(xi) Reserved for departmental or agency use	K
(xii) Lease agreements	L
(xiii) Reserved for departmental or agency use	M

Instrument	Letter designation
(xiv) Reserved for departmental or agency use	N
(xv) Do not use this letter	O
(xvi) Purchase orders (assign V if numbering capacity of P is exhausted during a fiscal year)	P
(xvii) Requests for quotations (assign U if numbering capacity of Q is exhausted during a fiscal year)	Q
(xviii) Requests for proposals	R
(xix) Reserved for departmental or agency use	S
(xx) Reserved for departmental or agency use	T
(xxi) See Q, requests for quotations	U
(xxii) See P, purchase orders	V
(xxiii) Reserved for future Federal Governmentwide use	W
(xxiv) Reserved for future Federal Governmentwide use	X
(xxv) Imprest fund	Y
(xxvi) Reserved for future Federal Governmentwide use	Z

(4) *Positions 10 through 17*. Use the number assigned by the issuing agency in these positions. Agencies may choose between four and eight characters to be used, but the same number of characters must be used agencywide. Do not use leading or trailing zeroes to equal the maximum in any system or data transmission. A separate series of numbers may be used for any type of instrument listed in paragraph (b)(3) of this section. An agency may reserve blocks of numbers or alpha-numeric numbers for its various components to use.

(c) Agencies must use a non-unique identifier for a procurement action (i.e., supplementary PIID) that is used with the PIID. The supplementary PIID is used to identify amendments to solicitations and modifications to contracts, orders, and agreements. The supplementary PIID is reported as a separate data element used with, but not appended to, the PIID.

(1) *Amendments to solicitations*. Use a four-position numeric serial number in addition to the 13–17-character PIID beginning with 0001.

(2) *Modifications to contracts, orders, and agreements*. Use a six-position alpha, numeric, or a combination of both, in addition to the 13–17-character PIID. For example, a modification could be numbered P00001.

(i) *Position 1*. Use the letter P if the modification is issued by the procuring contracting office. Use the letter A if the modification is issued by the contract administration office (if other than the procuring contracting office).

(ii) *Positions 2 through 6*. These positions may be alpha, numeric, or a combination of both, according to agency procedures.

(iii) Each office authorized to issue modifications must assign the supplementary identification numbers in sequence (unless provided otherwise in agency procedures). Do not assign the numbers until the contracting officer determines that a modification is to be issued.

(d) (1) Agencies must not change the PIID unless one of the following circumstances applies:

(i) The PIID serial numbering system is exhausted.

(ii) Continued use of a PIID is administratively burdensome (e.g., for implementing new agency contract writing systems).

(iii) The contract is transferred between contracting departments.

(2) If one of the circumstances described at 4.201(d)(1) applies, the contracting officer may assign a new PIID by issuing an administrative contract modification (see part 43). The modification must identify both the original and the newly assigned PIID.

4.202 Uniform use of line items.

4.202-1 Policy.

(a) Procurement instruments must identify the supplies or services to be acquired as separately identified line items and, as needed, subline items.

(b) Line items—

(1) Are established to define deliverables or organize information about deliverables;

(2) Describe characteristics for the item purchased, e.g., pricing, delivery, and funding information; and

(3) May be subdivided into separate unique subsets (called subline items) to ease administration. Subline items are established to define deliverables (deliverable subline items) or organize information about deliverables (informational subline items). If a line item has deliverable subline items, the line item itself is informational.

4.202-2 Establishing line items.

Establish separate line items for deliverables that have the following characteristics except as provided at 4.202-5:

(a) Separately identifiable.

(1) A supply is separately identifiable if it has its own identification (e.g., national stock number (NSN), item description, manufacturer's part number).

(2) Services are separately identifiable if they have no more than one statement of work or performance work statement.

(3) If the procurement instrument involves a first article (see part 9), establish a separate line item for each item requiring a separate approval. If the first article consists of a lot composed of a mixture of items that will be approved as a single lot, a single line item may be used.

(b) Single unit price or total price.

(c) Single accounting classification citation. A single deliverable may be funded by multiple accounting classifications when the deliverable effort cannot be otherwise subdivided.

(d) Separate delivery schedule, destination, period of performance, or place of performance.

(e) Single contract pricing type (e.g., fixed-price or cost-reimbursement).

4.202-3 Establishing subline items.

Subline items may be used to facilitate tracking of performance, deliverables, payment, and contract funds accounting or for other management purposes. The list of characteristics at 4.202-2 applies to deliverable subline items, but it is not applicable to informational subline items. A line item with subline items must contain only that information that is common to all subline items thereunder. All subline items under one line item must be the same contract type as the line item.

(a) Deliverable subline items. Deliverable subline items may be used for several related items that require separate identification. For example, instead of establishing multiple separate line items, subline items may be established for—

(1) Items that are basically the same, except for minor variations such as—

(i) Size or color;

(ii) Accounting classification, but see also 4.202-4(a)(4); or

(iii) Date of delivery, destination, or period or place of performance;

(2) Separately priced collateral functions that relate to the primary product, such as packaging and handling, or transportation; or

(3) Items to be separately identified at the time of shipment or performance.

(b) Informational subline items.

(1) Informational subline items may be used by agencies for administrative purposes. This type of subline item identifies information that relates directly to the line item and is an integral part of it (e.g., parts of an assembly or parts of a kit).

(2) Position informational subline items within the line item description, not in the quantity or price fields.

4.202-4 Required data elements for line items and subline items.

(a) Except as provided in 4.202-5, each line item or subline item must include in the schedule (or in a comparable section of the procurement instrument), at a minimum, the following information as separate, distinct data elements:

(1) Line item or subline item number established in accordance with agency procedures.

(2) Description of what is being purchased.

(3) Product or Service Code (PSC).

(4) Accounting classification citation.

(i) Line items or deliverable subline items. If multiple accounting classifications for a single deliverable apply, include the dollar amount for each accounting classification in the schedule (or a comparable section of the procurement instrument).

(ii) Informational subline items. An accounting classification citation is not required. (See 4.202-3).

(5) (i) For fixed-price line items:

(A) Unit of measure.

(B) Quantity.

(C) Unit price.

(D) Total price.

(ii) For cost-reimbursement line items:

(A) Unit of measure.

(B) Quantity.

(C) Estimated cost.

(D) Fee (if any).

(E) Total estimated cost plus any fee.

(b) If a contract contains a combination of fixed-price, time-and-materials, labor-hour, or cost- reimbursement line items, identify the contract type for each line item in the schedule (or a comparable section of the procurement instrument) to facilitate payment.

(c) Each deliverable line item or deliverable subline item must have its own delivery schedule, destination, period of performance, or place of performance expressly stated in the appropriate section of the procurement instrument (“as required” constitutes an expressly stated delivery term). When a line item has deliverable subline items, identify the delivery schedule, destination, period of performance, or place of performance at the subline item level, rather than the line item level.

(d) Terms and conditions in other sections of the contract (such as contract clauses or payment instructions) must also specify applicability to individual line items if not applicable to the contract as a whole.

4.202-5 Exceptions to required data elements.

(a) Indefinite-delivery contracts —

(1) General. The following required data elements are not known at time of issuance of an indefinite-delivery contract, however each order must provide them at issuance: accounting classification, delivery date and destination, or period and place of performance.

(2) Indefinite-delivery indefinite-quantity (IDIQ) and requirements contracts.

(i) IDIQ and requirements contracts may omit the quantity at the line item level for the base award provided that the total contract minimum and maximum, or the estimate, respectively, is stated.

(ii) Multiple-award IDIQ contracts awarded using the procedures at parts 13 or 15 may omit price or cost at the line item or subline item level for the contract award, provided that the total contract minimum and maximum is stated (see part 16).

(b) Item description and PSC. These data elements are not required in the line item if there are associated deliverable subline items that include the actual detailed identification. When this exception applies, use a general narrative description for the line item.

(c) Single unit price or single total price. The requirement for a single unit price or single total price at the line item level does not apply if any of the following conditions are present:

(1) There are associated deliverable subline items that are priced.

(2) The line item or subline item is not separately priced.

(3) The supplies or services are being acquired on a cost-reimbursement, time-and-materials, or labor-hour basis.

(4) The procurement instrument is for services and firm prices have been established for elements of the total price, but the actual number of the elements is not known until performance (e.g., a labor-hour contract for maintenance/repair). The contracting officer may structure these procurement instruments to reflect a firm or estimated total amount for each line item.

4.203 System for Award Management.

4.203-1 Policy.

(a) The System for Award Management (SAM) at https://www.sam.gov is the primary method used to collect the following information from entities interested in obtaining Federal Government contracts:

(1) Identifying information about the entity, to issue the unique entity identifier (UEI) and Commercial and Government Entity (CAGE) code;

(2) Entity-level representations and certifications (see 52.204-7(c)(1)); and

(3) Information necessary to receive payment under a contract, collect debts, or for Government reporting purposes, such as taxpayer information required by 31 U.S.C. 7701(c) and 3325(d); 26 U.S.C. 6041, 6041A, and 6050M; and implementing regulations issued by the Internal Revenue Service (IRS).

(b) Offerors or quoters are required to have an active Federal Government contracts registration in SAM when they submit an offer or quotation, and at the time of award, except for— (1) Purchases under the micro-purchase threshold that use a Governmentwide commercial purchase card as the method of purchase and payment;

(2) Micro-purchases that do not use the electronic funds transfer method for payment and are not required to be reported in the Federal Procurement Data System (FPDS);

(3) Classified contracts when registration in SAM could compromise the safeguarding of classified information or national security;

(4) Contracts awarded without providing full and open competition due to unusual or compelling urgency (see part 6);

(5) Contracts awarded by—

(i) Deployed contracting officers supporting military operations including, but not limited to, contingency operations as defined in 10 U.S.C. 101(a)(13) or humanitarian or peacekeeping operations as defined in 10 U.S.C. 3015(2);

(ii) Contracting officers located outside the United States and its outlying areas supporting diplomatic or developmental operations; or

(iii) Contracting officers supporting emergency operations, such as responses to natural or environmental disasters, or national or civil emergencies (see part 18);

(6) Contracts with individuals for performance outside the United States and its outlying areas; and

(7) Contract actions at or below $40,000 awarded to foreign vendors for work performed outside the United States, if it is impractical to obtain SAM registration.

(c) For contracts described under paragraph (b)(4) of this section, the contractor must register in SAM within 30 days after contract award or at least three days before submitting the first invoice, whichever occurs first.

(d) For contracts or agreements described under paragraph (b)(5) of this section, if practical, the contracting officer must modify the contract to require SAM registration.

(e) When SAM registration is not required, the contracting officer must collect certain offeror identifying information and entity-level representations and certifications at the time of receipt of an offer or quotation (see 4.203-2(a)(2)).

(f) Agencies must protect against improper disclosure of nonpublic information contained in SAM.

4.203-2 Procedures.

(a) At the time an offer or quotation is submitted—

(1) Use the offeror or quoter's UEI to verify that the entity has an active Federal Government contracts registration in SAM, and document the date of SAM verification in the contract file; or

(2) If a solicitation does not require registration in SAM—

(i) Review the information provided in response to the provision at 52.204-90, Offeror Identification, and validate the CAGE code using the CAGE code search feature at https://cage.dla.mil; and

(ii) Verify the offeror has included in its offer the entity-level representations and certifications normally collected in SAM.

(b) Use the legal business name or "doing business as" name and physical address in SAM for the successful offeror's UEI to identify the contractor in the award document and all corresponding forms and data exchanges. Do not change data retrieved from SAM.

4.204 Taxpayer identification information.

(a) Agencies must collect the taxpayer identification number (TIN) to comply with the following statutory requirements—

(1) *Debt collection*. 31 U.S.C. 7701(c) requires each contractor doing business with a Government agency to furnish its TIN to that agency. 31 U.S.C. 3325(d) requires the Government to include the TIN of the contractor receiving payment with each certified voucher. The Government may use the TIN to collect and report on any delinquent amounts arising out of the contractor's relationship with the Government.

(2) *Information reporting to the IRS.* The TIN is required for Government reporting of certain contract information and payment information to the IRS. 26 U.S.C. 6109 requires a contractor to provide its TIN if a Form 1099 is required. The payment office is responsible for submitting reports to the IRS.

(b) Contracting officers will obtain the TIN from—

(1) SAM if offerors are required to be registered in SAM, see 4.203-2(a)(1) and 52.204-7; or

(2) Offers if offerors are not required to be registered in SAM, see 4.203-2(a)(2) and 52.204-90.

4.205 Personal identity verification.

(a) Agencies must include their implementation of Homeland Security Presidential Directive-12 and the Federal Information Processing Standards Publication (FIPS PUB) Number 201 in solicitations and contracts. For information on personal identity verification (PIV) products and services see http://www.idmanagement.gov.

(b) When acquiring PIV products and services not using the General Services Administration Federal Supply Schedule for HSPD-12 Product and Service Components, agencies must ensure that the applicable products and services are approved as compliant with FIPS PUB 201 including—

(1) Certifying the products and services procured meet all applicable Federal standards and requirements;

(2) Ensuring interoperability and conformance to applicable Federal standards for the lifecycle of the components; and

(3) Maintaining a written plan for ensuring ongoing conformance to applicable Federal standards for the lifecycle of the components.

4.206 Contracting officer's signature.

Only contracting officers can sign contracts on behalf of the United States. The contracting officer's name and official title must be typed, stamped, or printed on the contract. The contracting officer normally signs the contract after the contractor has signed it. A digital signature using a certificate from the PIV or Common Access Card (CAC) assigned to the contracting officer is considered acceptable as a written signature.

4.207 Contractor's signature.

(a) *Individuals*. A contract with an individual must be signed by that individual. A contract with an individual doing business as a firm must be signed by that individual, and the signature must be followed by the individual's typed, stamped, or printed name and the words ", an individual doing business as ______________________" [insert name of firm].

(b) *Partnerships*. A contract with a partnership must be signed in the partnership name. Before signing for the Government, the contracting officer must obtain a list of all partners and ensure that the individual(s) signing for the partnership have authority to bind the partnership.

(c) *Corporations*. A contract with a corporation must be signed in the corporate name, followed by the word "by" and the signature and title of the person authorized to sign. The contracting officer must ensure that the person signing for the corporation has authority to bind the corporation.

(d) *Joint venturers.* A contract with joint venturers may involve any combination of individuals, partnerships, or corporations. The contract must be signed by each participant in the joint venture in the manner prescribed in paragraphs (a) through (c) of this section for each type of participant. When a corporation is participating, the contracting officer must verify that the corporation is authorized to participate in the joint venture.

(e) *Agents*. When an agent is to sign the contract, other than as stated in paragraphs (a) through (d) of this section, the agent's authorization to bind the principal must be established by evidence that satisfies the contracting officer.

(f) *Digital signatures*. Contractor's digital signatures are acceptable as a written signature when using authentication and/or signature certificates from a PIV or CAC obtained from a credentialed organization.

4.208 Solicitation provisions and contract clauses.

(a) Insert the provision at 52.204-5, Women-Owned Business (Other Than Small Business), in solicitations that—

(1) Are not set aside for small business concerns;

(2) Exceed the simplified acquisition threshold; and

(3) Are for contracts that will be performed in the United States or its outlying areas.

(b) When offerors are required to be registered in SAM, insert—

(1) The provision at 52.204-7, System for Award Management—Registration, in the solicitation. Use the provision with its Alternate I for acquisitions described at 4.203-1(b)(4); and

(2) The clause at 52.204-13, System for Award Management—Maintenance, in the solicitation and contract. Use the clause with its Alternate I for acquisitions described at 4.203-1(b)(4).

(c) When offerors are not required to be registered in SAM, insert—

(1) In the solicitation—

(i) The provision at 52.204-90, Offeror Identification; and

(ii) Each provision listed in paragraph (c)(1) of the provision at 52.204-7, if applicable based on each provision prescription; and

(2) In the solicitation and contract, the clause at 52.204-91, Contractor Identification.

(d) Insert the clause at 52.204-9, Personal Identity Verification of Contractor Personnel, in solicitations and contracts when contract performance requires contractors to have routine physical access to a Federally-controlled facility and/or routine access to a Federally-controlled information system.

(e) Insert the clause at 52.204-10, Reporting Executive Compensation and First-Tier Subcontract Awards, in solicitations and contracts valued over $40,000—

(1) That are not for the acquisition of commercial products or commercial services; and

(2) When the award is required to be reported in FPDS.

(f) (1) The clauses in paragraphs (f)(2) and (3) of this section provide requirements for obtaining information from agency service contractors. The clauses are not required for—

(i) Actions entirely funded by the Department of Defense;

(ii) Contracts for commercial services; or

(iii) Classified solicitations, contracts, or orders.

(2) Insert the clause at 52.204-14, Service Contract Reporting Requirements, in solicitations and contracts for services (including construction) that meet or exceed the thresholds at 4.303(b), except for indefinite-delivery contracts.

(3) Insert the clause at 52.204-15, Service Contract Reporting Requirements for Indefinite-Delivery Contracts, in solicitations and indefinite-delivery contracts for services (including construction) where one or more orders issued thereunder are expected to each meet or exceed the thresholds at 4.303(b).

(g) Insert the clause at 52.204-19, Incorporation by Reference of Representations and Certifications, in all solicitations and contracts.

This page intentionally left blank.

Subpart 4.3 - Post-award

4.301 Contract reporting.

(a) As required by 41 U.S.C. 1122 and 1712, the Federal Procurement Data System (FPDS), *https://www.fpds.gov*, provides a comprehensive web-based tool for agencies to report contract actions.

(1) At a minimum, agencies must report—

(i) The following contract actions over the micro-purchase threshold, regardless of solicitation process used:

(A) Definitive contracts, including purchase orders and imprest fund buys awarded by a contracting officer.

(B) Indefinite delivery vehicle (identified as an “IDV” in FPDS) and all calls and orders awarded under it; and

(ii) Any modification to the contract actions in paragraph (a)(1)(i) that change previously reported contract action data, regardless of dollar value.

(2) Agencies may submit actions other than those listed at paragraph (a)(1) of this section if approved in writing by the Office of Federal Procurement Policy (OFPP).

(3) Agencies will not report the following types of contract actions in FPDS:

(i) Imprest fund transactions below the micro-purchase threshold, including those made via the Government purchase card (unless specific agency procedures prescribe reporting these actions).

(ii) Orders from the General Services Administration (GSA) stock and the GSA Global Supply Program.

(iii) Purchases made at GSA or AbilityOne service stores, as these items stocked for resale have already been reported by GSA.

(iv) Purchases made using non-appropriated fund activity cards, chaplain fund cards, individual Government personnel training orders, and Defense Printing orders.

(v) Actions that, according to other authority, will not be entered into FPDS (*e.g.*, reporting of the information would compromise national security).

(vi) Contract actions in which the required data would constitute classified information.

(vii) Resale activity (*i.e.,* commissary or exchange activity).

(viii) Revenue generating arrangements (*i.e.,* concessions).

(ix) Training expenditures not issued as orders or contracts.

(x) Interagency agreements other than interagency acquisitions required to be reported.

(xi) Letters of obligation used in the A-76 process.

(b) Agencies awarding assisted acquisitions or direct acquisitions must report these actions and identify the Program/ Funding Agency and Office Codes from the applicable agency codes maintained by each agency at the System for Award Management (SAM). These codes represent the agency and office that has provided the predominant amount of funding for the contract action. For assisted acquisitions, the requesting agency will receive socioeconomic credit for meeting agency small business goals, where applicable. Requesting agencies must provide the appropriate agency/bureau component code as part of the written interagency agreement between the requesting and servicing agencies (see part 17).

(c) Agencies awarding contract actions with a mix of appropriated and non-appropriated funding must only report the full appropriated portion of the contract action in FPDS.

(d) Agencies may consolidate, at least monthly, multiple action reports for a vendor when it would be overly burdensome to report each action individually.

(e) (1) Agencies may use a generic entity identifier, rather than an entity’s assigned unique entity identifier (UEI), for—

(i) Contract actions valued at or below $40,000 that are awarded to a contractor that is—

(A) A student;

(B) A dependent of either a veteran, foreign Service officer, or military member assigned outside the United States and its outlying areas (as defined in 2.101); or

(C) Located outside the United States and its outlying areas for work to be performed outside the United States and its outlying areas and the contractor does not otherwise have a UEI;

(ii) Contracts valued above $40,000 awarded to individuals located outside the United States and its outlying areas for work to be performed outside the United States and its outlying areas; or

(iii) Contracts when specific public identification of the contracted party could endanger the mission, contractor, or recipients of the acquired goods or services. The contracting officer must include a written determination in the contract file of a decision applicable to authority under this paragraph (g)(1)(iii).

(2) The Integrated Award Environment program office will maintain the list of generic entity identifiers that agencies may use.

(f) *Responsibilities*.

(1) The Senior Procurement Executive in coordination with the head of the contracting activity is responsible for developing and monitoring a process to ensure timely and accurate reporting of contractual actions to FPDS.

(2) (i) The contracting officer awarding the contract action is responsible for accurately completing the individual contract action report (CAR). Unpublished CARs in FPDS are not considered complete.

(ii) Complete the CAR in FPDS within three business days after contract award.

(iii) Complete the CAR for any action awarded without providing full and open competition due to unusual or compelling urgency or according to any of the emergency acquisition flexibilities (see part 18) within 30 days after contract award.

(3) The chief acquisition officer of each agency required to report its contract actions must submit to OFPP within 120 days after the end of each fiscal year, an annual certification of whether, and to what degree, agency CAR data for the preceding fiscal year is complete and accurate.

4.302 Personal identity verification.

(a) Agency procedures for the return of Personal Identity Verification (PIV) products must ensure that Government contractors account for all forms of Government-provided identification issued to Government contractor employees under a contract, i.e., the PIV cards or other similar badges, and must ensure that contractors return such identification to the issuing agency as soon as any of the following occurs, unless otherwise determined by the agency:

(1) When no longer needed for contract performance.

(2) Upon completion of a contractor employee's employment.

(3) Upon contract completion or termination.

4.303 Service contracts inventory.

(a) *Requirement*. As required by section 743(a) of Division C of the Consolidated Appropriations Act, 2010 (Pub. L. 111-117), agencies covered by the Federal Activities Inventory Reform Act (Pub. L. 105-270), except the Department of Defense, must submit to the Office of Management and Budget (OMB) annually an inventory of activities performed by service contractors. The information reported in the inventory will be publicly accessible.

(b) *Reporting requirements thresholds*.

(1) Except as exempted by OFPP guidance, service contractor reporting is required for contracts and first-tier subcontracts for services based on type of contract and estimated total value. For indefinite-delivery contracts, the contracting officer must determine the reporting requirements based on the type and estimated total value of each order under the contract.

(2) Reporting is required according to the following thresholds:

(i) All cost-reimbursement, time-and-materials, and labor-hour service contracts and orders with an estimated total value above the simplified acquisition threshold.

(ii) All fixed-price service contracts awarded and orders with an estimated total value of $500,000 or greater.

(3) Reporting is required for all first-tier subcontracts for services as prescribed in paragraphs (c)(2)(i) and (ii) of this section.

(c) *Agency reporting responsibilities*.

(1) Agencies are required to compile annually an inventory of service contracts performed for, or on behalf of, the agency during the previous fiscal year to determine the extent of the agency's reliance on service contractors. Agencies must submit a service contract inventory to OMB by January 15 annually. Then, each agency must post the inventory on its Web site and publish a Federal Register Notice of Availability by February 15 annually.

(2) Agencies must review contractor reported information for reasonableness and consistency with available contract information. The agency is not required to address data for which the agency would not normally have supporting information. If revisions to the contractor-reported information are warranted, the agency must notify the contractor no later than November 15. By November 30, the contractor shall revise the report, or document its rationale for the agency. Authorized agency officials may review the reports at https://www.sam.gov.

4.304 System for Award Management.

(a) Contractors must maintain throughout the life of the contract through final payment—

(1) Their registration, if they are required to be registered in SAM; or

(2) Their identifying information, if they are not required to be registered in SAM.

(b) Contracting officers must validate the contractor has an active Federal Government contracts registration in SAM at the following times:

(1) For contracts described at 4.203-1(b)(4), within 30 days after contract award, or at least three days before submitting the first invoice, whichever occurs first.

(2) Before exercising any options on a contract.

(3) For novation and change-of-name agreements, see paragraph (c) of the clause at 52.204-13.

(4) For assignees for the purpose of assignment of claims (see part 32), see paragraph (d) of the clause at 52.204-13.

4.305 Contractor identification.

(a) Contractors are required to maintain their UEI and Commercial and Government Entity (CAGE) code throughout the life of the contract.

(b) Contractors must communicate any change to their UEI or CAGE code to the contracting officer within 30 days after the change, so the contracting officer can issue a modification to update the UEI or CAGE code on the contract. A change in the unique entity identifier does not necessarily require a novation.

4.306 Executive compensation.

(a) As required by section 2 of the Federal Funding Accountability and Transparency Act of 2006 (Pub. L. 109-282), as amended by section 6202 of the Government Funding Transparency Act of 2008 (Pub. L. 110-252), contractors must report first-tier subcontract award data and the total compensation of the five most highly compensated executives of the contractor and of each first-tier subcontractor.

(b) Certain data from FPDS will pre-populate SAM data to help contractors complete and submit their reports. If the FPDS data is inaccurate, the contracting officer will correct the data in FPDS.

4.307 Payment office.

Provide the payment office information required to make proper payments under a contract, at least the taxpayer identification number, type of organization, the unique entity identifier, and, if applicable, the electronic funds transfer indicator.

4.308 Contract closeout.

4.308-1 Procedures for closing out contract files.

(a) The administrative closeout procedures must ensure that—

(1) Disposition of classified material is completed;

(2) Final patent report is cleared. If a final patent report is required, the contracting officer may proceed with contract closeout according to the following procedures, or as otherwise prescribed by agency procedures:

(i) Final patent reports should be cleared within 60 days of receipt.

(ii) If the final patent report is not received, the contracting officer must notify the contractor of the contractor's obligations and the Government's rights under the applicable patent rights clause, according to part 27. If the contractor fails to respond to this notification, the contracting officer may proceed with contract closeout upon consultation with the agency legal counsel responsible for patent matters regarding the contractor's failure to respond.

(3) Final royalty report is cleared;

(4) There is no outstanding value engineering change proposal;

(5) Plant clearance report is received;

(6) Property clearance is received;

(7) All interim or disallowed costs are settled;

(8) Price revision is completed;

(9) The prime contractor settles its subcontracts;

(10) Prior year indirect cost rates are settled;

(11) Termination docket is completed;

(12) Contract audit is completed;

(13) Contractor's closing statement is completed;

(14) Contractor's final invoice has been submitted; and

(15) Contract funds review is completed and excess funds deobligated.

(b) When the actions in paragraph (a) of this section have been verified, the contracting officer administering the contract must prepare a contract completion statement containing the following information:

(1) Contract administration office name and address (if different from the contracting office).

(2) Contracting office name and address.

(3) Contract number.

(4) Last modification number.

(5) Last call or order number.

(6) Contractor name and address.

(7) Dollar amount of excess funds, if any.

(8) Voucher number and date, if final payment has been made.

(9) Invoice number and date, if the final approved invoice has been forwarded to a disbursing office of another agency or activity and the status of the payment is unknown.

(10) A statement that all required contract administration actions have been fully and satisfactorily accomplished.

(11) Name and signature of the contracting officer.

(12) Date.

(c) When the statement is completed, the contracting officer must place—

(1) The signed original in the contracting office contract file (or forwarded to the contracting office for placement in the files if the contract administration office is different from the contracting office); and

(2) A signed copy in the appropriate contract administration file if administration is performed by a contract administration office.

4.308-2 Contract closeout by the office administering the contract.

(a) The contract administration office must initiate administrative closeout of the contract after receiving evidence of its physical completion. At the start of this process, the contract administration office must review the contract funds status and notify the contracting office of any excess funds the contract administration office might deobligate.

(b) Except as provided in paragraph (d) of this section, contract files should be closed according to Table 4-2.

Table 4-2— Time Standards for Closing Out Contract Files

Files for:	Should be:
(1) Contracts using simplified acquisition procedures	Considered closed when the contracting officer receives evidence of receipt of property and final payment, unless otherwise specified by agency regulations.
(2) Firm-fixed-price contracts, other than those using simplified acquisition procedures.	Closed within 6 months after the date on which the contracting officer receives evidence of physical completion.
(3) Contracts requiring settlement of indirect cost rates.	Closed within 36 months of the month in which the contracting officer receives evidence of physical completion.
(4) All other contracts.	Closed within 20 months of the month in which the contracting officer receives evidence of physical completion.

(c) When closing out the contract files at 4.308-2(b)(2), (3), and (4), the contracting officer must use the closeout procedures at 4.308-1. However, these closeout actions may be modified to reflect the extent of administration that has been performed. Use quick closeout procedures (see part 42), when appropriate, to reduce administrative costs and to enable deobligation of excess funds.

(d) Do not close a contract file if—

(1) The contract is in litigation or under appeal; or

(2) In the case of a termination, all termination actions have not been completed.

4.309 Storage, handling, and contract files.

(a) Agencies must keep acquisition records according to Table 4-3. This requirement also applies to record copies stored on alternate media when original documents have been converted to alternate media for storage.

Table 4-3—Retention Periods

Record	Retention period
(1) Contracts (and related records or documents, including successful and unsuccessful proposals, except see paragraph (a)(2) of this section regarding contractor payrolls submitted under construction contracts.)	6 years after final payment.
(2) Contractor's payrolls submitted under construction contracts according to Department of Labor regulations (29 CFR 5.5(a)(3)), with related certifications, anti-kickback affidavits, and other related records.	3 years after contract completion unless contract performance is the subject of an enforcement action on that date (see paragraph (a)(8) of this section).
(3) Unsolicited proposals not accepted by a department or agency.	Retain according to agency procedures.
(4) Files for canceled solicitations.	6 years after cancellation.
(5) Other copies of procurement file records used for administrative purposes.	When business use ceases.
(6) Documents pertaining generally to the contractor.	Until superseded or obsolete.
(7) Data submitted to FPDS. Electronic data file maintained by fiscal year, containing unclassified records of all procurements exceeding the micro-purchase threshold, and information required under 4.301.	6 years after submittal to FPDS.
(8) Investigations, cases pending or in litigation (including protests), or similar matters (including enforcement actions).	Until final clearance or settlement, or, if related to a document identified in paragraphs (a)(1) through (7) of this section, for the retention period specified for the related document, whichever is later.

(b) Agencies must prescribe procedures for the handling, storing, and disposing of contract files, according to the National Archives and Records Administration (NARA) General Records Schedule 1.1, Financial Management and Reporting Records. The Financial Management and Reporting Records can be found at http://www.archives.gov/records-mgmt/grs.html. The procedures should conform with the regulatory requirements in paragraph (a) of this section, which have been acknowledged and approved by NARA in its guidance.

(c) If administrative records are mixed with program records and cannot be economically segregated, keep the entire file for the period approved for the program records. Similarly, if documents described in Table 4-3 are part of a subject or case file that documents activities that are not described in the table, treat them the same manner as the files of which they are a part.

Subpart 4.4 - [Reserved]

This page intentionally left blank.

Subpart 4.5 - [Reserved]

This page intentionally left blank.

Subpart 4.6 - [Reserved]

This page intentionally left blank.

Subpart 4.7 - Contractor Records Retention

4.700 Scope of subpart.

This subpart provides policies and procedures for contractors to retain records to meet the records review requirements of the Government. In this subpart, the terms "contracts" and "contractors" include "subcontracts" and "subcontractors."

4.701 Purpose.

The purpose of this subpart is to generally describe records retention requirements and to allow reductions in the retention period for specific classes of records under prescribed circumstances.

4.702 Applicability.

(a) This subpart applies to records generated under contracts that contain one of the following clauses:

(1) Audit and Records—Sealed Bidding (52.214-26).

(2) Audit and Records—Negotiation (52.215-2).

(b) This subpart is not mandatory on Department of Energy contracts for which the Comptroller General allows alternative records retention periods. Apart from this exception, this subpart applies to record retention periods under contracts that are subject to 10 U.S.C. chapter 137 legacy provisions (10 U.S.C. 3064) and 10 U.S.C. 3016 and chapter 203 or 40 U.S.C. 101, *et seq*.

4.703 Policy.

(a) Except as stated in 4.703(b), contractors must make available records, which includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form, and other supporting evidence to satisfy contract negotiation, administration, and audit requirements of the contracting agencies and the Comptroller General for—

(1) 3 years after final payment; or

(2) For certain records, the period specified in 4.705, whichever of these periods expires first.

(b) Contractors must make available the foregoing records and supporting evidence for a longer period than is required in 4.703(a) if—

(1) A retention period longer than that cited in 4.703(a) is specified in any contract clause; or

(2) The contractor, for its own purposes, retains the foregoing records and supporting evidence for a longer period. Under this circumstance, the retention period must be the period of the contractor's retention or 3 years after final payment, whichever period expires first.

(3) The contractor does not meet the original due date for submission of final indirect cost rate proposals specified in paragraph (d)(2) of the clause at 52.216-7, Allowable Cost and Payment. Under these circumstances, the retention periods in 4.705 must be automatically extended one day for each day the proposal is not submitted after the original due date.

(c) Nothing in this section must be construed to preclude a contractor from duplicating or storing original records in electronic form unless they contain significant information not shown on the record copy. Original records need not be maintained or produced in an audit if the contractor or subcontractor provides photographic or electronic images of the original records and meets the following requirements:

(1) The contractor or subcontractor has established procedures to ensure that the imaging process preserves accurate images of the original records, including signatures and other written or graphic images, and that the imaging process is reliable and secure to maintain the integrity of the records.

(2) The contractor or subcontractor maintains an effective indexing system to permit timely and convenient access to the imaged records.

(3) The contractor or subcontractor retains the original records for a minimum of one year after imaging to permit periodic validation of the imaging systems.

(d) If the information described in paragraph (a) of this section is maintained on a computer, contractors must retain the computer data on a reliable medium for the time periods prescribed. Contractors may transfer computer data in machine readable form from one reliable computer medium to another. Contractors' computer data retention and transfer procedures must maintain the integrity, reliability, and security of the original computer data. Contractors must also retain an audit trail describing the data transfer. For the record retention time periods prescribed, contractors must not destroy, discard, delete, or write over such computer data.

4.704 Calculating retention periods.

(a) The retention periods in 4.705 are calculated from the end of the contractor's fiscal year in which an entry is made charging or allocating a cost to a Government contract or subcontract. If a specific record contains a series of entries, the retention period is calculated from the end of the contractor's fiscal year in which the final entry is made. The contractor should cut off the records in annual blocks and retain them for block disposal under the prescribed retention periods.

(b) When a contractor relies upon records generated during a prior contract for certified cost or pricing data in negotiating a succeeding contract, the prescribed periods must run from the date of the succeeding contract.

(c) If two or more of the record categories described in 4.705 are interfiled and screening for disposal is not practical, the contractor must retain the entire record series for the longest period prescribed for any category of records.

4.705 Specific retention periods.

The contractor must retain records according to Table 4-4.

Table 4-4—Contractor Records Retention Periods

Category	Record type	Retention period
Financial and cost accounting records	Accounts receivable invoices, adjustments to the accounts, invoice registers, carrier freight bills, shipping orders, and other documents that detail the material or services billed on the related invoices	4 years
	Material, work order, or service order files, consisting of purchase requisitions or purchase orders for material or services, or orders for transferring material or supplies	4 years
	Cash advance recapitulations, prepared as posting entries to accounts receivable ledgers for amounts of expense vouchers prepared for employees' travel and related expenses	4 years
	Paid, canceled, and voided checks, other than those issued for paying salary and wages	4 years
	Accounts payable records to support disbursements of funds for materials, equipment, supplies, and services, containing originals or copies of the following and related documents: remittance advices and statements, vendors' invoices, invoice audits and distribution slips, receiving and inspection reports or comparable certifications of receipt and inspection of material or services, and debit and credit memoranda	4 years
	Labor cost distribution cards or equivalent documents	2 years

Table 4-4—Contractor Records Retention Periods		
Category	**Record type**	**Retention period**
	Petty cash records describing expenditures, to whom paid, name of person authorizing payment, and date, including copies of vouchers and other supporting documents	2 years
Pay administration records	Payroll sheets, registers, or their equivalent, of salaries and wages paid to individual employees for each payroll period; change slips; and tax withholding statements	4 years
	Clock cards or other time and attendance cards	2 years
	Paid checks, receipts for wages paid in cash, or other evidence of payments for services rendered by employees	2 years
Acquisition and supply records	Store requisitions for materials, supplies, equipment, and services	2 years
	Work orders for maintenance and other services	4 years
	Equipment records, consisting of equipment usage and status reports and equipment repair orders	4 years
	Expendable property records, reflecting accountability for receiving and using material to perform a contract	4 years
	Receiving and inspection report records, consisting of reports reflecting receipt and inspection of supplies, equipment, and materials	4 years
	Purchase order files for supplies, equipment, material, or services used to perform a contract; supporting documentation and backup files including, but not limited to, invoices, and memoranda, e.g., memoranda of negotiations showing the principal elements of subcontract price negotiations	4 years
	Production records of quality control, reliability, and inspection	4 years
	Property records (see part 45)	4 years

This page intentionally left blank.

PART 5 - PUBLICIZING CONTRACT ACTIONS

This page intentionally left blank.

5.000 Scope of part.

This part prescribes the policies and procedures for publicizing contract opportunities and award information in the Governmentwide point of entry (GPE).

5.001 Definitions.

As used in this part—

Contract action means an action resulting in a contract, including actions for additional supplies or services outside the existing contract scope. This does not include actions within the scope and terms of the existing contract, such as contract modifications issued under the Changes clause, or funding and other administrative changes.

Notice means a description of a business opportunity, contract action, or other information posted to the GPE.

Presolicitation notice means a notice used to notify industry and the public that the Government intends to release a solicitation in the near future.

5.002 Policy.

Contracting officers must post presolicitation notices, solicitations, and award notices in the GPE as described in this part to—

(a) Increase competition;

(b) Broaden industry participation in meeting Government requirements; and

(c) Inform small business concerns of contract and subcontract opportunities.

Subpart 5.1 - Presolicitation

5.101 Presolicitation notice.

(a) Requirement. For proposed contract actions expected to be greater than $20,000, post a presolicitation notice to the GPE unless an exemption in paragraph (b) applies.

(b) Exemptions. The contracting officer is not required to post a presolicitation notice to the GPE when—

(1) The proposed contract action—

(i) Is valued at or below the simplified acquisition threshold (SAT) and the solicitation will—

(A) Be posted to the GPE in accordance with 5.201; and

(B) Permit the public to respond to the solicitation electronically;

(ii) Is of such a nature that it is not possible to write the notice in a way that would prevent disclosure of an agency's needs and disclosure would compromise national security;

(iii) Would result from acceptance of—

(A) An unsolicited proposal that is unique and innovative, and sharing details would reveal confidential or proprietary information or original ideas; or

(B) A proposal under the Small Business Innovation Development Act of 1982 (Pub. L. 97-219);

(iv) Is an order issued under a requirements contract, a task order contract, or a delivery order contract;

(v) Is for perishable subsistence supplies;

(vi) Is for utility services (other than telecommunications) for which only one source is available; or

(vii) Is for the services of an expert for use in any litigation or dispute (including any reasonably foreseeable litigation or dispute) involving the Federal Government in a trial, hearing, or proceeding before a court, administrative tribunal, or agency, or in any part of an alternative dispute resolution process, whether or not the expert is expected to testify;

(2) Using other than full and open competition (see 6.103), except for the authorities at 6.103-1 (only one responsible source) and 6.103-6 (national security); or

(3) The head of the agency determines in writing, after consulting with the Administrator for Federal Procurement Policy and the Administrator of the Small Business Administration, that advance notice is not appropriate or reasonable.

(c) *Content*. Include the following information in each presolicitation notice sent to the GPE:

(1) Point of contact. Include the name, address, and contact information for the contracting officer.

(2) *Set-asides*. If applicable, identify whether the proposed contract action will be a total or partial small business set-aside (see part 19) or a local area set-aside (see part 26).

(3) *Codes for services or supplies*. Select the appropriate code(s) (i.e., product service code (PSC) and/or North American Industry Classification System (NAICS) code) to identify services or supplies to be procured.

(4) *Description*.

(i) Provide a clear and concise description of supplies or services that does not unnecessarily restrict competition and allows prospective offerors to make an informed business judgment about monitoring the GPE for or requesting a copy of the solicitation. For supplies, this description should include, as appropriate, any agency nomenclature, National Stock Number, or other part number and a brief description of the item's form, fit, or function, physical dimensions, predominant material of manufacture, or similar information.

(ii) If a proposed contract action is estimated to be greater than $25,000, but not greater than the SAT, or when using special simplified procedures to procure certain commercial products or commercial services (see part 12), include a description of the procedures for awarding the contract and the anticipated award date.

(iii) If one or more items under the acquisition is subject to the World Trade Organization Government Procurement Agreement (WTO GPA) and/or a Free Trade Agreement (FTA) (see Part 25) and the solicitation will include one of the following clauses, or an agency equivalent, include the required language regarding trade agreements:

Table 5-1 — Statements Regarding Trade Agreements

FAR Clause	Required Language
FAR 52.225-3, Buy American–Free Trade Agreements–Israeli Trade Act	"One or more of the items under this acquisition is subject to Free Trade Agreements."
FAR 52.225-5, Trade Agreements	"One or more of the items under this acquisition is subject to the World Trade Organization Government Procurement Agreement and Free Trade Agreements."
FAR 52.225-11, Buy American-Construction Materials under Trade Agreements, or FAR 52.225-23, Required Use of American Iron, Steel, and Manufactured Goods-Buy American Statute-Construction Materials under Trade Agreements	"One or more of the items under this acquisition is subject to the World Trade Organization Government Procurement Agreement and Free Trade Agreements."

(iv) If technical data required to respond will not be furnished as part of the solicitation, identify where and how prospective offerors can obtain the data.

(v) If an award of a construction contract to a small business is anticipated, include information about definitization of equitable adjustments for change orders (see part 36).

(vi) Include a statement that all responsible sources may submit a quotation, bid, or proposal, as appropriate, which will be considered by the agency.

(vii) For noncompetitive contract actions (including those at or below the SAT), identify the intended source and explain why competition is lacking.

(viii) State whether an offeror or its product or service must meet a qualification requirement in order to be eligible for award; and if so, identify the office from which the qualification requirement may be obtained.

(d) *Timing*. When a presolicitation notice is required, post it to the GPE as follows:

Table 5-2 — Minimum Timeframes for Posting Presolicitation Notices

Acquisition Value	Description	Timing
>$20,000 to ≤$25,000*	Any acquisition	Must be posted for 10 days
>$25K to ≤SAT*	Any acquisition	15 days before solicitation issuance
>SAT	Acquisition of commercial products or commercial services	Combined with the solicitation
	Noncommercial acquisitions	15 days before solicitation issuance

* Per 5.101(b)(1)(i), a presolicitation notice is not required if the solicitation will be posted in the GPE and allow for electronic submission of offers.

5.102 Paid advertisements.

In addition to posting in the GPE, agencies may place paid advertisements. Agencies that choose to advertise proposed contract actions in newspapers or other public media must follow 41 U.S.C. 3701-3703.

5.103 Special notices.

(a) Federally Funded Research and Development Centers (FFRDCs). For requirements relating to FFRDCs see part 35.

(b) Notices about consolidation, bundling, or substantial bundling. For required notices about consolidation or substantial bundling of contract requirements, see part 7.

This page intentionally left blank.

Subpart 5.2 - Solicitation

5.201 Solicitation notice.

(a) Requirements. Unless an exemption at paragraph (b) applies, post the solicitation in the GPE.

(b) Exemptions. The contracting officer does not need to post the solicitation to the GPE if a presolicitation notice for the proposed contract action—

(1) Was not required based on an exemption at 5.101(b), except for 5.101(b)(1)(i); or

(2) Was posted to the GPE in lieu of posting a solicitation in the GPE (see 5.101(b)(1)(i)).

(c) *Content*. The solicitation notice posted to the GPE must include—

(1) The information required by 5.101(c);

(2) Specifications, technical data, and other pertinent information determined necessary by the contracting officer or instructions on how to access the information; and

(3) When an acquisition contains brand name specifications, the justification required by 6.104, redacted as necessary.

(d) *Timing*. Establish a date for receipt of quotations or offers that meets the minimum timeframes in the table below. See part 25 to determine whether an acquisition is subject to the WTO GPA or an FTA.

Table 5-3 — Minimum Timeframes for Receipt of Quotations or Offers.

Value	Description	Not subject to WTO GPA or FTA	Subject to WTO GPA or FTA, but included in annual forecast	Subject to WTO GPA or FTA, but not included in annual forecast
≥$15K to ≤SAT	Any acquisition	None, allow a reasonable opportunity to respond	10 days from presolicitation notice or solicitation, as applicable	40 days from presolicitation notice or solicitation, as applicable
>SAT	Acquisition of commercial products or commercial services	None, allow a reasonable opportunity to respond	10 days from combined synopsis/ solicitation	40 days from combined synopsis/ solicitation
	Research and Development (R&D) acquisitions	45 days from presolicitation notice	N/A	N/A
	Orders under a Basic Ordering Agreement (BOA) or similar (non-R&D)	30 days from presolicitation notice	30 days from presolicitation notice (reducible to 10 days, if warranted)	40 days from presolicitation notice
	All other non-commercial acquisitions	30 days from solicitation	30 days from solicitation (reducible to 10 days, if warranted)	30 days from solicitation

5.202 Requests from small businesses.

Per 15 U.S.C. 637b, when a solicitation is not posted to the GPE, provide to small business concerns, upon request—

(a) A copy of the solicitation and specifications;

(b) The name and email address of the solicitation point of contact; and

(c) Adequate citations to Federal laws and agency rules the small business must follow if awarded a contract.

This page intentionally left blank.

Subpart 5.3 - Award

5.301 Award notice.

(a) *Requirement*. Except as provided in paragraph (b) of this section, post an award notice to the GPE for contract actions greater than $25,000 that are—

(1) Covered by the WTO GPA or FTA (see part 25); or

(2) Likely to result in subcontract awards.

(b) Exemptions. An award notice is not required if an exemption at 5.101(b)(1) to the presolicitation notice requirements applied to the contract action.

(c) *Content*. The award notice must include the following information:

(1) A description of the supplies or services.

(2) Contracting office and address.

(3) Contractor receiving the award.

(4) Contract award dollar amount.

(5) Contract award date.

(d) *Timing*. When an award notice is required, post it to the GPE within the following timeframes:

Table 5-4 — Minimum Timeframes for Posting Award Notices

Value	Description	Timing
>$25K	Likely to result in subcontracting opportunities	As soon as possible after award to promote industry and small business participation
	Not likely to result in subcontracting opportunities, but subject to WTO GPA or FTA	Within 60 days of award

5.302 Public announcement.

(a) *Requirement*. Contracting officers must make information available on awards of contract actions over $5.5 million in sufficient time for the agency concerned to publicly announce it by 5 p.m., Eastern Time (ET), on the day of award. Agencies shall not release information on awards before the public release time of 5 p.m., ET. This public announcement is a separate requirement from the award notice requirements of part 5.301.

(b) *Exemption*. Contract actions excluded from this requirement include those—

(1) Placed with the Small Business Administration under Section 8(a) of the Small Business Act;

(2) Placed with foreign firms when delivery or performance is outside the United States and its outlying areas; and

(3) That were exempt from the presolicitation notice requirements at 5.101(b).

5.303 Announcement of contract awards.

(a) The following entities may post a notice of subcontracting opportunities to the GPE:

(1) A contractor awarded a contract greater than the SAT that will likely result in subcontract awards.

(2) A subcontractor or supplier, at any tier, under a contract greater than the SAT with a subcontracting opportunity greater than $20,000.

(b) The notice must include—

(1) The business opportunity information described at 5.101(c)(4)(i), (iv), and (v); and

(2) The due date for receipt of offers.

This page intentionally left blank.

PART 6 - COMPETITION REQUIREMENTS

This page intentionally left blank.

6.000 Scope of part.

This part prescribes policies and procedures for full and open competition.

6.001 Applicability.

This part applies to all acquisitions except—

(a) Contracts awarded using the simplified acquisition procedures of part 13;

(b) Contracts awarded using contracting procedures (other than those addressed in this part) that are expressly authorized by statute;

(c) Contract modifications that are within the scope of the contract, including exercising priced options that were evaluated as part of the original competition (see part 17);

(d) Orders placed under requirements contracts or definite-quantity contracts;

(e) Orders placed under indefinite-quantity contracts that were entered into according to this part when—

(1) The contract was awarded under 6.101 or 6.102, and all responsible sources were realistically permitted to compete for the requirements contained in the order; or

(2) The contract was awarded under 6.103, and the justification and approval, if required, adequately covers the requirements contained in the order; or

(f) Orders placed against task order and delivery order contracts entered into according to part 16.

6.002 Limitations.

No agency may contract for supplies or services from another agency to avoid the requirements of this part.

6.003 Advocates for competition.

(a) 41 U.S.C. 1705 requires the head of each executive agency to designate and resource an advocate for competition for the agency and for each procuring activity of the agency.

(b) The advocate promotes full and open competition, promotes the acquisition of commercial products and services, and challenges barriers to acquisition. The advocate reports actions taken to increase competition to the senior procurement executive and chief acquisition officer.

Subpart 6.1 - Presolicitation

6.101 Full and open competition.

(a) Except as authorized by 6.102 and 6.103, contracting officers must obtain full and open competition by using competitive procedures to solicit offers and award Government contracts (see 10 U.S.C. 3201 and 41 U.S.C. 3301).

(b) Contracting officers must use the competitive procedure, or combination of procedures, best suited to efficiently fulfill the Government's requirements. Competitive procedures include sealed bids, competitive proposals, and other procedures explicitly authorized by statute.

(1) *Sealed bids*. For sealed bidding procedures, see part 14. Use sealed bids only when the contracting officer has found that all of the following apply:

(i) Time permits staff to solicit, submit, and evaluate sealed bids;

(ii) The award will be made on the basis of price and other price-related factors;

(iii) Discussion with bidders is unnecessary; and

(iv) Contracting officers reasonably expect to receive more than one sealed bid.

(2) *Competitive proposals*. For competitive proposal procedures, see part 15.

(3) *Other competitive procedures*. The following procedures are also considered competitive procedures (see 41 U.S.C. 152):

(i) Selection of sources for architect-engineer contracts according to the provisions of 40 U.S.C. 1102 *et seq*.

(ii) Competitive selection of basic and applied research, as well as that part of development not related to developing a specific system or hardware procurement, if award results from—

(A) Proposals in response to a general solicitation or broad agency announcement; and

(B) A peer review or scientific review of such proposals.

(iii) Use of procedures established by the Administrator of General Services for the multiple award schedule program of the General Services Administration.

6.102 Full and open competition after excluding sources.

(a) Agencies may contract by providing for full and open competition after excluding one or more sources under authorities specified in this section (see 10 U.S.C. 3203 and 41 U.S.C. 3303).

(b) Acquisitions made under this section require use of the competitive procedures outlined in 6.101(b).

(c) Acquisitions under this section do not require separate justification and approval or determination and findings.

6.102-1 Establishing or maintaining alternative sources.

(a) Agencies may exclude a particular source from a contract action to establish or maintain an alternative source of supply for that supply or service if the agency head determines that to do so would—

(1) Increase or maintain competition and likely result in reduced overall costs for the acquisition, or anticipated acquisition, of the supplies or services;

(2) Serve the interests of national defense to have a facility (or a producer, manufacturer, or other supplier) available for furnishing the supplies or services in case of a national emergency or industrial mobilization;

(3) Serve the interests of national defense by establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center;

(4) Ensure the continuous availability of a reliable source of supplies or services;

(5) Satisfy projected needs based on a history of high demand for the supplies or services; or

(6) Satisfy a critical need for medical, safety, or emergency supplies.

(b) (1) Every proposed contract action under the authority of paragraph (a) of this section must be supported by a determination and findings (D&F) (see subpart 1.5) signed by the head of the agency or designee. This D&F must not be made on a class basis.

(2) Technical and requirements personnel are responsible for providing all necessary data to support their recommendation to exclude a particular source.

(3) When the authority in paragraph (a)(1) of this section is cited, the findings must include a description of the estimated reduction in overall costs and how the estimate was derived.

6.102-2 Set-asides for small business concerns.

Contracting officers may set aside acquisitions for small business concerns. This authority also includes—

(a) Contract actions conducted under the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs.

(b) Contract actions set aside for specific small business socioeconomic categories (see part 19).

6.102-3 Set-asides for local firms during a major disaster or emergency.

Contracting officers may set aside solicitations to allow only offerors residing or doing business primarily in the area affected by a major disaster or emergency (see part 26).

6.103 Other than full and open competition.

(a) Agencies may contract without providing for full and open competition under authorities specified in this section (see 10 U.S.C. 3204 and 41 U.S.C. 3304).

(b) Contracting without providing for full and open competition must not be justified on the basis of—

(1) A lack of planning by the requiring activity; or

(2) Concerns related to the amount of funds available to the agency or activity for acquisition.

(c) When not providing for full and open competition, the contracting officer must solicit offers from as many potential sources as is practicable under the circumstances.

(d) Except for contracts awarded under the authority of 6.103-5 and 6.103-7, an acquisition under this section requires—

(1) Consideration of all bids, proposals, quotations, or capability statements received; and

(2) Justification and approval required by 6.104.

6.103-1 Only one responsible source and no other supplies or services will satisfy agency requirements.

(a) *Authority*. 10 U.S.C. 3204(a)(1) or 41 U.S.C. 3304(a)(1).

(b) *One responsible source*. Agencies may contract without providing for full and open competition when the supplies or services required by the agency are available from only one responsible source and no other type of supplies or services will satisfy agency requirements. For DoD, NASA, and the Coast Guard, this authority extends to situations where only a limited number of responsible sources can satisfy agency requirements.

(c) Supplies and services may be deemed as available from only one source under this authority under the following circumstances—

(1) When an unsolicited research proposal shows a unique and innovative concept (see definition at 2.101) the substance of which is not otherwise available to the Federal Government and does not resemble the substance of a pending competitive acquisition. For DoD, NASA, and the Coast Guard, this authority extends to situations where a source demonstrates a unique capability to provide the particular research services proposed.

(2) When awarding a follow-on contract for the continued development or production of a major system or highly specialized equipment and, for DoD, NASA, and the Coast Guard, for the continued provision of highly specialized services, would result in—

(i) Substantial duplication of cost to the Government that is not expected to be recovered through competition; or

(ii) Unacceptable delays in fulfilling the agency's requirements.

(d) *Application for brand-name descriptions*. Except as authorized at 6.103-5, use of brand-name descriptions, or specification of attributes peculiar to one manufacturer, prevents full and open competition and should only be used when justified and approved according to 6.104. This does not apply to “brand name or equal” descriptions as they provide for full and open competition.

6.103-2 Unusual and compelling urgency.

(a) *Authority*. 10 U.S.C. 3204(a)(2) or 41 U.S.C. 3304(a)(2).

(b) *Urgency*. Agencies may contract without providing for full and open competition when the agency's need for the supplies or services is of such an unusual and compelling urgency that the Government would be seriously injured, financially or otherwise, unless the agency is permitted to limit the number of sources from which it solicits bids or proposals.

(c) *Period of performance*. The total period of performance of a contract greater than the simplified acquisition threshold awarded or modified using this authority—

(1) May not exceed the time necessary—

(i) To meet the unusual and compelling requirements of the work to be performed under the contract; and

(ii) For the agency to enter into another contract for the required goods and services through competitive procedures; and

(2) May not exceed one year, including all options, unless the head of the agency determines that exceptional circumstances apply. This determination—

(i) Is separate from the justification and approval for the use of the unusual and compelling urgency authority and must be documented in the contract file;

(ii) Does not cover any subsequent modification that further extends the period of performance, except for options included in the original determination. Such extensions must be approved at the same level as the original determination.

(d) *Documentation after award*. The justification and approval for the use of this authority, as well as the determination described in paragraph (c)(2) of this section, may be made after contract award when making the determination before award would unreasonably delay the acquisition.

6.103-3 Industrial mobilization; engineering, developmental, or research capability; or expert services.

(a) *Authority*. 10 U.S.C. 3204(a)(3) or 41 U.S.C. 3304(a)(3).

(b) *Application*. Agencies may contract without providing for full and open competition when it is necessary to award the contract to a particular source or sources in order—

(1) To maintain a facility, producer, manufacturer, or other supplier available for furnishing supplies or services in case of a national emergency or to achieve industrial mobilization;

(2) To establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center; or

(3) To acquire the services of an expert or neutral person for any current or anticipated litigation or dispute.

6.103-4 International agreement.

(a) *Authority*. 10 U.S.C. 3204(a)(4) or 41 U.S.C. 3304(a)(4).

(b) *International agreement*. Agencies may contract without providing for full and open competition when precluded by the—

(1) Terms of an international agreement or a treaty between the United States and a foreign government or international organization; or

(2) The written directions of a foreign government reimbursing the agency for the cost of acquiring the supplies or services for such government.

(c) *Limitations*. Contracts awarded by DoD, NASA, and the Coast Guard using this authority do not require the written justifications and approvals described in 6.104.

6.103-5 Authorized or required by statute.

(a) *Authority*. 10 U.S.C. 3204(a)(5) or 41 U.S.C. 3304(a)(5).

(b) *Authorized or required by statute*. Agencies may contract without providing for full and open competition when—

(1) A statute expressly authorizes or requires that the acquisition be made through another agency or from a specified source; or

(2) The agency's need is for a brand-name commercial product for authorized resale (*e.g.*, commercial products for resale through commissaries). This authority does not include other uses of brand name descriptions that generally preclude full and open competition and are required to be addressed in accordance with 6.103-1(d).

(c) *Application*. This authority may be used when statutes expressly authorize or require that acquisition be made from a specified source or through another agency. Examples include, but are not limited to:

(1) Sole-source awards of certain socio-economic small business concerns (see 15 U.S.C. chapter 14A); and

(2) Sole-source awards under the SBIR or STTR programs for Phase III (see 15 U.S.C. 638(r)(4)) or Phase II, when directly following a competitively awarded initial Phase II award (see 15 U.S.C. 638(ff)).

(d) *Limitations*. (1) Do not use this authority when a provision of law requires an agency to award a new contract to a specified non-Federal Government entity unless the provision of law specifically—

(i) Identifies the entity involved; and

(ii) States that award to that entity must be made despite the merit-based selection procedures in 10 U.S.C. 3201(e) for armed services acquisitions or 41 U.S.C. 3105 for civilian agency acquisitions.

(2) This limitation does not apply—

(i) When the work provided for in the contract continues the work performed by the specified entity under a preceding contract; or

(ii) To any contract requiring the National Academy of Sciences to investigate, examine, or experiment upon any subject of science or art of significance to an executive agency and to report on those matters to the Congress or any agency of the Federal Government.

(e) With the exception of sole-source 8(a) contracts over $30 million (section 811 of Public Law 111-84, 41 U.S.C. 3304 note), contracts awarded using this authority do not require written justifications and approvals described in 6.104.

6.103-6 National security.

(a) *Authority*. 10 U.S.C. 3204(a)(6) or 41 U.S.C. 3304(a)(6).

(b) *National security*. Full and open competition need not be provided for when disclosing the agency's needs would compromise national security unless the agency can limit the number of sources from which it solicits bids or proposals.

6.103-7 Public interest.

(a) *Authority*. 10 U.S.C. 3204(a)(7) or 41 U.S.C. 3304(a)(7).

(b) Public interest. Full and open competition need not be provided for when the agency head determines it is not in the public interest for that particular acquisition.

(c) Limitations. (1) A written determination to use this authority must be made in accordance with subpart 1.5, by the head of the executive agency. The authority may not be delegated and the determination must not be made on a class basis.

(2) Agencies must notify Congress, in writing, of such determination not fewer than 30 days before awarding the contract.

6.104 Justification and approval.

(a) A justification and approval must support procedures under 6.103, except 6.103-5 and 6.103-7.

(b) Contracting officers require the support of the broader acquisition team when making decisions regarding competition. Technical and requirements personnel are responsible for providing, and certifying as accurate and complete, necessary data to support their recommendation for other than full and open competition.

(c) Justifications under 6.103, except for 6.103-7, may be made on an individual or class basis. Justifications under 6.103-7 may only be made on an individual basis.

6.104-1 Justification content.

(a) At a minimum, each justification must include the following information:

(1) Identification of the agency and the contracting activity, and specific identification of the document as a "Justification for other than full and open competition."

(2) Nature and/or description of the action being approved.

(3) A description of the supplies or services required to meet the agency's needs (including the estimated value).

(4) An identification of the statutory authority permitting other than full and open competition.

(5) A demonstration that the proposed contractor's unique qualifications or the nature of the acquisition requires using the authority cited.

(6) A description of efforts made to ensure that offers are solicited from as many potential sources as possible, including whether a notice was or will be publicized as required by part 5 and, if not, which exception under part 5 applies.

(7) A determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable.

(8) The market research conducted (see part 10) and the results or a statement of the reason market research was not conducted.

(9) Any other facts supporting using other than full and open competition, such as:

(i) When 6.103-1 is cited for follow-on acquisitions as described in 6.103-1(c)(2), an estimate of the cost to the Government that would be duplicated and how the estimate was derived.

(ii) When 6.103-2 is cited, data, estimated cost, or other rationale as to whether and how much the Government would be harmed.

(10) A listing of the sources, if any, that expressed an interest in the acquisition in writing.

(11) A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.

(12) Contracting officer certification that the justification is accurate and complete to the best of the contracting officer's knowledge and belief.

(b) For sole-source 8(a) contracts over $30 million, the justification must include, at a minimum, the contents described at paragraphs (a)(3), (a)(4), and (a)(7) of this section. It should also include a determination that using a sole-source contract is in the best interest of the agency concerned and any other matters specified by agency procedures.

6.104-2 Approval of justification.

(a) The justification for other than full and open competition must be approved in writing. Officials at a higher authority level may approve lower dollar justifications. For example, the senior procurement executive as well as the head of the procuring activity may approve a $60 million justification. Approval levels are as follows:

Table 6-1. Approval authorities for other than full and open competition.

Value (including options)	Approval authority
$900,000 or below	Contracting officer. Accomplished by certification required at 6.104(a)(12).
>$900,000 - $20,000,000	Advocate for competition. Not delegable.
>$20,000,000 - $90,000,000 (>20,000,000 - $150,000,000 for DoD, NASA, and the Coast Guard)	Head of the procuring activity. May be delegated to a member of the armed services at the general or flag officer level or a civilian in a grade above the GS-15 (or equivalent) level.
>$90,000,000 (>$150,000,0000 for DoD, NASA, and the Coast Guard)	Senior procurement executive. Not delegable, except in the case of the Under Secretary of Defense for Acquisition and Sustainment, acting as the senior procurement executive for the Department of Defense.

(b) A class justification for other than full and open competition must be approved in writing in accordance with agency procedures. The estimated total value of the class will determine the approval level.

(c) A justification must include the estimated dollar value of all options to determine the approval level.

Subpart 6.2 - [Reserved]

This page intentionally left blank.

Subpart 6.3 - Postaward

6.301 Availability of the justification.

(a) The agency must make publicly available the justification required by 6.104 as required by 10 U.S.C. 3204(f) and 41 U.S.C. 3304(f).

(b) The justification must be made publicly available within 14 days after contract award, except—

(1) Justifications under 6.103-2 must be posted within 30 days after contract award; and

(2) Justifications for brand-name descriptions under 6.103-1(d) must be posted with the solicitation (see part 5).

(c) The justifications must be made publicly available—

(1) At the Government Point of Entry (GPE);

(2) On the website of the agency, which may provide access to the justifications by linking to the GPE; and

(3) For a minimum of 30 days.

(d) Contracting officers must carefully screen all justifications for contractor proprietary data and remove all such data, and such references and citations as are necessary to protect the proprietary data, before making the justifications available for public inspection. Contracting officers must also be guided by the exemptions to disclosure of information contained in the Freedom of Information Act (5 U.S.C. 552) and the prohibitions against disclosure in part 24 in determining whether the justification, or portions of it, are exempt from posting.

(e) The requirements of paragraphs (a) through (c) do not apply if posting the justification would compromise national security or create other security risks.

This page intentionally left blank.

PART 7 - ACQUISITION PLANNING

This page intentionally left blank.

7.000 Scope of part.

This part prescribes policies and procedures for-

(a) Acquisition planning and developing acquisition plans;

(b) Determining whether to use commercial or Government resources to acquire supplies or services;

(c) Deciding whether it is more economical to lease or to purchase equipment; and

(d) Determining whether functions are inherently governmental.

Subpart 7.1 - Acquisition Plans

7.101 Definitions.

As used in this subpart—

Acquisition streamlining means more efficient and effective use of resources to design and develop or produce quality systems.

Life-cycle cost means the total cost to the Government of acquiring, operating, supporting, and (if applicable) disposing of the items being acquired.

Order means an order placed under a-

(1) Federal Supply Schedule contract; or

(2) Task-order contract or delivery-order contract.

Planner means the person or office responsible for developing and maintaining a plan, whether written or not.

7.102 Requirements.

(a) Agencies must perform acquisition planning for all acquisitions. Agencies should establish procedures to determine when a written or oral acquisition plan is required (see 7.103). The record of the acquisition plan must be appropriate for the type of acquisition and document decisions and actions to ensure-

(1) Information is available for making informed decisions at each step in the acquisition process;

(2) There is clear support for all actions taken;

(3) Necessary information is available for reviews or investigations; and

(4) Essential facts are available in case litigation arises.

(b) Acquisition plans must promote and provide for:

(1) Acquisition of commercial products or commercial services, whenever feasible. If available commercial products or services do not meet agency needs, acquire nondevelopmental items, to the maximum extent practicable (10 U.S.C. 3453 and 41 U.S.C. 3307).

(2) Full and open competition (see part 6). When using an exception to full and open competition, obtain competition to the maximum extent practicable for the procurement.(10 U.S.C. 3206(a)(1)and 41 U.S.C. 3306(a)(1)).

(3) Selection of the appropriate contract type to fulfill the agency's needs.

(4) Use of existing contracts, if appropriate, including interagency and intra-agency contracts, to fulfill the requirement, before awarding new contracts (see part 8).

(c) Planning must integrate the efforts of agency personnel responsible for significant aspects of the acquisition to ensure that the Government meets its needs in the most effective, economical, and timely manner.

(d) A written plan is required for cost reimbursement and other high-risk contracts other than firm-fixed-price contracts. Agencies may require written plans for firm-fixed-price contracts as appropriate.

7.103 Agency-head responsibilities.

(a) The agency head must establish agency acquisition planning criteria and thresholds for when increasingly greater detail and formality in the planning process is required. The agency procedures must—

(1) Create streamlined acquisition planning procedures for using Governmentwide acquisition contracts or multi-agency contracts for requirements that are not complex, including for orders, particularly for repetitive orders;

(2) Create streamlined acquisition planning procedures when an acquisition plan has been developed for a single indefinite delivery indefinite quantity contract to allow the resulting orders to be covered by and reference the same acquisition plan;

(3) Allow for acquisition planning at the program level that covers multiple procurement actions. Acquisition plans may be on a system basis, individual contract basis, or individual order basis depending on the acquisition;

(4) Consider streamlined acquisition planning procedures for procurements for commercial services and products, including COTS;

(5) Establish criteria for identifying high-risk contracts;

(6) Identify when design-to-cost and life-cycle-cost techniques will be used; and

(7) Provide procedures to waive planning requirements for acquisitions because of an urgent need.

(b) The agency head or designee are responsible for ensuring:

(1) Market research is conducted to define requirements and that the statement of work, statement of objectives, or performance work statement closely aligns with needed outcomes and cost estimates.

(2) The principles of this subpart are used, as appropriate, for all acquisitions, whether a written plan is required or not.

(3) Small business opportunities are considered in acquisitions to the maximum extent practicable (see 7.107 and part 19).

(4) No purchase request is started or contract entered into that would result in the performance of an inherently governmental function by a contractor, and that all contracts or orders are adequately managed to ensure effective official control over contract or order performance (see subpart 7.5).

(5) Effective agency responsiveness to disaster and emergencies using the authorities and flexibilities at parts 18 and 26.

(6) Information security and supply chain security requirements (see part 40) and information and communication technology (ICT) accessibility standards (see part 39) are considered, as appropriate.

(7) Before issuing a solicitation for advisory and assistance services for analyzing and evaluating solicitation proposals, a determination is made that there are insufficient covered personnel within the agency or from another Federal agency with the training and capability to do the analyzing and evaluating (see part 37).

(8) Agency planners on information technology acquisitions comply with the capital planning and investment control requirements in 40 U.S.C. 11312 and OMB Circular A-130.

(9) Acquisition plans and revisions to these plans are reviewed and approved to ensure compliance with FAR requirements.

7.104 General procedures.

(a) Start acquisition planning as soon as an agency need is identified. Early planning can create opportunities to structure the procurement approach in a way that promotes competition and innovation.

(b) In developing the plan, the planner must do the following:

(1) Form a team consisting of all those who will be responsible for significant aspects of the acquisition, such as contracting, small business, fiscal, legal, technical personnel, and the combatant commander or chief of mission.

(2) Review previous plans for similar acquisitions and discuss them with the key personnel involved.

(3) Review and revise the plan at key dates specified in the plan or whenever significant changes occur, and no less often than annually.

(4) If the plan proposes using other than full and open competition when awarding a contract, coordinate the plan with the appropriate advocate for competition.

(5) Coordinate the plan with the appropriate small business specialist from the agency Office of Small and Disadvantaged Business Utilization or the Office of Small Business Programs when the plan strategy involves consolidation or bundling (see 7.107).

(6) Ensure that a Contracting Officer Representative is nominated as early as possible in the acquisition process by the requirements official or according to agency procedures.

(7) Consult with requirements and logistics personnel who determine type, quality, quantity, and delivery requirements. Requirements and logistics personnel should avoid issuing requirements on an urgent basis or with unrealistic delivery or performance schedules, since it generally restricts competition and increases prices.

(8) Coordinate and reach agreement on the plan with the contracting officer.

(c) The specific content of plans will vary, depending on the nature, circumstances, and stage of the acquisition. In preparing the plan, the planner should follow the agency's implementing procedures and address the elements relevant to the specific procurement to achieve the acquisition objectives.

7.105 [Reserved]

7.106 Additional requirements for major systems.

(a) In planning for the solicitation of a major system (see part 34) development contract, planners must consider requiring offerors to include, in their offers, proposals to incorporate in the design of a major system—

(1) Items that are currently available within the supply system of the agency responsible for the major system, available elsewhere in the national supply system, or commercially available from more than one source; and

(2) Items that the Government will be able to acquire competitively in the future if they are likely to be needed in substantial quantities during the system's service life.

(b) In planning for the solicitation of a major system (see part 34) production contract, planners must consider requiring offerors to include, in their offers, proposals identifying opportunities to assure that the Government will be able to obtain, on a competitive basis, items acquired in connection with the system that are likely to be acquired in substantial quantities during the service life of the system. Proposals submitted in response to such requirements may include the following:

(1) Proposals to provide the Government the right to use technical data to be provided under the contract for competitive future acquisitions, together with the cost to the Government, if any, of acquiring such technical data and the right to use such data.

(2) Proposals for the qualification or development of multiple sources of supply for competitive future acquisitions.

(c) In determining whether to apply paragraphs (a) and(b) of this section, planners must consider why the system is being acquired and the technology necessary to meet the system's required capabilities. If such proposals are required, the contracting officer must consider them in evaluating competing offers. In noncompetitive awards, the contracting officer may consider the factors in paragraphs (a) and(b) of this section as objectives in negotiating the contract.

7.107 Additional requirements for acquisitions involving consolidation, bundling, or substantial bundling.

7.107-1 General.

(a) Consolidation and bundling may provide substantial benefits to the Government. However, because of the potential impact on small business participation, before conducting an acquisition that consolidates or bundles requirements the agency must-

(1) Conduct market research;

(2) Identify any alternative contracting approaches that would involve a lesser degree of consolidation or bundling (e.g., separate smaller contracts or orders);

(3) Coordinate with the agency's Office of Small Disadvantaged Business Utilization or the Office of Small Business Programs;

(4) Identify any negative impact by the acquisition strategy on contracting with small business concerns;

(5) Take steps to include small business concerns in the acquisition strategy; and

(6) When required in paragraph (b) of this section, make a written determination that the consolidation (15 U.S.C. 657q) or bundling (15 U.S.C. 644(e)) of contract requirements is necessary and justified.

(b) Unless excepted in paragraph (c), a written determination is required for—

(1) Consolidation requirements above $2 million (15 U.S.C. 657q);

(2) Bundling requirements; and

(3) Substantial bundling requirements with a cumulative estimated dollar value (including options) of:

(i) $8 million or more for the Department of Defense.

(ii) $6 million or more for the National Aeronautics and Space Administration, the General Services Administration, and the Department of Energy.

(iii) $2.5 million or more for all other agencies.

(iv) These thresholds apply to multiple-award contracts, task orders or delivery orders issued against a GSA Schedule contract, or task orders or delivery orders issued against a task-order or delivery-order contract awarded by another agency.

(c) The requirements of section 7.107 do not apply—

(1) To orders placed under single-agency task-order contracts or delivery-order contracts, when the requirement was considered in determining that the consolidation or bundling of the underlying contract was necessary and justified; or

(2) To requirements for which there is a mandatory source (see part 8). This exception does not apply—

(i) When the requiring agency obtains a waiver or an exception according to part 8; or

(ii) When optional acquisitions of supplies and services permitted under part 8 are included.

(d) Agencies must publish the Governmentwide policy regarding contract bundling, including regarding the solicitation of teaming and joint ventures, on their agency's website. (15 U.S.C. 644(q)(2)(A)(ii)).

7.107-2 Policy.

(a) The Senior Procurement Executive (SPE) or Chief Acquisition Officer (CAO) may determine that consolidation or bundling is necessary and justified if the benefits of that approach would substantially exceed the benefits that would be derived from each of the alternative contracting approaches identified under 7.107-1(a)(2), including benefits that are quantifiable in dollar amounts as well as any other specifically identified benefits.

(b) If a determination is made that consolidation or bundling is necessary and justified, the contracting officer must include the justification in the acquisition strategy documentation and provide it to the Small Business Administration (SBA) upon request.

(c) (1) The agency must quantify and document in its strategy the specific benefits identified through the use of market research and other techniques to explain how their impact would be substantial.

(2) Benefits may include cost savings, price reduction, or, regardless of whether quantifiable in dollar amounts—

(i) Quality improvements that will save time or improve or enhance performance or efficiency;

(ii) Reduction in acquisition cycle times;

(iii) Better terms and conditions; or

(iv) Any other benefit.

(3) Benefits are substantial if quantified in dollar amounts individually, in combination, or in the aggregate if the anticipated financial benefits are equivalent to—

(i) Ten percent of the estimated contract or order value (including options) if the value is $94 million or less; or

(ii) Five percent of the estimated contract or order value (including options) or $9.4 million, whichever is greater, if the value exceeds $94 million.

(4) Benefits that are not quantifiable in dollar amounts must be specifically identified and otherwise quantified to the extent feasible.

(5) In assessing whether cost savings and/or price reduction would be achieved through consolidation or bundling, the agency and SBA must—

(i) Compare the price that has been charged by small businesses for the work that they have performed; or

(ii) Where previous prices are not available, compare the price, based on market research, that could have been or could be charged by small businesses for the work previously performed by other than a small business.

(6) For a contract or task or delivery order with a cumulative estimated dollar value (including options) above the substantial bundling thresholds at 7.107-1(b), the agency must also document in its strategy—

(i) The specific benefits expected to be derived from substantial bundling;

(ii) An assessment of the specific barriers to participation by small business concerns as contractors that result from substantial bundling;

(iii) Actions designed to maximize small business participation as contractors, including provisions that encourage small business teaming;

(iv) Actions designed to maximize small business participation as subcontractors (including suppliers) at any tier under the contract or order that may be awarded to meet the requirements;

(v) The determination that the anticipated benefits of the proposed bundled contract or order justify its use; and

(vi) Alternative strategies that would reduce or minimize the scope of the bundling, and the reason for not choosing those alternatives.

(d) Reduction of administrative or personnel costs alone is not enough justification for consolidation or bundling unless the cost savings are expected to be substantial.

(e) When the expected benefits are not substantial but the requirements are critical to the agency's mission success, and the procurement strategy provides for maximum practicable participation by small business, the Deputy Secretary or equivalent (or for DoD the SPE), on a non-delegable basis, may determine that consolidation or bundling is necessary and justified.

7.107-3 Notifications.

(a) *Notifications to current small business contractors of the agency's intent to consolidate or bundle.*

(1) The contracting officer must notify each small business performing a contract that it intends to consolidate or bundle the requirement at least 30 days before issuing the solicitation for the bundled requirement.

(2) The notification must provide the name, phone number and address of the applicable SBA procurement center representative (PCR), or if an SBA PCR is not assigned to the procuring activity, the SBA Office of Government Contracting Area Office serving the area in which the buying activity is located.

(b) *Notification to the public.* The SPE or CAO must publish in the GPE—

(1) A notice that the agency has determined consolidation or bundling of contract requirements is necessary and justified (see 7.107-2) no later than 7 days after making the determination; the solicitation may not be publicized prior to 7 days after publication of the notice of the agency determination; and

(2) The determination that consolidation or bundling is necessary and justified with the publication of the solicitation. See 7.107-2 for the required content of the determination.

(c) *Notification to SBA of follow-on consolidated or bundled requirements.* For each follow-on consolidated or bundled requirement, the contracting officer must obtain the following from the requiring activity and notify the SBA PCR no later than 30 days before issuing the solicitation:

(1) The amount of savings and benefits achieved under the prior consolidation or bundling.

(2) Whether such savings and benefits will continue to be realized if the contract remains consolidated or bundled.

(3) Whether such savings and benefits would be greater if the procurement requirements were divided into separate solicitations suitable for awarding to small business concerns.

(4) List of requirements that have been added or deleted for the follow-on.

(d) *Annual notification to the public of the reason for consolidated or bundled requirements.* The agency must publish on its website a list and reason for any consolidated or bundled requirement for which the agency solicited offers or issued an award. The notification must be made annually within 30 days of the agency's data certification regarding the validity and verification of data entered in the Federal Procurement Data System to the Office of Federal Procurement Policy (see part 4).

7.107-4 Solicitation provision.

Insert the provision at 52.207-6, Solicitation of Offers from Small Business Concerns and Small Business Teaming Arrangements or Joint Ventures (Multiple-Award Contracts), in solicitations for multiple-award contracts above the substantial bundling threshold of the agency (see 7.107-1(b)(3).

7.108 Additional requirements for teleworking.

(a) According to 41 U.S.C. 3306(f), an agency must not discourage a contractor from allowing its employees to telework while performing Government contracts, unless—

(1) The contracting officer has determined that the requirements of the agency, including security requirements, cannot be met if teleworking is permitted;

(2) The basis of the determination is documented in writing; and

(3) The prohibition is specified in the solicitation.

(b) When a teleworking prohibition is stated in a solicitation, the contracting officer will unfavorably evaluate an offer that includes teleworking.

This page intentionally left blank.

Subpart 7.2 - Planning for the Purchase of Supplies in Economic Quantities

7.200 [Reserved]

7.201 [Reserved]

7.202 Policy.

Agencies are required by 10 U.S.C. 3242 and 41 U.S.C.3310 to procure supplies in such quantity as-

(a) Will result in the total cost and unit cost most advantageous to the Government, where practicable; and

(b) Does not exceed the quantity reasonably expected to be required by the agency.

7.203 Solicitation provision.

Insert the provision at 52.207-4, Economic Purchase Quantity—Supplies, in solicitations for supplies. The provision may not be necessary if the solicitation is for a contract under the General Services Administration's multiple award schedule contract program, or if the contracting officer determines that—

(a) The Government already has the data;

(b) The data is otherwise readily available; or

(c) It is impracticable for the Government to vary its future requirements.

This page intentionally left blank.

Subpart 7.3 - [Reserved]

This page intentionally left blank.

Subpart 7.4 - Equipment Acquisition

7.400 Scope of subpart.

This subpart—

(a) Implements section 555 of the FAA (Federal Aviation Administration) Reauthorization Act of 2018 (Pub. L. 115-254);

(b) Provides guidance when acquiring equipment and more than one method of acquisition is available for use; and

(c) Applies to both the initial acquisition of equipment and the renewal or extension of existing equipment leases or rental agreements.

7.401 Acquisition considerations.

(a) (1) Agencies must acquire equipment using the method of acquisition most advantageous to the Government based on a case-by-case analysis of comparative costs and other factors according to this subpart and agency procedures.

(2) The methods of acquisition to be compared in the analysis must include, at a minimum—

(i) Purchase;

(ii) Short-term rental or lease;

(iii) Long-term rental or lease;

(iv) Interagency acquisition (see part 2); and

(v) Agency acquisition agreements, if applicable, with a State or local government.

(b) (1) The factors to be compared in the analysis must include, at a minimum:

(i) Estimated length of the period the equipment is to be used and the extent of use within that period;

(ii) Financial and operating advantages of alternative types and makes of equipment;

(iii) Cumulative rent, lease, or other periodic payments, however described, for the estimated period of use;

(iv) Net purchase price;

(v) Transportation, installation, and storage costs;

(vi) Maintenance, repair, and other service costs; and

(vii) Potential for the equipment to become outdated because of upcoming technological improvements.

(2) The following additional factors should be considered, as appropriate, depending on the type, cost, complexity, and estimated period of use of the equipment:

(i) Availability of purchase options.

(ii) Cancellation, extension, and early return conditions and fees.

(iii) Ability to swap out or exchange equipment.

(iv) Available warranties.

(v) Insurance, environmental, or licensing requirements.

(vi) Potential for use of the equipment by other agencies after its use by the acquiring agency is ended.

(vii) Trade-in or salvage value.

(viii) Imputed interest.

(ix) Availability of a servicing capability, especially for highly complex equipment; e.g., can the equipment be serviced by the Government or other sources if it is purchased?

(c) The analysis in paragraph (a) is not required—

(1) When the President has issued an emergency declaration or a major disaster declaration pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.);

(2) In other emergency situations if the agency head makes a determination that obtaining such equipment is necessary to protect human life or property; or

(3) When otherwise authorized by law.

7.402 Acquisition methods.

(a) Purchase method. (1) If the equipment will be used beyond the point in time when cumulative rental or leasing costs exceed the purchase costs, use the purchase method if appropriate.

(2) The mere possibility that future technological advances might make the selected equipment less desirable, alone, is not a reason to rule out the purchase method.

(b) *Rent or lease method.* (1) The rent or lease method may serve as a short-term measure when the circumstances—

(i) Require immediate use of equipment to meet program or system goals; but

(ii) Do not currently support acquisition by purchase.

(2) If a rent or lease method is selected, the inclusion of an evaluated purchase option is preferable.

(3) Generally, a long-term rental or lease agreement should be avoided unless there is an option to purchase or other favorable terms.

(4) If a rental or lease agreement with option to purchase is used, the contract must state the purchase price or provide a formula that shows how the purchase price will be established at the time the option to purchase is exercised.

7.403 OMB guidance.

(a) For additional OMB guidance, see—

(1) Section 13, Special Guidance for Lease-Purchase Analysis, and paragraph 8.c.(2), Lease-Purchase Analysis, of OMB Circular A-94, Guidelines and Discount Rates for Benefit-Cost Analysis of Federal Programs, (1992 OMB Circular A-94 at https://obamawhitehouse.archives.gov/sites/default/files/omb/assets/omb/circulars/a094/a094.html but use Appendix C from 2025 at https://bidenwhitehouse.archives.gov/wp-content/uploads/2023/12/CircularA-94AppendixC.pdf); and

(2) Appendix B, Budgetary Treatment of Lease-Purchases and Leases of Capital Assets, of OMB Circular A-11, Preparation, Submission, and Execution of the Budget, (https://www.whitehouse.gov/wp-content/uploads/2018/06/app_b.pdf).

7.404 Contract clause.

Insert a clause substantially the same as the clause in 52.207-5, Option to Purchase Equipment, in solicitations and contracts involving a rental or lease agreement with option to purchase.

Subpart 7.5 - Inherently Governmental Functions

7.500 Scope of subpart.

The purpose of this subpart is to prescribe policies and procedures to ensure that inherently governmental functions are not performed by contractors.

7.501 [Reserved]

7.502 Applicability.

This subpart applies to all contracts for services. This subpart does not apply to services obtained through either personnel appointments, advisory committees, or personal services contracts issued under statutory authority.

7.503 Policy.

(a) Contracts must not be used to perform inherently governmental functions.

(b) Agency decisions that determine whether a function is or is not an inherently governmental function may be reviewed and modified by appropriate Office of Management and Budget officials.

(c) The following is a non-exclusive list of inherently governmental functions or functions which must be treated as such.

(1) Directly conducting criminal investigations.

(2) Controlling prosecutions and performance of adjudicatory functions other than those relating to arbitration or other methods of alternative dispute resolution.

(3) Commanding military forces, especially the leadership of military personnel who are members of the combat, combat support, or combat service support role.

(4) Conducting foreign relations and determining foreign policy.

(5) Determining agency policy, such as deciding the application of regulations.

(6) Determining Federal program priorities for budget requests.

(7) Directing and controlling Federal employees.

(8) Directing and controlling intelligence and counter-intelligence operations.

(9) Selecting or not selecting individuals for Federal Government employment, including interviewing individuals for employment.

(10) Approving position descriptions and performance standards for Federal employees.

(11) Determining what Government property is to be disposed of and on what terms (although an agency may give contractors authority to dispose of property at prices within specified ranges and subject to other reasonable conditions deemed appropriate by the agency).

(12) In Federal procurement activities with respect to prime contracts—

(i) Determining what supplies or services are to be acquired by the Government (although an agency may give contractors authority to acquire supplies at prices within specified ranges and subject to other reasonable conditions deemed appropriate by the agency);

(ii) Participating as a voting member on any source selection boards;

(iii) Approving any contractual documents, to include documents defining requirements, incentive plans, and evaluation criteria;

(iv) Awarding contracts;

(v) Administering contracts (including ordering changes in contract performance or contract quantities, taking action based on evaluations of contractor performance, and accepting or rejecting contractor products or services);

(vi) Terminating contracts;

(vii) Determining whether contract costs are reasonable, allocable, and allowable; and

(viii) Participating as a voting member on performance evaluation boards.

(13) Approving agency responses to Freedom of Information Act requests (other than routine responses that, because of statute, regulation, or agency policy, do not require the exercise of judgment in determining whether documents are to be released or withheld), and approving agency responses to the administrative appeals of denials of Freedom of Information Act requests.

(14) Conducting administrative hearings to determine the eligibility of any person for a security clearance, or involving actions that affect matters of personal reputation or eligibility to participate in Government programs.

(15) Approving Federal licensing actions and inspections.

(16) Determining budget policy, guidance, and strategy.

(17) Collecting, controlling, and disbursing fees, royalties, duties, fines, taxes, or other public funds, unless authorized by statute, such as 31 U.S.C. 3718 (relating to private collection contractors and private attorney collection services), but not including—

(i) Collecting fees, fines, penalties, costs, or other charges from visitors to or patrons of mess halls, post or base exchange concessions, national parks, and similar entities or activities, or from other persons, where the amount to be collected is easily calculated or predetermined and the funds collected can be easily controlled using standard case management techniques; and

(ii) Examining routine vouchers and invoices.

(18) Controlling treasury accounts.

(19) Administering public trusts.

(20) Drafting Congressional testimony, responses to Congressional correspondence, or agency responses to audit reports from the Inspector General, the Government Accountability Office, or other Federal audit entity.

(d) The following is a non-exclusive list of functions generally not considered inherently governmental but may, depending on contractor or Government approach, cross the line into that category.

(1) Services that involve or relate to budget preparation, including workload modeling, fact finding, efficiency studies, and should-cost analyses, etc.

(2) Services that involve or relate to reorganization and planning activities.

(3) Services that involve or relate to analyses, feasibility studies, and strategy options to be used by agency personnel in developing policy.

(4) Services that involve or relate to developing regulations.

(5) Services that involve or relate to evaluating another contractor's performance.

(6) Services that support acquisition planning.

(7) Contract management support including:

(i) Assistance in technical evaluation of proposals.

(ii) Assistance in developing statements of work or objectives.

(iii) Assistance in providing responses to Freedom of Information Act inquiries.

(iv) Working in situations that might provide access to confidential business information or other sensitive information (other situations than covered by the National Industry Security Program described in 4.402(b).

(v) Providing information regarding agency policies or regulations, such as attending conferences on behalf of an agency, conducting community relations campaigns, or conducting agency training courses.

(vi) Participating in any situation where it might be assumed that they are agency employees or representatives.

(vii) Participating as technical advisors to a source selection board or participating as voting or nonvoting members of a source evaluation board.

(viii) Serving as arbitrators or providing alternative methods of dispute resolution.

(ix) Constructing buildings or structures intended to be secure from electronic eavesdropping or other penetration by foreign governments.

(x) Providing inspection services.

(xi) Providing legal advice and interpretations of regulations and statutes to Government officials.

(xii) Providing special non-law enforcement, security activities that do not directly involve criminal investigations, such as prisoner detention or transport and non-military national security details.

(e) Agency implementation must include procedures requiring the agency head or designated requirements official to provide the contracting officer, when the statement of work or objectives (or any modification thereof) is submitted, a written determination that none of the functions to be performed are inherently governmental. This assessment should emphasize the degree to which conditions and facts restrict the discretionary authority, decision-making responsibility, or accountability of Government officials using contractor services or work products. Disagreements regarding the determination will be resolved according to agency procedures before issuing a solicitation.

PART 8 - REQUIRED SOURCES OF SUPPLIES AND SERVICES

This page intentionally left blank.

8.000 Scope.

This part addresses prioritizing sources of supplies and services for use by the Government.

8.001 Definitions.

As used in this part—

AbilityOne Commission is the operating name for the Committee for Purchase From People Who are Blind or Severely Disabled.

AbilityOne participating nonprofit agencies means a qualified nonprofit agency employing people who are blind or have other severe disabilities approved by the Committee to furnish a commodity or a service to the Government under 41 U.S.C. chapter 85.

Committee means the Committee for Purchase From People Who Are Blind or Severely Disabled.

Central nonprofit agency means National Industries for the Blind, which has been designated to represent AbilityOne participating nonprofit agencies serving people who are blind; or NISH (also known as SourceAmerica), which has been designated to represent AbilityOne participating nonprofit agencies serving people with severe disabilities other than blindness.

Government printing means printing, binding, and blank-book work for the use of an executive department, independent agency, or establishment of the Government.

Procurement List means a list of supplies (including military resale commodities) and services that the Committee has determined are suitable for purchase by the Government under 41 U.S.C. chapter 85.

Related supplies means supplies that are used and equipment that is usable in printing and binding operations.

Subpart 8.1 - Presolicitation

8.101 Mandatory sources for specific supplies and services.

Agencies must acquire the following supplies and services using the procedures listed below:

Requirement	Procedures
Public utility services	Part 41
Government printing and related supplies	Subpart 8.5
Leased motor vehicles	Contact GSA Fleet
Strategic and critical materials (e.g., metals and ores) from inventories exceeding Defense National Stockpile requirements	DLA Strategic Materials https://www.dla.mil/Strategic-Materials/

8.102 Mandatory source for services.

Unless otherwise required by law or 8.101, agencies must procure services that are on the Procurement List maintained by the Committee, from AbilityOne Participating Nonprofit Agencies in accordance with subpart 8.2. Other sources may be used as prescribed in 41 CFR 101-26.301, and in an unusual and compelling urgency as prescribed in 6.302-2 and in 41 CFR 101-25.101-5.

8.103 Mandatory sources of supplies.

(a) Unless otherwise required by law or subpart 8.101, agencies must procure supplies, in the following order-

(1) From inventories of the requiring agency, in accordance with agency procedures;

(2) From excess from other agencies, in accordance with 41 C.F.R. 102-36;

(3) From Federal Prison Industries (FPI), Inc., in accordance with subpart 8.3; and

(4) When on the Procurement List maintained by the Committee, from AbilityOne Participating Nonprofit Agencies, in accordance with subpart 8.2.

8.104 Use of existing contracts.

(a) When supplies or services are unavailable from the mandatory sources listed above, agencies should procure commercial products and commercial services, including those that can be modified to fill agencies' needs, to the maximum extent possible, in accordance with the policy of Executive Order 14271, Ensuring Commercial, Cost-Effective Solutions in Federal Contracts. When a commercial product or commercial service meets an agency's needs and is available on an existing contract or Blanket Purchase Agreement awarded for Governmentwide use (such as the Federal Supply Schedule, Governmentwide Acquisition Contract, or other Indefinite-Delivery, Indefinite-Quantity contracts), the agency -

(1) must use the existing government-wide contract or blanket purchase agreement to buy the supply or service if the contract has been designated by the Office of Federal Procurement Policy a "required use" contract, unless the head of the contracting activity provides an exception (e.g., because the contract's terms and conditions, scope, or performance period do not meet the agency's needs); and

(2) should consider use of other existing government-wide contracts or blanket purchase agreements if there is not a suitable "required use" contract to meet the agency's needs.

(b) Agencies should also consider the use of shared services to fulfill requirements. A shared service is a business or mission function provided by one agency for consumption by multiple other agencies, either within or between federal agencies.

8.105 Contractor use of Government supply sources.

When authorizing contractors to use Government supply sources, agencies must follow the requirements of this subpart.

8.105-1 Contractor required use of Government supply sources.

(a) *Policy*. Agencies must authorize contractors purchasing supply items for Government use that are on the Procurement List maintained by the Committee to purchase such items from DLA, GSA, and VA, if they are available from these agencies through their distribution facilities. When these items are not available from DLA, GSA, or VA, contractors must order them through the appropriate central nonprofit agency which will determine how to fulfill the order.

(b) *Contract clause*. Insert the clause at 52.208-9, Contractor Use of Mandatory Sources of Supply and Services, in solicitations and contracts that require a contractor to provide supplies or services for Government use that are on the Procurement List maintained by the Committee.

8.105-2 Contractor permitted use of Government supply sources.

(a) *General*.

(1) Agencies may authorize contractors to use Government supply sources to obtain supplies or services required to perform a Government contract, when it is in the Government's interest and the supplies or services are available from Government supply sources. In this section, the terms "contractors" and "contracts" include "subcontractors" and "subcontracts."

(2) Agencies may authorize the contractors to use these sources in performing—

(i) A contract awarded using other than sealed bidding procedures; or

(ii) A contract awarded to an AbilityOne Participating Nonprofit Agency for supplies or services on Procurement List maintained by the Committee, if-

(A) The nonprofit agency requesting use of the supplies and services is providing a commodity or service to the Government; and

(B) The supplies or services received are directly used in making or providing a commodity or service on the Procurement List.

(3) Contractors with fixed-price Government contracts that require protection of security classified information may acquire security equipment through GSA sources in accordance with 41 CFR 101-26.507.

(b) *Exclusion*. Agencies must not require a contractor, or subcontractor at any tier, to use FPI as a subcontractor to perform a contract by any means, including means such as—

(1) A solicitation provision requiring a potential contractor to offer to use FPI supplies or services;

(2) A contract specification requiring the contractor to use specific supplies or services (or classes of supplies or services) offered by FPI; or

(3) Any contract modification directing the use of FPI supplies or services.

(c) *Contract clause*. The contracting officer shall insert the clause at 52.208-90, Government Supply Sources, in solicitations and contracts when the contracting officer authorizes the contractor to acquire supplies or services from a Government supply source.

8.105-3 Contractor use of GSA Fleet.

(a) Agencies may authorize contractors performing under cost-reimbursement contracts to obtain vehicles and related services through the GSA Fleet in accordance with 41 C.F.R. 101-39.202, 41 C.F.R. 102-34. In this section, the terms "contractors" and "contracts" include "subcontractors" and "subcontracts.

(b) When providing the authorization in paragraph (a), agencies must ensure that contractors establish and enforce suitable penalties against employees who use, or authorize the use of, Government motor vehicles for unofficial purposes or for other than in the performance of the contract.

(c) *Contract Clause*. The contracting officer shall insert the clause at 52.208-91, GSA Fleet Vehicles and Related Services, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contracting officer may authorize the contractor to use GSA Fleet vehicles and related services.

This page intentionally left blank.

Subpart 8.2 - Acquisition From AbilityOne Participating Nonprofit Agencies

When buying supplies or services from AbilityOne Nonprofit Agencies, agencies must follow the requirements of this subpart and 41 CFR chapter 51.

8.201 General.

The AbilityOne Commission has sole authority to set the price and to authorize or deauthorize sources of supply. Agencies may propose price development through the Commission, or propose additions to the Procurement List at any time through the AbilityOne Commission.

8.202 Presolicitation.

(a) Policy. In accordance with 41 U.S.C. chapter 85 and as required by 8.102 and 8.103, agencies must buy supplies or services that are on the Procurement List maintained by the Committee unless a purchase exception applies.

(b) Purchase exception. Agencies may submit a request to the AbilityOne Commission, or the appropriate central non-profit agency, for a waiver to the Procurement List requirement. If the waiver is approved, agencies may fulfill their requirement with a commercial item. No other provision of the FAR shall be construed as permitting an exception to the mandatory purchase of items on the Procurement List.

8.203 Evaluation and award.

When buying supplies and services on the Procurement List, agencies must obtain them from the designated central nonprofit agency, designated AbilityOne participating nonprofit agencies, or the DLA, GSA, or VA.

8.204 Postaward.

If the ordering office cannot resolve performance issues with the nonprofit agency, the ordering office must refer the matter to the applicable central nonprofit agency and, if necessary, to the AbilityOne Commission for appropriate resolution.

This page intentionally left blank.

Subpart 8.3 - Acquisitions From Federal Prison Industries, Inc

8.301 General.

When buying supplies or services from FPI (also known as UNICOR), agencies must follow the requirements of this subpart and UNICOR's ordering procedures.

8.302 Exclusion.

Agencies must not enter into any contract with FPI that allows an inmate worker access to any—

(a) Classified data;

(b) Geographic data regarding the location of—

(1) Surface and subsurface infrastructure providing communications or water or electrical power distribution;

(2) Pipelines that distribute natural gas, bulk petroleum products, or other commodities; or

(3) Other utilities; or

(c) Personal or financial information about any individual private citizen, including information relating to such person's real property however described, without the prior consent of the individual.

8.303 Presolicitation.

In accordance with 10 U.S.C. 3905 and Section 637 of Division H of the Consolidated Appropriations Act, 2005 (Pub. L. 108-447) (18 U.S.C. 4124 note), agencies must—

(a) Before purchasing an item of supply listed in the FPI Schedule, conduct market research to determine whether the FPI item is comparable to supplies available from the private sector that best meet the Government's needs in terms of price, quality, and time of delivery. This is a unilateral determination made at the discretion of the contracting officer. The arbitration provisions of 18 U.S.C. 4124(b) do not apply;

(b) Prepare a written determination that includes supporting rationale explaining the assessment of price, quality, and time of delivery, based on the results of market research comparing the FPI item to supplies available from the private sector.

8.304 Solicitation.

After making the determination in 8.303—

(a) If the FPI item is comparable, agencies must purchase the item from FPI, unless a waiver is obtained; and

(b) If the FPI item is not comparable in one or more of the areas of price, quality, and time of delivery, agencies must—

(1) Acquire the item using—

(i) Competitive procedures; or

(ii) The fair opportunity procedures in part 16, if placing an order under a multiple award delivery-order contract; and

(2) Include FPI in the solicitation process and consider a timely offer from FPI for award in accordance with the item description or specifications, and evaluation factors in the solicitation.

(i) If the solicitation is available through the Governmentwide point of entry (Contract Opportunities at SAM.gov), agencies do not need to provide a separate copy of the solicitation to FPI;

(ii) If the solicitation is not available through Contract Opportunities at SAM.gov, agencies must provide a copy of the solicitation to FPI

(iii) When using a multiple award schedule issued under the procedures in subpart 8.4 or when using the fair opportunity procedures in part 16—

(A) Establish and communicate to FPI the item description or specifications, and evaluation factors that will be used as the basis for selecting a source, so an offer from FPI can be evaluated on the same basis as the contract or schedule holder; and

(B) Consider a timely offer from FPI.

8.305 Evaluation and award.

Agencies must make award to the source offering the item determined by the agency to provide the best value to the Government. If the agency determines that the FPI item provides the best value to the Government as a result of FPI's response to a competitive solicitation, follow UNICOR's ordering procedures.

8.306 Postaward.

Disputes regarding price, quality, character, or suitability of supplies produced by FPI, except for determinations under 8.303 of this section, are subject to arbitration as specified in 18 U.S.C. 4124.

Subpart 8.4 - Ordering under the Federal Supply Schedule

8.401 General.

(a) The Federal Supply Schedule (FSS) program is directed and managed by GSA and provides Federal agencies with a simplified process to obtain commercial supplies and commercial services at prices associated with volume buying. Agencies must use the FSS, in accordance with 8.104.

(b) When placing an order under the FSS, agencies must follow the ordering procedures established by GSA and found at 538.71. GSA ordering procedures follow all statutory requirements, including the requirements of section 863 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009, and have been coordinated with the Office of Federal Procurement Policy for consistency with governmentwide acquisition policy.

This page intentionally left blank.

Subpart 8.5 - Acquisitions of Government printing and related supplies

8.501 General.

When acquiring Government printing and related supplies, agencies must follow the requirements of this subpart and Government Publishing Office's (GPO) ordering procedures.

8.502 Policy.

Government printing must be done by or through the GPO (44 U.S.C. 501), unless—

(a) The GPO cannot provide the printing service (44 U.S.C. 504);

(b) The printing is done in field printing plants operated by an executive agency (44 U.S.C. 501(2));

(c) The printing is acquired by an executive agency from allotments for contract field printing (44 U.S.C. 501(2)); or

(d) The printing is specifically authorized by statute to be done other than by the GPO.

This page intentionally left blank.

PART 9 - CONTRACTOR QUALIFICATIONS

Sec.

Subpart 9.4 - Debarment, Suspension, and Ineligibility

Subpart 9.5 - Organizational and Consultant Conflicts of Interest

Subpart 9.1 - Responsible Prospective Contractors

9.101 Definitions.

Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and state level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

9.102 Applicability.

(a) This subpart applies to all proposed contracts with any prospective contractor located—

(1) In the United States or its outlying areas; or

(2) Elsewhere, unless application of this subpart would be inconsistent with the laws or customs where the contractor is located.

(b) This subpart does not apply to proposed contracts with—

(1) Foreign, State, or local governments;

(2) Other U.S. Government agencies or their instrumentalities; or

(3) Agencies for people who are blind or severely disabled (see part 8).

9.103 Policy.

(a) Award contracts to responsible prospective contractors only.

(b) Do not award a contract award before making an affirmative determination of contractor responsibility. Without a clear indication of responsibility, make a determination of nonresponsibility. If the prospective contractor is a small business concern, comply with the subpart, Certificates of Competency and Determinations of Responsibility, at part 19.

(c) A prospective contractor must affirmatively demonstrate its responsibility, including, when necessary, the responsibility of its proposed subcontractors.

9.104 Standards.

9.104-1 General standards.

To demonstrate responsibility, a prospective contractor must—

(a) Have adequate financial resources to perform the contract, or the ability to obtain them (see 9.104-3(a));

(b) Be able to comply with the required or proposed delivery or performance schedule, taking into consideration all existing commercial and governmental business commitments;

(c) Have a satisfactory performance record (see 9.104-3(b) and part 42). Do not determine a prospective contractor responsible or nonresponsible based solely on a lack of relevant performance history;

(d) Have a satisfactory record of integrity and business ethics (see part 42);

(e) Have the necessary organization, experience, accounting and operational controls, and technical skills, or the ability to obtain them (including, as appropriate, such elements as production control procedures, property control systems, quality assurance measures, and safety programs applicable to materials to be produced or services to be performed by the prospective contractor and subcontractors) (see 9.104-3(a));

(f) Have the necessary production, construction, and technical equipment and facilities, or the ability to obtain them (see 9.104-3(a)); and

(g) Be otherwise qualified and eligible to receive an award under applicable laws and regulations (see also inverted domestic corporation prohibition at 9.108).

9.104-2 [Reserved]

9.104-3 Application of standards.

(a) *Ability to obtain resources*. Except to the extent that a prospective contractor has sufficient resources or proposes to perform the contract by subcontracting, require evidence of the prospective contractor's ability to obtain required resources (see 9.104-1(a), (e), and (f)).

(b) *Satisfactory performance record*. Presume a prospective contractor is nonresponsible if it is or recently been deficient in contract performance, unless the circumstances were beyond the contractor's control, or the contractor has taken corrective action.

(c) (1) *Affiliated concerns*. Treat a prospective contractor's affiliated concerns as separate entities. However, consider the affiliate's past performance and integrity when these factors may adversely affect the prospective contractor's responsibility.

(2) *Joint ventures.* For a prospective contractor that is a joint venture, consider the past performance of the joint venture. If the joint venture lacks past performance, consider the past performance of each party to the joint venture.

(d) (1) *Small business concerns*. Upon determining a small business concern is nonresponsible, refer the matter to the Small Business Administration, which will decide whether to issue a Certificate of Competency (see part 19).

(2) *Limitations on subcontracting*. A small business that does not agree to or is unable to comply with the limitations on subcontracting may be nonresponsible (see 52.219-3, Notice of HUBZone Set-Aside or Sole-Source Award; 52.219-4, Notice of Price Evaluation Preference for HUBZone Small Business Concerns; 52.219-14, Limitations on Subcontracting; 52.219-27, Notice of Set-Aside for, or Sole-Source Award to, Service-Disabled Veteran-Owned Small Business (SDVOSB) Concerns Eligible Under the SDVOSB Program; 52.219-29, Notice of Set-Aside for, or Sole-Source Award to, Economically Disadvantaged Women-Owned Small Business Concerns; and 52.219-30, Notice of Set-Aside for, or Sole-Source Award to, Women-Owned Small Business Concerns Eligible Under the Women-Owned Small Business Program).

9.104-4 Subcontractor responsibility.

(a) Generally, prospective prime contractors are responsible for determining the responsibility of their prospective subcontractors (but see 9.405 and 9.405-2 regarding debarred, ineligible, or suspended firms). Determinations of prospective subcontractor responsibility may affect determination of the prospective prime contractor's responsibility. Require a prospective contractor to provide written evidence of a proposed subcontractor's responsibility, as necessary to determine responsibility.

(b) When in the Government's interest, the contracting officer may directly determine a prospective subcontractor's responsibility (e.g., when the prospective contract involves medical supplies, urgent requirements, or substantial subcontracting). Apply the same standards for prime contractor responsibility to determine subcontractor responsibility.

9.104-5 Representation and certifications regarding responsibility matters.

(a) When an offeror provides an affirmative response in paragraph (a)(1) of the provision at 52.209-5, Certification Regarding Responsibility Matters, or paragraph (h) of provision 52.212-3—

(1) Promptly, upon receipt of offers, request the offeror submit additional information to demonstrate the offeror's responsibility to the contracting officer (but see 9.405); and

(2) Notify, prior to proceeding with award, in accordance with agency procedures (see 9.406-3(a) and 9.407-3(a)), the agency official responsible for initiating debarment or suspension action, where an offeror indicates the existence of an indictment, charge, conviction, or civil judgment, or Federal tax delinquency in an amount that exceeds $15,000.

(b) The provision at 52.209-11, Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law, implements sections 744 and 745 of Division E of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) (and similar provisions in subsequent appropriations acts). When an offeror provides an affirmative response in paragraph (b)(1) or (2) of the provision at 52.209-11 or paragraph (q)(2)(i) or (ii) of provision 52.212-3—

(1) Promptly, upon receipt of offers, request the offeror submit additional information to demonstrate the offeror's responsibility to the contracting officer (but see 9.405);

(2) Notify, in accordance with agency procedures (see 9.406-3(a) and 9.407-3(a)), the agency official responsible for initiating debarment or suspension action; and

(3) Not award to the offeror unless an agency suspending and debarring official has considered suspension or debarment of the corporation and made a determination that suspension or debarment is not necessary to protect the interests of the Government.

(c) If the provision at 52.209-12, Certification Regarding Tax Matters, is applicable (see 9.104-7(e)), do not award any contract in an amount greater than $7 million, unless the offeror affirmatively certified in its offer, as required by paragraph (b)(1), (2), and (3) of the provision.

(d) Give offerors who do not furnish the representation or certifications or other requested information an opportunity to remedy the deficiency. Failure to furnish the representation or certifications or other requested information may render the offeror nonresponsible.

9.104-6 Federal Awardee Performance and Integrity Information System.

(a) (1) Before awarding a contract exceeding the simplified acquisition threshold, review the performance and integrity information available in the Federal Awardee Performance and Integrity Information System (FAPIIS), (available at https://www.cpars.gov, including FAPIIS information from the System for Award Management (SAM) Exclusions and the Contractor Performance Assessment Reporting System (CPARS).

(2) FAPIIS also identifies—

(i) An affiliate that is an immediate owner or subsidiary of the offeror, if any; and

(ii) All predecessors of the offeror that held a Federal contract or grant within the last three years.

(b) (1) When making a responsibility determination, consider all the information available through FAPIIS regarding the offeror and any immediate owner, predecessor, or subsidiary identified for that offeror in FAPIIS, as well as other past performance information on the offeror (see part 42).

(2) For evaluation of information available through FAPIIS relating to an affiliate of the offeror, see 9.104-3(c).

(3) For source selection evaluations of past performance, see 15.305(a)(2). Use sound judgment in determining the weight and relevance of the information contained in FAPIIS and how it relates to the present acquisition.

(4) Since FAPIIS may contain information on any of the offeror's previous contracts and information covering a 5-year period, some of that information might be irrelevant to a determination of present responsibility. For example, a prior administrative action such as debarment, suspension, voluntary exclusion, or administrative agreement, that has expired or otherwise been resolved, or information relating to contracts for completely different products or services, might be irrelevant.

(5) Because FAPIIS is a database that provides information about prime contractors, the contracting officer posts information about a subcontractor, such as trafficking in persons violations, to the record of the prime contractor (see 42.1503(h)(1)(v)). The prime contractor may post in FAPIIS any mitigating factors. Consider any mitigating factors posted in FAPIIS by the prime contractor, such as degree of compliance by the prime contractor with the terms of FAR clause 52.222-50.

(c) Upon obtaining relevant information from FAPIIS regarding criminal, civil, or administrative proceedings in connection with the award or performance of a Government contract; terminations for default or cause; determinations of nonresponsibility because the contractor does not have a satisfactory performance record or a satisfactory record of integrity and business ethics; or comparable information relating to a grant, unless the contractor has already been debarred, suspended, or has agreed to a voluntary exclusion—

(1) Promptly request from the offeror additional information to demonstrate the offeror's responsibility (but see 9.405); and

(2) Notify, prior to proceeding with award, in accordance with agency procedures (see 9.406-3(a) and 9.407-3(a)), the agency official responsible for initiating debarment or suspension action, if the information appears appropriate for the official's consideration.

(d) Document the contract file for each contract exceeding the simplified acquisition threshold to indicate how the information in FAPIIS was considered in any responsibility determination, as well as the action that was taken as a result of the information. Document nonresponsibility determinations in FAPIIS in accordance with 9.105-2 (b)(2).

9.104-7 Solicitation provisions and contract clauses.

(a) Insert the provision at 52.209-5, Certification Regarding Responsibility Matters, in solicitations where the contract value is expected to exceed the simplified acquisition threshold.

(b) Insert the provision at 52.209-7, Information Regarding Responsibility Matters, in solicitations where the resultant contract value is expected to exceed $750,000.

(c) Insert the clause at 52.209-9, Updates of Publicly Available Information Regarding Responsibility Matters—

(1) In solicitations where the resultant contract value is expected to exceed $750,000; and

(2) In contracts in which the offeror checked “has” in paragraph (b) of the provision at 52.209-7.

(d) Insert the provision at 52.209-11, Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law, in all solicitations.

(e) For agencies receiving funds subject to section 523 of Division B of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and similar provisions in subsequent appropriations acts, insert the provision at 52.209-12, Certification Regarding Tax Matters, in solicitations where the resultant contract value (including options) might exceed $7 million.

9.105 Procedures.

9.105-1 Obtaining information.

(a) Before determining responsibility, obtain information establishing that a prospective contractor currently meets the standards in 9.104.

(b) (1) Generally, obtain information regarding responsibility promptly after a bid opening or receipt of offers.

(2) For negotiated contracting, especially for research and development, consider obtaining information regarding responsibility before issuing the request for proposals. Limit such requests to information concerning the low bidder or those offerors in range for award.

(3) To the extent feasible, obtain or update information regarding financial resources and performance capability up to the date of award.

(c) When determining responsibility, consider information available through FAPIIS (see 9.104-6) regarding the offeror and any immediate owner, predecessor, or subsidiary identified for that offeror in FAPIIS. This includes information linked to FAPIIS such as from SAM, and CPARS, as well as any other relevant past performance information on the offeror (see 9.104-1(c) and part 42). In addition, consider using the following sources of information to support such determinations:

(1) Records and experience data, including verifiable knowledge of personnel within the contracting office, audit offices, contract administration offices, and other contracting offices.

(2) The prospective contractor, including bid or proposal information (including the certification at 52.209-5 or 52.212-3(h) (see 9.104-5)), questionnaire replies, financial data, information on production equipment, and personnel information.

(3) Commercial sources of supplier information of a type offered to buyers in the private sector.

(4) Other sources, such as publications; suppliers, subcontractors, and customers of the prospective contractor; financial institutions; Government agencies; and business and trade associations.

(d) Contracting offices and cognizant contract administration offices that become aware of circumstances casting doubt on a contractor's ability to perform contracts successfully must promptly exchange relevant information.

9.105-2 Determinations and documentation.

(a) Determinations. (1) The contracting officer's signing of a contract constitutes a determination that the prospective contractor is responsible with respect to that contract. Upon rejecting an offer that would otherwise generate an award because the prospective contractor is nonresponsible, sign a determination of nonresponsibility, stating the grounds for nonresponsibility.

(2) If the contracting officer determines that a responsive small business lacks certain elements of responsibility, comply with the procedures in part 19. If, in response, the Small Business Administration issues a Certificate of Competency for the small business concern (see part 19), award the contract to the concern.

(b) *Support documentation*. (1) Include in the contract file documents and reports supporting a determination of responsibility or nonresponsibility, including the use of FAPIIS information (see 9.104-6) and any applicable Certificate of Competency.

(2) (i) Document the determination of nonresponsibility in FAPIIS (available at https://www.cpars.gov) if—

(A) The contract is valued at more than the simplified acquisition threshold;

(B) The determination of nonresponsibility is based on lack of satisfactory performance record or satisfactory record of integrity and business ethics; and

(C) The Small Business Administration does not issue a Certificate of Competency.

(ii) Submit documentation regarding the nonresponsibility determination within three working days of making the determination.

(iii) All information posted in FAPIIS on or after April 15, 2011, except past performance reviews, will be publicly available (see section 3010 of Pub. L. 111-212). FAPIIS consists of two segments—

(A) The non-public segment, into which Government officials and contractors post information, which can only be viewed by—

(1) Government personnel and authorized users performing business on behalf of the Government; or

(2) An offeror or contractor, when viewing data on itself; and

(B) The publicly-available segment, to which all data in the non-public segment of FAPIIS is automatically transferred after a waiting period of 14 calendar days, except for—

(1) Past performance reviews required by part 42;

(2) Information that was entered prior to April 15, 2011; or

(3) Information that is withdrawn during the 14-calendar-day waiting period by the Government official who posted it in accordance with paragraph (b)(2)(iv) of this section.

(iv) Do not post any information in the non-public segment of FAPIIS covered by a disclosure exemption under the Freedom of Information Act. If the contractor asserts within 7 calendar days, to the Government official who posted the information, that some of the information posted to the non-public segment of FAPIIS is covered by a disclosure exemption under the Freedom of Information Act, the Government official who posted the information must, within 7 calendar days, remove the posting from FAPIIS. Resolve the issue in accordance with agency Freedom of Information Act procedures prior to reposting the releasable information.

9.105-3 Disclosure of preaward information.

Except as provided in part 24 concerning the Freedom of Information Act, do not release or disclose outside the Government information gathered for purposes of determining the responsibility of a prospective contractor.

9.106 [Reserved]

9.107 [Reserved]

9.108 Prohibition on contracting with inverted domestic corporations.

9.108-1 Definitions.

As used in this section-

Inverted domestic corporation means a foreign incorporated entity that meets the definition of an inverted domestic corporation under 6 U.S.C. 395(b), applied in accordance with the rules and definitions of 6 U.S.C. 395(c).

Subsidiary means an entity in which more than 50 percent of the entity is owned—

(1) Directly by a parent corporation; or

(2) Through another subsidiary of a parent corporation.

9.108-2 Authority.

Section 9.108 implements section 745 of Division D of the Consolidated Appropriations Act, 2008 (Pub. L. 110-161) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions).

9.108-3 Prohibition.

(a) Do not use appropriated funds, or funds otherwise made available, for contracts with either an inverted domestic corporation, or a subsidiary of such a corporation, except as provided in paragraph (b) of this section and in 9.108-5, Waiver.

(b) This prohibition does not apply to any contract entered into before December 26, 2007, or to any task order issued pursuant to such a contract.

(c) Consult with legal counsel if, during the performance of a contract, a contractor becomes an inverted domestic corporation or a subsidiary of one.

9.108-4 Representation by the offeror.

(a) To be eligible for contract award, an offeror must represent that it is neither an inverted domestic corporation, nor a subsidiary of an inverted domestic corporation. Any offeror that cannot so represent is ineligible for award of a contract, unless waived in accordance with the procedures at 9.108-5.

(b) The contracting officer may rely on an offeror's representation that it is not an inverted domestic corporation unless reason exists to question the representation.

9.108-5 Waiver.

An agency head may waive the prohibition in subsection 9.108-3 and the requirement of subsection 9.108-4 for a specific contract if the agency head determines in writing that the waiver is required in the interest of national security and reports the waiver issuance to Congress.

9.108-6 Solicitation provision and contract clause.

(a) Include the provision at 52.209-2, Prohibition on Contracting with Inverted Domestic Corporations—Representation, in each solicitation for the acquisition of products or services (including construction).

(b) Include the clause at 52.209-10, Prohibition on Contracting with Inverted Domestic Corporations, in each solicitation and contract for the acquisition of products or services (including construction).

9.109 Prohibition on contracting with an entity involved in activities that violate arms control treaties or agreements with the United States.

9.109-1 Authority.

This section implements 22 U.S.C. 2593e.

9.109-2 Prohibition.

Do not award, renew, or extend a contract with an entity identified as excluded in the System for Award Management, specifically for this subpart, based on involvement in activities that violate arms control treaties or agreements with the United States.

9.109-3 Exception.

The prohibition in 9.109-2 does not apply to contracts for the procurement of products or services along a major route of supply to a zone of active combat or major contingency operation, as specified in statute or by the cognizant Combatant Commander, in consultation with the Chief of Mission. As of May 10, 2018, countries along the major route of supply to support operations in Afghanistan are Afghanistan, Georgia, the Kyrgyz Republic, Pakistan, the Republic of Armenia, the Republic of Azerbaijan, the Republic of Kazakhstan, the Republic of Tajikistan, the Republic of Uzbekistan, and Turkmenistan.

9.109-4 Certification by the offeror.

(a) To be eligible for contract award, an offeror must—

(1) Certify that it does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is—

(i) In violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party; or

(ii) Not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state; and

(2) Similarly certify regarding any entity owned or controlled by the offeror; or

(3) Provide with its offer information that the President of the United States has—

(i) Waived application under 22 U.S.C. 2593e(d) or (e); or

(ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C. 2593e(b).

(b) If certifying in accordance with 52.209-13(b)(1), the Offeror is required to submit the certification with the offer. It is not included in the annual representations and certifications in the System for Award Management.

(c) The contracting officer may rely on an offeror's certification unless reason exists to question the certification.

(d) Upon the determination of a false certification under 52.209-13, an offeror will be subject to such remedies as suspension or debarment under subpart 9.4, or termination of any contract resulting from the false certification. Debarments pursued as a remedy under subpart 9.4 are for a period of not less than 2 years, inclusive of any suspension period, if suspension precedes a debarment (see 9.406-4(a)(1)(iii) and (a)(2)).

(e) The determinations referenced in 9.109-4(a)(1) are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/"

9.109-5 Solicitation provision.

Unless the exception at 9.109-3 applies, include the provision at 52.209-13, Violation of Arms Control Treaties or Agreements—Certification, in each solicitation for the acquisition of products or services (including construction) that exceeds the simplified acquisition threshold, other than solicitations for the acquisition of commercial products or commercial services.

9.110 Reserve Officer Training Corps and military recruiting on campus.

9.110-1 Definitions.

As used in this section—

Covered agency means–

(1) The Department of Defense;

(2) Any department or agency for which regular appropriations are made in a Department of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act;

(3) The Department of Homeland Security;

(4) The National Nuclear Security Administration of the Department of Energy;

(5) The Department of Transportation; or

(6) The Central Intelligence Agency.

Institution of higher education means an institution that meets the requirements of 20 U.S.C. 1001 and includes all sub-elements of such an institution.

9.110-2 Authority

This section implements 10 U.S.C. 983.

9.110-3 Policy.

(a) Except as provided in paragraph (b) of this section, 10 U.S.C. 983 prohibits a covered agency from providing funds by contract to an institution of higher education if the Secretary of Defense determines that the institution has a policy or practice that prohibits or in effect prevents—

(1) The Secretary of a military department from maintaining, establishing, or operating a unit of the Senior Reserve Officer Training Corps (ROTC) at that institution;

(2) A student at that institution from enrolling in a unit of the Senior ROTC at another institution of higher education;

(3) The Secretary of a military department or the Secretary of Homeland Security from gaining access to campuses, or access to students (who are 17 years of age or older) on campuses, for purposes of military recruiting in a manner that is at least equal in quality and scope to the access to campuses and to students that is provided to any other employer; or

(4) Military recruiters from accessing certain information pertaining to students (who are 17 years of age or older) enrolled at that institution:

(i) Name, address, and telephone listings.

(ii) Date and place of birth, educational level, academic majors, degrees received, and the most recent educational institution enrolled in by the student.

(b) The prohibition in paragraph (a) of this section does not apply to an institution of higher education if the Secretary of Defense determines that—

(1) The institution has ceased the policy or practice described in paragraph (a) of this section; or

(2) The institution has a long-standing policy of pacifism based on historical religious affiliation.

9.110-4 Procedures.

(a) If the Secretary of Defense determines, pursuant to the procedures at 32 CFR part 216, that an institution of higher education is ineligible to receive funds from a covered agency because of a policy or practice described in 9.110-3, then the Secretary of Defense will create an active exclusion record for the institution in the System for Award Management.

(b) Upon a determination described in paragraph (a), a covered agency must not solicit offers from, award contracts to, or consent to subcontracts with the institution. This prohibition does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services, including commercially available off-the-shelf items.

9.110-5 Contract clause.

Insert the clause at 52.209-14, Reserve Officer Training Corps and Military Recruiting on Campus, in solicitations and contracts expected to exceed the simplified acquisition threshold, with institutions of higher education, when using funds from a covered agency. Do not insert the clause in solicitations and contracts using part 12 for the acquisition of commercial products and commercial services.

Subpart 9.2 - Qualifications Requirements

9.200 Scope of subpart.

This subpart implements 10 U.S.C. 3243 and 41 U.S.C.3311.

9.201 Definitions.

As used in this subpart-

Qualified bidders list (QBL) means a list of bidders who have had their products examined and tested and who have satisfied all applicable qualification requirements for that product or have otherwise satisfied all applicable qualification requirements.

Qualified manufacturers list (QML) means a list of manufacturers who have had their products examined and tested and who have satisfied all applicable qualification requirements for that product.

9.202 Policy.

(a) (1) Before establishing a qualification requirement, the head of the agency must prepare a written justification—

(i) Stating the necessity for the qualification requirement and specifying why the qualification requirement must be demonstrated before contract award;

(ii) Estimating the likely costs for testing and evaluation which will be incurred by the potential offeror to become qualified; and

(iii) Specifying all requirements that a potential offeror (or its product) must satisfy to become qualified.

(2) Specify only the least restrictive qualification requirements necessary to meet agency purposes.

(3) Upon request, provide potential offerors—

(i) All requirements that they or their products must satisfy to become qualified; and

(ii) At their expense (but see 9.204(a)(2) with regard to small businesses), a prompt opportunity to demonstrate their abilities to meet the standards specified for qualification using qualified personnel and facilities of the agency concerned, or of another agency obtained through interagency agreements or under contract, or other methods approved by the agency (including use of approved testing and evaluation services not provided under contract to the agency).

(4) If the services in (a)(3)(ii) of this section are under contract, select only those contractors to provide testing and evaluation services that are—

(i) Not expected to benefit from an absence of additional qualified sources; and

(ii) Required by their contracts to adhere to any restriction on technical data asserted by the potential offeror seeking qualification.

(5) Promptly inform a potential offeror seeking qualification whether it attained qualification and, in the event it has not, promptly furnish them specific reasons why it did attain qualification.

(b) (1) When justified under the circumstances, the agency activity responsible for establishing a qualification requirement must submit to the advocate for competition for the procuring activity responsible for purchasing the item subject to the qualification requirement, a determination that specifying a qualification requirement is unreasonable.

(2) After considering any comments from the advocate for competition reviewing the determination, the head of the procuring activity may waive the requirements of 9.202(a)(1)(ii) through (5) of this section for up to 2 years with respect to the item subject to the qualification requirement. The waiver authority provided in this paragraph does not apply with respect to qualification requirements contained in a QPL, QML, or QBL.

(3) The head of the procuring activity must furnish a copy of the waiver to the head of the agency or other official responsible for actions under paragraph (a)(1) of this section).

(c) If a potential offeror can demonstrate to the satisfaction of the contracting officer that the potential offeror (or its product) meets qualification standards, or can meet them before the date specified for award of the contract, do not deny the potential offeror the opportunity to submit and have considered an offer for a contract solely because the potential offeror—

(1) Is not on a QPL, QML, or QBL maintained by the Department of Defense (DoD) or the National Aeronautics and Space Administration (NASA); or

(2) Has not been identified as meeting a qualification requirement established after October 19, 1984, by DoD or NASA; or

(3) Has not been identified as meeting a qualification requirement established by a civilian agency (not including NASA).

(d) The procedures in part 19 for referring matters to the Small Business Administration are not mandatory on the contracting officer when the basis for a referral would involve a challenge by the offeror to either the validity of the qualification requirement or the offeror's compliance with such requirement.

(e) The contracting officer need not delay a proposed award to provide a potential offeror with an opportunity to demonstrate its ability to meet qualification standards. In addition, when approved by the head of an agency or designee, a procurement need not be delayed in order to comply with paragraph (a) of this section.

(f) Within 7 years following enforcement of a QPL, QML, or QBL by DoD or NASA, or within 7 years after any qualification requirement was originally established by a civilian agency other than NASA, the qualification requirement must be examined and revalidated in accordance with the requirements of paragraph (a) of this section. For DoD and NASA, qualification requirements, other than QPL's, QML's, and QBL's, must be examined and revalidated within 7 years after establishment of the requirement under paragraph (a) of this section. Any periods for which a waiver under paragraph (b) of this section is in effect must be excluded in computing the 7 years within which review and revalidation must occur.

9.203 QPL's, QML's, and QBL's.

(a) Qualification and listing in a QPL, QML, or QBL is the process by which products are obtained from manufacturers or distributors, examined and tested for compliance with specification requirements, or manufacturers or potential offerors, are provided an opportunity to demonstrate their abilities to meet the standards specified for qualification. The names of successful products, manufacturers, or potential offerors are included on lists evidencing their status. Generally, qualification is performed in advance and independently of any specific acquisition action. After qualification, the products, manufacturers, or potential offerors are included in a Federal or Military QPL, QML, or QBL. (See 9.202(a)(2) regarding any product, manufacturer, or potential offeror not yet included on an applicable list.)

(b) Specifications requiring a qualified product are included—

(1) In the General Services Administration Index of Federal Specifications, Standards and Commercial Item Descriptions; and

(2) On the Department of Defense Acquisition Streamlining and Standardization Information System (ASSIST) website at *https://assist.dla.mil*.

(c) Instructions concerning qualification procedures are included in the following publications:

(1) Federal Standardization Manual, FSPM-0001.

(2) Department of Defense Manual 4120.24, Defense Standardization Program (DSP) Procedures, (*www.esd.whs.mil/Directives/Issuances/dodm*) as amended by Military Standards 961 and 962 (*https://assist.dla.mil*).

(d) The publications in paragraphs (b)(1) and (c)(1) of this section may be obtained from the address in 11.201(d)(1).

9.204 Responsibilities when establishing qualification requirements.

(a) *Arranging publicity*. If active competition on anticipated future qualification requirements is likely to be fewer than two manufacturers or the products of two manufacturers, the activity responsible for establishment of the qualification requirements must—

(1) Periodically furnish through the Governmentwide point of entry (GPE) a notice seeking additional sources or products for qualification unless the contracting officer determines that such publication would compromise the national security.

(2) Bear the cost of conducting the specified testing and evaluation (excluding the costs associated with producing the item or establishing the production, quality control, or other system to be tested and evaluated) for a small business concern or a product manufactured by a small business concern which has met the standards specified for qualification and which could reasonably be expected to compete for a contract for that requirement. However, such costs may be borne only upon a determination in accordance with agency procedures that such additional qualified sources or products are likely to result in cost savings from increased competition for future requirements sufficient to amortize the costs incurred by the agency within a reasonable period, considering the duration and dollar value of anticipated future requirements. A prospective contractor requesting the United States to bear testing and evaluation costs must certify as to its status as a small business concern under section 3 of the Small Business Act in order to receive further consideration.

(b) *Other responsibilities when establishing qualification requirements.* (1) Qualifying products that meet specification requirements.

(2) Listing manufacturers and suppliers whose products are qualified in accordance with agency procedures.

(3) Furnishing QPL's, OML's, or QBL's or the qualification requirements themselves to prospective offerors and the public upon request (see 9.202(a)(2)(i)).

(4) Clarifying, as necessary, qualification requirements.

(5) In appropriate cases, when requested by the contracting officer, providing concurrence in a decision not to enforce a qualification requirement for a solicitation.

(6) Withdrawing or omitting qualification of a listed product, manufacturer or offeror, as necessary.

(7) Advising persons that furnished any list of products, manufacturers or offerors meeting a qualification requirement and suppliers whose products are on any such list that—

(i) The list does not constitute endorsement of the product, manufacturer, or other source by the Government;

(ii) The products or sources listed have been qualified under the latest applicable specification;

(iii) The list may be amended without notice;

(iv) The listing of a product or source does not release the supplier from compliance with the specification; and

(v) Use of the list for advertising or publicity is permitted. However, the list must not state or imply that a particular product or source is the only product or source of that type qualified, or that the Government in any way recommends or endorses the products or the sources listed.

(8) Reexamining a qualified product or manufacturer when-

(i) The manufacturer has modified its product, or changed the material or the processing sufficiently so that the validity of previous qualification is questionable;

(ii) The requirements in the specification have been amended or revised sufficiently to affect the character of the product; or

(iii) Circumstances require confirmation that the product conforms with the specification.

9.205 Opportunity for qualification before award.

(a) If an agency determines that a qualification requirement is necessary, the agency activity responsible for establishing the requirement must—

(1) Urge manufacturers and other potential sources to demonstrate their ability to meet the standards specified for qualification;

(2) When possible, give sufficient time to arrange for qualification before award; and

(3) Before establishing any qualification requirement, furnish notice through the GPE. The notice must include—

(i) A statement of the intent to establish a qualification requirement;

(ii) The specification number and name of the product;

(iii) The name and address of the activity to which to submit a request for the information and opportunity;

(iv) The anticipated date that the agency will begin awarding contracts subject to the qualification requirement;

(v) A precautionary notice that when a product is submitted for qualification testing, the applicant must furnish any specific information that may be requested of the manufacturer before testing will begin; and

(vi) The approximate time period following submission of a product for qualification testing within which the applicant will be notified whether the product passed or failed the qualification testing (see 9.202(a)(5)).

(b) The activity responsible for establishing a qualification requirement must keep any list maintained of those already qualified open for inclusion of additional products, manufacturers, or other potential sources.

9.206 Acquisitions subject to qualification requirements.

9.206-1 General.

(a) Do not enforce any QPL, QML, or QBL without first complying with the requirements of 9.202(a). However, qualification requirements themselves, whether or not previously embodied in a QPL, QML, or QBL, in either of the following categories are enforceable:

(1) Any qualification requirement established by statute prior to October 30, 1984, for civilian agencies (not including NASA).

(2) Any qualification requirement established by statute or administrative action prior to October 19, 1984, for DOD or NASA. Qualification requirements established after the above dates must comply with 9.202(a) to be enforceable.

(b) Except when the agency head determines that an emergency exists, whenever an agency elects not to enforce a qualification requirement, the agency may not thereafter enforce that qualification requirement unless the agency complies with 9.202(a).

(c) If a qualification requirement applies, consider only those offers identified as meeting the requirement or included on the applicable QPL, QML, or QBL, unless an offeror can satisfactorily demonstrate that it or its product, or its subcontractor or its product, can meet the qualification standards before the date specified for award.

(d) If a component of an end item is subject to a qualification requirement, assure that all such components and their qualification requirements are properly identified in the solicitation.

(e) In acquisitions subject to qualification requirements, take the following steps:

(1) Use presolicitation notices as appropriate to advise potential suppliers before issuing solicitations involving qualification requirements. The notices must identify the specification containing the qualification requirement and establish an allowable time period, consistent with delivery requirements, for prospective offerors to demonstrate their abilities to meet the qualification standards.

(2) Distribute solicitations to prospective contractors whether or not they have been identified as meeting applicable qualification requirements.

(3) When appropriate, request in accordance with agency procedures that a qualification requirement not be enforced in a particular acquisition and, if granted, so specify in the solicitation (see 9.206-1(b)).

(4) Forward requests from potential suppliers for information on a qualification requirement to the agency activity responsible for establishing the requirement.

(5) Allow the maximum time, consistent with delivery requirements, between issuing the solicitation and the contract award. As a minimum, comply with the time frames specified in part 5 when applicable.

9.206-2 Contract clause.

Insert the clause at 52.209-1, Qualification Requirements, in solicitations and contracts when the acquisition is subject to a qualification requirement.

9.206-3 Competition.

(a) *Presolicitation*. If a qualification requirement applies to an acquisition, review the applicable QPL, QML, or QBL or other identification of those sources meeting the requirement before issuing a solicitation to ascertain whether the number of sources is adequate for competition. If the number of sources is inadequate, request the agency activity which established the requirement to—

(1) Indicate the anticipated date on which any sources presently undergoing evaluation will have demonstrated their abilities to meet the qualification to allow for rescheduling; or

(2) Indicate whether a means other than the qualification requirement is feasible for testing or demonstrating quality assurance.

(b) *Postsolicitation*. Submit to the agency activity that established the qualification requirement the names and addresses of concerns that expressed interest in the acquisition but are not included on the applicable QPL, QML, or QBL or identified as meeting the qualification requirement. The activity will then assist interested concerns in meeting the standards specified for qualification (see 9.202(a)(3) and (5)).

9.207 Changes in status regarding qualification requirements.

(a) Promptly report to the agency activity that established the qualification requirement any conditions meriting removal or omission from a QPL, QML, or QBL or that affect whether a source should continue as identified as meeting the requirement. These conditions exist when—

(1) Products or services are submitted for inspection or acceptance that do not meet the qualification requirement;

(2) Products or services were previously rejected and the defects were not corrected when resubmitted for inspection or acceptance;

(3) A supplier fails to request reevaluation following change of location or ownership of the plant where the product which met the qualification requirement was manufactured (see the clause at 52.209-1, Qualification Requirements);

(4) A manufacturer of a product which met the qualification requirement has discontinued manufacture of the product;

(5) A source requests removal from a QPL, QML, or QBL;

(6) A condition of meeting the qualification requirement was violated; *e.g.,* advertising or publicity contrary to 9.204(b)(7)(v);

(7) A revised specification imposes a new qualification requirement;

(8) Manufacturing or design changes have been incorporated in the qualification requirement;

(9) The source is listed in the System for Award Management Exclusions (see subpart 9.4); or

(10) Performance of a contract subject to a qualification requirement is otherwise unsatisfactory.

(b) After considering these or other conditions related to whether a product or source continues to meet the standards specified for qualification, an agency may take appropriate action without advance notification. The agency must, however, promptly notify the affected parties if a product or source is removed from a QPL, QML, or QBL, or will no longer be identified as meeting the standards specified for qualification. This notice must contain specific information why the product or source no longer meets the qualification requirement.

Subpart 9.3 - First Article Testing and Approval

9.301 Definition.

As used in this subpart—

Approval means the contracting officer's written notification to the contractor accepting the test results of the first article.

9.302 General.

First article testing and approval (testing and approval) ensures that the contractor can furnish a product conforming to all contract requirements for acceptance. Before requiring testing and approval, consider the—

(a) Impact on cost or time of delivery;

(b) Risk to the Government of foregoing such test; and

(c) Availability of other, less costly, methods of ensuring the desired quality.

9.303 Use.

Testing and approval may be appropriate when-

(a) The contractor has not previously furnished the product to the Government;

(b) The contractor previously furnished the product to the Government, but-

(1) Subsequent changes in processes or specifications have occurred;

(2) Production has been discontinued for an extended period of time; or

(3) The product acquired under a previous contract developed a problem during its life.

(c) The product is described by a performance specification; or

(d) An approved first article is essential to serve as a manufacturing standard.

9.304 Exceptions.

Normally, do not require testing and approval in contracts for—

(a) Research or development;

(b) Products requiring qualification before award (*e.g.,* when an applicable qualified products list exists (see subpart 9.2));

(c) Products normally sold in the commercial market; or

(d) Products covered by complete and detailed technical specifications, unless the requirements are so novel or exacting that the products might not meet the requirements without testing and approval.

9.305 Risk.

(a) To minimize contractor risk, provide sufficient time in the delivery schedule for acquisition of materials and components as well as for production after receipt of first article approval.

(b) Notwithstanding paragraph (a), the contracting officer may, before approval of the first article, authorize the contractor to acquire specific materials or components or commence production to the extent necessary to meet the delivery schedule (see Alternate II of the clause at 52.209-3, First Article Approval—Contractor Testing, and Alternate II of the clause at 52.209-4, First Article Approval—Government Testing. Costs incurred based on this authorization are allocable to the contract for—

(1) Progress payments; and

(2) Termination settlements if the contract is terminated for the convenience of the Government.

9.306 Solicitation requirements.

Solicitations including a testing and approval requirement must—

(a) Provide, where the contractor is responsible for the first article approval testing—

(1) The performance or other characteristics that the first article must meet for approval;

(2) The detailed technical requirements for the tests necessary for approval; and

(3) The data the contractor must submit in the first article approval test report;

(b) Provide, where the Government is responsible for the first article approval testing—

(1) The performance or other characteristics that the first article must meet for approval; and

(2) The tests to which the first article will be subjected for approval;

(c) Inform offerors that the requirement may be waived when supplies identical or similar to those called for have previously been delivered by the offeror and accepted by the Government (see 52.209-3(h) and 52.209- 4(i));

(d) Permit the submission of alternative offers, i.e., one including and the other excluding testing and approval (if eligible under paragraph (c) of this section);

(e) State clearly the first article's relationship to the contract quantity (see paragraph (e) of the clause at 52.209-3, First Article Approval—Contractor Testing, or 52.209-4, First Article Approval—Government Testing);

(f) Contain a delivery schedule for the production quantity (see 11.403). The delivery schedule may—

(1) Be the same whether or not testing and approval is waived; or

(2) Provide for earlier delivery when testing and approval is waived and the Government requires earlier delivery. In the latter case, any resulting difference in delivery schedules must not be an evaluation factor for award. The clause at 52.209-4, First Article Approval—Government Testing, must contain the delivery schedule for the first article;

(g) Provide for the submission of contract numbers, if any, to document the offeror's eligibility under paragraph (c) of this section;

(h) State whether the approved first article will serve as a manufacturing standard;

(i) Include the Government's estimated testing costs as an evaluation factor, if appropriate, when the Government is responsible for first article testing; and

(j) Inform offerors that the prices for first articles and first article tests in relation to production quantities must not be materially unbalanced (see 15.404-1(g)) if first article test items or tests are to be separately priced.

9.307 Administrative procedures.

(a) Before the contractor ships the first article, or the first article test report, to the Government laboratory or other activity responsible for approval, the contract administration office must provide that activity with as much advance notification as is feasible of the forthcoming shipment, and—

(1) Advise that activity of the contractual requirements for testing and approval, or evaluation, as appropriate;

(2) Call attention to the notice requirement in paragraph (b) of the clause at 52.209-3, First Article Approval—Contractor Testing, or 52.209-4, First Article Approval—Government Testing; and

(3) Request that the activity inform the contract administration office of the date when testing or evaluation will be completed.

(b) The Government laboratory or other activity responsible for first article testing or evaluation must inform the contracting office whether to approve, conditionally approve, or disapprove the first article. The contracting officer must then notify the contractor of the action taken and furnish a copy of the notice to the contract administration office. The notice must include the first article shipment number, when available, and the applicable line item number. Make any necessary changes in the drawings, designs, or specifications only under the Changes clause.

9.308 Contract clauses.

9.308-1 Testing performed by the contractor.

(a) (1) Insert the clause at 52.209-3, First Article Approval—Contractor Testing, in solicitations and contracts when intending a fixed-price contract that requires—

(i) First article approval; and

(ii) The contractor to conduct the first article testing.

(2) Use the clause with its Alternate I where the contract requires the contractor to produce the first article and the production quantity at the same facility.

(3) Use the clause with its Alternate II where necessary to authorize the contractor to purchase material or to commence production before first article approval.

(b) (1) Insert a clause substantially the same as the clause at 52.209-3, First Article Approval—Contractor Testing, in solicitations and contracts when intending a cost-reimbursement contract that requires—

(i) First article approval; and

(ii) The contractor to conduct the first article test.

(2) Insert the clause in paragraph (1) with its Alternate I where the contract requires the contractor to produce the first article and the production quantity at the same facility.

(3) Insert the clause in paragraph (1) with its Alternate II where necessary to authorize the contractor to purchase material or to commence production before first article approval.

9.308-2 Testing performed by the Government.

(a) (1) Insert the clause at 52.209-4, First Article Approval—Government Testing, in solicitations and contracts when intending a fixed-price contract that requires first article approval and the Government will conduct the first article test.

(2) Use the clause with its Alternate I where the contract requires the contractor to produce the first article and the production quantity at the same facility.

(3) Use the clause with its Alternate II where necessary to authorize the contractor to purchase material or to commence production before first article approval.

(b) (1) Insert a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, in solicitations and contracts when intending a cost-reimbursement contract that requires—

(i) First article approval; and

(ii) The Government to conduct the first article test.

(2) Use a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, with its Alternate I where the contract requires the contractor to produce the first article and the production quantity at the same facility.

(3) Use a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, with its Alternate II where necessary to authorize the contractor to purchase material or to commence production before first article approval.

This page intentionally left blank.

Subpart 9.4 - Debarment, Suspension, and Ineligibility

9.400 Scope of subpart.

(a) This subpart-

(1) Prescribes policies and procedures governing the debarment and suspension of contractors by agencies for the causes given in 9.406-2 and 9.407-2;

(2) Provides for the listing of contractors debarred, suspended, proposed for debarment, and declared ineligible (see the definition of "ineligible" in 2.101); and

(3) Sets forth the consequences of this listing.

(b) Although this subpart does cover the listing of ineligible contractors (9.404) and the effect of this listing (9.405), it does not prescribe policies and procedures governing declarations of ineligibility except for contractors that have been declared ineligible pursuant to 10 U.S.C. 983 (see 9.110, and 9.405-1(b)).

(c) For Federal Acquisition Supply Chain Security Act (FASCSA) orders, see part 40.

9.401 Applicability.

In accordance with Public Law 103-355, Section 2455 (31 U.S.C. 6101, note), and Executive Order 12689, any debarment, suspension or other Governmentwide exclusion initiated under the Nonprocurement Common Rule implementing Executive Order 12549 on or after August 25, 1995, must be recognized by and effective for Executive Branch agencies as a debarment or suspension under this subpart. Similarly, any debarment, suspension, proposed debarment or other Governmentwide exclusion initiated on or after August 25, 1995, under this subpart must also be recognized by and effective for those agencies and participants as an exclusion under the Nonprocurement Common Rule.

9.402 Policy.

(a) Agencies must solicit offers from, award contracts to, and consent to subcontracts with responsible contractors only. Debarment and suspension are discretionary actions that, taken in accordance with this subpart, are appropriate means to effectuate this policy.

(b) The serious nature of debarment and suspension requires that these remedies be imposed only in the public interest for the Government's protection and not for purposes of punishment. Agencies must impose debarment or suspension to protect the Government's interest and only for the causes and in accordance with the procedures in this subpart.

(c) Agencies are encouraged to establish methods and procedures for coordinating their debarment or suspension actions.

(d) When more than one agency has an interest in the debarment or suspension of a contractor, the Interagency Suspension and Debarment Committee, established under Executive Order 12549, and authorized by section 873 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417) (31 U.S.C. 6101 note), must resolve the lead agency issue and coordinate such resolution among all interested agencies prior to the initiation of any suspension, debarment, or related administrative action by any agency.

(e) Agencies must establish appropriate procedures to implement the policies and procedures of this subpart.

9.403 Definitions.

As used in this subpart—

Administrative agreement means an agreement between an agency suspending and debarring official and the contractor used to resolve a suspension or debarment proceeding, or a potential suspension or debarment proceeding.

Affiliates.–

(1) Business concerns, organizations, or individuals are affiliates of each other if, directly or indirectly–

(i) Either one controls or has the power to control the other; or

(ii) A third party controls or has the power to control both.

(2) Indicia of control include, but are not limited to, interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a business entity organized following the debarment, suspension, or proposed debarment of a contractor which has the same or similar management, ownership, or principal employees as the contractor that was debarred, suspended, or proposed for debarment.

Agency means any executive department, military department or defense agency, or other agency or independent establishment of the executive branch.

Civil judgment means the disposition of a civil action by any court of competent jurisdiction, whether by verdict, decision, settlement, stipulation, other disposition that creates a civil liability for the complained of wrongful acts, or a final determination of liability under the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801-3812).

Contractor means any individual or other legal entity that–

(1) Directly or indirectly (e.g., through an affiliate), submits offers for or is awarded, or reasonably may be expected to submit offers for or be awarded, a Government contract, including a contract for carriage under Government or commercial bills of lading, or a subcontract under a Government contract; or

(2) Conducts business, or reasonably may be expected to conduct business, with the Government as an agent or representative of another contractor.

Conviction means—

(1) A judgment or any other determination of guilt of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or plea, including a plea of nolo contendere; or

(2) Any other resolution that is the functional equivalent of a judgment establishing a criminal offense by a court of competent jurisdiction, including probation before judgment and deferred prosecution. A disposition without the participation of the court is the functional equivalent of a judgment only if it includes an admission of guilt.

Indictment means indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense is given the same effect as an indictment.

Legal proceedings means any civil judicial proceeding to which the Government is a party or any criminal proceeding. The term includes appeals from such proceedings.

Nonprocurement Common Rule means the procedures used by Federal Executive Agencies to suspend, debar, or exclude individuals or entities from participation in nonprocurement transactions under Executive Order 12549. Examples of nonprocurement transactions are grants, cooperative agreements, scholarships, fellowships, contracts of assistance, loans, loan guarantees, subsidies, insurance, payments for specified use, and donation agreements. See 2 CFR part 180 and agency enacting regulations in 2 CFR subtitle B.

Pre-notice letter means a written correspondence issued to a contractor in a suspension or debarment matter, which does not immediately result in an exclusion or ineligibility. The letter is issued at the discretion of the suspending and debarring official. The letter is not a mandatory step in the suspension or debarment process.

Unfair trade practices means the commission of any of the following acts by a contractor:

(1) A violation of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) as determined by the International Trade Commission.

(2) A violation, as determined by the Secretary of Commerce, of any agreement of the group known as the “Coordination Committee” for purposes of the Export Administration Act of 1979 (50 U.S.C. App. 2401, et seq.) or any similar bilateral or multilateral export control agreement.

(3) A knowingly false statement regarding a material element of a certification concerning the foreign content of an item of supply, as determined by the Secretary of the Department or the head of the agency to which such certificate was furnished.

Voluntary exclusion means a contractor's written agreement to be excluded for a period under the terms of a settlement between the contractor and the suspending and debarring official of one or more agencies. A voluntary exclusion must have Governmentwide effect.

9.404 Exclusions in the System for Award Management.

(a) The General Services Administration—

(1) Operates the web-based System for Award Management (SAM) at https://www.sam.gov, which contains exclusion records; and

(2) Provides technical assistance to Federal agencies in the use of SAM.

(b) An exclusion record in SAM contains the—

(1) Legal business name and physical address of the entities debarred, suspended, proposed for debarment, voluntarily excluded, declared ineligible, or excluded or disqualified under the nonprocurement common rule, with cross-references when more than one name is involved in a single action;

(2) Name of the agency or other authority taking the action;

(3) Cause for the action (see 9.406-2 and 9.407-2 for causes authorized under this subpart) or other statutory or regulatory authority;

(4) Effect of the action;

(5) Termination date for each listing;

(6) Unique Entity Identifier;

(7) Social Security Number (SSN), Employer Identification Number (EIN), or other Taxpayer Identification Number (TIN), if available; and

(8) Name and telephone number of the agency point of contact for the action.

(c) Each agency must—

(1) Identify the individual(s) responsible for entering and updating exclusions data in SAM and assign the appropriate roles;

(2) Remove the exclusion roles in SAM when the individual leaves the organization or changes functions;

(3) For each exclusion, including each voluntary exclusion, accomplished by the agency—

(i) Enter the information required by paragraph (b) of this section within 3 business days after the action becomes effective;

(ii) Determine whether it is legally permitted to enter the SSN, EIN, or other TIN, under agency authority to suspend or debar; and

(iii) Update the exclusion record in SAM, generally within 5 business days after modifying or rescinding an action;

(4) In accordance with internal retention procedures, maintain records relating to each debarment, suspension, proposed debarment, or voluntary exclusion taken or entered into by the agency;

(5) Establish procedures to ensure that the agency does not solicit offers from, award contracts to, or consent to subcontracts with contractors who have an active exclusion record in SAM, except as otherwise provided in this subpart; and

(6) Direct inquiries concerning listed contractors and other entities to the agency or other authority that took the action.

9.405 Effect of listing.

(a) Contractors debarred, suspended, proposed for debarment, or voluntarily excluded, are excluded from receiving contracts, and agencies must not solicit offers from, award contracts to, or consent to subcontracts with these contractors, unless the agency head determines that a compelling reason exists for such action (see 9.405-1(a)(2), 9.405-2, 9.406-1(d), 9.407-1(d), and 26.505(e)). Contractors debarred, suspended, proposed for debarment, or voluntarily excluded, are also excluded from conducting business with the Government as agents or representatives of other contractors.

(b) Contractors and other entities that have an active exclusion record in SAM because they have been declared ineligible based on statutory or other regulatory procedures are excluded from receiving contracts, and if applicable, subcontracts, under the conditions and for the period set forth in the statute or regulation. Do not solicit offers from, award contracts to, or consent to subcontracts with these contractors under those conditions and for that period.

(c) Do not enter into, renew, or extend contracts with contractors that have been declared ineligible pursuant to 22 U.S.C. 2593e.

(d) Contractors debarred, suspended, proposed for debarment, or voluntarily excluded, are excluded from acting as individual sureties (see part 28).

(e) (1) After the opening of bids or receipt of proposals or quotes, review the exclusion records in SAM.

(2) Bids received from any listed contractor in response to an invitation for bids must be entered on the abstract of bids and then rejected unless the agency head determines in writing that compelling reason exists to consider the bid.

(3) Unless the agency head determines in writing that a compelling reason exists otherwise, do not evaluate for award or include in the competitive range proposals, quotations, or offers received from, and do not conduct discussions with, a listed offeror during a period of ineligibility. If the period of ineligibility expires or is terminated prior to award, the contracting officer may, but is not required to, consider such proposals, quotations, or offers.

(4) Immediately prior to award, review again the exclusion records in SAM to ensure that no award is made to a listed contractor.

9.405-1 Continuation of current contracts.

(a) *Contractors debarred, suspended, proposed for debarment, or voluntarily excluded* . (1) Notwithstanding the debarment, suspension, proposed debarment, or voluntary exclusion, of a contractor, agencies may continue contracts or subcontracts in existence at the time the contractor was debarred, suspended, proposed for debarment, or voluntarily excluded, unless the agency head directs otherwise. A decision as to the type of termination action, if any, to be taken should be made only after review by agency contracting and technical personnel and by counsel to ensure the propriety of the proposed action.

(2) For contractors debarred, suspended, proposed for debarment, or voluntarily excluded, unless the agency head makes a written determination of the compelling reasons for doing so, ordering activities must not—

(i) Place orders exceeding the guaranteed minimum under indefinite quantity contracts;

(ii) Place orders under Federal Supply Schedule contracts, blanket purchase agreements, or basic ordering agreements; or

(iii) Add new work, exercise options, or otherwise extend the duration of current contracts or orders.

(b) *Ineligible contractors*. A covered agency, as defined in 9.110-1, must terminate existing contracts and must not place new orders or award new contracts with contractors that have been declared ineligible pursuant to 10 U.S.C. 983 (see 9.110), except for contracts at or below the simplified acquisition threshold or contracts for the acquisition of commercial products and commercial services.

9.405-2 Restrictions on subcontracting.

(a) If an offeror proposes a contractor debarred, suspended, proposed for debarment, or voluntarily excluded, as a subcontractor for any subcontract subject to Government consent (see part 44), do not consent to such subcontracts unless the agency head states in writing the compelling reasons for this approval action. (See 9.405 concerning declarations of ineligibility affecting subcontracting.)

(b) The Government suspends or debars contractors to protect the Government's interests. Contractors are prohibited from entering into any subcontract in excess of $45,000, other than a subcontract for a commercially available off-the-shelf item, with a contractor that has been debarred, suspended, proposed for debarment, or voluntarily excluded, unless a compelling reason exists to do so. If a contractor intends to enter into a subcontract in excess of $45,000, other than a subcontract for a commercially available off-the-shelf item, with a party that is debarred, suspended, proposed for debarment, or voluntarily excluded, as evidenced by the party's having an active exclusion record in SAM (see 9.404), a corporate officer or designee of the contractor is required by operation of the clause at 52.209-6, Protecting the Government's Interest when Subcontracting with Contractors Debarred, Suspended, Proposed for Debarment, or Voluntarily Excluded, to notify the contracting officer, in writing, before entering into such subcontract. For contracts for the acquisition of commercial products, the notification requirement applies only for first-tier subcontracts. For all other contracts, the notification requirement applies to subcontracts at any tier. The notice must provide the following:

(1) The name of the subcontractor;

(2) The contractor’s knowledge of the reasons for the subcontractor having an active exclusion record in SAM;

(3) The compelling reason(s) for doing business with the subcontractor notwithstanding its having an active exclusion record in SAM; and

(4) The systems and procedures the contractor has established to ensure that it is fully protecting the Government's interests when dealing with such subcontractor in view of the specific basis for the party's debarment, suspension, proposed debarment, or voluntary exclusion.

(c) The contractor's compliance with the requirements of 52.209-6 will be reviewed during Contractor Purchasing System Reviews (see part 44).

9.406 Debarment.

9.406-1 General.

(a) The suspending and debarring official is responsible for determining whether debarment is in the Government's interest. The suspending and debarring official may, in the public interest, debar a contractor for any of the causes in 9.406-2, using the procedures in 9.406-3. The existence of a cause for debarment, however, does not necessarily require that the contractor be debarred; the seriousness of the contractor's acts or omissions and any remedial measures, mitigating factors, or aggravating factors should be considered in making any debarment decision. Before arriving at any debarment decision, the suspending and debarring official should consider factors such as the following (some of the factors below could apply to individuals such as contractors that are individuals, and are so marked):

(1) Whether the contractor had effective standards of conduct and internal control systems in place at the time of the activity which constitutes cause for debarment or had adopted such procedures prior to any Government investigation of the activity cited as a cause for debarment.

(2) Whether the contractor (including an individual) brought the activity cited as a cause for debarment to the attention of the appropriate Government agency in a timely manner.

(3) Whether the contractor has fully investigated the circumstances surrounding the cause for debarment (or the individual cooperated with the investigation) and, if so, made the result of the investigation available to the suspending and debarring official.

(4) Whether the contractor (including an individual) cooperated fully with Government agencies during the investigation and any court or administrative action.

(5) Whether the contractor (including an individual) has paid or has agreed to pay all criminal, civil, and administrative liability for the improper activity, including any investigative or administrative costs incurred by the Government, and has made or agreed to make full restitution.

(6) Whether the contractor has taken appropriate disciplinary action against the individuals responsible for the activity which constitutes cause for debarment.

(7) Whether the contractor (including an individual) has implemented or agreed to implement remedial measures, including any identified by the Government.

(8) (i) Whether the contractor has instituted or agreed to institute new or revised review and control procedures, ethics training, or other relevant training programs.

(ii) For an individual, whether the individual has attended relevant remediation training.

(9) Whether the contractor (including an individual) has had adequate time to eliminate the circumstances that led to the cause for debarment.

(10) (i) Whether the contractor's management recognizes, accepts, and understands the seriousness of the misconduct giving rise to the cause for debarment and has implemented programs to prevent recurrence.

(ii) For an individual, whether the individual recognizes, accepts, and understands the seriousness of the misconduct giving rise to the cause for debarment and has adopted practices to prevent recurrence.

(11) Whether the contractor (including an individual) has a pattern or prior history of wrongdoing, the frequency of incidents and/or duration of the wrongdoing, and the actual or potential harm or impact that results, or may result, from the wrongdoing.

(12) Whether and to what extent the contractor (including an individual) planned, initiated, or carried out the wrongdoing, and the kind of positions within the contractor's organization held by the individual involved in the wrongdoing.

(13) Whether the wrongdoing was pervasive within the contractor's organization.

(14) Whether the individual or the contractor's principals tolerated the offense.

(15) Whether the contractor (including an individual) is or has been excluded or disqualified by an agency of the Federal Government or has not been allowed to participate in State or local contracts or assistance agreements on a basis of conduct similar to one or more of the causes for debarment specified in this subpart.

(16) Whether the contractor (including an individual) has entered into an administrative agreement with a Federal agency or a similar agreement with a State or local government that is not Governmentwide but is based on conduct similar to one or more of the causes for debarment specified in this subpart.

(17) Whether any other factors meriting consideration exist for the contractor (including an individual) under the circumstances.

(b) The existence or nonexistence of any aggravating or mitigating factors or remedial measures such as set forth in paragraph (a) of this section is not necessarily determinative of a contractor's present responsibility. Accordingly, if a cause for debarment exists, the contractor has the burden of demonstrating, to the satisfaction of the suspending and debarring official, its present responsibility and that debarment is not necessary.

(c) Debarment constitutes debarment of all divisions or other organizational elements of the contractor, unless the debarment decision is limited by its terms to specific divisions, organizational elements, or commodities. The suspending and debarring official may extend the debarment decision to include any affiliates of the contractor if they are—

(1) Specifically named; and

(2) Given written notice of the proposed debarment and an opportunity to respond (see 9.406-3(c)).

(d) A contractor's debarment, or proposed debarment, is effective throughout the executive branch of the Government, unless the agency head or a designee (except see 26.505(e)) states in writing the compelling reasons justifying continued business dealings between that agency and the contractor.

(e) (1) When the suspending and debarring official has authority to debar contractors from both contracts pursuant to the Federal Acquisition Regulation in this chapter and contracts for the purchase of Federal personal property pursuant to the Federal Management Regulation (FMR) in 41 CFR part 102-38, that official must consider simultaneously debarring the contractor from the award of acquisition contracts and from the purchase of Federal personal property.

(2) A notice debarring a contractor from the award of acquisition contracts and from the purchase of Federal personal property must include the appropriate FAR and FMR citations.

9.406-2 Causes for debarment.

The suspending and debarring official may debar-

(a) A contractor for a conviction of or civil judgment for-

(1) Commission of fraud or a criminal offense in connection with-

(i) Obtaining;

(ii) Attempting to obtain; or

(iii) Performing a public contract or subcontract.

(2) Violation of Federal or State antitrust statutes relating to the submission of offers;

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(4) Intentionally affixing a label bearing a "Made in America" inscription (or any inscription having the same meaning) to a product sold in or shipped to the United States or its outlying areas, when the product was not made in the United States or its outlying areas (see Section 202 of the Defense Production Act (Public Law 102-558)); or

(5) Commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of a Government contractor or subcontractor.

(b) (1) A contractor, based upon a preponderance of the evidence, for any of the following—

(i) Violation of the terms of a Government contract or subcontract so serious as to justify debarment, such as—

(A) Willful failure to perform in accordance with the terms of one or more contracts; or

(B) A history of failure to perform, or of unsatisfactory performance of, one or more contracts.

(ii) Violations of 41 U.S.C. chapter 81, Drug-Free Workplace, as indicated by—

(A) Failure to comply with the requirements of the clause at 52.226-7, Drug-Free Workplace; or

(B) Such a number of contractor employees convicted of violations of criminal drug statutes occurring in the workplace as to indicate that the contractor has failed to make a good faith effort to provide a drug-free workplace (see 26.504).

(iii) Intentionally affixing a label bearing a "Made in America" inscription (or any inscription having the same meaning) to a product sold in or shipped to the United States or its outlying areas, when the product was not made in the United States or its outlying areas (see Section 202 of the Defense Production Act (Public Law 102-558)).

(iv) Commission of an unfair trade practice as defined in 9.403 (see Section 201 of the Defense Production Act (Public Law 102-558)).

(v) Delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2). Federal taxes are considered delinquent for purposes of this provision if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if a pending administrative or judicial challenge remains. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(vi) Knowing failure by a principal, until 3 years after final payment on any Government contract awarded to the contractor, to timely disclose to the Government, in connection with the award, performance, or closeout of the contract or a subcontract thereunder, credible evidence of—

(A) Violation of Federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 of the United States Code;

(B) Violation of the civil False Claims Act (31 U.S.C. 3729-3733); or

(C) Significant overpayment(s) on the contract, other than overpayments resulting from contract financing payments as defined in 32.001.

(vii) Determination of a false certification under 52.209-13, Violation of Arms Control Treaties or Agreements-Certification.

(viii) Failure to comply with the requirements of clause 52.222-90, Addressing DEI Discrimination by Federal Contractors.

(2) A contractor, based on a determination by the Secretary of Homeland Security or the Attorney General of the United States, that the contractor is not in compliance with Immigration and Nationality Act employment provisions (see Executive Order12989, as amended by Executive Order13286). Such determination is not reviewable in the debarment proceedings.

(c) A contractor or subcontractor based on any other cause of so serious or compelling a nature that it affects the present responsibility of the contractor or subcontractor.

9.406-3 Procedures.

(a) *Investigation and referral*. Agencies must establish procedures for the prompt reporting, investigation, and referral to the suspending and debarring official of matters appropriate for that official's consideration.

(b) *Decision-making process* (1) Agencies must establish procedures governing the debarment decision-making process that are as informal as is practicable, consistent with principles of fundamental fairness. These procedures must afford the contractor (and any specifically named affiliates) an opportunity to submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment. If the suspending and debarring official extends the opportunity for the contractor to submit material in opposition, then the official should also give a deadline for submission of materials. The suspending and debarring official may use flexible procedures to allow a contractor to present matters in opposition in person or remotely through appropriate technology; if so, the suspending and debarring official should change the notice in paragraph (c)(3)(iv) of this section to include those flexible procedures.

(2) In actions not based upon a conviction or civil judgment, if the contractor's submission in opposition raises a genuine dispute over facts material to the proposed debarment, agencies must also—

(i) Afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the agency presents; and

(ii) Make a transcribed record of the proceedings and make it available at cost to the contractor upon request, unless the contractor and the agency, by mutual agreement, waive the requirement for a transcript.

(c) *Notice of proposal to debar*. The suspending and debarring official must issue the notice of proposed debarment to the contractor and any specifically named affiliates.

(1) The written notice must be sent—

(i) By U.S. mail or private delivery service to the last known street address, with delivery notification service;

(ii) By email to the point of contact email address in the contractor's SAM registration, if any, or to the last known email address as confirmed by the agency; or

(iii) By certified mail to the last known street address with return receipt requested.

(2) The notice must be sent—

(i) To the contractor, the contractor's identified counsel for purposes of the administrative proceedings, or the contractor's agent for service of process; and

(ii) For each specifically named affiliate, to the affiliate itself, the affiliate's identified counsel for purposes of the administrative proceedings, or the affiliate's agent for service of process.

(3) The notice must state—

(i) That debarment is being considered;

(ii) The reasons for the proposed debarment in terms sufficient to put the contractor on notice of the conduct or transaction(s) upon which it is based;

(iii) The cause(s) relied upon under 9.406-2 for proposing debarment;

(iv) That, within 30 days after receipt of the notice, the contractor may submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment, including any additional specific information that raises a genuine dispute over the material facts;

(v) The agency's procedures governing debarment decision making;

(vi) The effect of the issuance of the notice of proposed debarment;

(vii) The potential effect of an actual debarment;

(viii) That in addition to any information and argument in opposition to a proposed debarment, the contractor must identify—

(A) Specific facts that contradict the statements contained in the notice of proposed debarment. Include any information about any of the factors listed in 9.406-1(a). A general denial is insufficient to raise a genuine dispute over facts material to the proposed debarment;

(B) All existing, proposed, or prior exclusions and all similar actions taken by Federal, State, or local agencies, including administrative agreements that affect only those agencies;

(C) All criminal and civil proceedings not included in the notice of proposed debarment that grew out of facts relevant to the cause(s) stated in the notice; and

(D) All of the contractor's affiliates; and

(ix) That if the contractor fails to disclose the information in paragraph (c)(3)(viii) of this section, or provides false information, the agency taking the action may seek further criminal, civil, or administrative action against the contractor, as appropriate.

(d) *Suspending and debarring official's decision*. (1) In actions based upon a conviction or civil judgment, or in which no genuine dispute exists over material facts, the suspending and debarring official must decide based on all the information in the administrative record, including any contractor submission. If no suspension is in effect, the suspending and debarring official must make a decision within 45 days from the date that the official administrative record is closed, unless the suspending and debarring official extends this period for good cause. The official record closes upon the expiration of the contractor's time to submit information and argument in opposition, including any extensions (see paragraph (b)(1) of this section).

(2) (i) In actions in which additional proceedings are necessary as to disputed material facts, written findings of fact must be prepared. The suspending and debarring official must base the decision on the facts as found, together with any information and argument submitted by the contractor and any other information in the administrative record.

(ii) The debarring official may refer matters involving disputed material facts to another official for findings of fact. The suspending and debarring official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary and capricious or clearly erroneous.

(iii) The suspending and debarring official must make a decision after the conclusion of the proceedings with respect to disputed facts.

(3) In any action in which the proposed debarment is not based upon a conviction or civil judgment, the cause for debarment must be established by a preponderance of the evidence.

(e) *Notice of suspending and debarring official's decision.* (1) If the suspending and debarring official decides to impose debarment, the contractor and any affiliates involved must be given prompt notice using the procedures in paragraphs (c)(1) and (2) of this section—

(i) Referring to the notice of proposed debarment;

(ii) Specifying the reasons for debarment;

(iii) Stating the period of debarment, including effective dates; and

(iv) Advising that the debarment is effective throughout the executive branch of the Government unless the head of an agency or a designee makes the statement called for by 9.406-1(d).

(2) If debarment is not imposed, the suspending and debarring official must promptly notify the contractor and any affiliates involved, using the procedures in paragraphs (c)(1) and (2) of this section.

(f) *Administrative agreements.* (1) If the contractor enters into an administrative agreement with the Government in order to resolve a debarment or potential debarment proceeding, the suspending and debarring official must access the website (available at https://www.cpars.gov, then select FAPIIS), enter the requested information, and upload documentation reflecting the administrative agreement.

(2) The suspending and debarring official is responsible for the timely and accurate submission of documentation reflecting the administrative agreement. The submission should be made within 3 working days.

(3) With regard to information that may be covered by a disclosure exemption under the Freedom of Information Act, the suspending and debarring official must follow the procedures at 9.105-2(b)(2)(iv).

(g) *Voluntary exclusions*. (1) If the contractor enters into a voluntary exclusion with the Government in order to resolve a debarment or potential debarment matter, the suspending and debarring official must access the website (available at https://www.sam.gov) and enter the requested information into the exclusions section of SAM (see 9.404(c)(3)).

(2) The suspending and debarring official is responsible for the timely and accurate submission of documentation reflecting the voluntary exclusion. The submission should be made within 3 working days.

(3) Regarding information that may be covered by a disclosure exemption under the Freedom of Information Act, the suspending and debarring official must follow the procedures at 9.105-2(b)(2)(iv).

(h) *Pre-notice letters*. Prior to initiating a proposed debarment, the suspending and debarring official has discretion to issue a pre-notice letter. A pre-notice letter is not required to initiate debarment under this subpart. (See 9.403.)

9.406-4 Period of debarment.

(a) (1) Debarment must be for a period commensurate with the seriousness of the cause(s). Generally, debarment should not exceed 3 years, except that—

(i) Debarment for violation of the provisions of 41 U.S.C. chapter 81, Drug-Free Workplace (see 26.505) may be for a period not to exceed 5 years;

(ii) Debarments under 9.406-2(b)(2) must be for 1 year unless extended pursuant to paragraph (b) of this section; and

(iii) Debarments under 9.406-2(b)(1)(vii) must be for a period of not less than 2 years, inclusive of any suspension period, if suspension precedes a debarment (see paragraph (a)(2) of this section).

(2) If suspension precedes a debarment, the suspension period factors in determining the debarment period.

(b) The suspending and debarring official may extend the debarment for an additional period, if that official determines that an extension is necessary to protect the Government's interest. However, a debarment may not be extended solely on the basis of the facts and circumstances upon which the initial debarment action was based. Debarments under 9.406-2(b)(2) may be extended for additional periods of one year if the Secretary of Homeland Security or the Attorney General determines that the contractor continues to be in violation of the employment provisions of the Immigration and Nationality Act. Upon determining that debarment for an additional period is necessary, the suspension and debarring official must follow the procedures in 9.406-3 to extend the debarment.

(c) The suspending and debarring official may reduce the period or extent of debarment, upon the contractor's request, supported by documentation, for reasons such as—

(1) Newly discovered material evidence;

(2) Reversal of the conviction or civil judgment upon which the debarment was based;

(3) Bona fide change in ownership or management;

(4) Elimination of other causes for which the debarment was imposed; or

(5) Other reasons the suspending and debarring official deems appropriate.

9.406-5 Scope of debarment.

(a) The fraudulent, criminal, or other seriously improper conduct of any officer, director, shareholder, partner, employee, or other individual associated with a contractor may be imputed to the contractor when the conduct occurred in connection with the individual's performance of duties for or on behalf of the contractor, or with the contractor's knowledge, approval, or acquiescence. The contractor's acceptance of the benefits derived from the conduct is evidence of such knowledge, approval, or acquiescence.

(b) The fraudulent, criminal, or other seriously improper conduct of a contractor may be imputed to any officer, director, shareholder, partner, employee, or other individual associated with the contractor who participated in, knew of, or had reason to know of the contractor's conduct.

(c) The fraudulent, criminal, or other seriously improper conduct of one contractor participating in a joint venture or similar arrangement may be imputed to other participating contractors if the conduct occurred for or on behalf of the joint venture or similar arrangement, or with the knowledge, approval, or acquiescence of these contractors. Acceptance of the benefits derived from the conduct is evidence of such knowledge, approval, or acquiescence.

9.407 Suspension.

9.407-1 General.

(a) The suspending and debarring official may, in the public interest, suspend a contractor for any of the causes in 9.407-2, using the procedures in 9.407-3.

(b) (1) Suspension is a serious action to be imposed based on adequate evidence, pending the completion of an investigation or legal proceedings, when the suspending and debarring official determines that immediate action is necessary to protect the Government's interest. In deciding whether immediate action is necessary to protect the Government's interest, the suspending and debarring official has wide discretion. The suspending and debarring official may infer the necessity for immediate action to protect the Government's interest either from the nature of the circumstances giving rise to a cause for suspension or from potential business relationships or involvement with a program of the Federal Government. In assessing the adequacy of the evidence, agencies should consider how much information is available, how credible it is given the circumstances, whether important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as contracts, inspection reports, and correspondence. An indictment or other official findings by Federal, State, or local bodies that determine factual and/or legal matters, constitutes adequate evidence for purposes of suspension actions.

(2) The existence of a cause for suspension does not necessarily require that the contractor be suspended. The suspending and debarring official should consider the seriousness of the contractor's acts or omissions and may, but is not required to, consider remedial measures, mitigating factors, or aggravating factors, such as those in 9.406-1(a). A contractor has the burden of promptly presenting to the suspending and debarring official evidence of remedial measures or mitigating factors when it has reason to know that a cause for suspension exists. The existence or nonexistence of any remedial measures or aggravating or mitigating factors is not necessarily determinative of a contractor's present responsibility.

(c) Suspension constitutes suspension of all divisions or other organizational elements of the contractor, unless the suspension decision is limited by its terms to specific divisions, organizational elements, or commodities. The suspending and debarring official may extend the suspension decision to include any affiliates of the contractor if they are—

(1) Specifically named; and

(2) Given written notice of the suspension and an opportunity to respond (see 9.407-3(c)).

(d) A contractor's suspension is effective throughout the executive branch of the Government, unless the agency head or a designee (except see 26.505(e)) states in writing the compelling reasons justifying continued business dealings between that agency and the contractor.

(e) (1) When the suspending and debarring official has authority to suspend contractors from both contracts pursuant to the Federal Acquisition Regulation in this chapter and contracts for the purchase of Federal personal property pursuant to Federal Management Regulation (FMR) in 41 CFR part 102-38, that official must consider simultaneously suspending the contractor from the award of acquisition contracts and from the purchase of Federal personal property.

(2) A notice suspending a contractor from the award of acquisition contracts and from the purchase of Federal personal property must include the appropriate FAR and FMR citations.

9.407-2 Causes for suspension.

(a) The suspending and debarring official may suspend a contractor suspected, upon adequate evidence, of—

(1) Commission of fraud or a criminal offense in connection with-

(i) Obtaining;

(ii) Attempting to obtain; or

(iii) Performing a public contract or subcontract.

(2) Violation of Federal or State antitrust statutes relating to the submission of offers;

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(4) Violations of 41 U.S.C. chapter 81, Drug-Free Workplace, as indicated by—

(i) Failure to comply with the requirements of the clause at 52.226-7, Drug-Free Workplace; or

(ii) Such a number of contractor employees convicted of violations of criminal drug statutes occurring in the workplace as to indicate that the contractor has failed to make a good faith effort to provide a drug-free workplace (see 26.504);

(5) Intentionally affixing a label bearing a “Made in America” inscription (or any inscription having the same meaning) to a product sold in or shipped to the United States or its outlying areas, when the product was not made in the United States or its outlying areas (see Section 202 of the Defense Production Act (Public Law 102-558));

(6) Commission of an unfair trade practice as defined in 9.403 (see section 201 of the Defense Production Act (Pub. L. 102-558));

(7) Delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2). See the criteria at 9.406-2(b)(1)(v) for determination of when taxes are delinquent;

(8) Knowing failure by a principal, until 3 years after final payment on any Government contract awarded to the contractor, to timely disclose to the Government, in connection with the award, performance, or closeout of the contract or a subcontract thereunder, credible evidence of—

(i) Violation of Federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 of the United States Code;

(ii) Violation of the civil False Claims Act (31 U.S.C. 3729-3733); or

(iii) Significant overpayment(s) on the contract, other than overpayments resulting from contract financing payments as defined in 32.001; or

(9) Determination of a false certification under 52.209-13, Violation of Arms Control Treaties or Agreements-Certification.

(10) Commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of a Government contractor or subcontractor.

(11) Failure to comply with the requirements of clause 52.222-90, Addressing DEI Discrimination by Federal Contractors.

(b) Indictment for any of the causes in paragraph (a) of this section constitutes adequate evidence for suspension.

(c) The suspending and debarring official may upon adequate evidence also suspend a contractor for any other cause of so serious or compelling a nature that it affects the present responsibility of a Government contractor or subcontractor.

9.407-3 Procedures.

(a) *Investigation and referral*. Agencies must establish procedures for the prompt reporting, investigation, and referral to the suspending and debarring official of matters appropriate for that official's consideration.

(b) *Decision-making process*. (1) Agencies must establish procedures governing the suspension decision-making process that are as informal as is practicable, consistent with principles of fundamental fairness. These procedures must afford the contractor (and any specifically named affiliates) an opportunity, following the imposition of suspension, to submit, in person, in writing, or through a representative, information and argument in opposition to the suspension. If the suspending and debarring official extends the opportunity for the contractor to submit material in opposition, then the official should also give a deadline for submission of materials. The suspending and debarring official may use the flexible procedures in 9.406-3(b)(1); if so, the suspending and debarring official should change the notice in paragraph (c)(5) of this section to include those flexible procedures.

(2) In actions not based on an indictment, if the contractor's submission in opposition raises a genuine dispute over facts material to the suspension and if no determination has been made, on the basis of Department of advice from the Department of Justice, a U.S. Attorney's office, State attorney general's office, or a State or local prosecutor's office, that substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced, agencies must also—

(i) Afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the agency presents; and

(ii) Make a transcribed record of the proceedings and make it available at cost to the contractor upon request, unless the contractor and the agency, by mutual agreement, waive the requirement for a transcript.

(c) *Notice of suspension*. When a contractor and any specifically named affiliates are suspended, the suspending and debarring official must immediately notify them using the procedures in 9.406-3(c)(1) and (2). While describing any irregularities in terms sufficient to place the contractor on notice without disclosing the Government's evidence, the notice must state—

(1) That they have been suspended and that the suspension is based on an indictment or other adequate evidence that the contractor has committed irregularities—

(i) Of a serious nature in business dealings with the Government; or

(ii) Seriously reflecting on the propriety of further Government dealings with the contractor;

(2) That the suspension is for a temporary period pending the completion of an investigation and such legal proceedings as may ensue;

(3) Of the cause(s) relied upon under 9.407-2 for imposing suspension;

(4) Of the effect of the suspension;

(5) That, within 30 days after receipt of the notice, the contractor may submit, in person, in writing, or through a representative, information and argument in opposition to the suspension, including any additional specific information that raises a genuine dispute over the material facts;

(6) That additional proceedings to determine disputed material facts will be conducted unless—

(i) The action is based on an indictment; or

(ii) A determination is made, on the basis of advice by the Department of Justice, a U.S. Attorney's office, State attorney general's office, or a State or local prosecutor's office, that the substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced;

(7) That, in addition to any information and argument in opposition to a suspension, the contractor must identify–

(i) Specific facts that contradict the statements contained in the notice of suspension. Include any information about any of the factors listed in 9.406-1(a). A general denial is insufficient to raise a genuine dispute over facts material to the suspension;

(ii) All existing, proposed, or prior exclusions and all similar actions taken by Federal, State, or local agencies, including administrative agreements that affect only those agencies;

(iii) All criminal and civil proceedings not included in the notice of suspension that grew out of facts relevant to the cause(s) stated in the notice; and

(iv) All of the contractor's affiliates; and

(8) That if the contractor fails to disclose the information in paragraph (c)(7) of this section or provides false information, the agency taking the action may seek further criminal, civil, or administrative action against the contractor, as appropriate.

(d) *Suspending and debarring official's decision*. (1) The suspending and debarring official must make a decision based on all the information in the administrative record, including any submission from the contractor, for actions—

(i) Based on an indictment;

(ii) In which the contractor's submission does not raise a genuine dispute over material facts; or

(iii) In which additional proceedings to determine disputed material facts have been denied based on advice from the Department of Justice, a U.S. Attorney's office, State attorney general's office, or a State or local prosecutor's office.

(2) (i) In actions in which additional proceedings are necessary as to disputed material facts, written findings of fact must be prepared. The suspending and debarring official must base the decision on the facts as found, together with any information and argument submitted by the contractor and any other information in the administrative record.

(ii) The suspending and debarring official may refer matters involving disputed material facts to another official for findings of fact. The suspending and debarring official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary and capricious or clearly erroneous.

(iii) The suspending and debarring official must make a decision after the conclusion of the proceedings with respect to disputed facts.

(3) The suspending and debarring official may modify or terminate the suspension or leave it in force (for example, see 9.406-4(c) for the reasons for reducing the period or extent of debarment). However, a decision to modify or terminate the suspension must be without prejudice to the subsequent imposition of—

(i) Suspension by any other agency; or

(ii) Debarment by any agency.

(4) Prompt written notice of the suspending and debarring official's decision must be sent to the contractor and any affiliates involved, using the procedures in 9.406-3(c)(1) and (2).

(e) *Administrative agreement*. (1) If the contractor enters into an administrative agreement with the Government to resolve a suspension or potential suspension proceeding, the suspending and debarring official must access the website (available at https://www.cpars.gov, then select FAPIIS), enter the requested information, and upload documentation reflecting the administrative agreement.

(2) The suspending and debarring official is responsible for the timely and accurate submission of documentation reflecting the administrative agreement. The submission should be made within 3 working days.

(3) With regard to information that may be covered by a disclosure exemption under the Freedom of Information Act, the suspending and debarring official must follow the procedures at 9.105-2(b)(2)(iv).

(f) *Voluntary exclusion*. (1) If the contractor enters into a voluntary exclusion with the Government in order to resolve a suspension or potential suspension proceeding, the suspending and debarring official must access the website (available at https://www.sam.gov) and enter the requested information into the exclusions section of SAM (see 9.404(c)(3)).

(2) The suspending and debarring official is responsible for the timely and accurate submission of documentation reflecting the voluntary exclusion. The submission should be made within 3 working days.

(3) Regarding information that may be covered by a disclosure exemption under the Freedom of Information Act, the suspending and debarring official must follow the procedures at 9.105-2(b)(2)(iv).

(g) *Pre-notice letter*. Prior to initiating a suspension, the suspending and debarring official has discretion to issue a pre-notice letter. A pre-notice letter is not required to initiate suspension under this subpart. (See 9.403.)

9.407-4 Period of suspension.

(a) Suspension must be for a temporary period pending the completion of an investigation and any ensuing legal proceedings, unless sooner terminated by the suspending and debarring official or as provided in this section.

(b) If legal proceedings are not initiated within 12 months after the date of the suspension notice, the suspension must be terminated unless an office of a U.S. Assistant Attorney General, U.S. Attorney, or other responsible prosecuting official requests its extension, in which case it may be extended for an additional 6 months. In no event may a suspension extend beyond 18 months, unless legal proceedings have been initiated within that period.

(c) The suspending and debarring official must notify the Department of Justice or other responsible prosecuting official of the proposed termination of the suspension, at least 30 days before the 12-month period expires, to give that official an opportunity to request an extension on the Government's behalf.

9.407-5 Scope of suspension.

The scope of suspension must be the same as that for debarment (see 9.406-5), except that the procedures of 9.407-3 must be used in imposing suspension.

9.408 [Reserved]

9.409 Contract clause.

Insert the clause at 52.209-6, Protecting the Government's Interest when Subcontracting with Contractors Debarred, Suspended, Proposed for Debarment, or Voluntarily Excluded, in solicitations and contracts where the contract value exceeds $45,000.

This page intentionally left blank.

Subpart 9.5 - Organizational and Consultant Conflicts of Interest

9.500 Scope of subpart.

This subpart:

(a) Prescribes responsibilities, general rules, and procedures for identifying, evaluating, and resolving organizational conflicts of interest;

(b) Provides examples to assist contracting officers in applying these rules and procedures to individual contracting situations; and

(c) Implements section 8141 of the 1989 Department of Defense Appropriation Act, Pub.L.100-463, 102 Stat.2270-47 (1988).

9.501 Definition.

Marketing consultant, as used in this subpart, means any independent contractor who furnishes advice, information, direction, or assistance to an offeror or any other contractor in support of the preparation or submission of an offer for a Government contract by that offeror. An independent contractor is not a marketing consultant when rendering-

(1) Services excluded in subpart 37.2;

(2) Routine engineering and technical services (such as installation, operation, or maintenance of systems, equipment, software, components, or facilities);

(3) Routine legal, actuarial, auditing, and accounting services; and

(4) Training services.

9.502 Applicability.

(a) This subpart applies to contracts with either profit or nonprofit organizations, including nonprofit organizations created largely or wholly with Government funds.

(b) The applicability of this subpart is not limited to any particular kind of acquisition. However, organizational conflicts of interest are more likely to occur in contracts involving-

(1) Management support services;

(2) Consultant or other professional services;

(3) Contractor performance of or assistance in technical evaluations; or

(4) Systems engineering and technical direction work performed by a contractor that does not have overall contractual responsibility for development or production.

(c) An organizational conflict of interest may result when factors create an actual or potential conflict of interest on an instant contract, or when the nature of the work to be performed on the instant contract creates an actual or potential conflict of interest on a future acquisition. In the latter case, some restrictions on future activities of the contractor may be required.

(d) Acquisitions subject to unique agency organizational conflict of interest statutes are excluded from the requirements of this subpart.

9.503 Waiver.

The agency head or a designee may waive any general rule or procedure of this subpart by determining that its application in a particular situation would not be in the Government's interest. Any request for waiver must be in writing, must set forth the extent of the conflict, and requires approval by the agency head or a designee. Agency heads must not delegate waiver authority below the level of head of a contracting activity.

9.504 Contracting officer responsibilities.

(a) Using the general rules, procedures, and examples in this subpart, contracting officers must analyze planned acquisitions in order to—

(1) Identify and evaluate potential organizational conflicts of interest as early in the acquisition process as possible; and

(2) Avoid, neutralize, or mitigate significant potential conflicts before contract award.

(b) Contracting officers should obtain the advice of counsel and the assistance of appropriate technical specialists in evaluating potential conflicts and in developing any necessary solicitation provisions and contract clauses (see 9.506).

(c) Before issuing a solicitation for a contract that may involve a significant potential conflict, the contracting officer must recommend to the head of the contracting activity a course of action for resolving the conflict (see 9.506).

(d) In fulfilling their responsibilities for identifying and resolving potential conflicts, contracting officers should avoid creating unnecessary delays, burdensome information requirements, and excessive documentation. The contracting officer's judgment need be formally documented only when a substantive issue concerning potential organizational conflict of interest exists.

(e) The contracting officer must award the contract to the apparent successful offeror unless a conflict of interest is determined to exist that cannot be avoided or mitigated. Before determining to withhold award based on conflict of interest considerations, the contracting officer must notify the contractor, provide the reasons therefor, and allow the contractor a reasonable opportunity to respond. If the contracting officer finds that it is in the best interest of the United States to award the contract notwithstanding a conflict of interest, a request for waiver must be submitted in accordance with 9.503. The waiver request and decision must be included in the contract file.

9.505 General rules.

The general rules in 9.505-1 through 9.505-4 prescribe limitations on contracting as the means of avoiding, neutralizing, or mitigating organizational conflicts of interest that might otherwise exist in the stated situations. Some illustrative examples are provided in 9.508. Conflicts may arise in situations not expressly covered in this section 9.505 or in the examples in 9.508. Each individual contracting situation should be examined on the basis of its particular facts and the nature of the proposed contract. The exercise of common sense, good judgment, and sound discretion is required in both the decision on whether a significant potential conflict exists and, if it does, the development of an appropriate means for resolving it. The two underlying principles are—

(a) Preventing the existence of conflicting roles that might bias a contractor’s judgment; and

(b) Preventing unfair competitive advantage. In addition to the other situations described in this subpart, an unfair competitive advantage exists where a contractor competing for award of any Federal contract possesses-

(1) Proprietary information that was obtained from a Government official without proper authorization; or

(2) Source selection information (as defined in 2.101) that is relevant to the contract but is not available to all competitors, and such information would assist that contractor in obtaining the contract.

9.505-1 Providing systems engineering and technical direction.

(a) A contractor that provides systems engineering and technical direction for a system but does not have overall contractual responsibility for its development, its integration, assembly, and checkout, or its production shall not—

(1) Be awarded a contract to supply the system or any of its major components; or

(2) Be a subcontractor or consultant to a supplier of the system or any of its major components.

(b) Systems engineering includes a combination of substantially all of the following activities: determining specifications, identifying and resolving interface problems, developing test requirements, evaluating test data, and supervising design. Technical direction includes a combination of substantially all of the following activities: developing work statements, determining parameters, directing other contractors' operations, and resolving technical controversies. In performing these activities, a contractor occupies a highly influential and responsible position in determining a system's basic concepts and supervising their execution by other contractors. Therefore this contractor should not be in a position to make decisions favoring its own products or capabilities.

9.505-2 Preparing specifications or work statements.

(a) (1) If a contractor prepares and furnishes complete specifications covering nondevelopmental items, to be used in a competitive acquisition, that contractor shall not be allowed to furnish these items, either as a prime contractor or as a subcontractor, for a reasonable period of time including, at least, the duration of the initial production contract. The restriction in this paragraph (a)(1) must not apply to—

(i) Contractors that furnish at Government request specifications or data regarding a product they provide, even though the specifications or data may have been paid for separately or in the price of the product; or

(ii) Situations in which contractors, acting as industry representatives, help Government agencies prepare, refine, or coordinate specifications, regardless of source, provided this assistance is supervised and controlled by Government representatives.

(2) If a single contractor drafts complete specifications for nondevelopmental equipment, it should be eliminated for a reasonable time from competition for production based on the specifications. This should be done in order to avoid a situation in which the contractor could draft specifications favoring its own products or capabilities. In this way the Government can

be assured of getting unbiased advice as to the content of the specifications and can avoid allegations of favoritism in the award of production contracts.

(3) In development work, it is normal to select firms that have done the most advanced work in the field. These firms can be expected to design and develop around their own prior knowledge. Development contractors can frequently start production earlier and more knowledgeably than firms that did not participate in the development, and this can affect the time and quality of production, both of which are important to the Government. In many instances the Government may have financed the development. Thus, while the development contractor has a competitive advantage, it is an unavoidable one that is not considered unfair; hence no prohibition should be imposed.

(b) (1) If a contractor prepares, or assists in preparing, a work statement to be used in competitively acquiring a system or services-or provides material leading directly, predictably, and without delay to such a work statement-that contractor may not supply the system, major components of the system, or the services unless—

(i) It is the sole source;

(ii) It has participated in the development and design work; or

(iii) More than one contractor has been involved in preparing the work statement.

(2) Agencies should normally prepare their own work statements. When contractor assistance is necessary, the contractor might often be in a position to favor its own products or capabilities. To overcome the possibility of bias, contractors are prohibited from supplying a system or services acquired on the basis of work statements growing out of their services, unless excepted in paragraph (b)(1) of this section.

(3) For the reasons given in paragraph (a)(3) of this section, no prohibitions are imposed on development and design contractors.

9.505-3 Providing evaluation services.

Contracts for the evaluation of offers for products or services must not be awarded to a contractor that will evaluate its own offers for products or services, or those of a competitor, without proper safeguards to ensure objectivity to protect the Government's interests.

9.505-4 Obtaining access to proprietary information.

(a) When a contractor requires proprietary information from others to perform a Government contract and can use the leverage of the contract to obtain it, the contractor may gain an unfair competitive advantage unless restrictions are imposed. These restrictions protect the information and encourage companies to provide it when necessary for contract performance. They are not intended to protect information—

(1) Furnished voluntarily without limitations on its use; or

(2) Available to the Government or contractor from other sources without restriction.

(b) A contractor that gains access to proprietary information of other companies in performing advisory and assistance services for the Government must agree with the other companies to protect their information from unauthorized use or disclosure for as long as it remains proprietary and refrain from using the information for any purpose other than that for which it was furnished. The contracting officer must obtain copies of these agreements and ensure that they are properly executed.

(c) Contractors also obtain proprietary and source selection information by acquiring the services of marketing consultants which, if used in connection with an acquisition, may give the contractor an unfair competitive advantage. Contractors should make inquiries of marketing consultants to ensure that the marketing consultant has provided no unfair competitive advantage.

9.506 Procedures.

(a) If information concerning prospective contractors is necessary to identify and evaluate potential organizational conflicts of interest or to develop recommended actions, contracting officers should first seek the information from within the Government or from other readily available sources. Government sources include the files and the knowledge of personnel within the contracting office, other contracting offices, the cognizant contract administration and audit activities and offices concerned with contract financing. Non-Government sources include publications and commercial services, such as credit rating services, trade and financial journals, and business directories and registers.

(b) If the contracting officer decides that a particular acquisition involves a significant potential organizational conflict of interest, the contracting officer must, before issuing the solicitation, submit for approval to the chief of the contracting office (unless a higher level official is designated by the agency)—

(1) A written analysis, including a recommended course of action for avoiding, neutralizing, or mitigating the conflict, based on the general rules in 9.505 or on another basis not expressly stated in that section;

(2) A draft solicitation provision (see 9.507-1); and

(3) If appropriate, a proposed contract clause (see 9.507-2).

(c) The approving official must—

(1) Review the contracting officer’s analysis and recommended course of action, including the draft provision and any proposed clause;

(2) Consider the benefits and detriments to the Government and prospective contractors; and

(3) Approve, modify, or reject the recommendations in writing.

(d) The contracting officer must—

(1) Include the approved provision(s) and any approved clause(s) in the solicitation or the contract, or both;

(2) Consider additional information provided by prospective contractors in response to the solicitation or during negotiations; and

(3) Before awarding the contract, resolve the conflict or the potential conflict in a manner consistent with the approval or other direction by the head of the contracting activity.

(e) If, during the effective period of any restriction (see 9.507), a contracting office transfers acquisition responsibility for the item or system involved, it must notify the successor contracting office of the restriction, and send a copy of the contract under which the restriction was imposed.

9.507 Solicitation provisions and contract clause.

9.507-1 Solicitation provisions.

As indicated in the general rules in 9.505, significant potential organizational conflicts of interest are normally resolved by imposing some restraint, appropriate to the nature of the conflict, upon the contractor's eligibility for future contracts or subcontracts. Therefore, affected solicitations must contain a provision that—

(a) Invites offerors’ attention to this subpart;

(b) States the nature of the potential conflict as seen by the contracting officer;

(c) States the nature of the proposed restraint upon future contractor activities; and

(d) Depending on the nature of the acquisition, states whether or not the terms of any proposed clause and the application of this subpart to the contract are subject to negotiation.

9.507-2 Contract clause.

(a) If, as a condition of award, the contractor's eligibility for future prime contract or subcontract awards will be restricted or the contractor must agree to some other restraint, the solicitation must contain a proposed clause that specifies both the nature and duration of the proposed restraint. The contracting officer must include the clause in the contract, first negotiating the clause's final terms with the successful offeror, if it is appropriate to do so (see 9.506(d)).

(b) The restraint imposed by a clause must be limited to a fixed term of reasonable duration, sufficient to avoid the circumstance of unfair competitive advantage or potential bias. This period varies. It might end, for example, when the first production contract using the contractor's specifications or work statement is awarded, or it might extend through the entire life of a system for which the contractor has performed systems engineering and technical direction. In every case, the restriction must specify termination by a specific date or upon the occurrence of an identifiable event.

9.508 Examples.

The examples in paragraphs (a) through (i) of this section illustrate situations in which questions concerning organizational conflicts of interest may arise. They are not all inclusive, but are intended to help the contracting officer apply the general rules in 9.505 to individual contract situations.

(a) Company A agrees to provide systems engineering and technical direction for the Navy on the powerplant for a group of submarines (*i.e.,* turbines, drive shafts, propellers, etc.). Company A should not be allowed to supply any powerplant components. Company A can, however, supply components of the submarine unrelated to the powerplant (*e.g.,* fire control, navigation, etc.). In this example, the system is the powerplant, not the submarine, and the ban on supplying components is limited to those for the system only.

(b) Company A is the systems engineering and technical direction contractor for system X. After some progress, but before completion, the system is canceled. Later, system Y is developed to achieve the same purposes as system X, but in a fundamentally different fashion. Company B is the systems engineering and technical direction contractor for system Y. Company A may supply system Y or its components.

(c) Company A develops new electronic equipment and, as a result of this development, prepares specifications. Company A may supply the equipment.

(d) XYZ Tool Company and PQR Machinery Company, representing the American Tool Institute, work under Government supervision and control to refine specifications or to clarify the requirements of a specific acquisition. These companies may supply the item.

(e) Before an acquisition for information technology is conducted, Company A is awarded a contract to prepare data system specifications and equipment performance criteria to be used as the basis for the equipment competition. Since the specifications are the basis for selection of commercial hardware, a potential conflict of interest exists. Company A should be excluded from the initial follow-on information technology hardware acquisition.

(f) Company A receives a contract to define the detailed performance characteristics an agency will require for purchasing rocket fuels. Company A has not developed the particular fuels. When the definition contract is awarded, it is clear to both parties that the agency will use the performance characteristics arrived at to choose competitively a contractor to develop or produce the fuels. Company A may not be awarded this follow-on contract.

(g) Company A receives a contract to prepare a detailed plan for scientific and technical training of an agency's personnel. It suggests a curriculum that the agency endorses and incorporates in its request for proposals to institutions to establish and conduct the training. Company A may not be awarded a contract to conduct the training.

(h) Company A is selected to study the use of lasers in communications. The agency intends to ask that firms doing research in the field make proprietary information available to Company A. The contract must require Company A to—

(1) Enter into agreements with these firms to protect any proprietary information they provide; and

(2) Refrain from using the information in supplying lasers to the Government or for any purpose other than that for which it was intended.

(i) An agency that regulates an industry wishes to develop a system for evaluating and processing license applications. Contractor X helps develop the system and process the applications. Contractor X should be prohibited from acting as a consultant to any of the applicants during its period of performance and for a reasonable period thereafter.

This page intentionally left blank.

PART 10 - MARKET RESEARCH

This page intentionally left blank.

10.000 Scope of part.

This part prescribes minimum requirements for conducting market research before procuring supplies and services. See section 887 of Public Law 114-92(41 U.S.C. 1703 note), 41 U.S.C. 3306(a)(1), 41 U.S.C. 3307, and 10 U.S.C. 3453.

10.001 Market research requirements.

(a) Agencies must describe their legitimate needs.

(b) Agencies must conduct market research appropriate to the circumstances before—

(1) Developing new requirements documents;

(2) Soliciting offers for acquisitions with an estimated value over the simplified acquisition threshold; or

(3) Awarding a task or delivery order over the simplified acquisition threshold.

(c) Agencies should engage in responsible and constructive exchanges with industry. Agencies may use different strategies and methods to gather information, so long as they comply with existing law and regulation and do not provide an unfair competitive advantage to particular firms or violate the procurement integrity requirements (see 3.104).

(d) When conducting market research, agencies must not ask potential sources to submit more than the minimum information necessary to make the determinations required in paragraph (f).

(e) Agencies must document the results of market research in a manner that suits the acquisition’s size and complexity.

(f) Agencies must procure commercial products and commercial services to the maximum extent practicable. Using the results of market research, agencies will determine, in the following order of priority, whether—

(1) A commercial product or commercial service on an existing governmentwide contract can meet the agency's requirements;

(2) The requirements could be modified so the agency could use an existing governmentwide contract;

(3) A commercial product or commercial service is available from another source;

(4) A commercial product or commercial service could be modified to meet the agency's requirements; or

(5) The requirement can only be satisfied by a nondevelopmental item.

10.002 Clause.

The contracting officer must insert the clause at 52.210-1, Market Research, in solicitations and contracts for noncommercial acquisitions over $7.5 million. This policy was established in 10 U.S.C. 3453(c).

This page intentionally left blank.

PART 11 - DESCRIBING AGENCY NEEDS

This page intentionally left blank.

Subpart 11.1 - Preaward

11.100 Scope of part.

This part establishes standards for describing agency needs.

11.101 Definitions.

As used in this part-

Reconditioned means restored to the original normal operating condition by readjustments and material replacement.

Remanufactured means factory rebuilt to original specifications.

11.102 Policy.

(a) In fulfilling requirements of 10 U.S.C. 3206(a), 10 U.S.C. 3453, 41 U.S.C. 3306(a), and 41 U.S.C.3307, agencies shall —

(1) Specify needs using market research to–

(i) Promote full and open competition (see part 6), or maximum practicable competition when using simplified acquisition procedures, with due regard to the nature of the supplies or services to be acquired; and

(ii) Only include restrictive provisions to the extent necessary to satisfy the needs of the agency or as authorized by law.

(2) To the maximum extent practicable, ensure that acquisition officials-

(i) State requirements with respect to an acquisition of supplies or services in terms of-

(A) Functions to be performed;

(B) Performance required; or

(C) Essential physical characteristics;

(ii) Define requirements in terms that enable and encourage offerors to supply commercial products or commercial services or, to the extent that commercial products suitable to meet the agency's needs are not available, nondevelopmental items, in response to the agency solicitations;

(iii) Provide offerors of commercial products, commercial services, and nondevelopmental items an opportunity to compete in any acquisition to fill such requirements;

(iv) Require prime contractors and subcontractors at all tiers under the agency contracts to incorporate commercial products, commercial services, or nondevelopmental items as components of items supplied to the agency; and

(v) Modify requirements in appropriate cases to ensure that the requirements can be met by commercial products or commercial services or, to the extent that commercial products suitable to meet the agency's needs are not available, nondevelopmental items.

(b) The Metric Conversion Act of 1975, as amended by the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 205a, et seq.), designates the metric system of measurement as the preferred system of weights and measures for United States trade and commerce, unless such use is impracticable or is likely to cause significant inefficiencies or loss of markets to United States firms.

(c) To the extent practicable and consistent with subpart 9.5, potential offerors should be given an opportunity to comment on agency requirements or to recommend application and tailoring of requirements documents and alternative approaches. Requiring agencies should apply specifications, standards, and related documents initially for guidance only, making final decisions on the application and tailoring of these documents as a product of the design and development process. Requiring agencies should not dictate detailed design solutions prematurely (see 7.101 and 7.105(a)(8)).

(d) (1) Agencies shall procure sustainable products in accordance with subpart 23.1.

(2) Unless it is not practicable (see 23.102(a)) or an exception or exemption applies (see 23.105 and 23.106, respectively), agencies shall incorporate the use of sustainable products when—

(i) Developing, reviewing, or revising Federal and military specifications, product descriptions (including commercial item descriptions) and standards;

(ii) Describing Government requirements for products and services; and

(iii) Developing source-selection factors.

(e) Some or all of the performance levels or performance specifications in a solicitation may be identified as targets rather than as fixed or minimum requirements.

(f) In accordance with section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d), the contracting officer shall obtain from the requiring activity the requirement documents, which must identify—

(1) The needs of current and future users with disabilities to determine how–

(i) Users with disabilities will perform the functions supported by the information and communication technology (ICT);

(ii) The ICT will be developed, installed, configured and maintained to support users with disabilities;

(2) The applicable ICT accessibility standards (see subpart 39.2); and

(3) Any ICT accessibility standards that cannot be met due to an exception or an exemption for any component or portion of the product (see 7.105(b)(5)(iv), 39.204, and 39.205).

(g) Agencies shall not include in a solicitation a requirement that prohibits an offeror from allowing its employees to telecommute unless the contracting officer executes a written determination in accordance with FAR 7.108(a).

Subpart 11.2 - Selecting and Developing Requirements Documents

11.201 Voluntary consensus standards.

In accordance with OMB Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," and Section 12(d) of the National Technology Transfer and Advancement Act of 1995, Pub. L. 104-113 (15 U.S.C. 272 note), agencies must use voluntary consensus standards, when they exist, in lieu of Government-unique standards, except where inconsistent with law or otherwise impractical. The private sector manages and administers voluntary consensus standards. Such standards are not mandated by law (*e.g.*, industry standards such as ISO 9000, and IEEE 1680).

11.202 Standardization program.

Agencies shall select existing requirements documents or develop new requirements documents that meet the needs of the agency in accordance with the guidance contained in the Federal Standardization Manual, FSPM-0001; for DoD components, DoD Manual 4120.24, Defense Standardization Program (DSP) Procedures; and for IT standards and guidance, the Federal Information Processing Standards Publications (FIPS PUBS).

11.203 Market acceptance.

(a) 41 U.S.C. 3307(e) provides that, in accordance with agency procedures, the head of an agency may, under appropriate circumstances, require offerors to demonstrate that the items offered—

(1) Have either–

(i) Achieved commercial market acceptance; or

(ii) Been satisfactorily supplied to an agency under current or recent contracts for the same or similar requirements; and

(2) Otherwise meet the item description, specifications, or other criteria prescribed in the public notice and solicitation.

(b) In developing criteria for demonstrating that an item has achieved commercial market acceptance, the contracting officer shall ensure the criteria in the solicitation—

(1) Reflect the minimum need of the agency and are reasonably related to the demonstration of an item's acceptability to meet the agency's minimum need; and

(2) Consider the entire relevant commercial market, including small business concerns.

11.204 Items peculiar to one manufacturer.

Agency requirements shall not be written to require a particular brand name, product, or a feature of a product, peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, unless—

(a) (1) The particular brand name, product, or feature is essential to the Government's requirements, and market research indicates other companies' similar products, or products lacking the particular feature, do not meet the agency's needs or cannot be modified to meet the agency's minimum needs;

(2) (i) The authority to contract without providing for full and open competition is supported by the required justifications and approvals (see 6.302-1); or

(ii) The basis for not providing for maximum practicable competition is documented in the file (see 13.106-1(b)) or justified (see 13.501) when the acquisition is awarded using simplified acquisition procedures.

(3) The documentation or justification is posted for acquisitions over $25,000. (See 5.102(a)(6).)

(b) For multiple award schedule orders, see 8.405-6.

(c) For orders under indefinite-quantity contracts, see 16.505(a)(4).

This page intentionally left blank.

Subpart 11.3 - Acceptable Material

11.301 Policy.

(a) (1) When acquiring products other than commercial products as defined in 2.101, agencies must require offerors to identify used, reconditioned, or remanufactured supplies; or unused former Government surplus property proposed for use under the contract. These supplies or property may not be used in contract performance unless authorized by the contracting officer.

(2) When acquiring commercial products, the contracting officer must consider the customary practices in the industry for the product being acquired. The contracting officer may require offerors to provide information on used, reconditioned, or remanufactured supplies, or unused former Government surplus property proposed for use under the contract. The request for the information must be included in the solicitation, and to the maximum extent practicable must be limited to information or standards consistent with normal commercial practices.

(b) (1) When the contracting officer needs additional information to determine whether supplies meet minimum recovered material or biobased standards stated in the solicitation, the contracting officer may require offerors to submit additional information on the recycled or biobased content or related standards. The request for the information must be included in the solicitation. When acquiring commercial products, limit the information to the maximum extent practicable to that available under normal commercial practices.

(2) For biobased products, agencies may not require, as a condition of purchase of such products, the vendor or manufacturer to provide more data than would typically be provided by other business entities offering products for sale to the agency, other than data confirming the biobased content of a product (see 7 CFR 3201.8).

11.302 Contract clause.

Insert the clause at 52.211-5, Material Requirements, in solicitations and contracts for supplies that are not commercial products.

This page intentionally left blank.

Subpart 11.4 - Liquidated Damages

11.400 Scope.

(a) This subpart prescribes policies and procedures for using liquidated damages clauses in solicitations and contracts for supplies, services, research and development, and construction.

(b) This subpart does not apply to liquidated damages-

(1) For subcontracting plans (see 19.109);

(2) Related to the Contract Work Hours and Safety Standards statute (see subpart 22.3); or

(3) Related to paid sick leave for Federal contractors (see subpart 22.21).

11.401 Policy.

(a) The contracting officer must consider the potential impact on pricing, competition, and contract administration before using a liquidated damages clause. Use liquidated damages clauses only when—

(1) The time of delivery or timely performance is so important that the Government may reasonably expect to suffer damage if the delivery or performance is delinquent; and

(2) The extent or amount of such damage would be difficult or impossible to estimate accurately or prove.

(b) Liquidated damages are not punitive and are not negative performance incentives (see 16.403-2). Liquidated damages are used to compensate the Government for probable damages. Therefore, the liquidated damages rate must be a reasonable forecast of just compensation for the harm that is caused by late delivery or untimely performance of the particular contract. Use a maximum amount or a maximum period for assessing liquidated damages if these limits reflect the maximum probable damage to the Government. Also, the contracting officer may use more than one liquidated damages rate when the contracting officer expects the probable damage to the Government to change over the contract period of performance.

(c) The contracting officer must take all reasonable steps to mitigate liquidated damages. If the contract contains a liquidated damages clause and the contracting officer is considering terminating the contract for default, the contracting officer should seek expeditiously to obtain performance by the contractor or terminate the contract and repurchase (see subpart 49.4). Prompt contracting officer action will prevent excessive loss to defaulting contractors and protect the interests of the Government.

(d) The head of the agency may reduce or waive the amount of liquidated damages assessed under a contract, if the Commissioner, Financial Management Service, or designee approves (see Treasury Order 145-10).

11.402 Procedures.

(a) Include the applicable liquidated damages clause and liquidated damages rates in solicitations when the contract will contain liquidated damages provisions.

(b) Construction contracts with liquidated damages provisions must describe the rate(s) of liquidated damages assessed per day of delay. The rate(s) should include the estimated daily cost of Government inspection and superintendence. The rate(s) should also include an amount for other expected expenses associated with delayed completion such as—

(1) Renting substitute property; or

(2) Paying additional allowance for living quarters.

11.403 Contract clauses.

(a) Use the clause at 52.211-11, Liquidated Damages-Supplies, Services, or Research and Development, in fixed-price solicitations and contracts for supplies, services, or research and development when the contracting officer determines that liquidated damages are appropriate.

(b) Use the clause at 52.211-12, Liquidated Damages-Construction, in solicitations and contracts for construction, other than cost-plus-fixed-fee, when the contracting officer determines that liquidated damages are appropriate. If the contract specifies more than one completion date for separate parts or stages of the work, revise paragraph (a) of the clause to state the amount of liquidated damages for delay of each separate part or stage of the work.

(c) Use the clause at 52.211-13, Time Extensions, in solicitations and contracts for construction that use the clause at 52.211-12, Liquidated Damages-Construction, when that clause has been revised as provided in paragraph (b) of this section.

This page intentionally left blank.

Subpart 11.5 - Priorities and Allocations

11.500 Scope of subpart.

This subpart implements the Defense Priorities and Allocations System (DPAS), a Department of Commerce regulation in support of approved national defense, emergency preparedness, and energy programs (see 15 CFR part 700).

11.501 Definitions.

As used in this subpart—

Approved program means a program determined in writing as necessary or appropriate for priorities and allocations support to promote the national defense by the Secretary of Defense, the Secretary of Energy, or the Secretary of Homeland Security, under the authority of the Defense Production Act and Executive Order 13603, or the Selective Service Act and Executive Order 12742.

Delegate Agency means a Government agency authorized by delegation from the Department of Commerce to place priority ratings on contracts or orders needed to support approved programs.

National defense means programs for military and energy production or construction, military or critical infrastructure assistance to any foreign nation, homeland security, stockpiling, space, and any directly related activity. Such term includes emergency preparedness activities conducted pursuant to Title VI of The Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) and critical infrastructure protection and restoration.(50 U.S.C. 4552).

Rated order means a prime contract, a subcontract, or a purchase order in support of an approved program issued in accordance with the provisions of the DPAS regulation (15 CFR part 700).

11.502 General.

(a) Under Title I of the Defense Production Act of 1950 (50 U.S.C. 4501), the President is authorized to require preferential acceptance and performance of contracts and orders supporting certain approved national defense and energy programs and to allocate materials, services, and facilities in such a manner as to promote these approved programs.

(b) The President delegated the priorities and allocations authorities of the Defense Production Act in Executive Order 13603. As part of that delegation, the President designated the Secretary of Commerce to administer the DPAS. For more information, check the DPAS website at:https://www.bis.doc.gov/index.php/other-areas/strategic-industries-and-economic-security-sies/defense-priorities-a-allocations-system-program-dpas.

11.503 Procedures.

(a) There are two levels of priority for rated orders established by the DPAS, identified by the rating symbols “DO” and “DX”. All DO rated orders have equal priority with each other and take preference over unrated orders. All DX rated orders have equal priority with each other and take preference over DO rated and unrated orders (see 15 CFR 700.11). The DPAS regulation contains provisions concerning the elements of a rated order (see 15 CFR 700.12); acceptance and rejection of rated orders (see 15 CFR 700.13); preferential scheduling (see 15 CFR 700.14); extension of priority ratings (flowdown) (see 15 CFR 700.15); changes or cancellations of priority ratings and rated orders (see 15 CFR 700.16); use of rated orders (see 15 CFR 700.17); and limitations on placing rated orders (see 15 CFR 700.18).

(b) The Delegate Agencies have been given authority by the Department of Commerce to place rated orders in support of approved programs (see Schedule I of the DPAS). Other U.S. Government agencies, Canada, and foreign nations may apply for priority rating authority.

(c) Rated orders shall be placed in accordance with the provisions of the DPAS.

(d) Agency heads shall ensure compliance with the DPAS by contracting activities within their agencies.

(e) Agency heads shall provide contracting activities with specific guidance on the issuance of rated orders in support of approved agency programs, including the general limitations and jurisdictional limitations on placing rated orders (see 15 CFR 700.18 and Executive Order 13603).

(f) Contracting officers shall follow agency procedural instructions concerning the use of rated orders in support of approved agency programs.

(g) Contracting officers, contractors, or subcontractors at any tier, that experience difficulty placing rated orders, obtaining timely delivery under rated orders, locating a contractor or supplier to fill a rated order, ensuring that rated orders receive preferential treatment by contractors or suppliers, or require rating authority for items not automatically ratable under the DPAS, should promptly seek special priorities assistance in accordance with agency procedures (see 15 CFR 700.50—700.55 and 700.80).

(h) The Department of Commerce may take specific official actions (Ratings Authorizations, Directives, Letters of Understanding, Administrative Subpoenas, Demands for Information, and Inspection Authorizations) to implement or enforce the provisions of the DPAS (see 15 CFR 700.60-700.71).

(i) Contracting officers shall report promptly any violations of the DPAS in accordance with agency procedures to the Office of Strategic Industries and Economic Security, U.S. Department of Commerce, Room 3876, Washington, DC 20230, Ref: DPAS; telephone: (202) 482-3634 or email DPAS@bis.doc.gov.

11.504 Solicitation provision and contract clause.

(a) Contracting officers shall insert the provision at 52.211-14, Notice of Priority Rating for National Defense, Emergency Preparedness, and Energy Program Use, in solicitations when the contract to be awarded will be a rated order.

(b) Contracting officers shall insert the clause at 52.211-15, Defense Priority and Allocation Requirements, in contracts that are rated orders.

PART 12 - ACQUISITION OF COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES

This page intentionally left blank.

12.000 Scope.

This part provides policies and procedures to streamline the acquisition of commercial products, including commercially available off-the-shelf (COTS) items (a subset of commercial products), and commercial services in accordance with 41 U.S.C. 1906, 1907, and 3307 and 10 U.S.C. 3451-3453. It also implements the simplified procedures authorized by 41 U.S.C. 1901-1903, 1905, and 3305.

12.001 Applicability.

(a) Acquisitions of commercial products or commercial services are subject to other parts of the FAR. This part takes precedence when there is an inconsistency.

(b) Agencies may treat any acquisition of supplies or services that, as determined by the head of the agency, are to be used to facilitate defense against or recovery from cyber, nuclear, biological, chemical, or radiological attack, as an acquisition of commercial products or commercial services. However, if the contract is awarded on a sole-source basis for an amount greater than $25 million, the contract is not exempt from Cost Accounting Standards (CAS) (see 48 CFR chapter 99) or certified cost or pricing data requirements (see part 15).

(c) The $9 million ceiling for the use of simplified procedures (see 12.201-1) is increased to $15 million if the head of the agency determines that the supplies or services are to be used to—

(1) Support a contingency operation;

(2) Facilitate the defense against or recovery from cyber, nuclear, biological, chemical, or radiological attack (including acquisitions treated as commercial products or commercial services according to paragraph (b));

(3) Support a request from the Secretary of State or the Administrator of the United States Agency for International Development to facilitate provision of international disaster assistance; or

(4) Support response to an emergency or major disaster.

(d) Do not divide requirements, the aggregate value of which exceeds a threshold identified in this subpart, merely to permit use of a specific procedure.

(e) Go to https://www.acquisition.gov/inapplicablelaws for the lists of laws that do not apply to contracts for the acquisition of commercial products or commercial services, acquisitions of COTS items, and acquisitions valued at or below the simplified acquisition threshold (SAT) (41 U.S.C. 1905 through 1907).

Subpart 12.1 - Presolicitation

12.101 Preference.

(a) Agencies must acquire commercial products or commercial services when the agency determines that they are available to meet the agency's needs (see part 10).

(b) Require prime contractors and subcontractors at all tiers to incorporate, to the maximum extent practicable, commercial products, commercial services, or nondevelopmental items as components of items supplied to the agency.

12.102 Restricting competition.

Document decisions to restrict competition, including the use of brand-name descriptions without allowing for "equal" products, as follows:

(a) For acquisitions valued at or below the simplified acquisition threshold (SAT), document the decision that only one source is available and the basis for the decision.

(b) For acquisitions valued over the SAT, prepare a written justification and obtain approval of the justification as described in 6.104. Cite the following statutory authority, as applicable:

Table 12-1 — Authority citations for restricting competition.

Procedures	Value	Statutory authority
12.201-1, Simplified procedures	> SAT, ≤ $9 million	41 U.S.C. 1901
12.201-1, Simplified procedures, for acquisition described at 12.001(c)	> $9 million, ≤ $15 million	41 U.S.C. 1901 and 1903
12.201-2, Other procedures	> $9 million (> $15 million for acquisitions described at 12.001(c))	One of the statutory authorities cited in 6.103, as appropriate

12.103 Small business.

See part 19 for small business set-aside requirements. When the acquisition is set aside under any of the small business programs, include the North American Industry Classification System (NAICS) code and small business size standard in the solicitation.

12.104 Contract type.

(a) *Preference for fixed-price contracts*. To the maximum extent practicable, use firm-fixed-price or fixed-price with economic price adjustment contract types to procure commercial products or commercial services. Follow the procedures in part 16 to use these contract types.

(b) *Time-and-materials or labor-hour contracts*. A time-and-materials or labor-hour contract may be used for commercial services that are procured on a competitive basis, if the services are commonly sold to the general public using these types of contracts.

(1) To use this contract type, the contracting officer must—

(i) Execute a determination and findings (D&F) that a firm-fixed-price or fixed-price with economic price adjustment is not suitable; and

(ii) Include in the contract a ceiling price that the contractor exceeds at its own risk.

(2) Any increase to the ceiling price must be supported by a determination that doing so is in the best interest of the procuring agency.

(c) *Indefinite-delivery contracts*.

(1) Indefinite-delivery contracts may be used when—

(i) Prices are established based on a firm-fixed-price or fixed-price with economic price adjustment; or

(ii) Rates are established for commercial services acquired on a time-and-materials or labor-hour basis.

(2) If rates are established on a time-and-materials or labor-hour basis, then to the maximum extent practicable, structure the contract to allow issuance of orders on a firm-fixed-price or fixed-price with economic price adjustment basis.

(i) Orders placed on a time-and-materials or labor-hour basis are subject to the requirements in paragraph (b) of this section.

(ii) If the contract only allows for orders on a time-and-materials or labor-hour basis, the D&F described in paragraph (b)(1) of this section is required only for the basic contract. It must explain why providing for an alternative firm-fixed-price or fixed-price with economic price adjustment pricing structure for orders is not practicable, and an official one level above the contracting officer must approve it.

(d) *Prohibition on use of cost-reimbursement contracts*. Do not use any cost-reimbursement contract type to procure commercial products or commercial services.

12.105 Quality requirements.

(a) *Quality assurance*. To the maximum extent practicable, allow a contractor under a commercial products acquisition to use its existing quality assurance system to inspect or test commercial products before the contractor presents the products to the Government for acceptance. Rely on the contractor to accomplish all inspection and testing needed to ensure that commercial services conform to contract requirements before the contractor presents the services to the Government.

(b) *Warranties*. To the maximum extent practicable, take advantage of commercial warranties, including extended warranties, and use those warranties for the repair and replacement of commercial products and commercial services.

12.106 Technical data.

Presume that data delivered under a contract for commercial products was developed exclusively at private expense. Acquire only the technical data and the rights in that data customarily provided to the public with a commercial product or process. When a contract for commercial products requires the delivery of technical data, see part 27 for provisions and clauses to delineate rights in the technical data.

12.107 Computer software.

(a) Commercial computer software or commercial computer software documentation must be acquired under licenses customarily provided to the public to the extent such licenses are consistent with Federal law and otherwise satisfy the Government's needs. Generally, offerors and contractors must not be required to—

(1) Furnish technical information related to commercial computer software or commercial computer software documentation that is not customarily provided to the public; or

(2) Relinquish to, or otherwise provide, the Government rights to use, modify, reproduce, release, perform, display, or disclose commercial computer software or commercial computer software documentation except as mutually agreed to by the parties.

(b) With regard to commercial computer software and commercial computer software documentation, the Government should have only those rights specified in the license contained in any addendum to the contract. For additional guidance regarding the use and negotiation of license agreements for commercial computer software, see part 27.

12.108 Contract financing.

Government financing may be offered if buyer financing is a customary market practice for a commercial product or commercial service. See part 32 for contract financing policies and procedures.

12.109 Cost Accounting Standards.

CAS do not apply to contracts or subcontracts for the acquisition of commercial products or commercial services, except as provided in 12.001(c).

This page intentionally left blank.

Subpart 12.2 - Solicitation, Evaluation, and Award

12.200 Applicability.

(a) If commercial products or commercial services that meet agency needs are available from any priority source identified in part 8, including existing contracts awarded for Governmentwide use (e.g., the Federal Supply Schedules and Governmentwide acquisition contracts), procure the commercial products or commercial services from that source. If not, use the streamlined procedures for solicitation, evaluation, and award in this subpart.

(b) When using the procedures in this subpart to acquire construction, comply with the requirements in part 36 for construction contracts and subpart 22.4 on labor standards for contracts involving construction.

12.201 Solicitation procedures.

12.201-1 Simplified procedures.

(a) *Requirement*. For acquisitions valued up to $9 million, issue a request for quotations (RFQ) followed by a purchase order.

(b) *Legal effect of quotations*.

(1) Neither a quotation nor the purchase order issued by the Government in response to a quotation form a binding contract. The purchase order is the Government's offer to a supplier to buy certain products or services upon specified terms and conditions.

(2) A binding contract is formed when the supplier accepts the Government's offer, either by written acceptance of the purchase order or substantial performance of the purchase order. The contracting officer may request that the contractor provide written acceptance of the order.

(c) *Method*. To promote competition to the maximum extent practicable—

(1) Normally, post RFQs in the Governmentwide Point of Entry (GPE). Use the Standard Form (SF) SF 1449, Solicitation/Contract/Order for Commercial Products and Commercial Services; or SF 18, Request for Quotations; or similar agency form or automated format. For acquisitions greater than the SAT, combine the presolicitation notice and the RFQ according to 12.202(b).

(2) For acquisitions at or below the SAT, the contracting officer may choose to solicit quotations directly from suppliers. When soliciting directly-

(i) Post a presolicitation notice in the GPE according to subpart 5.1, unless an exception in 5.101(b) applies;

(ii) Solicit quotations from at least three sources; and

(iii) Whenever practicable, solicit quotations from two sources not included in the previous solicitation.

(d) *Innovation*. In line with 1.102, Guiding principles for the System, agencies are encouraged to use additional innovative approaches to the maximum extent practicable when soliciting quotations and issuing purchase orders to—

(1) Reduce administrative costs and lead time;

(2) Improve opportunities for small business concerns;

(3) Promote efficiency and economy in contracting; and

(4) Avoid unnecessary burdens for agencies and contractors.

(e) *Other flexibilities*. The following are examples of flexibilities that may be leveraged when using simplified procedures:

(1) *Standing price quotation*. Instead of soliciting new quotations for each purchase (see 12.201-1(c)(2)), a contracting officer may rely upon standing price quotations, as long as the contracting officer validates before award that the pricing is current and reasonable.

(2) *Unpriced purchase order*. An unpriced purchase order is an order for supplies or services, the price of which is not established at the time of issuance of the order.

(i) An unpriced purchase order may be used only when it is impractical to obtain pricing in advance of issuance of the purchase order. Examples of such situations include:

(A) Repairs to equipment requiring disassembly to determine the nature and extent of repairs;

(B) Material available from only one source and for which cost cannot readily be established; or

(C) Supplies or services for which prices are known to be competitive, but exact prices are not known (*e.g.*, miscellaneous repair parts, maintenance agreements).

(ii) When issuing an unpriced purchase order, include-

(A) A realistic monetary limitation (either for each line item or for the total order) that is an obligation subject to adjustment once a firm price is established; and

(B) The following statement:

This is a firm order ONLY if your price does not exceed the maximum line item or total price in the Schedule. Submit invoices to the Contracting Officer. If you cannot perform in exact accordance with this order, Withhold Performance, and notify the Contracting Officer immediately, giving your quotation.

(iii) Follow up on each order to ensure timely pricing. Review the invoice price and, if the price is reasonable (see 12.204(a)), process the invoice for payment.

(3) *Blanket purchase agreement*. A blanket purchase agreement (BPA) is a method of filling anticipated repetitive needs for supplies or services by establishing "charge accounts" with qualified sources of supply. The Government is only obligated to the extent that authorized orders are placed under BPAs.

(i) BPAs may be established with-

(A) More than one supplier for supplies or services of the same type to provide maximum practicable competition; or

(B) A single firm from which numerous individual purchases at or below the simplified acquisition threshold will likely be made in a given period.

(ii) If, for a particular purchase greater than the micro-purchase threshold, there is an insufficient number of BPAs to ensure maximum practicable competition, the contracting officer shall-

(A) Solicit quotations from other sources and make the purchase as appropriate; and

(B) If practical, establish additional BPAs to facilitate future purchases if recurring requirements for the same or similar supplies or services seem likely and qualified sources are willing to accept BPAs.

(iii) The existence of a BPA does not justify soliciting from only one source or avoiding small business set-asides. The requirements in 12.102 and 12.103 apply to each order under the BPA.

(iv) The BPA must include-

(A) A statement that the supplier will furnish supplies or services, described in general terms, if and when requested by authorized individuals during a specified period and within a stipulated aggregate amount, if any.

(B) A statement that the Government is obligated only to the extent of authorized purchases actually made under the BPA.

(C) The dollar limitation for each individual purchase under the BPA, which may not exceed the threshold for use of simplified procedures at 12.201-1(a) (including the increased threshold at 12.001(c).

(D) A list of individuals authorized to place orders or make purchases under the BPA.

(E) Information that must be included in delivery or shipment documentation.

(F) Instructions for proper invoicing under the BPA (e.g., process for periodic billings).

(G) Any clauses that may be applicable to purchases under the BPA (see 12.205(b)).

(v) Review BPAs at least annually to ensure that authorized procedures are being followed. Maintain awareness of changes in market conditions, sources of supply, and other pertinent factors that may warrant making new agreements with different suppliers or modifying existing agreements.

12.201-2 Other procedures.

For acquisitions valued at greater than $9 million, use the procedures in this subpart in conjunction with the procedures in part 15 for requests for proposals (RFPs) or part 14 for invitations for bids (IFBs), as appropriate. Use of an RFP is the preferred method because it includes consideration of past performance when evaluating offers (see 12.203(a)(2)).

12.202 Publicizing.

(a) Publicize in accordance with part 5.

(b) To reduce the time required to solicit and award contracts for acquisitions valued over the SAT, combine the presolicitation notice and solicitation notice required by part 5.

(1) *Format*. Select the “Combined Synopsis/Solicitation” format in the GPE, and include the following information:

(i) In the “Description” section, include the following statements:

This is a combined synopsis/solicitation for commercial products or commercial services prepared in accordance with part 12. This announcement constitutes the only solicitation. Offers are being requested and a separate written solicitation will not be issued.

Solicitation number [insert solicitation number] is issued as a *[insert request for quotation (RFQ), request for proposal (RFP), or invitation for bid (IFB)]* for *[provide a brief description of the requirement]*.

This acquisition *[is/is not]* set-aside for small business concerns. This solicitation incorporates provisions and clauses by reference. The full text of provisions and clauses may be accessed electronically at www.acquisition.gov.

[If applicable, insert a statement regarding the Defense Priorities and Allocations System (DPAS) and assigned rating.]

(ii) A list of line-item number(s) and items, quantities, and units of measure (including option(s), if applicable).

(iii) Description of requirements for the items to be acquired, including documentation supporting any brand name descriptions (see 12.102).

(iv) Date(s) and place(s) of delivery and acceptance and f.o.b. point (see part 47).

(v) A list of solicitation provisions that apply to the acquisition (see 12.205(a)).

(vi) A list of contract clauses that apply to the acquisition (see 12.205(b)).

(vii) The date, time, and place for receipt of offer and point of contact.

(viii) Any other additional information required by 5.101(c).

(2) *Response times*. Set a response time that gives offerors a reasonable opportunity to respond, unless the acquisition is subject to the minimum time period for acquisitions covered by the World Trade Organization Government Procurement Agreement or a Free Trade Agreement (see subpart 5.2 and part 25).

12.203 Evaluation.

(a) Factors. For most acquisitions of commercial products or commercial services, evaluation factors need not be more detailed than technical (capability of the products or services offered to meet the agency's needs), price, and past performance.

(1) Technical. Evaluate technical based on how well the proposed products or services meet the Government's requirement. Predetermined subfactors are not required.

(2) Past performance. Past performance should be an important evaluation factor for award. Consider past performance information from a wide variety of sources both inside and outside the Government. This may include reviewing performance information reported to the Contractor Performance Assessment Reporting System, as well as other sources of information. For some commercial products or services, such as emerging technology, this should include consideration of commercial market experience. Contracting officers may consider an offeror's experience as a subcontractor.

(3) Price. Evaluate prices inclusive of transportation charges from the shipping point of the supplier to the delivery destination. Obtain prompt payment discounts to the maximum extent practicable, but do not include such discounts when evaluating the prices of quotations or offers.

(b) Basis for award. In the solicitation, notify potential quoters or offerors of the basis on which the agency will make the award decision. See 12.205(a)(2) on use of the solicitation provision at 52.212-2 for this purpose.

(c) Evaluation process. Ensure that quotations and offers can be evaluated in an efficient and minimally burdensome fashion.

(1) Timely quotations and offers. Consider all quotations or offers that are timely received. Exercise good business judgment in deciding whether or not to accept a quotation or offer received after the due date or time (see 52.212-1(c)).

(2) Quotations. The contracting officer has broad discretion in establishing how quotations will be evaluated. For example, the contracting officer may perform a comparative evaluation of quotations. The evaluation procedures are not subject to part 15 or 14. Contracting officers are not required to have evaluation plans, score quotations, or establish a competitive range before communicating with quoters or soliciting revised quotations.

(3) Offers. Follow the procedures in part 15 when evaluating proposals and the procedures in part 14 when opening bids. When using the procedures in part 15, do so in conjunction with the procedures in this section. Follow the procedures in part 36 when acquiring construction as a commercial service.

12.204 Award.

(a) *Price reasonableness*. The contracting officer must determine the price to be fair and reasonable. Whenever possible, base price reasonableness on competitive quotations or offers. For offers using the procedures in 12.201-2, see parts 15 and 14 for additional documentation requirements.

(b) *Documentation*.

(1) When using simplified procedures (see 12.201-1), include in the contract file a written description of the procedures used in awarding the contract and the number of quotations received.

(2) When using other procedures (see 12.201-2), document the award as required by part 15 or 14, as applicable.

(c) *Forms and format*. Agencies may use the following standard and optional forms or a similar agency form or automated format that conforms with the form to the maximum extent practicable.

(1) *Issuing purchase orders*. Issue purchase orders or blanket purchase agreement orders on the SF 1449 or the Optional Form (OF) 347, Order for Supplies or Services, and the OF 336, Continuation Sheet.

(2) *Awarding contracts*. Use the SF 1449 or the forms prescribed in part 14, 15, or 36, as applicable, when awarding contracts using the procedures in those parts. Use the Uniform Contract Format, but complete only those sections that are necessary.

12.205 Solicitation provisions and contract clauses.

(a) *Required provisions*.

(1) Include the provision at 52.212-1, Instructions to Offerors—Commercial Products and Commercial Services, in solicitations for commercial products and commercial services. This provision may be tailored to reflect customary commercial practice, except the paragraph on Debriefings, which is required by statute.

(2) Include the provision at 52.212-2, Evaluation—Commercial Products and Commercial Services, when using the procedures in 12.201-2. This provision may also be used when using the simplified procedures at 12.201-1. This provision should be tailored for the acquisition and must include all evaluation factors and criteria for award.

(3) Include the following provisions, if applicable based on the provision prescription:

Table 12-2 — Provisions to include as prescribed.

Number	Title	Source
52.203-11	Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions	Statute
52.203-18	Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements-Representation	Statute
52.204-7	System for Award Management—Registration	Statute
52.204-7 with Alt I	System for Award Management—Registration, with Alternate I	Statute
52.204-90	Offeror Identification	Statute
52.207-6	Solicitation of Offers from Small Business Concerns and Small Business Teaming Arrangements or Joint Ventures (Multiple-Award Contracts)	Statute
52.209-12	Certification Regarding Tax Matters	Statute
52.219-2	Equal Low Bids	Statute
52.222-18	Certification Regarding Knowledge of Child Labor for Listed End Products	E.O.
52.222-48	Exemption from Application of the Service Contract Labor Standards for Maintenance, Calibration, or Repair of Certain Equipment–Certification	Other
52.222-52	Exemption from Application of the Service Contract Labor Standards for Certain Services-Certification	Other

Number	Title	Source
52.222-56	Certification Regarding Trafficking in Persons Compliance Plan	Statute
52.223-4	Recovered Material Certification	Statute
52.225-2	Buy American Certificate	Statute
52.225-4	Buy American-Free Trade Agreements-Israeli Trade Act Certificate	Statute
52.225-6	Trade Agreements-Certificate	Statute
52.225-20	Prohibition on Conducting Restricted Business Operations in Sudan-Certification	Statute
52.225-25	Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran-Representation and Certifications	Statute

52.229-11	Tax on Certain Foreign Procurements—Notice and Representation	Statute
52.240-90	Security Prohibitions and Exclusions Representations and Certifications	Statute

(4) The solicitation provision at 52.204-90 is used in lieu of the solicitation provision at 52.204-7 if the solicitation will not require offerors to be registered in the System for Award Management (see policy at 4.203-2). When 52.204-90 is used, also include the individual provisions listed in paragraph (c)(1) of 52.204-7, System for Award Management—Registration, in the solicitation as applicable based on the provision prescriptions (see 4.208(c)).

(b) *Required clauses*.

(1) Include the clause at 52.212-4, Terms and Conditions—Commercial Products and Commercial Services, in solicitations and contracts for commercial products and commercial services.

(i) Use the clause with its Alternate I when expecting to award a time-and-materials or labor-hour contract or when expecting that orders will include time-and-material line items.

(ii) This clause may be tailored to reflect customary commercial practice, with the exception of the following paragraphs that implement statute: Assignments, Disputes, Payment, Invoice, Compliance with laws unique to Government contracts, Unauthorized obligations, and Comptroller General examination of records.

(iii) Remove the paragraph on Comptroller General examination of records if the agency head has waived this requirement according to the procedures for waivers of right to examination of records in part 25.

(2) Include the clauses in the following table in solicitations and contracts, if applicable based on the clause prescription:

Table 12-3 — Clauses to include as prescribed.

(c) *Discretionary*. Include the following provisions and clauses, as needed:

Table 12-4 — Provisions and clauses to include as needed.

Part	Provisions and clauses prescribed for use…
16	In certain contract types (see 12.104)
17	When including options
27	When necessary to delineate rights in certain types of data (see 12.106)
36	In construction contracts
45	When the contractor will use Government property in performance of the contract

(d) *Waivers and deviations*.

(1) *Waivers*. Agencies may waive or tailor provisions and clauses authorized for use in acquisitions for commercial products or commercial services if—

(i) The provision or clause does not implement statute or Executive order;

(ii) The contracting officer determines the content to be inconsistent with customary commercial practice; and

(iii) (A) For individual acquisitions, the head of the contracting activity approves the waiver or tailoring; or

(B) For a class of acquisitions, the senior procurement executive approves the waiver or tailoring.

(2) *Deviations*.

(i) Do not include other provisions or clauses in solicitation or contract for commercial products or commercial services, unless the agency issues an individual or class deviation according to part 1.

(ii) A deviation is not required when an agency supplement to the FAR directs that the contracting officer include a provision or clause in acquisitions of commercial products or commercial services.

(3) *Notifications*. Provide copies of approved class waivers or tailoring or class deviations to the Chair of the Civilian Agency Acquisition Council (for civilian agencies) or the Director of the Defense Acquisition Regulations System (for defense departments and agencies).

Subpart 12.3 - Postaward

12.301 Notifications.

(a) *Posting requirements*.

(1) Comply with the award notice posting requirements in subpart 5.3.

(2) Make the justifications required by 12.102(b) for acquisitions valued over the SAT publicly available in accordance with 6.301.

(b) Explanations for unsuccessful quoters. When using the simplified procedures at 12.201-1, upon request, provide a brief explanation of the award decision that explains why the unsuccessful quoter was not selected. If an award notice was not required to be posted to the GPE, also provide the information that would be included in an award notice (see 5.301(c)).

(c) Notifications and debriefings of unsuccessful offerors. When using the procedures in 12.201-2, follow the procedures in part 15 or 14 for notification of unsuccessful offerors and debriefings, as appropriate. When providing a debriefing, include the information listed at 52.212-1(e).

12.302 Subcontracts.

See requirements for subcontracts for commercial products and commercial services in part 44.

12.303 Cancellations.

(a) The Government may withdraw, amend, or cancel purchase orders by written notice to the supplier at any time before acceptance of the order occurs (see 12.201-1(b)).

(b) If the supplier did not accept the purchase order in writing, request that the supplier provide written acceptance of the cancellation.

(c) If the contractor does not accept the cancellation or claims that costs were incurred as a result of the contractor beginning performance under the purchase order, follow the procedures at 12.304 to terminate the purchase order.

12.304 Terminations.

(a) General. Follow the procedures in this section and the termination paragraphs of the clause at 52.212-4, when terminating contracts for commercial products or commercial services. Do not use the procedures in part 49.

(b) *Termination for cause*.

(1) Before terminating a contract for cause, send a cure notice to the contractor, unless the reason for the termination is late delivery.

(2) When a termination for cause is appropriate, send the contractor a written notification regarding the termination. At a minimum, this notification must include—

(i) A statement that the contract is terminated for cause;

(ii) The reasons for the termination;

(iii) Which remedies the Government intends to seek or give a date by which the Government will inform the contractor of the remedy; and

(iv) A statement that the notice constitutes a final decision of the contracting officer, and that the contractor has the right to appeal under the Disputes clause.

(3) Follow the procedures in part 42 to report termination information to the Federal Awardee Performance and Integrity Information System.

(c) Termination for the Government's convenience. When terminating for the Government's convenience, the parties should mutually agree upon the requirements of the termination proposal. Balance the Government's need to obtain sufficient documentation to support payment to the contractor against the goal of having a simple and expeditious settlement.

This page intentionally left blank.

Subpart 12.4 - Micro-purchases

12.401 General.

(a) Agency heads are encouraged to delegate micro-purchase authority (see part 1).

(b) Micro-purchases do not require written provisions or clauses. This paragraph takes precedence over any other FAR requirement to the contrary but does not prohibit the use of any clause.

(c) The security prohibitions and exclusions addressed at subpart 40.2 apply to micro-purchases, unless an exception applies or waiver is granted according to that subpart. However, the provisions and clauses in that subpart are not used for micro-purchases.

(d) Paragraph (s) , Unauthorized Obligations, of the clause at 52.212-4, Terms and Conditions—Commercial Products and Commercial Services, automatically applies to any micro-purchase, including those made with the Governmentwide commercial purchase card. This clause prevents violations of the Anti-Deficiency Act (31 U.S.C. 1341).

12.402 Purchase guidelines.

(a) To the extent practicable, distribute micro-purchases equitably among qualified suppliers.

(b) Micro-purchases may be awarded without soliciting competitive quotations if the contracting officer or individual appointed in accordance with 1.403-2(b) considers the price to be reasonable.

(c) The administrative cost of verifying the reasonableness of the price for purchases may more than offset potential savings from detecting instances of overpricing. Therefore, action to verify price reasonableness need only be taken if there is —

(1) A lack of understanding of competitive pricing; or

(2) Reason to suspect that a price is not reasonable.

(d) If the contracting officer solicited competitive quotations and made award to a supplier that did not provide the lowest quote, documentation of the award must include identification of the suppliers solicited and a brief explanation of the award decision.

12.403 Methods.

(a) Use the following methods as the primary means of making micro-purchases:

(1) *The Governmentwide commercial purchase card*. The Governmentwide commercial purchase card is authorized for use in making purchases of supplies, services, or construction. Contracting officers and other individuals designated according to part 1 may use the Governmentwide commercial purchase card. The card may be used only for purchases authorized by law or regulation.

(2) *Purchase orders*. Purchase orders (including orders against blanket purchase agreements) may be used to make micro-purchases. See 12.203(d)(1).

(b) The SF 44, Purchase Order-Invoice-Voucher, is a multipurpose pocket-size purchase order form designed primarily for on-the-spot, over-the-counter purchases of supplies and nonpersonal services while away from the purchasing office or at isolated activities. Contracting officers may use it in limited circumstances and only when advantageous to the Government if all of the following conditions are satisfied:

(1) An agency authorizes use of the SF 44.

(2) The amount of the purchase is at or below the micro-purchase threshold or higher dollar thresholds established by an agency for purchases made under unusual and compelling urgency or in support of contingency operations.

(3) The supplies or services are immediately available, and one delivery and one payment will be made.

(4) Its use is determined to be more economical and efficient than use of the Governmentwide commercial purchase card.

(c) Imprest funds and third-party drafts may be used to acquire supplies or services if an agency receives authorization from the Department of Treasury to use these methods and the purchases are made in accordance with Part IV of the Treasury Financial Manual for Guidance of Departments and Agencies. An imprest fund transaction shall not exceed $500 or such other limits as have been approved by the agency head. A third-party draft transaction shall not exceed $2,500, unless authorized at a higher level in accordance with Treasury restrictions.

This page intentionally left blank.

PART 13 - SIMPLIFIED PROCEDURES FOR NONCOMMERCIAL ACQUISITIONS

This page intentionally left blank.

13.000 Scope of part.

This part implements simplified procedures for the acquisition of noncommercial products and services valued at or below the simplified acquisition threshold (SAT) in accordance with 41 U.S.C. 1901-1903, 1905, and 3305.

13.001 Applicability.

(a) The procedures in this part may be used only if—

(1) There are no commercial products or commercial services that can satisfy the agency's needs (see part 12); and

(2) The supplies or services are not available from a required source (see part 8).

(b) Follow the procedures in this part when procuring noncommercial products and services valued at greater than the micro-purchase threshold (MPT) but at or below the SAT, except

(1) When procuring architect-engineering services, follow the short selection process at 36.602-5;

(2) When procuring construction as a noncommercial service, comply with the requirements in part 36 for construction contracts and subpart 22.4 on labor standards for contracts involving construction; and

(3) When procuring research and development, use the procedures in this part in conjunction with the procedures in part 35, as appropriate.

(c) Do not divide requirements, the aggregate value of which exceeds the SAT, merely to permit use of the procedures in this part.

(d) Go to https://www.acquisition.gov/inapplicablelaws for the lists of laws that do not apply to acquisitions valued at or below the SAT (41 U.S.C. 1905).

Subpart 13.1 - Presolicitation

13.101 Competition.

(a) Agencies must promote competition to the maximum extent practicable when procuring noncommercial products and services valued at or below the SAT.

(b) Contracting officers may solicit from a single source based on a determination and findings (see subpart 1.5) that only one source is reasonably available (e.g., urgency, exclusive licensing agreements, brand-name or industrial mobilization).

13.102 Small business.

Acquisitions of supplies or services that have an anticipated dollar value above the MPT, but at or below the SAT, must be set aside for small business concerns (see part 19).

13.103 Quality assurance

Generally, inspection and acceptance should be at destination. Inspection at the supplier's location should be specified only if required by 46.404.

This page intentionally left blank.

Subpart 13.2 - Solicitation, Evaluation, and Award

13.201 Procedures.

Follow the simplified procedures at 12.201-1 for issuing requests for quotations (RFQs). Agencies are encouraged to use additional innovative approaches and may leverage the other flexibilities identified in that section; however, if using blanket purchase agreements (BPAs), the maximum value of each individual purchase under a BPA may not exceed the SAT.

13.202 Evaluation.

Follow the procedures in 12.203 when establishing evaluation factors and a process to evaluate quotations in an efficient and minimally burdensome manner. Notify potential quoters of the basis on which the agency will make the award decision. Exercise good business judgment in deciding whether or not to accept a quotation received after the due date or time.

13.203 Award.

(a) *Price reasonableness*. The contracting officer must determine the price to be fair and reasonable. Whenever possible, base price reasonableness on competitive quotations.

(b) *Documentation*. Include in the contract file a written description of the procedures used in awarding the purchase order and the number of quotations received.

(c) *Forms and format*. Use the Optional Form (OF) 347, Order for Supplies or Services; the OF 336, Continuation Sheet, or OF 348, Order for Supplies and Services Schedule—Continuation; or similar agency forms or automated formats to the maximum extent practicable.

13.204 Contract clauses.

(a) Include clauses prescribed elsewhere in the FAR in purchase orders for noncommercial supplies or services valued at or below the SAT as required or applicable based on the clause prescriptions.

(b) Contracting officers may use the clause at 52.213-4, Terms and Conditions—Simplified Acquisitions (Noncommercial), to provide a streamlined set of terms and conditions for inspection/acceptance, excusable delays, terminations, and warranties. This clause is either used in lieu of similar clauses prescribed for these purposes or tailored to incorporate only some of the streamlined terms and conditions, as necessary.

(c) Do not use part 12 clauses (*i.e.*, 52.212-1, 52.212-2, or 52.212-4) in noncommercial acquisitions.

This page intentionally left blank.

Subpart 13.3 - Postaward

13.301 Notifications.

Comply with the award notice posting requirements in subpart 5.3. Upon request, provide a brief explanation of the award decision that explains why the unsuccessful quoter was not selected. If an award notice was not required to be posted to the Government point of entry, also provide the information that would be included in an award notice (see 5.301(c)).

13.302 Cancellations and terminations.

(a) The Government may withdraw, amend, or cancel purchase orders by written notice to the supplier at any time before acceptance of the order occurs (see 12.201-1(b)).

(b) If the supplier did not accept the purchase order in writing, request that the supplier provide written acceptance of the cancellation.

(c) If the contractor does not accept the cancellation or claims that costs were incurred as a result of the contractor beginning performance under the purchase order, follow the procedures in part 49 or 52.213-4 to terminate the purchase order.

13.303 Contract financing and payments.

(a) Unless agency regulations permit otherwise, do not provide financing for purchases valued at or below the SAT.

(b) See part 32 for payment procedures, including the option to use fast payment procedures.

This page intentionally left blank.

Subpart 13.4 - Micro-purchases

13.401 General.

(a) Follow the procedure in 12.4 when making purchases valued at or below the MPT.

(b) While micro-purchases do not require written provision or clauses, the clause at 52.232-39, Unenforceability of Unauthorized Obligations, automatically applies to any micro-purchase, including those made with the Governmentwide commercial purchase card. This clause prevents violations of the Anti-Deficiency Act (31 U.S.C. 1341).

This page intentionally left blank.

PART 14 - SEALED BIDDING

This page intentionally left blank.

14.000 Scope of part.

This part prescribes (a) the basic requirements of contracting for supplies and services (including construction) by sealed bidding, (b) the information to be included in the invitation for bids (IFB), (c) procedures concerning the submission of bids, (d) requirements for opening, evaluating bids, awarding contracts, and (e) procedures for two-step sealed bidding.

Subpart 14.1 - General

(a) Sealed bidding is a method of contracting that employs competitive bids, public opening of bids, and awards.

(b) Use sealed bidding whenever the conditions in 6.101(b) are met.

(c) The contracting officer must use firm-fixed-price contracts when using sealed bidding or fixed-price contracts with economic price adjustment clauses when some flexibility is necessary and feasible.

This page intentionally left blank.

Subpart 14.2 - Presolicitation

14.201 Preparation of invitations for bids.

14.201-1 Format.

(a) Contracting officers must prepare invitation for bids and contracts using parts I, II, III, and IV of the uniform contract format (see part 15) to the maximum practicable extent.

(b) The uniform contract format is not required when contracting for—

(1) Construction (see part 36);

(2) Shipbuilding (including design, construction, and conversion), ship overhaul, and ship repair;

(3) Subsistence items;

(4) Supplies or services requiring special contract forms prescribed elsewhere in this regulation that are inconsistent with the uniform contract format; or

(5) Firm-fixed-price or fixed-price with economic price adjustment acquisitions that use the simplified contract format.

(c) (1) The contracting officer may use the simplified contract format in lieu of the uniform contract format.

(2) The contracting officer has flexibility in preparation and organization of the simplified contract format. The following format should be used to the maximum extent practical:

(i) Use Standard Form (SF) 1447, Solicitation/Contract, as the first page of the IFB.

(ii) Include the following for each line item:

(A) Line item number.

(B) Description of supplies or services, or data sufficient to identify the requirement.

(C) Quantity and unit of issue.

(D) Unit price and amount.

(E) Packaging and marking requirements.

(F) Inspection and acceptance, quality assurance, and reliability requirements.

(G) Place of delivery, performance and delivery dates, period of performance, and f.o.b. point.

(H) Other item-peculiar information as necessary (e.g., individual fund citations).

(iii) Include the clauses required by this regulation. Additional clauses must be incorporated only when necessary to the particular acquisition.

(iv) List of documents and attachments (include if necessary).

(v) Representations and instructions:

(A) Insert the IFB provisions that require representations, certifications, or the submission of other information by offerors.

(B) Insert the IFB provisions required by 14.207. Include any other information/instructions necessary to guide offerors.

(C) Insert all price related evaluation factors and any significant price related subfactors for award.

(D) Upon award, the contracting officer must retain the representations and instructions in the contract file.

14.202 Uniform contract format.

14.202-1 Part I Schedule.

The contracting officer must prepare the Schedule as follows:

(a) *Section A, Solicitation/contract form*. (1) For sealed bidding the SF 33 or the SF 1447 may be used. When the SF 1447 is used as the IFB document, insert the information in subdivisions (a)(2)(i) and (a)(2)(iv) of this section in block 9 of the SF 1447.

(2) If the SF 33 or the SF 1447 are not used, include the following on the first page of the invitation for bids:

(i) Name, address, and location of issuing activity, including room and building where bids must be submitted.

(ii) Invitation for bids number.

(iii) Date of issuance.

(iv) Time specified for receipt of bids.

(v) Number of pages.

(vi) Requisition or other purchase authority.

(vii) Requirement for a bidder to provide its name and complete address, including street, city, county, State, and ZIP code.

(viii) A statement that bidders should include in the bid the address to which payment should be mailed, if that address is different from that of the bidder.

(b) *Section B, Supplies or services and prices*.

(1) See 15.108-1(b)

(2) Optional Form 336 (OF 336), Continuation Sheet, may be used.

(c) Section C, Description/specifications. (see 15.108-1(c)).

(d) Section D, Packaging and marking (see 15.108-1(d)).

(e) Section E, Inspection and acceptance (see 15.108-1(e)).

(f) Section F, Deliveries or performance (see 15.108-1(f)).

(g) Section G, Contract administration data (see 15.108-1(g)).

(h) Section H, Special contract requirements (see 15.108-1(h)).

14.202-2 Part II Contract clauses.

Section I, Contract clauses (see 15.108-2).

14.202-3 Part III Documents, exhibits, and other attachments.

Section J, List of documents, exhibits, and other attachments (see 15.108-3).

14.202-4 Part IV Representations and instructions.

The contracting officer must prepare the representations and instructions as follows:

(a) Section K, Representations, certifications, and other statements of bidders (see 15.108-4(a)).

(b) Section L, Instructions, conditions, and notices to bidders (see 15.108-4(b)). The contracting officer must include the time and place for bid openings.

(c) Section M, Evaluation factors for award (see 15.108-4(c)).

14.203 Requirements.

(a) An IFB must clearly, accurately, and completely describe the Government requirements.

(b) Restrictive specifications or requirements that might unduly limit the number of bidders are prohibited.

(c) Include all documents and information (whether attached or incorporated by reference) prospective bidders will need for the purpose of bidding.

(d) The contracting officer must state in the invitation for bids that bids will be evaluated without discussions (see 52.214-10 and, for construction contracts, 52.214-19).

(e) When considering establishing qualification requirements, see and follow subpart 9.2.

14.204 Economic purchase quantities (supplies).

Contracting officers must comply with the economic purchase quantity planning requirements for supplies in part 7. See part 7 for instructions regarding use of the provision at 52.207-4, Economic Purchase Quantity—Supplies, and for guidance on handling responses to that provision.

14.205 Bid samples.

(a) The contracting officer must not require bidders to furnish bid samples unless—

(1) Characteristics of the product cannot be described adequately in the specification or purchase description;

(2) Necessary to determine the responsiveness of the bid. Do not use samples to determine a bidder's ability to produce the required items; and

(3) Products must be suitable from the standpoint of balance, facility of use, general “feel”, color, pattern, or other characteristics that cannot be described adequately in the specification.

(b) If the contracting officer requires bid samples, the IFB must state—

(1) The number and, if appropriate, size, and description of the bid samples required; and

(2) List all the characteristics for which the bid samples will be examined.

(c) (1) Contracting officers may waive bid sample requirements when a bidder offers a product previously or currently contracted for or tested by the Government and found to comply with specification requirements conforming in every material respect with those in the current invitation for bids. (See 14.207(j)(2)).

(2) Where samples required by a Federal, Military, or other formal specification are not considered necessary and a waiver of the sample requirements of the specification is, include a statement in the invitation that notwithstanding the requirements of the specification, samples are not required.

(d) Bid samples furnished with a bid that are not required by the invitation generally will not be considered as qualifying the bid and will be disregarded. However, the bid sample will not be disregarded if it is clear from the bid or accompanying papers that the bidder's intention was to qualify the bid. If the qualification does not conform to the IFB, see 14.306-3(d).

(e) (1) Return samples that are not destroyed in testing to bidders at their request and expense, unless otherwise specified in the invitation.

(2) Request disposition instructions from bidders.

(3) Samples are ordinarily returned collect to the address from which received if disposition instructions are not received within 30 days. Small items may be returned by mail, postage prepaid.

(4) Transmit samples that are intended for inspection purposes in connection with deliveries to the inspecting activity concerned, with instructions to retain the sample until completion of the contract or until disposition instructions are furnished.

(5) Where samples are consumed or their usefulness is impaired by tests, dispose as scrap unless the bidder requests their return.

14.206 Descriptive literature.

(a) Contracting officers must not require bidders to furnish descriptive literature unless it is needed before award to determine whether the products offered meet the specification and to establish exactly what the bidder proposes to furnish.

(b) The contracting officer must document in the contract file the justification why product acceptability cannot be determined without the submission of descriptive literature, except when the contract specifications require submission.

(c) (1) If the invitation will require descriptive literature, the IFB must clearly state—

(i) What descriptive literature the bidders must furnish;

(ii) The purpose for requiring the literature;

(iii) The extent of its consideration in the evaluation of bids; and

(iv) The rules that will apply if a bidder fails to furnish the literature before bid opening or if the literature provided does not comply with the requirements of the invitation.

(2) If bidders must furnish descriptive literature, see 14.207(k).

(d) (1) The contracting officer may waive the requirement for descriptive literature if—

(i) The bidder states in the bid that the product being offered is the same as a product previously or currently being furnished to the contracting activity; and

(ii) The contracting officer determines that the product offered complies with the specification requirements of the current invitation for bids. When the contracting officer waives the requirement, see 14.207(k)(2).

(2) When descriptive literature is not necessary and a waiver of literature requirements of a specification has been authorized, the contracting officer must include a statement in the invitation that, despite the requirements of the specifications, descriptive literature is not required.

(3) If the IFB provides for a waiver, a bidder may submit a bid on the basis of either the descriptive literature furnished with the bid or a previously furnished product. If the bid is submitted on one basis, the bidder may not have it considered on the other basis after bids are opened.

(e) If descriptive literature is furnished when it is not required by the invitation for bids, follow the procedures at 14.205(d).

14.207 Solicitation Provisions.

(a) The provisions prescribed in this section apply to preparation and submission of bids in general. See other FAR parts for provisions and clauses related to specific acquisition requirements.

(b) Insert in all invitations for bids the provisions at—

(1) 52.214-3, Amendments to Invitations for Bids; and

(2) 52.214-4, False Statements in Bids.

(3) 52.214-5, Submission of Bids.

(4) 52.214-6, Explanation to Prospective Bidders.

(5) 52.214-7, Late Submissions, Modifications, and Withdrawals of Bids.

(c) Insert in all invitations for bids, except those for construction, the provision at 52.214-10, Contract Award-Sealed Bidding.

(d) Insert in invitations for bids to which the uniform contract format applies, the provision at 52.214-12, Preparation of Bids.

(e) Insert the provision at 52.214-14, Place of Performance—Sealed Bidding, in invitations for bids except those in which the place of performance is specified by the Government.

(f) Insert the provision at 52.214-15, Period for Acceptance of Bids, in invitations for bids (IFB's) that are not issued on SF 33 or SF 1447 except IFB's—

(1) For construction work or

(2) In which the Government specifies a minimum acceptance period.

(g) Insert the provision at 52.214-16, Minimum Bid Acceptance Period, in invitations for bids, except for construction, if the contracting officer determines that a minimum acceptance period must be specified.

(h) Insert the provision at 52.214-18, Preparation of Bids—Construction, in invitations for bids for construction work.

(i) Insert the provision at 52.214-19, Contract Award—Sealed Bidding—Construction, in all invitations for bids for construction work.

(j) (1) Insert the provision at 52.214-20, Bid Samples, in invitations for bids if bid samples are required.

(2) If it appears that the conditions in 14.205(c)(1) will apply and the contracting officer anticipates granting waivers and—

(i) If the nature of the required product does not necessitate limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, use the provision with its Alternate I; or

(ii) If the nature of the required product necessitates limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, use the provision with its Alternate II.

(3) See 14.205(c)(2) regarding waiving the requirement for all bidders.

(k) (1) Insert the provision at 52.214-21, Descriptive Literature, in invitations for bids if—

(i) Descriptive literature is required to evaluate the technical acceptability of an offered product and

(ii) The required information will not be readily available unless it is submitted by bidders.

(2) Use the basic clause with its Alternate I if the possibility exists that the contracting officer may waive the requirement for furnishing descriptive literature for a bidder offering a previously supplied product that meets specification requirements of the current IFB.

(3) See 14.206(d)(2) regarding waiving the requirement for all bidders.

(l) Insert the provision at 52.214-22, Evaluation of Bids for Multiple Awards, in invitations for bids if the contracting officer determines that multiple awards might be made if doing so is economically advantageous to the Government.

(m) Insert the provision at 52.214-23, Late Submissions, Modifications, Revisions, and Withdrawals of Technical Proposals under Two-Step Sealed Bidding, in solicitations for technical proposals in step one of two-step sealed bidding.

(n) Insert the provision at 52.214-24, Multiple Technical Proposals, in solicitations for technical proposals in step one of two-step sealed bidding if the contracting officer permits the submission of multiple technical proposals.

(o) Insert the provision at 52.214-25, Step Two of Two-Step Sealed Bidding, in invitations for bids issued under step two of two-step sealed bidding.

(p) Insert the provision at 52.214-34, Submission of Offers in the English Language, in solicitations that include any of the clauses prescribed in part 25. It may be included in other solicitations when the contracting officer decides that it is necessary.

(q) Insert the provision at 52.214-35, Submission of Offers in U.S. Currency, in solicitations that include any of the clauses prescribed in part 25, unless the contracting officer includes the clause at 52.225-17, Evaluation of Foreign Currency Offers, as prescribed in part 25. It may be included in other solicitations when the contracting officer decides that it is necessary.

14.208 Contract clauses.

(a) Insert the clause at 52.214-26, Audit and Records-Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed the threshold at part 15 for submission of certified cost or pricing data.

(b) (1) Insert the clause at 52.214-27, Price Reduction for Defective Certified Cost or Pricing Data—Modifications—Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed the threshold for submission of certified cost or pricing data at part 15.

(2) In exceptional cases, the head of the contracting activity may waive the requirement for inclusion of the clause in a contract with a foreign government or agency of that government. The authorizations for the waiver and the reasons for granting it must be in writing.

(c) Insert the clause at 52.214-28, Subcontractor Certified Cost or Pricing Data—Modifications—Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed the threshold for submission of certified cost or pricing data at part 15; or

(1) Upon request of a contractor in connection with a prime contract entered into before July 1, 2018, the contracting officer must modify the contract without requiring consideration to replace clause 52.214-28, Subcontractor Certified Cost or Pricing Data—Modifications—Sealed Bidding, with its Alternate I.

(2) In exceptional cases, the head of the contracting activity may waive the requirement for inclusion of the clause in a contract with a foreign government or agency of that government. The authorizations for the waiver and the reasons for granting it must be in writing.

(d) Insert the clause at 52.214-29, Order of Precedence—Sealed Bidding, in solicitations and contracts to which the uniform contract format applies.

14.209 Soliciting bids.

(a) See subpart 5.1 for presolicitation notices.

(b) See subpart 5.2 for publicizing the IFB.

(c) The contracting officer must specify in the IFB whether bids will be accepted by paper submission, or electronic transmission method, or both.

(d) If the IFB has been issued and it becomes necessary to make changes in quantity, specifications, delivery schedules, opening dates, etc., or to make a correction, such changes must be accomplished by amendment of the IFB using Standard Form 30, Amendment of Solicitation/ Modification of Contract. Amendments must—

(1) Be issued before the time set for bid opening;

(2) If determined necessary by the contracting officer, consider the amount of time remaining until bid opening and the need for an extension to the bid opening date;

(3) Be published in the GPE, if the IFB was published in the GPE, as a solicitation amendment;

(4) If applicable, be displayed in the bid room;

(5) Provide all prospective bidders equal access to the amendment providing the information necessary to submit bids; and

(6) Require acknowledgment of each amendment within each bidder's bid.

(e) When electronic bids are specified, the contracting officer must include in the IFB the acceptable methods and the necessary information that allows bidders to submit bids that are compatible with Government systems.

(f) When a contracting office is located in the United States, any IFB sent to a prospective bidder located outside the United States must be sent by electronic data interchange or air mail if security classification permits.

(g) (1) The master IFB is provided to potential sources who are requested to retain it for continued and repetitive use.

(2) Subsequent individual IFB must reference the date of the current master IFB and identify any changes.

(3) When using a master IFB the contracting officer must—

(i) Make available copies of the master IFB on request; and

(ii) Provide the cognizant contract administration activity a current copy of the master IFB.

(h) Retain records of invitations for bids and records of bids as a record of each invitation a contracting office issues and each abstract or record of bids. The file for each invitation must show the—

(1) Distribution that was made;

(2) Date the invitation was issued; and

(3) Names and addresses of prospective bidders who requested the invitation and were not included on the original IFB list must be added to the list and made a part of the record.

(i) See 15.101 and 15.201 for policy on the release of acquisition information before and after the issuance of the IFB.

(j) An IFB may be cancelled by the contracting officer when clearly in the public interest; e.g.,

(1) Where there is no longer a requirement for the supplies or services; or

(2) Where amendments to the IFB would be of such magnitude that a new IFB is desirable.

(k) If an IFB is cancelled prior to the date and time specified in 14.301, the contracting officer must—

(1) Identify the IFB number and short title or subject matter;

(2) Briefly explain the reason for the cancellation; and

(3) Where appropriate, assure prospective bidders that they will be given an opportunity to bid on any resolicitation of bids or any future requirements for the type of supplies or services involved. Cancellations must be recorded in accordance with 14.303(g).

14.210 Submission of Bids.

(a) Allow prospective bidders a reasonable time to prepare and submit bids in response to all invitations, consistent with the needs of the Government.

(b) Provide at least 30 calendar days when a synopsis is required (see subpart 5.1).

(c) Require bidders to submit sealed bids to be opened publicly at the time and place stated in the IFB.

14.211 Two-step sealed bidding.

14.211-1 General.

Two-step sealed bidding is a combination of competitive procedures designed to obtain the benefits of sealed bidding when adequate specifications are not available. An objective is to permit the development of a sufficiently descriptive and not unduly restrictive statement of the Government's requirements, including an adequate technical data package, so that subsequent acquisitions may use conventional sealed bidding methods. This two-step method is especially useful in acquisitions requiring technical proposals, particularly those for complex items.

(a) Step one consists of the request for submission of technical proposals, evaluation, and (if necessary) discussion of a technical proposal. No pricing is submitted with step one. The objective is to determine the acceptability of the supplies or services offered. As used in this context, the word technical has a broad connotation and includes, among other things, the engineering approach, special manufacturing processes, and special testing techniques. It is the proper step for clarification of questions relating to technical requirements. Conformity to the technical requirements is resolved in this step, but not responsibility as defined in 9.

(b) Step two involves the submission of sealed priced bids by those who submitted acceptable technical proposals in step one. Bids submitted in step two are evaluated and the awards made in accordance with subpart 14.3.

14.211-2 Conditions for use.

(a) Unless other factors require the use of sealed bidding, the contracting officer may use two-step sealed bidding rather than negotiation when all of the following conditions are present:

(1) Available specifications or purchase descriptions are not definite or complete or may be too restrictive without technical evaluation, and any necessary discussion, of the technical aspects of the requirement to ensure mutual understanding between each source and the Government.

(2) Definite criteria exist for evaluating technical proposals.

(3) More than one technically qualified source is expected to be available.

(4) There is sufficient time to use the two-step method.

(5) The contracting officer intends to award a firm-fixed-price contract or a fixed-price contract with economic price adjustment.

(b) None of the following precludes the use of two-step sealed bidding:

(1) Multi-year contracting.

(2) Government property to be made available to the successful bidder.

(3) A total small business set-aside (see part 19).

(4) The use of a set-aside or price evaluation preference for HUBZone small business concerns (see part 19).

(5) The use of a set-aside for service-disabled veteran-owned small business concerns (see part 19).

(6) The use of a set-aside for economically disadvantaged women-owned small business concerns and women-owned small business concerns eligible under the Women-Owned Small Business Program (see part 19).

(7) A first or subsequent production quantity is being acquired under a performance specification.

14.211-3 Procedures.

(a) *Step one*.

(1) Synopsize requests for technical proposals in accordance with Part 5. The request must include, as a minimum, the following:

(i) A description of the supplies or services required.

(ii) A statement of intent to use the two-step method.

(iii) The requirements of the technical proposal.

(iv) The evaluation criteria, to include all factors and any significant subfactors.

(v) A statement that the technical proposals must not include prices or pricing information.

(vi) The date, or date and hour, by which the technical proposal must be received (see 14.210).

(vii) A statement that, in the second step—

(A) The contracting officer will consider awards based upon bids that have acceptable technical proposals, either initially or as a result of discussions; and

(B) Each technical proposal must be based on the bidder's own technical proposals.

(viii) A statement that—

(A) Bidders should submit technical proposals that are acceptable without additional explanation or information;

(B) The Government may make a final determination regarding a technical proposal's acceptability solely on the basis as submitted; and

(C) The Government may proceed with the second step without requesting further information from any bidder; however, the Government may request additional information from bidders of bids that it considers reasonably susceptible of being made acceptable and may discuss bids with their bidders.

(ix) A statement that a notice of unacceptability will be forwarded to the bidder upon completion of the technical proposal evaluation and final determination of unacceptability.

(x) A statement either that each bidder may only submit one technical proposal or, if authorized, multiple technical proposals. When specifications permit different technical approaches, it is generally in the Government's interest to authorize multiple technical proposals. If multiple technical proposals are authorized, see 14.207(n).

(2) Include information on delivery or performance requirements that may assist bidders in determining whether or not to submit a technical proposal. Indicate that the information is not binding on the Government and that the invitation issued under step two will include actual delivery or performance requirements.

(3) Upon receipt, the contracting officer must—

(i) Safeguard technical proposals against disclosure to unauthorized persons;

(ii) Accept and handle data marked in accordance with part 15 and 27; and

(iii) Remove any reference to price or cost.

(4) The contracting officer must establish a time period for evaluating technical proposals. The period may vary with the complexity and number of technical proposals involved. However, the evaluation should be completed quickly.

(5) (i) Base evaluations on the criteria in the request for proposals but not consideration of responsibility as defined in part 9. Categorize technical proposals as—

(A) Acceptable;

(B) Reasonably susceptible of being made acceptable; or

(C) Unacceptable.

(ii) Categorize any proposal that modifies, or fails to conform to the essential requirements or specifications of, the request for technical proposals as unacceptable.

(6) (i) The contracting officer may proceed directly with step two if there are sufficient acceptable proposals to ensure adequate price competition under step two, and if further time, effort and delay to make additional technical proposals acceptable and thereby increase competition would not be in Government's interest. If this is not the case, the contracting officer must request bidders whose technical proposals may be made acceptable to submit additional clarifying or supplementing information. The contracting officer must identify the nature of the deficiencies in the technical proposal or the nature of the additional information required. The contracting officer may also arrange discussions for this purpose. Do not discuss a technical proposal with any bidder other than the submitter.

(ii) When requesting additional information, the contracting officer must establish an appropriate time for bidders to conclude discussions, if any, submit all additional information, and incorporate such additional information as part of their technical proposals. The contracting officer may extend the due date for such submissions at their discretion. If the additional information is incorporated into a technical proposal within the established time, and the contracting officer determines that the technical proposal is acceptable, the contracting officer will update its category to acceptable.

(7) When a technical proposal is found unacceptable (either initially or after clarification), the contracting officer must promptly notify the bidder of the basis of the determination and that a revision of the technical proposal will not be considered. Upon written request, the contracting officer must debrief unsuccessful bidders (see part 15).

(8) Late technical proposals are governed by part 15.

(9) If it is necessary to discontinue two-step sealed bidding, the contracting officer must include a statement of the facts and circumstances in the contract file. The contracting officer must notify each bidder in writing. When step one results in no acceptable technical proposals or only one acceptable technical proposal, the acquisition may be continued by negotiation.

(b) *Step two.*

(1) Follow sealed bidding procedures except that invitations for bids in step two must—

(i) Be issued only to those bidders that submitted acceptable technical proposals in step one;

(ii) Include the provision prescribed in 14.207(o);

(iii) Clearly state that the bidder must comply with the specifications and the bidder's technical proposal; and

(iv) Not be synopsized through the Governmentwide point of entry (GPE) as an acquisition opportunity nor publicly posted.

(2) List the names of firms that submitted acceptable proposals in step one through the GPE for the benefit of prospective subcontractors (see 5.201).

Subpart 14.3 - Evaluation and award

14.301 Submission, modification, or withdrawal of bids.

(a) Bidders are responsible for submitting bids, and any modifications or withdrawals not later than the exact time set for opening of bids. If no time is specified in the IFB, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that bids are due.

(b) Bids may be modified or withdrawn by any method authorized by the IFB.

(c) The receiving official receiving a paper bid submission, modification or withdrawal must—

(1) Write on the envelope—

(i) The date and time of receipt and by whom; and

(ii) The invitation for bid number; and

(2) Sign the envelope.

(3) Not disclose bid information before the time set for bid opening. See part 3 for requirements for protecting information including access to and disclosure thereof.

(d) A bidder or its authorized representative may withdraw a paper bid submission in person if, before the exact time set for opening of bids, the identity of the persons requesting withdrawal is established and that person signs a receipt for the bid.

(e) A bidder may withdraw an electronically submitted bid if notice is received in the office designated in the IFB not later than the exact time set for opening of bids. Upon withdrawal of an electronically transmitted bid, the data received must not be viewed and, to the maximum extent practical, must be purged from primary and backup data storage systems.

(f) (1) Any bid, modification, or withdrawal of a bid received at the Government office designated in the IFB after the exact time specified for receipt of bids is “late” and will not be considered unless—

(i) It is received before award is made; and

(ii) The contracting officer determines that accepting the late bid would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the IFB, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of bids; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of bids and was under the Government's control prior to the time set for receipt of bids.

(2) The contracting officer will consider and may accept, a late modification of an otherwise successful bid, that makes its terms more favorable to the Government, at any time it is received.

(g) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the bid wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(h) If an emergency or unanticipated event interrupts normal Government processes so that bids cannot be received at the Government office designated for receipt of bids by the exact time specified in the IFB, and urgent Government requirements preclude amendment of the bid opening date, the time specified for receipt of bids will be deemed to be extended to the same time of day specified in the IFB on the first work day on which normal Government processes resume.

(i) The contracting officer must promptly notify any bidder if its bid, modification, or withdrawal was received late, and must inform the bidder whether its bid will be considered, unless contract award is imminent, and the notices prescribed in 14.309 would suffice.

(j) Late bids and modifications that are not considered must be held unopened, unless opened for identification, until after award and then retained with other unsuccessful bids. However, any bid bond or guarantee must be returned.

(k) If available, the following must be included in the contract files for each late bid, modification, or withdrawal:

(1) The date and hour of receipt.

(2) A statement, with supporting rationale, regarding whether the bid was considered for award.

(3) The envelope, wrapper, or other evidence of the date of receipt.

14.302 Receipt of an unreadable electronic bid.

If a bid received at the Government facility by electronic data interchange is unreadable to the degree that conformance to the essential requirements of the invitation for bids cannot be ascertained, the contracting officer must immediately notify the bidder that the bid will be rejected unless the bidder provides clear and convincing evidence—

(a) Of the content of the bid as originally submitted; and

(b) That the unreadable condition of the bid was caused by Government software or hardware error, malfunction, or other Government mishandling.

14.303 Bid opening.

(a) All bids (including modifications) received before the time set for the opening of bids must be secured in a locked bid box, a safe, or in a secure restricted-access electronic bid box (i.e., secure password protected file folder on a controlled access Government computer network).

(b) The bid opening officer must inform those present at the public bid opening that the time set for the opening of bids has arrived.

(c) (1) The bid opening officer must personally and publicly open all bids received before the exact time set for opening of bids and if practical, read the bids aloud to all present.

(2) The public may not attend bid openings for classified acquisitions. No public record must be made of bids or bid prices received in response to classified invitations for bids.

(d) The contracting officer may postpone the public bid opening if the contracting officer determines in writing there is reason to believe—

(1) An important segment of bidders has been delayed in the mail;

(2) That there are delays in the communications system specified for transmission of bids;

(3) That circumstances beyond the control of the bidders have delayed their timely submission, (e.g., flood, fire, accident, weather, strikes, or Government equipment blackout or malfunction); or

(4) That emergency or unanticipated events has interrupted normal Governmental processes so that the scheduled opening of bids is impractical.

(e) Publicly post a determination to postpone a bid opening under paragraph (d) of this section. If practical before issuance of a formal amendment of the invitation, communicate the determination to the prospective bidders likely to attend the scheduled bid opening.

(f) In the case of paragraph (d)(4) of this section, and when urgent Government requirements preclude amendment of the IFB, the time specified for opening of bids will be deemed to be extended to the same time of day specified in the IFB on the first workday on which normal Government processes resume. In such cases, the time of actual bid opening must be deemed to be the time set for bid opening for the purpose of determining “late bids” under section 14.301. A note should be made on the abstract of bids or otherwise added to the file explaining the circumstances of the postponement.

(g) The bid opening officer must complete and certify the accuracy of the Standard Form 1409, Abstract of Offers, or Optional Form 1419, Abstract of Offers—Construction (or automated equivalent) as soon after bid opening as practicable. Where bid items are too numerous to warrant complete recording of all bids, abstract entries for individual bids may be limited to item numbers and bid prices. The contracting activity may use the extra columns and SF 1410, Abstract of Offers—Continuation, and OF 1419A, Abstract of Offers—Construction, Continuation Sheet, to label and record such information as necessary.

(h) Abstracts of offers for unclassified acquisitions must be available for public inspection

14.304 Mistakes in bids.

14.304-1 General.

(a) After the opening of bids, contracting officers must examine all bids for mistakes.

(b) The authority to permit correction of bids is limited to bids that, as submitted, are responsive to the invitation. The authority does not permit correction of bids to make them responsive.

(c) If the contracting officer identifies an apparent mistake or has reason to believe that a mistake exists the contracting officer must request the bidder verify its bid, calling attention to the suspected mistake.

(d) If the bidder asserts a mistake in its bid, the matter must be processed in accordance with section 14.304. Such actions must be taken before award.

14.304-2 Apparent clerical mistakes.

The contracting officer may correct any clerical mistake, apparent on its face in the bid, before award. The contracting officer first must obtain from the bidder a verification of the bid intended. Examples of apparent mistakes are obvious—

(a) Misplacement of a decimal point;

(b) Incorrect discounts (for example, 1 percent 10 days, 2 percent 20 days, 5 percent 30 days);

(c) Reversal of the price f.o.b. destination and price f.o.b. origin; and
(d) Mistake in designation of unit.

14.304-3 Other mistakes disclosed before award.

(a) A bidder may request in writing permission from the contracting officer to correct a mistake after providing clear and convincing evidence that establishes both the existence of the mistake, and the bid actually intended.

(1) If the contracting officer accepts the clear and convincing evidence and the correction does not cause the bidder to outbid other lower bids, the contracting officer may allow the correction.

(2) If the correction causes the bidder to outbid one or more otherwise lower bids, the head of the agency may make a determination to permit the correction only if the mistake and intended bid are obvious from the final bid documents.

(b) If a bidder requests permission to withdraw a bid rather than correct it, the evidence is clear and convincing both as to the existence of a mistake and as to the bid actually intended, and the bid, both as uncorrected and as corrected, is the lowest received, the head of the agency may make a determination to correct the bid and not permit its withdrawal.

(c) If, under paragraph (a) or (b) of this section—

(1) The evidence of a mistake is clear and convincing only as to the mistake but not as to the intended bid, or

(2) The evidence reasonably supports the existence of a mistake but is not clear and convincing, an official above the contracting officer, unless otherwise provided by agency procedures, may make a determination permitting the bidder to withdraw the bid.

(d) If the evidence does not warrant a determination under paragraph (a), (b), or (c) above, the head of the agency may make a determination that the bid be neither withdrawn nor corrected.

(e) Heads of agencies may delegate their authority to make the determinations under paragraphs (a), (b), (c), and (d) of this section to a central authority, or a limited number of authorities as necessary, in their agencies, without power of redelegation.

(f) Before issuance of the determinations in this section, legal counsel within the respective agency must provide concurrence.

(g) Process Government suspected or alleged mistakes in bids as follows:

(1) A mere statement by the administrative officials that they are satisfied that an error was made is insufficient.

(2) The contracting officer must immediately request that the bidder verify its bid.

(i) Actions taken to verify bids must be sufficient to reasonably assure the contracting officer that the bid as confirmed is without error, or to elicit the allegation of a mistake by the bidder.

(ii) To assure that the bidder will be put on notice of a suspected mistake by the contracting officer, the bidder should be advised as appropriate—

(A) That its bid is so much lower than the other bids or the Government's estimate as to indicate a possibility of error;

(B) Of important or unusual characteristics of the specifications;

(C) Of changes in requirements from previous purchases of a similar item; or

(D) Of any other information, proper for disclosure, that leads the contracting officer to believe that there is a mistake in bid.

(3) If the bid is verified, the contracting officer must consider the bid as originally submitted.

(4) If the time for acceptance of bids is likely to expire before a decision can be made, the contracting officer must request all bidders whose bids may become eligible for award to extend the time for acceptance of their bids.

(5) If the bidder whose bid is believed erroneous does not (or cannot) grant an extension of time, the bid must be considered as originally submitted (but see paragraph (8) below).

(6) If the bidder alleges a mistake, the contracting officer must advise the bidder to make a written request to withdraw or modify the bid. The request must be supported by statements (sworn statements, if possible) and must include all pertinent evidence such as the bidder's file copy of the bid, the original worksheets and other data used in preparing the bid, subcontractors' quotations, if any, published price lists, and any other evidence that establishes the existence of the error, the manner in which it occurred, and the bid actually intended.

(7) When the bidder furnishes evidence supporting an alleged mistake, the contracting officer must refer the case to the appropriate authority together with the following data:

(i) A signed copy of the bid involved.

(ii) A copy of the invitation for bids and any specifications or drawings relevant to the alleged mistake.

(iii) An abstract or record of the bids received.

(iv) The bidder's written request to withdraw or modify the bid, together with the bidder's written statement and supporting evidence.

(v) A written statement by the contracting officer providing—

(A) A description of the supplies or services involved;

(B) The expiration date of the bid in question and of the other bids submitted;

(C) Specific information as to how and when the mistake was alleged;

(D) A summary of the evidence submitted by the bidder;

(E) In the event only one bid was received, a quotation of the most recent contract price for the supplies or services involved or, in the absence of a recent comparable contract, the contracting officer's estimate of a fair price for the supplies or services;

(F) Any additional pertinent evidence; and

(G) A recommendation to consider the bid as submitted or to authorize the bidder to withdraw or modify its bid.

(8) Where the bidder fails or refuses to furnish evidence in support of a suspected or alleged mistake, the contracting officer must consider the bid as submitted unless—

(i) The amount of the bid is so far out of line with the amounts of other bids received, or with the amount estimated by the agency or determined by the contracting officer to be reasonable; or

(ii) There are other indications of error which are so clear, as to reasonably justify the conclusion that acceptance of the bid would be unfair to the bidder or to other bona fide bidders. The contracting officer must document all attempts made to obtain the information required and the action taken with respect to the correct the bid.

(h) Each agency must maintain records of all determinations made in accordance with this section, the facts involved, and the action taken in each case. Include copies of all such determinations in the file.

(i) Nothing contained in this section prevents an agency from submitting doubtful cases to the Comptroller General for advance decision.

14.305 Cancellation of invitations after opening.

(a) Unless there is a compelling reason to reject all bids and cancel the invitation after the opening, the contracting officer must award to the responsible bidder who submitted the lowest responsive bid.

(b) Invitations may be cancelled after opening when, consistent with paragraph (a) above and, the agency head determines in writing that—

(1) Inadequate or ambiguous specifications were cited in the invitation;

(2) Specifications have been revised;

(3) The supplies or services being contracted for are no longer required;

(4) The invitation did not provide for consideration of all factors of cost to the Government, such as cost of transporting Government-furnished property to bidders' plants;

(5) Bids received indicate that the needs of the Government can be satisfied by a less expensive article differing from that for which the bids were invited;

(6) All otherwise acceptable bids received are at unreasonable prices, or only one bid is received and the contracting officer cannot determine the reasonableness of the bid price;

(7) The bids were not independently arrived at in open competition, were collusive, or were submitted in bad faith (see part 3 for reports to be made to the Department of Justice);

(8) No responsive bid has been received from a responsible bidder;

(9) A cost comparison as prescribed in OMB Circular A-76 shows that performance by the Government is more economical; or

(10) For other reasons, cancellation is clearly in the public's interest.

(c) If award is delayed beyond the bidders' acceptance periods, the contracting officer should request bidders extend in writing the bid acceptance period (with consent of sureties, if any) in order to avoid the need for resoliciting.

(d) Under some circumstances, completion of the acquisition after cancellation of the invitation for bids may be appropriate.

(1) If the invitation for bids has been cancelled for the reasons specified in paragraphs (b)(6) through (8) of this section, and the agency head has authorized, in the determination in paragraph (b) of this section, the completion of the acquisition through negotiation, the contracting officer must proceed in accordance with paragraph (e) of this section.

(2) If the invitation for bids has been cancelled for the reasons specified in paragraphs (b) (1), (2), (4), (5), or (10) of this section, or for the reasons in paragraphs (b) (6), (7), or (8) of this section and completion through negotiation is not authorized under paragraph (d)(1) of this section, the contracting officer must proceed with a new acquisition.

(e) When the agency head has determined, in accordance with paragraph (d)(1) of this section, that an invitation for bids should be canceled and that use of negotiation is in the Government's interest, the contracting officer may negotiate (in accordance with part 15, as appropriate) and make award without issuing a new IFB provided—

(1) Each responsible bidder in the sealed bid acquisition has been given notice that negotiations will be conducted and has been given an opportunity to participate in negotiations; and

(2) The award is made to the responsible bidder offering the lowest negotiated price.

14.306 Evaluation.

14.306-1 Responsiveness of bids.

(a) To be considered for award, a bid must comply in all material respects with the invitation for bids.

(b) Bids must be filled out, executed, and submitted in accordance with the instructions in the invitation. If a bidder uses its own bid form or a letter to submit a bid, the bid may be considered only if—

(1) The bidder accepts all the terms and conditions of the invitation; and

(2) Award on the bid would result in a binding contract with terms and conditions that do not vary from the terms and conditions of the invitation.

(c) Bids submitted by electronic commerce may be considered only if the electronic commerce method was specifically stipulated or permitted by the IFB.

(d) If any sample fails to conform to the characteristics listed in the invitation, the respective bid will be rejected as nonresponsive.

14.306-2 Responsible bidder—reasonableness of price.

(a) Prior to award, the contracting officer must determine that—

(1) The apparent awardee(s) is responsible (see subpart 9.1); and

(2) The prices offered are reasonable and not materially unbalanced.

(b) The price analysis techniques in part 15 should be used as guidelines for determining reasonableness and if prices offered are materially unbalanced.

(c) In each case the determination must be made in the light of all prevailing circumstances. Particular care must be taken in cases where only a single bid is received.

14.306-3 Rejection of individual bids.

(a) Bids that fail to conform to the basic requirements of the invitation for bids must be rejected.

(b) Bids that do not conform to the requirements must be rejected unless the invitation authorized the submission of alternate bids and the supplies offered as alternates meet the requirements specified in the invitation.

(c) Bids that fail to conform to the delivery schedule or permissible alternates stated in the invitation must be rejected.

(d) Bids must be rejected if the bidder imposes conditions that would modify requirements of the invitation or limit the bidder's liability to the Government. For example, bids must be rejected in which the bidder—

(1) Protects against future changes in conditions, such as increased costs, if total possible costs to the Government cannot be determined;

(2) Fails to state a price and indicates that price will be the price in effect at time of delivery;

(3) States a price but qualifies it as being subject to the price in effect at time of delivery;

(4) When not authorized by the invitation, conditions or qualifies a bid by stipulating that it is to be considered only if, before date of award, the bidder receives (or does not receive) award under a separate IFB;

(5) Requires the Government to determine that the bidder's product meets applicable Government specifications; or

(6) Limits rights of the Government under any contract clause.

(e) A low bidder may be requested to delete objectionable conditions from a bid provided the conditions do not go to the substance, as distinguished from the form, of the bid, or work an injustice on other bidders. A condition goes to the substance of a bid where it affects price, quantity, quality, or delivery of the items offered.

(f) The contracting officer may reject any bid if they determine in writing that it is unreasonable as to the total price of the bid or the prices for individual line items as well.

(g) The contracting officer may reject any bid if the prices for any line items or subline items are materially unbalanced (see part 15).

(h) The contracting officer must reject any bid received from a person or concern that is suspended, debarred, proposed for debarment, or declared ineligible as of the bid opening date unless determined in writing that there is a compelling reason for such action (see subpart 9.4).

(i) Reject low bids received from concerns determined to be not responsible pursuant to part 9, unless received from a small business concern (see part 19 with respect to certificates of competency).

(j) Reject a bid when a bid guarantee is required and a bidder fails to furnish the guarantee in accordance with the requirements of the invitation for bids, except as otherwise provided in part 28.

(k) Preserve the originals of all rejected bids, and any written findings with respect to such rejections with the contract file.

(l) After submitting a bid, if all of a bidder's assets or that part related to the bid are transferred during the period between the bid opening and the award, the transferee may not be able to take over the bid. Accordingly, the contracting officer must reject the bid unless the transfer is effected by merger, operation of law, or other means not barred by 41 U.S.C. 6305 or 31 U.S.C. 3727.

14.306-4 Rejection of all bids.

When it is determined necessary to reject all bids, the contracting officer must notify each bidder that all bids have been rejected and provide the reason for such action.

14.306-5 Restrictions on disclosure of descriptive literature.

When a bid is accompanied by descriptive literature, and the bidder imposes a restriction that prevents the public disclosure of such literature, the restriction may render the bid nonresponsive. The restriction renders the bid nonresponsive if it prohibits the disclosure of sufficient information to permit competing bidders to know the essential nature and type of the products offered or those elements of the bid that relate to quantity, price, and delivery terms. The provisions of this paragraph do not apply to unsolicited descriptive literature submitted by a bidder if such literature does not qualify the bid.

14.306-6 All or none qualifications.

Unless the IFB provides otherwise, a bid may be responsive notwithstanding that the bidder specifies that award will be accepted only on all, or a specified group, of the items. Contracting officers must not permit bidders to withdraw or modify all or none qualifications after bid opening since such qualifications are substantive and affect the rights of other bidders.

14.306-7 Minor informalities or irregularities in bids.

A minor informality or irregularity is merely a matter of form and not of substance or some immaterial defect in a bid or variation of a bid from the exact requirements of the invitation that can be corrected or waived without being prejudicial to other bidders. The defect or variation is immaterial when the effect on price, quantity, quality, or delivery is negligible when contrasted with the total cost or scope of the supplies or services being acquired. The contracting officer either must give the bidder an opportunity to cure any deficiency resulting from a minor informality or irregularity in a bid or waive the deficiency, whichever is to the advantage of the Government. Examples of minor informalities or irregularities include failure of a bidder to—

(a) Return the number of copies of signed bids required by the invitation;

(b) Furnish required information concerning the number of its employees;

(c) Sign its bid, but only if—

(1) The unsigned bid is accompanied by other material indicating the bidder's intention to be bound by the unsigned bid (such as the submission of a bid guarantee or a letter signed by the bidder, with the bid, referring to and clearly identifying the bid itself); or

(2) The firm submitting a bid has formally adopted or authorized, before the date set for opening of bids, the execution of documents by written, printed, or stamped signature and submits evidence of such authorization and the bid carries such a signature;

(d) Acknowledge receipt of an amendment to an invitation for bids, but only if—

(1) The bid received clearly indicates that the bidder received the amendment, such as where the amendment added another item to the invitation and the bidder submitted a bid on the item; or

(2) The amendment involves only a matter of form or has either no effect or merely a negligible effect on price, quantity, quality, or delivery of the item bid upon; and

(e) Execute the representations with respect to Equal Opportunity and Affirmative Action Programs, as set forth in the clauses at 52.222-22, Previous Contracts and Compliance Reports, and 52.222-25, Affirmative Action Compliance.

14.306-8 Prompt payment discounts.

Prompt payment discounts must not be considered in the evaluation of bids.

14.306-9 Economic price adjustment.

(a) Bidder proposed economic price adjustment.

(1) When an IFB does not contain an economic price adjustment clause but a bidder proposes one with a ceiling that the price will not exceed, the contracting officer must evaluate the bid on the basis of the maximum possible economic price adjustment of the quoted base price.

(2) If the bid is eligible for award, the contracting officer must request the bidder to agree to the inclusion in the award of an approved economic price adjustment clause (see part 16) that is subject to the same ceiling. If the bidder will not agree to an approved clause, the contracting officer may award based on the bid as originally submitted.

(3) Reject bids that contain economic price adjustments with no ceiling unless a clear basis for evaluation exists.

(b) (1) When an invitation contains a Government proposed economic price adjustment clause and no bidder takes exception to the provisions, the contracting officer must evaluate bids on the basis of the quoted prices without the allowable economic price adjustment being added.

(2) Reject a bid as nonresponsive if a bidder increases the maximum percentage of economic price adjustment stipulated in the invitation or limits the downward economic price adjustment provisions of the invitation.

(3) Reject a bid as nonresponsive if a bid indicates deletion of the economic price adjustment clause because the downward economic price adjustment provisions are thereby limited.

(4) When a bidder decreases the maximum percentage of economic price adjustment stipulated in the invitation, the contracting officer must evaluate the bid at the base price on an equal basis with bids that do not reduce the stipulated ceiling. However, after evaluation, if the bidder offering the lower ceiling is in a position to receive the award, the award must reflect the lower ceiling.

14.307 Award.

(a) The contracting officer must make a contract award—

(1) By written or electronic notice,

(2) Within the time for acceptance specified in the bid or an extension, and

(3) To that responsible bidder whose bid, conforming to the invitation, will be most advantageous to the Government, considering only price and the price-related factors included in the invitation.

(b) When more than one award results from any single invitation for bids, separate award documents must be executed.

(c) When an award is made to a bidder for less than all of the items that may be awarded to that bidder and additional items are being withheld for subsequent award, the invitation to bid and award document must state that the Government may make subsequent awards for those additional items within the bid acceptance period.

(d) All provisions of the invitation for bids, including any acceptable additions or changes made by a bidder in the bid, must be clearly and accurately set forth (either expressly or by reference) in the award document.

(e) (1) Award is generally made by using the Award portion of Standard Form (SF) 33, Solicitation, Offer, and Award, or SF 1447, Solicitation/Contract (see 53.214). If an offer on an SF 33 leads to further changes, the resulting contract must be prepared as a bilateral document on SF 26, Award/Contract.

(2) Use of the Award portion of SF 33, SF 26, or SF 1447, does not preclude the additional use of informal documents, including electronic communications, as notices of awards.

(3) Do not physically include Part IV in the contract. Award by acceptance of a bid on the award portion of Standard Form 33, Solicitation Offer and Award (SF 33), Standard Form 26, Award/Contract (SF 26), or Standard Form 1447, Solicitation/Contract (SF 1447), incorporates Section K, Representations, certifications, and other statements of bidders, in the resultant contract even though not physically attached.

(f) Any discount offered will form a part of the award and will be taken by the payment center if payment is made within the discount period specified by the bidder.

(1) As an alternative to indicating a discount in conjunction with the offer, bidders may prefer to offer discounts on individual invoices.

(2) See part 32, which prescribes the contract clause at 52.232-8, Discounts for Prompt Payment.

14.308 Award of equal low bids.

(a) Award contracts in the following order of priority when two or more low bids are equal in all respects:

(1) Small business concerns that are also labor surplus area concerns.

(2) Other small business concerns.

(3) Other business concerns.

(b) If two or more bidders remain equally eligible after application of paragraph (a) above, the contracting officer must conduct a drawing, limited to those bidders. If time permits, give the bidders involved an opportunity to attend the drawing. The drawing must be witnessed by at least three persons, and the contract file must contain the names and addresses of the witnesses and the person supervising the drawing.

(c) When an award is to be made by using the priorities under this section, the contracting officer must include a written agreement in the contract that the contractor will perform, or cause to be performed, the contract in accordance with the circumstances justifying the priority used to break the tie or select bids for a drawing by lot.

14.309 Information to bidders.

14.309-1 Award of unclassified contracts.

(a) The contracting officer must as a minimum (subject to any restrictions in part 9)—

(1) Notify each unsuccessful bidder in writing or electronically within three days after contract award, that its bid was not accepted. "Day," for purposes of the notification process, means calendar day, except that the period will run until a day which is not a Saturday, Sunday, or legal holiday; and

(2) When award is made to other than a low bidder, state the reason for rejection in the notice to each of the unsuccessful low bidders.

(b) For acquisitions covered by the World Trade Organization Government Procurement Agreement or a Free Trade Agreement (see part 25), agencies must include in notices given unsuccessful bidders from World Trade Organization Government Procurement Agreement or Free Trade Agreement countries—

(1) The dollar amount of the successful bid; and

(2) The name and address of the successful bidder.

14.309-2 Award of classified contracts.

In addition to 14.309-1, if classified information was furnished or created in connection with the IFB, the contracting officer must advise the unsuccessful bidders, including any who did not bid, to take disposition action in accordance with agency procedures. The contracting officer may provide the name of the successful bidder and the contract price to unsuccessful bidders upon request. Information regarding a classified award must not be provided by telephone.

Subpart 14.4 - Postaward.

14.401 Mistakes after award.

If a contractor's discovery and request for correction of a mistake in bid is not made until after the award, it must be processed under the procedures of part 33 and the following:

(a) When a mistake in a contractor's bid is not discovered until after award, correct the mistake by contract modification if it would be favorable to the Government without changing the essential requirements of the specifications.

(b) In addition to the cases contemplated in paragraph (a) of this section or as otherwise authorized by law, agencies are authorized to make a determination—

(1) To rescind a contract;

(2) To reform a contract to—

(i) Delete the items involved in the mistake; or

(ii) Increase the price if the contract price, as corrected, does not exceed that of the next lowest acceptable bid under the original invitation for bids; or

(3) That no change will be made in the contract as awarded, if the evidence does not warrant a determination under paragraphs (1) or (2).

(c) Make determinations under paragraphs (b)(1) and (2) on the basis of clear and convincing evidence that a mistake in bid was made. In addition, it must be clear that the mistake was—

(1) Mutual, or

(2) If unilaterally made by the contractor, so apparent as to have charged the contracting officer with notice of the probability of the mistake.

(d) Each proposed determination must be coordinated with legal counsel in accordance with agency procedures.

(e) Process mistakes alleged or disclosed after award as follows:

(1) The contracting officer must request the contractor to support the alleged mistake by submission of written statements and pertinent evidence, such as—

(i) The contractor's file copy of the bid,

(ii) The contractor's original worksheets and other data used in preparing the bid,

(iii) Subcontractors' and suppliers' quotations, if any,

(iv) Published price lists, and

(v) Any other evidence that will serve to establish the mistake, the manner in which the mistake occurred, and the bid actually intended.

(2) The case file concerning an alleged mistake must contain the following:

(i) All evidence furnished by the contractor in support of the alleged mistake.

(ii) A signed statement by the contracting officer—

(A) Describing the supplies or services involved;

(B) Specifying how and when the mistake was alleged or disclosed;

(C) Summarizing the evidence submitted by the contractor and any additional evidence considered pertinent;

(D) Quoting, in cases where only one bid was received, the most recent contract price for the supplies or services involved, or in the absence of a recent comparable contract, the contracting officer's estimate of a fair price for the supplies or services and the basis for the estimate;

(E) Setting forth the contracting officer's opinion whether a bona fide mistake was made and whether the contracting officer was, or should have been, on constructive notice of the mistake before the award, together with the reasons for, or data in support of, such opinion;

(F) Setting forth the course of action with respect to the alleged mistake that the contracting officer considers proper on the basis of the evidence, and if other than a change in contract price is recommended, the manner by which the supplies or services will otherwise be acquired; and

(G) Disclosing the status of performance and payments under the contract, including contemplated performance and payments.

(iii) A signed copy of the bid involved.

(iv) A copy of the invitation for bids and any specifications or drawings relevant to the alleged mistake.

(v) An abstract of written record of the bids received.

(vi) A written request by the contractor to reform or rescind the contract, and copies of all other relevant correspondence between the contracting officer and the contractor concerning the alleged mistake.

(vii) A copy of the contract and any related change orders or supplemental agreements.

(f) Each agency must include in the contract file a record of—

(1) All determinations made in accordance with this 14.401;

(2) the facts involved, and

(3) the action taken in each case.

14.402 Pricing modifications.

See part 15 for cost and price negotiation policies and procedures.

PART 15 - CONTRACTING BY NEGOTIATION

Subpart 15.5 - Unsolicited Proposals

15.000 Scope.

This part addresses policies and procedures used in competitive and noncompetitive negotiated acquisitions. These acquisition procedures provide an opportunity for back-and-forth negotiation between the Government and an offeror(s) upon receipt of a proposal submitted in response to a request for proposals (RFP).

15.001 Definitions.

As used in this part—

Deficiency is any part of an offer that does not conform to a material requirement of a RFP. A material requirement is one that affects price, quantity, quality, or delivery, or that the RFP requires to be met at the time of proposal submission.

Proposal modification is a change made to a proposal before the RFP closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

Proposal revision is a change to material elements of a proposal made after the RFP closing date, at the request of or as allowed by a contracting officer, as the result of negotiations.

Weakness means a flaw in the proposal that increases the risk of unsuccessful contract performance. A "significant weakness" in the proposal is a flaw that appreciably increases the risk of unsuccessful contract performance.

15.002 Types of negotiated acquisition.

(a) *Noncompetitive acquisitions.* Noncompetitive, or sole source, acquisition is a process whereby an award is made to a single vendor without soliciting offers from multiple sources. When using this acquisition strategy, agencies should remove unnecessary information and requirements from the request for proposal (RFP), including voluminous proposal preparation instructions and evaluation factors.

(b) *Competitive acquisitions.* Competitive acquisition is a process whereby an award is made after soliciting offers from multiple sources. When using this acquisition strategy, agencies should tailor the complexity of the RFP, evaluation, and source selection decision to the circumstances of the acquisition, while maintaining a process that promotes an impartial and comprehensive evaluation of proposals, leading to selection of the proposal representing the best value to the Government.

Subpart 15.1 - Presolicitation and Solicitation

15.100 Scope.

This subpart addresses policies and procedures for preparing requests for proposals (RFPs) and receiving proposals. RFPs are used in negotiated acquisitions to communicate Government requirements to prospective contractors and to request proposals.

15.101 Early exchanges with industry.

(a) *General*. Exchanges of information among all interested parties are encouraged and can occur at any time between the identification of a requirement through the receipt of proposals. These exchanges can improve both the Government's understanding of industry capabilities and the industry's understanding of the Government's needs. Any exchange of information must be consistent with procurement integrity requirements in part 3 and protected in accordance with part 24.

(b) *Draft RFPs*. Agencies are encouraged to release draft RFPs and conduct conferences with industry before issuing competitive RFPs.

(c) *Requests for Information*. Agencies are encouraged to release requests for information (RFI) when the Government does not currently intend to award a contract, but wants to obtain price, delivery, market, or capabilities information for planning purposes.

(1) There is no required format for RFIs.

(2) Responses to RFIs are not offers and cannot be accepted by the Government to form a binding contract.

(3) RFIs must state that–

(i) The Government does not intend to award a contract on the basis of the RFI or otherwise pay for the information requested; and

(ii) Responses will be treated as information only and not as a proposal.

(4) Information received in response to an RFI must be safeguarded adequately from unauthorized disclosure. Contracting officers should mark the information with date and time of receipt and provide the information to designated officials.

(d) *Mission needs and requirements*. General information on an agency's current or anticipated needs and requirements may be disclosed at any time. When information about a proposed acquisition is disclosed to one or more potential offerors and that information is necessary for the preparation of proposals, the information should be made available to the public as soon as practicable, but no later than the next general release of information, in order to avoid creating an unfair competitive advantage.

(e) *Advisory multistep process*. (1) Agencies may publish a notice that provides a general description of the scope or purpose of the acquisition and invites potential offerors to submit information that allows the Government to advise offerors about their potential to be viable competitors.

(2) When using this process, agencies must—

(i) Evaluate all responses in accordance with the criteria stated in the notice;

(ii) Advise each respondent in writing either that it will be invited to participate in the resultant acquisition or, based on the information submitted, that it is unlikely to be a viable competitor;

(iii) Advise respondents considered not to be viable competitors of the general basis for that opinion; and

(iv) Inform all respondents that, notwithstanding the advice provided by the Government in response to their submissions, they may participate in the resultant acquisition.

15.102 Structuring a request for proposals.

(a) *Method*. RFPs may be issued in writing or orally.

(b) *Format*. (1) *Requirement*. Contracting officers should prepare RFPs and resulting contracts using the uniform contract format at 15.109.

(i) Streamlined RFPs may be used in non-competitive acquisitions and other acquisitions in which a standard RFP would be unnecessarily lengthy.

(ii) Oral RFPs may be used when processing a written RFP would delay the acquisition of supplies or services to the detriment of the Government and an RFP is not required to be posted under part 5.

(2) *Exceptions*. Agencies do not need to use the uniform contract format for:

(i) Construction and architect-engineer contracts.

(ii) Subsistence contracts.

(iii) Supplies or services contracts requiring special contract formats prescribed elsewhere in this part that are inconsistent with the uniform contract format.

(iv) Streamlined RFPs.

(v) Contracts exempted by the agency head or designee.

(3) *Minimum content when not using the uniform contract format*. When the uniform contract format is not used, contracting officers must ensure—

(i) Competitive RFPs, at a minimum, describe the Government's requirement; any anticipated terms and conditions that will apply to the contract; the information required to be in the offeror's proposal; the factors and significant subfactors that will be used to evaluate the proposal and their relative importance, and one of the statements at 15.104(d).

(ii) Streamlined RFPs must be streamlined to remove unnecessary information and requirements and, at a minimum, contain the following:

(A) RFP number and date;

(B) Name, address, and telephone number of the contracting officer;

(C) Type of contract contemplated;

(D) Quantity, description, and required delivery dates for the item;

(E) Applicable certifications and representations;

(F) Anticipated contract terms and conditions;

(G) Proposal due date and time;

(H) Other relevant information; *e.g.*, incentives, variations in delivery schedule, cost proposal support, and data requirements; and

(I) For competitive streamlined RFPs, instructions to offerors and evaluation factors and significant subfactors in accordance with 15.104.

15.103 Developing a competitive source selection approach.

The goal of source selection is to select the proposal that represents the best value to the Government. To obtain best value, agencies use a range of approaches for evaluating competitive offers, where the importance of cost or price varies relative to other factors such as technical merit and past performance. Agencies can obtain best value in competitive negotiated acquisitions by using any one or a combination of source selection approaches, including but not limited to the approaches mentioned in this section.

15.103-1 Tradeoff approach.

The tradeoff approach to source selection is appropriate when it may be in the Government's best interest to consider award to other than the lowest priced offeror or other than the highest technically rated offeror. This process permits tradeoffs among cost or price and non-cost or non-price factors. The anticipated benefits of a higher priced proposal must merit the additional cost.

15.103-2 Lowest price technically acceptable approach.

(a) *General*. The lowest price technically acceptable (LPTA) approach to source selection is appropriate when it is in the Government's best interest to award to the offeror that submits a technically acceptable proposal with the lowest evaluated price. This approach does not permit tradeoffs.

(b) *Required Information*. When using this approach, the RFP must—

(1) Identify the evaluation factors that establish the minimum requirements for acceptability; and

(2) Specify that the award will be made on the basis of the lowest evaluated price of proposals meeting or exceeding the requirements for acceptability.

(c) *Limitations.* Except for DoD, in accordance with section 880 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232, 41 U.S.C. 3701 Note)—

(1) The LPTA source selection approach must only be used when—

(i) The agency can comprehensively and clearly describe the minimum requirements in terms of performance objectives, measures, and standards that will be used to determine the acceptability of offers;

(ii) The agency would realize no, or minimal, value from a proposal that exceeds the minimum technical or performance requirements;

(iii) The agency believes the technical proposals will require no, or minimal, subjective judgment by the source selection authority as to the desirability of one offeror's proposal versus a competing proposal;

(iv) The agency has a high degree of confidence that reviewing the technical proposals of all offerors would not result in the identification of characteristics that could provide value or benefit to the agency;

(v) The agency determined that the lowest price reflects the total cost, including operation and support, of the product(s) or service(s) being acquired; and

(vi) The contracting officer documents the contract file describing the circumstances that justify the use of the LPTA source selection process.

(2) Contracting officers must avoid, to the maximum extent practicable, using the LPTA source selection process in the case of a procurement that is predominantly for the acquisition of—

(i) Information technology services, cybersecurity services, systems engineering and technical assistance services, advanced electronic testing, audit or audit readiness services, health care services and records, telecommunications devices and services, or other knowledge-based professional services;

(ii) Personal protective equipment; or

(iii) Knowledge-based training or logistics services in contingency operations or other operations outside the United States.

15.103-3 Highest technically rated with a fair and reasonable price approach

(a) *General*.

(1) The highest technically rated with a fair and reasonable price approach to source selection is appropriate when the Government determines in advance that it would not be advantageous to consider tradeoffs between cost or price and non-cost or non-price factors; rather, the acquisition warrants paying any fair and reasonable price for the highest quality performance.

(2) In this approach, all proposals are evaluated based on the non-price factors outlined in the solicitation and the source selection authority determines the highest technically rated proposal. The price of the highest technically rated proposal is evaluated to determine if it is fair and reasonable in accordance with subpart 15.4.

(3) If the highest technically rated proposal's price is fair and reasonable, the proposal is selected for award. If the price is not fair and reasonable, the source selection authority must determine the next highest technically rated proposal and

evaluate whether the price is fair and reasonable in accordance with subpart 15.4. This process continues until a contract is awarded to the highest technically rated responsible offeror with a fair and reasonable price.

(b) *Required information*. When using this approach, the RFP must advise offerors that the Government will not consider tradeoffs between cost or price and non-cost or non-price factors, and that the highest technically rated proposal will be selected for award if it offers a fair and reasonable price.

15.103-4 Phased acquisition.

(a) Phased acquisitions break down complex or high-risk acquisitions into distinct parts for contract award. Instead of a single and comprehensive proposal and evaluation process, phased acquisitions are structured to make separate awards at distinct phases of the acquisition. This approach can reduce source selection timeframes and promote flexibility by permitting adjustments to the requirement between phases.

(b) When using a phased approach, the RFP must—

(1) Establish the phases for the acquisition; and

(2) Describe the process that will be used to evaluate proposals and any criteria offerors must meet to progress to the next phase in the RFP.

15.104 Establishing competitive evaluation factors and significant subfactors.

(a) *General.*A competitive award decision is based on evaluation factors and significant subfactors that are tailored to the acquisition. Evaluation factors and significant subfactors must represent the key areas of importance and emphasis to be considered in the source selection decision; and support meaningful differentiation between competing proposals. All factors and significant subfactors that will affect contract award and their relative importance must be stated clearly in the RFP (10 U.S.C. 3206(b)(1) and 41 U.S.C. 3306(b)(1)).

(b) *Required factors*. The evaluation factors and significant subfactors that apply to an acquisition and their relative importance are within the broad discretion of agency acquisition officials, subject to the following requirements:

(1) *Price or cost*.

(i) Price or cost to the Government must be evaluated in every competitive source selection (10 U.S.C. 3206(c)(1)(B) and41 U.S.C. 3306(c)(1)(B)). Proposed price reductions under an offeror's other contracts cannot be used as an evaluation factor.

(ii) In accordance with 10 U.S.C. 3206(c), for DoD, NASA, and the Coast Guard–

(A) Contracting officers may choose not to include price or cost as an evaluation factor for award when an RFP–

(1) Has an estimated value above the simplified acquisition threshold;

(2) Will result in multiple-award contracts that are for the same or similar services; and

(3) States that the Government intends to make an award to each and all qualifying offerors.

(B) If the contracting officer chooses not to include price or cost as an evaluation factor for the contract award, in accordance with paragraph (b)(1)(ii)(A) of this section, the contracting officer must consider price or cost as one of the factors in the selection decision for each order placed under the contract.

(C) The exception in paragraph (B)(1)(ii)(A) of this section must not apply to RFPs for multiple-award contracts that provide for sole source orders pursuant to section 8(a) of the Small Business Act (15 U.S.C. 637(a)).

(2) *Quality*. The quality of the product or service must be evaluated in every competitive source selection through consideration of one or more non-cost evaluation factors such as past performance, compliance with RFP requirements, technical excellence, management capability, personnel qualifications, and prior experience ((10 U.S.C. 3206(c)(1)(A) and 41 U.S.C. 3306(c)(1)(A)).

(3) *Past performance*.

(i) Past performance must be evaluated in every competitive source selection, unless the contracting officer documents the reason past performance is not an appropriate evaluation factor for the acquisition. This evaluation is separate from the responsibility determination required under part 9.

(ii) The RFP must—

(A) Describe the general approach for evaluating past performance information, including evaluating offerors with no relevant performance history;

(B) Provide offerors an opportunity to: identify past or current contracts (including Federal, State, and local government, private sector, and other contracts) for efforts similar to the Government requirement, and provide information on problems encountered on the identified contracts and the offeror corrective actions; and

(iii) The RFP may describe the agency's approach to considering the currency and relevance, source, and context of the information to be requested.

(c) *Situational factors*. For competitive RFPs that are not set aside for small business concerns, involving consolidation or bundling, that offer a significant opportunity for subcontracting, the contracting officer must include—

(1) A factor to evaluate past performance indicating the extent to which the offeror attained applicable goals for small business participation under contracts that required subcontracting plans (15 U.S.C. 637(d)(4)(G)(ii)); and

(2) A factor to evaluate the proposed small business subcontracting participation in the subcontracting plan (15 U.S.C. 637(d)(4)(G)(i)).

(d) *Factor importance*. In addition to stating the relative importance of each evaluation factor, and unless the exception at paragraph (b)(1)(ii) of this section applies, the RFP must also state, at a minimum, whether all evaluation factors other than cost or price, when combined, are—

(1) Significantly more important than cost or price;

(2) Approximately equal to cost or price; or

(3) Significantly less important than cost or price (10 U.S.C. 3206(c)(1)(C) and 41 U.S.C. 3306(c)(1)(C)).

15.105 Other considerations.

15.105-1 Oral presentations.

(a) Oral presentations may be used as a substitute for requesting portions of a written proposal information from offerors. Information on an offeror's capability, past performance, work plans or approaches, staffing resources, transition plans, or sample tasks can be suitable for oral presentations.

(b) Oral presentations may occur at any time during the source selection process. When requesting oral presentations, the RFP must provide offerors with the necessary information to prepare and provide the presentation.

15.105-2 Negotiations disclosure.

Competitive RFPs must advise offerors whether the Government intends to evaluate proposals and award a contract with or without conducting negotiations with offerors whose proposals have been determined to be within the competitive range. FAR provision 52.215-1, Instructions to Offerors-Competitive Acquisition, and its Alternate I, contain this disclosure.

15.105-3 Limitation on tiered evaluations for multiple award contracts.

When soliciting for a multiple award contract, agencies must not create a tiered or cascading evaluation of small business offers, as described in 13 CFR 125.2, unless the agency has statutory authority to do so.

15.105-4 Request for cost or pricing data.

(a) *Required information*. In accordance with 15.402(a), contracting officers must state in the RFP—

(1) Whether certified cost or pricing data are required;

(2) That, in lieu of submitting certified cost or pricing data, the offeror may submit a request for exception from the requirement to submit certified cost or pricing data;

(3) Any requirement for data other than certified cost or pricing data; and

(4) The requirement for necessary preaward or postaward access to offeror's records.

(b) *Format for submission of data*.

(1) *Certified cost or pricing data*. Contracting officers may require submission of certified cost or pricing data in the format indicated in Table 15-1 at 15.408-2, specify an alternative format, or permit submission in the contractor's format, unless the data are required to be submitted on one of the termination forms specified in part 49.

(i) Offerors must describe any forward pricing rate agreements (FRPA) or other advanced agreements in each specific pricing proposal to which the rates apply and identify the latest cost or pricing data already submitted in accordance with the FPRA.

(ii) Data supporting FRPAs, other advanced agreements, or final indirect cost proposals must be submitted in a form acceptable to the contracting officer.

(2) *Data other than certified cost or pricing data*. Data may be submitted in the offeror's own format unless the contracting officer decides that use of a specific format is essential for evaluating and determining that the price is fair and reasonable and the format has been described in the RFP.

15.105-5 Make-or-buy decision.

(a) *General.* The Government may choose to review and agree on the offeror's make-or-buy program when necessary to ensure negotiation of reasonable contract prices, satisfactory performance, or implementation of socioeconomic policies.

(b) *Acquisitions requiring make-or-buy programs.*

(1) Contracting officers may require offerors to submit make-or-buy program plans for acquisitions requiring certified cost or pricing data whose estimated value is $20 million or more, except when the proposed contract is for research or development and, if prototypes or hardware are involved, no significant follow-on production is anticipated.

(2) Contracting officers may only require offerors to submit make-or-buy programs for acquisitions whose estimated value is under $20 million if the contracting officer—

(i) Determines that the information is necessary; and

(ii) Documents the reasons in the contract file.

(c) *RFP requirements.* When offerors must submit proposed make-or-buy programs, the RFP must include—

(1) A statement that the program and required supporting information must accompany the offer; and

(2) A description of factors to be used in evaluating the proposed program.

(d) *Required information from offerors.*

(1) The information required from an offeror about a make-or-buy program must—

(i) Be confined to those major items or work efforts that normally would require company management review of the make-or-buy decision because they are complex, costly, needed in large quantities, or require additional equipment or real property to produce;

(ii) Not include raw materials, products, commercial services, and off-the-shelf items, unless their potential impact on contract cost or schedule is critical; and,

(iii) Not include items or work efforts estimated to cost less than 1 percent of the total estimated contract price or any minimum dollar amount set by the agency.

(2) To support a make-or-buy program, the following information must be provided by an offeror in its proposal:

(i) A description of each major item or work effort.

(ii) Categorization of each major item or work effort as “must make,” “must buy, or “can either make or buy.”

(iii) For each item or work effort categorized as “can either make or buy,” a proposal either to “make” or to “buy.”

(iv) Reasons for categorizing items and work efforts as “must make” or “must buy,” and proposing to “make” or to “buy” those categorized as “can either make or buy.” The reasons must include the consideration given to the evaluation factors described in the RFP and must be in sufficient detail to permit the contracting officer to evaluate the categorization or proposal.

(v) Designation of the plant or division proposed to make each item or perform each work effort, and a statement as to whether the existing or proposed new facility is in or near a labor surplus area.

(vi) Identification of proposed subcontractors, if known, and their location and size status.

(vii) Any recommendations to defer make-or-buy decisions when categorization of some items or work efforts is impracticable at the time of submission.

(viii) Any other information the contracting officer requires in order to evaluate the program.

15.105-6 Should-cost review.

When a program should-cost review is planned in accordance with 15.405-4, the contracting officer should state this fact in the acquisition plan and in the RFP.

15.105-7 Unit prices.

To facilitate the analysis at 15.404-5, contracting officers must require offerers to identify in their proposals those items of supply that they will not manufacture or to which they will not contribute significant value when adequate price competition is not anticipated. This requirement does not apply to acquisitions for commercial products or commercial services.

15.106 Amending a request for proposal.

(a) *General*. When the Government changes its requirements or terms and conditions, the contracting officer must amend the RFP.

(1) Amendments issued before the established time and date for receipt of proposals must be issued to all parties receiving the RFP.

(2) Amendments issued after the established time and date for receipt of proposals must be issued to all offerors that have not been eliminated from the competition.

(b) *Content*. At a minimum, each amendment must include—

(1) The name and address of issuing activity;

(2) The RFP number and date;

(3) The amendment number and date;

(4) The number of pages in the amendment;

(5) A description of the change being made;

(6) The contracting officer's name and contact information; and

(7) The revised RFP closing date, if applicable.

(c) *Forms*. Prescribed forms are not required to amend RFPs described in this part. Agencies may use Standard Form (SF) 30, *Amendment of Solicitation/Modification of Contract*, and Optional Form (OF) 309, *Amendment of Solicitation*.

(d) *Oral notices*. Oral notices may be used when time is of the essence. Contracting officers should document the contract file and formalize the notice with a written amendment.

(e) *Requirement changes*.

(1) Contracting officers must amend the RFP if the Government is interested in a proposal that involves a departure from the stated requirements. The amendment should not reveal the alternate solution proposed or any other information that is entitled to protection.

(2) Contracting officers must cancel the RFP and issue a new one, regardless of the stage of the acquisition if an amendment—

(i) Is proposed after offers have been received, and

(ii) In the judgment of the contracting officer, based on market research or otherwise, has a requirement change that is so substantial it exceeds what prospective offerors reasonably could have anticipated as a change to the RFP, and additional sources likely would have submitted offers had the change been in the RFP.

15.107 Submission, modification, revision, and withdrawal of proposals.

(a) *Submission.* Offerors are responsible for submitting proposals, and any revisions or modifications, so as to reach the Government office designated in the RFP by the time specified in the RFP.

(1) *Method*. Offerors may use any transmission method authorized in the RFP.

(2) *Time*. If no time is specified in the RFP, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposals are due.

(b) *Late submission*. (1) *General*. Any proposal, modification, or revision, that is received at the designated Government office after the exact time specified for receipt of proposals is "late" and will not be considered, unless it is received before award is made, the contracting officer determines that accepting the late proposal would not unduly delay the acquisition, and —

(i) If it was transmitted through an electronic commerce method authorized by the RFP, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals;

(ii) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of proposals and was under the Government's control prior to the time set for receipt of proposals; or

(iii) It was the only proposal received.

(2) *Exception*. A late modification of an otherwise successful proposal, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted by the contracting officer.

(3) *Proof of receipt*. Acceptable evidence to establish the time of receipt at the Government installation includes electronic timestamps, the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) *Notification*. Contracting officers must promptly notify any offeror if its proposal, modification, or revision was received late, and inform the offeror whether its proposal will be considered, unless contract award is imminent and the award notice at 15.207-2 will suffice.

(5) *Documentation*. (i) When available, the file for each late proposal, modification, revision, or withdrawal received must include the date and hour of receipt; a statement regarding whether the proposal was considered for award, with supporting rationale; and the envelope, wrapper, or other evidence of date of receipt.

(ii) Late proposals and modifications that are not considered must be held unopened, unless opened for identification, until after award and then retained with other unsuccessful proposals.

(c) *Interruption*. If proposals cannot be received at the Government office designated for receipt of proposals by the exact time specified in the RFP because an emergency or unanticipated event interrupts normal Government processes, and urgent Government requirements preclude amendment of the RFP closing date, the time specified for RFP will be deemed to be extended to the same time of day specified in the RFP on the first work day on which normal Government processes resume.

(d) *Withdrawal*. Proposals may be withdrawn by written notice at any time before award. A copy of withdrawn proposals should be retained in the contract file.

(1) Extra copies of the withdrawn proposals may be destroyed or returned to the offeror at the offeror's request. Extremely bulky proposals must only be returned at the offeror's request and expense.

(2) Oral proposals in response to oral RFPs may be withdrawn orally. Contracting officers must document the contract file when oral withdrawals are made.

15.108 Receiving proposals.

(a) *Marking*. When there is no electronic record, contracting officers must mark proposals with the date and time of receipt and provide them to the designated officials.

(b) *Handling*. Proposals should be safeguarded from unauthorized disclosure throughout the source selection process in accordance with part 3.

(c) *Unreadable proposals.* If any portion of a proposal submitted electronically is unreadable, contracting officers must immediately notify the offeror and permit the offeror to resubmit the unreadable portion of the proposal. Contracting officers must establish the method and time for resubmission after consultation with the offeror and document the file. For the purpose of determining timeliness under 15.107, the resubmission is considered as if it were received at the date and time of the original unreadable submission, provided the offeror complies with the time and format requirements established by the contracting officer for resubmission.

15.109 Uniform contract format.

RFPs using the uniform contract format should include Parts I, II, III, and IV. Upon award, contracting officers should not physically include Part IV in the resulting contract, but should retain it in the contract file. The representations and certifications in Part IV are incorporated by reference in the contract through FAR clauses 52.204-19, Incorporation by Reference of Representations and Certifications, and 52.212-4, Contract Terms and Conditions-Commercial Products and Commercial Services.

15.109-1 Part I - The Schedule.

(a) *Section A, Solicitation/contract form*.

(1) Prescribed forms are not required to prepare RFPs described in this part. Agencies may use Optional Form (OF) 308, *Solicitation and Offer-Negotiated Acquisition*, or Standard Form (SF) 33, *Solicitation, Offer and of Award*, to prepare RFPs.

(2) When other than OF 308 or SF 33 is used, include the following information on the first page of the RFP:

(i) Name, address, and location of issuing activity, including room and building where proposals or information must be submitted.

(ii) RFP number.

(iii) Date of issuance.

(iv) Closing date and time.

(v) Number of RFP pages.

(vi) Requisition or other purchase authority.

(vii) Brief description of item or service.

(viii) Requirement for the offeror to provide its name and complete address, including street, city, county, state, and zip code, and email address, if appropriate.

(ix) Offer expiration date.

(b) *Section B, Supplies or services and prices/costs.* Include a brief description of the supplies or services, including any incidental deliverables.

(c) *Section C, Description/specifications/requirements.* Include any description or specifications needed in addition to Section B.

(d) *Section D, Packaging and marking.* Include packaging, packing, preservation, and marking requirements, if any.

(e) *Section E, Inspection and acceptance.* Include inspection, acceptance, quality assurance, and reliability requirements.

(f) *Section F, Deliveries or performance.* Include the requirements for time, place, and method of delivery or performance.

(g) *Section G, Contract administration data.* Include any required accounting and appropriation data and any required contract administration information or instructions not included in other sections of the uniform contract format. Include a statement that the offeror should include the payment address in the proposal, if it is different from that shown for the offeror.

(h) *Section H, Special contract requirements.* Include a clear statement of any special contract requirements that are not included in Section I or in other sections of the uniform contract format.

15.109-2 Part II - Contract Clauses.

Section I, Contract clauses. Include the clauses required by law or by this part and any additional clauses expected to be included in any resulting contract, if these clauses are not required in any other section of the uniform contract format. An index may be inserted if this section's format is particularly complex.

15.109-3 Part III - List of Documents, Exhibits, and Other Attachments.

Section J, List of attachments. Include a list of the title, date, and number of pages for each attached document, exhibit, and other attachment. Cross references to material in other sections may be inserted, as appropriate.

15.109-4 Part IV - Representations and Instructions.

(a) *Section K, Representations, certifications, and other statements of offerors.* Include RFP provisions that require representations, certifications, or the submission of other information by offerors.

(b) *Section L, Instructions, conditions, and notices to offerors or respondents.* Include solicitation provisions and other information and instructions not required elsewhere to guide offerors in preparing proposals.

(1) Include the method(s) offerors may use to submit a proposal.

(2) Offerors may be instructed to submit proposals or information in a specific format or severable parts to facilitate evaluation. Agencies may also require the proposal to be further organized into sections (e.g., administrative, management, technical, past performance, and certified cost and pricing data or data other than certified cost and pricing data).

(c) *Section M, Evaluation factors for award.* Identify all significant factors and any significant subfactors that will be considered in awarding the contract, their relative importance, and one of the phrases in 15.104(d), as required.

15.110 Solicitation provisions and contract clauses.

(a) Insert the provision at 52.215-1, *Instructions to Offerors—Competitive Acquisition*, in all competitive RFPs where the Government intends to award a contract without negotiations.

(1) If the Government intends to make award after negotiating with offerors within the competitive range, use the provision with its *Alternate I.*

(2) If the Government would be willing to accept alternate proposals, alter the clause to add a paragraph (c)(9) substantially the same as *Alternate II.*

(b) (1) Insert the clause at 52.215-2, *Audit and Records-Negotiation* (10 U.S.C. 3841, 41 U.S.C. 4706, and Audit Requirements in the OMB Uniform Guidance at 2 CFR part 200, subpart F), in RFPs and contracts except those for—

(i) Acquisitions not exceeding the simplified acquisition threshold;

(ii) The acquisition of utility services at rates not exceeding those established to apply uniformly to the general public, plus any applicable reasonable connection charge; or

(iii) The acquisition of commercial products or commercial services exempted under 15.403-2.

(2) [Reserved]

(3) For cost-reimbursement contracts with State and local Governments, educational institutions, and other nonprofit organizations, use the clause with its *Alternate II.*

(4) When the head of the agency has waived the examination of records by the Comptroller General in accordance with part 25, use the clause with its *Alternate III.*

(c) [Reserved]

(d) [Reserved]

(e) [Reserved]

(f) Insert the provision at 52.215-6, *Place of Performance*, in RFPs, unless the place of performance is specified by the Government.

(g) [Reserved]

(h) Insert the clause at 52.215-8, *Order of Precedence—Uniform Contract Format*, in RFPs and contracts using the format at 15.108.

(i) Insert the clause at 52.215-9, *Changes or Additions to Make-or-Buy Program*, in RFPs and contracts when it is contemplated that a make-or-buy program will be incorporated in the contract. If a less economical "make" or "buy" categorization is selected for one or more items of significant value, the contracting officer must use the clause with—

(1) Its *Alternate I*, if a fixed-price incentive contract is contemplated; or

(2) Its *Alternate II*, if a cost-plus-incentive-fee contract is contemplated.

(j) Insert the clause at 52.215-10, *Price Reduction for Defective Certified Cost or Pricing Data*, in RFPs and contracts when it is contemplated that certified cost or pricing data will be required from the contractor or any subcontractor.

(k) Insert the clause at 52.215-11, *Price Reduction for Defective Certified Cost or Pricing Data—Modifications*, in RFPs and contracts when it is contemplated that certified cost or pricing data will be required from the contractor or any subcontractor for the pricing of contract modifications, and the clause prescribed in paragraph (j) of this section has not been included.

(l) Contracting officers must —

(1) Insert the clause at 52.215-12, *Subcontractor Certified Cost or Pricing Data*, in RFPs and contracts when the clause prescribed in paragraph (j) of this section is included; or

(2) Upon the request of a contractor that was required to submit certified cost or pricing data in connection with a prime contract entered into before July 1, 2018, modify the contract without requiring consideration, to replace clause 52.215-12, *Subcontractor Certified Cost or Pricing Data,* with its *Alternate I.*

(m) Contracting officers must—

(1) Insert the clause at 52.215-13, *Subcontractor Certified Cost or Pricing Data—Modifications*, in RFPs and contracts when the clause prescribed in paragraph (k) of this section is included; or

(2) Upon the request of a contractor that was required to submit certified cost or pricing data in connection with a prime contract entered into before July 1, 2018, modify the contract without requiring consideration, to replace clause 52.215-13, *Subcontractor Certified Cost or Pricing Data—Modifications*, with its *Alternate I.*

(n) (1) Insert the clause at 52.215-14, *Integrity of Unit Prices*, in RFPs and contracts except for—

(i) Acquisitions at or below the simplified acquisition threshold;

(ii) Construction or architect-engineer services under part 36;

(iii) Utility services under part 41;

(iv) Service contracts where supplies are not required;

(v) Acquisitions of commercial products and commercial services; and

(vi) Contracts for petroleum products.

(2) Use the clause with its *Alternate I* when contracting without adequate price competition or when prescribed by agency regulations.

(o) Insert the clause at 52.215-15, *Pension Adjustments and Asset Reversions*, in RFPs and contracts for which it is anticipated that certified cost or pricing data will be required or for which any preaward or postaward cost determinations will be subject to part 31.

(p) Insert the provision at 52.215-16, *Facilities Capital Cost of Money*, in RFPs expected to result in contracts that are subject to the cost principles for contracts with commercial organizations.

(q) Insert the clause at 52.215-17, *Waiver of Facilities Capital Cost of Money*, in the resulting contract if the prospective contractor does not propose facilities capital cost of money in its offer.

(r) Insert the clause at 52.215-18, *Reversion or Adjustment of Plans for Postretirement Benefits (PRB) Other Than Pensions*, in RFPs and contracts for which it is anticipated that certified cost or pricing data will be required or for which any preaward or postaward cost determinations will be subject to part 31.

(s) Insert the clause at 52.215-19, *Notification of Ownership Changes,* in RFPs and contracts for which it is contemplated that certified cost or pricing data will be required or for which any preaward or postaward cost determination will be subject to subpart 31.2.

(t) Considering the hierarchy at 15.403-1(a), insert the provision at 52.215-20, *Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data*, in RFPs if it is reasonably certain that certified cost or pricing data or data other than certified cost or pricing data will be required. This provision also provides instructions to offerors on how to request an exception from the requirement to submit certified cost or pricing data.

(1) Use the provision with its *Alternate I* to specify a format for certified cost or pricing data other than the format required by Table 15-1 at 15.408-2;

(2) Use the provision with its *Alternate II* if copies of the proposal are to be sent to the ACO and contract auditor;

(3) Use the provision with its *Alternate III* if submission via electronic media is required; and

(4) Replace the basic provision with its *Alternate IV* if certified cost or pricing data are not expected to be required because an exception may apply, but data other than certified cost or pricing data will be required as described in 15.403-1.

(u) Considering the hierarchy at 15.403-1(a), insert the clause at 52.215-21, *Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data—Modifications*, in RFPs and contracts if it is reasonably certain that certified cost or pricing data or data other than certified cost or pricing data will be required for modifications. This clause also provides instructions to contractors on how to request an exception from the requirement to submit certified cost or pricing data.

(1) Use the clause with its *Alternate I* to specify a format for certified cost or pricing data other than the format required by Table 15-1 at 15.408-2;

(2) Use the clause with its *Alternate II* if copies of the proposal are to be sent to the ACO and contract auditor;

(3) Use the clause with its *Alternate III* if submission via electronic media is required; and

(4) Replace the basic clause with its *Alternate IV* if certified cost or pricing data are not expected to be required because an exception may apply, but data other than certified cost or pricing data will be required as described in 15.403-1.

(v) (1) Insert the provision at 52.215-22, *Limitations on Pass-Through Charges—Identification of Subcontract Effort*, in RFPs containing the clause at 52.215-23.

(2) (i) Except as provided in paragraph (v)(2)(ii) of this section, insert the clause 52.215-23, *Limitations on Pass-Through Charges*, in RFPs and contracts including task or delivery orders as follows:

(A) For civilian agencies, insert the clause when—

(1) The total estimated contract or order value exceeds the simplified acquisition threshold as defined in part 2; and

(2) The contemplated contract type is expected to be a cost-reimbursement type contract as defined in part 16; or

(B) For DoD, insert the clause when—

(1) The total estimated contract or order value exceeds the threshold for obtaining cost or pricing data in 15.403-3(a); and

(2) The contemplated contract type is expected to be any contract type except—

(i) A firm-fixed-price contract awarded on the basis of adequate price competition;

(ii) A fixed-price contract with economic price adjustment awarded on the basis of adequate price competition;

(iii) A firm-fixed-price contract for the acquisition of a commercial product or commercial service;

(iv) A fixed-price contract with economic price adjustment, for the acquisition of a commercial product or commercial service; or

(v) A fixed-price incentive contract awarded on the basis of adequate price competition.

(ii) The clause may be used when the total estimated contract or order value is below the thresholds identified in 15.110(v)(2)(i) and for any contract type, when the contracting officer determines that inclusion of the clause is appropriate.

(iii) Use the clause 52.215-23 with its *Alternate I* when the contracting officer determines that the prospective contractor has demonstrated that its functions provide added value to the contracting effort and there are no excessive pass-through charges.

This page intentionally left blank.

Subpart 15.2 - Evaluation and Award

15.200 Scope.

This subpart addresses policies and procedures for evaluating and negotiating competitive proposals and awarding contracts.

15.201 Source selection responsibilities.

(a) Agency heads are responsible for source selection. A contracting officer is designated as the source selection authority (SSA), unless the agency head appoints another individual for a particular acquisition or group of acquisitions.

(b) The SSA must—

(1) Establish an evaluation team tailored for the acquisition that includes appropriate contracting, legal, logistics, technical, and other expertise to ensure a comprehensive evaluation of proposals;

(2) Approve the source selection approach or acquisition plan, if applicable, before issuance of the request for proposal (RFP);

(3) Ensure consistency among the RFP requirements, notices to offerors, proposal preparation instructions, evaluation factors and subfactors, solicitation provisions or contract clauses, and data requirements;

(4) Ensure that proposals are evaluated based solely on the factors and subfactors contained in the RFP ((10 U.S.C. 3303(c) and 41 U.S.C. 3703(c));

(5) Consider the recommendations of advisory boards or panels, when applicable; and

(6) Select the offeror or offerors whose proposal is the best value to the Government (10 U.S.C. 3303(c) and 41 U.S.C. 3703(c)). The SSA may reject all proposals received in response to a RFP, if doing so is in the best interest of the Government.

(c) Contracting officers must—

(1) After release of a RFP, serve as the focal point for inquiries from actual or prospective offerors;

(2) After receipt of proposals, control communications with offerors;

(3) When negotiating noncompetitive proposals, evaluate the proposal and document the reasonableness of the offered prices in accordance with subpart 15.4; and

(4) Award the contract(s).

(d) *Limitations.* Government personnel involved in the acquisition must not engage in conduct that—

(1) Favors one offeror over another;

(2) Reveals an offeror's technical solution, including—

(i) Unique technology;

(ii) Innovative and unique uses of commercial products or commercial services; or

(iii) Any information that would compromise an offeror's intellectual property to another offeror;

(3) Reveals an offeror's price without that offeror's permission.

(4) Reveals the names of individuals providing information about an offeror's past performance; or

(5) Knowingly furnishes source selection information in violation of 3.104 and 41 U.S.C. 2102 and 2107.

15.202 Evaluating competitive proposals.

(a) *General*.

(1) Proposal evaluation is an assessment of the proposal and an offeror's ability to perform the prospective contract successfully. Agencies must evaluate each competitive proposal based solely on the factors and subfactors in the RFP.

(2) *Clarifications*.

(i) Clarifications are exchanges between the Government and offerors where offerors are given the opportunity to resolve minor or clerical errors or clarify certain aspects of their proposal. Clarifications can be used to enhance the Government’s understanding of a proposal, allow reasonable interpretation of a proposal, or facilitate the Government’s evaluation process.

(ii) Clarifications include, but are not limited to, addressing: ambiguities of the proposal; other concerns such as perceived deficiencies, weaknesses, errors, omissions, or mistakes; the relevance of an offeror's past performance information; and adverse past performance information to which the offeror has not previously had an opportunity to respond.

(iii) Clarifications do not permit offerors to revise their proposal and cannot be used to cure proposal deficiencies or material omissions or materially alter the technical or cost elements of the proposal. However, contracting officers may request additional information or documentation provided the cost/price or other material elements of the proposal are unchanged.

(iv) Clarifications may occur, at the contracting officer's discretion, at any time after receipt of proposals through contract award. Contracting officers are not required to conduct clarifications with an offeror. If the contracting officer conducts clarifications with one or more offerors, it is not required to conduct clarifications with any other offeror.

(3) *Oral Presentations*. Contracting officers must maintain a record of oral presentations to document what the Government relied upon in making the source selection decision. The method and level of detail of the record (e.g., videotaping, audio tape recording, written record, Government notes, copies of offeror briefing slides or presentation notes) is at the discretion of the SSA. When an oral presentation includes information that the parties intend to include in the contract as material terms or conditions, the information must be put in writing and incorporated in the proposal and any resultant contract. Incorporation by reference of oral statements is not permitted.

(b) *Technical evaluation.*

(1) When using the lowest price technically acceptable (LPTA) approach, proposals are evaluated for technical acceptability only.

(2) When using the tradeoff approach, the evaluation must include-

(i) An assessment of each offeror's ability to accomplish the technical requirements; and

(ii) An evaluation of the relative strengths, deficiencies, significant weaknesses, and risks supporting proposal evaluation.

(3) If teleworking is not prohibited, agencies must not unfavorably evaluate an offer that includes telework unless the contracting officer executes a written determination in accordance with part 7.

(c) *Past performance evaluation.*

(1) *No past performance information.* An offeror without a record of relevant past performance or for whom information on past performance is not available may not be evaluated favorably or unfavorably on past performance.

(2) *LPTA source selection process*. If past performance is evaluated when using the LPTA source selection process, contracting officers must only determine if the performance is technically acceptable and not perform a comparative assessment of the information.

(3) *Considerations*. Evaluations should consider the following:

(i) The information provided by the offeror, as well as information obtained from any other sources.

(ii) The currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance. The SSA determines the relevance of similar past performance information.

(iii) Any information regarding predecessor companies, key personnel who have relevant experience, or subcontractors that will perform major or critical aspects of the requirement when such information is relevant to the instant acquisition.

(iv) The past performance of the joint venture, when evaluating an offer from a joint venture. If the joint venture does not demonstrate past performance for award, the past performance of each party to the joint venture must be considered.

(4) *Small business*. When using the LPTA source selection approach and a small business would have been in contention for award, but their past performance is determined to be unacceptable, the matter must be referred to the SBA for a Certificate of Competency determination.

(d) *Cost or price evaluation*. Agencies must purchase supplies and services from responsible sources at fair and reasonable prices. Contracting officers are responsible for evaluating and documenting the reasonableness of the awarded price in accordance with subpart 15.4.

15.203 Competitive award without negotiation.

Contracting officers may make competitive awards without negotiations if the RFP states that the Government intends to evaluate proposals and make award without negotiation. If the RFP includes such a notice and the Government determines it is necessary to negotiate, the rationale for doing so must be documented in the contract file (10 U.S.C. 3303(a)(2) and 41 U.S.C. 3703(a)(2)).

15.204 Competitive award with negotiation.

15.204-1 Establishing a competitive range.

(a) *Competitive range*. A competitive range is the group of evaluated proposals that the contracting officer determines are best suited for further negotiation. Contracting officers must establish a competitive range if negotiations will occur after evaluating competitive proposals.

(b) *Narrowing the competitive range for efficiency*. When establishing the competitive range, contracting officers may determine that the number of most highly rated proposals that might otherwise be included in the competitive range exceeds the number at which an efficient competition can be conducted. The contracting officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly evaluated proposals (10 U.S.C. 3303 and 41 U.S.C. 3703).

(c) *Notice*. Written notice must be provided to unsuccessful offerors in accordance with 15.206-1(a).

15.204-2 Competitive negotiations.

(a) *General*. The scope and extent of negotiations are a matter of contracting officer judgment.

(b) *Requirement*.

(1) Contracting officers must—

(i) Negotiate with each responsible offeror within the competitive range; and

(ii) Tailor the negotiation to the offeror's proposal, but at a minimum, indicate to, or negotiate with, each offeror any deficiencies or significant weaknesses in the proposal.

(2) Contracting officers may further negotiate with an offeror, if necessary. Having further negotiations with a particular offeror does not obligate contracting officers to have further negotiations with any other offerors.

(3) Contracting officers may also negotiate other aspects of the offeror's proposal that could, in the opinion of the contracting officer, be altered or explained to enhance materially the proposal's potential for award. Contracting officers are not required to negotiate every area where the proposal could be improved.

(4) When an RFP stated that evaluation credit would be given for technical solutions exceeding any mandatory minimums, contracting officers may negotiate with offerors for increased performance beyond any mandatory minimums, and suggest to offerors that have exceeded any mandatory minimums (in ways that are not integral to the design), that their proposals would be more competitive if the excesses were removed and the proposed price decreased.

(c) *Elimination from the competitive range*. A proposal must be eliminated from consideration for award when the contracting officer determines that a proposal should no longer be included in the competitive range. Written notice of this decision must be provided to unsuccessful offerors in accordance with 15.206-1(a).

(1) When a proposal is eliminated, no further revisions to the proposal can be accepted or considered.

(2) Contracting officers may eliminate a proposal from the competitive range at any time upon concluding that the offeror is unlikely to receive an award. Contracting officers are not required to have an additional negotiation with an offeror prior to taking such action.

(d) *Proposal revision*.

(1) When negotiations with an offeror are finished, and that offeror has not been eliminated from the competitive range, contracting officers must provide the offeror with—

(i) An opportunity to submit a proposal revision; and

(ii) A notice requiring the proposal revision in writing and stating that the Government intends to make award without obtaining further revisions.

(2) Each offeror with a proposal still within the competitive range must be given an equal amount of time within which to submit their proposal revision.

15.205 Source selection decision.

The source selection decision must represent the SSA's independent judgement and be based on a comparative assessment of proposals against all source selection criteria in the RFP. The source selection decision must be documented and include the rationale for any business judgments and tradeoffs made or relied on by the SSA, including benefits associated with additional costs. The documentation does not need to quantify the tradeoffs that led to the decision.

15.206 Preaward notices and debriefings.

(a) *Definition*. Day, as used in this section, has the meaning set forth at part 33.

(b) *Applicability*. Sections 15.206 through 15.206-2 apply to competitive proposals, except for those using the other competitive procedures described in subpart 6.1 for architect-engineer contracts and basic and applied research. The procedures for award notification, with reasonable modification, should be followed for contracts awarded using those other competitive procedures.

15.206-1 Preaward notices.

(a) *Notice of exclusion from competitive range*. Contracting officers must notify offerors promptly in writing when their proposals are excluded from the competitive range or otherwise eliminated from the competition. The notice must state the basis for the determination and that proposal revisions will not be considered. These offerors may request a debriefing in accordance with 15.206-2 and 15.301.

(b) *Notice of small business set-aside award.*

(1) When using a set-aside for small business, HUBZone, the Service-Disabled Veteran-Owned Small Business Program, or the Women-Owned Small Business Program, contracting officers must notify each offeror, in writing, prior to award and upon completion of negotiations and determinations of responsibility—

(i) Of the name and address of the apparently successful offeror; and

(ii) That the Government will not consider subsequent revisions of the offeror's proposal.

(2) This notice is in addition to any notice of exclusion from competitive range.

(3) This notice is not required when the contracting officer determines in writing that the urgency of the requirement necessitates award without delay or when the contract is entered into under the 8(a) program.

15.206-2 Preaward debriefing.

Offerors excluded from the competitive range or otherwise excluded from the competition before award may request a debriefing before award (10 U.S.C. 3305 and 41 U.S.C. 3705). The contracting officer should chair any debriefing held. Individuals who conducted evaluations must provide support.

(a) *Request timeframe*.

(1) Offerors may request a preaward debriefing by submitting a written request for debriefing to the contracting officer within 3 days after receipt of the notice of exclusion from the competition.

(2) At the offeror's request, this debriefing may be delayed until after award. If the debriefing is delayed until after award, it must include all information normally provided in a postaward debriefing. Debriefings delayed pursuant to this paragraph could affect the timeliness of any protest filed subsequent to the debriefing.

(3) If the offeror does not submit a timely request, the offeror need not be given either a preaward or a postaward debriefing. Offerors are entitled to no more than one debriefing for each proposal.

(b) *Method*. Debriefings may be done by any method acceptable to the contracting officer.

(c) *Content*.

(1) At a minimum, preaward debriefings must include—

(i) The agency's evaluation of significant elements in the offeror's proposal;

(ii) A summary of the rationale for eliminating the offeror from the competition; and

(iii) Reasonable responses to relevant questions about whether source selection procedures contained in the RFP, applicable regulations, and other applicable authorities were followed by the agency.

(2) A summary of the debriefing must be included in the contract file.

(d) *Nondisclosure*. Preaward debriefings must not disclose—

(1) The number of offerors;

(2) The identity of other offerors;

(3) The content of other offerors proposals;

(4) The ranking of other offerors;

(5) The evaluation of other offerors; or

(6) Any of the information prohibited in 15.301-1(d).

(e) *Delay until after award*. Contracting officers must make every effort to debrief the unsuccessful offeror as soon as practicable, but may refuse the request for a debriefing if, for compelling reasons, it is not in the best interests of the Government to conduct a debriefing at that time.

(1) The rationale for delaying the debriefing must be documented in the contract file.

(2) If the contracting officer delays the debriefing, it must be provided no later than the time postaward debriefings are provided under 15.301-1. In that event, the contracting officer must include the information at 15.301-1(c) in the debriefing.

15.207 Award.

15.207-1 Award to successful offeror.

(a) *General*. Contracting officers must award a contract to the successful offeror by furnishing the executed contract or other notice of the award to that offeror.

(b) *Award document*.

(1) Contracting officers may use OF 307, *Contract Award;* SF 26*, Award/Contract*; or SF 33, *Solicitation, Offer and Award*, to award negotiated contracts in which the signature of both parties on a single document is appropriate. Do not use Block 18 of SF 26.

(2) When not using the OF 307, SF26, or SF 33 to award the contract:

(i) The first page of the award document must include—

(A) The Government's acceptance statement from Block 15 of the OF 307, exclusive of the Item 3 reference language; and

(B) The contracting officer's name, signature, and date.

(ii) If the award document includes information that is different than the signed proposal, as amended by the offeror's written correspondence, the first page of the award document must include—

(A) The contractor's agreement statement from Block 14 of the OF 307; and

(B) The signature of the contractor's authorized representative.

15.207-2 Award notice.

(a) *Definition*. *Day*, as used in this subsection, has the meaning set forth at part 33.

(b) *Requirement.* Within 3 days after the date of contract award, contracting officers must provide written notification to each offeror whose proposal was in the competitive range but was not selected for award (10 U.S.C. 3304 and 41 U.S.C. 3704) or had not previously received a notice in accordance with 15.206-1(a). The notice must include—

(1) The number of offerors solicited;

(2) The number of proposals received;

(3) The name and address of each offeror receiving an award;

(4) The items, quantities, and any stated unit prices of each award.

(i) If the number of items or other factors makes listing any stated unit prices impracticable at that time, only the total contract price need be furnished in the notice.

(ii) The items, quantities, and any stated unit prices of each award must be made publicly available, upon request; and

(5) In general terms, the reason(s) the offeror's proposal was not accepted, unless the price information in paragraph (b)(4) of this section readily reveals the reason. An offeror's cost breakdown, profit, overhead rates, trade secrets, manufacturing processes and techniques, or other confidential business information must not be disclosed to any other offeror.

(c) *Requests for information*. Upon request, contracting officers must provide the information in paragraph (b) of this section to unsuccessful offerors that received a preaward notice of exclusion from the competitive range.

This page intentionally left blank.

Subpart 15.3 - Postaward

15.300 Scope.

This subpart addresses postaward actions and considerations for negotiated contracts. The procedures for postaward debriefings, protests, and mistakes do not apply to contracts awarded using the other competitive procedures described in subpart 6.1 for architect-engineer contracts and basic and applied research. The procedures for postaward debriefings, protests, and mistakes, with reasonable modification, should be followed for contracts awarded using those other competitive procedures.

15.301 Postaward debriefing of offerors.

Definition—

Day, as used in this section, has the meaning set forth at part 33.

15.301-1 Debriefing process.

The awardee and offerors that received the award notice at 15.207-2 may request a postaward debriefing after receiving a notice of contract award. Contracting officers must chair any debriefing held and individuals who conducted evaluations must provide support.

(a) *Request timeframe*.

(1) Offerors may request a postaward debriefing by submitting a written request for the debriefing to the contracting officer within 3 days after receipt of the award notice in accordance with 15.207-2. Such offerors must be debriefed and furnished the basis for the selection decision and contract award.

(2) To the maximum extent practicable, the debriefing should occur within 5 days after receipt of the written request. Offerors that requested a postaward debriefing in lieu of a preaward debriefing, or whose debriefing was delayed for compelling reasons beyond contract award, also should be debriefed within this time period.

(3) Untimely debriefing requests may be accommodated.

(4) An offeror that was notified of its exclusion from the competitive range is not entitled to a postaward debriefing if the offeror failed to submit a timely preaward debriefing request, however such a request may be accommodated.

(5) The deadlines for filing protests are not extended when the Government accommodates an untimely debriefing request or an offeror's request to delay a preaward debriefing until after award. Preaward debriefings delayed pursuant to 15.206-2(a)(2) could affect the timeliness of any protest filed subsequent to the debriefing.

(b) *Method*. Debriefings may be done by any method acceptable to the contracting officer.

(c) *Content*.

(1) At a minimum, the debriefing information must include—

(i) The Government's evaluation of the significant weaknesses or deficiencies in the offeror's proposal, if applicable;

(ii) The overall evaluated cost or price and technical rating of the successful offeror and the debriefed offeror, and past performance information on the debriefed offeror;

(iii) The overall ranking of all offerors, when any ranking was developed by the agency during the source selection;

(iv) A summary of the rationale for award;

(v) For acquisitions of commercial products, the make and model of the product to be delivered by the successful offeror;

(vi) Reasonable responses to relevant questions about whether source selection procedures contained in the request for proposals (RFP), applicable regulations, and other applicable authorities were followed by the agency;

(vii) For DoD contracts in excess of $10 million but not in excess of $100 million with a small business or nontraditional defense contractor (10 U.S.C. 3014), an option for the contractor to request disclosure of the agency's written source selection decision document, redacted to protect the confidential and proprietary information of other offerors for the contract award.

(viii) For award of a DoD contract in excess of $100 million, disclosure of the agency's written source selection decision document, redacted to protect the information of other offerors for the contract award, in accordance with paragraph (d) of this subsection.

(2) An official summary of the debriefing must be included in the contract file.

(d) *Nondisclosure*. The debriefing must not include point-by-point comparisons of the debriefed offeror's proposal with those of other offerors. Moreover, the debriefing must not reveal any information prohibited from disclosure by part 24 or exempt from release under the Freedom of Information Act (5 U.S.C. 552) including—

(1) Trade secrets;

(2) Privileged or confidential manufacturing processes and techniques;

(3) Commercial and financial information that is privileged or confidential, including cost breakdowns, profit, indirect cost rates, and similar information; and

(4) The names of individuals providing reference information about an offeror's past performance.

15.301-2 Opportunity for follow-up questions.

If time permits, contracting officers may provide successful and unsuccessful offerors an opportunity to submit follow up questions after the postaward debriefing.

15.302 Protests against award.

(a) Protests against award in negotiated acquisitions must be handled in accordance with part 33. Use of agency protest procedures that incorporate the alternative dispute resolution provisions of Executive Order 12979 is encouraged for both preaward and postaward protests.

(b) If a protest causes the agency, within 1 year of contract award, to—

(1) Issue a new RFP on the protested contract award, contracting officers must provide the information in paragraph (c) of this section to all prospective offerors for the new RFP; or

(2) Issue a new request for revised proposals on the protested contract award, the contracting officer must provide the information in paragraph (c) of this section to offerors that were in the competitive range and are requested to submit revised proposals.

(c) The following information will be provided to appropriate parties:

(1) Information provided to unsuccessful offerors in any debriefings conducted on the original award regarding the successful offeror's proposal; and

(2) Other nonproprietary information that would have been provided to the original offerors.

15.303 Discovery of mistakes.

Mistakes in a contractor's proposal that are disclosed after award must be processed substantially in accordance with the procedures for mistakes in bids in part 14.

15.304 Defective certified cost or pricing data after award.

(a) (1) If, after award, certified cost or pricing data are found to be inaccurate, incomplete, or noncurrent as of the date of final agreement on price or an earlier date agreed upon by the parties given on the contractor's or subcontractor's Certificate of Current Cost or Pricing Data, the Government is entitled to a price adjustment, including profit or fee, of any significant amount by which the price was increased because of the defective data.

(i) This entitlement is ensured by including in the contract one of the clauses prescribed in 15.110(j) and (k), and is set forth in the clauses at 52.215-10, *Price Reduction for Defective Certified Cost or Pricing Data*, and 52.215-11, *Price Reduction for Defective Certified Cost or Pricing Data—Modifications*.

(ii) The clauses give the Government the right to a price adjustment for defects in certified cost or pricing data submitted by the contractor, a prospective subcontractor, or an actual subcontractor.

(2) In arriving at a price adjustment, contracting officers must consider the time by which the certified cost or pricing data became reasonably available to the contractor, and the extent to which the Government relied upon the defective data.

(3) The clauses referred to in paragraph (a)(1)(i) of this subsection recognize that the Government's right to a price adjustment is not affected by any of the following circumstances:

(i) The contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position;

(ii) The contracting officer should have known that the certified cost or pricing data in issue were defective even though the contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the contracting officer;

(iii) The contract was based on an agreement about the total cost of the contract and there was no agreement about the cost of each item procured under such contract; or

(iv) Certified cost or pricing data were required; however, the contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data relating to the contract.

(4) Subject to paragraphs (a)(5) and (6) of this subsection, contracting officers must allow an offset for any understated certified cost or pricing data submitted in support of price negotiations, up to the amount of the Government's claim for

overstated pricing data arising out of the same pricing action (e.g., the initial pricing of the same contract or the pricing of the same change order).

(5) An offset must be allowed only in an amount supported by the facts and if the contractor—

(i) Certifies to the contracting officer that, to the best of the contractor's knowledge and belief, the contractor is entitled to the offset in the amount requested; and

(ii) Proves that the certified cost or pricing data were available before the "as of" date specified on the Certificate of Current Cost or Pricing Data but were not submitted. Such offsets need not be in the same cost groupings (e.g., material, direct labor, or indirect costs).

(6) An offset must not be allowed if—

(i) The understated data were known by the contractor to be understated before the "as of" date specified on the Certificate of Current Cost or Pricing Data; or

(ii) The Government proves that the facts demonstrate that the price would not have increased in the amount to be offset even if the available data had been submitted before the "as of" date specified on the Certificate of Current Cost or Pricing Data.

(7) (i) In addition to the price adjustment, the Government is entitled to recovery of any overpayment plus interest on the overpayments. The Government is also entitled to penalty amounts on certain of these overpayments. Overpayment occurs only when payment is made for supplies or services accepted by the Government. Overpayments do not result from amounts paid for contract financing, as defined in part 32.

(ii) In calculating the interest amount due, contracting officers must—

(A) Determine the defective pricing amounts that have been overpaid to the contractor;

(B) Consider the date of each overpayment (the date of overpayment for this interest calculation must be the date payment was made for the related completed and accepted contract items; or for subcontract defective pricing, the date payment was made to the prime contractor, based on prime contract progress billings or deliveries, which included payments for a completed and accepted subcontract item); and

(C) Apply the underpayment interest rate(s) in effect for each quarter from the time of overpayment to the time of repayment, utilizing rate(s) prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2).

(iii) In arriving at the amount due for penalties on contracts where the submission of defective certified cost or pricing data was a knowing submission, contracting officers must obtain an amount equal to the amount of overpayment made. Before taking any contractual actions concerning penalties, the contracting officer must obtain the advice of counsel.

(iv) In the demand letter, contracting officers must separately include—

(A) The repayment amount;

(B) The penalty amount (if any);

(C) The interest amount through a specified date; and

(D) A statement that interest will continue to accrue until repayment is made.

(b) If, after award, the contracting officer learns or suspects that the data furnished were not accurate, complete, and current, or were not adequately verified by the contractor as of the time of negotiation, the contracting officer must request an audit to evaluate the accuracy, completeness, and currency of the data. The Government may evaluate the profit-cost relationships only if the audit reveals that the data certified by the contractor were defective. Contracting officers must not reprice the contract solely because the profit was greater than forecast or because a contingency specified in the submission failed to materialize.

(c) For each advisory audit received based on a postaward review that indicates defective pricing, contracting officers must make a determination as to whether or not the data submitted were defective and relied upon. Before making such a determination, contracting officers should give the contractor an opportunity to support the accuracy, completeness, and currency of the data in question. Contracting officers must prepare a memorandum documenting both the determination and any corrective action taken as a result. Contracting officers must send one copy of this memorandum to the auditor and, if the contract has been assigned for administration, one copy to the administrative contracting officer (ACO). A copy of the memorandum or other notice of the contracting officer's determination must be provided to the contractor. When the contracting officer determines that the contractor submitted defective cost or pricing data, the contracting officer, in accordance with agency procedures, must ensure that information relating to the contracting officer's final determination is reported as part of the contractor's performance information in accordance with part 42. Agencies must ensure updated information that changes a contracting officer's prior final determination is reported into the FAPIIS module of Contractor Performance Assessment Reporting System (CPARS) in the event of a—

(1) Contracting officer's decision in accordance with the Contract Disputes statute;

(2) Board of Contract Appeals decision; or

(3) Court decision.

(d) If both the contractor and subcontractor submitted, and the contractor certified, or should have certified, cost or pricing data, the Government has the right, under the clauses at 52.215-10, *Price Reduction for Defective Certified Cost or Pricing Data*, and 52.215-11, *Price Reduction for Defective Certified Cost or Pricing Data—Modifications*, to reduce the prime contract price if it was significantly increased because a subcontractor submitted defective data. This right applies whether these data supported subcontract cost estimates or supported firm agreements between subcontractor and contractor.

(e) If Government audit discloses defective subcontractor certified cost or pricing data, the information necessary to support a reduction in prime contract and subcontract prices may be available only from the Government. To the extent necessary to secure a prime contract price reduction, contracting officers should make this information available to the prime contractor or appropriate subcontractors, upon request. If release of the information would compromise Government security or disclose trade secrets or confidential business information, the contracting officers must release it only under conditions that will protect it from improper disclosure. Information made available under this paragraph must be limited to that used as the basis for the prime contract price reduction. In order to afford an opportunity for corrective action, contracting officers should give the prime contractor reasonable advance notice before determining to reduce the prime contract price.

(1) When a prime contractor includes defective subcontract data in arriving at the price but later awards the subcontract to a lower priced subcontractor (or does not subcontract for the work), any adjustment in the prime contract price due to defective subcontract data is limited to the difference (plus applicable indirect cost and profit markups) between the subcontract price used for pricing the prime contract, and either the actual subcontract price or the actual cost to the contractor, if not subcontracted, provided the data on which the actual subcontract price is based are not themselves defective.

(2) Under cost-reimbursement contracts and under all fixed-price contracts except firm-fixed-price contracts and fixed-price contracts with economic price adjustment, payments to subcontractors that are higher than they would be had there been no defective subcontractor certified cost or pricing data must be the basis for disallowance or nonrecognition of costs under the clauses prescribed in 15.110(j) and (k). The Government has a continuing and direct financial interest in such payments that is unaffected by the initial agreement on prime contract price.

15.305 Estimating systems.

(a) Cognizant audit activities, when appropriate, must establish and manage regular programs for reviewing selected contractors' estimating systems or methods, in order to reduce the scope of reviews to be performed on individual proposals, expedite the negotiation process, and increase the reliability of proposals. The results of estimating system reviews must be documented in survey reports.

(b) Auditors must send a copy of the estimating system survey report and a copy of the official notice of corrective action required to each contracting office and contract administration office having substantial business with that contractor. Significant deficiencies not corrected by the contractor must be considered in subsequent proposal analyses and negotiations.

Subpart 15.4 - Contract Pricing

15.400 Scope of subpart.

This subpart contains cost and price negotiation policies and procedures for pricing negotiated prime contracts (including subcontracts) and contract modifications, including modifications to contracts awarded by sealed bidding.

15.401 Definitions.

As used in this subpart—

Price means cost plus any fee or profit applicable to the contract type.

Subcontract (except as used in 15.405-2) also includes a transfer of commercial products or commercial services between divisions, subsidiaries, or affiliates of a contractor or a subcontractor (10 U.S.C. 3701(2) and 41 U.S.C. 3501(a)(2)).

15.402 General.

(a) *Requirement for cost or pricing data*. In establishing the reasonableness of the offered prices, contracting officers must —

(1) Obtain certified cost or pricing data when required by 15.403-3, along with data other than certified cost or pricing data as necessary to establish a fair and reasonable price; or

(2) When certified cost or pricing data are not required by 15.403-3, obtain data other than certified cost or pricing data as necessary to establish a fair and reasonable price (10 U.S.C. 3705(a) and 41 U.S.C. 3505(a)).

(b) *Obtaining data*. Contracting officers must obtain the type and quantity of data necessary to establish a fair and reasonable price, but not more data than is needed. Contracting officers must require the submission of additional data sufficient for the contracting officer to support the determination of the fair and reasonable price, if the contracting officer cannot establish a fair and reasonable price from an analysis of the data obtained or submitted to date.

(c) *Independent Price*. Contracting officers must price each contract separately and independently and not—

(1) Consider proposed price reductions under other contracts;

(2) Consider losses or profits realized or anticipated under other contracts; or

(3) Include in a contract price any amount for a specified contingency, to the extent that the contract provides for a price adjustment based upon the occurrence of that contingency.

15.403 Obtaining cost or pricing data.

15.403-1 Data other than certified cost or pricing data.

(a) *Order of preference*. For acquisitions that do not require certified cost or pricing data, contracting officers must generally use the following order of preference to determine the type of data to require:

(1) No additional data from the offeror, when adequate price competition exists (see 15.403-2);

(2) Data related to prices (e.g., established catalog or market prices, sales to non-governmental and governmental entities), relying first on—

(i) Data available within the Government; then

(ii) Data obtained from sources other than the offeror; and then, if necessary,

(iii) Data obtained from the offeror; then,

(3) Cost data to the extent necessary for the contracting officer to determine a fair and reasonable price.

(b) *Requirement*.

(1) Contracting officers must require submission of data other than certified cost or pricing data to the extent necessary to determine a fair and reasonable price (10 U.S.C. 3705(a) and 41 U.S.C. 3505(a)). At a minimum, the data must include appropriate data on the prices at which the same item or similar items have previously been sold, adequate for determining the reasonableness of the price. This data is not required when price reasonableness is established through adequate price competition or prices set by law or regulation, unless paragraph (e) of this subsection applies.

(2) Contracting officers may require data other than certified cost or pricing data to determine the cost realism of competing offers or to evaluate competing approaches.

(c) *Data Requests*. When requesting data, contracting officers—

(1) Must use the contractor's format for data submission, but see 15.105-4(b)(2);

(2) Must ensure that data used to support price negotiations are sufficiently current to permit negotiation of a fair and reasonable price; and

(3) Should limit requests for updated data to the data that affect the adequacy of the proposal for negotiations (e.g., changes in price lists).

(d) *Refusals to submit data*. As specified in section 808 of the Strom Thurmond National Defense Authorization Act (NDAA) for Fiscal Year 1999 (Pub. L. 105-261), an offeror who does not comply with a requirement to submit data for a contract or subcontract in accordance with paragraph (a)(1) of this subsection is ineligible for award unless the head of the contracting activity (HCA) determines that it is in the best interest of the Government to make the award to that offeror, based on consideration of the following:

(1) The effort made to obtain the data.

(2) The need for the item or service.

(3) Increased cost or significant harm to the Government if award is not made.

(e) *Data when adequate price competition exists*. If adequate price competition exists, but there are unusual circumstances in which additional data are necessary to determine the reasonableness of price, contracting officers must obtain the additional data from sources other than the offeror, to the maximum extent practicable. In addition, contracting officers should request data to determine the cost realism of competing offers or to evaluate competing approaches.

(f) *Data for commercial products and commercial services*. When acquiring a commercial product or commercial service, contracting officers must—

(1) Use price analysis to determine whether the price is fair and reasonable;

(2) Require the offeror to submit data other than certified cost or pricing data when the contracting officer is unable to determine a price fair and reasonable after obtaining data from sources other than the offeror. This data may include history of sales to non-governmental and governmental entities, cost data, or any other information the contracting officer requires;

(3) Limit requests for sales data to data for the same or similar items during a relevant time period;

(4) To the maximum extent practicable, request data in the format regularly maintained by the offeror as part of its commercial operations;

(5) Not disclose outside the Government data obtained relating to commercial products or commercial services that is exempt from disclosure under part 24 or the Freedom of Information Act (5 U.S.C. 552(b)); and

(6) For services that are not offered and sold competitively in substantial quantities in the commercial marketplace, but are of a type offered and sold competitively in substantial quantities in the commercial marketplace, see 15.403-2(c)(3)(ii).

15.403-2 Prohibitions on obtaining certified cost or pricing data.

(a) *At or below the simplified acquisition threshold*. Certified cost or pricing data must not be obtained for acquisitions at or below the simplified acquisition threshold.

(b) *Exceptions to certified cost or pricing data requirements*. Contracting officers must not require certified cost or pricing data to support any contracts, subcontracts, or modifications—

(1) When the contracting officer determines that prices agreed upon are based on adequate price competition (see standards in paragraph (c)(1) of this subsection);

(2) When the contracting officer determines that prices agreed upon are based on prices set by law or regulation (see standards in paragraph (c)(2) of this subsection);

(3) When a commercial product or commercial service is being acquired (see standards in paragraph (c)(3) of this subsection);

(4) When a waiver has been granted (see standards in paragraph (c)(4) of this subsection); or

(5) When modifying a contract or subcontract for commercial products or commercial services (see standards in paragraph (c)(3) of this subsection).

(c) *Standards for exceptions*—

(1) *Adequate price competition*.

(i) A price is based on adequate price competition when—

(A) Two or more responsible offerors, competing independently, submit priced offers that satisfy the Government's expressed requirement;

(B) Award will be made to the offeror whose proposal represents the best value where price is a substantial factor in source selection; and

(C) There is no finding that the price of the otherwise successful offeror is unreasonable. Any finding that the price is unreasonable must be supported by a statement of the facts and approved at a level above the contracting officer.

(ii) For agencies other than DoD, NASA, and the Coast Guard, a price is also based on adequate price competition when

(A) There was a reasonable expectation, based on market research or other assessment, that two or more responsible offerors, competing independently, would submit priced offers in response to the request for proposal's (RFP) expressed requirement, even though only one offer is received from a responsible offeror and if—

(1) Based on the offer received, the contracting officer can reasonably conclude that the offer was submitted with the expectation of competition, *e.g.*, circumstances indicate that—

(i) The offeror believed that at least one other offeror was capable of submitting a meaningful offer; and

(ii) The offeror had no reason to believe that other potential offerors did not intend to submit an offer; and

(2) The determination that the proposed price is based on adequate price competition and is reasonable has been approved at a level above the contracting officer; or

(B) Price analysis clearly demonstrates that the proposed price is reasonable in comparison with current or recent prices for the same or similar items, adjusted to reflect changes in market conditions, economic conditions, quantities, or terms and conditions under contracts that resulted from adequate price competition.

(2) *Prices set by law or regulation*. Pronouncements in the form of periodic rulings, reviews, or similar actions of a governmental body, or embodied in the laws, are sufficient to set a price.

(3) *Commercial products and commercial services*.

(i) Any acquisition that the contracting officer determines meets the commercial product or commercial service definition in 2.101, or any modification, as defined in paragraph (3)(i) of the commercial product definition, that does not change a commercial product to other than commercial, is exempt from the requirement for certified cost or pricing data. If the contracting officer determines that a product or service claimed to be commercial is not, and that no other exception or waiver for certified cost or pricing data applies, the contracting officer must require submission of certified cost or pricing data.

(ii) In accordance with section 41 U.S.C. 3501:

(A) When purchasing services that are not offered and sold competitively in substantial quantities in the commercial marketplace, but are of a type offered and sold competitively in substantial quantities in the commercial marketplace, they may be considered commercial services (thus meeting the purpose of 41 U.S.C. chapter 35 and 10 U.S.C. chapter 271 for truth in negotiations) only if the contracting officer determines in writing that the offeror has submitted sufficient information to evaluate, through price analysis, the reasonableness of the price of such services.

(B) In order to make this determination, contracting officers may request the offeror to submit prices paid for the same or similar commercial services under comparable terms and conditions by both Government and commercial customers; and

(C) If the contracting officer determines that the information described in paragraph (c)(3)(ii)(B) of this section is not sufficient to determine the reasonableness of price, other relevant information regarding the basis for price or cost, including information on labor costs, material costs and overhead rates may be requested.

(iii) The following requirements apply to minor modifications defined in paragraph (3)(ii) of the definition of a commercial product at 2.101 that do not change the commercial product to other than commercial:

(A) For acquisitions funded by any agency other than DoD, NASA, or Coast Guard, such modifications of a commercial product are exempt from the requirement for submission of certified cost or pricing data.

(B) For acquisitions funded by DoD, NASA, or Coast Guard, such modifications of a commercial product are exempt from the requirement for submission of certified cost or pricing data provided the total price of all such modifications under a particular contract action does not exceed the greater of the threshold for obtaining certified cost or pricing data in 15.403-3(a) or 5 percent of the total price of the contract at the time of contract award.

(C) For acquisitions funded by DoD, NASA, or Coast Guard such modifications of a commercial product are not exempt from the requirement for submission of certified cost or pricing data on the basis of the exemption provided for at 15.403-2(c)(3) if the total price of all such modifications under a particular contract action exceeds the greater of the threshold for obtaining certified cost or pricing data in 15.403-3(a) or 5 percent of the total price of the contract at the time of contract award.

(iv) Any acquisition for other than commercial products or services treated as commercial products or commercial services at 12.001(b), except sole source contracts greater than $25 million, is exempt from the requirements for certified cost or pricing data (41 U.S.C. 1903).

(4) *Waivers*.

(i) In exceptional cases, the HCA may, without power of delegation, waive the requirement for submission of certified cost or pricing data if the price can be determined to be fair and reasonable without submission of certified cost or pricing data. The authorization for the waiver and the supporting rationale must be in writing.

(ii) If the HCA has waived the requirement for submission of certified cost or pricing data, the contractor or higher-tier subcontractor to whom the waiver relates must be considered as having been required to provide certified cost or pricing data. Consequently, award of any lower-tier subcontract expected to exceed the certified cost or pricing data threshold requires the submission of certified cost or pricing data unless—

(A) An exception otherwise applies to the subcontract; or

(B) The waiver specifically includes the subcontract and the rationale supporting the waiver for that subcontract.

15.403-3 Certified cost or pricing data.

(a) *Threshold*. Unless an exception at 15.403-2 applies, contracting officers must obtain certified cost or pricing data when an action meets or exceeds the threshold of $2.5 million (for prime contracts awarded on or after July 1, 2018). The threshold is $950,000 for prime contracts awarded prior to July 1, 2018, unless otherwise stated in the contract. Contracting officers should consider requesting a waiver when the standards at 15.403-2(c)(4) can be met.

(b) *Actions requiring certified cost or pricing data*. Certified cost or pricing data are required before completing any of the following actions expected to exceed the current threshold or, in the case of existing contracts, the threshold specified in the existing contract:

(1) The award of any negotiated contract (except for undefinitized actions such as letter contracts).

(2) The award of a subcontract at any tier, if the contractor and each higher-tier subcontractor were required to furnish certified cost or pricing data.

(3) The modification of any sealed bid or negotiated contract (whether or not certified cost or pricing data were initially required) or any subcontract covered by paragraph (b)(2) of this subsection.

(i) Price adjustment amounts must consider both increases and decreases (*e.g.*, a $500,000 modification resulting from a reduction of $1,500,000 and an increase of $1,000,000 is a $2,500,000 pricing adjustment exceeding the $2,500,000 threshold). This requirement does not apply when unrelated and separately priced changes for which certified cost or pricing data would not otherwise be required are included for administrative convenience in the same modification.

(ii) Negotiated final pricing actions (*e.g.*, termination settlements and total final price agreements for fixed-price incentive and redeterminable contracts) are contract modifications requiring certified cost or pricing data if—

(A) The total final price agreement for such settlements or agreements exceeds the pertinent threshold set forth at paragraph (a) of this subsection; or

(B) The partial termination settlement plus the estimate to complete the continued portion of the contract exceeds the pertinent threshold set forth at paragraph (a) of this subsection.

(iii) Certified cost or pricing data are not required for modifications—

(A) Solely for overrun funding or interim billing price adjustments; or

(B) To exercise an option at the price established at contract award or initial negotiation.

(c) *Required documentation from offerors*. When certified cost or pricing data are required, contracting officers must require the contractor or prospective contractor to submit to the contracting officer (and to have any subcontractor or prospective subcontractor submit to the prime contractor or appropriate subcontractor tier) the following in support of any proposal:

(1) The certified cost or pricing data and data other than certified cost or pricing data required by the contracting officer to determine that the price is fair and reasonable.

(2) A *Certificate of Current Cost or Pricing Data*, in the format specified in 15.403-4, certifying that to the best of its knowledge and belief, the cost or pricing data were accurate, complete, and current as of the date of agreement on price or, if applicable, an earlier date agreed upon between the parties that is as close as practicable to the date of agreement on price.

(d) *Inflation adjustments*. When a clause refers to the certified cost or pricing threshold and the threshold is adjusted for inflation pursuant to part 1, the changed threshold applies throughout the remaining term of the contract, unless there is another threshold adjustment.

(e) *Requests for certified data below the threshold*. Unless prohibited because an exception at 15.403-2 applies, the HCA without power of delegation, may authorize the contracting officer to obtain certified cost or pricing data for pricing actions below the pertinent threshold in paragraph (a) of this subsection, provided the action exceeds the simplified acquisition threshold. The HCA must justify the requirement for certified cost or pricing data and provide a written finding that certified cost or pricing data are necessary to determine whether the price is fair and reasonable and the facts supporting that finding.

(f) *Delayed exception*. If certified cost or pricing data are requested and submitted by an offeror, but an exception is later found to apply, the data must not be considered certified cost or pricing data and must not be certified in accordance with 15.403-4.

(g) *Foreign governments*. The requirements of this subsection also apply to contracts entered into by an agency on behalf of a foreign government.

15.403-4 Certificate of current cost or pricing data.

(a) When certified cost or pricing data are required, contracting officers must require the contractor to execute a Certificate of Current Cost or Pricing Data, using the format in this paragraph, and must include the executed certificate in the contract file.

Certificate of Current Cost or Pricing Data

This is to certify that, to the best of my knowledge and belief, the cost or pricing data (as defined in part 2 of the Federal Acquisition Regulation (FAR) and required under FAR subsection 15.403-3) submitted, either actually or by specific identification in writing, to the Contracting Officer or to the Contracting Officer's representative in support of ____* are accurate, complete, and current as of ____**. This certification includes the cost or pricing data supporting any advance agreements and forward pricing rate agreements between the offeror and the Government that are part of the proposal.

Firm: _____

Signature: _____

Name: _____

Title: _____

Date of execution: _____***

* Identify the proposal, request for price adjustment, or other submission involved, giving the appropriate identifying number (e.g., RFP No.).

** Insert the day, month, and year when price negotiations were concluded and price agreement was reached or, if applicable, an earlier date agreed upon between the parties that is as close as practicable to the date of agreement on price.

*** Insert the day, month, and year of signing, which should be as close as practicable to the date when the price negotiations were concluded and the contract price was agreed to.

(End of certificate)

(b) The certificate does not constitute a representation as to the accuracy of the contractor's judgment on the estimate of future costs or projections. It applies to the data upon which the judgment or estimate was based. This distinction between fact and judgment should be clearly understood. If the contractor had information reasonably available at the time of agreement showing that the negotiated price was not based on accurate, complete, and current data, the contractor's responsibility is not limited by any lack of personal knowledge of the information on the part of its negotiators.

(c) The contracting officer and contractor are encouraged to reach a prior agreement on criteria for establishing closing or cutoff dates when appropriate in order to minimize delays associated with proposal updates. Closing or cutoff dates should be included as part of the data submitted with the proposal and, before agreement on price, data should be updated by the contractor to the latest closing or cutoff dates for which the data are available. Use of cutoff dates coinciding with reports is acceptable, as certain data may not be reasonably available before normal periodic closing dates (e.g., actual indirect costs). Data within the contractor's or a subcontractor's organization on matters significant to contractor management and to the Government will be treated as reasonably available. What is significant depends upon the circumstances of each acquisition.

(d) Possession of a Certificate of Current Cost or Pricing Data is not a substitute for examining and analyzing the contractor's proposal.

15.404 Cost and/or price analysis.

(a) *General*. The objective of proposal analysis is to ensure that the final agreed-to price is fair and reasonable.

(1) Contracting officers are responsible for evaluating the reasonableness of the offered prices. The analytical techniques and procedures described in this section may be used, individually or in combination with others, to ensure that the final price is fair and reasonable. The complexity and circumstances of each acquisition should determine the level of detail of the analysis required.

(2) Price analysis must be used when certified cost or pricing data are not required. When a fair and reasonable price cannot be determined through price analysis alone, cost analysis may also be used to evaluate data other than certified cost or pricing data to determine cost reasonableness or cost realism.

(3) Cost analysis must be used when certified cost or pricing data are required. However, price analysis must be used to verify that the overall price offered is fair and reasonable.

(4) Cost realism must be used when contemplating the award of a cost-reimbursement contract.

(b) *Advice and assistance*. Contracting officers may request the advice and assistance of other experts to ensure that an appropriate analysis is performed. Recommendations or conclusions regarding the Government's review or analysis of an offeror's or contractor's proposal must not be disclosed to the offeror or contractor without the concurrence of the contracting officer.

(c) *Mistakes and discrepancies in data*. Any discrepancy or mistake of fact (such as duplications, omissions, and errors in computation) contained in the certified cost or pricing data or data other than certified cost or pricing data submitted in support of a proposal must be brought to the contracting officer's attention.

15.404-1 Price analysis.

(a) *General*. Price analysis is the process of examining and evaluating a proposed price without evaluating its separate cost elements and proposed profit.

(b) *Techniques*. The Government may use various price analysis techniques and procedures to ensure a fair and reasonable price, including, but not limited to, the following:

(1) Comparison of proposed prices received in response to the RFP.

(2) Comparison of the proposed prices to historical prices paid, whether by the Government or other than the Government, for the same or similar items. This method may be used for commercial products or commercial services including those “of a type” or when requiring minor modifications for commercial products.

(i) The prior price must be a valid basis for comparison. If there has been a significant time lapse between the last acquisition and the present one, if the terms and conditions of the acquisition are significantly different, or if the reasonableness of the prior price is uncertain, then the prior price may not be a valid basis for comparison.

(ii) The prior price must be adjusted to account for materially differing terms and conditions, quantities and market and economic factors. For similar items, the contracting officer must also adjust the prior price to account for material differences between the similar item and the item being procured.

(iii) Expert technical advice should be obtained when analyzing similar items, or commercial products or commercial services that are “of a type”, or requiring minor modifications for commercial products, to ascertain the magnitude of changes required and to assist in pricing the required changes.

(3) Use of parametric estimating methods/application of rough yardsticks (such as dollars per pound or per horsepower, or other units) to highlight significant inconsistencies that warrant additional pricing inquiry.

(4) Comparison with competitive published price lists, published market prices of commodities, similar indexes, and discount or rebate arrangements.

(5) Comparison of proposed prices with independent Government cost estimates.

(6) Comparison of proposed prices with prices obtained through market research for the same or similar items.

(7) Analysis of data other than certified cost or pricing data provided by the offeror.

(c) *Preferred method of analysis*. The techniques at 15.404-1(b)(1) and (2) are the preferred methods for price analysis. However, if the contracting officer determines that information on competitive proposed prices or previous contract prices is not available or is insufficient to determine that the price is fair and reasonable, the contracting officer may use any of the remaining techniques as appropriate to the circumstances applicable to the acquisition.The fact that a price is included in a catalog does not, in and of itself, make it fair and reasonable.

(d) *Value analysis*. Value analysis can give insight into the relative worth of a product and the Government may use it in conjunction with the price analysis techniques listed in paragraph (b) of this section.

15.404-2 Cost analysis.

(a) *General*. Cost analysis is the review and evaluation of any separate cost elements and profit or fee in an offeror's or contractor's proposal, as needed to determine a fair and reasonable price or to determine cost realism, and the application of judgment to determine how well the proposed costs represent what the cost of the contract should be, assuming reasonable economy and efficiency.

(b) *Techniques*. The Government may use various cost analysis techniques and procedures to ensure a fair and reasonable price, including, but not limited to, the following:

(1) Verification of cost data or pricing data and evaluation of cost elements, including—

(i) The necessity for, and reasonableness of, proposed costs, including allowances for contingencies;

(ii) Projection of the offeror's cost trends, on the basis of current and historical cost or pricing data;

(iii) Reasonableness of estimates generated by appropriately calibrated and validated parametric models or cost-estimating relationships; and

(iv) The application of audited or negotiated indirect cost rates, labor rates, and cost of money or other factors.

(2) Evaluating the effect of the offeror's current practices on future costs. In conducting this evaluation, contracting officers must ensure that the effects of inefficient or uneconomical past practices are not projected into the future. In pricing production of recently developed complex equipment, contracting officers should perform a trend analysis of basic labor and materials, even in periods of relative price stability.

(3) Comparison of costs proposed by the offeror for individual cost elements with—

(i) Actual costs previously incurred by the same offeror;

(ii) Previous cost estimates from the offeror or from other offerors for the same or similar items;

(iii) Other cost estimates received in response to the Government's request;

(iv) Independent Government cost estimates by technical personnel; and

(v) Forecasts of planned expenditures.

(4) Verification that the offeror's cost submissions are in accordance with the contract cost principles and procedures in part 31 and, when applicable, the requirements and procedures in 48 CFR chapter 99.

(5) Review to determine whether any cost data or pricing data, necessary to make the offeror's proposal suitable for negotiation, have not been either submitted or identified in writing by the offeror. If there are such data, contracting officers must attempt to obtain and use them in the negotiations or make satisfactory allowance for the incomplete data.

(6) Analysis of the results of any make-or-buy program reviews, in evaluating subcontract costs.

15.404-3 Cost realism analysis.

(a) *General*. Cost realism analysis is the process of independently reviewing and evaluating specific elements of each offeror's proposed cost estimate to determine whether the estimated proposed cost elements are realistic for the work to be performed; reflect a clear understanding of the requirements; and are consistent with the unique methods of performance and materials described in the offeror's technical proposal.

(b) *Probable Cost*. Cost realism analyses must be performed on cost-reimbursement contacts to determine the probable cost of performance for each offeror.

(1) The probable cost may differ from the proposed cost and should reflect the Government's best estimate of the cost of any contract that is most likely to result from the offeror's proposal. The probable cost must be used for purposes of evaluation to determine the best value.

(2) The probable cost is determined by adjusting each offeror's proposed cost, and fee when appropriate, to reflect any additions or reductions in cost elements to realistic levels based on the results of the cost realism analysis.

(c) *Competitive fixed-price-type contracts*. Cost realism analyses may also be used on competitive fixed-price incentive contracts or, in exceptional cases, on other competitive fixed-price-type contracts when new requirements may not be fully understood by competing offerors, there are quality concerns, or past experience indicates that contractors' proposed costs have resulted in quality or service shortfalls. Results of the analysis may be used in performance risk assessments and responsibility determinations. However, proposals must be evaluated using the criteria in the RFP, and the offered prices must not be adjusted as a result of the analysis.

15.404-4 Technical cost or price analysis.

(a) *Labor and materials*. At a minimum, the technical analysis must examine the types and quantities of material proposed and the need for the types and quantities of labor hours and the labor mix. Any other data that may be pertinent to an assessment of the offeror's ability to accomplish the technical requirements or to the cost or price analysis of the service or product being proposed should also be included in the analysis.

(b) *Technical assistance*. Contracting officers should request:

(1) Personnel having specialized knowledge, skills, experience, or capability in engineering, science, or management perform a technical analysis of the proposed types and quantities of materials, labor, processes, special tooling, equipment or real property, the reasonableness of scrap and spoilage, and other associated factors set forth in the proposal(s) in order to determine the need for and reasonableness of the proposed resources, assuming reasonable economy and efficiency.

(2) Technical assistance in evaluating pricing related to items that are “similar to” items being purchased, or commercial products or commercial services that are “of a type”, or requiring minor modifications for commercial products, to ascertain the magnitude of changes required and to assist in pricing the required changes.

15.404-5 Unit prices.

(a) *General*. Except when pricing an item on the basis of adequate price competition or catalog or market price, unit prices must reflect the intrinsic value of an item or service and be in proportion to an item's base cost (e.g., manufacturing or acquisition costs).

(b) *Price distortion*. (1) Except for the acquisition of commercial products, when offerors identify items of supply that they will not manufacture or to which they will not contribute significant value, the information must be used to determine whether the intrinsic value of an item has been distorted through application of overhead and whether such items should be considered for breakout.

(2) Any method of distributing costs to line items that distorts the unit prices must not be used. For example, distributing costs equally among line items is not acceptable except when there is little or no variation in base cost. (10 U.S.C. 3703(a)(1)(A) and 41 U.S.C. 3503(a)(1)(A)).

15.404-6 Unbalanced pricing.

(a) *General.* (1) Unbalanced pricing may increase performance risk and could result in payment of unreasonably high prices. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly over or understated as indicated by the application of cost or price analysis techniques.

(2) The greatest risks associated with unbalanced pricing occur when—

(i) Startup work, mobilization, first articles, or first article testing are separate line items;

(ii) Base quantities and option quantities are separate line items; or

(iii) The evaluated price is the aggregate of estimated quantities to be ordered under separate line items of an indefinite-delivery contract.

(b) *Policy*. (1) All offers with separately priced line items or subline items must be analyzed to determine if the prices are unbalanced. If cost or price analysis techniques indicate that an offer is unbalanced, contracting officers must—

(i) Consider the risks to the Government associated with the unbalanced pricing in determining the competitive range and in making the source selection decision; and

(ii) Consider whether award of the contract will result in paying unreasonably high prices for contract performance.

(2) An offer may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the Government.

15.404-7 Review and justification of pass-through contracts.

(a) *Policy.* When an offeror informs the contracting officer, pursuant to clause 52.215-22, *Limitations on Pass-Through Charges-Identification of Subcontractor Effort*, that it intends to award subcontracts for more than 70 percent of the total cost of work to be performed under the contract, task or delivery order, the contracting officer must—

(1) Consider the availability of alternative contract vehicles and the feasibility of contracting directly with a subcontractor or subcontractors that will perform the bulk of the work. If such alternative approaches are selected, any resulting RFP must be issued in accordance with the competition requirements under FAR part 6;

(2) Make a written determination that the contracting approach selected is in the best interest of the Government; and

(3) Document the basis for such determination. (section 802 of the NDAA for FY 2013 (Pub. L. 112.239)).

(b) *Exemption*. Contract actions set aside for small business, 8(a), HUBZone, SDVOSB, and WOSB concerns are exempt from the requirements of this subsection (see section 1615 of the NDAA for FY 2014 (Pub. L. 113-66)).

15.404-8 Subcontract pricing considerations.

(a) *Policy*. Contracting officers are responsible for the determination of a fair and reasonable price for the prime contract, including subcontracting costs. To support this effort, the prime contractor or subcontractor must—

(1) Conduct appropriate cost or price analyses to establish the reasonableness of proposed subcontract prices;

(2) Include the results of these analyses in the price proposal; and

(3) When required by paragraph (b) of this subsection, submit subcontractor certified cost or pricing data to the Government as part of its own certified cost or pricing data.

(b) *Certified cost or pricing data*. Any contractor or subcontractor that is required to submit certified cost or pricing data also must obtain and analyze certified cost or pricing data before awarding any subcontract, purchase order, or modification expected to exceed the certified cost or pricing data threshold, unless an exception in 15.403-2 applies to that action.

(1) The contractor must submit, or cause to be submitted by the subcontractor(s), certified cost or pricing data to the Government for subcontracts that are the lower of either—

(i) $20 million or more; or

(ii) Both more than the pertinent certified cost or pricing data threshold and more than 10 percent of the prime contractor's proposed price, unless the contracting officer believes such submission is unnecessary.

(2) Contracting officers should require the contractor or subcontractor to submit to the Government (or cause submission of) subcontractor certified cost or pricing data below the thresholds in paragraph (b)(1) of this section and data other than certified cost or pricing data that the contracting officer considers necessary for adequately pricing the prime contract.

(3) Subcontractor certified cost or pricing data must be submitted in the format provided in Table 15-1 of 15.408-2 or the alternate format specified in the RFP.

(4) Subcontractor certified cost or pricing data must be current, accurate, and complete as of the date of price agreement, or, if applicable, an earlier date agreed upon by the parties and specified on the contractor's Certificate of Current Cost or Pricing Data. Contractors must update subcontractor's data, as appropriate, during source selection and negotiations.

(5) If there is more than one prospective subcontractor for any given work, the contractor need only submit to the Government certified cost or pricing data for the prospective subcontractor most likely to receive the award.

(c) *Approved purchasing system*. Contracting officers should consider whether a contractor or subcontractor has an approved purchasing system, has performed cost or price analysis of proposed subcontractor prices, or has negotiated the subcontract prices before negotiation of the prime contract, in determining the reasonableness of the prime contract price. This does not relieve contracting officers from the responsibility to analyze the contractor's submission, including subcontractor's certified cost or pricing data.

15.404-9 Profit.

(a) *General*. This subsection prescribes policies for establishing the profit or fee portion of the Government prenegotiation objective in price negotiations based on cost analysis.

(b) *Policy*. Structured approaches (see paragraph (d) of this subsection) for determining profit or fee prenegotiation objectives provide a discipline for ensuring that all relevant factors are considered.

(1) Subject to the authorities in part 1, agencies making noncompetitive contract awards over $100,000 totaling $50 million or more a year—

(i) Must use a structured approach for determining the profit or fee objective in those acquisitions that require cost analysis (Agencies may use another agency's structured approach); and

(ii) May prescribe specific exemptions for situations in which mandatory use of a structured approach would be clearly inappropriate.

(2) When the price negotiation is based on cost analysis, contracting officers in agencies that have a structured approach must use it to analyze profit. When not using a structured approach, contracting officers must comply with paragraph (d)(1) of this subsection in developing profit or fee prenegotiation objectives.

(3) When the price negotiation is not based on cost analysis, contracting officers are not required to analyze profit.

(c) *Contracting officer responsibilities*. Contracting officers –

(1) Must use the Government prenegotiation cost objective amounts as the basis for calculating the profit or fee prenegotiation objective.

(2) Must not require any prospective contractor to submit breakouts or supporting rationale for its profit or fee objective but may consider it, if it is submitted voluntarily.

(3) Before applying profit or fee factors, must exclude-

(i) From the pre-negotiation cost objective amounts, the purchase cost of contractor-acquired property that is categorized as equipment, as defined in FAR 45, and where such equipment is to be charged directly to the contract; and

(ii) Facilities capital cost of money included in the cost objective amounts. If the prospective contractor fails to identify or propose facilities capital cost of money in a proposal for a contract that will be subject to the cost principles for contracts with commercial organizations, facilities capital cost of money will not be an allowable cost in any resulting contract.

(4) Must not negotiate a price or fee that exceeds the following statutory limitations, imposed by 10 U.S.C. 3322(b) and 41 U.S.C. 3905:

(i) For experimental, developmental, or research work performed under a cost-plus-fixed-fee contract, the fee must not exceed 15 percent of the contract's estimated cost, excluding fee.

(ii) For architect-engineer services for public works or utilities, the contract price or the estimated cost and fee for production and delivery of designs, plans, drawings, and specifications must not exceed 6 percent of the estimated cost of construction of the public work or utility, excluding fees.

(iii) For other cost-plus-fixed-fee contracts, the fee must not exceed 10 percent of the contract's estimated cost, excluding fee.

(iv) The contracting officer's signature on the price negotiation memorandum or other documentation supporting determination of fair and reasonable price documents the contracting officer's determination that the statutory price or fee limitations have not been exceeded.

(5) May use the basic contract's profit or fee rate as the prenegotiation objective for a change or modification, if that change or modification calls for essentially the same type and mix of work as the basic contract and is of relatively small dollar value compared to the total contract value, contracting officers.

(d) *Profit-analysis factors* —

(1) *Common factors*. Unless it is clearly inappropriate or not applicable, each factor outlined in paragraphs (d)(1)(i) through (vi) of this subsection must be considered by agencies in developing their structured approaches and by contracting officers in analyzing profit, whether or not using a structured approach.

(i) *Contractor effort*. This factor measures the complexity of the work and the resources required of the prospective contractor for contract performance. Greater profit opportunity should be provided under contracts requiring a high degree of professional and managerial skill and to prospective contractors whose skills, facilities, and technical assets can be expected to lead to efficient and economical contract performance. The subfactors in paragraphs (d)(1)(i)(A) through (D) of this subsection must be considered in determining contractor effort, but they may be modified in specific situations to accommodate differences in the categories used by prospective contractors for listing costs—

(A) *Material acquisition*. This subfactor measures the managerial and technical effort needed to obtain the required purchased parts and material, subcontracted items, and special tooling. Considerations include the complexity of the items required, the number of purchase orders and subcontracts to be awarded and administered, whether established sources are available or new or second sources must be developed, and whether material will be obtained through routine purchase orders or through complex subcontracts requiring detailed specifications. Profit consideration should correspond to the managerial and technical effort involved.

(B) *Conversion direct labor*. This subfactor measures the contribution of direct engineering, manufacturing, and other labor to converting the raw materials, data, and subcontracted items into the contract items. Considerations include the diversity of engineering, scientific, and manufacturing labor skills required and the amount and quality of supervision and coordination needed to perform the contract task.

(C) *Conversion-related indirect costs*. This subfactor measures how much the indirect costs contribute to contract performance. The labor elements in the allocable indirect costs should be given the profit consideration they would receive if treated as direct labor. The other elements of indirect costs should be evaluated to determine whether they merit only limited profit consideration because of their routine nature, or are elements that contribute significantly to the proposed contract.

(D) *General management*. This subfactor measures the prospective contractor's other indirect costs and general and administrative (G&A) expense, their composition, and how much they contribute to contract performance. Considerations include how labor in the overhead pools would be treated if it were direct labor, whether elements within the pools are routine expenses or instead are elements that contribute significantly to the proposed contract, and whether the elements require routine as opposed to unusual managerial effort and attention.

(ii) *Contract cost risk*.

(A) This factor measures the degree of cost responsibility and associated risk that the prospective contractor will assume as a result of the contract type contemplated and considering the reliability of the cost estimate in relation to the complexity and duration of the contract task. Determination of contract type should be closely related to the risks involved in timely, cost-effective, and efficient performance. This factor should compensate contractors proportionately for assuming greater cost risks.

(B) The contractor assumes the greatest cost risk in a closely priced firm-fixed-price contract under which it agrees to perform a complex undertaking on time and at a predetermined price. Some firm-fixed-price contracts may entail substantially less cost risk than others because, for example, the contract task is less complex or many of the contractor's costs are known at the time of price agreement, in which case the risk factor should be reduced accordingly. The contractor assumes the least cost risk in a cost-plus-fixed-fee level-of-effort contract, under which it is reimbursed those costs determined to be allocable and allowable, plus the fixed fee.

(C) In evaluating assumption of cost risk, contracting officers must, except in unusual circumstances, treat time-and-materials, labor-hour, and firm-fixed-price, level-of-effort term contracts as cost-plus-fixed-fee contracts.

(iii) *Federal socioeconomic programs*. This factor measures the degree of support given by the prospective contractor to Federal socioeconomic programs, such as those involving small business concerns, small business concerns owned and controlled by socially and economically disadvantaged individuals, WOSB concerns, veteran-owned, HUBZone, SDVOSB concerns, sheltered workshops for workers with disabilities, and energy conservation. Greater profit opportunity should be provided contractors that have displayed unusual initiative in these programs.

(iv) *Capital investments*. This factor takes into account the contribution of contractor investments to efficient and economical contract performance.

(v) *Cost-control and other past accomplishments*. This factor allows additional profit opportunities to a prospective contractor that has previously demonstrated its ability to perform similar tasks effectively and economically. In addition, consideration should be given to measures taken by the prospective contractor that result in productivity improvements, and other cost-reduction accomplishments that will benefit the Government in follow-on contracts.

(vi) *Independent development*. Under this factor, the contractor may be provided additional profit opportunities in recognition of independent development efforts relevant to the contract end item without Government assistance. The contracting officer should consider whether the development cost was recovered directly or indirectly from Government sources.

(2) *Additional factors*. In order to foster achievement of program objectives, each agency may include additional factors in its structured approach or take them into account in the profit analysis of individual contract actions.

15.405 Special cost or pricing areas.

15.405-1 Inaccurate, incomplete, or noncurrent cost or pricing data.

(a) If, before agreement on price, the contracting officer learns that any certified cost or pricing data submitted are inaccurate, incomplete, or noncurrent, the contracting officer must immediately bring the matter to the attention of the prospective contractor, whether the defective data increase or decrease the contract price.

(b) The contracting officer must consider any new data submitted to correct the deficiency, or consider the inaccuracy, incompleteness, or noncurrency of the data when negotiating the contract price. The price negotiation memorandum must reflect the adjustments made to the data or the corrected data used to negotiate the contract price.

15.405-2 Make-or-buy programs.

(a) *Evaluation, negotiation, and agreement*. Contracting officers must evaluate and negotiate proposed make-or-buy programs as soon as practicable after their receipt and before contract award.

(1) When the program is to be incorporated in the contract and the design status of the product being acquired does not permit accurate precontract identification of major items or work efforts, contracting officers must notify the prospective contractor in writing that these items or efforts, when identifiable, must be added under the clause at 52.215-9, *Changes or Additions to Make-or-Buy Program*.

(2) Contracting officers normally must not agree to proposed "make items" when the products or services are not regularly manufactured or provided by the contractor and are available—quality, quantity, delivery, and other essential factors considered—from another firm at equal or lower prices, or when they are regularly manufactured or provided by the contractor, but are available—quality, quantity, delivery, and other essential factors considered—from another firm at lower prices. Contracting officers may agree to these as "make items" if an overall lower Governmentwide cost would result or it is otherwise in the best interest of the Government. If this situation occurs in any fixed-price incentive or cost-plus-incentive-fee contract, contracting officers must specify these items in the contract and state that they are subject to paragraph (d) of the clause at 52.215-9, *Changes or Additions to Make-or-Buy Program*. If the contractor proposes to reverse the categorization of such items during contract performance, the contract price must be subject to equitable reduction.

(b) *Incorporating make-or-buy programs in contracts*. Contracting officers may incorporate the make-or-buy program in negotiated contracts for—

(1) Major systems or their subsystems or components, regardless of contract type; or

(2) Other supplies and services if—

(i) The contract is a cost-reimbursable contract, or a cost-sharing contract in which the contractor's share of the cost is less than 25 percent; and

(ii) The contracting officer determines that technical or cost risks justify Government review and approval of changes or additions to the make-or-buy program.

15.405-3 Forward pricing rate agreements.

(a) All data submitted in connection with the Forward Rate Pricing Agreement (FPRA), updated as necessary, form a part of the total data that the offeror certifies to be accurate, complete, and current at the time of agreement on price for an initial contract or for a contract modification.

(b) Contracting officers will use FPRA rates as bases for pricing all contracts, modifications, and other contractual actions to be performed during the period covered by the agreement. Conditions that may affect the agreement's validity must be reported promptly to the administrative contracting officer (ACO). If the ACO determines that a changed condition invalidates the agreement, the ACO must notify all interested parties of the extent of its effect and status of efforts to establish a revised FPRA.

(c) Contracting officers must not require certification at the time of agreement for data supplied in support of FPRA's or other advance agreements. When a forward pricing rate agreement or other advance agreement is used to price a contract action that requires a certificate, the certificate supporting that contract action must cover the data supplied to support the FPRA or other advance agreement, and all other data supporting the action.

15.405-4 Should-cost review.

(a) *General*. (1) Should-cost reviews are a specialized form of cost analysis. Should-cost reviews differ from traditional evaluation methods because they do not assume that a contractor's historical costs reflect efficient and economical operation. Instead, these reviews evaluate the economy and efficiency of the contractor's existing work force, methods, materials, equipment, real property, operating systems, and management. These reviews are accomplished by a multi-functional team of Government contracting, contract administration, pricing, audit, and engineering representatives. The objective of should-cost reviews is to promote both short and long-range improvements in the contractor's economy and efficiency in order to reduce the cost of performance of Government contracts. In addition, by providing rationale for any recommendations and quantifying their impact on cost, the Government will be better able to develop realistic objectives for negotiation.

(2) There are two types of should-cost reviews: program should-cost review and overhead should-cost review. These should-cost reviews may be performed together or independently. The scope of a should-cost review can range from a large-scale review examining the contractor's entire operation (including plant-wide overhead and selected major subcontractors) to a small-scale tailored review examining specific portions of a contractor's operation.

(b) *Program should-cost review*.

(1) A program should-cost review is used to evaluate significant elements of direct costs, such as material and labor, and associated indirect costs, usually associated with the production of major systems. When a program should-cost review is conducted relative to a contractor proposal, a separate audit report on the proposal is required.

(2) A program should-cost review should be considered, particularly in the case of a major system acquisition, when—

(i) Some initial production has already taken place;

(ii) The contract will be awarded on a sole source basis;

(iii) There are future year production requirements for substantial quantities of like items;

(iv) The items being acquired have a history of increasing costs;

(v) The work is sufficiently defined to permit an effective analysis and major changes are unlikely;

(vi) Sufficient time is available to plan and adequately conduct the should-cost review; and

(vii) Personnel with the required skills are available or can be assigned for the duration of the should-cost review.

(3) Contracting officers should decide which elements of the contractor's operation have the greatest potential for cost savings and assign the available personnel resources accordingly. The expertise of on-site Government personnel should be used, when appropriate. While the particular elements to be analyzed are a function of the contract work task, elements such as manufacturing, pricing and accounting, management and organization, and subcontract and vendor management are normally reviewed in a should-cost review.

(4) In acquisitions for which a program should-cost review is conducted, a separate program should-cost review team report, prepared in accordance with agency procedures, is required. Contracting officers must consider the findings and recommendations contained in the program should-cost review team report when negotiating the contract price. After completing the negotiation, contracting officers must provide the ACO a report of any identified uneconomical or inefficient practices, together with a report of correction or disposition agreements reached with the contractor. Contracting officers must establish a follow-up plan to monitor the correction of the uneconomical or inefficient practices.

(c) *Overhead should-cost review*.

(1) An overhead should-cost review is used to evaluate indirect costs, such as fringe benefits, shipping and receiving, real property, and equipment, depreciation, plant maintenance and security, taxes, and general and administrative activities. It is normally used to evaluate and negotiate an FPRA with the contractor. When an overhead should-cost review is conducted, a separate audit report is required.

(2) The following factors should be considered when selecting contractor sites for overhead should-cost reviews:

(i) Dollar amount of Government business.

(ii) Level of Government participation.

(iii) Level of noncompetitive Government contracts.

(iv) Volume of proposal activity.

(v) Major system or program.

(vi) Corporate reorganizations, mergers, acquisitions, or takeovers.

(vii) Other conditions (e.g., changes in accounting systems, management, or business activity).

(3) The objective of the overhead should-cost review is to evaluate significant indirect cost elements in-depth, and identify and recommend corrective actions regarding inefficient and uneconomical practices. If it is conducted in conjunction with a program should-cost review, a separate overhead should-cost review report is not required. However, the findings and recommendations of the overhead should-cost team, or any separate overhead should-cost review report, shall be provided to the ACO. The ACO should use this information to form the basis for the Government position in negotiating an FPRA with the contractor. The ACO shall establish a follow-up plan to monitor the correction of the uneconomical or inefficient practices.

15.406 Data to support proposal analysis.

(a) *Field pricing assistance*.

(1) Contracting officers should request field pricing assistance when the information available at the buying activity is inadequate to determine a fair and reasonable price. The request must reflect the minimum essential supplementary information needed to conduct a technical or cost or pricing analysis.

(2) Contracting officers must tailor the type of information and level of detail requested in accordance with the specialized resources available at the buying activity and the magnitude and complexity of the required analysis. Field pricing assistance is generally available to provide—

(i) Technical, audit, and special reports associated with the cost elements of a proposal, including subcontracts;

(ii) Information on related pricing practices and history;

(iii) Information to help contracting officers determine commerciality and a fair and reasonable price, including—

(A) Verifying sales history to source documents;

(B) Identifying special terms and conditions;

(C) Identifying customarily granted or offered discounts for the item;

(D) Verifying the item to an existing catalog or price list;

(E) Verifying historical data for a product or service previously not determined commercial that the offeror is now trying to qualify as a commercial product or commercial service; and

(F) Identifying general market conditions affecting determinations of commerciality and a fair and reasonable price.

(iv) Information relative to the business, technical, production, or other capabilities and practices of an offeror.

(b) *Reporting field pricing information*.

(1) Field pricing review results, including supporting rationale, may be reported directly to the contracting officer orally, in writing, or by any other method acceptable to the contracting officer.

(i) Contracting officers and field pricing experts are encouraged to use telephonic and/or electronic means to request and send pricing information.

(ii) When it is necessary to have written technical and audit reports, contracting officers must request that the audit agency concurrently forward the audit report to the requesting contracting officer and the ACO. The completed field pricing assistance results may reference audit information, but need not reconcile the audit recommendations and technical recommendations. A copy of the information submitted to the contracting officer by field pricing personnel must be provided to the audit agency.

(2) Audit and field pricing information, whether written or reported telephonically or electronically, must be made a part of the official contract file.

(c) *Audit assistance for prime contracts or subcontracts*.

(1) Contracting officers should contact the cognizant audit office directly to request assistance, particularly when an audit is the only field pricing support required. The audit office must send the audit report, or otherwise transmit the audit recommendations, directly to the contracting officer.

(i) The auditor must not reveal the audit conclusions or recommendations to the offeror/contractor without obtaining the concurrence of the contracting officer. However, the auditor may discuss statements of facts with the contractor.

(ii) Contracting officers must be notified immediately of any information disclosed to the auditor after submission of a report that may significantly affect the audit findings and, if necessary, a supplemental audit report must be issued.

(2) Contracting officers must not request a separate preaward audit of indirect costs unless the information already available from an existing audit, completed within the preceding 12 months, is considered inadequate for determining the reasonableness of the proposed indirect costs (41 U.S.C. 4706 and 10 U.S.C. 3841).

(3) The auditor is responsible for the scope and depth of the audit. Copies of updated information that will significantly affect the audit must be provided to the auditor by the contracting officer.

(4) General access to the offeror's books and financial records is limited to the auditor. This limitation does not preclude the contracting officer or the ACO, or their representatives, from requesting that the offeror provide or make available any data or records necessary to analyze the offeror's proposal.

(d) *Deficient proposals*.

(1) The ACO or the auditor, as appropriate, must notify the contracting officer immediately if the data provided for review is so deficient as to preclude review or audit, or if the contractor or offeror has denied access to any records considered essential to conduct a satisfactory review or audit. Oral notifications must be confirmed promptly in writing, including a description of deficient or denied data or records.

(2) The contracting officer must immediately take appropriate action to obtain the required data. Should the offeror/contractor again refuse to provide adequate data, or provide access to necessary data, the contracting officer must withhold the award or price adjustment and refer the contract action to a higher authority, providing details of the attempts made to resolve the matter and a statement of the practicability of obtaining the supplies or services from another source.

15.407 Price negotiation.

(a) The purpose of performing cost or price analysis is to develop a negotiation position that permits the contracting officer and the offeror an opportunity to reach agreement on a fair and reasonable price. A fair and reasonable price does not require that agreement be reached on every element of cost, nor is it mandatory that the agreed price be within the contracting officer's initial negotiation position. Contracting officers are responsible for exercising the requisite judgment needed to reach a negotiated settlement with the offeror and is solely responsible for the final price agreement. However, when significant audit or other specialist recommendations are not adopted, contracting officers should provide rationale that supports the negotiation result in the price negotiation documentation.

(b) The contracting officer's primary concern is the overall price the Government will actually pay. The contracting officer's objective is to negotiate a contract of a type and with a price providing the contractor the greatest incentive for efficient and economical performance. The negotiation of a contract type and a price are related and should be considered together with the issues of risk and uncertainty to the contractor and the Government.

(c) The Government's cost objective and proposed pricing arrangement directly affect the profit or fee objective. Because profit or fee is only one of several interrelated variables, contracting officers must not agree on profit or fee without concurrent agreement on cost and type of contract.

(d) If, however, the contractor insists on a price or demands a profit or fee that the contracting officer considers unreasonable, and the contracting officer has taken all authorized actions (including determining the feasibility of developing an alternative source) without success, the contracting officer must refer the contract action to a level above the contracting officer and document the contract file.

15.408 Documentation.

15.408-1 Prenegotiation objectives.

(a) The prenegotiation objectives establish the Government's initial negotiation position and are based on the results of the contracting officer's analysis of the offeror's proposal.

(b) Contracting officers must establish prenegotiation objectives before negotiating a pricing action. The scope and depth of the analysis supporting the objectives should be directly related to the dollar value, importance, and complexity of the pricing action. When cost analysis is required, contracting officers must document the pertinent issues to be negotiated, the cost objectives, and a profit or fee objective.

15.408-2 Documenting the negotiation.

(a) Contracting officers must document in the contract file the principal elements of the negotiated agreement. The documentation (*e.g.*, price negotiation memorandum) must include the following:

(1) The purpose of the negotiation.

(2) A description of the acquisition, including appropriate identifying numbers (*e.g.*, RFP No.).

(3) The name, position, and organization of each person representing the contractor and the Government in the negotiation.

(4) The current status of any contractor systems (*e.g.*, purchasing, estimating, accounting, and compensation) to the extent they affected and were considered in the negotiation.

(5) If certified cost or pricing data were not required in the case of any price negotiation exceeding the certified cost or pricing data threshold, the exception used and the basis for it.

(6) If certified cost or pricing data were required, the extent to which the contracting officer—

(i) Relied on the certified cost or pricing data submitted and used them in negotiating the price;

(ii) Recognized as inaccurate, incomplete, or noncurrent any certified cost or pricing data submitted; the action taken by the contracting officer and the contractor as a result; and the effect of the defective data on the price negotiated; or

(iii) Determined that an exception applied after the data were submitted and, therefore, considered not to be certified cost or pricing data.

(7) A summary of the contractor's proposal, any field pricing assistance recommendations, including the reasons for any pertinent variances from them, the Government's negotiation objective, and the negotiated position.

(i) When the determination of a fair and reasonable price is based on cost analysis, the summary must address each major cost element.

(ii) When determination of a fair and reasonable price is based on price analysis, the summary must include the source and type of data used to support the determination.

(8) The most significant facts or considerations controlling the establishment of the prenegotiation objectives and the negotiated agreement including an explanation of any significant differences between the two positions.

(9) To the extent such direction has a significant effect on the action, a discussion and quantification of the impact of direction given by Congress, other agencies, and higher-level officials (*i.e.*, officials who would not normally exercise authority during the award and review process for the instant contract action).

(10) The basis for the profit or fee prenegotiation objective and the profit or fee negotiated.

(11) Documentation of fair and reasonable pricing.

(b) Whenever field pricing assistance has been obtained, the contracting officer must forward a copy of the negotiation documentation to the office(s) providing assistance. When appropriate, information on how advisory field support can be made more effective should be provided separately.

Table 15-1—Instructions for Submitting Cost/Price Proposals When Certified Cost or Pricing Data Are Required

This document provides instructions for preparing a contract pricing proposal when certified cost or pricing data are required.

Note 1: There is a clear distinction between submitting certified cost or pricing data and merely making available books, records, and other documents without identification. The requirement for submission of certified cost or pricing data is met when all accurate certified cost or pricing data reasonably available to the offeror have been submitted, either actually or by specific identification, to the Contracting Officer or an authorized representative. As later data come into your possession, it should be submitted promptly to the Contracting Officer in a manner that clearly shows how the data relate to the offeror's price proposal. The requirement for submission of certified cost or pricing data continues up to the time of agreement on price, or an earlier date agreed upon between the parties if applicable.

Note 2: By submitting your proposal, you grant the Contracting Officer or an authorized representative the right to examine records that formed the basis for the pricing proposal. That examination can take place at any time before award. It may include those books, records, documents, and other types of factual data (regardless of form or whether the data are specifically referenced or included in the proposal as the basis for pricing) that will permit an adequate evaluation of the proposed price.

I. General Instructions

A. You must provide the following information on the first page of your pricing proposal:

(1) RFP, contract, and/or modification number;
(2) Name and address of offeror;
(3) Name, telephone number, and email address of the point of contact;
(4) Name of contract administration office (if available);
(5) Type of contract action (that is, new contract, change order, price revision/redetermination, letter contract, unpriced order, or other);
(6) Proposed cost; profit or fee; and total;
(7) Whether you will require the use of Government property in the performance of the contract, and, if so, what property;
(8) Whether your organization is subject to cost accounting standards; whether your organization has submitted a CASB Disclosure Statement, and if it has been determined adequate; whether you have been notified that you are or may be in noncompliance with your Disclosure Statement or CAS (other than a noncompliance that the cognizant Federal agency official has determined to have an immaterial cost impact), and, if yes, an explanation; whether any aspect of this proposal is inconsistent with your disclosed practices or applicable CAS, and, if so, an explanation; and whether the proposal is consistent with your established estimating and accounting principles and procedures and FAR part 31, *Cost Principles*, and, if not, an explanation;
(9) The following statement: This proposal reflects our estimates and/or actual costs as of this date and conforms with the instructions in the RFP and FAR 15.408-2, Table 15-1. By submitting this proposal, we grant the Contracting Officer and authorized representative(s) the right to examine, at any time before award, those records, which include books, documents, accounting procedures and practices, and other data, regardless of type and form or whether such supporting information is specifically referenced or included in the proposal as the basis for pricing, that will permit an adequate evaluation of the proposed price.
(10) Date of submission; and
(11) Name, title, and signature of authorized representative.

B. In submitting your proposal, you must include an index, appropriately referenced, of all the certified cost or pricing data and information accompanying or identified in the proposal. In addition, you must annotate any future additions and/or revisions, up to the date of agreement on price, or an earlier date agreed upon by the parties, on a supplemental index.

C. As part of the specific information required, you must submit, with your proposal—
(1) Certified cost or pricing data (as defined at FAR 2.101). You must clearly identify on your cover sheet that certified cost or pricing data are included as part of the proposal.
(2) Information reasonably required to explain your estimating process, including—
(i) The judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data; and
(ii) The nature and amount of any contingencies included in the proposed price.

D. You must show the relationship between line item prices and the total contract price. You must attach cost-element breakdowns for each proposed line item, using the appropriate format prescribed in the "Formats for Submission of Line Item Summaries" section of this table. You must furnish supporting breakdowns for each cost element, consistent with your cost accounting system.

E. When more than one line item is proposed, you must also provide summary total amounts covering all line items for each element of cost.

F. Whenever you have incurred costs for work performed before submission of a proposal, you must identify those costs in your cost/price proposal.

G. If you have reached an agreement with Government representatives on use of forward pricing rates/factors, identify the agreement, include a copy, and describe its nature.

H. As soon as practicable after final agreement on price or an earlier date agreed to by the parties, but before the award resulting from the proposal, you must, under the conditions stated in FAR 15.403-4, submit a Certificate of Current Cost or Pricing Data.

II. Cost Elements

Depending on your system, you must provide breakdowns for the following basic cost elements, as applicable:

A. *Materials and services*. Provide a consolidated priced summary of individual material quantities included in the various tasks, orders, or line items being proposed and the basis for pricing (vendor quotes, invoice prices, etc.). Include raw materials, parts, components, assemblies, and services to be produced or performed by others. For all items proposed, identify the item and show the source, quantity, and price. Conduct price analyses of all subcontractor proposals. Conduct cost analyses for all subcontracts when certified cost or pricing data are submitted by the subcontractor. Include these analyses as part of your own certified cost or pricing data submissions for subcontracts expected to exceed the appropriate threshold in FAR 15.403-3(a). Submit the subcontractor certified cost or pricing data and data other than certified cost or pricing data as part of your own certified cost or pricing data as required in paragraph IIA(2) of this table. These requirements also apply to all subcontractors if required to submit certified cost or pricing data.

(1) *Adequate Price Competition*. Provide data showing the degree of competition and the basis for establishing the source and reasonableness of price for those acquisitions (such as subcontracts, purchase orders, material order, etc.) exceeding, or expected to exceed, the appropriate threshold set forth at FAR 15.403-3(a) priced on the basis of adequate price competition. For interorganizational transfers priced at other than the cost of comparable competitive commercial work of the division, subsidiary, or affiliate of the contractor, explain the pricing method (see FAR 31).

(2) *All Other*. Obtain certified cost or pricing data from prospective sources for those acquisitions (such as subcontracts, purchase orders, material order, etc.) exceeding the threshold set forth in FAR 15.403-3(a) and not otherwise exempt, in accordance with FAR 15.403-2. Also provide data showing the basis for establishing source and reasonableness of price. In addition, provide a summary of your cost analysis and a copy of certified cost or pricing data submitted by the prospective source in support of each subcontract, or purchase order that is the lower of either $20 million or more, or both more than the pertinent certified cost or pricing data threshold and more than 10 percent of the prime contractor's proposed price. Also submit any information reasonably required to explain your estimating process (including the judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data, and the nature and amount of any contingencies included in the price). The Contracting Officer may require you to submit cost or pricing data in support of proposals in lower amounts. Subcontractor certified cost or pricing data must be accurate, complete and current as of the date of final price agreement, or an earlier date agreed upon by the parties, given on the prime contractor's Certificate of Current Cost or Pricing Data. The prime contractor is responsible for updating a prospective subcontractor's data. For standard commercial products fabricated by the offeror that are generally stocked in inventory, provide a separate cost breakdown, if priced based on cost. For interorganizational transfers priced at cost, provide a separate breakdown of cost elements. Analyze the certified cost or pricing data and submit the results of your analysis of the prospective source's proposal. When submission of a prospective source's certified cost or pricing data is required as described in this paragraph, it must be included as part of your own certified cost or pricing data. You must also submit any data other than certified cost or pricing data obtained from a subcontractor, either actually or by specific identification, along with the results of any analysis performed on that data.

B. *Direct Labor*. Provide a time-phased (e.g., monthly, quarterly, etc.) breakdown of labor hours, rates, and cost by appropriate category, and furnish bases for estimates.

C. *Indirect Costs*. Indicate how you have computed and applied your indirect costs, including cost breakdowns. Show trends and budgetary data to provide a basis for evaluating the reasonableness of proposed rates. Indicate the rates used and provide an appropriate explanation.

D. *Other Costs*. List all other costs not otherwise included in the categories described above (e.g., special tooling, travel, computer and consultant services, preservation, packaging and packing, spoilage and rework, and Federal excise tax on finished articles) and provide bases for pricing.

E. *Royalties*. If royalties exceed $1,500, you must provide the following information on a separate page for each separate royalty or license fee:

(1) Name and address of licensor.

(2) Date of license agreement.

(3) Patent numbers.

(4) Patent application serial numbers, or other basis on which the royalty is payable.

(5) Brief description (including any part or model numbers of each contract item or component on which the royalty is payable).

(6) Percentage or dollar rate of royalty per unit.

(7) Unit price of contract item.

(8) Number of units.

(9) Total dollar amount of royalties.

(10) If specifically requested by the Contracting Officer, a copy of the current license agreement and identification of applicable claims of specific patents (see part 27 and 31).

F. *Facilities Capital Cost of Money*. When you elect to claim facilities capital cost of money as an allowable cost, you must submit Form CASB CMF and show the calculation of the proposed amount (see 31.205-10 and 48 CFR 9904.414).

III. Formats for Submission of Line Item Summaries

A. New Contracts (Including Letter Contracts)

Cost elements (1)	Proposed contract estimate—total cost (2)	Proposed contract estimate—unit cost (3)	Reference (4)

Column and Instruction

(1) Enter appropriate cost elements.

(2) Enter those necessary and reasonable costs that, in your judgment, will properly be incurred in efficient contract performance. When any of the costs in this column have already been incurred (e.g., under a letter contract), describe them on an attached supporting page. When preproduction or startup costs are significant, or when specifically requested to do so by the Contracting Officer, provide a full identification and explanation of them.

(3) Optional, unless required by the Contracting Officer.

(4) Identify the attachment in which the information supporting the specific cost element may be found. (Attach separate pages as necessary.)

B. Change Orders, Modifications, and Claims

Cost elements (1)	Estimated cost of all work deleted (2)	Cost of deleted work already performed (3)	Net cost to be deleted (4)	Cost of work added (5)	Net cost of change (6)	Reference (7)

Column and Instruction

(1) Enter appropriate cost elements.

(2) Include the current estimates of what the cost would have been to complete the deleted work not yet performed (not the original proposal estimates), and the cost of deleted work already performed.

(3) Include the incurred cost of deleted work already performed, using actuals incurred if possible, or, if actuals are not available, estimates from your accounting records. Attach a detailed inventory of work, materials, parts, components, and hardware already purchased, manufactured, or performed and deleted by the change, indicating the cost and proposed disposition of each line item. Also, if you desire to retain these items or any portion of them, indicate the amount offered for them.

(4) Enter the net cost to be deleted, which is the estimated cost of all deleted work less the cost of deleted work already performed. Column (2) minus Column (3) equals Column (4).

(5) Enter your estimate for cost of work added by the change. When nonrecurring costs are significant, or when specifically requested to do so by the Contracting Officer, provide a full identification and explanation of them. When any of the costs in this column have already been incurred, describe them on an attached supporting schedule.

(6) Enter the net cost of change, which is the cost of work added, less the net cost to be deleted. Column (5) minus Column (4) equals Column (6). When this result is negative, place the amount in parentheses.

(7) Identify the attachment in which the information supporting the specific cost element may be found. (Attach separate pages as necessary.)

C. Price Revision/Redetermination

Cutoff date (1)	Number of units completed (2)	Number of units to be completed (3)	Contract amount (4)	Redetermination proposal amount (5)	Difference (6)	Cost elements (7)	Incurred cost—preproduction (8)	Incurred cost—completed units (9)	Incurred cost—work in process (10)	Total incurred cost (11)	Estimated cost to complete (12)	Estimated total cost (13)	Reference (14)

(Use as applicable)

Column and Instruction

(1) Enter the cutoff date required by the contract, if applicable.

(2) Enter the number of units completed during the period for which experienced costs of production are being submitted.

(3) Enter the number of units remaining to be completed under the contract.

(4) Enter the cumulative contract amount.

(5) Enter your redetermination proposal amount.

(6) Enter the difference between the contract amount and the redetermination proposal amount. When this result is negative, place the amount in parentheses. Column (4) minus Column (5) equals Column (6).

(7) Enter appropriate cost elements. When residual inventory exists, the final costs established under fixed-price-incentive and fixed-price-redeterminable arrangements should be net of the fair market value of such inventory. In support of subcontract costs, submit a listing of all subcontracts subject to repricing action, annotated as to their status.

(8) Enter all costs incurred under the contract before starting production and other nonrecurring costs (usually referred to as startup costs) from your books and records as of the cutoff date. These include such costs as preproduction engineering, special plant rearrangement, training program, and any identifiable nonrecurring costs such as initial rework, spoilage, pilot runs, etc. In the event the amounts are not segregated in or otherwise available from your records, enter in this column your best estimates. Explain the basis for each estimate and how the costs are charged on your accounting records (e.g., included in production costs as direct engineering labor, charged to manufacturing overhead). Also show how the costs would be allocated to the units at their various stages of contract completion.

(9) Enter in Column (9) the production costs from your books and records (exclusive of preproduction costs reported in Column (8)) of the units completed as of the cutoff date.

(10) Enter in Column (10) the costs of work in process as determined from your records or inventories at the cutoff date. When the amounts for work in process are not available in your records but reliable estimates for them can be made, enter the estimated amounts in Column (10) and enter in Column (9) the differences between the total incurred costs (exclusive of preproduction costs) as of the cutoff date and these estimates. Explain the basis for the estimates, including identification of any provision for experienced or anticipated allowances, such as shrinkage, rework, design changes, etc. Furnish experienced unit or lot costs (or labor hours) from inception of contract to the cutoff date, improvement curves, and any other available production cost history pertaining to the item(s) to which your proposal relates.

(11) Enter total incurred costs (Total of Columns (8), (9), and (10)).

(12) Enter those necessary and reasonable costs that in your judgment will properly be incurred in completing the remaining work to be performed under the contract with respect to the item(s) to which your proposal relates.

(13) Enter total estimated cost (Total of Columns (11) and (12)).

(14) Identify the attachment in which the information supporting the specific cost element may be found. (Attach separate pages as necessary.)

This page intentionally left blank.

Subpart 15.5 - Unsolicited Proposals

15.500 Scope of subpart.

This subpart contains policies and procedures for the submission, receipt, evaluation, and acceptance or rejection of unsolicited proposals.

15.501 Definitions.

As used in this subpart—

Advertising material means material designed to acquaint the Government with a prospective contractor's present products, services, or potential capabilities, or designed to stimulate the Government's interest in buying such products or services.

Commercial product or commercial service offer means an offer of a commercial product or commercial service that the vendor wishes to see introduced in the Government's supply system as an alternate or a replacement for an existing supply item. This term does not include innovative or unique configurations or uses of commercial products or commercial services that are being offered for further development and that may be submitted as an unsolicited proposal.

Contribution means a concept, suggestion, or idea presented to the Government for its use with no indication that the source intends to devote any further effort to it on the Government's behalf.

15.502 General.

(a) *Purpose*. Unsolicited proposals allow unique and innovative ideas or approaches developed outside the Government to be made available to Government agencies for use in accomplishing their missions.

(b) *Intent*. Unsolicited proposals are offered with the intent that the Government will award a contract to the offeror for research and development or other efforts supporting the Government mission. Only the cognizant contracting officer has the authority to bind the Government regarding unsolicited proposals.

(c) *Early exchanges*. Preliminary contact with technical and other appropriate agency personnel before preparing a detailed unsolicited proposal or submitting proprietary information to the Government may save considerable time and effort for both parties.

(d) *Information for potential offerors*. Agencies must make the following information available to potential offerors of unsolicited proposals:

(1) Definition and content of an unsolicited proposal acceptable for formal evaluation.

(2) Requirements concerning responsible prospective contractors and organizational conflicts of interest.

(3) Guidance on preferred methods for submitting ideas/concepts to the Government, such as any agency: upcoming requests for proposals (RFP); Broad Agency Announcements (BAA); Small Business Innovative Research programs (SBIR); Small Business Technology Transfer (STTR) programs; program research and development announcements; or grant programs.

(4) Agency points of contact for information regarding advertising, contributions, and other types of transactions similar to unsolicited proposals.

(5) Information sources on agency objectives and areas of potential interest.

(6) Procedures for submission and evaluation of unsolicited proposals.

(7) Instructions for identifying and marking proprietary information so that it is protected and restrictive legends conform to this subpart.

(e) *Prohibitions*.

(1) Government personnel should not use any data, concept, idea, or other part of an unsolicited proposal as the basis, or part of the basis, for a RFP or in negotiations with any other firm unless the offeror is notified of and agrees to the intended use. This prohibition does not preclude using any data, concept, or idea in the proposal that also is available from another source without restriction.

(2) Government personnel should not disclose restrictively marked information included in an unsolicited proposal. The disclosure of such information concerning trade secrets, processes, operations, style of work, apparatus, and other matters, except as authorized by law, may result in criminal penalties under 18 U.S.C. 1905.

15.503 Preparing unsolicited proposals.

15.503-1 Scope of proposals.

(a) Unsolicited proposals may be submitted for new and innovative ideas that do not already fall under topic areas publicized under BAA, SBIR topics, STTR topics, program research and development announcements, or any other Government-initiated RFP or program.

(b) A valid unsolicited proposal must—

(1) Be innovative and unique;

(2) Be independently originated and developed by the offeror;

(3) Be prepared without Government supervision, endorsement, direction, or direct Government involvement;

(4) Include sufficient detail to permit a determination that Government support could be worthwhile and the proposed work could benefit the agency's research and development or other mission responsibilities;

(5) Not be an advance proposal for a known agency requirement that can be acquired by competitive methods; and

(6) Not address a previously published agency requirement.

(c) Advertising material, commercial product or commercial service offers, contributions, or routine correspondence on technical issues, are not unsolicited proposals.

(d) Unsolicited proposals in response to a publicized general statement of agency needs are considered to be independently originated.

15.503-2 Content of proposals.

Unsolicited proposals must contain the following information to permit consideration in an objective and timely manner:

(a) Basic information including—

(1) Offeror's name and address and type of organization; *e.g.*, profit, nonprofit, educational, small business;

(2) Names and telephone numbers of technical and business personnel to be contacted for evaluation or negotiation purposes;

(3) Identification of proprietary data to be used only for evaluation purposes;

(4) Names of other Federal, State, or local agencies or parties receiving the proposal or funding the proposed effort;

(5) Date of submission; and

(6) Signature of a person authorized to represent and contractually obligate the offeror.

(b) Technical information including—

(1) Concise title and short abstract of the proposed effort;

(2) A reasonably complete discussion stating the objectives of the effort or activity, the method of approach and extent of effort to be employed, the nature and extent of the anticipated results, and the manner in which the work will help to support accomplishment of the agency's mission;

(3) Names and biographical information on the offeror's key personnel who would be involved, including alternates; and

(4) Type of support needed from the agency; e.g., Government property or personnel resources.

(c) Supporting information including—

(1) Proposed price or total estimated cost for the effort in sufficient detail for meaningful evaluation;

(2) Period of time for which the proposal is valid (a 6-month minimum is suggested);

(3) Type of contract preferred;

(4) Proposed duration of effort;

(5) Brief description of the organization, previous experience, relevant past performance, and facilities to be used;

(6) Other statements, if applicable, about organizational conflicts of interest, security clearances, and environmental impacts; and

(7) The names and telephone numbers of agency technical or other agency points of contact already contacted regarding the proposal.

15.503-3 Restricting use and disclosure of data.

(a) Unsolicited proposals may include data that the offeror does not want disclosed to the public for any purpose or used by the Government except for evaluation purposes. If the offeror wishes to restrict the use and disclosure of data, the title page must be marked the following legend:

Use and Disclosure of Data

This proposal includes data that must not be disclosed outside the Government and must not be duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate this proposal. However, if a contract is awarded to this offeror as a result of, or in connection with, the submission of these data, the Government must have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in these data if they are obtained from another source without restriction. The data subject to this restriction are contained in Sheets [*insert numbers or other identification of sheets*].

(1) The offeror must also mark each sheet of data it wishes to restrict with the following legend: Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(2) An offeror should identify trade secrets, commercial or financial information, and privileged or confidential information to the Government

15.504 Receipt and initial review of unsolicited proposals.

(a) Agencies must establish procedures for controlling the receipt, evaluation, and timely disposition of unsolicited proposals. The procedures must include controls on the reproduction and disposition of proposal material, particularly data identified by the offeror as subject to duplication, use, or disclosure restrictions; and identify agency points of contact to coordinate the receipt and handling of unsolicited proposals.

(b) Agencies may decline evaluation or consideration of unsolicited proposals submitted concurrently to more than one agency, or distributed in bulk.

15.504-1 Initial Review.

(a) Before beginning a comprehensive evaluation, the agency contact point must determine if the proposal—

(1) Is a valid unsolicited proposal, as described at 15.503-1(b);

(2) Is suitable for submission in response to an existing agency requirement;

(3) Is related to the agency mission;

(4) Contains sufficient technical information and cost-related or price-related information for evaluation;

(5) Has overall scientific, technical, or socioeconomic merit;

(6) Has been approved by a responsible official or other representative authorized to obligate the offeror contractually; and

(7) Complies with the marking requirements of this subpart.

(b) If the proposal meets these requirements, the contact point must promptly acknowledge receipt and process the proposal.

(c) If a proposal is rejected because the proposal does not meet these requirements, the agency contact point must promptly inform the offeror in writing of the reasons for rejection and the proposed disposition of the unsolicited proposal.

15.504-2 Handling use and disclosure of data restrictions.

(a) *Alternate legend*. When an unsolicited proposal meeting the requirements at 15.504-1(a) is marked with a legend different from that at 15.503-3, the agency point of contact must—

(1) Return the proposal to the offeror and notify them that the proposal cannot be considered because it is impracticable for the Government to comply with the legend and that the agency will consider the proposal if it is resubmitted with the proper legend; and

(2) Unless the offeror clearly states in writing that no restrictions are imposed on the disclosure or use of the data contained in the proposal, mark the unsolicited proposal as follows:

Unsolicited Proposal—Use of Data Limited

All Government personnel must exercise extreme care to ensure that the information in this proposal is not disclosed to an individual who has not been authorized access to such data in accordance with FAR part 3, and is not duplicated, used, or disclosed in whole or in part for any purpose other than evaluation of the proposal, without the written permission of the offeror. If a contract is awarded on the basis of this proposal, the terms of the contract must control disclosure and use. This notice does not limit the Government's right to use information contained in the proposal if it is obtainable from another source without restriction. This is a Government notice, and must not by itself be construed to impose any liability upon the Government or Government personnel for disclosure or use of data contained in this proposal.

(3) Not use this notice to justify withholding of a record, or to improperly deny the public access to a record, where an obligation is imposed by the Freedom of Information Act (5 U.S.C. 552).

(b) *Evaluation by personnel outside of the agency or the Government*.

(1) When an agency receives an unsolicited proposal from other than an educational or nonprofit organization or institution, and an evaluation by Government personnel outside the agency or non-Government personnel is necessary, written permission must be obtained from the offeror before releasing the proposal for evaluation. The agency point of contact should—

(i) Attach a cover sheet marked with the legend in paragraph (a)(2) of this section;

(ii) Change the beginning of the legend to read "All Government and non-Government personnel * * * "; and

(iii) Require any non-Government evaluator to agree in writing that data in the proposal will not be disclosed to persons outside the Government.

(2) When an agency receives an unsolicited proposal without a restrictive legend from an educational or nonprofit organization or institution, and evaluation outside of the Government is necessary, the agency point of contact should follow paragraphs (b)(1)(i) through (iii) of this section.

(3) When an agency receives an unsolicited proposal with a restrictive legend from an educational or nonprofit organization or institution, and evaluation by non-Government personnel is necessary, the agency point of contact must—

(i) Follow paragraphs (b)(1)(i) through (iii) of this section; and

(ii) Obtain written permission from the offeror before releasing the proposal for evaluation.

15.505 Evaluation of unsolicited proposals.

(a) Agencies must evaluate unsolicited proposals for energy savings performance contracts in accordance with the procedures in 10 CFR 436.33(b).

(b) The agency point of contact must coordinate the evaluation of proposals and attach the legend at 15.504-2(a)(2) to each copy of the proposal distributed for evaluation.

(c) When evaluating unsolicited proposals, evaluators should consider, at a minimum, the following factors:

(1) Unique, innovative and meritorious methods, approaches, or concepts demonstrated by the proposal;

(2) Overall scientific, technical, or socioeconomic merits of the proposal;

(3) Potential contribution of the effort to the agency's specific mission;

(4) Offeror's capabilities, related experience, facilities, techniques, or unique combinations of these that are integral factors for achieving the proposal objectives;

(5) Qualifications, capabilities, and experience of the proposed principal investigator, team leader, or key personnel critical to achieving the proposal objectives; and

(6) Realism of the proposed cost.

(d) Evaluators must notify the agency point of contact of their recommendations when the evaluation is complete.

(e) A favorable evaluation of an unsolicited proposal does not, in itself, justify awarding a contract without providing for full and open competition. The agency point of contact should return an unsolicited proposal to the offeror, citing reasons, when its substance—

(1) Is available to the Government without restriction from another source;

(2) Closely resembles a pending competitive acquisition requirement;

(3) Does not relate to the activity's mission; or

(4) Does not demonstrate an innovative and unique method, approach, or concept, or is otherwise not deemed a meritorious proposal.

15.506 Criteria for acceptance and negotiation of an unsolicited proposal.

Contracting officers may begin negotiations on a sole source basis only when—

(a) An unsolicited proposal receives a favorable comprehensive evaluation;

(b) A justification and approval is obtained in accordance with part 6;

(c) The agency technical office sponsoring the contract furnishes the necessary funds; and

(d) The requirements for synopsizing a proposed contract action are met.

PART 16 - TYPES OF CONTRACTS

Subpart 16.6 - Time-and-Materials, Labor-Hour, and Letter Contracts

Subpart 16.7 - Agreements

16.000 Scope of part.

This part prescribes policies and procedures for selecting contract type(s) appropriate to the circumstances of the acquisition. Except for limited instructions regarding the placement of task and delivery orders, the entirety of this part applies to the pre-solicitation phase and is meant to guide in acquisition planning.

16.001 Definitions.

As used in this part-

Award-Fee Board means the team of individuals identified in the award-fee plan who have been designated to assist the Fee-Determining Official in making award-fee determinations.

Established price means a price that—

(1) Is an established catalog or market price for a commercial product sold in substantial quantities to the general public; and

(2) Is the net price after applying any standard trade discounts offered by the contractor.

Fee-Determining Official means the designated Agency official(s) who reviews the recommendations of the Award-Fee Board in determining the amount of award fee to be earned by the contractor for each evaluation period.

Rollover of unearned award fee means the process of transferring unearned award fee, which the contractor had an opportunity to earn, from one evaluation period to a subsequent evaluation period, thus allowing the contractor an additional opportunity to earn that previously unearned award fee.

Subpart 16.1 - Selecting Contract Types

16.101 Policies.

(a) Unless expressly prohibited by statute or this regulation, contract types that promote the best interests of the Government, but are not described in this regulation, are permitted for use in accordance with agency procedures (see 10 U.S.C. 3321(a) and 41 U.S.C. 3901). Ensure selection of contract type is consistent with the Guiding Principles for the System in 1.102.

(b) The cost-plus-a-percentage-of-cost system of contracting must not be used (see 10 U.S.C. 3322(a) and 41 U.S.C. 3905(a)). Prime contracts (including letter contracts) other than firm-fixed-price contracts must, by an appropriate clause, prohibit cost-plus-a-percentage-of-cost subcontracts (see clauses prescribed in part 44 for cost-reimbursement contracts and part 16 for fixed-price contracts).

16.102 Negotiating contract type.

(a) (1) Selecting the contract type is generally a matter for negotiation and requires the exercise of sound judgment. When selecting and negotiating the contract type, the contracting officer must consider contract terms, risks (e.g., technical, performance, delivery), and pricing.

(2) Contracting officers may instruct offerors in the solicitation to propose an alternative contract type within their proposals.

(b) A firm-fixed-price contract, which best uses the basic profit motive of business enterprise, must be used when the risk involved is minimal or can be predicted with an acceptable degree of certainty. However, when a reasonable basis for firm pricing does not exist, other contract types should be considered, and negotiations should be directed toward selecting a contract type (or combination of types) that will appropriately tie profit to contractor performance.

(c) In the course of an acquisition program, a series of contracts, or a single long-term contract, changing circumstances may necessitate different contract types than those used initially. Contracting officers should avoid extended use of a cost-reimbursement or time-and-materials contract after experience provides a basis for firmer pricing.

16.103 Documenting contract type.

(a) Except as identified in paragraph (b) of this section, document and explain in the acquisition plan, or in the contract file if a written acquisition plan is not required by agency procedures-

(1) Why the contract type selected must be used to meet the agency's needs.

(2) The Government’s risks and the burden to manage the contract type selected. As applicable, discuss –

(i) How the Government identified the risks (e.g., pre-award survey, or past performance information);

(ii) The nature of the risks (e.g., inadequate contractor’s accounting system, weaknesses in contractor's internal control, non-compliance with Cost Accounting Standards, or lack of or inadequate earned value management system); and

(iii) How the Government will manage and mitigate the risks.

(3) The Government resources necessary to properly plan for, award, and administer the contract type selected (e.g., resources needed and the additional risks to the Government if adequate resources are not provided).

(4) For other than a firm-fixed-price contract, at a minimum include–

(i) An analysis of why the use of other than a firm-fixed-price contract (e.g., cost reimbursement, time-and-materials, labor hour, innovative contract type) is appropriate;

(ii) Rationale that detail specific facts and circumstances (e.g., complexity of the requirements, uncertain work duration, contractor's technical capability and financial responsibility, or adequacy of the contractor's accounting system), and associated reasoning essential to support the contract type selection;

(iii) An assessment of whether Government resources are adequate to properly plan for, award, and administer other than firm-fixed-price contracts; and

(iv) A discussion of planned actions to minimize the use of other than firm-fixed-price contracts on future acquisitions for the same requirement and to transition to firm-fixed-price contracts to the maximum extent practicable.

(5) Why a level-of-effort, price redetermination, or fee provision was included.

(b) Documentation of contract type is not required for the following-

(1) Fixed-price acquisitions made under simplified acquisition procedures;

(2) Contracts on a firm-fixed-price basis other than those for major systems or research and development; and

(3) Awards on the set-aside portion of sealed bid partial set-asides for small business.

16.104 Solicitation provision.

The contracting officer may complete and insert the provision at 52.216-1, Type of Contract, in a solicitation. When the solicitation provides for the opportunity for an offeror to propose an alternative contract type, include the provision with its Alternate I.

Subpart 16.2 - Fixed-Price Contracts

16.201 General.

(a) Fixed-price types of contracts provide for a firm price or, in appropriate cases, an adjustable price. Fixed-price contracts with adjustable prices may include a ceiling price, a target price (including target cost), or both. Unless otherwise specified in the contract, the ceiling price or target price may only be adjusted through contract clauses that provide for equitable adjustment or other revision of the contract price under stated circumstances.

(b) The contracting officer must use firm-fixed-price or fixed-price with economic price adjustment contracts when acquiring commercial products and commercial services, except as provided in 12.104(a).

(c) Time-and-materials contracts and labor-hour contracts are not fixed-price contracts.

16.202 Firm-fixed-price contracts.

16.202-1 Description.

A firm-fixed-price contract provides for a price that is not subject to any adjustment on the basis of the contractor's experience in performing the contract. The contracting officer may use a firm-fixed-price contract in conjunction with an award-fee incentive (see 16.402) and performance or delivery incentives (see 16.403 and 16.404) when the award fee or incentive is based solely on factors other than cost. The contract type remains firm-fixed-price when used with these incentives.

16.202-2 Application.

A firm-fixed-price contract is suitable for acquiring supplies or services on the basis of clearly defined functional or detailed specifications (see part 11) when the contracting officer can establish fair and reasonable prices at the outset.

16.203 Fixed-price contracts with economic price adjustment.

16.203-1 Description.

(a) A fixed-price contract with economic price adjustment provides for upward and downward revision of the stated contract price when specific events occur. Economic price adjustments are of three general types:

(1) Adjustments based on established prices. These price adjustments are based on increases or decreases from an agreed-upon level in published or established prices of specific items or the contract end items.

(2) Adjustments based on actual costs of labor or material. These price adjustments are based on increases or decreases in specified costs of labor or material that the contractor actually experiences during contract performance.

(3) Adjustments based on cost indexes of labor or material. These price adjustments are based on increases or decreases in labor or material cost standards or indexes that are specifically identified in the contract.

(b) The contracting officer may use a fixed-price contract with economic price adjustment in conjunction with an award-fee incentive (see 16.402) and performance or delivery incentives (see 16.403 and 16.404). This combination is appropriate when the award fee or incentive is based solely on factors other than cost. The contract type remains fixed-price with economic price adjustment when used with these incentives.

16.203-2 Application.

(a) A fixed-price contract with economic price adjustment may be used when-

(1) There is serious doubt concerning the stability of market or labor conditions that will exist during an extended period of contract performance; and

(2) Contingencies that would otherwise be included in the contract price can be identified and covered separately in the contract. Price adjustments based on established prices should normally be restricted to industry-wide contingencies. Price adjustments based on labor and material costs should be limited to contingencies beyond the contractor's control. For use of economic price adjustment in sealed bid contracts, see part 14.

(b) When establishing the base level from which adjustments will be made, the contracting officer must ensure that contingency allowances are not duplicated by inclusion in both the base price and the adjustment requested by the contractor under economic price adjustment clause.

(c) In contracts that do not require submission of certified cost or pricing data, the contracting officer must obtain adequate data to establish the base level from which adjustment will be made and may require verification of data submitted.

16.203-3 Limitations.

A fixed-price contract with economic price adjustment may be used only if the contracting officer determines that it is necessary to protect the contractor and the Government against significant fluctuations in labor or material costs or to provide for contract price adjustment in the event of changes in the contractor's established prices.

16.203-4 Contract clauses.

(a) *Adjustment based on established prices-standard supplies*.

(1) The contracting officer must, when contracting by negotiation, insert the clause at 52.216-2, Economic Price Adjustment-Standard Supplies, or an agency-prescribed clause in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) The requirement is for standard supplies that have an established catalog or market price.

(iii) The contracting officer has made the determination specified in 16.203-3.

(2) The contracting officer may modify the clause by increasing the 10 percent limit on aggregate increases specified in 52.216-2(c)(1), upon approval by the chief of the contracting office.

(b) *Adjustment based on established prices-semistandard supplies.*

(1) The contracting officer must, when contracting by negotiation, insert the clause at 52.216-3, Economic Price Adjustment-Semistandard Supplies, or an agency-prescribed clause in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) The requirement is for semistandard supplies for which the prices can be reasonably related to the prices of nearly equivalent standard supplies that have an established catalog or market price.

(iii) The contracting officer has made the determination specified in 16.203-3.

(2) Before entering into the contract, the contracting officer and contractor must agree in writing on the identity of the standard supplies and the corresponding line items to which the clause applies.

(3) If the supplies are standard, except for preservation, packaging, and packing requirements, the clause prescribed in 16.203-4(a) must be used rather than this clause.

(4) The contracting officer may modify the clause by increasing the 10 percent limit on aggregate increases specified in 52.216-3(c)(1), upon approval by the chief of the contracting office.

(c) *Adjustments based on actual cost of labor or material.*

(1) The contracting officer must, when contracting by negotiation, insert a clause that is substantially the same as the clause at 52.216-4, Economic Price Adjustment -Labor and Material, or an agency-prescribed clause in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) There is no major element of design engineering or development work involved.

(iii) One or more identifiable labor or material cost factors are subject to change.

(iv) The contracting officer has made the determination specified in 16.203-3.

(2) The contracting officer must describe in detail in the contract Schedule-

(i) The types of labor and materials subject to adjustment under the clause;

(ii) The labor rates, including fringe benefits (if any) and unit prices of materials that may be increased or decreased; and

(iii) The quantities of the specified labor and materials allocable to each unit to be delivered under the contract.

(3) In negotiating adjustments under the clause, the contracting officer must-

(i) Consider work in process and materials on hand at the time of changes in labor rates, including fringe benefits (if any) or material prices;

(ii) Not include in adjustments any indirect cost (except fringe benefits as defined in 31.205-6(l) or profit; and

(iii) Consider only those fringe benefits specified in the contract Schedule.

(4) The contracting officer may modify the clause by increasing the 10 percent limit on aggregate increases specified in 52.216-4(c)(4), upon approval by the chief of the contracting office.

(d) *Adjustments based on cost indexes of labor or material.* The contracting officer should consider using an economic price adjustment clause based on cost indexes of labor or material under the circumstances and subject to approval as described in paragraphs(d)(1) and (d)(2) of this subsection.

(1) A clause providing adjustment based on cost indexes of labor or materials may be appropriate when-

(i) The contract involves an extended period of performance with significant costs to be incurred beyond 1 year after performance begins;

(ii) The contract amount subject to adjustment is substantial; and

(iii) The economic variables for labor and materials are too unstable to permit a reasonable division of risk between the Government and the contractor, without this type of clause.

(2) Any clause using this method must be prepared and approved under agency procedures.

16.204 Fixed-price contracts with prospective price redetermination.

16.204-1 Description.

A fixed-price contract with prospective price redetermination provides for-

(a) A firm-fixed-price for an initial period of contract deliveries or performance; and

(b) Prospective redetermination, at a stated time or times during performance, of the price for subsequent periods of performance.

16.204-2 Application.

A fixed-price contract with prospective price redetermination may be used in acquisitions of quantity production or services for which it is possible to negotiate a fair and reasonable firm-fixed-price for an initial period, but not for subsequent periods of contract performance.

(a) The initial period should be the longest period for which it is possible to negotiate a fair and reasonable firm-fixed-price. Each subsequent pricing period should be at least 12 months.

(b) The contract may provide for a ceiling price based on evaluation of the uncertainties involved in performance and their possible cost impact.

16.204-3 Limitations.

This contract type must not be used unless-

(a) Negotiations have established that using a firm-fixed-price or fixed-price incentive contract is not appropriate for the acquisition;

(b) The contractor's accounting system is adequate for price redetermination;

(c) The prospective pricing periods can be made to conform with operation of the contractor's accounting system; and

(d) There is reasonable assurance that price redetermination actions will take place promptly at the specified times.

16.204-4 Contract clause.

The contracting officer must, when contracting by negotiation, insert the clause at 52.216-5, Price Redetermination-Prospective, in solicitations and contracts when a fixed-price contract is contemplated and the conditions specified in 16.204-2 and 16.204-3 apply.

16.205 Fixed-ceiling-price contracts with retroactive price redetermination.

16.205-1 Description.

A fixed-ceiling-price contract with retroactive price redetermination provides for (a) a fixed ceiling price and (b) retroactive price redetermination within the ceiling after completion of the contract.

16.205-2 Application.

A fixed-ceiling-price contract with retroactive price redetermination is appropriate when it is established at the outset that a fair and reasonable firm-fixed-price cannot be negotiated, and that the amount involved and short performance period make the use of any other fixed-price contract type impracticable.

(a) A ceiling price must be negotiated for the contract at a level that reflects a reasonable sharing of risk by the contractor. The established ceiling price may be adjusted only if required by the operation of contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances.

(b) The contract should be awarded only after negotiation of a billing price that is as fair and reasonable as the circumstances permit.

16.205-3 Limitations.

This contract type may only be used when-

(a) The contract is for research and development and the estimated cost is at or below the simplified acquisition threshold (SAT);

(b) The contractor's accounting system is adequate for price redetermination;

(c) There is reasonable assurance that the price redetermination will take place promptly at the specified time; and

(d) The head of the contracting activity (or a higher-level official, if required by agency procedures) approves its use in writing.

16.205-4 Contract clause.

The contracting officer must, when contracting by negotiation, insert the clause at 52.216-6, Price Redetermination-Retroactive, in solicitations and contracts when a fixed-price contract is contemplated and the conditions in 16.205-2 and 16.205-3 apply.

16.206 Firm-fixed-price, level-of-effort term contracts.

16.206-1 Description.

A firm-fixed-price, level-of-effort term contract requires (a) the contractor to provide a specified level of effort, over a stated period of time, on work that can be described only in general terms and (b) the Government to pay the contractor a fixed dollar amount.

16.206-2 Application.

A firm-fixed-price, level-of-effort term contract is suitable for investigation or study in a specific research and development area. The product of the contract is usually a report showing the results achieved through application of the required level of effort. However, payment is based on the effort expended rather than on the results achieved.

16.206-3 Limitations.

This contract type may be used only when-

(a) The work required cannot otherwise be clearly defined;

(b) The required level of effort is identified and agreed upon in advance; and

(c) There is reasonable assurance that the intended result cannot be achieved by expending less than the stipulated effort.

Subpart 16.3 - Cost-Reimbursement Contracts

16.301 General.

16.301-1 Description.

Cost-reimbursement contracts allow for the reimbursement of allowable incurred costs. These contracts establish an estimate of total cost for the purpose of obligating funds and establishing a ceiling value that the contractor may not exceed (except at its own risk) without the approval of the contracting officer.

16.301-2 Application.

(a) The contracting officer must use cost-reimbursement contracts only when-

(1) The requirements cannot be sufficiently defined to allow for a fixed-price type contract (see part 7); or

(2) Uncertainties involved in contract performance do not permit costs to be estimated with sufficient accuracy to use any type of fixed-price contract.

(b) The contracting officer must document the reason for selecting the contract type in the written acquisition plan. The plan must be approved and signed at least one level above the contracting officer (see part 7 and 16.103).

16.301-3 Limitations.

(a) A cost-reimbursement contract may be used only when-

(1) A written acquisition plan has been approved;

(2) The contractor's accounting system can adequately segregate, accumulate and allocate costs specifically attributed to the contract or order during contract performance; and

(3) Before award of the contract or order, sufficient Government resources are available to award and manage a contract other than firm-fixed-priced (see part 7). This includes designating a contracting officer's representative to monitor contractor performance and cost controls (see part 1).

(b) The use of cost-reimbursement contracts is not allowed for the purchase of commercial products and commercial services (see parts 2 and 12).

16.302 Cost contracts.

A cost contract is a cost-reimbursement contract that does not include fee.

16.303 Cost-sharing contracts.

A cost-sharing contract is a cost-reimbursement contract that does not include fee, and the Government reimburses only a portion of the allowable costs. The contracting officer must state in the contract the agreed upon portion or percentage of allowable costs that will be reimbursed.

16.304 Cost-plus-fixed-fee contracts.

16.304-1 Description.

A cost-plus-fixed-fee contract is a cost-reimbursement contract that includes payment of an agreed upon fixed-fee. The fixed fee does not change with actual cost but may be adjusted as a result of changes in the work to be performed under the contract.

16.304-2 Limitations.

A cost-plus-fixed-fee contract must not be awarded unless the contracting officer complies with all limitations in part 15.

16.304-3 Completion and term forms.

A cost-plus-fixed-fee contract may take one of two basic forms-completion or term.

(a) The completion form describes the scope of work by stating a definite goal or target and specifying an end product. This form of contract normally requires the contractor to complete and deliver the specified end product (e.g., a final report of research accomplishing the goal or target) within the estimated cost, if possible, as a condition for payment of the entire fixed fee. However, if the work costs more than estimated, the Government may increase allowable costs to complete the work without increasing the fee.

(b) The term form describes the scope of work in general terms and requires the contractor to work at a specified level for a specific time period. The term form may not be used unless required by the contract to provide a specific level of effort within a definite time period. Under this form, if the performance is considered satisfactory by the Government, the fixed fee is payable at the end of the agreed upon period. Renewal for further periods of performance is a new acquisition that involves new cost and fee arrangements.

16.305 Contract clauses.

(a) (1) The contracting officer must insert the clause at 52.216-7, Allowable Cost and Payment, in solicitations and contracts when a cost-reimbursement contract or a time-and-materials contract (other than a contract for a commercial product or commercial service) is anticipated. If the contract is a time-and-materials contract, the clause at 52.216-7 applies in conjunction with the clause at 52.232-7 but only to the portion of the contract that provides for reimbursement of materials (as defined in the clause at 52.232-7) at actual cost. Further, the clause at 52.216-7 does not apply to labor-hour contracts.

(2) If the contract is a construction contract and contains the clause at 52.232-27, Prompt Payment for Construction Contracts, the contracting officer must use the clause at 52.216-7 with its Alternate I.

(3) If the contract is with an educational institution, the contracting officer must use the clause at 52.216-7 with its Alternate II.

(4) If the contract is with a State or local government, the contracting officer must use the clause at 52.216-7 with its Alternate III.

(5) If the contract is with a nonprofit organization other than an educational institution, a State or local government, or a nonprofit organization exempted under the OMB Uniform Guidance at 2 CFR part 200, appendix VIII, the contracting officer must use the clause at 52.216-7 with its Alternate IV.

(b) The contracting officer must insert the clause at 52.216-8, Fixed Fee, in solicitations and contracts when a cost-plus-fixed-fee contract (other than a construction contract) is anticipated.

(c) The contracting officer must insert the clause at 52.216-9, Fixed Fee-Construction, in solicitations and contracts when a cost-plus-fixed-fee construction contract is anticipated.

(d) The contracting officer must insert the clause at 52.216-10, Incentive Fee, in solicitations and contracts when a cost-plus-incentive-fee contract is anticipated.

(e) (1) The contracting officer must insert the clause at 52.216-11, Cost Contract-No Fee, in solicitations and contracts when a cost-reimbursement contract that provides no fee and is not a cost-sharing contract is anticipated. This clause may be modified by substituting $10,000 in lieu of $100,000 as the maximum reserve in paragraph (b) if the Contractor is a nonprofit organization.

(2) If a cost-reimbursement research and development contract with an educational institution or a nonprofit organization that provides no profit and is not a cost-sharing contract is anticipated, and if the contracting officer determines that withholding of a portion of allowable costs is not required, the contracting officer must use the clause with its Alternate I.

(f) (1) The contracting officer must insert the clause at 52.216-12, Cost-Sharing Contract-No Fee, in solicitations and contracts when a cost-sharing contract is anticipated. In solicitations and contracts when a cost-sharing contract is contemplated. This clause may be modified by substituting $10,000 in lieu of $100,000 as the maximum reserve in paragraph (b) if the contract is with a nonprofit organization.

(2) If a cost-sharing research and development contract with an educational institution or a nonprofit organization is anticipated, and if the contracting officer determines that withholding of a portion of allowable costs is not required, the contracting officer must use the clause with its Alternate I.

(g) The contracting officer must insert the clause at 52.216-15, Predetermined Indirect Cost Rates, in solicitations and contracts when a cost-reimbursement research and development contract with an educational institution (see part 42) is anticipated and predetermined indirect cost rates are to be used.

Subpart 16.4 - Incentive Contracts

16.401 General.

16.401-1 Description.

(a) Incentive contracts are designed to obtain specific acquisition objectives by-

(1) Establishing realistic and achievable targets that are clearly communicated to the contractor; and

(2) Including appropriate incentive arrangements designed to-

(i) Motivate contractor efforts that might not otherwise be emphasized and

(ii) Discourage contractor inefficiency and waste.

(b) When predetermined, formula-type incentives on technical performance or delivery are included, profit or fee increases are only earned when performance exceeds the targets. Decreases apply when contractors fail to meet these targets. These incentive increases or decreases relate only to performance targets, not minimum performance requirements.

(c) The two basic categories of incentive contracts are fixed-price incentive contracts (see 16.402-3 and 16.404) and cost-reimbursement incentive contracts (see 16.402-4 and 16.405).

16.401-2 Limitations.

A determination and findings, signed by the head of the contracting activity, must be completed for all incentive- and award-fee contracts justifying that the use of this type of contract is in the best interest of the Government. This determination must be documented in the contract file. The determination for award-fee contracts must address all of the suitability items in 16.402-1.

16.401-3 Incentive- and award-fee data collection and analysis.

Each agency must collect relevant data on award fee and incentive fees paid to contractors and include performance measures to evaluate such data on a regular basis to determine effectiveness of award and incentive fees as a tool for improving contractor performance and achieving desired program outcomes. This information should be considered as part of the acquisition planning process (see part 7) in determining the appropriate type of contract to be used for future acquisitions.

16.401-4 Incentive- and award-fee best practices.

Each agency head must provide processes for sharing proven incentive strategies for the acquisition of different types of products and services among contracting and program management officials.

16.402 Award-fee.

16.402-1 Application.

An award-fee contract is suitable for use when-

(a) The work to be performed is too complex or uncertain to set predetermined objective incentive targets applicable to cost, schedule, and technical performance;

(b) The likelihood of meeting acquisition objectives will be increased by using a contract that effectively motivates the contractor toward exceptional performance and provides the Government with the flexibility to evaluate both actual performance and the circumstances under which work was achieved; and

(c) Any additional administrative effort and cost required to monitor and evaluate performance are justified by the expected benefits as documented by a risk and cost benefit analysis to be included in the determination and findings referenced in 16.401-2.

16.402-2 Limitations.

(a) An award-fee contract must not be awarded unless an award-fee plan is completed in accordance with the requirements in paragraph (c) of this subsection.

(b) *Award-fee amount*. The amount of award fee earned must be in line with the contractor's overall cost, schedule, and technical performance as measured against contract requirements in accordance with the criteria stated in the award-fee plan. Award fee must not be earned if the contractor's overall cost, schedule, and technical performance in the aggregate is below satisfactory. The basis for all award-fee determinations must be documented in the contract file to include, at a minimum, a determination that overall cost, schedule and technical performance in the aggregate is or is not at a satisfactory level. This determination and the approach for determining the award fee are unilateral decisions made solely at the discretion of the Government.

(c) *Award-fee plan*. All contracts providing for award fees must be supported by an award-fee plan that sets up the process for evaluating award fee and an Award-Fee Board for completing the award-fee evaluation. Award-fee plans must-

(1) Be approved by the Fee-Determining Official unless otherwise authorized by agency procedures;

(2) Identify the award-fee evaluation criteria and how they are connected to acquisition objectives which must be defined in terms of contract cost, schedule, and technical performance. Criteria should motivate the contractor to enhance performance in the areas rated, but not at the expense of at least minimum acceptable performance in all other areas;

(3) Describe how the contractor's performance will be evaluated against the award-fee evaluation criteria;

(4) Use the adjectival rating and associated description as well as the award-fee pool earned percentages shown below in Table 16-1. Contracting officers may supplement the adjectival rating description. The approach used to determine the adjectival rating must be documented in the award-fee plan;

TABLE 16-1

Award-Fee Adjectival Rating	**Award-Fee Pool Available To Be Earned**	**Description**
Excellent	91%-100%	Contractor has exceeded almost all of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and evaluated against the criteria in the award-fee plan for the award-fee evaluation period.
Very Good	76%-90%	Contractor has exceeded many of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and evaluated against the criteria in the award-fee plan for the award-fee evaluation period.
Good	51%-75%	Contractor has exceeded some of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and evaluated against the criteria in the award-fee plan for the award-fee evaluation period.
Satisfactory	No Greater Than 50%	Contractor has met overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and evaluated against the criteria in the award-fee plan for the award-fee evaluation period.

Unsatisfactory	0%	Contractor has failed to meet overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and evaluated against the criteria in the award-fee plan for the award-fee evaluation period.

(5) Earning any award fee when a contractor's overall cost, schedule, and technical performance in the aggregate is below satisfactory is not allowed;

(6) Provide for evaluation period(s) to be conducted at stated intervals during the contract period of performance so that the contractor will periodically be informed of the quality of its performance and the areas in which improvement is expected (e.g., six months, nine months, twelve months, or at specific milestones); and

(7) Define the total award-fee pool amount and how this amount is allocated each evaluation period.

(d) *Rollover of unearned award fee.* The use of rollover of unearned award fee is prohibited.

16.402-3 Fixed-price contracts with award fees.

Award-fee provisions may be used in fixed-price contracts when the Government wishes to motivate a contractor and other incentives cannot be used because contractor performance cannot be measured objectively. Such contracts must establish a fixed-price (including normal profit) for the work, which will be paid for satisfactory contract performance. Any award fee earned will be paid in addition to that fixed-price. See 16.402-1 and 16.402-2 for the requirements on using this contract type.

16.402-4 Cost-plus-award-fee contracts.

A cost-plus-award-fee contract is a cost-reimbursement contract that provides a fee consisting of (1) a base amount fixed at inception of the contract, if applicable and at the discretion of the contracting officer, and (2) an award fee that the contractor may earn in whole or in part to provide motivation for excellence in the areas of cost, schedule, and technical performance. See 16.301, 16.402-1, and 16.402-2 for the requirements relative to utilizing this contract type.

16.403 Application of predetermined, formula-type incentives.

16.403-1 Cost incentives.

(a) Cost incentives take the form of a profit or fee adjustment formula and are intended to motivate the contractor to effectively manage costs. No incentive contract may provide for other incentives without also providing a cost incentive (or constraint).

(b) Except for award-fee contracts (see 16.402), cost incentive contracts include a target cost, a target profit or fee, and a profit or fee adjustment formula that (within the constraints of a price ceiling or minimum and maximum fee) provides that-

(1) If actual costs equal the target cost, the contractor will earn the target profit or fee;

(2) If actual costs exceed the target cost, the contractor's earned profit or fee will be lower than the target profit or fee; and

(3) If actual costs are below the target cost, the contractor's earned profit or fee will be higher than the target profit or fee.

16.403-2 Performance incentives.

(a) Performance incentives may be considered in connection with specific product characteristics (e.g., a missile range, an aircraft speed, an engine thrust, or a vehicle maneuverability) or other specific areas of the contractor's performance. Incentives should be linked to the contractor's profit or fee based on how their actual performance compares to the set targets.

(b) To the maximum extent practicable, positive and negative performance incentives for objectively measured tasks should be considered when the quality of performance is critical, and incentives are likely to motivate the contractor.

16.403-3 Delivery incentives.

(a) Delivery incentives should be considered when improvement from a required delivery schedule is important to the Government.

(b) Delivery incentives should include a reward-penalty structure in the event of Government-caused delays or other delays beyond the control, and without the fault or negligence, of the contractor or subcontractor.

16.403-4 Structuring multiple-incentive contracts.

A properly structured multiple-incentive arrangement should-

(a) Motivate the contractor to work towards outstanding results in all incentive areas; and

(b) Encourage trade-offs between incentive areas to align with the Government's goals. Due to the connection of cost, technical performance, and delivery goals, a contract that focuses on only one of the goals may jeopardize control over the others. All multiple-incentive contracts must include a cost incentive (or constraint) that prevents rewarding a contractor for greater technical performance or delivery results when the cost of those results outweighs their value to the Government.

16.404 Fixed-price incentive contracts.

(a) *Description*. A fixed-price incentive contract is a fixed-price contract that uses an established formula to adjust profit upward or downward and establishes the final contract price. Two forms of fixed-price incentive contracts, firm target and successive targets, are further described in 16.404-1 and 16.404-2.

(b) *Application*. A fixed-price incentive contract is appropriate when-

(1) A firm-fixed-price contract is not suitable;

(2) The contractor's acceptance of a degree of cost responsibility will provide a positive profit incentive to control costs and increase performance; and

(3) If the contract also includes technical, performance or delivery incentives, the technical/performance/delivery incentives should provide opportunities for the incentives to improve the contractor's management of the work.

(c) *Billing prices*. In fixed-price incentive contracts, interim billing prices are established for payment. Billing prices may be adjusted, within the ceiling limit, when requested by either party to the contract, when it becomes apparent that final price will be substantially different from the target price.

16.404-1 Fixed-price incentive (firm target) contracts.

(a) *Description*. A fixed-price incentive (firm target) contract specifies a target cost, a target profit, a price ceiling (but not a profit ceiling or floor), and a formula for profit adjustments. When the final cost is less than the target cost, application of the formula results in a final profit greater than the target profit; conversely, when final cost is more than target cost, application of the formula results in a final profit less than the target profit, or even a net loss. If the final negotiated cost exceeds the price ceiling, the contractor absorbs the difference as a loss.

(b) *Limitations*. This contract type may be used only when-

(1) The contractor's accounting system is adequate for providing data to support negotiation of final cost and incentive price revision; and

(2) Adequate cost or pricing information for establishing reasonable firm targets is available at the time of initial contract negotiation.

(c) *Contract schedule*. The contracting officer must specify in the contract schedule the target cost, target profit, and target price for each item subject to incentive price revision.

16.404-2 Fixed-price incentive (successive targets) contracts.

(a) *Description*. A fixed-price incentive (successive targets) contract specifies the following elements, all of which are negotiated at the outset:

(1) An initial target cost.

(2) An initial target profit.

(3) An initial profit adjustment formula to calculate the firm target profit, including a ceiling and floor for the firm target profit.

(4) The production point at which the firm target cost and firm target profit will be negotiated.

(5) A ceiling price.

(b) *Limitations*. This contract type may be used only when-

(1) The contractor's accounting system is adequate for providing data for negotiating firm targets and a realistic profit adjustment formula, as well as later negotiation of final costs; and

(2) Cost or pricing information adequate for establishing a reasonable firm target cost is expected to be available early on in contract performance.

(c) *Contract schedule*. The contracting officer must specify in the contract schedule the initial target cost, initial target profit, and initial target price for each item subject to incentive price revision.

16.405 Cost-plus-incentive-fee contracts.

The cost-plus-incentive-fee contract is a cost-reimbursement contract that adjusts the initially negotiated fee based on a formula comparing total allowable costs to total target costs. This contract type includes a target cost, target fee, minimum and maximum fees, and a fee adjustment formula. After contract performance, the contractor's fee is determined using the specified fee formula. The formula allows for fee increases above the target fee when total allowable costs are less than target costs, and fee decreases below the target fee when total allowable costs exceed target costs, creating an incentive for effective contract management. When total allowable costs fall outside the range of the fee formula, the contractor receives total allowable costs plus either the minimum or maximum fee.

16.406 Contract clauses.

(a) Insert the clause at 52.216-16, Incentive Price Revision-Firm Target, in solicitations and contracts when a fixed-price incentive (firm target) contract is contemplated. If the contract calls for supplies or services to be ordered under a provisioning document or Government option and the prices are to be subject to the incentive price revision under the clause, the contracting officer must use the clause with its *Alternate I*.

(b) Insert the clause at 52.216-17, Incentive Price Revision-Successive Targets, in solicitations and contracts when a fixed-price incentive (successive targets) contract is contemplated. If the contract calls for supplies or services to be ordered under a provisioning document or Government option and the prices are to be subject to incentive price revision under the clause, the contracting officer must use the clause with its *Alternate I*.

(c) The clause at 52.216-10, Incentive Fee, is prescribed in 16.305(d) for insertion in solicitations and contracts when a cost-plus-incentive-fee contract is contemplated.

(d) Insert an appropriate award-fee clause in solicitations and contracts when an award-fee contract is contemplated, provided that the clause-

(1) Is prescribed by or approved under agency acquisition regulations;

(2) Is compatible with the clause at 52.216-7, Allowable Cost and Payment; and

(3) Expressly provides that the award amount and the award-fee determination methodology are unilateral decisions made solely at the discretion of the Government.

Subpart 16.5 - Indefinite-Delivery Contracts

16.500 Scope.

(a) This subpart prescribes policies and procedures for making awards of indefinite-delivery contracts and subsequent orders and establishes a preference for making multiple awards of indefinite-quantity contracts.

(b) This subpart does not limit the use of other than competitive procedures authorized by part 6.

(c) See part 19 for procedures to set aside part or parts of multiple-award contracts for small businesses and to reserve one or more awards for small business on multiple-award contracts.

(d) The statutory multiple award preference (see 10 U.S.C. 3403 and 41 U.S.C. 4103) implemented by this subpart does not apply to architect-engineer contracts subject to the procedures in part 36. However, agencies are not precluded from making multiple awards for architect-engineer services using the procedures in this subpart, provided the selection of contractors and placement of orders are consistent with part 36.

(e) This subpart does not limit the authority of the General Services Administration (GSA) to enter into schedule, multiple-award, or task or delivery order contracts under any other provision of law. Therefore, GSA regulations and the coverage for the Federal Supply Schedule program take precedence over this subpart.

16.501 General.

16.501-1 Definitions.

As used in this subpart-

Delivery-order contract means a contract for property [supplies] that does not procure or specify a firm quantity of property (other than a minimum or maximum quantity) and that provides for the issuance of orders for the delivery of supplies during the period of the contract.

Task-order contract means a contract for services that does not procure or specify a firm quantity of services (other than a minimum or maximum quantity) and that provides for the issuance of orders for the performance of tasks during the period of the contract.

16.501-2 Policies.

(a) There are three types of indefinite-delivery contracts: definite-quantity contracts, requirements contracts, and indefinite-quantity contracts. The appropriate type of indefinite-delivery contract may be used to acquire supplies and/or services when the exact times and/or exact quantities of future deliveries are not known at the time of contract award. Pursuant to 10 U.S.C. 3401 and 41 U.S.C. 4101, requirements contracts and indefinite-quantity contracts are also known as delivery-order contracts or task-order contracts.

(b) (1) Indefinite-delivery contracts may provide for any appropriate cost or pricing arrangement under part 16. Cost or pricing arrangements that provide for an estimated quantity of supplies or services (e.g., estimated number of labor hours) must comply with the appropriate procedures of this subpart.

(2) In accordance with 10 U.S.C. 3206(c), for DoD, NASA, and the Coast Guard—

(i) The contracting officer may choose not to include price or cost as an evaluation factor for award when a solicitation—

(A) Has an estimated value above the simplified acquisition threshold;

(B) Will result in multiple-award contracts that are for the same or similar services; and

(C) States that the Government intends to make an award to each and all qualifying offerors.

(ii) If the contracting officer chooses not to include price or cost as an evaluation factor for the contract award, in accordance with paragraph (b)(2)(i), the contracting officer shall consider price or cost as one of the factors in the selection decision for each order placed under the contract.

(iii) The exception in paragraph (b)(2)(i) of this subsection shall not apply to solicitations for multiple-award contracts that provide for sole source orders pursuant to section 8(a) of the Small Business Act (15 U.S.C. 637(a)).

(c) Task order and delivery order contracts (requirements contracts and indefinite-quantity contracts) have an ordering period in which orders may be placed. Individual task and delivery orders have a period of performance effective for that specific task or delivery order’s scope of work. The effective period of a task or delivery order contract includes the ordering period of the base contract and any period of performance of task orders beyond the end of the ordering period.

(1) *Limitation on ordering period*. In accordance with 10 U.S.C. 3403, for the DoD, NASA, and the Coast Guard, the head of an agency entering into a task or delivery order contract may provide for the contract to cover any period up to five

years and may extend the contract period for one or more successive periods pursuant to an option provided in the contract or a modification of the contract. The total contract period as extended may not exceed 10 years unless such head of an agency determines in writing that exceptional circumstances necessitate a longer contract period.

(2) *Limitation on ordering period for task-order contracts for advisory and assistance services.*

(i) In accordance with 10 U.S.C. 3405, except as provided for in paragraphs (c)(2)(ii) and (iii) of this subsection, the ordering period of a task-order contract for advisory and assistance services, including all periods of extensions of the contract under options, modifications or otherwise, may not exceed 5 years.

(ii) The 5-year limitation does not apply when—

(A) A longer ordering period is specifically authorized by statute; or

(B) The contract is for an acquisition of supplies or services that includes the acquisition of advisory and assistance services and the contracting officer, or other official designated by the head of the agency, determines that the advisory and assistance services are incidental and not a significant component of the contract.

(iii) The contracting officer may extend the contract on a sole-source basis for a period not exceeding 6 months if the contracting officer, or other official designated by the head of the agency, determines that—

(A) The award of a follow-on contract is delayed by circumstances that were not reasonably foreseeable at the time the initial contract was entered into; and

(B) The extension is necessary to ensure continuity of services, pending the award of, and commencement of performance under, the follow-on contract.

16.502 Definite-quantity contracts.

16.502-1 Description.

A definite-quantity contract provides for delivery of a definite (fixed) quantity of specific supplies or services for a fixed period, with deliveries or performance to be scheduled at designated locations upon order. The delivery schedule and/or location may be flexible or set, but the total number of items or services to be delivered under the contract will not change.

16.502-2 Application.

A definite-quantity contract may be used when it can be determined in advance that-

(a) The exact quantity of supplies or services required during the contract period is known at the time of award; and

(b) The supplies or services are regularly available or will be available after a short lead time.

16.503 Requirements contracts.

16.503-1 Description.

A requirements contract provides for filling all actual purchase requirements of designated Government activities for supplies or services during a specified ordering period exclusively from one contractor, with deliveries or performance to be scheduled by placing orders with the contractor.

16.503-2 Application.

A requirements contract may be appropriate for acquiring any supplies or services when the Government anticipates recurring requirements but cannot predetermine the precise quantities of supplies or services that designated Government activities will need during a definite period.

16.503-3 Limitations.

(a) No requirements contract in an amount estimated to exceed $150 million (including all options) may be awarded to a single source unless a determination is executed in accordance with 16.504-3(a)(4).

(b) *Limitations on use of requirements contracts for advisory and assistance services*.

(1) Except as provided in paragraph (b)(2), no solicitation for a requirements contract for advisory and assistance services in excess of three years and $20 million (including all options) may be issued unless the contracting officer or other official designated by the head of the agency determines in writing that the services required are so unique or highly specialized that it is not practicable to make multiple awards using the procedures in 16.504-3.

(2) The limitation in paragraph (b)(1) of this subsection does not apply to a contract for the acquisition of supplies or services that includes acquisition of advisory and assistance services if the head of the executive agency entering into the

contract determines that, under the contract, advisory and assistance services are necessarily incident to, and not a significant component of, the contract.

16.503-4 Required content.

(a) Requirements contracts obligate the seller to supply all the buyer's actual needs, and the buyer to purchase all their requirements from that specific seller, within stated limits of the contract. The contract must state, if feasible, the maximum limit of the contractor’s obligation to deliver and the Government’s obligation to order. The contract may also set minimum and/or maximum limits on the quantities the Government may order under each individual order or over a specified period of time.

(b) The solicitation and resulting contract must state a realistic estimated total quantity. This estimated total quantity is not a representation to an offeror or contractor that the estimate is guaranteed quantity, or that conditions affecting requirements will stay the same. The contracting officer should base the estimate on the most current information available, and may calculate the estimate based on records of previous requirements and consumption, or by other means.

(c) When a requirements contract is used to acquire work (e.g., repair, modification, or overhaul) on existing items of Government property, the contracting officer must specify in the Schedule that failure of the Government to furnish such items in the amounts or quantities described in the Schedule as "estimated" or "maximum" will not entitle the contractor to any equitable adjustment in price under the Government Property clause of the contract.

16.504 Indefinite-quantity contracts.

16.504-1 Description.

(a) An indefinite-quantity contract provides for an indefinite quantity, within stated limits, of supplies or services during an ordering period. The Government places orders for individual requirements. Quantity limits may be stated as number of units or as dollar values.

(b) The contract must require the Government to order and the contractor to furnish at least a stated minimum quantity of supplies or services. To ensure that the contract is binding, the minimum quantity must be more than a nominal quantity, but it should not exceed the amount that the Government is fairly certain to order.

(c) In addition, if ordered, the contractor must furnish any additional quantities, not to exceed the stated maximum. The contracting officer should establish a reasonable maximum quantity based on market research, trends on recent contracts for similar supplies or services, survey of potential users, or any other rational basis.

(d) The contract may also specify maximum or minimum quantities that the Government may order under each task or delivery order and the maximum that it may order during a specific period of time.

16.504-2 Application.

The contracting officer may use an indefinite-quantity contract when the Government knows what kind of supplies or services it needs and a certain minimum amount that will be needed, but does not know exactly how much will be needed or when during the effective period. The contracting officer should use an indefinite-quantity contract only when the government expects to have ongoing, repeated needs for the supplies or services.

16.504-3 Multiple award preference.

(a) (1) Except for indefinite-quantity contracts for advisory and assistance services as provided in paragraph (b) of this subsection, the contracting officer must, to the maximum extent practicable, give preference to making multiple awards of indefinite-quantity contracts under a single solicitation for the same or similar supplies or services to more than one source.

(2) The contracting officer must document the decision whether to make multiple awards in the acquisition plan or contract file. Reasons for deciding that multiple awards are not in the best interests of the Government include, but are not limited to-

(i) Only one contractor is capable of providing performance at the level of quality required because the supplies or services are unique or highly specialized;

(ii) Based on the contracting officer’s knowledge of the market, more favorable terms and conditions, including pricing, will be provided if a single award is made;

(iii) The expected cost of administration of multiple contracts outweighs the expected benefits of making multiple awards;

(iv) The projected orders are so integrally related that only a single contractor can reasonably perform the work;

(v) The total estimated value of the contract is at or below the SAT.

(3) The contracting officer may determine that a class of acquisitions is not appropriate for multiple awards.

(4) (i) No task or delivery order contract in an amount estimated to exceed $150 million (including all options) may be awarded to a single source unless the head of the agency determines in writing that-

(A) The task or delivery orders expected under the contract are so integrally related that only a single source can reasonably perform the work;

(B) The contract provides only for firm-fixed-price (see 16.202) task or delivery orders for-

(1) Products for which unit prices are established in the contract; or

(2) Services for which prices are established in the contract for the specific tasks to be performed;

(C) Only one source is qualified and capable of performing the work at a reasonable price to the Government; or

(D) It is necessary in the public interest to award the contract to a single source due to exceptional circumstances.

(ii) The head of the agency must notify Congress within 30 days after any determination under paragraph (c)(4)(i)(D) of this section.

(iii) The requirement for a determination for a single-award contract greater than $150 million-

(A) Is in addition to any applicable requirements of part 6; and

(B) Is not applicable for architect-engineer services awarded pursuant to part 36.

(b) *Preference for multiple awards for advisory and assistance services*.

(1) In accordance with 10 U.S.C. 3405 and 41 U.S.C. 4105, except as provided in paragraph (b)(2) of this subsection, if an indefinite-quantity contract for advisory and assistance services is estimated to exceed 3 years and $20 million (including all options), the solicitation must provide for multiple awards unless-

(i) The contracting officer or other official designated by the head of the agency determines in writing-

(A) It is not practicable to award more than one contract because the services required are unique or highly specialized or the tasks are so integrally related; or

(B) After the evaluation of offers, that only one offeror is capable of providing the services required at the level of quality required; or

(ii) Only one offer is received.

(2) The requirements of paragraph (b)(1) of this subsection do not apply to a contract for the acquisition of supplies or services that includes acquisition of advisory and assistance services if the head of an agency entering into such contract determines in writing during acquisition planning that, under the contract, advisory and assistance services are necessarily incident to, and not a significant component of, the contract.

16.504-4 On-ramps and off-ramps.

To maintain a current, competitive, and innovative pool of vendors on a multiple-award contract, the solicitation and contract may provide for-

(a) Adding new contractor (on-ramp) and increasing the maximum quantity during open seasons; and

(b) Removing a contractor (off-ramp) for underperforming, failure to actively participate in order competitions, or if requested by the awardee.

16.504-5 Required content.

An indefinite-quantity solicitation and contract must-

(a) Specify the ordering period of the contract, including the number of options and the period for which the Government may extend the contract ordering period under each option;

(b) Specify the total minimum and maximum quantity of supplies or services the Government will acquire under the contract;

(c) Specify the last date that a contractor will be required to make deliveries under orders issued during the ordering period (see 52.216-22(d));

(d) Include a statement of work, specifications, or other description that reasonably describes the general scope, nature, complexity, and purpose of the supplies or services the Government will acquire under the contract in a manner that will enable a prospective offeror to decide whether to submit an offer;

(e) State any uniform ordering procedures that the Government will use in issuing all orders, including the ordering media; otherwise, the ordering procedures are at the discretion of the ordering contracting officer;

(f) Specify the activities authorized to issue orders;

(g) Include authorization for placing oral orders, if appropriate, provided that the Government has established procedures for obligating funds and that oral orders are confirmed in writing; and

(h) When multiple awards are anticipated-

(1) Specify any fair opportunity procedures and selection criteria that must apply to all competed orders; otherwise, the procedures and selection criteria are at the discretion of the ordering contracting officer (see 16.507);

(2) Specify whether one or more blanket purchase agreements (BPAs) may be established under the contract according to 16.507-2(c)(3). Existing contracts may be modified to allow BPAs;

(3) If the ordering period exceeds five years, provide for on-ramps according to paragraph (e), unless the contracting officer documents that on-ramps are not in the best interests of the Government.

16.505 Solicitation provisions and contract clauses.

(a) Insert the clause at 52.216-18, Ordering, in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated.

(b) Insert a clause substantially the same as the clause at 52.216-19, Order Limitations, in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated.

(c) Insert the clause at 52.216-20, Definite Quantity, in solicitations and contracts when a definite-quantity contract is contemplated.

(d) (1) Insert the clause at 52.216-21, Requirements, in solicitations and contracts when a requirements contract is contemplated.

(2) If the contract is for nonpersonal services and related supplies and covers estimated requirements that exceed a specific Government activity's internal capability to produce or perform, use the clause with its *Alternate I*.

(3) If the contract includes subsistence for both Government use and resale in the same Schedule, and similar products may be acquired on a brand-name basis, use the clause with its Alternate II (but see paragraph (d)(5) of this section).

(4) If the contract involves a partial small business set-aside, use the clause with its Alternate III (but see paragraph (d)(5) of this section).

(5) If the contract-

(i) Includes subsistence for Government use and resale in the same schedule and similar products may be acquired on a brand-name basis; and

(ii) Involves a partial small business set-aside, use the clause with its *Alternate IV*.

(e) Insert the clause at 52.216-22, Indefinite Quantity, in solicitations and contracts when an indefinite-quantity contract is contemplated.

(1) If off-ramping is contemplated and the agency desires a unilateral cancellation executable by either party, the contracting officer may include the clause with a paragraph substantially the same as its Alternate I. The contracting officer may vary the 30-day period in which the cancellation becomes effective from as few as 15 days to as many as 90 days.

(2) If off-ramping is contemplated and the agency wishes to retain discretion to disapprove contractor-requested off-ramps, the contracting officer may include the clause with a paragraph substantially the same as its Alternate II. The contracting officer may vary the 30-day period in which the cancellation becomes effective from as few as 15 days to as many as 90 days.

(f) Insert the provision at 52.216-27, Single or Multiple Awards, in solicitations for indefinite-quantity contracts that may result in multiple contract awards. Modify the provision to specify the estimated number of awards. Do not use this provision for advisory and assistance services contracts that exceed 3 years and $20 million (including all options).

(g) Insert the provision at 52.216-28, Multiple Awards for Advisory and Assistance Services, in solicitations for task-order contracts for advisory and assistance services that exceed 3 years and $20 million (including all options), unless a determination has been made under 16.504-3(b)(1)(i). Modify the provision to specify the estimated number of awards.

(h) See 10.001(d) for insertion of the clause at 52.210-1, Market Research, when the contract is over $7.5 million for the procurement of items other than commercial products or commercial services.

(i) See 7.107-4 for use of 52.207-6, Solicitation of Offers from Small Business Concerns and Small Business Teaming Arrangement or Joint Ventures (Multiple-Award Contracts) in solicitations for multiple-award contracts above the substantial bundling threshold of the agency.

(j) Insert the clause at 52.216-32, Task-Order and Delivery-Order Ombudsman, in solicitations and contracts when a multiple-award task or delivery order contract is contemplated. Use the clause with its Alternate I when the contract will be available for use by multiple agencies (e.g., Governmentwide acquisition contracts or multi-agency contracts). When placing orders under the multiple-award contract available for use by multiple agencies, the ordering activity's contracting officer must complete paragraph (d)(2) and include Alternate I in the notice of intent to place an order, and in the resulting order.

16.506 Postaward procedures for placement of task and delivery orders.

(a) Orders must be within the scope, issued within the specified ordering period, and be within the maximum value of the contract.

(b) All orders placed under a task or delivery order contract must contain the following information:

(1) Date of order.

(2) Contract number and order number.

(3) For supplies and services, line-item number, subline item number (if applicable), description, quantity, and unit price or estimated cost and fee (as applicable). The corresponding line-item number and subline item number from the base contract must also be included.

(4) Delivery or performance schedule.

(5) Statement of work that clearly specifies all tasks to be performed or property supplies to be delivered under the order. Performance-based acquisition methods must be used to the maximum extent practicable, if the order is for services.

(6) Place of delivery or performance (including consignee).

(7) Any packaging, packing, and shipping instructions.

(8) Accounting and appropriation data.

(9) Method of payment and payment office, if not specified in the contract (see part 32).

(10) North American Industry Classification System code (see part 19).

(c) Orders placed under a task-order contract or delivery-order contract awarded by another agency (i.e., a Governmentwide acquisition contract, or multi-agency contract)—

(1) Are not exempt from the development of acquisition plans (see part 7), and an information technology acquisition strategy (see part 39);

(2) May not be used to circumvent conditions and limitations imposed on the use of funds (e.g., 31 U.S.C. 1501(a)(1)); and

(3) Must comply with all FAR requirements for a consolidated or bundled contract when the order meets the definition at 2.101 of "consolidation" or "bundling".

(d) In accordance with section 1427(b) of Public Law 108-136 (40 U.S.C. 1103 note), orders placed under multi-agency contracts for services that substantially or to a dominant extent specify performance of architect-engineer services, as defined in 2.101, must-

(1) Be awarded using the procedures at part 36.

(2) Require the direct supervision of a professional architect or engineer licensed, registered, or certified in the State, possession, Federal District, or outlying area in which the services are to be performed.

(e) When using the Governmentwide commercial purchase card as a method of payment, orders at or below the micro-purchase threshold are exempt from verification in the System for Award Management as to whether the contractor has a delinquent debt subject to collection under the Treasury Offset Program.

(f) If the contract did not establish the price for the supply or service, the contracting officer must establish prices for each order using the policies and methods in subpart 15.4.

(g) For additional requirements for cost-reimbursement orders, see subpart 16.3.

(h) For additional requirements for time-and-materials or labor-hour orders, see subpart 16.6.

(i) The contracting officer should rely on the small business representations at the contract level (but see part 19 for order rerepresentations).

16.507 Additional ordering procedures for multiple-award contracts.

16.507-1 Placement of orders valued at or below the micro-purchase threshold.

Each order valued at or below the micro-purchase threshold may be placed with any multiple-award contractor that can meet the agency’s needs. Although not required to solicit from a specific number of contractors, ordering activities should attempt to distribute orders among multiple-award contractors.

16.507-2 Fair opportunity procedures.

(a) *Fair opportunity*. (1) The contracting officer must provide each awardee a fair opportunity to be considered for each order or BPA valued above the micro-purchase threshold according to paragraph (c) and 16.507-3 through 16.507-5, unless a sole source order or BPA is justified and approved according to 16.507-6.

(2) The contracting officer has broad discretion to develop appropriate order placement procedures. To maximize efficiency, ordering activities are encouraged to use innovative approaches when placing orders and establishing BPAs commensurate with the risk and complexity of the requirement. To solicit orders against indefinite-quantity contracts, issue a task order solicitation (e.g., request for quotation, request for proposal, or request for task plan). Learn more about innovative approaches in the Periodic Table of Acquisition Innovations at https://acquisitiongateway.gov/periodic-table.

(3) The contracting officer should keep submission requirements to a minimum. The ordering process is not subject to the competition requirements in part 6 or the policies in subpart 15.3 or part 14. The contracting officer may use streamlined procedures, including oral presentations. The contracting officer is not required to have evaluation plans, score offeror responses, or establish a competitive range before communicating with interested parties or soliciting revised responses to the solicitation.

(b) *Task-order and delivery-order ombudsman*. The head of the agency must designate a task-order and delivery-order ombudsman. The ombudsman must review complaints from contractors and ensure they are afforded a fair opportunity to be considered, consistent with the procedures in the contract. The ombudsman must be a senior agency official who is independent of the contracting officer and may be the agency's advocate for competition.

(c) *Procedures*. (1) *Requirements*. The contracting officer must-

(i) Not use any method (such as allocation or designation of any preferred awardee) that would not result in fair consideration being given to all awardees prior to placing each order;

(ii) Tailor the procedures to the risk and complexity of each acquisition;

(iii) Include the procedures in the solicitation and the contract;

(iv) Consider price or cost under each order as one of the factors in the selection decision;

(v) Except for DoD, document in the contract file a justification for use of the lowest price technically acceptable source selection process, including an explanation that the criteria at 15.101-2(c)(1)-(5) are met, when using the lowest price technically acceptable source selection process; and

(vi) Except for DoD, avoid using the lowest price technically acceptable source selection process to acquire certain supplies and services in accordance with 15.101-2(d).

(2) *Considerations*. The contracting officer should consider the following when developing the placement procedures:

(i) Past performance on earlier orders under the contract, including quality, timeliness and cost control. When past performance under the multiple-award contract is available and sufficient, it is unnecessary to consider past performance under other efforts.

(ii) Potential impact on other orders placed with the contractor.

(iii) Minimum order requirements.

(iv) The amount of time contractors need to make informed business decisions on whether to respond to potential orders.

(v) Whether contractors could be encouraged to respond to potential orders by outreach efforts to promote exchanges of information, such as—

(A) Seeking comments from two or more contractors on draft statements of work;

(B) Using a multiphase approach when effort required to respond to a potential order may be resource intensive (e.g., requirements are complex or need continued development), where all contractors are initially considered on price considerations (e.g., rough estimates), and other considerations as appropriate (e.g., proposed conceptual approach, past performance). The contractors most likely to submit the highest value solutions are then selected for one-on-one sessions with the Government to increase their understanding of the requirements, provide suggestions for refining requirements, and discuss risk reduction measures.

(3) *Blanket purchase agreements.* If authorized in the multiple-award contract according to 16.504(f)(8), the contracting officer may establish one or more blanket purchase agreements (BPAs) to fill repetitive needs for supplies or services (see 12.201-1(e)(3) and part 13). Establish BPAs using the fair opportunity procedures at 16.507-3 through 16.507-5, based on the total estimated value of the BPA. BPAs must include—

(i) Sufficient detail about the need, such as scope of work or objectives;

(ii) An ordering period, inclusive of any options or award terms;

(iii) Ordering activity requirements (e.g., invoicing, delivery, and discounts/other concessions) that are not otherwise included in the master multiple-award contract;

(iv) Ordering procedures that—

(A) Identify the customers/individuals authorized to place orders and any limitations surrounding the placement of orders;

(B) Ensure that for each order BPA recipients are provided the fair opportunity procedures in 16.507-3 through 16.507-5, based on the total estimated value of the order.

(v) If the ordering period of the BPA exceeds five years, on-ramps according to 16.504-4, unless the contracting officer documents that on-ramps are not in the best interest of the Government.

16.507-3 Orders valued above the micro purchase threshold but not above the SAT.

(a) The contracting officer must fairly consider all contractors offering the supplies or services. If information available to the contracting officer allows each contractor to be fairly considered, the contracting officer may place an order without further soliciting contractors, or by soliciting fewer than all contractors.

(b) Document the file to the extent necessary to support the award decision, such as demonstrating that each contractor was fairly considered.

16.507-4 Orders valued above the SAT but not above $7.5 million.

(a) Provide a fair notice of the intent to place an order to all contractors offering the products or services by issuing-

(1) A solicitation including a description of the work to be performed and the basis on which selection will be made; or

(2) A notice of intent to place an order that requires contractors to respond in order to receive the solicitation or be considered for the order.

(b) Document the file to the extent necessary to support the award decision, such as demonstrating that each quotation, offer, proposal, or other response to a notice was fairly considered.

16.507-5 Orders valued above $7.5 million.

(a) *Procedures* . Provide a fair notice of the intent to place an order to all contractors offering the products or services according to 16.507-4. A fair notice must—

(1) Include a clear statement of the agency's requirements;

(2) Allow for a reasonable response period; and

(3) Disclose the significant factors and subfactors, as applicable, including cost or price, that the agency expects to consider in evaluating quotations, offers, or other responses to notices, and their relative importance;

(b) *Documentation*. Document the file to the extent necessary to support the award decision, such as demonstrating—

(1) That each quotation, offer, or other response to a notice was fairly considered; and

(2) When award is made on a best value basis, the relative importance of quality and price or cost factors.

(c) *Postaward notices and debriefings.* Provide postaward notifications and debriefings according to part 15. A summary of the debriefing must be included in the task or delivery order file.

16.507-6 Exceptions to fair opportunity.

(a) *Procedures.* Orders placed and BPAs established against multiple-award contracts are exempt from the competition requirements in part 6. However, the contracting officer must justify placing an order valued above the micro-purchase threshold (MPT) on a sole source basis in accordance with this subsection.

(b) *Exceptions*. The exceptions permitting an order or a BPA valued above the MPT to be placed on a sole source basis are:

(1) The agency need for the supplies or services is so urgent that providing a fair opportunity would result in unacceptable delays.

(2) Only one awardee is capable of providing the supplies or services required at the level of quality required because the supplies or services ordered are unique or highly specialized.

(3) The order must be issued on a sole-source basis in the interest of economy and efficiency because it is a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order.

(4) It is necessary to place an order to satisfy a minimum guarantee.

(5) For orders exceeding the SAT, a statute expressly authorizes or requires that the purchase be made from a specified source.

(6) For DoD, NASA, and the Coast Guard, the order satisfies one of the exceptions permitting the use of other than full and open competition listed in part 6.103 (10 U.S.C. 3406(c)(5)). The public interest exception must not be used unless Congress is notified in accordance with 10 U.S.C. 3204(a)(7).

(c) *Small business considerations.* Part 19 and Public Law 111-240 (15 U.S.C. 644(r)) provide authority for setting aside orders and placing orders under reserves, which are not subject to the justification, approval, and posting requirements in paragraphs (d)-(f).

(d) *Justification*. The justification for an exception to fair opportunity must be in writing as specified in paragraphs (d)(1)-(3).

(1) *Orders valued above the micro-purchase threshold but not above the SAT*. The contracting officer must document the basis for using an exception to the fair opportunity process. If the contracting officer uses the logical follow-on exception, the rationale must describe why the relationship between the initial order and the follow-on is logical (e.g., in terms of scope, period of performance, or value).

(2) *Orders valued above the SAT*. As a minimum, each justification must include the following information:

(i) Identification of the agency and the contracting activity, and specific identification of the document as a "Justification for an Exception to Fair Opportunity."

(ii) Nature and/or description of the action being approved.

(iii) A description of the supplies or services required to meet the agency's needs (including the estimated value).

(iv) Identification of the exception to fair opportunity (see paragraph (b)) and the supporting rationale, including a demonstration that the proposed contractor's unique qualifications or the nature of the acquisition requires use of the exception cited. If the contracting officer uses the logical follow-on exception, the rationale must describe why the relationship between the initial order and the follow-on is logical (e.g., in terms of scope, period of performance, or value).

(v) A determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable.

(vi) Any other facts supporting the justification.

(vii) A statement of the actions, if any, the agency may take to remove or overcome any barriers that led to the exception to fair opportunity before any subsequent acquisition for the supplies or services is made.

(viii) The contracting officer's certification that the justification is accurate and complete to the best of the contracting officer's knowledge and belief.

(ix) Evidence that any supporting data that is the responsibility of technical or requirements personnel (e.g., verifying the Government's minimum needs or requirements or other rationale for an exception to fair opportunity) and which form a basis for the justification have been certified as complete and accurate by the technical or requirements personnel.

(x) A written determination by the approving official that one of the circumstances in paragraphs (b)(1) through (6) applies to the order.

(e) *Approval*. (1) For proposed orders valued above the SAT, but not valued above $900,000, the ordering activity contracting officer's certification that the justification is accurate and complete to the best of the ordering activity contracting officer's knowledge and belief will serve as approval, unless a higher approval level is established in accordance with agency procedures.

(2) For a proposed order valued above $900,000, but not above $20 million, the justification must be approved by the advocate for competition of the activity placing the order, or by an official named in paragraph (e)(3) or (4). This authority is not delegable.

(3) For a proposed order valued above $20 million, but not above $90 million (or, for DoD, NASA, and the Coast Guard, not above $150 million, the justification must be approved by—

(i) The head of the procuring activity placing the order;

(ii) A designee who—

(A) If a member of the armed forces, is a general or flag officer;

(B) If a civilian, is serving in a position in a grade above GS-15 under the General Schedule (or in a comparable or higher position under another schedule); or

(iii) An official named in paragraph (e)(4) of this subsection.

(4) For a proposed order valued above $90 million (or, for DoD, NASA, and the Coast Guard, above $150 million), the justification must be approved by the senior procurement executive of the agency placing the order. This authority is

not delegable, except in the case of the Under Secretary of Defense for Acquisition and Sustainment, acting as the senior procurement executive for the Department of Defense.

(f) *Posting*. (1) Except as provided in paragraph (f)(4), within 14 days after placing an order or establishing a BPA valued above the SAT on a sole source basis according to paragraph (b), the contracting officer must—

(i) Publish a notice to the GPE; and

(ii) Post the justification required by paragraph (d)(2) for a minimum of 30 days)-

(A) At the GPE https://www.sam.gov ; and

(B) On the Web site of the agency, which may provide access to the justifications by linking to the GPE.

(2) In the case of an order permitted under paragraph (b)(1), the justification must be posted within 30 days after award of the order.

(3) Contracting officers must carefully screen all justifications for contractor proprietary data and remove all such data, and such references and citations as are necessary to protect the proprietary data, before posting the justification. Contracting officers must also be guided by the exemptions to disclosure of information contained in the Freedom of Information Act (5 U.S.C. 552) and the prohibitions against disclosure in part 24 in determining whether other data should be removed. Although the submitter notice process set out in Executive Order 12600 "Predisclosure Notification Procedures for Confidential Commercial Information" does not apply, if the justification appears to contain proprietary data, the contracting officer should provide the contractor that submitted the information an opportunity to review the justification for proprietary data before posting the justification, redacted as necessary. This process must not prevent or delay posting the justification in accordance with the timeframes required in paragraphs (f)(1)-(2).

(4) The posting requirement does not apply when disclosure would compromise the national security (e.g., would result in disclosure of classified information) or create other security risks.

16.507-7 Items peculiar to one manufacturer.

(a) The contracting officer must justify restricting consideration to an item peculiar to one manufacturer (e.g., a particular brand-name, product, or a feature of a product that is peculiar to one manufacturer). A brand-name item, even if available on more than one contract, is an item peculiar to one manufacturer. Brand-name specifications must not be used unless the particular brand-name, product, or feature is essential to the Government's requirements and market research indicates other companies' similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet, the agency's needs.

(b) Brand-name requirements must be justified and approved when the requirement is determined, using the format(s) and requirements from 16.507-6(d)-(e)), modified to show the brand-name justification, unless—

(1) A justification covering the requirements in the order was previously approved for the contract in accordance with 6.302-1(c); or

(2) The base contract is a single-award contract.

(c) (1) For an order in excess of $40,000, the contracting officer must—

(i) Post the justification and supporting documentation on the agency website used (if any) to solicit offers for orders under the contract; or

(ii) Provide the justification and supporting documentation along with the solicitation to all contract awardees.

(2) The justification for brand-name requirements may apply to the portion of the acquisition requiring the brand-name item. If the justification is to cover only the portion of the acquisition which is brand-name, then it should so state; the approval level requirements will then only apply to that portion.

(3) The requirements in paragraph (c)(1) this subsection do not apply when disclosure would compromise the national security (e.g., would result in disclosure of classified information) or create other security risks.

(d) The justification is subject to the screening requirement in 16.507-6(f)(3).

16.508 Protests of orders.

(a) No protest under part 33 is authorized in connection with the issuance or proposed issuance of an order under a task-order contract or delivery-order contract, except—

(1) A protest on the grounds that the order increases the scope, period, or maximum value of the contract; or

(2) (i) For agencies other than DoD, NASA, and the Coast Guard, a protest of an order valued in excess of $10 million (41 U.S.C. 4106(f)); or

(ii) For DoD, NASA, or the Coast Guard, a protest of an order valued in excess of $35 million (10 U.S.C. 3406(f)).

(b) Protests of orders in excess of the thresholds stated in paragraph (a)(2) of this section may only be filed with the Government Accountability Office, in accordance with the procedures at 33.105.

(c) For protests of small business size status for set-aside orders, see part 19.

Subpart 16.6 - Time-and-Materials, Labor-Hour, and Letter Contracts

16.600 Scope.

Time-and-materials contracts and labor-hour contracts are not fixed-price contracts.

16.601 Time-and-materials contracts.

Definitions for the purposes of Time-and-Materials Contracts.

Direct materials means those materials that enter directly into the end product, or that are used or consumed directly in connection with the furnishing of the end product or service.

Hourly rate means the rate(s) prescribed in the contract for payment for labor that meets the labor category qualifications of a labor category specified in the contract that are-

(1) Performed by the contractor;

(2) Performed by the subcontractors; or

(3) Transferred between divisions, subsidiaries, or affiliates of the contractor under a common control.

Materials means-

(1) Direct materials, including supplies transferred between divisions, subsidiaries, or affiliates of the contractor under a common control;

(2) Subcontracts for supplies and incidental services for which there is not a labor category specified in the contract;

(3) Other direct costs (e.g., incidental services for which there is not a labor category specified in the contract, travel, computer usage charges, etc.); and

(4) Applicable indirect costs.

16.601-1 Description.

A time-and-materials contract provides for acquiring supplies or services on the basis of-

(a) Direct labor hours at specified fixed hourly rates that include wages, overhead, general and administrative expenses, and profit; and

(b) Actual cost for materials (except as provided for in part 31).

16.601-2 Application.

A time-and-materials contract may be used only when it is not possible at the time of placing the contract to estimate accurately the extent or duration of the work or to anticipate costs with any reasonable degree of confidence.

(a) *Government surveillance*. A time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, appropriate Government surveillance of contractor performance is required to give reasonable assurance that efficient methods and effective cost controls are being used.

(b) *Fixed hourly rates*. (1) The contract must specify separate fixed hourly rates that include wages, overhead, general and administrative expenses, and profit for each category of labor.

(2) For acquisitions of other than commercial products or commercial services awarded without adequate price competition (see part 15), the contract must specify separate fixed hourly rates that include wages, overhead, general and administrative expenses, and profit for each category of labor to be performed by-

(i) The contractor;

(ii) Each subcontractor; and

(iii) Each division, subsidiary, or affiliate of the contractor under a common control.

(3) For contract actions that are not awarded using competitive procedures, unless exempt under paragraph (c)(2)(iv), the fixed hourly rates for services transferred between divisions, subsidiaries, or affiliates of the contractor under a common control-

(i) Must not include profit for the transferring organization; but

(ii) May include profit for the prime contractor.

(4) For contract actions that are not awarded using competitive procedures, the fixed hourly rates for services that meet the definition of "commercial service" that are transferred between divisions, subsidiaries, or affiliates of the contractor under a common control may be the established catalog or market rate when-

(i) It is the established practice of the transferring organization to price interorganizational transfers at other than cost for commercial work of the contractor or any division, subsidiary or affiliate of the contractor under a common control; and

(ii) The contracting officer has not determined the price to be unreasonable.

(c) *Material handling costs*. When included as part of material costs, material handling costs must include only costs clearly excluded from the labor-hour rate. Material handling costs may include all appropriate indirect costs allocated to direct materials in accordance with the contractor's usual accounting procedures consistent with part 31.

16.601-3 Limitations.

A time-and-materials contract or order may be used only if-

(a) The contracting officer prepares a determination and findings that no other contract type is suitable. The determination and findings must be-

(1) Signed by the contracting officer prior to the execution of the base period or any option periods of the contracts; and

(2) Approved by the head of the contracting activity prior to the execution of the base period when the base period plus any option periods exceeds three years; and

(b) The contract or order includes a ceiling price that the contractor exceeds at its own risk. See part 12 for further limitations on use of time-and-materials or labor-hour contracts for acquisition of commercial products and commercial services.

16.601-4 Solicitation provisions.

(a) The contracting officer must insert the provision at 52.216-29, Time-and-Materials/Labor-Hour Proposal Requirements—Other Than Commercial Acquisition With Adequate Price Competition, in solicitations contemplating use of a time-and-materials or labor-hour type of contract for the acquisition of other than commercial products or commercial services, if the price is expected to be based on adequate price competition. If authorized by agency procedures, the contracting officer may amend the provision to make mandatory one of the three approaches in paragraph (c) of the provision, and/or to require the identification of all subcontractors, divisions, subsidiaries, or affiliates included in a blended labor rate.

(b) The contracting officer must insert the provision at 52.216-30, Time-and-Materials/Labor-Hour Proposal Requirements—Other Than Commercial Acquisition Without Adequate Price Competition, in solicitations for the acquisition of other than commercial products or commercial services contemplating use of a time-and-materials or labor-hour type of contract if the price is not expected to be based on adequate price competition.

(c) The contracting officer must insert the provision at 52.216-31, Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Acquisition, in solicitations contemplating use of a commercial time-and-materials or labor-hour contract.

16.601-5 Postaward requirements.

Prior to an increase in the ceiling price of a time-and-materials or labor-hour contract or order, the contracting officer must-

(a) Conduct an analysis of pricing and other relevant factors to determine if the action is in the best interest of the Government;

(b) Document the decision in the contract or order file; and

(c) When making a change that modifies the general scope of-

(1) A contract, follow the procedures at part 6;

(2) An order issued under the Federal Supply Schedules, follow the procedures at part 8; or

(3) An order issued under multiple award task and delivery order contracts, follow the procedures at 16.507-6.

16.602 Labor-hour contracts.

Description. A labor-hour contract is a variation of the time-and-materials contract, differing only in that materials are not supplied by the contractor. See part 12, 16.601-2, and 16.601-3 for application and limitations for time-and-materials contracts that also apply to labor-hour contracts.

16.603 Letter contracts.

16.603-1 Description.

A letter contract is a written preliminary contractual instrument that authorizes the contractor to begin immediately manufacturing supplies or performing services.

16.603-2 Application.

(a) A letter contract may be used when (1) the Government's interests demand that the contractor be given a binding commitment so that work can start immediately and (2) negotiating a definitive contract is not possible in sufficient time to meet the requirement. However, a letter contract should be as complete and definite as feasible under the circumstances.

(b) When a letter contract award is based on price competition, the contracting officer must include an overall price ceiling in the letter contract.

(c) Each letter contract must, as required by the clause at 52.216-25, Contract Definitization, contain a negotiated definitization schedule including (1) dates for submission of the contractor's price proposal, required certified cost or pricing data and data other than certified cost or pricing data; and, if required, make-or-buy and subcontracting plans, (2) a date for the start of negotiations, and (3) a target date for definitization, which must be the earliest practicable date for definitization. The schedule will provide for definitization of the contract within 180 days after the date of the letter contract or before completion of 40 percent of the work to be performed, whichever occurs first. However, the contracting officer may, in extreme cases and according to agency procedures, authorize an additional period. If, after exhausting all reasonable efforts, the contracting officer and the contractor cannot negotiate a definitive contract because of failure to reach agreement as to price or fee, the clause at 52.216-25 requires the contractor to proceed with the work and provides that the contracting officer may, with the approval of the head of the contracting activity, determine a reasonable price or fee in accordance with subpart 15.4 and part 31, subject to appeal as provided in the Disputes clause.

(d) The maximum liability of the Government inserted in the clause at 52.216-24, Limitation of Government Liability, must be the estimated amount necessary to cover the contractor's requirements for funds before definitization. However, it must not exceed 50 percent of the estimated cost of the definitive contract unless approved in advance by the official that authorized the letter contract.

(e) The contracting officer must assign a priority rating to the letter contract if it is appropriate under part 11.

16.603-3 Limitations.

A letter contract may be used only after the head of the contracting activity or a designee determines in writing that no other contract is suitable. Letter contracts must not-

(a) Commit the Government to a definitive contract in excess of the funds available at the time the letter contract is executed;

(b) Be entered into without competition when competition is required by part 6; or

(c) Be amended to satisfy a new requirement unless that requirement is inseparable from the existing letter contract. Any such amendment is subject to the same requirements and limitations as a new letter contract.

16.603-4 Contract clauses.

(a) The contracting officer must include in each letter contract the clauses required by this regulation for the type of definitive contract contemplated and any additional clauses known to be appropriate for it.

(b) In addition, the contracting officer must insert the following clauses in solicitations and contracts when a letter contract is contemplated:

(1) The clause at 52.216-23, Execution and Commencement of Work, except that this clause may be omitted from letter contracts awarded on SF 26;

(2) The clause at 52.216-24, Limitation of Government Liability, with dollar amounts completed in a manner consistent with 16.603-2(d); and

(3) The clause at 52.216-25, Contract Definitization, with its paragraph (b) completed in a manner consistent with 16.603-2(c). If at the time of entering into the letter contract, the contracting officer knows that the definitive contract will be based on adequate price competition or will otherwise meet the criteria of part 15 for not requiring submission of certified cost or pricing data, the words "and certified cost or pricing data in accordance with FAR 15.408, Table 15-1 supporting its proposal" may be deleted from paragraph (a) of the clause. If the letter contract is being awarded on the basis of price competition, the contracting officer must use the clause with its *Alternate I*.

(c) The contracting officer must also insert the clause at 52.216-26, Payments of Allowable Costs Before Definitization, in solicitations and contracts if a cost-reimbursement definitive contract is contemplated, unless the acquisition involves conversion, alteration, or repair of ships.

This page intentionally left blank.

Subpart 16.7 - Agreements

16.701 Scope.

This subpart prescribes policies and procedures for establishing and using basic agreements and basic ordering agreements. (See part 12 for additional coverage of BPAs and see part 35 for additional coverage of basic agreements with educational institutions and nonprofit organizations.)

16.702 Basic agreements.

16.702-1 Description.

(a) A basic agreement is a written instrument of understanding, negotiated between an agency or contracting activity and a contractor, that-

(1) Contains contract clauses applying to future contracts between the parties during its term; and

(2) Contemplates separate future contracts that will incorporate by reference or attachment the required and applicable clauses agreed upon in the basic agreement.

(b) A basic agreement is not a contract.

16.702-2 Application.

A basic agreement should be used when a substantial number of separate contracts may be awarded to a contractor during a particular period and significant recurring negotiating problems have been experienced with the contractor. Basic agreements may be used with negotiated fixed-price or cost-reimbursement contracts.

(a) Basic agreements must contain-

(1) Clauses required for negotiated contracts by statute, executive order, and this regulation; and

(2) Other clauses prescribed in this regulation or agency acquisition regulations that the parties agree to include in each contract as applicable.

(b) Each basic agreement must provide for discontinuing its future applicability upon 30 days' written notice by either party.

(c) Each basic agreement must be reviewed annually before the anniversary of its effective date and revised as necessary to conform to the requirements of this regulation. Basic agreements may need to be revised due to mandatory statutory requirements. A basic agreement may be changed only by modifying the agreement itself and not by a contract incorporating the agreement.

(d) Discontinuing or modifying a basic agreement must not affect any prior contract incorporating the basic agreement.

(e) Contracting officers of one agency should obtain and use existing basic agreements of another agency to the maximum practical extent.

16.702-3 Limitations.

(a) A basic agreement must not-

(1) Cite appropriations or obligate funds;

(2) State or imply any agreement by the Government to place future contracts or orders with the contractor; or

(3) Be used in any manner to restrict competition.

(b) *Contracts incorporating basic agreements*. (1) Each contract incorporating a basic agreement must include a scope of work and price, delivery, and other appropriate terms that apply to the particular contract. The basic agreement must be incorporated into the contract by specific reference (including reference to each amendment) or by attachment.

(2) The contracting officer must include clauses pertaining to subjects not covered by the basic agreement, but applicable to the contract being negotiated, in the same manner as if there were no basic agreement.

(3) When new work is added to an existing contract, the modification must incorporate the most recent basic agreement. These terms will apply only to work added by the modification. This is not required if the contract or modification already includes all clauses required by statute, executive order, and this regulation as of the date of the modification. If it is in the Government's interest and the contractor agrees, the modification may incorporate the most recent basic agreement for application to the entire contract as of the date of the modification.

16.703 Basic ordering agreements.

16.703-1 Description.

(a) A basic ordering agreement is a written instrument of understanding, negotiated between an agency, contracting activity, or contracting office and a contractor, that contains-

(1) Terms and clauses applying to future contracts (orders) between the parties during its term;

(2) A description, as specific as practicable, of supplies or services to be provided, and

(3) Methods for pricing, issuing, and delivering future orders under the basic ordering agreement.

(b) A basic ordering agreement is not a contract.

16.703-2 Application.

A basic ordering agreement is used to expedite contracting for supplies or services when specific items, quantities, and prices are uncertain at the time the agreement is executed, but a substantial number of requirements for the type of supplies or services covered by the agreement are anticipated to be purchased from the contractor. These procedures, when applied appropriately, can result in benefits and cost savings by reducing administrative lead-time, inventory investment, and inventory obsolescence due to design changes.

16.703-3 Limitations.

(a) A basic ordering agreement must not state or imply any agreement by the Government to place future contracts or orders with the contractor or be used in any manner to restrict competition.

(b) Each basic ordering agreement must-

(1) Describe the method for determining prices to be paid to the contractor for the supplies or services;

(2) Include delivery terms and conditions or specify how they will be determined;

(3) List one or more Government activities authorized to issue orders under the agreement;

(4) Specify the point at which each order becomes a binding contract (e.g., issuance of the order, acceptance of the order in a specified manner, or failure to reject the order within a specified number of days);

(5) Provide that failure to reach agreement on price for any order issued before its price is established (see paragraph (d)(3) of this subsection) is a dispute under the Disputes clause included in the basic ordering agreement; and

(6) If fast payment procedures will apply to orders, include the special data required at part 32.

(c) Basic ordering agreements may need to be revised due to mandatory statutory requirements. A basic ordering agreement must be changed only by modifying the agreement itself and not by individual orders issued under it. Modifying a basic ordering agreement must not retroactively affect orders previously issued under it.

(d) A contracting officer representing any Government activity listed in a basic ordering agreement may issue orders for required supplies or services covered by that agreement.

(1) Before issuing an order under a basic ordering agreement, the contracting officer must-

(i) Obtain competition in accordance with part 6;

(ii) If the order is being placed after competition, ensure that use of the basic ordering agreement is not prejudicial to other offerors; and

(iii) Sign or obtain any applicable justifications and approvals, and any determination and findings, and comply with other requirements in accordance with part 1, as if the order were a contract awarded independently of a basic ordering agreement.

(2) Contracting officers must-

(i) Issue orders under basic ordering agreements on Optional Form (OF) 347, Order for Supplies or Services, or on any other appropriate contractual instrument;

(ii) Incorporate by reference the provisions of the basic ordering agreement;

(iii) If applicable, cite the authority under part 6 in each order; and

(iv) Comply with part 5's publicizing and response time requirements when part 5 also requires a synopsis.

(3) The contracting officer must neither make any final commitment nor authorize the contractor to begin work on an order under a basic ordering agreement until prices have been established, unless the order establishes a ceiling price limiting the Government's obligation and either-

(i) The basic ordering agreement provides adequate procedures for timely pricing of the order early in its performance period; or

(ii) The need for the supplies or services is compelling and unusually urgent (i.e., when the Government would be seriously injured, financially or otherwise, if the requirement is not met sooner than would be possible if prices were established before the work began). The contracting officer must proceed with pricing as soon as practical. An entire order must never be priced retroactively.

This page intentionally left blank.

PART 17 - SPECIAL CONTRACTING METHODS

This page intentionally left blank.

17.000 Scope of part.

This part prescribes policies and procedures for the acquisition of supplies and services through special contracting methods, including—

(a) Multiyear contracting;

(b) Options;

(c) Leader company contracting;

(d) Interagency acquisitions;

(e) Management and operating contracts; and

(f) Reverse auctions

Subpart 17.1 - Multiyear Contracting

17.101 Authority.

This subpart prescribes policies and procedures for acquiring supplies or services through multiyear contracting, as authorized by 10 U.S.C. 3501 and 41 U.S.C. 3903. It addresses requirements for presolicitation planning, solicitation content, evaluation and award, funding, and cancellation provisions unique to multiyear contracts.

17.102 Definitions.

As used in this subpart—

Cancellation means the cancellation (within a contractually specified time) of the total requirements of all remaining program years. Cancellation results when the contracting officer-

(1) Notifies the contractor of nonavailability of funds for contract performance for any subsequent program year; or

(2) Fails to notify the contractor that funds are available for performance of the succeeding program year requirement.

Cancellation ceiling means the maximum cancellation charge that the contractor can receive if the contract is cancelled.

Cancellation charge means the amount of unrecovered costs which would have been recouped through amortization over the full term of the contract, including the canceled term.

Multiyear contract means a contract for the purchase of supplies or services for more than 1, but not more than 5 program years. A multiyear contract may provide that performance under the contract during the second and subsequent years of the contract is contingent upon the appropriation of funds, and (if it does so provide) may provide for a cancellation payment to be made to the contractor if appropriations are not made. The key distinguishing difference between multiyear contracts and multiple year contracts is that multiyear contracts buy more than 1 year's requirement (of a product or service) without establishing and having to exercise an option for each program year after the first.

Nonrecurring costs means costs that are generally incurred on a one-time basis and include such costs as plant or equipment relocation, plant rearrangement, special tooling and special test equipment, preproduction engineering, preliminary design effort, initial spoilage and rework, and specialized work force training.

Recurring costs means costs that vary with the quantity being produced, such as labor and materials, and are the ongoing expenses associated with its production and maintenance.

17.103 Presolicitation.

17.103-1 Policy.

(a) Except for DoD, NASA, and the Coast Guard, the contracting officer may enter into a multiyear contract if the head of the contracting activity determines that—

(1) The need for the supplies or services is reasonably firm and continuing throughout the contract period; and

(2) A multiyear contract will serve the best interest of the Government by either encouraging competition or promoting economy in program administration, performance, and operation.

(b) For DoD, NASA, and the Coast Guard, the head of the agency may enter into a multiyear contract for supplies if—

(1) The contract will save significant costs compared to using annual contracts, or will provide necessary stability to the defense industrial base not otherwise achievable through annual contracts;

(2) The required purchase amounts are expected to remain substantially unchanged throughout the contract period, in terms of production and procurement rates and total quantities;

(3) The agency head is reasonably expected to request sufficient funding throughout the contract period at a level required to avoid contract cancellation;

(4) The design of the supplies is stable, and technical risks are not excessive;

(5) Both the contract cost estimates and projected cost avoidance through the use of a multiyear contract are realistic;

(6) For Department of Defense purchases, the contract will promote national security of the United States; and

(7) For Department of Defense contracts valued at $500,000,000 or more, the Secretary certifies that the conditions in 10 U.S.C. 3501 (i)(3) subparagraphs (C) through (F) will be met.

17.103-2 Procedures.

(a) *Method of contracting*. The specific requirement should guide the selection of the contracting method.

(b) *Funding*.

(1) Agency funding of multiyear contracts must follow the policies in OMB Circular A-11 (Preparation, Submission, and Execution of the Budget) and other applicable guidance on funding multiyear contracts.

(2) Multiyear contracts for fixed assets should be either-

(i) Fully funded; or

(ii) Funded in economically or programmatically viable stages.

17.103-3 Solicitations.

(a) In solicitations for multiyear contracts, the contracting officer must include-

(1) The supply or service requirements for the first program year, and the entire multiyear contract period, broken down by program year;

(2) A statement that if the Government only needs the first-year requirements, evaluation will be based on first year pricing;

(3) A provision requiring a cancellation ceiling (as a percentage or dollar amount) and applicable dates for each program year that could be cancelled; and

(4) A statement that the Government will not award less than the first program year requirements.

(b) The solicitation must explain how the Government will compare offers for the first year against offers for the entire multiyear period. This applies to both sealed bidding and negotiated acquisitions.

17.104 Evaluation and Award.

17.104-1 General.

Contracting officers must follow the appropriate acquisition policies and procedures (such as those in parts 14 and 15). In addition, contracting officers must comply with the requirements unique to multiyear contracting in this section, including cancellation procedures, congressional notification, and funding obligations at award.

17.104-2 Cancellation provisions.

(a) *Cancellation procedures*.

(1) All program years except the first are subject to cancellation.

(2) For each program year subject to cancellation, the contracting officer must—

(i) Set a cancellation ceiling;

(ii) Not include amounts for requirements from prior program years; and

(iii) Lower the cancellation ceiling proportionally as requirements are completed.

(3) When calculating cancellation ceilings, the contracting officer must—

(i) Estimate reasonable startup costs, learning curve costs, and other nonrecurring costs; and

(ii) Not include labor, materials, or other costs related to future program years.

(4) Set specific cancellation dates for each program year based on production needs and funding availability. These dates must be in the contract schedule.

(b) *Revising ceilings or dates*. The contracting officer may revise cancellation ceilings or dates after solicitation release when necessary. For sealed bidding, changes must be made by amendment before bid opening. In negotiated acquisitions, discussions may reveal a need for changes before final award.

17.104-3 Congressional notification.

(a) Except for DoD, NASA, and the Coast Guard, a multiyear contract with a cancellation ceiling over $20 million may not be awarded until the agency head notifies Congress in writing.

(b) For DoD, NASA, and the Coast Guard, when the ceiling is over $200 million, the agency head must notify the House and Senate armed services and appropriations committees in writing.

(c) The contract may not be awarded until 31 days after notification.

17.104-4 Funding at award.

(a) At award, obligated funds must cover either—

(1) The full contract period; or

(2) The first fiscal year plus any potential cancellation and termination costs.

(b) The contract must state the funded amount for the first program year and any amounts for cancellation or termination.

17.104-5 Special procedures for DoD, NASA, and the Coast Guard.

(a) *Participation by subcontractors and suppliers*. To the extent practicable, structure multiyear contracts to attract and retain a diverse defense industrial base.

(b) *Protection of existing authority*. To the extent practicable, multiyear contracting must not limit an agency's ability to maintain competition or terminate contracts based on performance deficiencies related to cost, quality, or schedule.

(c) *Property*. Multiyear contracts must be—

(1) Firm-fixed-price;

(2) Fixed-price with economic price adjustment; or

(3) Fixed-price incentive.

(d) *Level unit prices*. Where appropriate, the contracting officer should negotiate level unit prices for the items to be delivered in each program year.

17.105 Postaward.

(a) Termination vs. cancellation. The termination for convenience procedure applies to any Government contract, including multiyear contracts. Termination differs from cancellation in these ways:

(1) Timing. Termination can occur anytime during the contract life, while cancellation happens between fiscal years.

(2) Quantity. Termination can apply to total or partial quantities, while cancellation must apply to all quantities for future fiscal years.

(b) Funding limitations upon termination. If funds are not available to continue a multiyear contract into the next fiscal year, the contract must be canceled or terminated. If the Government terminates the entire contract for convenience, including all cancellable requirements, the Government obligation is no more than:

(1) The amount specified as available for contract performance; plus

(2) The applicable cancellation ceiling.

17.106 Contract clauses.

(a) The contracting officer must insert the clause at 52.217-2, Cancellation Under Multiyear Contracts, in solicitations and contracts when a multiyear contract is contemplated.

(b) When the production period may cause an offeror to include a labor or material cost contingency in the contract price, consider using an economic price adjustment clause (see part 16).

(c) For service contracts, the contracting officer-

(1) Must include the clause at 52.222-43, Fair Labor Standards Act and Service Contract Labor Standards—Price Adjustment (Multiple Year and Option Contracts), when the contract includes the clause at 52.222-41, Service Contract Labor Standards;

(2) May modify the clause at 52.222-43 in overseas contracts when laws, regulations, or international agreements require contractors to pay higher wage rates; or

(3) May use an economic price adjustment clause authorized by part 16, when price changes require coverage and are not included in not already addressed by the clause at 52.222-43.

This page intentionally left blank.

Subpart 17.2 - Options

17.200 Scope of subpart.

This subpart prescribes policies and procedures for the use of options in contracts.

(a) Except as provided in agency regulations, this subpart does not apply to contracts for-

(1) Construction, alteration, or repair (including dredging, excavating, and painting) of buildings, bridges, roads, or other real property;

(2) Architect-engineer services; or

(3) Research and development services.

(b) Agencies may still use options in these contracts according to their own regulations.

17.201 Presolicitation.

17.201-1 Use of options.

(a) In contracting by sealed bidding or negotiation, the contracting officer may add options to contracts when beneficial to the Government, within the limitations in paragraphs (b) and (c). For sealed bidding, before including the provision at 52.217-5, Evaluation of Options, the contracting officer must document in writing that there is a probability that the Government will exercise the options.

(b) Inclusion of an option is normally not beneficial to the Government when the contracting officer determines that:

(1) The Government's needs involve-

(i) Minimum economic quantities (enough volume to permit the recovery of startup costs and the production of supplies at reasonable prices); and

(ii) Delivery needs far enough in the future to allow for a new competitive contract.

(2) An indefinite quantity or requirements contract better meets the government’s needs. However, these contract types may still include options if appropriate.

(c) The contracting officer must not use options when-

(1) Price or availability of necessary material or labor is not reasonably foreseeable, introducing significant risk into option pricing; or

(2) Market prices for the supplies or services are likely to change significantly.

17.201-2 Contracts.

(a) The contract must clearly state limits on-

(1) The additional supplies or services the Government may purchase including the number, type, frequency or duration; or

(2) The contract duration, including any extensions.

(b) The contracting officer must—

(1) Specify in the contract the period within which the option may be exercised, allowing adequate lead time for the contractor to ensure continuous production; and

(2) Follow any statutory limits on contract duration (for example, under the Service Contract Labor Standards statute—see part 22).

17.202 Evaluation and award.

(a) Prior to awarding the basic contract, the contracting officer must evaluate offers for option quantities or periods included in the solicitation.

(b) (1) The contracting officer may skip the evaluation of option quantities when such evaluation would not benefit the Government. This exception should be reserved for rare instances.

(2) This decision must be—

(i) In writing;

(ii) Approved at least one level above the contracting officer; and

(iii) Included in the contract file.

17.203 Solicitation provisions and contract clauses.

(a) Insert a provision substantially the same as the provision at 52.217-3, Evaluation Exclusive of Options, in solicitations when the solicitation includes an option clause but does not include the provision described in either paragraph (b) or (c) of this section.

(b) Insert a provision substantially the same as the provision at 52.217-4, Evaluation of Options Exercised at Time of Contract Award, in solicitations when-

(1) The solicitation includes an option clause; and

(2) The contracting officer determines there is a reasonable likelihood of option exercised when the contract is awarded.

(c) Insert a provision substantially the same as the provision at 52.217-5, Evaluation of Options, in solicitations when-

(1) The solicitation includes an option clause; and

(2) The contracting officer determines there is a reasonable likelihood of exercise, and the option will not be exercised at the time of contract award.

(d) Insert a provision substantially the same as the clause at 52.217-6, Option for Increased Quantity, in solicitations and contracts, except those for services, when adding an option is appropriate (see 17.201), and the option quantity appears as a percentage of the basic contract quantity or as additional quantities of a specific line item.

(e) Insert a provision substantially the same as the clause at 52.217-7, Option for Increased Quantity—Separately Priced Line Item, in solicitations and contracts, except those for services , when adding an option is appropriate (see 17.201), and the option quantity appears as a separate line item with the same name as a corresponding basic line item.

(f) Insert a provision substantially the same as the clause at 52.217-8, Options to Extend Services, in solicitations and contracts for services when adding an option is appropriate. (See 17.201 and part 37).

(g) Insert a provision substantially the same as the clause at 52.217-9, Option to Extend the Term of the Contract, in solicitations and contracts when adding an option is appropriate (see 17.201) and the contract needs to include any of these elements:

(1) A requirement for the Government to give the contractor advance written notice of intent to extend;

(2) A statement that an extension of the contract also extends the option; or

(3) A specific limit on the total contract duration.

17.204 Postaward.

17.204-1 Exercise of options.

(a) If the contract includes an economic price adjustment clause and the contractor requests a price revision, the contracting officer must determine how the adjustment affects option prices before exercising the option.

(b) The contracting officer may exercise options only after—

(1) Providing written notice to the contractor of the Government's intention to exercise the option, within the time specified in the contract;

(2) Confirming that funds are available; and

(3) Determining that–

(i) The option fulfills an existing Government requirement;

(ii) The option was synopsized as required, unless exempt (see part 5);

(iii) The Contractor does not have an active exclusion record in the System for Award Management (see part 9);

(iv) The contractor's performance on the current contract has been acceptable (for example, satisfactory or better performance ratings);

(v) After reviewing price and other factors, the option price is fair and reasonable based on current market conditions and exercise of the option is in the Government's best interest; and

(vi) The option exercise complies with the requirements of part 6 for full and open competition, i.e., the option was evaluated as part of the initial competition and is exercisable at an amount specified in or reasonably determinable from the terms of the contract.

Subpart 17.3 - [Reserved]

This page intentionally left blank.

Subpart 17.4 - Leader Company Contracting

17.401 Policy.

Leader company contracting is an extraordinary acquisition technique, limited to special circumstances, and may only be used in accordance with agency procedures. Under this technique, a developer or sole producer of a product or system is designated as the leader company. The leader company is responsible for furnishing assistance and proprietary know-how under an approved contract to one or more designated follower companies. The purpose is to enable those follower companies to qualify as sources of supply for the product or system, thereby expanding the industrial base and promoting competition.

This page intentionally left blank.

Subpart 17.5 - Interagency Acquisitions

17.500 Scope of subpart.

(a) This subpart prescribes policies and procedures for all interagency acquisitions under any authority, except as provided in paragraph (c) of this section. When nondefense agencies acquire supplies or services on behalf of the Department of Defense, the requirements in subpart 17.7 also apply.

(b) This subpart applies to interagency acquisitions as defined in 2.101, when an agency:

(1) Requires supplies or services and uses another agency's contract; or

(2) Requests another agency to provide acquisition assistance, including but not limited to awarding or administering a contract, task order, or delivery order.

(c) This subpart does not apply to-

(1) Reimbursable work performed by one agency's employees for another agency (except acquisition assistance), or interagency activities where contracting is not the primary purpose; or

(2) Orders at or below $750,000 issued against Federal Supply Schedules.

17.501 General.

(a) Interagency acquisitions are usually conducted through indefinite-delivery contracts.

(b) An interagency acquisition must not be used to circumvent statutory or regulatory restrictions on the obligation or use of funds.

(c) An interagency acquisition must not conflict with another agency's statutory authority or responsibility. For example, the Administrator of General Services has authority under 40 U.S.C. "Public Buildings, Property, and Works" and 41 U.S.C. division C of subtitle I ("Procurement").

17.502 Procedures.

17.502-1 General.

(a) *Written agreement on responsibility for management and administration.*

(1) *Assisted acquisitions*.

(i) Before issuing a solicitation, both the servicing agency and requesting agency must sign a written interagency agreement that establishes the basic terms and conditions governing the relationship, which must include—

(A) The roles and responsibilities for acquisition planning;

(B) Contract execution; and

(C) Administration and management of the contract(s) or order(s).

(ii) The requesting agency must—

(A) Provide the servicing agency for incorporation into the order or contract, any unique requesting agency terms, conditions and applicable agency-specific statutes, regulations, directives, and other applicable requirements, or

(B) Inform the servicing agency contracting officer in writing that there are no special requirements beyond the FAR.

(iii) For assisted acquisitions for the Department of Defense, also see subpart 17.6.

(iv) Agencies should follow applicable Office of Federal Procurement Policy guidance on Interagency Acquisitions when creating these agreements.

(v) Both agencies must keep the signed agreement in their files along with sufficient documentation to permit a proper audit.

(2) *Direct acquisitions*. When the requesting agency administers the order itself, no written agreement with the servicing agency is required.

(b) *Business-case analysis requirements for establishing a multi-agency contract or governmentwide acquisition contract.* In accordance with section 865 of Public Law 110-417, the agency business case must address how the contract will be administered, analyze all direct and indirect costs of awarding and administering the contract, and describe the impact the contract will have on the Government's ability to leverage its purchasing power. For example, the analysis should address whether the new contract could dilute the effectiveness of existing contracts. For additional requirements see OMB Memorandum M-19-13.

17.502-2 The Economy Act.

(a) The Economy Act (31 U.S.C. 1535)—

(1) Authorizes agencies to enter into agreements to obtain supplies or services from other agencies. The FAR applies when one agency uses another agency's contract. If the transaction between agencies does not result in a contract or order, the FAR does not apply;

(2) Allows orders between major organizational units within the same agency. Agencies should address the procedures for these intra-agency transactions in agency regulations; and

(3) Applies when more specific statutory authority does not exist, such as 40 U.S.C. 501 for Federal Supply Schedules (see part 8) or 40 U.S.C. 11302(e) for Governmentwide acquisition contracts (GWACs).

(b) Each Economy Act order must be supported by a determination and findings (D&F) that must:

(1) State that the inter-agency acquisition is in the best interest of the Government;

(2) State that the supplies or services cannot be obtained as conveniently or cheaply by contracting directly with a private source; and

(3) State which one (or more) of these conditions is true:

(i) The servicing agency has an existing contract that was created before this order and meets the same needs.

(ii) The servicing agency has expertise or abilities to enter a contract that is not available within the requesting agency.

(4) The D&F must be approved by a contracting officer from the requesting agency with authority to contract for these supplies or services. Alternatively, an official designated by the agency head may approve it. If the servicing agency is not subject to the FAR, approval may not be delegated below the senior procurement executive of the requesting agency.

(5) The requesting agency must send a copy of the D&F to the servicing agency with their order request.

(c) *Payment*. (1) The servicing agency may request advance payment for estimated costs in writing. Adjustments based on actual costs must be made as agreed to by the agencies.

(2) If the servicing agency approves, the requesting agency may pay actual costs after receiving the supplies or services.

(3) Bills rendered or advance payment requests must not be subject to audit or certification in advance of payment.

(4) The servicing agency must not charge, and the requesting agency must not pay, any fee exceeding the actual cost (or estimated cost if actual cost is unknown) of entering into and administering the contract or agreement under which the order is filled.

17.503 Ordering procedures.

(a) Before placing an order for supplies or services with another Government agency, the requesting agency must follow the procedures in 17.502-1 and, if under the Economy Act, 17.502-2.

(b) The order may be placed on any form or document that both agencies accept. The order should include—

(1) A description of the supplies or services required;

(2) Delivery requirements;

(3) A funds citation;

(4) A payment provision (see 17.502-2(c) for Economy Act orders); and

(5) Acquisition authority as appropriate (see 17.503(d)).

(c) The requesting and servicing agencies should agree to procedures for resolving disagreements that may arise under interagency acquisitions. When appropriate, this may include using a third-party forum. If a third party is proposed, that party should provide their written consent.

(d) When an interagency acquisition requires the servicing agency to award a contract, these additional procedures apply:

(1) If law or regulation requires a justification and approval or a D&F (other than the requesting agency's D&F required in 17.502-2(c)), the servicing agency must prepare and issue it. The requesting agency must provide any information needed for the justification and approval or D&F.

(2) The requesting agency must provide other necessary assistance, such as information or special contract terms needed to comply with any conditions or limitations on the requesting agency's funds.

(3) The servicing agency is responsible for compliance with all other legal or regulatory requirements for the contract, including—

(i) Having proper legal authority for the contract action; and

(ii) Following all competition requirements in part 6. If the servicing agency is not subject to the FAR, the requesting agency must verify that contracts used to meet its requirements contain provisions protecting the Government from inappropriate charges (for example, provisions required by part 31). The requesting agency must also verify that adequate contract administration will be provided.

(e) Nonsponsoring Federal agencies may use a Federally Funded Research and Development Center (FFRDC) only if the terms of the FFRDC's sponsoring agreement allow work from agencies other than the sponsor. Work given to the FFRDC requires the sponsor's acceptance and must fall within the FFRDC's purpose, mission, general scope of effort, or special expertise. (See part 35 and part 6 for procedures when using other than full and open competition.) The nonsponsoring agency must provide documentation to the sponsoring agency showing that the requested work would not place the FFRDC in direct competition with domestic private industry.

17.504 Reporting requirements.

(a) The senior procurement executive for each executive agency must submit an annual report on interagency acquisitions to the Director of OMB, as directed by OMB.

(b) The contracting officer for the servicing agency must ensure all service contractor reporting requirements are met in accordance with part 4.

This page intentionally left blank.

Subpart 17.6 - Interagency Acquisitions: Acquisitions by Nondefense Agencies on Behalf of the Department of Defense

17.600 Scope of subpart.

(a) Compliance with this subpart is required in addition to the policies and procedures for interagency acquisitions in subpart 17.5. This subpart establishes policies and procedures specifically for acquisitions of supplies and services by nondefense agencies on behalf of the Department of Defense (DoD).

(b) This subpart implements Public Law 110-181, section 801, as amended (10 U.S.C. 3201 note prec.).

17.601 Definitions.

As used in this subpart—

Department of Defense (DoD) acquisition official means—

(1) A DoD contracting officer; or

(2) Any other DoD official authorized to approve a direct acquisition or an assisted acquisition on behalf of DoD.

Nondefense agency means any department or agency of the Federal Government other than the Department of Defense.

Nondefense agency that is an element of the intelligence community means the agencies identified in 50 U.S.C. 3003(4).

17.602 Applicability.

(a) This subpart applies to all acquisitions made by nondefense agencies on behalf of DoD.

(b) This subpart does not apply to contracts entered into by a nondefense agency that is an element of the intelligence community for a joint program that meets the needs of both DoD and the nondefense agency.

17.603 Policy.

(a) A DoD acquisition official may request a nondefense agency to conduct an acquisition on behalf of DoD above the simplified acquisition threshold only if the head of the nondefense agency has certified that the agency will comply with applicable procurement requirements for that fiscal year, except when waived as provided by paragraph (e) of this section.

(b) A nondefense agency is compliant with applicable procurement requirements if its procurement policies, procedures, and internal controls for acquisitions on behalf of DoD, and their administration, adequately ensure the nondefense agency complies with—

(1) The Federal Acquisition Regulation and other laws and regulations that apply to procurements of supplies and services by Federal agencies; and

(2) Laws and regulations that apply to procurements of supplies and services made by DoD through other Federal agencies, including DoD financial management regulations, the Defense Federal Acquisition Regulation Supplement (DFARS), DoD class deviations, and the DFARS Procedures, Guidance, and Information (PGI). (The DFARS, DoD class deviations, and PGI are available at: http://www.acq.osd.mil/dpap/dars).

(c) Within 30 days of the beginning of each fiscal year, submit nondefense agency certifications of compliance to the Principal Director, Defense Pricing and Contracting at: Department of Defense, Office of the Under Secretary of Defense (Acquisition and Sustainment), Defense Pricing and Contracting, Contract Policy, Room 3B938, 3060 Defense Pentagon, Washington DC 20301-3060.

(d) (1) The DoD acquisition official must provide the servicing nondefense agency contracting officer with any DoD-unique terms, conditions, other related statutes, regulations, directives, or other applicable requirements for incorporation into the order or contract.

(2) If there are no DoD-unique requirements beyond the FAR, the DoD acquisition official must inform the servicing nondefense agency contracting officer in writing.

(3) Nondefense agency contracting officers are responsible for ensuring support provided in response to DoD's request complies with paragraph (b) of this section.

(e) Waiver. The limitation in paragraph (a) of this section does not apply to acquisitions of supplies and services on behalf of DoD by a nondefense agency during any fiscal year for which the Under Secretary of Defense for Acquisition and Sustainment has determined in writing that it is necessary in DoD's interest to acquire supplies and services through the nondefense agency during that fiscal year. The written determination must identify the acquisition categories to which the waiver applies.

(f) Nondefense agency certifications, waivers, and additional information are available at https://www.acq.osd.mil/asda/dpc/cp/policy/interagency-acquisition.html

This page intentionally left blank.

Subpart 17.7 - Management and Operating Contracts

17.700 Scope of subpart.

This subpart establishes policies and procedures for management and operating contracts for the Department of Energy and any other agencies with the necessary statutory authority.

17.701 Definition.

Management and operating contract means an agreement where the Government contracts for the operation, maintenance, or support, on its behalf, of a Government-owned or -controlled research, development, special production, or testing facility that primarily serves one or more major programs of the Federal agency.

17.702 Presolicitation.

17.702-1 Policy.

The head of an agency, without power of delegation, and with statutory authority, may authorize contracting officers, in writing, to enter into or renew management and operating contracts. This authorization must comply with the agency's statutory authority or 41 U.S.C. chapter 33, and the agency's regulations for such contracts. Every authorized contract must state this authorization on its face.

17.702-2 Limitations.

(a) Management and operating contracts must not be authorized for—

(1) Functions involving direction, supervision, or control of Government personnel, except supervision related to training;

(2) Functions involving the exercise of police or regulatory powers in the Government's name, other than guard or plant protection services;

(3) Functions determining basic Government policies;

(4) Day-to-day staff or management functions of the agency or any of its elements; or

(5) Functions that can be better accomplished by the use or rental of Government property under subpart 45.3, Authorizing the Use and Rental of Government Property.

(b) Since an authorization under 17.702-1 is considered sufficient proof of compliance with paragraph (a) above, nothing in paragraph (a) affects the validity or legality of such an authorization.

(c) For use of project labor agreements, see part 22.

17.703 Award, renewal, and extension.

(a) Effective performance under management and operating contracts typically requires high expertise levels and continuity in operations and personnel. Due to program requirements and the unusual or unique nature of work performed under these contracts, the Government often has limited ability to create competition or replace a contractor. Therefore, contracting officers must take extraordinary steps before award to ensure that—

(1) The prospective contractor has sufficient technical and managerial capacity,

(2) Organizational conflicts of interest are adequately addressed; and

(3) The contract gives the Government broad and continuing rights to involve itself in technical and managerial decision making about performance, when necessary.

(b) The contracting officer must review each management and operating contract, following agency procedures, at appropriate intervals and at least once every 5 years.

(1) The review should determine if meaningful improvement in performance or cost might reasonably be achieved.

(2) Any extension or renewal of a management and operating contract must be authorized at a level within the agency no lower than the level at which the original contract was authorized under 17.702-1.

(c) Replacing an incumbent contractor is usually based largely on expectations of meaningful improvement in performance or cost. When reviewing contractor performance, contracting officers should consider—

(1) The incumbent contractor's overall performance, specifically including technical, administrative, and cost performance;

(2) The potential impact of changing contractors on program needs, including safety, national defense, and mobilization considerations; and

(3) Whether qualified offerors are likely to compete for the contract.

Subpart 17.8 - Reverse Auctions

17.800 Scope of subpart.

This subpart prescribes policies and procedures for conducting reverse auctions and using reverse auction service providers.

17.801 Definitions.

As used in this subpart—

Government data means any information, document, media, or machine-readable material regardless of physical form or characteristics, that is created or obtained by the Government in the course of official Government business.

Government-related data means any information, document, media, or machine-readable material regardless of physical form or characteristics that is created or obtained by a contractor through the storage, processing, or communication of Government data. This does not include a contractor's business records (*e.g.,* financial records, legal records, etc.) or data such as operating procedures, software coding, or algorithms that are not uniquely applied to the Government data.

Reverse auction service provider means a commercial or Government entity that provides a means for conducting reverse auctions when acquiring supplies or services to be used by the Government.

17.802 Presolicitation.

17.802-1 Policy.

(a) Reverse auctions may be appropriate when market research shows that—

(1) A competitive marketplace exists for the supplies and/or services being acquired;

(2) Multiple offerors can meet the agency's requirement; and

(3) The nature of the supplies and/or services (such as clearly defined specifications or less complex requirements) supports an iterative bidding process.

(b) The reverse auction process is used to obtain pricing for an acquisition. When using reverse auctions, contracting officers must still follow the appropriate acquisition policies and procedures (such as those in parts 8, 13, 15 or 16).

(c) When acquiring reverse auction services from a commercial provider, agencies must—

(1) Use competitive procedures, unless an exception applies;

(2) Detail the provider's fee structure in the resulting contract or agreement; and

(3) Make the contract or agreement details, including the fee structure, available to contracting officers to consider when deciding whether to use that provider, as required by subpart 17.802-3.

(d) When acquiring reverse auction services, the contracting officer must ensure the solicitation and contract include—

(1) Descriptions of Government data and Government-related data.

(2) Data ownership, licensing, delivery, and disposition instructions for relevant types of Government data and Government-related data (such as DD Form 1423, Contract Data Requirements List, work statement task, line item).

(3) Disposition instructions that must allow for data transition in commercially available or open and non-proprietary format and for permanent records according to National Archives and Records Administration guidance.

(e) Contracting officers must only use reverse auction service providers that—

(1) Do not claim or imply they can or will obtain a Government contract for auction participants;

(2) Allow entities to register for free as potential offerors for Government reverse auctions on their platform;

(3) Allow each entity, during registration, to sign a proprietary data protection agreement with the provider that does not affect Government solicitation or contract terms;

(4) Protect from unauthorized use or disclosure and do not release outside the Government—

(i) All contractor bid or proposal information and source selection information related to providing reverse auction services to the Government;

(ii) All information generated to support issuing a task order, delivery order, or order under a blanket purchase agreement; and

(iii) Information an offeror identifies as restricted from duplication, use, or disclosure for any purpose except evaluating the reverse auction participant's price or proposal;

(5) Allow offerors to see the successive lowest price(s) offered in the auction without revealing offerors' identities;

(6) At the close of each auction—

(i) Provide the Government with the apparent successful offer, including information that separately identifies the offeror's price and the price for each provider fee or charge in the total price; and

(ii) Provide the Government with all information and documentation received from offerors responding to the reverse auction;

(7) Do not participate as an offeror in any reverse auction they host for the Government. This prohibition includes participation by any entity with which the provider has a relationship creating an actual or potential conflict of interest; and

(8) Assert no rights or license in the data gathered or generated during a reverse auction.

(f) Only a contracting officer may—

(1) Exclude an offeror from participating in an auction;

(2) Determine the awardee(s) of any reverse auction; or

(3) Determine that the offeror is a responsible prospective contractor (see part 9).

17.802-2 Applicability.

Reverse auction processes must not be used for—

(a) Design-build construction contracts (see part 36);

(b) Procurements for architect-engineer services subject to 40 U.S.C. chapter 11 (see part 36);

(c) Procurements using sealed bidding procedures (see part 14); or

(d) Acquisition of personal protective equipment, in accordance with Sections 813 and 814 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2017 (Pub. L. 114-328); Section 882 of the NDAA for FY 2018 (Pub. L. 115-91); and Section 880 of the John S. McCain NDAA for FY 2019 (Pub. L. 115-232, 41 U.S.C. 3701 note).

17.802-3 Reverse auction service provider.

When considering using a reverse auction service provider, the contracting officer must—

(a) Conduct market research of available sources of reverse auction services (such as existing agency contracts or agreements, commercial service providers, or Government service providers);

(b) Evaluate the fee structure for each reverse auction service provider; and

(c) Document in the contract file that using a reverse auction service provider is cost effective.

17.803 Evaluation and award.

(a) When conducting a reverse auction, the contracting officer must—

(1) Not reveal the identity of offeror(s) except for the awardee's identity after making an award from the auction;

(2) Allow offerors to continually revise their prices downward during the reverse auction until it closes; and

(3) Allow an offeror to withdraw an offer before the auction closes.

(b) When using reverse auction service providers, contracting officers must—

(1) Include contact information, including the contracting officer name and email address, in the synopsis and solicitation so offerors can contact the contracting officer directly with questions;

(2) Upon receiving a successful offer, verify that any provider fees or charges in the price match the provider's fee structure; and

(3) Include in the contract file any information and/or documentation received by the reverse auction service provider from offerors responding to the reverse auction.

(c) If only one offeror participates in an auction, the contracting officer may—

(1) Cancel the auction and document the contract file with evidence of single offeror participation; or

(2) Accept the offer, but only if the price is determined to be fair and reasonable.

17.804 Solicitation provision and contract clauses.

(a) Insert the provision at 52.217-10, Reverse Auction, in solicitations when using a reverse auction to award a contract or blanket purchase agreement.

(b) Insert the clause at 52.217-11, Reverse Auction—Orders, in solicitations and contracts for a multiple-award contract or blanket purchase agreement when a reverse auction may be used to place orders under the basic contract or blanket purchase agreement.

(c) Insert the clause at 52.217-12, Reverse Auction Services, in all solicitations and contracts for the purchase of reverse auction services.

PART 18 - EMERGENCY ACQUISITIONS

This page intentionally left blank.

18.000 Scope of part.

This part identifies acquisition flexibilities available for emergency acquisitions.

18.001 Emergency acquisitions.

(a) *General flexibilities*. Contracting officers should use the flexibilities included in the FAR to respond quickly for an emergency or urgent need. See the list of FAR flexibilities available at https://acquisition.gov/emergency-procurement.

(b) *Micro-purchase threshold and simplified acquisition threshold*. The definitions of micro-purchase threshold and simplified acquisition threshold at part 2 describe the circumstances and new thresholds to which they may be raised when, as determined by the head of an executive agency, they are used to—

(1) Support a contingency operation;

(2) Help defend against or recover from cyber, nuclear, biological, chemical, or radiological attack against the United States;

(3) Support a request from the Secretary of State or the Administrator of the United States Agency for International Development to help provide international disaster assistance as described in 22 U.S.C. 2292 *et seq*.;

(4) Support response to an emergency or major disaster, or

(5) Support a humanitarian or peacekeeping operation using a contract to be awarded and performed, or purchase to be made, outside the United States. The simplified acquisition threshold may be changed, but not the micro-purchase threshold.

(c) *Simplified acquisition procedures for certain commercial products and services*. See part 12 for increased thresholds that may be used in acquiring commercial products or commercial services to support a contingency operation, or to help defend against or recover from cyber, nuclear, biological, chemical, or radiological attack; to support a request from the Secretary of State or the Administrator of the United States Agency for International Development to help provide international disaster assistance; or to support response to an emergency or major disaster. The threshold for using simplified acquisition procedures may also be raised when the acquisition is treated as a commercial product or commercial service in accordance with paragraph (d) of this section.

(d) *Commercial product or commercial service treatment*. Contracting officers may treat any acquisition of supplies or services as an acquisition of commercial products or commercial services if the head of the agency determines the acquisition is to be used to help defend against or recover from cyber, nuclear, biological, chemical, or radiological attack. (See part 12.)

(e) *Disaster or emergency assistance activities*. Award preference will be given to local organizations, firms, and individuals when contracting for major disaster or emergency assistance activities when the President has made a declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122; 41 U.S.C. 1903). Preference may take the form of local area set-asides or an evaluation preference. (See subpart 26.2).

(f) *Ocean transportation by U.S. flag vessels*. In emergency situations, the provisions of the Cargo Preference Act of 1954 may be waived. (See part 47.)

This page intentionally left blank.

PART 19 - SMALL BUSINESS

Subpart 19.3 - Postaward

19.000 Scope of part.

(a) This part implements the acquisition-related sections of the Small Business Act (15 U.S.C. 631, *et seq.*)and 41 U.S.C. 3104. It covers—

(1) The determination that a concern is eligible for participation in the programs identified in this part;

(2) The respective roles of executive agencies and the Small Business Administration (SBA) in implementing the programs;

(3) Setting acquisitions aside for exclusive competitive participation by small business, 8(a) participants, HUBZone small business concerns, service-disabled veteran-owned small business (SDVOSB) concerns eligible under the SDVOSB Program, and economically disadvantaged women-owned small business (EDWOSB) concerns and women-owned small business (WOSB) concerns eligible under the WOSB Program;

(4) The certificate of competency program;

(5) The subcontracting assistance program;

(6) The “8(a)” business development program (hereafter referred to as 8(a) Program), under which agencies contract with the SBA for goods or services to be furnished under a subcontract by a small disadvantaged business concern;

(7) The use of a price evaluation preference for HUBZone small business concerns;

(8) Sole source awards to HUBZone small business concerns, service-disabled veteran-owned small business concerns, and EDWOSB concerns and WOSB concerns eligible under the WOSB Program; and

(9) The use of reserves.

(b) (1) Unless otherwise specified in this part (see 19.109 and 19.204)—

(i) Contracting officers must apply this part in the United States and its outlying areas; and

(ii) Contracting officers may apply this part outside the United States and its outlying areas.

(2) Offerors that participate in any procurement under this part must meet the definition of “small business concern” at 2.101.

19.001 Definitions.

As used in this part—

Alaska Native Corporation (ANC) means any Regional Corporation, Village Corporation, Urban Corporation, or Group Corporation organized under the laws of the state of Alaska in accordance with the Alaska Native Claims Settlement Act (43 U.S.C. 1601, *et seq.*) and which is considered a minority and economically disadvantaged concern under the criteria at 43 U.S.C. 1626(e)(1). This definition also includes ANC direct and indirect subsidiary corporations, joint ventures, and partnerships that meet the requirements of 43 U.S.C. 1626(e)(2).

Commercial plan means a subcontracting plan (including goals) that covers the offeror's fiscal year and that applies to the entire production of commercial products and performance of commercial services sold by either the entire company or a portion thereof (e.g., division, plant, or product line).

Concern means any business entity organized for profit (even if its ownership is in the hands of a nonprofit entity) with a place of business located in the United States or its outlying areas and that makes a significant contribution to the U.S. economy through payment of taxes and/or use of American products, material and/or labor, etc. “Concern” includes but is not limited to an individual, partnership, corporation, joint venture, association, or cooperative. For more information, see 13 CFR 121.105.

Failure to make a good faith effort to comply with the subcontracting plan means willful or intentional failure to perform in accordance with the requirements of the subcontracting plan, or willful or intentional action to frustrate the plan.

Fair market price means a price based on reasonable costs under normal competitive conditions and not on lowest possible cost (see 19.205(c)).

Indian tribe means any Indian tribe, band, group, pueblo, or community, including native villages and native groups (including corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601 *et seq.*), that is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs in accordance with 25 U.S.C. 1452(c). This definition also includes Indian-owned economic enterprises that meet the requirements of 25 U.S.C. 1452(e).

Individual subcontracting plan means a subcontracting plan that covers the entire contract period (including option periods), applies to a specific contract, and has goals that are based on the offeror's planned subcontracting in support of the specific contract, except that indirect costs incurred for common or joint purposes may be allocated on a prorated basis to the contract.

Industry means all concerns primarily engaged in similar lines of activity, as listed and described in the North American Industry Classification system (NAICS) manual.

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Master subcontracting plan means a subcontracting plan that contains all the required elements of an individual subcontracting plan, except goals, and may be incorporated into individual subcontracting plans, provided the master subcontracting plan has been approved.

Subcontract means any agreement (other than one involving an employer-employee relationship) entered into by a Government prime contractor or subcontractor calling for supplies and/or services required to perform the contract, contract modification, or subcontract.

Subcontracting Plan Reporting (SPR) means the electronic subcontracting reporting system at SAM.gov for small business subcontracting program reporting.

Total contract dollars means the final anticipated dollar value, including the dollar value of all options.

Subpart 19.1 - Presolicitation

19.101 Small business goals.

(a) It is the Government's policy to provide maximum practicable opportunities in its acquisitions to small business and other small business socioeconomic categories (i.e. veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns). Heads of contracting activities are responsible for achieving goals for small business and those other socioeconomic categories (15 U.S.C. 644(g)).

(1) Agencies must measure the extent of participation by small business and other small business socioeconomic categories in Government acquisitions in terms of the total value of contracts placed during each fiscal year. Agencies must report this data to the Small Business Administration (SBA) at the end of each fiscal year (see 4.301).

(2) (i) SBA certifies offerors as veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, and women-owned small business concerns under the WOSB Program. SBA certifications can be found in the Small Business Search (SBS) website. To be eligible as a small business concern or small disadvantaged business concern, an offeror is required to represent in good faith that it meets the definition of those respective terms.

(ii) (A) Insert the provision at 52.219-1, Small Business Program Representations, in solicitations exceeding the micro-purchase threshold when the contract is for supplies to be delivered or services to be performed in the United States or its outlying areas, or when the contracting officer has applied this part in accordance with 19.000(b)(1)(ii).

(B) Use the provision with its Alternate II in solicitations that will result in a multiple-award contract with more than one NAICS code assigned. This is authorized for solicitations issued after October 1, 2028 (see 19.103(b)(2)).

(iii) (A) Insert the clause at 52.219-28, Postaward Small Business Program Rerepresentation, in solicitations and contracts exceeding the micro-purchase threshold when the contract is for supplies to be delivered or services to be performed in the United States or its outlying areas, or when the contracting officer has applied this part in accordance with 19.000(b)(1)(ii).

(B) Use the clause with its Alternate I in solicitations and the resulting multiple-award contracts with more than one NAICS code. This is authorized for solicitations issued after October 1, 2028 (see 19.103(b)(2)).

(b) Contracting officers can use various acquisition strategies to further the policy and achieve the goals referenced in paragraph (a). As summarized below, some are discretionary, but others are mandatory for certain acquisitions.

(1) Contracting officers must plan acquisitions (i.e. contracts) so that, if practicable, more than one small business concern may perform the work, if the work exceeds the amount for which a surety may be guaranteed by SBA against loss under 15 U.S.C. 694b (see definition of "applicable statutory limit" at 13 CFR 115.10).

(2) Contracting officers must, to the extent practicable, encourage maximum participation by small business concerns in acquisitions. They can do this by publicizing solicitations and contract awards through the Governmentwide point of entry (see subparts 5.2 and 5.3).

(3) Contracting officers must set aside contracts valued at more than the micro-purchase threshold for small businesses in certain circumstances. See 19.104.

(4) Contracting officers may set aside or sole source contracts under the HUBZone Program. See 19.105.

(5) Contracting officers may set aside or sole source contracts under the SDVOSB Program. See 19.106.

(6) Contracting officers may set aside or sole source contracts under the WOSB Program. See 19.107.

(7) Contracting officers may set aside or sole source contracts under the 8(a) Program. See 19.108.

(8) Contracting officers may set aside task orders or delivery orders. See 19.111-2.

(9) Contracting officers must require a small business subcontracting plan in certain acquisitions. See 19.109 and 19.302-1.

(10) Contracting officers must use a HUBZone price evaluation preference in full and open competitions. See 19.110.

(11) Contracting officers may use reserves on multiple-award contracts for any of the small business concerns identified in 19.000(a)(3). See 19.112.

(c) In certain instances, contracting officers must award to the small business when there are equal low bids from a small and other than small business. See 19.203.

(d) When an apparent successful small business offeror has been determined to be nonresponsible, contracting officers must refer the business to SBA for a certificate of competency. A certificate of competency would allow award to be made to that small business offeror. See 19.204.

19.102 Coordination.

(a) SBA helps contracting personnel ensure their agency meets their small business goals. The Director of the Office of Small and Disadvantaged Business Utilization (OSDBU), or for the Department of Defense, the Director of the Office of Small Business Programs (OSBP) serves as the agency focal point for interfacing with SBA. In certain instances, coordinating with SBA, the Director of the OSDBU, or the Director of OSBP is required.

(b) (1) The SBA may assign one or more procurement center representatives (PCRs) to any contracting activity or contract administration office to carry out SBA policies and programs. Assigned SBA PCRs are required to comply with the contracting agency's directives governing the conduct of contracting personnel and the release of contract information. The SBA must obtain for its PCRs security clearances required by the contracting agency.

(2) If an SBA PCR is not assigned to the procuring activity or contract administration office, contact the SBA Office of Government Contracting Area Office serving the area in which the procuring activity is located for assistance in carrying out SBA policies and programs. See *https://www.sba.gov/federal-contracting/counseling-help/procurement-center-representative-directory* for the location of the SBA office servicing the activity.

(c) Upon their request and subject to applicable acquisition and security regulations, contracting officers must give SBA PCRs (or, if a PCR is not assigned, see paragraph (b) of this section) access to all reasonably obtainable contract information that is directly pertinent to their official duties.

(d) The duties assigned by SBA to its PCR are set forth at 13 CFR 125.2(b) and include but are not limited to reviewing proposed acquisitions to recommend the set-aside or sole-source award to a small business of selected acquisitions.

(e) (1) Contracting officers must provide a copy of the proposed acquisition package and other reasonably obtainable information related to the acquisition to the SBA procurement center representative at least 30 days before the solicitation is issued if—

(i) The proposed acquisition is for supplies or services that a small business currently provides, and the proposed acquisition is of a quantity or estimated dollar value that makes it unlikely that small businesses can compete for the prime contract;

(ii) The proposed acquisition is for construction and seeks to package or consolidate discrete construction projects, and the magnitude of this packaging or consolidation makes it unlikely that small businesses can compete for the prime contract; or

(iii) The proposed acquisition is for a consolidated or bundled requirement. The contracting officer must provide all information to justify the consolidation or bundling. The contracting officer must also provide the same information to the agency OSDBU or for the Department of Defense, the OSBP.

(2) For acquisitions described in paragraph (e)(1) of this section, provide a statement explaining why the—

(i) Proposed acquisition cannot be divided into reasonably small lots (not less than economic production runs) to permit offers on quantities less than the total requirement;

(ii) Delivery schedules cannot be established on a realistic basis that will encourage small business participation to the extent consistent with the actual requirements of the Government;

(iii) Proposed acquisition cannot be structured to make it likely that small businesses can compete for the prime contract;

(iv) Consolidated construction project cannot be acquired as separate discrete projects; or

(v) Bundling is necessary and justified.

(3) Process the 30-day notification at the same time as other processing steps required before issuing the solicitation.

(4) If the SBA PCR believes that the acquisition as proposed makes it unlikely that small businesses can compete for the prime contract, the representative will recommend any alternate contracting method that the representative reasonably believes will increase small business prime contracting opportunities. The representative has 15 days after receiving the package to make the recommendation to the contracting officer.

(f) If the contracting officer rejects a recommendation of the SBA PCR (or, if a procurement center representative is not assigned, see paragraph (b) of this section), written notice must be furnished to the appropriate SBA representative within 5 working days of the contracting officer's receipt of the recommendation.

(1) The SBA PCR (or, if a PCR is not assigned, see paragraph (b) of this section) may appeal the contracting officer's rejection to the head of the contracting activity within 2 working days after receiving the notice. The head of the contracting activity shall render a decision in writing, and provide it to the SBA representative within 7 working days. Pending issuance of a decision to the SBA representative, the contracting officer must suspend action on the acquisition.

(2) If the head of the contracting activity agrees that the contracting officer's rejection was appropriate—

(i) Within 2 working days, the SBA PCR (or, if a PCR is not assigned, see paragraph (b) of this section) may request the contracting officer to suspend action on the acquisition until the SBA Administrator appeals to the agency head (see paragraph (f)(5) of this section); and

(ii) The SBA must be allowed 15 working days after making such a written request, within which the Administrator of SBA—

(A) May appeal to the Secretary of the Department concerned; and

(B) Must notify the contracting officer whether the further appeal has, in fact, been taken. If notification is not received by the contracting officer within the 15-day period, it is deemed that the SBA request to suspend the contract action has been withdrawn and that an appeal to the Secretary was not taken.

(3) When the contracting officer has been notified within the 15-day period that the SBA has appealed to the agency head, the head of the contracting activity (or designee) must forward justification for its decision to the agency head. The contracting officer must suspend contract action until notification is received that the SBA appeal has been settled.

(4) The agency head must reply to the SBA within 30 working days after receiving the appeal. The decision of the agency head shall be final.

(5) A request to suspend action on an acquisition need not be honored if the contracting officer determines that proceeding to contract award and performance is in the public interest. The contracting officer must include in the contract file a statement of the facts justifying the determination, and must promptly notify the SBA representative of the determination and provide a copy of the justification.

(g) Contracting officers must consider the recommendations of the agency Director of the OSDBU or for the Department of Defense, the Director of the OSBP as to whether a particular contract should be set aside (see 19.104). Agencies must establish procedures including dollar thresholds for the Director to review acquisitions to make these recommendations. The contracting officer must document in the contract file whenever the Director's recommendations are not accepted.

19.103 Small business size standards.

(a) *Locating size standards and North American Industry Classification System codes.* (1) SBA establishes small business size standards on an industry-by-industry basis. Small business size standards and corresponding North American Industry Classification System (NAICS) codes are provided at 13 CFR 121.201. They are also available at *https://www.sba.gov/document/support--table-size-standards*.

(2) NAICS codes are updated by the Office of Management and Budget through its Economic Classification Policy Committee every five years. New NAICS codes are not available for use in Federal contracting until SBA publishes corresponding size standards. NAICS codes are available from the U.S. Census Bureau at *https://www.census.gov/naics/*.

(3) SBA determines the size status of a concern, including its affiliates, as of the date the concern represents that it is small to the contracting officer as part of its initial offer, which includes price.

(4) When an agency uses a solicitation for a multiple-award contract that does not require offers for the contract to include price, SBA determines size as of the date of initial offer for the multiple-award contract, whether or not the offer includes price or the price is evaluated. (See 13 CFR 121.404(a)(1)(iv)).

(b) *Determining the appropriate NAICS codes for the solicitation.* (1) Unless required to do otherwise by paragraph (b)(2)(ii)(B) of this section, contracting officers must assign one NAICS code and corresponding size standard to all solicitations, contracts, and task or delivery orders. The contracting officer must determine the appropriate NAICS code by classifying the product or service being acquired in the one industry that best describes the principal purpose of the supply or service being acquired.

(2) (i) For solicitations issued on or before October 1, 2028, that will result in multiple-award contracts, the contracting officer must assign a NAICS code in accordance with paragraph (b)(1) of this section.

(ii) For solicitations issued after October 1, 2028, that will result in multiple-award contracts, the contracting officer must—

(A) Assign a single NAICS code (and corresponding size standard) that best describes the principal purpose of both the acquisition and each subsequent order; or

(B) Divide the acquisition into distinct portions or categories (e.g., line item numbers, Special Item Numbers, sectors, functional areas, or equivalent) and assign each portion or category a single NAICS code and size standard that best describes the principal purpose of the supplies or services to be acquired under that distinct portion or category.

(3) The contracting officer's designation is final unless appealed in accordance with the procedures in paragraph (d) of this section.

(c) *Application of small business size standards to solicitations.* (1) The contracting officer must apply the size standard in effect on the date the solicitation is issued.

(2) The contracting officer may amend the solicitation and use the new size standard if SBA amends the size standard and it becomes effective before the due date for receipt of initial offers.

(d) *Appealing the contracting officer's North American Industry Classification System code and size standard determination*. The contracting officer's determination is final unless appealed as follows:

(1) An appeal of a contracting officer's NAICS code designation and the applicable size standard must be served and filed within 10 calendar days after the issuance of the initial solicitation or any amendment affecting the NAICS code or size standard. However, SBA may file a NAICS code appeal at any time before offers are due.

(2) Appeals of a contracting officer's NAICS code designation or applicable size standard may be filed with SBA's Office of Hearings and Appeals (OHA) by—

(i) Any person adversely affected by a NAICS code designation or applicable size standard. However, with respect to a particular sole source 8(a) contract, only the SBA Associate Administrator for Business Development may appeal a NAICS code designation; or

(ii) The Associate or Assistant Director for the SBA program involved, through SBA's Office of General Counsel.

(3) Contracting officers must advise the public, by amendment to the solicitation, of the existence of a NAICS code appeal (see part 5). Such notices must include the procedures and the deadline for interested parties to file and serve arguments concerning the appeal.

(4) SBA's OHA will dismiss summarily an untimely NAICS code appeal.

(5) NAICS code appeals are filed in accordance with 13 CFR 121.1103.

(6) Upon receipt of a NAICS code appeal, OHA will notify the contracting officer by a notice and order of the date OHA received the appeal, the docket number, and the Administrative Judge assigned to the case. The contracting officer's response to the appeal, if any, must include argument and evidence (see 13 CFR part 134), and must be received by OHA within 15 calendar days from the date of the docketing notice and order, unless otherwise specified by the Administrative Judge. Upon receipt of OHA's docketing notice and order, the contracting officer must withhold award, unless withholding award is not in the best interests of the Government, and immediately send to OHA an electronic link to or a paper copy of both the original solicitation and all amendments relating to the NAICS code appeal. The contracting officer must inform OHA of any amendments, actions, or developments concerning the procurement in question.

(7) After close of record, OHA will issue a decision and inform the contracting officer. If OHA's decision is received by the contracting officer before the date the offers are due, the decision shall be final and the solicitation must be amended to reflect the decision, if appropriate. OHA's decision received after the due date of the initial offers shall not apply to the pending solicitation but shall apply to future solicitations of the same products or services.

(e) For procedures related to determining size prior to award, see FAR 19.201.

19.104 Small business set-asides

19.104-1 Total small business set-asides.

(a) A “set-aside for small business” is the limiting of an acquisition exclusively for participation by small business concerns. For contracts above the micro-purchase threshold, the contracting officer must set the contract aside for small business if there is a reasonable expectation of obtaining offers—

(1) From two or more responsible small business concerns; and

(2) That are competitive in terms of fair market prices, quality, and delivery.

(b) (1) The contracting officer makes the determination to do a small business set-aside under paragraph (a). The contracting officer must document the reason when a contract is not set aside for small business as required.

(2) If the contracting officer rejects a recommendation by SBA to do a small business set-aside, see 19.102(f).

(c) The requirement in paragraph (a) of this section does not apply to purchases at or below the micro-purchase threshold or purchases from required sources under part 8 (*e.g.,* Committee for Purchase From People Who are Blind or Severely Disabled).

(d) When using competitive procedures in accordance with 8.304(b)(1), agencies must include Federal Prison Industries, Inc. (FPI), in the solicitation process for a small business set-aside and consider a timely offer from FPI.

(e) The requirements of paragraph (a) do not preclude the contracting officer from awarding a contract to a small business under the HUBZone Program, SDVOSB Program, WOSB Program, or 8(a) Program. See FAR 19.105 through 19.108.

(f) (1) Any concern, including a supplier, that is awarded a contract or order subject to the nonmanufacturer rule, other than a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce (*i.e.*, a "nonmanufacturer"), is required to provide an end item that a small business has manufactured, processed, or produced in the United States or its outlying areas.

(2) When the end item being acquired is a kit of supplies the offeror may not exceed 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519.

(3) (i) The SBA may grant an individual or a class waiver to the nonmanufacturer rule to allow a nonmanufacturer to provide an end item of an other than small business without regard to the place of manufacture, processing, or production.

(A) *Class waiver.* An agency may request that SBA waive the requirement at paragraph (f)(1) or (f)(2) of this section for a specific product or class of products. See 13 CFR 121.1202 for an explanation of when SBA will issue a class waiver.

(B) *Individual waiver.* The contracting officer may also request a waiver of the requirements at paragraph (f)(1) or (f)(2) of this section for an individual acquisition once the contracting officer determines through market research that no known small business manufacturers, processors, or producers in the United States or its outlying areas can reasonably be expected to offer an end item meeting the requirements of the solicitation. This type of waiver is known as an individual waiver and would apply only to a specific acquisition.

(ii) Requests for waivers must include the content specified at 13 CFR 121.1204 and must be sent via email to nmrwaivers@sba.gov or by mail to the—Director, Office of Government Contracting, Small Business Administration, 409 Third Street SW, Washington, DC 20416.

(iii) For the most current listing of class waivers, contact the SBA Office of Government Contracting or go to https://www.sba.gov/document/support-non-manufacturer-rule-class-waiver-list.

(iv) The contracting officer must provide potential offerors with written notification of any class or individual waiver in the solicitation. If providing the notification after solicitation issuance, the contracting officer must provide potential offerors a reasonable amount of additional time to respond to the solicitation.

(4) (i) If at least 50 percent of the estimated contract value is composed of items that are manufactured, processed, or produced by small business concerns, then a waiver of the nonmanufacturer rule is not required. There is no requirement that each item acquired in a multiple-item acquisition be manufactured, processed, or produced by a small business in the United States or its outlying areas.

(ii) If more than 50 percent of the estimated acquisition cost is composed of items manufactured, processed, or produced by other than small business concerns, then a waiver is required. SBA may grant an individual waiver for one or more items in an acquisition in order to ensure that at least 50 percent of the cost of the items to be supplied by the nonmanufacturer comes from small business manufacturers, processors, and producers in the United States or its outlying areas or are subject to a waiver.

(iii) If a small business offeror is both a manufacturer of item(s) and a nonmanufacturer of other item(s) for an acquisition, the contracting officer must apply the manufacturer size standard.

(g) For evaluation requirements related to set-asides, see FAR 19.205.

19.104-2 Partial small business set-asides.

(a) Contracting officers may, at their discretion, set aside a portion or portions of an acquisition, except for construction, for any of the small business concerns identified at 19.000(a)(3) when—

(1) Market research indicates that a total set-aside is not appropriate (see 19.104-1);

(2) The requirement can be divided into distinct portions;

(3) The acquisition is not subject to simplified acquisition procedures;

(4) Two or more responsible small business concerns are reasonably expected to submit an offer on the set-aside portion or portions of the acquisition that are competitive in terms of fair market prices, quality, and delivery; and

(5) The specific program eligibility requirements identified in this part apply.

(b) When the contracting officer determines that a requirement is to be partially set aside, the solicitation must identify which portion or portions are set aside and not set aside.

(c) The contracting officer must specify in the solicitation how offers must be submitted with regard to the set-aside and non-set-aside portions.

(d) Offers received from concerns that do not qualify as small business concerns shall be considered nonresponsive and must be rejected on the set-aside portion of partial set-asides. However, before rejecting an offer otherwise eligible for award because of questions concerning the size representation, an SBA determination must be obtained (see 19.201).

(e) For evaluation requirements related to partial set-asides, see FAR 19.205.

19.104-3 Small business set-aside clauses.

(a) The contracting officer must insert the clause at 52.219-6, Notice of Total Small Business Set-Aside, in solicitations involving total small business set-asides. This includes multiple-award contracts when orders may be set aside for any of the small business concerns identified in 19.000(a)(3), as described in parts 8 and 16. Use the provision with its Alternate I when including FPI in the competition in accordance with 19.104-1(d).

(b) The contracting officer must insert the clause at 52.219-7, Notice of Partial Small Business Set-Aside, in solicitations and contracts involving partial small business set-asides. This includes part or parts of multiple-award contracts. Use the clause at 52.219-7 with its Alternate I when including FPI in the competition in accordance with 19.104-1(d).

(c) The contracting officer must insert the clause at 52.219-14, Limitations on Subcontracting, in solicitations and contracts—

(1) For supplies, services, and construction, if any portion of the requirement is to be set aside for small business and the contract amount is expected to exceed the simplified acquisition threshold, and in any solicitations and contracts that are set aside or awarded on a sole-source basis in accordance with sections 19.105, 19.106, 19.107, and 19.108, regardless of dollar value. This includes multiple-award contracts when orders may be set aside for small business concerns, as described in subpart 8.4 and subpart 16.5. For contracts that are set aside, the contracting officer must indicate in paragraph (f) of the clause whether compliance with the limitations on subcontracting is required at the contract or order level;

(2) Using the HUBZone price evaluation preference (see 19.110). However, if the prospective contractor waived the use of the preference, or is an other than small business, do not insert the clause in the resultant contract.

(d) The contracting officer must insert the clause at 52.219-13, Notice of Set-Aside of Orders, in all solicitations for multiple-award contracts under which orders may be set aside for any of the small business concerns identified in 19.000(a)(3), and all contracts awarded from such solicitations.

(e) (1) The contracting officer must insert the clause at 52.219-33, Nonmanufacturer Rule, in solicitations and contracts, including multiple-award contracts, when orders may be set aside for small business concerns as described in subpart 8.4 and subpart 16.5, when—

(i) the item being acquired has been assigned a manufacturing or supply NAICS code, and—

(ii) (A) Any portion of the requirement is to be—

(1) Set aside for small business and is expected to exceed the simplified acquisition threshold; or

(2) Set aside or awarded on a sole-source basis in accordance with sections 19.105, 19.106, 19.107, and 19.108, regardless of dollar value; or

(B) Using the HUBZone price evaluation preference (see 19.110). However, if the prospective contractor waived the use of the price evaluation preference, or is an other than small business, do not insert the clause in the resultant contract.

(2) The contracting officer must not insert the clause at 52.219-33 when the Small Business Administration has waived the nonmanufacturer rule (see 19.104-1(f)(3)).

19.105 Historically Underutilized Business Zone (HUBZone) Program.

19.105-1 Status as a HUBZone small business concern.

(a) Status as a HUBZone small business concern is determined by the Small Business Administration (SBA) in accordance with 13 CFR part 126. If SBA determines that a concern is a HUBZone small business, it will designate the concern as a

HUBZone small business in the Small Business Search (SBS) at https://search.certifications.sba.gov/. SBA's designation also appears in the System for Award Management (SAM).

(b) For a HUBZone small business concern that seeks a HUBZone set-aside or sole-source contract, the contracting officer must verify that the offeror is designated in SBS or SAM as a HUBZone small business concern certified by SBA.

(c) A joint venture may be considered a HUBZone small business concern if—

(1) The joint venture qualifies as small under 19.201-1(b)(1);

(2) At least one party to the joint venture is a HUBZone small business concern; and

(3) The joint venture complies with 13 CFR 126.616(a) through (c).

(d) To be eligible for a HUBZone contract under this section, a HUBZone small business concern must be a HUBZone small business concern at the time of its initial offer.

19.105-2 Set-aside procedures.

(a) The contracting officer—

(1) May set aside contracts exceeding the micro-purchase threshold for competition restricted to HUBZone small business concerns when the requirements of paragraph (b) of this section can be satisfied; and

(2) Must consider HUBZone set-asides before considering HUBZone sole-source awards (see 19.105-3).

(b) To set aside an acquisition for competition restricted to HUBZone small business concerns, the contracting officer must have a reasonable expectation that—

(1) Offers will be received from two or more HUBZone small business concerns; and

(2) Award will be made at a fair market price.

(c) If the contracting officer receives only one acceptable offer from a HUBZone small business concern in response to a set aside, the contracting officer should make an award to that concern. If the contracting officer receives no acceptable offers from HUBZone small business concerns, the HUBZone set-aside must be withdrawn and the requirement, if still valid, set aside for small business concerns, as appropriate (*see* 19.104).

(d) The procedures at 19.102(f) apply to this section if the contracting officer decides to reject a recommendation of the SBA procurement center representative (or, if a procurement center representative is not assigned, *see* 19.102(b)) to set aside a contract for competition restricted to HUBZone small business concerns.

19.105-3 Sole source awards.

(a) A contracting officer may consider a contract award to a HUBZone small business concern on a sole-source basis (see 6.103-5(c)(1)) provided—

(1) The contracting officer does not have a reasonable expectation that offers would be received from two or more HUBZone small business concerns;

(2) The anticipated price of the contract, including options, will not exceed—

(i) $8.5 million for a requirement within the North American Industry Classification System (NAICS) codes for manufacturing; or

(ii) $5.5 million for a requirement within all other NAICS codes;

(3) The HUBZone small business concern has been determined to be a responsible contractor with respect to performance; and

(4) Award can be made at a fair and reasonable price.

(b) The SBA has the right to appeal the contracting officer's decision not to make a HUBZone sole-source award (see 13 CFR 126.610).

19.105-4 Contract clauses.

(a) The contracting officer must insert the clause at 52.219-3, Notice of HUBZone Set-Aside or Sole-Source Award, in solicitations and contracts for acquisitions that are set aside or awarded on a sole-source basis to, HUBZone small business concerns under 19.105-2 or 19.105-3. This includes multiple-award contracts when orders may be set aside for HUBZone small business concerns as described in subpart 8.4 and subpart 16.5.

(b) For use of clause 52.219-14, Limitations on Subcontracting, see the prescription at 19.104-3(c).

(c) For use of clause 52.219-33, Nonmanufacturer Rule, see the prescription at 19.104-3(e).

19.106 Service-Disabled Veteran-Owned Small Business (SDVOSB) Program.

19.106-1 Status as a SDVOSB concern.

(a) Status as an SDVOSB concern is determined by SBA in accordance with 13 CFR part 128.

(b) For an SDVOSB concern that seeks an SDVOSB set-aside or sole-source contract, the contracting officer must verify that the offeror is designated in the System for Award Management (SAM) as an SDVOSB concern certified by SBA.

(c) A joint venture may be considered an SDVOSB concern eligible under the SDVOSB Program if—

(1) The joint venture qualifies as small under 19.201-1(b)(1);

(2) The managing SDVOSB joint venture partner is designated in SAM as an SDVOSB concern certified by SBA; and

(3) The joint venture complies with the requirements of 13 CFR 128.402.

19.106-2 Set-aside procedures.

(a) The contracting officer—

(1) May set-aside contracts exceeding the micro-purchase threshold for competition restricted to SDVOSB concerns when the requirements of paragraph (b) of this section can be satisfied; and

(2) Must consider SDVOSB set-asides before considering SDVOSB sole source awards (see 19.106-3).

(b) A contracting officer may restrict competition to SDVOSB concerns eligible under the SDVOSB Program if there is a reasonable expectation based on market research that—

(1) Two or more SDVOSB concerns eligible under the SDVOSB Program will submit offers; and

(2) Award will be made at a fair market price.

(c) If the contracting officer receives only one acceptable offer from an SDVOSB concern eligible under the SDVOSB Program in response to a set-aside, the contracting officer should make an award to that concern. If the contracting officer receives no acceptable offers from SDVOSB concerns eligible under the SDVOSB Program, the SDVOSB set-aside must be withdrawn and the requirement, if still valid, set aside for small business concerns, as appropriate (see 19.104).

(d) The procedures at 19.102(f) apply to this section if the contracting officer decides to reject a recommendation of the SBA procurement center representative (or, if a procurement center representative is not assigned, *see* 19.102(b)) to set aside a contract for competition restricted to SDVOSB concerns.

19.106-3 Sole source awards.

(a) A contracting officer may consider a contract award to a SDVOSB concern on a sole source basis (see 6.103-5(c)(1)), provided—

(1) The contracting officer does not have a reasonable expectation that offers would be received from two or more SDVOSB concerns;

(2) The anticipated award price of the contract, including options, will not exceed—

(i) $8.5 million for a requirement within the NAICS codes for manufacturing; or

(ii) $5 million for a requirement within any other NAICS code;

(3) The SDVOSB concern has been determined to be a responsible contractor with respect to performance; and

(4) Award can be made at a fair and reasonable price.

(b) The SBA has the right to appeal the contracting officer's decision not to make an SDVOSB sole-source award (see 13 CFR 128.407).

19.106-4 Contract clauses.

(a) The contracting officer must insert the clause at 52.219-27, Notice of Set-Aside for, or Sole-Source Award to, Service-Disabled Veteran-Owned Small Business (SDVOSB) Concerns Eligible Under the SDVOSB Program, in solicitations and contracts for acquisitions that are set aside or awarded on a sole-source basis to, service-disabled veteran-owned small business concerns under 19.106-2 and 19.106-3. This includes multiple-award contracts when orders may be set aside for service-disabled veteran-owned small business concerns as described in subpart 8.4 and subpart 16.5.

(b) For use of clause 52.219-14, Limitations on Subcontracting, see the prescription at 19.104-3(c).

(c) For use of clause 52.219-33, Nonmanufacturer Rule, see the prescription at 19.104-3(e).

19.107 Women-Owned Small Business (WOSB) Program.

19.107-1 Status under the WOSB Program.

(a) Status as an economically disadvantaged women-owned small business (EDWOSB) concern or WOSB concern eligible under the WOSB Program is determined by the Small Business Administration in accordance with 13 CFR part 127.

(b) For a WOSB that seeks a WOSB or EDWOSB set-aside or sole-source contract, the contracting officer must verify prior to award that the offeror is designated as a certified EDWOSB or WOSB concern in the System for Award Management (SAM).

(c) A joint venture may be considered an EDWOSB concern or WOSB concern eligible under the WOSB Program if the EDWOSB or WOSB participant is certified in SAM and the joint venture meets the requirements of 13 CFR 127.506.

19.107-2 Set-aside procedures.

(a) The contracting officer—

(1) May set aside contracts exceeding the micro-purchase threshold for competition restricted to EDWOSB concerns when the acquisition is assigned a NAICS code in which SBA has determined that WOSB concerns are underrepresented in Federal procurement; or

(2) May set aside contracts exceeding the micro-purchase threshold for competition restricted to WOSB concerns eligible under the WOSB Program when the acquisition is assigned a NAICS code in which SBA has determined that WOSB concerns are substantially underrepresented in Federal procurement, as specified on SBA's website at *http://www.sba.gov/WOSB* .

(b) For requirements in NAICS codes designated by SBA as underrepresented, a contracting officer may restrict competition to EDWOSB concerns if the contracting officer has a reasonable expectation based on market research that—

(1) Two or more EDWOSB concerns will submit offers for the contract; and

(2) Contract award will be made at a fair and reasonable price.

(c) For requirements in NAICS codes designated by SBA as substantially underrepresented, a contracting officer may restrict competition to WOSB concerns eligible under the WOSB Program (including EDWOSB concerns) if there is a reasonable expectation based on market research that—

(1) Two or more WOSB concerns eligible under the WOSB Program (including EDWOSB concerns), will submit offers; and

(2) Contract award may be made at a fair and reasonable price.

(d) The contracting officer may make an award, if only one acceptable offer is received from a qualified EDWOSB concern or WOSB concern eligible under the WOSB Program. If no acceptable offers are received from an EDWOSB concern or WOSB concern eligible under the WOSB Program, the set-aside must be withdrawn and the requirement, if still valid, set aside for small business, as appropriate (see subpart 19.104).

(e) The procedures at 19.102(f) apply to this section if the contracting officer decides to reject a recommendation of the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.102(b)) to set aside a contract for competition restricted to EDWOSB concerns or WOSB concerns eligible under the WOSB Program.

19.107-3 Sole source awards.

(a) A contracting officer may consider a contract award to an EDWOSB concern on a sole-source basis (see 6.103-5(c)(1)) provided—

(1) The acquisition is assigned a NAICS code in which SBA has determined that WOSB concerns are underrepresented in Federal procurement;

(2) The contracting officer does not have a reasonable expectation that offers would be received from two or more EDWOSB concerns; and

(3) The conditions in paragraph (c) of this section exist.

(b) A contracting officer may consider a contract award to a WOSB concern (including EDWOSB concerns) eligible under the WOSB Program on a sole-source basis (see 6.103-5(c)(1)) provided—

(1) The acquisition is assigned a NAICS code in which SBA has determined that WOSB concerns are substantially underrepresented in Federal procurement;

(2) The contracting officer does not have a reasonable expectation that offers would be received from two or more WOSB concerns (including EDWOSB concerns); and

(3) The conditions in paragraph (c) of this section exist.

(c) (1) The anticipated award price of the contract, including options, will not exceed—

(i) $8.5 million for a requirement within the NAICS codes for manufacturing; or

(ii) $5.5 million for a requirement within any other NAICS codes.

(2) The EDWOSB concern or WOSB concern has been determined to be a responsible contractor with respect to performance.

(3) The award can be made at a fair and reasonable price.

(d) The SBA has the right to appeal the contracting officer's decision not to make a sole-source award to either an EDWOSB concern or WOSB concern eligible under the WOSB program.

19.107-4 Contract clauses.

(a) The contracting officer must insert the clause at 52.219-29, Notice of Set-Aside for, or Sole-Source Award to, Economically Disadvantaged Women-owned Small Business Concerns, in solicitations and contracts for acquisitions that are set aside or awarded on a sole-source basis to, EDWOSB concerns under 19.107-2(b) or 19.107-3(a). This includes multiple-award contracts when orders may be set aside for EDWOSB concerns as described in subpart 8.4 and subpart 16.5.

(b) The contracting officer must insert the clause at 52.219-30, Notice of Set-Aside for, or Sole-Source Award to, Women-Owned Small Business Concerns Eligible Under the Women-Owned Small Business Program, in solicitations and contracts for acquisitions that are set aside or awarded on a sole-source basis to WOSB concerns under 19.107-2(c) or 19.107-3(b). This includes multiple-award contracts when orders may be set aside for WOSB concerns eligible under the WOSB Program as described in subpart 8.4 and subpart 16.5.

(c) For use of clause 52.219-14, Limitations on Subcontracting, see the prescription at 19.104-3(c).

(d) For use of clause 52.219-33, Nonmanufacturer Rule, see the prescription at 19.104-3(e).

19.108 Contracting With the Small Business Administration (the 8(a) Program)

19.108-1 General.

(a) Section 8(a) of the Small Business Act (15 U.S.C. 637(a)) established a program that authorizes the Small Business Administration (SBA) to enter into all types of contracts with other agencies and award subcontracts for performing those contracts to firms eligible for program participation. This program is the "8(a) Business Development Program," commonly referred to as the "8(a) program." A small business that is accepted into the 8(a) program is known as a "participant." SBA's subcontractors are referred to as "8(a) contractors." As used in this subpart, an 8(a) contractor is an 8(a) participant that is currently performing on a Federal contract or order that was set aside for 8(a) participants.

(b) Contracts may be awarded to the SBA for performance by eligible 8(a) participants on either a sole source or competitive basis.

(c) Acting under the authority of the program, the SBA certifies to an agency that SBA is competent and responsible to perform a specific contract. The contracting officer has the discretion to award the contract to the SBA based upon mutually agreeable terms and conditions.

(d) When SBA has delegated its 8(a) program contract execution authority to an agency, the contracting officer must refer to its agency supplement or other policy directives for appropriate guidance.

19.108-2 Determining eligibility for the 8(a) program.

Determining the eligibility of a small business to be a participant in the 8(a) program is the responsibility of the SBA. SBA's regulations on eligibility requirements for participation in the 8(a) program are found at 13 CFR 124.101 through 124.112. SBA designates the concern as an 8(a) participant in the Small Business Search (SBS) at *https://search.certifications.sba.gov/*. SBA's designation also appears in the System for Award Management (SAM).

19.108-3 Selecting acquisitions for the 8(a) program.

Through their cooperative efforts, the SBA and an agency match the agency's requirements with the capabilities of 8(a) participants to establish a basis for the agency to contract with the SBA under the program. Selection is initiated in one of three ways:

(a) The SBA advises the contracting activity of an 8(a) participant's capabilities through a search letter and requests the contracting activity to identify acquisitions to support the participant's business plans. In these instances, the SBA will provide at a minimum the following information in order to enable the contracting activity to match an acquisition to the participant's capabilities:

(1) Identification of the participant and its owners.

(2) Background information on the participant, including any and all information pertaining to the participant's technical ability and capacity to perform.

(3) The participant's present production capacity and related facilities.

(4) The extent to which contracting assistance is needed in the present and the future, described in terms that will enable the agency to relate the participant's plans to present and future agency requirements.

(5) If construction is involved, the request must also include the following:

(i) A participant's capabilities in and qualifications for accomplishing various categories of construction work typically found in North American Industrial Category System subsector 236 (construction of buildings), subsector 237 (heavy and civil engineering construction), or subsector 238 (specialty trade contractors).

(ii) The participant's capacity in each construction category in terms of estimated dollar value (*e.g.,* electrical, up to $100,000).

(b) The SBA identifies a specific requirement for one or more 8(a) participant(s) and sends a requirements letter to the agency's OSDBU, or for the Department of Defense, OSBP, requesting the contracting office offer the acquisition to the 8(a) program. In these instances, in addition to the information in paragraph (a) of this section, the SBA will provide—

(1) A clear identification of the acquisition sought; *e.g.,* project name or number;

(2) A statement as to how the required equipment and real property will be provided in order to ensure that the participant will be fully capable of satisfying the agency's requirements;

(3) If construction, information as to the bonding capability of the participant(s); and

(4) Either—

(i) If a sole source request—

(A) The reasons why the participant is considered suitable for this particular acquisition; *e.g.,* previous contracts for the same or similar supply or service; and

(B) A statement that the participant is eligible in terms of its small business size status relative to the assigned NAICS code, business support levels, and business activity targets; or

(ii) If competitive, a statement that at least two 8(a) participants are considered capable of satisfying the agency's requirements and a statement that the participants are also eligible in terms of their small business size status relative to the assigned NAICS code, business support levels, and business activity targets. If requested by the contracting office, SBA will identify at least two such participants and provide information concerning the participants' capabilities.

(c) Agencies may also review other proposed acquisitions for the purpose of identifying requirements which may be offered to the SBA. Where agencies independently, or through the self marketing efforts of an 8(a) participant, identify a requirement for the 8(a) program, they may offer on behalf of a specific 8(a) participant, for the 8(a) program in general, or for 8(a) competition.

19.108-4 Evaluation, offering, and acceptance.

(a) *Agency evaluation*. In determining the extent to which a requirement should be offered in support of the 8(a) program, the agency should evaluate—

(1) Current and future plans to acquire the specific items or work that 8(a) participants are seeking to provide, identified in terms of—

(i) Estimated quantities of the supplies or services required or the estimated number of construction projects planned;

(ii) Length of contract, including option periods (see 19.303-1(d)); and

(iii) Performance or delivery requirements, including—

(A) Required monthly production rates, when applicable; and

(B) For construction, the geographical location where work is to be performed;

(2) The impact of any delay in delivery;

(3) Whether the items or work have previously been acquired using small business set-asides, and the date the items or work were acquired;

(4) Problems encountered in previous acquisitions of the items or work from the 8(a) participants or other contractors; and

(5) Any other pertinent information about known 8(a) participants, the items, or the work. This includes any information concerning the participants' products or capabilities. When necessary, the contracting agency must make an

independent review of the factors in 19.108-3(a) and other aspects of the participants' capabilities which would ensure the satisfactory performance of the requirement being considered for commitment to the 8(a) program.

(b) *Agency offering*.

(1) After completing its evaluation, the contracting office must notify the SBA of the extent of its plans to place 8(a) contracts with the SBA for specific quantities of items or work. The notification, referred to as an offering letter, must identify the time frames within which resulting 8(a) awards must be completed in order for the agency to meet its responsibilities. The offering letter must also contain the following information applicable to each prospective contract:

(i) A description of the work to be performed or items to be delivered, and a copy of the statement of work, if available.

(ii) The estimated period of performance.

(iii) The NAICS code that applies to the principal nature of the acquisition.

(iv) The anticipated dollar value of the requirement, including options, if any.

(v) Any special restrictions or geographical limitations on the requirement (for construction, include the location of the work to be performed).

(vi) Any special capabilities or disciplines needed for contract performance.

(vii) The type of contract anticipated. In accordance with 8.104, use of existing government-wide contracts is required in certain instances.

(viii) The acquisition history, if any, of the requirement, including the names and addresses of any small business contractors that have performed this requirement during the previous 24 months.

(ix) A statement that prior to the offering no solicitation for the specific acquisition has been issued as a small business, HUBZone, service-disabled veteran-owned small business set-aside, or a set-aside under the Women-Owned Small Business (WOSB) Program, and that no other public communication (such as a notice through the Governmentwide point of entry (GPE)) has been made showing the contracting agency's clear intention to set-aside the acquisition for small business, HUBZone small business, service-disabled veteran-owned small business concerns, or a set-aside under the WOSB Program.

(x) Identification of any particular 8(a) participant designated for consideration, including a brief justification, such as—

(A) The 8(a) participant, through its own efforts, marketed the requirement and caused it to be reserved for the 8(a) program; or

(B) The acquisition is a follow-on or renewal contract and the nominated 8(a) participant is the incumbent.

(xi) Bonding requirements, if applicable.

(xii) Identification of all 8(a) participants which have expressed an interest in being considered for the acquisition. This should include a list of all 8(a) contract-holders on an existing government-wide contract that is planned to be used to fill the requirement (see 8.104).

(xiii) Identification of all SBA field offices that have asked for the acquisition for the 8(a) program.

(xiv) A request, if appropriate, that a requirement with an estimated contract value under the applicable competitive threshold be awarded as an 8(a) competitive contract (see 19.108-7(d)). SBA has already authorized certain government-wide contracts (e.g. Federal Supply Schedule) to allow competition amongst the 8(a) contract-holders at any dollar value. To determine whether SBA has provided this authority for the contract planned to be used, refer to the ordering procedures for that contract.

(xv) A request, if appropriate, that a requirement with a contract value over the applicable competitive threshold be awarded as a sole source contract (see 19.108-7(b)).

(xvi) Any other pertinent and reasonably available data.

(2) An agency offering a construction requirement for which no specific offeror is nominated should submit it to the SBA District Office for the geographical area where the work is to be performed.

(3) An agency offering a construction requirement on behalf of a specific offeror should submit it to the SBA District Office servicing that concern.

(4) Sole source requirements, other than construction, should be forwarded directly to the district office that services the nominated 8(a) participant. If the contracting officer is not nominating a specific 8(a) participant, the offering letter should be forwarded to the district office servicing the geographical area in which the contracting office is located.

(5) All requirements for 8(a) competition, other than construction, should be forwarded to the district office servicing the geographical area in which the contracting office is located. All requirements for 8(a) construction competition should be forwarded to the district office servicing the geographical area in which all or the major portion of the construction is to

be performed. All requirements, including construction, must be synopsized through the GPE. For construction, the synopsis must include the geographical area of the competition set forth in the SBA's acceptance letter.

(c) *SBA acceptance*.

(1) Upon receipt of the contracting office's offering letter, SBA will determine whether to accept the requirement for the 8(a) program. SBA's decision whether to accept the requirement will be transmitted to the contracting office in writing within 10 working days of receipt of the offer if the contract is likely to exceed the simplified acquisition threshold and within two working days of receipt if the contract is at or below the simplified acquisition threshold. The contracting office may grant an extension of these time periods, if requested by SBA.

(i) For acquisitions exceeding the simplified acquisition threshold, if SBA does not respond to an offering letter within ten working days, the contracting office may seek SBA's acceptance through the Associate Administrator for Business Development. The contracting office may assume that SBA has accepted the requirement into the 8(a) program if it does not receive a reply from the Associate Administrator for Business Development within five calendar days of receipt of the contracting office's request.

(ii) For acquisitions not exceeding the simplified acquisition threshold, when the contracting office makes an offer to the 8(a) program on behalf of a specific 8(a) participant and does not receive a reply to its offering letter within two working days, the contracting office may assume the offer is accepted and proceed with award of an 8(a) contract.

(2) As part of the acceptance process, SBA will review the appropriateness of the NAICS code designation assigned to the requirement by the contracting officer.

(i) SBA will not challenge the NAICS code assigned to the requirement by the contracting officer if it is reasonable, even though other NAICS codes may also be reasonable.

(ii) If SBA and the contracting officer are unable to agree on a NAICS code designation for the requirement, SBA may refuse to accept the requirement for the 8(a) program, appeal the contracting officer's determination to the head of the agency pursuant to 19.108-9, or appeal the NAICS code designation to the SBA Office of Hearings and Appeals under subpart C of 13 CFR part 134.

(3) For sole source 8(a) awards, if an appropriate match exists, SBA will advise the contracting officer whether it will participate in contract negotiations or whether SBA will authorize the contracting officer to negotiate directly with the identified 8(a) participant. Where SBA has delegated its contract execution functions to a contracting agency, SBA will also identify that delegation in its acceptance letter. For a joint venture, SBA will determine eligibility as part of its acceptance of a sole-source requirement and will approve the joint venture agreement prior to award in accordance with 13 CFR 124.513(e).

(i) *Sole source award where the contracting officer nominates a specific 8(a) participant.* SBA will determine whether an appropriate match exists where the contracting officer identifies a particular participant for a sole source award.

(A) Once SBA determines that a procurement is suitable to be accepted as an 8(a) sole source contract, SBA will normally accept it on behalf of the 8(a) participant recommended by the contracting officer, provided that the 8(a) participant complies with the requirements of 13 CFR 124.503(c)(1).

(B) If an appropriate match does not exist, SBA will notify the 8(a) participant and the contracting officer, and may then nominate an alternate 8(a) participant.

(ii) *Sole source award where the contracting officer does not nominate a specific 8(a) participant.* When a contracting officer does not nominate an 8(a) participant for performance of a sole source 8(a) contract, SBA will select an 8(a) participant for possible award from among two or more eligible and qualified 8(a) participants. The selection will be based upon relevant factors, including business development needs, compliance with competitive business mix requirements (if applicable), financial condition, management ability, technical capability, and whether award will promote the equitable distribution of 8(a) contracts. (For construction requirements see 13 CFR 124.503(d)(1)).

19.108-5 Repetitive acquisitions.

In order for repetitive acquisitions to be awarded through the 8(a) program, there must be separate offers and acceptances. This allows the SBA to determine—

(a) Whether the requirement should be a competitive 8(a) award;

(b) A nominated 8(a) participant's eligibility, and whether or not it is the same 8(a) participant that performed the previous contract;

(c) The effect that contract award would have on the equitable distribution of 8(a) contracts; and

(d) Whether the requirement should continue under the 8(a) program.

19.108-6 Basic ordering agreements and blanket purchase agreements.

(a) The contracting office must submit an offering letter for, and SBA must accept, each order under a basic ordering agreement (BOA) or a blanket purchase agreement (BPA) (see 12.201-1), in addition to the agency offering and SBA accepting the BOA or BPA itself.

(b) SBA will not accept for award on a sole-source basis any order that would cause the total dollar amount of orders issued under a specific BOA or BPA to exceed the competitive threshold amount in 19.108-7.

(c) Once an 8(a) participant's program term expires, the participant otherwise exits the 8(a) program, or becomes other than small for the NAICS code assigned under the BOA or the BPA, SBA will not accept new orders under the BOA or BPA for the participant.

19.108-7 Competitive 8(a) and sole source 8(a) policy.

(a) *Competitive 8(a) policy.* An acquisition offered to the SBA under the 8(a) program must be awarded on the basis of competition limited to eligible 8(a) participants when—

(1) There is a reasonable expectation that at least two eligible and responsible 8(a) participants will submit offers and that award can be made at a fair market price; and

(2) The anticipated total value of the contract, including options, will exceed $8.5 million for acquisitions assigned manufacturing North American Industry Classification System (NAICS) codes and $5.5 million for all other acquisitions.

(b) *Above competitive thresholds*. Where an acquisition exceeds the competitive threshold (see paragraph (a)(2) of this section), the SBA may accept the requirement for a sole source 8(a) award only after the contracting officer has complied with the requirements for other than full and open competition in accordance with 6.103.

(c) *Prohibition on splitting requirements*. A proposed 8(a) requirement with an estimated value exceeding the applicable competitive threshold amount shall not be divided into several requirements for lesser amounts in order to use 8(a) sole source procedures for award to a single firm.

(d) *Below competitive thresholds*. (1) To ensure fair market pricing and to prepare 8(a) participants for competition, SBA has approved certain government-wide contracts for competition amongst the 8(a) contract-holders (see 19.111-2) at any dollar value, including below the competitive thresholds. Where an acquisition is below the competitive threshold (see paragraph (a)(2) of this section), contracting officers must first try conducting the acquisition as a competitive 8(a) order using these government-wide contracts before proceeding with a sole source 8(a) award. To determine whether SBA has provided approval for a particular government-wide contract, refer to the ordering procedures for that contract.

(2) The SBA Associate Administrator for Business Development may approve a contracting office's request for a competitive 8(a) award below the competitive thresholds when not using the contracts referenced in paragraph (d)(1). Such requests will be approved only on a limited basis and will be primarily granted where technical competitions are appropriate or where a large number of responsible 8(a) participants are available for competition. In determining whether a request to compete below the threshold will be approved, the SBA Associate Administrator for Business Development will, in part, consider the extent to which the contracting activity is supporting the 8(a) program on a noncompetitive basis. The agency may include recommendations for competition below the threshold in the offering letter or by separate correspondence to the SBA Associate Administrator for Business Development.

19.108-8 Limitations on subcontracting and nonmanufacturer rule.

(a) Limitations on subcontracting. To be awarded a contract or order under the 8(a) program, the 8(a) participant is required to perform—

(1) For services (except construction), at least 50 percent of the cost incurred for personnel with its own employees;

(2) For supplies or products (other than a procurement from a nonmanufacturer of such supplies or products), at least 50 percent of the cost of manufacturing the supplies or products (not including the cost of materials);

(3) For general construction, at least 15 percent of the cost with its own employees (not including the cost of materials); and

(4) For construction by special trade contractors, at least 25 percent of the cost with its own employees (not including the cost of materials).

(b) Compliance period for limitations on subcontracting. An 8(a) contractor is required to comply with the limitations on subcontracting—

(1) For a contract under the 8(a) program, either by the end of the base term and then by the end of each subsequent option period or by the end of the performance period for each order issued under the contract, at the contracting officer's discretion; and

(2) For an order competed exclusively among contractors who are 8(a) participants, by the end of the performance period for the order.

(c) Waiver. The applicable SBA District Director may waive the provisions in paragraph (b)(1) requiring a participant to comply with the limitations on subcontracting for each period of performance or for each order. Instead, the SBA District Director may permit the participant to subcontract in excess of the limitations on subcontracting where the SBA District Director makes a written determination that larger amounts of subcontracting are essential during certain stages of performance.

(1) The 8(a) participant is required to provide the SBA District Director written assurance that the participant will ultimately comply with the requirements of this section prior to contract completion. The contracting officer must review the written assurance and inform the 8(a) participant of their concurrence or nonconcurrence. The 8(a) participant can only submit the written assurance to the SBA District Director upon concurrence by the contracting officer.

(2) The contracting officer does not have the authority to waive the provisions of this section requiring an 8(a) participant to comply with the limitations on subcontracting for each period of performance or order, even if the agency has a Partnership Agreement with SBA.

(3) Where the 8(a) participant does not ultimately comply with the limitations on subcontracting by the end of the contract, SBA will not grant future waivers for the 8(a) participant.

(d) Nonmanufacturer rule. See 19.104-1(f) for application of the nonmanufacturer rule, inclusive of waivers and exceptions to the nonmanufacturer rule.

19.108-9 SBA appeals.

(a) The SBA Administrator may submit for determination to the agency head if the SBA and the contracting officer fail to agree on the decision to make a particular acquisition available for award under the 8(a) Program.

(b) The procedures at 19.102(f) apply to this section if there is disagreement between the contracting officer and the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.102(b)) regarding the matters in paragraph (a).

(c) If the SBA appeal is denied, the decision of the agency head must specify the reasons for the denial. The decision must be made a part of the contract file.

19.108-10 Contract clauses.

(a) The contracting officer must insert the clause at 52.219-11, Special 8(a) Contract Conditions, in contracts between the SBA and the agency when the acquisition is accomplished using sole source procedures in 19.208-7(a)(1) and (2).

(b) The contracting officer must insert the clause at 52.219-12, Special 8(a) Subcontract Conditions, in contracts between the SBA and its 8(a) contractor when the acquisition is accomplished using sole source procedures in 19.208-7(a)(1) and (2).

(c) The contracting officer must insert the clause at 52.219-17, Section 8(a) Award, in competitive solicitations and contracts when the acquisition is accomplished using the procedures of 19.208-1 and in sole source awards which utilize the alternative procedure in 19.208-7(a)(3).

(d) The contracting officer must insert the clause at 52.219-18, Notification of Competition Limited to Eligible 8(a) Participants, in competitive solicitations and contracts when the acquisition is accomplished using the procedures of 19.208-1. Use the clause at 52.219-18 with its Alternate I when competition is to be limited to 8(a) participants within one or more specific SBA districts pursuant to 19.108-4(b).

(e) For contracts or orders resulting from this subpart, see 19.104-3(c) for use of 52.219-14, Limitations on Subcontracting, and 19.104-3(e) for use of 52.219-33, Nonmanufacturer Rule.

19.108-11 Release requirements for non-8(a) procurement.

(a) Once a requirement has been accepted by SBA into the 8(a) program, any follow-on requirements (see definition at 13 CFR 124.3) must remain in the 8(a) program unless—

(1) There is a mandatory source (see 8.101 through 8.103);

(2) The follow-on will be set aside under the HUBZone, SDVOSB, or WOSB programs; or

(3) SBA agrees to release the requirement from the 8(a) program for a follow-on, non-8(a) procurement in accordance with 13 CFR 124.504(d) (see paragraph (b) of this section).

(b) To obtain release of a requirement from the 8(a) program, the contracting officer must make a written request to, and receive concurrence from, the SBA Associate Administrator for Business Development.

(c) (1) The written request to the SBA Associate Administrator for Business Development must indicate—

(i) Whether the agency has achieved its small disadvantaged business goal;

(ii) Whether the agency has achieved its HUBZone, SDVOSB, WOSB, or small business goal(s); and

(iii) Whether the requirement is critical to the business development of the 8(a) contractor that is currently performing the requirement.

(2) The requirement that a follow-on procurement must be released from the 8(a) program in order for it to be fulfilled outside the 8(a) program does not apply to task or delivery orders offered to and accepted into the 8(a) program, where the basic contract was not accepted into the 8(a) program.

19.109 Small business subcontracting plans.

(a) (1) Except as stated in paragraph (b) of this section, 15 U.S.C. 637(d) imposes the following requirements regarding subcontracting with small businesses and small business subcontracting plans:

(i) In negotiated acquisitions, each solicitation of offers to perform a contract that is expected to exceed $900,000 ($2 million for construction of any public facility) and that has subcontracting possibilities, must require the apparently successful offeror to submit an acceptable subcontracting plan. If the apparently successful offeror fails to negotiate a subcontracting plan acceptable to the contracting officer within the time limit prescribed by the contracting officer, the offeror will be ineligible for award. For a multiple-award contract with more than one North American Industry Classification System (NAICS) code, see paragraph (a)(2) of this section.

(ii) In sealed bidding acquisitions, each invitation for bids to perform a contract that is expected to exceed $900,000 ($2 million for construction of any public facility) and that has subcontracting possibilities, must require the bidder selected for award to submit a subcontracting plan. If the selected bidder fails to submit a plan within the time limit prescribed by the contracting officer, the bidder will be ineligible for award. For a multiple-award contract with more than one NAICS code, see paragraph (a)(2) of this section.

(2) For a multiple-award contract with more than one NAICS code, the solicitation referenced in paragraphs (a)(1)(i) and (ii) of this section shall require the apparently successful offeror to submit an acceptable subcontracting plan for either the distinct portion(s) or category(ies) of their proposal for which the offeror is other than small or for the entirety of their proposal, at the offeror's discretion. When determining the need for a subcontracting plan, the contracting officer must consider the cumulative dollar value of the portion(s) or category(ies) of the offeror's proposal for which the offeror is other than small.

(b) Subcontracting plans (see paragraph (a) of this section) are not required—

(1) From small business concerns;

(2) For personal services contracts; or

(3) For contracts or contract modifications that will be performed entirely outside of the United States and its outlying areas.

(c) (1) The contracting officer must determine whether subcontracting possibilities exist by considering relevant factors such as—

(i) Whether firms engaged in the business of furnishing the types of items to be acquired usually contract for performance of part of the work or maintain sufficient in-house capability to perform the work;

(ii) Whether there are likely to be product prequalification requirements; and

(iii) Whether the firm can acquire any portion of the work with minimal or no disruption to performance (with consideration given to the time remaining until contract completion), and at fair market value, when a plan is required under 19.302-1.

(2) If it is determined that there are no subcontracting possibilities, the determination must include a detailed rationale, be approved at a level above the contracting officer, and placed in the contract file.

(d) In solicitations for negotiated acquisitions, the contracting officer may require the submission of subcontracting plans with initial offers or at any other time prior to award. In determining when subcontracting plans should be required, as well as when and with whom plans should be negotiated, the contracting officer must consider the integrity of the competitive process, the goal of affording maximum practicable opportunity for small business and the socioeconomic categories to participate, and the burden placed on offerors.

(e) (1) Insert the clause at 52.219-8, Utilization of Small Business Concerns, in solicitations and contracts when the contract amount is expected to exceed the simplified acquisition threshold unless—

(i) A personal services contract is considered (see 37.104); or

(ii) The contract, together with all of its subcontracts, will be performed entirely outside of the United States and its outlying areas.

(2) (i) Insert the clause at 52.219-9, Small Business Subcontracting Plan, in solicitations and contracts that offer subcontracting possibilities, are expected to exceed $900,000 ($2 million for construction of any public facility), and are required to include the clause at 52.219-8, Utilization of Small Business Concerns, unless the acquisition is set aside or is to be accomplished under the 8(a) program. When—

(A) Contracting by sealed bidding rather than by negotiation, use the clause with its Alternate I;

(B) Contracting by negotiation, and subcontracting plans are required with initial proposals as provided for in 19.109(d), use the clause with its Alternate II; or

(C) The contract action will not be reported in the Federal Procurement Data System pursuant to part 4, use the clause with its Alternate III.

(ii) Insert the clause at 52.219-16, Liquidated Damages—Subcontracting Plan, in all solicitations and contracts containing the clause at 52.219-9, Small Business Subcontracting Plan, or the clause with its Alternate I or II.

(f) (1) The contracting officer may, when contracting by negotiation, insert in solicitations and contracts a clause substantially the same as the clause at 52.219-10, Incentive Subcontracting Program, when a subcontracting plan is required, and inclusion of a monetary incentive is, in the judgment of the contracting officer, necessary to increase subcontracting opportunities for small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns, and is commensurate with the efficient and economical performance of the contract; unless the conditions in paragraph (f)(3) of this section are applicable. The contracting officer may vary the terms of the clause as specified in paragraph (f)(2) of this section.

(2) Various approaches may be used in the development of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns' subcontracting incentives. They can take many forms, from a fully quantified schedule of payments based on actual subcontract achievement to an award-fee approach employing subjective evaluation criteria (see paragraph (f)(3) of this section). The incentive should not reward the contractor for results other than those that are attributable to the contractor's efforts under the incentive subcontracting program.

(3) As specified in paragraph (f)(2) of this section, the contracting officer may include small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontracting as one of the factors to be considered in determining the award fee in a cost-plus-award-fee contract; in such cases, however, the contracting officer must not use the clause at 52.219-10, Incentive Subcontracting Program.

(g) The contracting officer must provide the SBA's procurement center representative (or, if a procurement center representative is not assigned, see 19.102(b)) a reasonable period of time to review any solicitation requiring submission of a subcontracting plan and to submit advisory findings before the solicitation is issued.

(h) For evaluation requirements related to subcontracting plans, see FAR 19.206.

19.110 Price evaluation preference for HUBZone small business concerns.

(a) Use the price evaluation preference for HUBZone small business concerns in acquisitions conducted using full and open competition. Do not use the preference—

(1) Where price is not a selection factor because in this situation a price evaluation preference would not be considered (e.g., architect/engineer acquisitions); or

(2) Where all fair and reasonable offers are accepted (e.g., the award of multiple award schedule contracts).

(b) Insert the provision at 52.219-4, Notice of Price Evaluation Preference for HUBZone Small Business Concerns, in solicitations for acquisitions conducted using full and open competition.

(c) For use of clause 52.219-14, Limitations on Subcontracting, see the prescription at 19.104-3(c).

(d) For use of clause 52.219-33, Nonmanufacturer Rule, see the prescription at 19.104-3(e).

(e) For evaluation requirements related to the HUBZone price evaluation preference, see FAR 19.207.

19.111 Orders under multiple-award contracts.

19.111-1 Size.

(a) When placing orders under multiple-award contracts with a single NAICS code, the contracting officer must assign the order the same NAICS code and corresponding size standard designated in the contract.

(b) When placing orders under multiple-award contracts with more than one NAICS code, the contracting officer must assign the order the NAICS code and corresponding size standard designated in the contract for the distinct portion or category against which the order is placed. If an order covers multiple portions or categories, select the NAICS code and corresponding size standard designated in the contract for the distinct portion or category that best represents the principal purpose of the order.

19.111-2 Set-asides.

(a) (1) In accordance with section 1331 of the Small Business Jobs Act of 2010 (15 U.S.C. 644(r)(2)), contracting officers may, at their discretion, set aside orders placed under multiple-award contracts for any of the small business concerns identified in 19.000(a)(3).

(2) A contracting officer's decision to set aside or not set aside an order for small business concerns is an exercise of discretion granted to agencies and not a basis for protest. However, this does not preclude the filing of a protest of such an order if such a protest would otherwise be authorized on a separate basis recognized in accordance with 16.505(a)(10)(i).

(b) The contracting officer must comply with the specific program eligibility requirements identified in this part in addition to the ordering procedures for a multiple-award contract (for orders placed against the Federal Supply Schedules Program, see subpart 8.4; for orders placed under all other multiple-award contracts, see subpart 16.5).

19.112 Reserves.

(a) In accordance with section 1331 of the Small Business Jobs Act of 2010 (15 U.S.C. 644(r)(3)) and 13 CFR 125.2(e)(4), contracting officers may, at their discretion when conducting multiple-award procurements using full and open competition, reserve one or more contract awards for any of the small business concerns identified in 19.000(a)(3), when market research indicates—

(1) A total set-aside is not feasible because there is no reasonable expectation of receiving offers that are competitive in terms of fair market prices, quality, and delivery from at least two responsible small business concerns identified in 19.000(a)(3), that can perform the entire requirement; and

(2) A partial set-aside is not feasible because—

(i) The contracting officer is unable to divide the requirement into distinct portions; or

(ii) There is no reasonable expectation that at least two responsible small business concerns identified in 19.000(a)(3) can perform any portion of the requirement competitively in terms of fair market price, quality, and delivery.

(b) A reserve will result in one of the following:

(1) One or more contract awards to any one or more types of small business concerns identified in 19.000(a)(3).

(2) In the case of a solicitation of a bundled requirement that will result in a multiple-award contract, an award to one or more small businesses with a Small Business Teaming Arrangement.

(c) The specific program eligibility requirements identified in this part apply.

(d) The limitations on subcontracting and the nonmanufacturer rule (see 52.219-14 and 52.219-33) do not apply to reserves at the contract level, but shall apply to orders that are set aside under 19.111-2.

(e) The contracting officer must insert the provision at 52.219-31, Notice of Small Business Reserve, in solicitations for multiple-award contracts that have reserves.

This page intentionally left blank.

Subpart 19.2 - Evaluation and Award

19.201 Small business size and socioeconomic status determination.

19.201-1 Representations.

(a) (1) To be eligible for award as a small business concern, an offeror is required to represent in good faith—

(i) (A) That it meets the small business size standard corresponding to the North American Industry Classification System (NAICS) code identified in the solicitation; or

(B) For a multiple-award contract where there is more than one NAICS code assigned, that it meets the small business size standard for each distinct portion or category (*e.g.,* line item numbers, Special Item Numbers (SINs), sectors, functional areas, or the equivalent) for which it submits an offer. If the small business concern submits an offer for the entire multiple-award contract, it must meet the size standard for each distinct portion or category (*e.g.,* line item number, SIN, sector, functional area, or equivalent); and

(ii) The Small Business Administration (SBA) has not issued a written determination stating otherwise pursuant to 13 CFR 121.1009.

(2) To be eligible for award as a small business concern under a socioeconomic program listed in this part, the small business concern has to be certified by SBA for that program (see 19.101(a)(2)(i)).

(b) (1) A joint venture may qualify as a small business concern if the joint venture complies with the requirements of 13 CFR 121.103(h) and 13 CFR 125.8(a) and (b).

(2) A joint venture may qualify for an award under the socioeconomic programs as described in 19.105, 19.106, 19.107, and 19.108.

(c) An offeror is required to represent its size in writing to the contracting officer at the time of initial offer, (whether or not the offer includes price or the price is evaluated), including offers for—

(1) Basic ordering agreements (see part 16); and

(2) Blanket purchase agreements (BPAs) issued pursuant to part 12.

(d) To be eligible for an award of an order under a basic ordering agreement or a BPA issued pursuant to part 12 as a small business concern identified in 19.000(a)(3), the offeror must be a small business concern identified in 19.000(a)(3) at the time of award of the order.

(e) Multiple-award contract representations:

(1) A business that represents as a small business concern at the time of its initial offer for the contract (whether or not the offer includes price or the price is evaluated (see 13 CFR 121.404(a)(1)(iv)), is considered a small business concern for each order issued under the contract.

(2) A business that represents as a small business concern at the time of its initial offer for a distinct portion or category as set forth in paragraph (a)(1)(i)(B) is considered a small business concern for each order issued under that distinct portion or category.

(f) For requirements related to rerepresenting size after award, see FAR 19.301.

(g) The contracting officer must accept an offeror's representation in a specific bid or proposal that it is a small business unless (1) another offeror or interested party challenges the concern's small business representation or (2) the contracting officer has a reason to question the representation. Challenges of and questions concerning a specific representation must be referred to the SBA in accordance with 19.201-2.

(h) An offeror's representation that it is a small business is not binding on the SBA. If an offeror's small business status is challenged, the SBA will evaluate the status of the concern and make a determination, which will be binding on the contracting officer, as to whether the offeror is a small business. A concern cannot become eligible for a specific award by taking action to meet the definition of a small business concern after the SBA has determined that it is not a small business.

19.201-2 Protesting a small business representation or rerepresentation.

(a) (1) The SBA regulations on small business size and size protests are found at 13 CFR part 121.

(2) An offeror, the contracting officer, SBA, or another interested party may protest the small business representation of an offeror in a specific offer for a contract. However, for competitive 8(a) contracts, the filing of a protest is limited to an offeror, the contracting officer, or SBA. See 13 CFR 121.1001(a).

(b) Any time after offers are received by the contracting officer, or in the case of bids, opened, the contracting officer may question the small business representation of any offeror in a specific offer by filing a contracting officer's protest (see paragraph (c) of this section).

(c) (1) Any contracting officer who receives a protest, whether timely or not, or who, as the contracting officer, wishes to protest the small business representation of an offeror, or rerepresentation of a contractor, must promptly forward the protest to the SBA Government Contracting Area Director at the Government Contracting Area Office serving the area in which the headquarters of the offeror is located.

(2) The protest, or confirmation if the protest was initiated orally, must be in writing and must contain the basis for the protest with specific, detailed evidence to support the allegation that the offeror is not small. The SBA will dismiss any protest that does not contain specific grounds for the protest.

(3) The protest must include a referral letter written by the contracting officer with information pertaining to the solicitation. The referral letter must include the following information to allow SBA to determine timeliness and standing:

(i) The protest and any accompanying materials.

(ii) A copy of the size self-certification.

(iii) Identification of the applicable size standard.

(iv) A copy of or an electronic link to the solicitation and any amendments.

(v) The name, address, telephone number, email address, and fax number of the contracting officer.

(vi) Identification of the bid opening date or the date of notification provided to unsuccessful offerors.

(vii) The date the contracting officer received the protest.

(viii) A complete address and point of contact for the protested concern.

(d) In order to affect a specific solicitation, a protest must be timely. SBA's regulations on timeliness are contained in 13 CFR 121.1004. SBA's regulations on timeliness related to protests of disadvantaged status are contained in 13 CFR part 124, subpart B.

(1) To be timely, a protest by any concern or other interested party must be received by the contracting officer by the close of business of the fifth business day after—

(i) Bid opening for sealed bid acquisitions; or

(ii) Receipt of the special notification from the contracting officer (see 15.503(a)(2)) that identifies the apparently successful offeror for negotiated acquisitions, including—

(A) Partial set-asides and reserves of multiple-award contracts; and

(B) Orders that are set-aside under an unrestricted multiple-award contract (except for orders and blanket purchase agreements placed against a Federal Supply Schedule contract (see 8.4 and paragraph (d)(5) of this section)); or

(iii) Receipt of notification using other communication means when written notification is not required.

(2) A protest may be made orally if it is confirmed in writing and received by the contracting officer within the 5-day period or by letter postmarked no later than 1 business day after the oral protest.

(3) A protest may be made in writing if it is delivered to the contracting officer by hand, mail, facsimile, email, express or overnight delivery service.

(4) Except as provided in paragraph (d)(6) of this section, a protest filed by the contracting officer or SBA is always considered timely whether filed before or after award.

(5) A protest under a GSA Multiple Award Schedule will be timely if received by SBA at any time prior to the expiration of the contract period, including renewals.

(6) A protest filed before bid opening, or notification to offerors of the selection of the apparent successful offeror, will be dismissed as premature by SBA.

(e) Upon receipt of a protest from or forwarded by the Contracting Office, the SBA will—

(1) Notify the contracting officer and the protester of the date it was received, and that the size of the concern being challenged is under consideration by the SBA; and

(2) Furnish to the concern whose representation is being protested a copy of the protest and a blank SBA Form 355, Application for Small Business Determination, by certified mail, return receipt requested.

(f) (1) Within 15 business days after receipt of a protest or request for a formal size determination or within any extension of time granted by the contracting officer the SBA Area Office will determine the size status of the challenged concern. The SBA Area Office will notify the contracting officer, the protester, and the challenged concern of its decision by a verifiable means, which may include facsimile, electronic mail, or overnight delivery service.

(2) Award may be made to a protested concern after the SBA Area Office has determined that the protested concern is an eligible small business or has dismissed all protests against it.

(3) If SBA's Office of Hearings and Appeals (OHA) subsequently overturns the Area Office's determination of eligibility or dismissal, and contract award has not been made, the contracting officer may apply the OHA decision to the procurement in question.

(g) (1) After receiving a protest involving an offeror being considered for award, the contracting officer must not award the contract until the SBA has made a size determination or 15 business days have expired since SBA's receipt of a protest, whichever occurs first; however, award must not be withheld when the contracting officer determines in writing that an award must be made to protect the public interest.

(2) If SBA has not made a determination within 15 business days, or within any extension of time granted by the contracting officer, the contracting officer may award the contract after determining in writing that there is an immediate need to award the contract and that waiting until SBA makes its determination will be disadvantageous to the Government.

(3) SBA may, at its sole discretion, reopen a formal size determination to correct an error or mistake, if it is within the appeal period and no appeal has been filed with OHA or, a final decision has not been rendered by the SBA Area Office or OHA.

(4) If a protest is received that challenges the small business status of an offeror not being considered for award, the contracting officer is not required to suspend contract action. The contracting officer must forward the protest to the SBA (see paragraph (c)(1) of this section) with a notation that the concern is not being considered for award, and must notify the protester of this action.

(h) An appeal from an SBA size determination may be filed by any concern or other interested party whose protest of the small business representation of another concern has been denied by an SBA Government Contracting Area Director, any concern or other interested party that has been adversely affected by an SBA Government Contracting Area Director's decision, or the SBA Associate Administrator for the SBA program involved. The appeal must be filed with the Office of Hearings and Appeals, within the time limits and in strict accordance with the procedures contained in Subpart C of 13 CFR part 134. It is within the discretion of the SBA Judge whether to accept an appeal from a size determination. If a post-award appeal is submitted to OHA within the time limits specified in Subpart C of 13 CFR part 134, the contracting officer must consider suspending contract performance until an SBA Judge decides the appeal. SBA will inform the contracting officer of its ruling on the appeal. SBA's decision, if received before award, will apply to the pending acquisition. If the contracting officer has made a written determination in accordance with (g)(1) or (2) of this section, the contract has been awarded, the SBA rulings is received after award, and OHA finds the protested concern to be ineligible for award, the contracting officer must terminate the contract unless termination is not in the best interests of the Government, in keeping with the circumstances described in the written determination. However, the contracting officer must not exercise any options or award further task or delivery orders.

(i) SBA will dismiss untimely protests. A protest that is not timely, even though received before award, must be forwarded to the SBA Government Contracting Area Office (see paragraph (c)(1) of this section), with a notation the protest is not timely. A protest received by a contracting officer after award of a contract must be forwarded to the SBA Government Contracting Area Office with a notation that award has been made.

(j) When a concern is found to be other than small under a protest concerning a size status rerepresentation made in accordance with the clause at 52.219-28, Postaward Small Business Program Rerepresentation, a contracting officer may permit contract performance to continue, issue orders, or exercise option(s), because the contract remains a valid contract.

19.201-3 Small disadvantaged business status.

(a) The contracting officer may accept an offeror's representation that it is a small disadvantaged business (SDB) concern.

(b) The provision at 52.219-1, Small Business Program Representations is used to collect SDB data.

(c) A representation of SDB status on a Federal prime contract will be deemed a misrepresentation of SDB status if the firm does not meet the requirements of 13 CFR 124.1001.

(d) Any person or entity that misrepresents a firm's status as an SDB concern in order to obtain a contracting opportunity in accordance with section 8(d) of the Small Business Act, (15 U.S.C. 637(d)) will be subject to the penalties imposed by section 16(d) of the Small Business Act, (15 U.S.C. 645(d)), as well as any other penalty authorized by law.

(e) SBA may initiate the review of SDB status on any firm that has represented itself to be an SDB on a prime contract or subcontract to a Federal prime contract whenever it receives credible information calling into question the SDB status of the firm.

(f) Requests for an SBA review of SDB status may be forwarded to the Small Business Administration, in accordance with 13 CFR 124.1002(b).

(g) An SBA review of a subcontractor's SDB status differs from a formal protest.

19.201-4 Protesting a firm's status as a HUBZone small business concern.

(a) *Definition.* As used in this section—

Interested party has the meaning given in 13 CFR 126.103.

(b) (1) For sole-source procurements, SBA or the contracting officer may protest the prospective contractor's certified HUBZone status; for all other procurements, SBA, the contracting officer, or any other interested party may protest the apparent successful offeror's certified HUBZone status (see 13 CFR 126.800).

(2) The Director of SBA's Office of the HUBZone Program will determine whether the concern has certified HUBZone status. If SBA upholds the protest, SBA will remove the concern's HUBZone status in the Small Business Search (SBS). SBA's protest regulations are found in subpart H "Protests" at 13 CFR 126.800 through 126.805.

(c) Protests relating to small business size status are subject to the procedures of 19.201-2. An interested party seeking to protest both the small business size and HUBZone status of an apparent successful offeror shall file two separate protests. Protests relating to small business size status for the acquisition and the HUBZone eligibility requirements will be processed concurrently by SBA.

(d) (1) All protests must be in writing and must state all specific grounds for the protest (*i.e.,* why the protested concern did not meet the eligibility requirements at 13 CFR 126.200 at the time of the concern's application to SBA for certification as a HUBZone small business concern or at the time SBA certified or last recertified the concern as a HUBZone small business concern). Assertions that a protested concern is not a HUBZone small business concern, without setting forth specific facts or allegations, will not be considered by SBA (see 13 CFR 126.801(b)).

(2) Protests filed against a HUBZone joint venture must state one or, if applicable, both of the following:

(i) Why the HUBZone small business party to the joint venture did not meet the eligibility requirements at 13 CFR 126.200 at the time of its application to SBA for certification or at the time SBA certified or last recertified the concern as a HUBZone small business concern.

(ii) Why the joint venture did not meet the requirements at 13 CFR 126.616 at the time of submission of its offer for a HUBZone contract.

(3) SBA will consider protests for HUBZone set-aside or sole-source service contracts or orders, if a HUBZone prime contractor is unduly reliant on a small entity subcontractor that is not a similarly-situated entity as defined in 13 CFR 125.1, or if such subcontractor performs the primary and vital requirements of the contract. For allegations that the prime contractor is unduly reliant on an other-than-small subcontractor, see size protests at 19.201-2 and 13 CFR 121.103(h)(3), which treats the pair as joint venturers for size determination purposes (the "ostensible subcontractor rule").

(e) *Submission of a protest.*

(1) An interested party shall submit its written protest to the contracting officer—

(i) For sealed bids—

(A) By the close of business on the fifth business day after bid opening; or

(B) By the close of business on the fifth business day from the date of identification of the apparent successful offeror, if the price evaluation preference was not applied at the time of bid opening;

(ii) For negotiated acquisitions, by the close of business on the fifth business day after receipt of the special notification from the contracting officer (see part 15) of the apparently successful offeror, including—

(A) Orders placed under multiple-award contracts where the contracting officer requested rerepresentation for the order (see 13 CFR 126.801(d)(1)); and

(B) Orders set aside for HUBZone small businesses under multiple-award contracts that are not partially or totally set-aside or reserved for HUBZone small business concerns (see 13 CFR 126.801(d)(1)), except for orders and blanket purchase agreements placed against a Federal Supply Schedule contract (see part 8); or

(iii) By the close of business on the fifth business day after receipt of notification using other communication means when written notification is not required.

(2) Any protest received after the designated time limits is untimely, unless it is from the contracting officer or SBA.

(f) The contracting officer must forward all protests with a referral letter to the Director of SBA's Office of the HUBZone Program, by email to *hzprotests@sba.gov.* The referral letter must include the following—

(1) The solicitation number;

(2) The contracting officer's name and contact information;

(3) The type of HUBZone contract (*i.e.,* sole-source, set-aside, full and open competition with a HUBZone price evaluation preference, or reserve for HUBZone small business concerns under a multiple-award contract);

(4) For a procurement conducted using full and open competition with a HUBZone price evaluation preference, whether the protester's opportunity for award was affected by the preference;

(5) For a HUBZone set-aside, whether the protester submitted an offer;

(6) Whether the protested concern was the apparent successful offeror;

(7) Whether the procurement was conducted using sealed bid or negotiated procedures;

(8) The bid opening date, if applicable;

(9) The date the protester was notified of the apparent successful offeror;

(10) The date the contracting officer received the protest;

(11) The date the protested concern submitted its initial offer or quote to the contracting officer; and

(12) Whether a contract has been awarded, and if so, the date of award and contract number.

(g) SBA will notify the protester and the contracting officer of the date SBA received the protest.

(h) *Before SBA decision.*

(1) After receiving a protest involving the apparent successful offeror's status as a HUBZone small business concern, the contracting officer must either—

(i) Withhold award of the contract until SBA determines the status of the protested concern; or

(ii) Award the contract if—

(A) SBA does not issue its decision within 15 business days after receipt of the protest; and

(B) The contracting officer determines in writing that there is an immediate need to award the contract and that waiting for SBA's determination will be disadvantageous to the Government.

(2) SBA will determine the merits of the status protest within 15 business days after receipt of a protest, or within any extension of time granted by the contracting officer.

(i) *After SBA decision.* The SBA will notify the contracting officer, the protester, and the protested concern of the SBA determination. The determination is effective immediately and is final unless overturned on appeal by SBA's Associate Administrator, Office of Government Contracting and Business Development(AA/GC&BD).

(1) If the contracting officer has withheld contract award and SBA has determined that the protested concern is an eligible HUBZone or dismissed all protests against the protested concern, the contracting officer may award the contract to the protested concern. If the AA/GC&BD subsequently overturns the initial determination or dismissal, the contracting officer may apply the AA/GC&BD decision to the procurement in question.

(2) If the contracting officer has withheld award and the HUBZone Program Director has determined that the protested concern is ineligible, and a timely AA/GC&BD appeal has not been filed, then the contracting officer must not award the contract to the protested concern.

(3) If the contracting officer has made a written determination in accordance with (h)(1)(ii)(B) of this section, awarded the contract, and the Director of SBA's Office of the HUBZone Program's ruling sustaining the protest is received after award —

(i) The contracting officer must either—

(A) Terminate the contract; or

(B) *(1)* Make a written determination that termination is not in the best interests of the Government; and

(2) Not exercise any options or award further task or delivery orders under the contract.

(ii) SBA will remove the concern's designation as a certified HUBZone small business concern in the Small Business Search (SBS). The concern is not permitted to submit an offer as a HUBZone small business concern until SBA issues a decision that the ineligibility is resolved; and

(iii) After SBA updates the concern's designation as a HUBZone small business in SBS, the contracting officer must update the Federal Procurement Data System (FPDS) to reflect the final decision of the HUBZone Program Director if no appeal is filed.

(4) If the contracting officer has made a written determination in accordance with (h)(1)(ii)(B) of this section, awarded the contract, SBA has sustained the protest and determined that the concern is not a HUBZone small business, and a timely (AA/GC&BD) appeal has been filed, then the contracting officer must consider whether performance can be suspended until an (AA/GC&BD) decision is rendered.

(5) If the AA/GC&BD affirms the decision of the HUBZone Program Director, finding the protested concern is ineligible, and contract award has occurred—

(i) The contracting officer must either—

(A) Terminate the contract; or

(B) *(1)* Make a written determination that termination is not in the best interests of the Government; and

(2) Not exercise any options or award further task or delivery orders under the contract;

(ii) SBA will remove the concern's designation as a certified HUBZone small business concern in SBS. The concern is not permitted to submit an offer as a HUBZone small business concern until SBA issues a decision that the ineligibility is resolved or the AA/GC&BD finds the concern is eligible on appeal; and

(iii) After SBA updates the concern's designation as a HUBZone small business in SBS, the contracting officer must update FPDS to reflect the AA/GC&BD decision.

(6) A concern found to be ineligible during a HUBZone status protest is precluded from applying for HUBZone certification for 90 calendar days from the date of the SBA final decision.

(j) *Appeals of HUBZone status determinations.* The protested HUBZone small business concern, the protester, or the contracting officer may file appeals of protest determinations with SBA's AA/GC&BD. The AA/GC&BD must receive the appeal no later than 5 business days after the date of receipt of the protest determination. SBA will dismiss any untimely appeal.

(k) *The appeal must be in writing.* The appeal must identify the protest determination being appealed and must set forth a full and specific statement as to why the decision is erroneous or what significant fact the HUBZone Program Director failed to consider.

(l) (1) The party appealing the decision must provide notice of the appeal to—

(i) The contracting officer; and

(ii) The protested HUBZone small business concern or the original protester, as appropriate.

(2) SBA will not consider additional information or changed circumstances that were not disclosed at the time of the HUBZone Program Director's determination or that are based on disagreement with the findings and conclusions contained in the determination.

(m) The AA/GC&BD will make its decision within 5 business days of the receipt of the appeal, if practicable, and will base its decision only on the information and documentation in the protest record as supplemented by the appeal. SBA will provide a copy of the decision to the contracting officer, the protester, and the protested HUBZone small business concern. The SBA decision, if received before award, will apply to the pending acquisition. The AA/GC&BD's decision is the final decision.

19.201-5 Protesting a firm's status as a service-disabled veteran-owned small business concern.

(a) *Definition. Interested party,* as used in this section, has the meaning given in 13 CFR 134.1002(b).

(b) *General.* (1) For sole source acquisitions, the contracting officer, the Department of Veterans Affairs (VA), or SBA may protest the apparently successful offeror's service-disabled veteran-owned small business (SDVOSB) status. For all other acquisitions, any interested party may protest the apparently successful offeror's SDVOSB status.

(2) SBA's protest regulations are found in 13 CFR 128.500 and 13 CFR part 134.

(c) Protests relating to small business size status are subject to the procedures of 19.201-2. An interested party seeking to protest both the small business size and SDVOSB status of an apparent successful offeror shall file two separate protests.

(d) All protests must be in writing and must state all specific grounds for the protest.

(1) OHA will consider protests challenging the SDVOSB status or the ownership and control of a concern if—

(i) For status protests, the protester presents evidence supporting the contention that the owner(s) cannot provide documentation from the VA to show that they meet the definition of "service-disabled veteran" or "service-disabled veteran with a permanent and severe disability" as set forth in 13 CFR 128.102; or

(ii) For ownership and control protests, the protester presents evidence that the concern is not 51 percent owned and controlled by one or more service-disabled veterans. In the case of a veteran with a permanent and severe disability, the protester presents evidence that the concern is not controlled by the veteran, spouse, or permanent caregiver of such veteran; or

(iii) For set-aside or sole-source service contract or order ostensible subcontractor protests, the protester presents credible evidence of the alleged undue reliance on a small entity subcontractor that is not a similarly-situated entity as defined in 13 CFR 125.1, or credible evidence that the small non-similarly situated entity is performing the primary and vital requirements of the contract. For allegations that the prime contractor is unduly reliant on an other-than-small subcontractor, see size protests at 19.201-2, and 13 CFR 121.103(h)(3), which treats the pair as joint venturers for size determination purposes (the "ostensible subcontractor rule"); or

(iv) For joint venture protests, the protester presents evidence that the managing SDVOSB joint venture partner does not meet the requirements at 13 CFR 128.402.

(2) Assertions that a protested concern is not a SDVOSB concern, without setting forth specific facts or allegations, will not be considered by OHA (see 13 CFR 134.1005)

(e) *Protest by an interested party.* (1) An interested party (except contracting officers should see paragraph (f)(1) of this section) shall submit its protest to the contracting officer—

(i) To be received by close of business on the fifth business day after bid opening for sealed bid acquisitions;

(ii) To be received by close of business on the fifth business day after receipt of the special notification from the contracting officer (see part 15) that identifies the apparently successful offeror for negotiated acquisitions, including—

(A) Orders placed under multiple-award contracts where the contracting officer requested rerepresentation for the order (see 13 CFR 134.1004(a)(3)(ii)); and

(B) Orders set aside for service-disabled veteran-owned small businesses under multiple-award contracts that are not partially or totally set aside or reserved for SDVOSB concerns (see 13 CFR 134.1004(a)(3)(i)), except for orders and blanket purchase agreements placed against a Federal Supply Schedule contract (see part 8);

(iii) To be received by close of business on the fifth business day after notification by the contracting officer of the intended awardee for an order that is set aside for SDVOSBs under a multiple-award contract that was not totally or partially set aside or reserved for SDVOSB concerns. This paragraph (e)(1)(iii) does not apply to an order issued against a Federal Supply Schedule (FSS) contract;

(iv) To be received by the close of the fifth business day after notification by the contracting officer of the intended awardee for a blanket purchase agreement that is set aside for SDVOSBs under a multiple-award contract that was not totally or partially set aside or reserved for SDVOSB concerns. This paragraph (e)(1)(iv) does not apply to a blanket purchase agreement issued under a FSS contract; or

(v) To be received by the close of business on the fifth business day after receipt of notification using other communication means when written notification is not required.

(2) Any protest received after the designated time limits is untimely, except—

(i) The VA or SBA may file an SDVOSB status protest at any time; and

(ii) The contracting officer, SBA, or VA may file an SDVOSB status protest at any time after the apparent awardee has been identified or after bid opening, whichever applies.

(f) *Forwarding protests to SBA.* (1) The contracting officer must forward all protests to the U.S. Small Business Administration, Office of Hearings and Appeals, 409 Third Street SW, Washington, DC 20416, or by email at *OHAfilings@sba.gov,* marked “Attn: SDVOSB Status Protest” (see 13 CFR 134.1004(c)).

(2) The protest shall include a referral letter written by the contracting officer with information pertaining to the solicitation. The referral letter must include the following information to allow OHA to determine timeliness and standing:

(i) The solicitation number (or an electronic link to or a paper copy of the solicitation).

(ii) The name, address, telephone number, and email address of the contracting officer.

(iii) Whether the contract was sole-source or set-aside.

(iv) Whether the protestor submitted an offer.

(v) Whether the protested concern was the apparent successful offeror.

(vi) When the protested concern submitted its initial offer that included price.

(vii) Whether the acquisition was conducted using sealed bid or negotiated procedures.

(viii) The bid opening date, if applicable.

(ix) The date the contracting officer received the protest.

(x) The date the protestor received notification about the apparent successful offeror, if applicable.

(xi) Whether a contract has been awarded.

(g) *Notification by OHA.* OHA will notify the protester, the protested concern, SBA's Director of Government Contracting (D/GC), SBA Counsel, and the contracting officer of the date OHA received the protest.

(h) *Before OHA decision.* (1) After receiving a protest involving the apparent successful offeror's status as an SDVOSB concern, the contracting officer must either—

(i) Withhold award of the contract until OHA determines the status of the protested concern; or

(ii) Award the contract after receipt of the protest but before OHA issues its decision if the contracting officer determines in writing that an award must be made to protect the public interest. The contracting officer must notify OHA and SBA D/GC in writing of the determination and a copy must be included in the contract file.

(2) OHA will determine the merits of the status protest.

(3) OHA does not have a standard timeline for issuing decisions.

(i) *After OHA decision.* OHA will notify the contracting officer, the protester, and the protested concern of its decision. The decision is effective immediately and is final.

(1) If the contracting officer has withheld contract award and OHA has determined that the protested concern is an eligible SDVOSB or dismissed all protests against the protested concern, then the contracting officer may award the contract to the protested concern.

(2) If the contracting officer has withheld contract award, and OHA has sustained the protest and determined that the concern is not an SDVOSB, then the contracting officer must not award the contract to the protested concern.

(3) If the contracting officer has made a written determination in accordance with paragraph (h)(1)(ii) of this section, the contract has been awarded, and the OHA decision to sustain the protest is received after award—

(i) The contracting officer must terminate the contract, unless the contracting officer has made a written determination that termination is not in the best interests of the Government. However, the contracting officer must not exercise any options or award further task or delivery orders;

(ii) The contracting officer must update FPDS to reflect the final OHA decision; and

(iii) The concern must remove its designation in the System for Award Management (SAM) as an SDVOSB concern within 2 days of the OHA decision. SBA will update the concern's SDVOSB status in SAM if the concern fails to do so. The concern shall not submit an offer as a SDVOSB concern or an SDVOSB concern eligible under the SDVOSB Program, until the concern is designated as an SDVOSB by SBA in the SBA Veteran Small Business Certification Program database at *https://veterans.certify.sba.gov.*

(4) A concern found to be ineligible may not submit future offers as an SDVOSB concern until the concern is designated as an SDVOSB by SBA in the SBA Veteran Small Business Certification Program database at *https://veterans.certify.sba.gov.*

19.201-6 Protesting a firm's status as an economically disadvantaged women-owned small business concern or women-owned small business concern eligible under the Women-Owned Small Business Program.

(a) *Definition. Interested party,* as used in this section, has the meaning given in 13 CFR 127.102.

(b) (1) For sole source acquisitions, the contracting officer or SBA may protest the offeror's status as an economically disadvantaged women-owned small business (EDWOSB) concern or as a WOSB concern eligible under the WOSB Program. For all other acquisitions, an interested party (see 13 CFR 127.102) may protest the apparent successful offeror's EDWOSB or WOSB status.

(2) SBA's protest regulations are found in subpart F “Protests” at 13 CFR 127.600 through 127.605.

(c) Protests relating to small business size status are subject to the procedures of 19.201-2. An interested party seeking to protest both the small business size and WOSB or EDWOSB status of an apparent successful offeror shall file two separate protests.

(d) All protests shall be in writing and must state all specific grounds for the protest.

(1) SBA will consider protests challenging the status of a concern if—

(i) The protest presents evidence that the concern is not at least 51 percent owned and controlled by one or more women who are United States citizens;

(ii) The protest presents evidence that the concern is not at least 51 percent owned and controlled by one or more economically disadvantaged women who are United States citizens, when it is in connection with an EDWOSB contract; or

(iii) For WOSB or EDWOSB set-aside or sole-source service contracts or orders, the protest presents evidence that the prime contractor is unduly reliant on a small entity subcontractor that is not a similarly-situated entity as defined in 13 CFR 125.1, or a protest alleging that such subcontractor is performing the primary and vital requirements of a set-aside or sole-source WOSB or EDWOSB contract. For allegations that the prime contractor is unduly reliant on an other-than-small subcontractor, see size protests at 19.201-2, and 13 CFR 121.103(h)(3), which treats the pair as joint venturers for size determination purposes (the “ostensible subcontractor rule”).

(2) Assertions that a protested concern is not an EDWOSB or WOSB concern eligible under the WOSB Program, without setting forth specific facts or allegations, will not be considered by SBA (see 13 CFR 127.603(a)).

(e) *Protest by an interested party.* (1) An offeror shall submit its protest to the contracting officer—

(i) To be received by the close of business by the fifth business day after bid opening for sealed bid acquisitions;

(ii) To be received by the close of business by the fifth business day after receipt of the special notification from the contracting officer (see part 15) that identifies the apparently successful offeror for negotiated acquisitions including—

(A) Orders placed under multiple-award contracts where the contracting officer requested rerepresentation for the order (see 13 CFR 127.603(c)(1)); and

(B) Orders set aside for EDWOSB or WOSB concerns under multiple-award contracts that are not partially or totally set aside or reserved for EDWOSB or WOSB concerns (see 13 CFR 127.603(c)(1)), except for orders and blanket purchase agreements placed against a Federal Supply Schedule contract (see part 8); or

(iii) To be received by the close of business on the fifth business day after receipt of notification using other communication means when written notification is not required.

(2) Any protest received after the designated time limit is untimely, unless it is from the contracting officer or SBA.

(f) (1) The contracting officer must forward all protests to SBA. The protests are to be submitted to SBA's Director for Government Contracting by email at *wosbprotest@sba.gov.*

(2) The protest shall include a referral letter written by the contracting officer with information pertaining to the solicitation. The referral letter must include the following information to allow SBA to determine timeliness and standing:

(i) The solicitation number or electronic link to or a paper copy of the solicitation.

(ii) The name, address, telephone number, email address, and facsimile number of the contracting officer.

(iii) Whether the protestor submitted an offer.

(iv) Whether the protested concern was the apparent successful offeror.

(v) When the protested concern submitted its offer.

(vi) Whether the acquisition was conducted using sealed bid or negotiated procedures.

(vii) The bid opening date, if applicable.

(viii) The date the contracting officer received the protest.

(ix) The date the protestor received notification about the apparent successful offeror, if applicable.

(x) Whether a contract has been awarded.

(g) SBA will notify the protester and the contracting officer of the date SBA received the protest.

(h) *Before SBA decision.* (1) After receiving a protest involving the apparent successful offeror's status as an EDWOSB or WOSB concern eligible under the WOSB Program, the contracting officer must either—

(i) Withhold award of the contract until SBA determines the status of the protested concern; or

(ii) Award the contract after receipt of the protest but before SBA issues its decision if the contracting officer determines in writing that an award must be made to protect the public interest.

(2) SBA will determine the merits of the status protest within 15 business days after receipt of a protest, or within any extension of that time granted by the contracting officer.

(3) If SBA does not issue its determination within 15 business days, or within any extension of time granted, the contracting officer may award the contract after determining in writing that there is an immediate need to award the contract and that waiting until SBA makes its determination will be disadvantageous to the Government. This determination must be provided to the SBA Director for Government Contracting and a copy must be included in the contract file.

(i) *After SBA decision.* SBA will notify the contracting officer, the protester, and the protested concern of its determination. The determination is effective immediately and is final unless overturned on appeal by OHA pursuant to 13 CFR part 134.

(1) If the contracting officer has withheld contract award and SBA has denied or dismissed the protest, the contracting officer may award the contract to the protested concern. If OHA subsequently overturns the SBA Director for Government Contracting's determination or dismissal, the contracting officer may apply the OHA decision to the procurement in question.

(2) If the contracting officer has withheld contract award, SBA has sustained the protest and determined that the concern is not eligible under the WOSB Program, and no OHA appeal has been filed, then the contracting officer must not award the contract to the protested concern.

(3) If the contracting officer has made a written determination in accordance with (h)(1)(ii) or (h)(3) of this section, awarded the contract, and SBA's ruling is received after award, and no OHA appeal has been filed, then—

(i) The contracting officer must terminate the contract, unless the contracting officer has made a written determination that termination is not in the best interests of the Government. However, the contracting officer must not exercise any options or award further task or delivery orders;

(ii) The contracting officer must update the FPDS to reflect the final SBA decision; and

(iii) SBA will remove the concern's designation in the Small Business Search (SBS) as an EDWOSB or WOSB concern eligible under the WOSB Program. The concern shall not submit an offer as an EDWOSB concern or WOSB concern eligible under the WOSB Program, until SBA issues a decision that the ineligibility is resolved.

(4) If the contracting officer has made a written determination in accordance with (h)(1)(ii) or (h)(3) of this section, contract award has occurred, SBA has sustained the protest and determined that the concern is not eligible under the WOSB Program, and a timely OHA appeal has been filed, then the contracting officer must consider whether performance can be suspended until an OHA decision is rendered.

(5) If OHA affirms the SBA Director for Government Contracting's determination finding the protested concern is ineligible, then—

(i) The contracting officer must terminate the contract, unless the contracting officer has made a written determination that termination is not in the best interests of the Government. However, the contracting officer must not exercise any options or award further task or delivery orders;

(ii) The contracting officer must update the FPDS to reflect OHA's decision; and

(iii) SBA will remove the concern's designation in SBS as an EDWOSB or WOSB concern eligible under the WOSB Program. The concern shall not submit an offer as an EDWOSB concern or WOSB concern eligible under the WOSB Program, until SBA issues a decision that the ineligibility is resolved or OHA finds the concern is eligible on appeal.

(j) *Appeals of EDWOSB or WOSB concerns eligible under the WOSB Program status determinations.*

(1) The protested EDWOSB concern or WOSB concern eligible under the WOSB program, the protester, or the contracting officer may file an appeal of a WOSB or EDWOSB status protest determination with OHA.

(2) OHA must receive the appeal no later than 10 business days after the date of receipt of the protest determination. SBA will dismiss an untimely appeal.

(3) See subpart G "Rules of Practice for Appeals From Women-Owned Small Business Concerns (WOSB) and Economically Disadvantaged WOSB Concern (EDWOSB) Protests" at 13 CFR 134.701 through 134.715 for SBA's appeals regulations.

(k) *The appeal must be in writing.* The appeal must identify the protest determination being appealed and must set forth a full and specific statement as to why the EDWOSB concern or WOSB concern eligible under the WOSB program protest determination is alleged to be based on a clear error of fact or law, together with an argument supporting such allegation.

(l) The party appealing the decision must provide notice of the appeal to—

(1) The contracting officer;

(2) Director, Office of Government Contracting, U.S. Small Business Administration, by email at *wosbprotest@sba.gov*;

(3) The protested EDWOSB concern or WOSB concern eligible under the WOSB program, or the original protester, as appropriate; and

(4) SBA's Office of General Counsel, Associate General Counsel for Procurement Law, U.S. Small Business Administration, 409 Third Street SW., Washington, DC 20416, or email at *OPLService@sba.gov.*

(m) OHA will make its decision within 15 business days of the receipt of the appeal, if practicable. SBA will provide a copy of the decision to the contracting officer, the protester, and the protested EDWOSB concern or WOSB concern eligible under the WOSB program. The OHA decision is the final agency decision and is binding on the parties.

19.201-7 Protesting an 8(a) participant's eligibility or size status.

(a) The eligibility of an 8(a) participant for a sole source or competitive 8(a) requirement may not be challenged by another 8(a) participant or any other party, either to SBA or any administrative forum as part of a bid or other contract protest (see 13 CFR 124.517).

(b) The size status of an 8(a) participant nominated for an 8(a) sole source contract may not be protested by another 8(a) participant or any other party.

(c) The size status of the apparent successful offeror for competitive 8(a) awards may be protested. The filing of a size status protest is limited to—

(1) Any offeror whom the contracting officer has not eliminated for reasons unrelated to size;

(2) The contracting officer; or

(3) The SBA District Director in either the district office serving the geographical area in which the contracting activity is located or the district office that services the apparent successful offeror, or the Associate Administrator for Business Development.

(d) Protests of competitive 8(a) awards shall follow the procedures at 19.201-2. For additional information, refer to 13 CFR 121.1001.

(e) If the size status of an 8(a) participant nominated for award of an 8(a) sole source contract is called into question, a request for a formal size determination may be submitted to SBA pursuant to 13 CFR 121.1001(b)(2)(ii) by—

(1) The 8(a) participant nominated for award of the particular sole source contract;

(2) The contracting officer who has been delegated SBA's 8(a) contract execution functions, where applicable, or the SBA program official with authority to execute the 8(a) contract;

(3) The SBA District Director in the district office that services the 8(a) participant or the Associate Administrator for Business Development; or

(4) The SBA Inspector General.

(f) SBA's Government Contracting Area Director will issue a formal size determination within 15 business days, if possible, after SBA receives the request for a formal size determination.

(g) An appeal of an SBA size determination shall follow the procedures at 19.201-2.

19.202 Encouraging small business responses.

Contracting officers must provide to any small business concern, upon its request—

(a) A copy of solicitations with respect to any contract to be awarded;

(b) The name and telephone number of an agency contact to answer questions related to the prospective contract; and

(c) Adequate citations to each major Federal law or agency rule with which the business concern must comply in performing the contract, other than laws or agency rules with which the small business must comply even when doing business with entities other than the Government.

19.203 Equal low bids.

(a) In the event of equal low bids (see 14.408-6), make awards first to small business concerns that are also labor surplus area concerns, and second to small business concerns that are not also labor surplus area concerns.

(b) Insert the provision at 52.219-2, Equal Low Bids, in solicitations when contracting by sealed bidding and—

(1) The contract is for supplies to be delivered or services to be performed in the United States or its outlying areas; or

(2) The contracting officer has applied this part in accordance with 19.000(b)(1)(ii).

19.204 Certificate of Competency.

A Certificate of Competency (COC) is the certificate SBA issues stating that, for the purpose of receiving and performing a specific Government contract, the holder is responsible with respect to all elements of responsibility, including, but not limited to, capability, competency, capacity, credit, integrity, perseverance, tenacity, and limitations on subcontracting.

(a) The COC program empowers SBA to certify to Government contracting officers regarding all elements of responsibility of any small business concern to receive and perform a specific Government contract. The COC program does not extend to questions concerning regulatory requirements that other Federal agencies impose and enforce.

(b) The COC program applies to all Government acquisitions except for 8(a) sole-source awards. If a contracting officer determines an apparent successful small business offeror to be nonresponsible, the contracting officer must refer that small business to SBA for a possible COC, even if the next acceptable offer is from a small business. Contracting officers, including those located overseas, must comply with this section for U.S. small business concerns.

(c) When a solicitation requires a small business to comply with the limitations on subcontracting, a contracting officer's finding that a small business cannot comply with the limitation must be treated as an element of responsibility and must be subject to the COC process.

(d) When a contracting officer determines and documents that an apparent successful small business offeror lacks one or more elements of responsibility listed in the introductory text of this section (for sureties see 28.101-3(f) and 28.203-1(e)), the contracting officer must—

(1) Withhold contract award; and

(2) Refer the matter to the appropriate SBA Government Contracting Area Office (Area Office) serving the area where the offeror’s headquarters is located, in accordance with agency procedures.

(e) The referral must include—

(1) A notice that a small business concern has been determined to be nonresponsible, specifying the element(s) of responsibility the contracting officer found lacking; and

(2) If applicable, a copy of the following:

(i) Solicitation.

(ii) Final offer submitted by the apparent successful offeror whose responsibility is at issue.

(f) The contracting officer must withhold award for a period of 15 business days following receipt by the appropriate SBA Area Office of a referral that includes all required documentation.

(g) In order to determine whether to issue or deny a COC, SBA conducts a review in accordance with 13 CFR 125.5. At the completion of the COC review process, SBA will notify the concern and the contracting officer that the COC is denied or is being issued.

(h) If new information causes the contracting officer to determine that the concern referred to the SBA is actually responsible to perform the contract, and award has not already been made under paragraph (j) of this section, the contracting officer must—

(1) Reverse the determination of nonresponsibility;

(2) Notify the SBA of this action;

(3) Withdraw the referral; and

(4) Proceed to award the contract.

(i) SBA COCs are final with respect to all elements of responsibility of prospective small business contractors. An SBA-certified concern must not be required to meet any other requirements of responsibility. Where SBA issues a COC, the contracting officer may decide not to award to that offeror for reasons unrelated to responsibility.

(j) The contracting officer must award the contract to another appropriately selected and responsible offeror if SBA has not issued a COC within 15 business days after receiving the referral.

19.205 Evaluating and awarding set-asides.

(a) If the contracting officer receives only one acceptable offer from a responsible small business concern in response to a set-aside, the contracting officer should make an award to that firm.

(b) If the contracting officer receives no acceptable offers from responsible small business concerns for a small business set-aside under 19.104, the set-aside must be withdrawn and the requirement, if still valid, must be resolicited on an unrestricted basis.

(c) Except as authorized by law, do not award a contract as a small business or socioeconomic status category set-aside if the cost to the awarding agency exceeds the fair market price. The fair market price is the price achieved in accordance with the reasonable price guidelines in 15.404-1(b).

(d) (1) If, before award of a contract involving a small business set-aside, the contracting officer considers that award would be detrimental to the public interest (e.g., payment of more than a fair market price), the contracting officer may withdraw the small business set-aside.

(2) The contracting officer must prepare a written statement supporting any withdrawal or modification of a small business set-aside and include it in the contract file.

(3) If a small business set-aside acquisition is not awarded, the determination to set the acquisition aside is automatically dissolved. The required supplies and/or services for which no award was made may be acquired by using other methods, as appropriate.

19.206 Evaluating small business subcontracting plans.

19.206-1 Types of subcontracting plans.

(a) Contractors may establish, on a plant or division-wide basis, a master subcontracting plan (see 19.001) that contains all the elements required by the clause at 52.219-9, Small Business Subcontracting Plan, except goals. Master subcontracting plans shall be effective for a 3-year period after approval by the contracting officer; however, it is incumbent upon contractors to maintain and update master subcontracting plans. Changes required to update master subcontracting plans are not effective until approved by the contracting officer. A master subcontracting plan, when incorporated in an individual plan, shall apply to that contract throughout the life of the contract.

(b) An individual subcontracting plan contains all the elements required by the clause at 52.219-9, Small Business Subcontracting Plan, and separate statements and goals based on total subcontract dollars for the basic contract and for each option.

(c) A commercial subcontracting plan is the preferred type of subcontracting plan for contractors furnishing commercial products and commercial services. The subcontracting goals established for a commercial plan shall include all indirect costs with the exception of those such as the following: Employee salaries and benefits; payments for petty cash; depreciation; interest; income taxes; property taxes; lease payments; bank fees; fines, claims, and dues; original equipment manufacturer relationships during warranty periods (negotiated up front with the product); utilities and other services purchased from a municipality or an entity solely authorized by the municipality to provide those services in a particular geographical region; and philanthropic contributions. Once a contractor's commercial plan has been approved, the Government must not require another subcontracting plan from the same contractor while the plan remains in effect, as long as the product or service being provided by the contractor continues to meet the definition of a commercial product or commercial service. The contractor shall—

(1) Submit the commercial plan to either the first contracting officer awarding a contract subject to the plan during the contractor's fiscal year, or, if the contractor has ongoing contracts with commercial plans, to the contracting officer responsible for the contract with the latest completion date. The contracting officer must negotiate the commercial plan for the Government. The approved commercial plan shall remain in effect during the contractor's fiscal year for all Government contracts in effect during that period;

(2) Submit a new commercial plan, 30 working days before the end of the Contractor's fiscal year, to the contracting officer responsible for the uncompleted Government contract with the latest completion date. The contractor must provide to

each contracting officer responsible for an ongoing contract subject to the plan, the identity of the contracting officer that will be negotiating the new plan;

(3) When the new commercial plan is approved, provide a copy of the approved plan to each contracting officer responsible for an ongoing contract that is subject to the plan; and

(4) Comply with the reporting requirements stated in the clause at 52.219-9, Small Business Subcontracting Plan, by submitting one SSR that includes all indirect costs, except as described in paragraph (d) of this section, in SPR, for all contracts covered by its commercial plan. This report will be monitored in SPR by the agency that approved the plan. The report shall be submitted within 45 days after the end of the Government's fiscal year.

19.206-2 Elements of the subcontracting plan.

(a) Each subcontracting plan required under 19.109(a) must include the elements listed in paragraph (d) of the clause at 52.219-9, Small Business Subcontracting Plan.

(b) According to 15 U.S.C. 657r(a), a mentor with an SBA-approved mentor-protégé agreement (see 13 CFR 125.9) that awards a subcontract to its protégé may apply the costs incurred for training it provides to its protégé toward its subcontracting plan goals, if the protégé is a covered territory business or the protégé's principal office is located in the Commonwealth of Puerto Rico.

19.206-3 Reviewing the subcontracting plan.

The contracting officer must review the subcontracting plan for adequacy, ensuring that it includes the required information, goals, and assurances (see paragraph (d) of the clause at 52.219-9).

(a) No detailed standards apply to every subcontracting plan. Instead, the contracting officer must consider each plan in terms of the circumstances of the particular acquisition, including—

(1) Previous involvement of small business concerns as prime contractors or subcontractors in similar acquisitions;

(2) Proven methods of involving small business concerns as subcontractors in similar acquisitions; and

(3) The relative success of methods the contractor intends to use to meet the goals and requirements of the plan, as evidenced by records maintained by contractors.

(b) If, under a sealed bid solicitation, a bidder submits a plan that does not cover each of the required elements (see paragraph (d) of the clause at 52.219-9), the contracting officer must advise the bidder of the deficiency and request submission of a revised plan by a specific date. If the bidder does not submit a plan that includes the required elements by the deadline, the bidder is ineligible for award. If the plan, although responsive, indicates the bidder's intention not to comply with its obligations under the clause at 52.219-8, Utilization of Small Business Concerns, the contracting officer may find the bidder nonresponsible.

(c) In negotiated acquisitions, the contracting officer must determine whether the plan is acceptable based on the negotiation of each of the required elements of the plan (see paragraph (d) of the clause at 52.219-9). Subcontracting goals should be set at a level that the parties reasonably expect can result from the offeror's good faith efforts to use small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontractors as much as possible. The contracting officer must take particular care to ensure that the offeror has not submitted unreasonably low goals to minimize exposure to liquidated damages and to avoid the administrative burden of demonstrating good faith efforts. Also, the contracting officer should pay close attention to identifying steps that, if taken, would be considered a good faith effort (see 19.302-2(b) and (c)). Do not negotiate increased goals if a higher goal will significantly increase the Government's cost or make it hard to meet acquisition objectives. An incentive subcontracting clause (see 52.219-10, Incentive Subcontracting Program), may be used when additional and unique contract effort, such as providing technical assistance, could significantly increase subcontract awards to small business, small disadvantaged business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, or women-owned small business concerns.

(d) To determine whether a proposed subcontracting plan is acceptable, the contracting officer should:

(1) Find information about, and evaluate, the offeror's past performance in awarding subcontracts for the same or similar products or services to small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns. If information is not available on a specific type of product or service, evaluate the offeror's overall past performance and consider the performance of other contractors on similar efforts.

(2) According to 15 U.S.C. 637(d)(4)(F)(iii), ensure that the goals offered are attainable in relation to—

(i) The subcontracting opportunities available to the contractor, commensurate with the efficient and economical performance of the contract;

(ii) The pool of eligible subcontractors available to fulfill the subcontracting opportunities; and

(iii) The actual performance of such contractor in fulfilling the subcontracting goals specified in prior plans.

(3) Ensure that the subcontracting goals are consistent with the offeror's certified cost or pricing data or data other than certified cost or pricing data.

(4) Evaluate the offeror's make-or-buy policy or program to ensure that it does not conflict with the offeror's proposed subcontracting plan and is in the Government's interest. If the contract involves products or services that are particularly specialized or not generally available in the commercial market, consider the offeror's current capacity to perform the work and the possibility of reduced subcontracting opportunities.

(5) Evaluate subcontracting potential, considering the offeror's make-or-buy policies or programs, the nature of the supplies or services to be subcontracted, the known availability of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in the geographical area where the work will be performed, and the potential contractor's long-standing contractual relationship with its suppliers.

(6) Advise the offeror of available sources of information on potential small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontractors, as well as any specific concerns known to be potential subcontractors. If the offerors proposed goals are questionable, the contracting officer must emphasize that the information should be used to develop realistic and acceptable goals.

(7) Obtain advice and recommendations from the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.102(b)) and the agency small business specialist.

(e) In making an award that requires a subcontracting plan, the contracting officer must:

(1) Consider the contractor's compliance with the subcontracting plans submitted on previous contracts as a factor to determine contractor responsibility.

(2) Assure that a subcontracting plan was submitted when required.

(3) Notify the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.102(b)) of the opportunity to review the proposed contract (including the plan and supporting documentation). The notice must be issued in sufficient time to provide the representative a reasonable time to review the material and submit advisory recommendations to the contracting officer. Failure of the representative to respond in a reasonable period of time shall not delay contract award.

(4) Determine any fee that may be payable if an incentive is used in conjunction with the subcontracting plan.

(5) Ensure that an acceptable plan is incorporated into and made a material part of the contract.

(f) Letter contracts and similar undefinitized contracts, which would otherwise meet the requirements of 19.109(a), must contain at least a preliminary basic plan addressing the requirements of paragraph (d) of the clause at 52.219-9 and in such cases require the negotiation of the final plan within 90 days after award or before definitization, whichever occurs first.

19.207 Evaluating offers using the HUBZone price evaluation preference.

The contracting officer must give offers from HUBZone small business concerns a price evaluation preference by adding a factor of 10 percent to all offers, except—

(a) Offers from HUBZone small business concerns that have not waived the evaluation preference; or

(b) Otherwise successful offers from small business concerns.

19.208 Evaluating and awarding under the 8(a) Program.

19.208-1 Procedures for competitive 8(a).

(a) Offers must be solicited from those sources identified in accordance with 19.108-4(c).

(b) The SBA will determine the eligibility of the apparent successful offeror. Eligibility is based on section 8(a) program criteria (see 13 CFR 124.501(g) and 19.208-6(c)).

(1) In either negotiated or sealed bid competitive 8(a) acquisitions SBA will determine the eligibility of the apparent successful offeror and advise the contracting office within 5 working days after receipt of the contracting office's request for an eligibility determination.

(i) If SBA determines that the apparent successful offeror is ineligible, the contracting officer will then send to SBA the identity of the next highest evaluated offeror for an eligibility determination. The process is repeated until SBA determines that an identified offeror is eligible for award.

(ii) If the contracting officer believes that the apparent successful offeror (or the offeror SBA has determined eligible for award) is not responsible to perform the contract, the contracting officer must refer the matter to SBA for Certificate of Competency consideration under 19.204.

(2) For a two-step design-build procurement, an 8(a) participant must be eligible for award under the 8(a) program on the initial date for receipt of phase one offers specified in the solicitation (see 13 CFR 124.507(d)(3)).

(3) In any case in which an 8(a) participant is determined to be ineligible, SBA will notify the 8(a) participant of that determination.

(c) Any party with information questioning the eligibility of an 8(a) participant to continue participation in the 8(a) program or for the purposes of a specific 8(a) award may submit such information to the SBA in accordance with 13 CFR 124.112(c).

(d) (1) SBA does not certify joint ventures, as entities, into the 8(a) program.

(2) A contracting officer may consider a joint venture for contract award. SBA does not approve joint ventures for competitive awards (but see 13 CFR 124.501(g) for SBA's determination of participant eligibility).

19.208-2 Contract negotiation.

(a) *Sole source*.

(1) The SBA may not accept for negotiation a sole-source 8(a) contract that exceeds $30 million unless the requesting agency has completed a justification in accordance with the requirements of 6.104.

(2) The SBA is responsible for initiating negotiations with the agency within the time established by the agency. If the SBA does not initiate negotiations within the agreed time and the agency cannot allow additional time, the agency may, after notifying the SBA, proceed with the acquisition from other sources.

(3) The SBA should participate, whenever practicable, in negotiating the contracting terms. When mutually agreeable, the SBA may authorize the contracting officer to negotiate directly with the 8(a) participant. Whether or not direct negotiations take place, the SBA is responsible for approving the resulting contract before award.

(4) An 8(a) participant must represent that it is a small business in accordance with the size standard corresponding to the NAICS code assigned to the contract.

(5) A concern must be a current participant in the 8(a) program at the time of an 8(a) sole-source award.

(6) An 8(a) participant owned by an Alaska Native Corporation, Indian Tribe, Native Hawaiian Organization, or Community Development Corporation may not receive an 8(a) sole-source award that is a follow-on contract to an 8(a) contract, if the predecessor contract was performed by another 8(a) participant (or former 8(a) participant) owned by the same Alaska Native Corporation, Indian Tribe, Native Hawaiian Organization, or Community Development Corporation. See 13 CFR 124.109 through 124.111.

(b) *Competitive*. In competitive 8(a) acquisitions, including follow-on 8(a) acquisitions, subject to part 15, the contracting officer conducts negotiations directly with the competing 8(a) participants. Conducting competitive negotiations among eligible 8(a) participants prior to SBA's formal acceptance of the acquisition for the 8(a) program may be grounds for the SBA's not accepting the acquisition for the 8(a) program (see 19.108-4).

19.208-3 Pricing the 8(a) contract.

(a) The contracting officer must price the 8(a) contract in accordance with subpart 15.4. If required by subpart 15.4, the SBA shall obtain certified cost or pricing data from the 8(a) contractor. If the SBA requests audit assistance to determine the proposed price to be fair and reasonable in a sole source acquisition, the contracting activity must furnish it to the extent it is available.

(b) An 8(a) contract, sole source or competitive, may not be awarded if the price of the contract results in a cost to the contracting agency which exceeds a fair market price.

(c) If requested by the SBA, the contracting officer must make available the data used to estimate the fair market price within 10 working days.

(d) The negotiated contract price and the estimated fair market price are subject to the concurrence of the SBA. In the event of a disagreement between the contracting officer and the SBA, the SBA may appeal in accordance with 19.208-8.

19.208-4 Estimating the fair market price.

(a) The contracting officer must estimate the fair market price of the work to be performed by the 8(a) contractor.

(b) In estimating the fair market price for an acquisition other than those covered in paragraph (c) of this section, the contracting officer must use cost or price analysis and consider commercial prices for similar products and services, available in-house cost estimates, data (including certified cost or pricing data) submitted by the SBA or the 8(a) contractor, and data obtained from any other Government agency.

(c) In estimating a fair market price for a repeat purchase, the contracting officer must consider prices for similar products and services, recent award prices for the same items or work if there is comparability in quantities, conditions, terms, and performance times. The estimated price should be adjusted to reflect differences in specifications, plans, transportation costs, packaging and packing costs, and other circumstances. Price indices may be used as guides to determine the changes in labor and material costs. Comparison of commercial prices for similar items may also be used.

19.208-5 Preaward survey.

The contracting officer should request a preaward survey of the 8(a) participant whenever considered useful. If the results of the preaward survey or other information available to the contracting officer raise substantial doubt as to the participant's ability to perform, the contracting officer must refer the matter to SBA for Certificate of Competency consideration under 19.204.

19.208-6 Effect of exiting the 8(a) program on eligibility for award.

(a) Except as provided in paragraph (c) of this section, when a contractor exits the 8(a) program, it is no longer eligible to receive new 8(a) contracts.

(b) If an 8(a) contractor is suspended from the program (see 13 CFR 124.305), it may not receive any new 8(a) contracts unless the head of the contracting agency makes a determination that it is in the best interest of the Government to issue the award and SBA adopts that determination.

(c) A contractor that has completed its term of participation in the 8(a) program may be awarded a competitive 8(a) contract if it was an 8(a) participant eligible for award of the contract on the initial date specified for receipt of offers contained in the solicitation, and if the contractor continues to meet all other applicable eligibility criteria (see 13 CFR 124.507(d)).

(d) SBA's regulations on exiting the 8(a) program are found at 13 CFR 124.301 through 124.305, and 13 CFR 124.507(d).

19.208-7 Preparing the contracts.

(a) *Sole source*.

(1) The contract to be awarded by the agency to the SBA shall be prepared in accordance with agency procedures and in the same detail as would be required in a contract with a business concern. The contracting officer must use the Standard Form 26 as the award form, except for construction contracts, in which case the Standard Form 1442 must be used as required in 36.701(a).

(2) The contracting officer must prepare the contract that the SBA will award to the 8(a) participant in accordance with agency procedures, as if awarding the contract directly to the 8(a) participant, except for the following:

(i) The award form must cite 41 U.S.C. 3304(a)(5) or 10 U.S.C. 3204(a)(5) (as appropriate) as the authority for use of other than full and open competition.

(ii) Appropriate clauses must be included, as necessary, to reflect that the contract is between the SBA and the 8(a) contractor.

(iii) The following items shall be inserted by the SBA—

(A) The SBA contract number.

(B) The effective date.

(C) The typed name of the SBA's contracting officer.

(D) The signature of the SBA's contracting officer.

(E) The date signed.

(iv) The SBA will obtain the signature of the 8(a) contractor prior to signing and returning the prime contract to the contracting officer for signature. The SBA will make every effort to obtain signatures and return the contract, and any subsequent bilateral modification, to the contracting officer within a maximum of 10 working days.

(3) Except in procurements where the SBA will make advance payments to its 8(a) contractor, the agency contracting officer may, as an alternative to the procedures in paragraphs (a) and (b) of this subsection, use a single contract document for

both the prime contract between the agency and the SBA and its 8(a) contractor. The single contract document must contain the information in paragraphs (a)(2)(i), (ii), and (iii) of this subsection. Appropriate blocks on the Standard Form (SF) 26 or 1442 will be asterisked and a continuation sheet appended as a tripartite agreement which includes the following:

(i) Agency acquisition office, prime contract number, name of agency contracting officer and lines for signature, date signed, and effective date.

(ii) The SBA office, the SBA contract number, name of the SBA contracting officer, and lines for signature and date signed.

(iii) Name and lines for the 8(a) contractor's signature and date signed.

(4) For acquisitions not exceeding the simplified acquisition threshold, the contracting officer may use the alternative procedures in paragraph (a)(3) of this subsection with the appropriate simplified acquisition forms.

(b) *Competitive*.

(1) The contract will be prepared in accordance with 14.408-1(d), except that appropriate blocks on the Standard Form 26 or 1442 will be asterisked and a continuation sheet appended as a tripartite agreement which includes the following:

(i) The agency contracting activity, prime contract number, name of agency contracting officer, and lines for signature, date signed, and effective date.

(ii) The SBA office, the SBA subcontract number, name of the SBA contracting officer and lines for signature and date signed.

(2) The process for obtaining signatures shall be as specified in paragraph (a)(2)(iv) of this section.

19.208-8 SBA appeals.

(a) The SBA Administrator may submit the following matters for determination to the agency head if the SBA and the contracting officer fail to agree on them:

(1) A contracting officer's decision to reject a specific 8(a) participant for award of an 8(a) contract after SBA's acceptance of the requirement for the 8(a) program.

(2) The terms and conditions of a proposed 8(a) contract, including the contracting officer's NAICS code designation and estimate of the fair market price.

(b) The procedures at 19.102(f) apply to this section if there is disagreement between the contracting officer and the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.102(b)) regarding the matters in paragraph (a).

(c) If the SBA appeal is denied, the decision of the agency head must specify the reasons for the denial, including the reasons why the selected participant was determined incapable of performance, if appropriate. The decision shall be made a part of the contract file.

This page intentionally left blank.

Subpart 19.3 - Postaward

19.301 Small business size rerepresentations.

(a) A contractor that represented itself as a small business concern before contract award must rerepresent its size status in accordance with the clause at 52.219-28, Postaward Small Business Program Rerepresentation, for the North American Industry Classification System (NAICS) code(s) in the contract upon the occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include the clause at 52.219-28, Post-Award Small Business Program Rerepresentation, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition of the contractor that does not require novation or within 30 days after modification of the contract to include the clause at 52.219-28, Post-Award Small Business Program Rerepresentation, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts—

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(b) A contractor must rerepresent its size status in accordance with the size standard in effect at the time of its rerepresentation that corresponds to the NAICS code that was initially assigned to the contract. For multiple-award contracts where there is more than one NAICS code assigned, the contractor is required to rerepresent its size status for each NAICS code assigned to the contract.

(c) After a contractor rerepresents it is other than small in accordance with 52.219-28, the agency may no longer include the value of options exercised, modifications issued, orders issued, or purchases made under blanket purchase agreements on that contract in its small business prime contracting goal achievements. Agencies should issue a modification to the contract capturing the rerepresentation and report it to FPDS within 30 days after notification of the rerepresentation.

(d) A change in size status does not change the terms and conditions of the contract. However, the contracting officer may require a subcontracting plan for a contract containing 52.219-9, Small Business Subcontracting Plan, if a prime contractor's size status changes from small to other than small as a result of a size rerepresentation (see 19.109(c)(3)).

(e) A contractor that represented itself as other than small before contract award may, but is not required to, rerepresent its size status when—

(1) The conditions in paragraph (a) of this section apply; and

(2) The contractor qualifies as a small business concern under the applicable size standard in effect at the time of its rerepresentation.

19.302 Small business subcontracting plans.

19.302-1 Getting a plan after award.

(a) (1) The contracting officer must require the contractor to submit a subcontracting plan for the contract if—

(i) A contract modification causes the value of a contract without a subcontracting plan to exceed the subcontracting plan threshold (see 19.109(a)); and

(ii) The contracting officer determines that subcontracting opportunities exist.

(2) For a multiple-award contract with more than one NAICS code, the modification referenced in paragraph (a)(1) of this section must require the contractor to submit an acceptable subcontracting plan for either the distinct portion(s) or category(ies) of the contract for which the contractor is other than small or for the entirety of their contract, at the contractor's discretion. When determining the need for a subcontracting plan, the contracting officer must consider the cumulative dollar value of the portion(s) or category(ies) of the contract for which the contractor is other than small.

(3) See 19.109 for guidance on which contracts are exempt and how to determine if subcontracting opportunities exist.

(b) (1) If a subcontracting plan is required by paragraph (a) of this section or in accordance with 19.301(d), incorporate into the contract the clause at 52.219-9, Small Business Subcontracting Plan, with its Alternate IV.

(2) Insert the clause at 52.219-16, Liquidated Damages—Subcontracting Plan, in contracts containing the clause at 52.219-9, Small Business Subcontracting Plan, with its Alternate IV.

(c) If the contracting officer adds a subcontracting plan to the contract due to a modification as required by paragraph (a) of this section or as a result of a size rerepresentation (see 19.301(d)), the subcontracting goals apply from the date of incorporation of the subcontracting plan into the contract. The contractor's achievements must be reported on a cumulative basis from the date of incorporation of the subcontracting plan into the contract.

(d) A contract may not have more than one subcontracting plan. However, a contracting officer may establish separate subcontracting goals for each order under an indefinite-delivery, indefinite-quantity contract. When a contract modification exceeds the subcontracting plan threshold (see 19.109(a)) or an option is exercised, the goals of an existing subcontracting plan shall be amended to reflect any new subcontracting opportunities not envisioned at the time of contract award. These goal changes do not apply retroactively.

19.302-2 Compliance with the plan.

(a) The contracting officer must monitor the prime contractor's compliance with its subcontracting plan by ensuring that the contractor submits subcontracting reports in the SPR within 45 days after the report ending date (e.g., by November 14th for the fiscal year ended September 30th).

(1) In order to be eligible as a subcontractor under a subcontracting plan, a concern is required to represent itself as a small business or small disadvantaged business or be certified by SBA as a veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, or woman-owned small business.

(i) To represent itself as a small business or small disadvantaged business, a concern must meet the appropriate definition in 2.101.

(ii) (A) Unless the prime contractor has reason to question the representations, it may accept a subcontractor's written representations of its size and socioeconomic status as a small business or small disadvantaged business, if the subcontractor represents that the representations with its offer are current, accurate, and complete as of the date of the offer for the subcontract; or

(B) Unless the prime contractor has reason to question the representation, it may accept a subcontractor's representations of its size and socioeconomic status as a small business or small disadvantaged business in the System for Award Management (SAM) if—

(1) The subcontractor is registered in SAM; and

(2) The subcontractor represents that the size and socioeconomic status representations made in SAM are current, accurate, and complete as of the date of the offer for the subcontract.

(3) The prime contractor may not require that the subcontractor register in SAM for the purposes of representing size or socioeconomic status in connection with a subcontract.

(iii) A prime contractor acting in good faith is not liable for misrepresentations made by its subcontractors regarding the subcontractor's size or socioeconomic status.

(iv) The contractor, the contracting officer, or any other interested party can challenge a subcontractor's size status representation by filing a protest, in accordance with 13 CFR 121.1001 through 121.1008. Protests challenging the socioeconomic status of a HUBZone small business concern must be filed in accordance with 13 CFR 126.801.

(2) (i) In accordance with 43 U.S.C. 1626, the following procedures apply:

(A) Subcontracts awarded to an ANC or Indian tribe count toward the subcontracting goals for small business and small disadvantaged business concerns, regardless of the size or SBA certification status of the ANC or Indian tribe.

(B) If one or more subcontractors are in the subcontract tier between the prime contractor and the ANC or Indian tribe, then the ANC or Indian tribe is required to designate the appropriate contractor(s) to receive credit for the subcontract toward its small business and small disadvantaged business subcontracting goals.

(1) In most cases, the appropriate contractor is the contractor that awarded the subcontract to the ANC or Indian tribe.

(2) If the ANC or Indian tribe designates more than one contractor to count the subcontract toward its goals, the ANC or Indian tribe is required to designate only a portion of the total subcontract award to each contractor. The sum of the amounts designated to various contractors cannot exceed the total value of the subcontract.

(3) The ANC or Indian tribe is required to give a copy of the written designation to the contracting officer, the prime contractor, and the subcontractors in between the prime contractor and the ANC or Indian tribe within 30 days of the date of the subcontract award.

(4) If the contracting officer does not receive a copy of the ANC's or the Indian tribe's written designation within 30 days of the subcontract award, the contracting officer will consider the contractor that awarded the subcontract to the ANC or Indian tribe the designated contractor.

(ii) A contractor acting in good faith may rely on the written representation of an ANC or an Indian tribe as to the status of the ANC or Indian tribe unless an interested party challenges its status or the contracting officer has independent reason to question its status. In the event of a challenge of a representation of an ANC or Indian tribe, the interested parties shall follow the procedures in part 26.

(3) As authorized by 15 U.S.C. 637(d)(12), agencies may credit certain costs incurred by a mentor firm in providing developmental assistance to a protégé firm under the DoD Mentor-Protégé Program as if they were subcontract awards to a protégé firm for the purpose of determining whether the mentor firm meets the applicable goals under any subcontracting plan entered into with any executive agency. However, the mentor-protégé agreement must have been approved by the Director, Small Business Programs of the cognizant DoD military department or defense agency, before developmental assistance costs may be credited against subcontract goals. A list of approved agreements may be obtained at *https://business.defense.gov/Programs/Mentor-Protege-Program/*

(b) The contracting officer must assess whether the prime contractor made a good faith effort to comply with its small business subcontracting plan.

(1) If, at completion of the basic contract or any option, a contractor has failed to comply with the requirements of its subcontracting plan, which includes meeting its subcontracting goals, the contracting officer must review all available information for an indication that the contractor has not made a good faith effort to comply with the plan. If no such indication is found, the contracting officer must document the file accordingly.

(2) If the contracting officer decides, according to paragraph (b)(1) of this section, that the contractor failed to make a good faith effort to comply with its subcontracting plan, 15 U.S.C. 637(d)(9) states that the contractor is in material breach of its contract. Further, 15 U.S.C. 637(d)(4)(F) directs that the contractor must pay liquidated damages. Accordingly, the contracting officer must initiate action to assess liquidated damages.

(i) The contracting officer must give the contractor written notice under the clause at 52.219-16, Liquidated Damages—Subcontracting Plan. The notice must—

(A) Specify the material breach and indicate that it may be included in the contractor's past performance rating;

(B) Advise the contractor of the possibility that it may have to pay liquidated damages to the Government;

(C) Give the contractor an opportunity to respond to the notice (within 15 working days or longer, as necessary) to show the good faith efforts it made before the contracting officer issues the final decision; and

(D) Specify that the contractor’s failure to respond may be taken as an admission that no valid explanation exists.

(ii) If, after consideration of all the pertinent data and the contractor’s response to the notice in paragraph (b)(2)(i) of this section, the contracting officer finds that the contractor failed to make a good faith effort to comply with its subcontracting plan, the contracting officer must issue a final decision to the contractor to that effect, require the contractor to pay liquidated damages, and state the amount to pay. The contracting officer's final decision must state that the contractor has the right to appeal under the clause in the contract entitled Disputes. The contracting officer must follow procedures in the clause at 52.219-16, Liquidated Damages—Subcontracting Plan.

(iii) The amount of damages attributable to the contractor's failure to comply must be equal to the actual dollar amount by which the contractor failed to achieve each subcontracting goal.

(iv) Liquidated damages must be in addition to any other remedies that the Government may have.

(c) (1) In determining whether a contractor failed to make a good faith effort to comply with its subcontracting plan, a contracting officer must look to the totality of the contractor's actions, consistent with the information and assurances provided in its plan. The fact that the contractor failed to meet its subcontracting goals does not, in and of itself, constitute a failure to make a good faith effort. The contracting officer may consider any of the following, though not all inclusive, to be indicators of a good faith effort:

(i) Breaking out work to be subcontracted into economically feasible units, as appropriate, to facilitate small business participation.

(ii) Conducting market research to identify potential small business subcontractors through all reasonable means, such as searching SAM, posting notices or solicitations on SBA's SUBNet, participating in business matchmaking events, and attending preproposal conferences.

(iii) Soliciting small business concerns as early in the acquisition process as practicable to allow them sufficient time to submit a timely offer for the subcontract.

(iv) Providing interested small businesses with adequate and timely information about plans, specifications, and requirements for performance of the prime contract to assist them in submitting a timely offer for the subcontract.

(v) Negotiating in good faith with interested small businesses.

(vi) Directing small businesses that need additional assistance to SBA.

(vii) Assisting interested small businesses in obtaining bonding, lines of credit, required insurance, necessary equipment, supplies, materials, or services.

(viii) Utilizing the available services of small business associations; local, state, and Federal small business assistance offices; and other organizations.

(ix) Participating in a formal mentor-protégé program with one or more small business protégés that results in developmental assistance to the protégés.

(x) Although failing to meet the subcontracting goal in one socioeconomic category, exceeding the goal by an equal or greater amount in one or more of the other categories.

(xi) Fulfilling all of the requirements of the subcontracting plan.

(2) When considered in the context of the contractor's total effort in accordance with its plan, the contracting officer may consider any of the following, though not all inclusive, to be indicators of a failure to make a good faith effort:

(i) Failure to attempt through market research to identify, contact, solicit, or consider for contract award small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, or women-owned small business concerns, through all reasonable means including outreach, industry days, or the use of Federal systems such as SBA's Dynamic Small Business Search or SUBNet systems.

(ii) Failure to designate and maintain a company official to administer the subcontracting program and monitor and enforce compliance with the plan.

(iii) Failure to submit an acceptable ISR, or the SSR, using the SPR, or as provided in agency regulations, by the report due dates specified in 52.219-9, Small Business Subcontracting Plan.

(iv) Failure to maintain records or otherwise demonstrate procedures adopted to comply with the plan including subcontracting flowdown requirements.

(v) Adoption of company policies or documented procedures that have as their objectives the frustration of the objectives of the plan.

(vi) Failure to pay small business subcontractors in accordance with the terms of the contract with the prime contractor.

(vii) Failure to correct substantiated findings from Federal subcontracting compliance reviews or participate in subcontracting plan management training offered by the Government.

(viii) Failure to provide the contracting officer with a written explanation if the contractor fails to acquire articles, equipment, supplies, services, or materials or obtain the performance of construction work.

(ix) Falsifying records of subcontract awards to small business concerns.

(d) With respect to commercial plans approved under the clause at 52.219-9, Small Business Subcontracting Plan, the contracting officer that approved the plan must—

(1) Perform the functions of the contracting officer under this subsection on behalf of all agencies with contracts covered by the commercial plan;

(2) Determine whether or not the goals in the commercial plan were achieved and, if they were not achieved, review all available information for an indication that the contractor has not made a good faith effort to comply with the plan, and document the results of the review;

(3) If a determination is made to assess liquidated damages, in order to calculate and assess the amount of damages, the contracting officer must ask the contractor to provide—

(i) Contract numbers for the Government contracts subject to the plan;

(ii) The total Government sales during the contractor's fiscal year; and

(iii) The amount of payments made under the Government contracts subject to that plan that contributed to the contractor's total sales during the contractor's fiscal year; and

(4) When appropriate, assess liquidated damages on the Government's behalf, based on the pro rata share of subcontracting attributable to the Government contracts. A copy of the contracting officer's final decision assessing liquidated damages must be provided to other contracting officers with contracts subject to the commercial plan.

(5) Every contracting officer with a contract that is subject to a commercial plan shall include in the contract file a copy of the approved plan and a copy of the final decision assessing liquidating damages, if applicable.

(e) The contracting officer must assess the prime contractor's written explanation concerning its failure to use a small business concern in the performance of the contract in the same scope, amount, and quality used in preparing and submitting the bid or proposal, if applicable.

19.302-3 Other postaward responsibilities.

After a contract or contract modification containing a subcontracting plan is awarded or an existing subcontracting plan is amended, the contracting officer must do the following:

(a) Notify the SBA of the award by sending a copy of the award document to the Area Director, Office of Government Contracting, in the SBA area office where the contract will be performed.

(b) Forward a copy of each commercial plan and any associated approvals to the Area Director, Office of Government Contracting, in the SBA area office where the contractor's headquarters is located.

(c) Give to the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.102(b)) a copy of—

(1) Any subcontracting plan submitted in response to a sealed bid solicitation; and

(2) The final negotiated subcontracting plan that was incorporated into a negotiated contract or contract modification.

(d) Notify the SBA procurement center representative (or, if a procurement center representative is not assigned, see 19.102(b)) of the opportunity to review subcontracting plans in connection with contract modifications.

(e) Forward a copy of each plan, or a determination that there is no requirement for a subcontracting plan, to the cognizant contract administration office.

(f) Agencies shall assign responsibilities for monitoring subcontract reports for anomalies, discrepancies, and errors.

19.303 8(a) Program contracts.

19.303-1 Contract administration.

(a) The contracting officer must assign contract administration functions, as required, based on the location of the 8(a) contractor (see Federal Directory of Contract Administration Services Components, available via the Internet at *https://piee.eb.mil/pcm/xhtml/unauth/index.xhtml*.

(b) The agency must distribute copies of the contract(s) in accordance with part 4. All contracts and modifications, if any, must be distributed to both the SBA and the 8(a).

(c) To the extent consistent with the contracting activity's capability and resources, 8(a) contractors furnishing requirements shall be afforded production and technical assistance, including, when appropriate, identification of causes of deficiencies in their products and suggested corrective action to make such products acceptable.

(d) For 8(a) contracts exceeding 5 years including options, the contracting officer must verify in SBS or SAM that the concern is an SBA-certified 8(a) participant no more than 120 days prior to the end of the fifth year of the contract. If the concern is not an SBA-certified 8(a) participant, the contracting officer must not exercise the option (see 13 CFR 124.521(e)(2)).

(e) An 8(a) contract, whether in the base or an option year, must be terminated for convenience if the 8(a) contractor to which it was awarded transfers ownership or control of the firm or if the contract is transferred or novated for any reason to another firm, unless the Administrator of the SBA waives the requirement for contract termination (13 CFR 124.515). The Administrator may waive the termination requirement only if certain conditions exist. Moreover, a waiver of the requirement for termination is permitted only if the 8(a) contractor's request for waiver is made to the SBA prior to the actual relinquishment of ownership or control, except in the case of death or incapacity where the waiver must be submitted within 60 calendar days after such an occurrence. The clauses in the contract entitled "Special 8(a) Contract Conditions" and "Special 8(a) Subcontract Conditions" require the SBA and the 8(a) subcontractor to notify the contracting officer when ownership of the firm is being transferred. When the contracting officer receives information that an 8(a) contractor is planning to transfer ownership or control to another firm, the contracting officer must take action immediately to preserve the option of waiving the termination requirement. The contracting officer must determine the timing of the proposed transfer and its effect on contract performance and mission support. If the contracting officer determines that the SBA does not intend to waive the termination requirement, and termination of the contract would severely impair attainment of the agency's program objectives or mission, the contracting officer must immediately notify the SBA in writing that the agency is requesting a waiver. Within 15 business days thereafter, or such longer period as agreed to by the agency and the SBA, the agency head must either confirm or withdraw the request for waiver. Unless a waiver is approved by the SBA, the contracting officer must terminate the contract for convenience upon receipt of a written request by the SBA. This requirement for a convenience termination does not affect the Government's right to terminate for default if the cause for termination of an 8(a) contract is other than the transfer of ownership or control.

19.303-2 Exiting the 8(a) program.

When a contractor exits the 8(a) program, it remains under contractual obligation to complete existing contracts, and any priced options that may be exercised.

19.303-3 Indefinite-delivery contracts.

(a) Separate offers and acceptances are not required for individual orders under multiple-award contracts (including the Federal Supply Schedules managed by GSA, multi-agency contracts or Governmentwide acquisition contracts, or indefinite-delivery, indefinite-quantity (IDIQ) contracts) that have been set aside for exclusive competition among 8(a) contractors, and the individual order is to be competed among all 8(a) contract holders. SBA's acceptance of the original contract is valid for the term of the contract. Offers and acceptances are required for individual orders under multiple-award contracts that have not been set aside for exclusive competition among 8(a) contractors.

(b) The contracting officer may issue an order on a sole source basis when—

(1) The multiple-award contract was set aside for exclusive competition among 8(a) participants;

(2) The order has an estimated value less than or equal to the dollar thresholds set forth at 19.108-7(a)(2); and

(3) The offering and acceptance procedures at 19.108-4(b) and (c) are followed.

(c) An 8(a) contractor may continue to accept new orders under the contract, even if it exits the 8(a) program, or becomes other than small for the NAICS code(s) assigned to the contract.

(d) Agencies may continue to take credit toward their prime contracting small disadvantaged business or small business goals for orders awarded to 8(a) contractors, even after the contractor's 8(a) program term expires, the contractor otherwise exits the 8(a) program, or the contractor becomes other than small for the NAICS code(s) assigned under the 8(a) contract. However, if an 8(a) contractor rerepresents that it is other than small for the NAICS code(s) assigned under the contract in accordance with 19.301 or, where ownership or control of the 8(a) contractor has changed and SBA has granted a waiver to allow the contractor to continue performance (see 13 CFR 124.515), the agency may not credit any subsequent orders awarded to the contractor towards its small disadvantaged business or small business goals.

PART 21 - RESERVED

This page intentionally left blank.

This page intentionally left blank.

PART 22 - APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

22.001 Definitions.

As used in this part-

Administrator or Administrator, Wage and Hour Division, as used in this part, means the Administrator, Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210 or an authorized representative.

Agency labor advisor means an individual responsible for advising contracting agency officials on Federal contract labor matters.

e98 means the Department of Labor's approved electronic application (https://www.sam.gov), whereby a contracting officer submits pertinent information to the Department of Labor and requests a Service Contract Labor Standards statute wage determination directly from the Wage and Hour Division.

Normal workweek, as used in this subpart, means, generally, a workweek of 40 hours. Outside the United States and its outlying areas, a workweek longer than 40 hours is considered normal if—

(1) The workweek does not exceed the norm for the area, as determined by local custom, tradition, or law; and

(2) The hours worked in excess of 40 in the workweek are not compensated at a premium rate of pay.

Secretary means the Secretary of Labor, U.S. Department of Labor, unless specified otherwise.

Service contract means any Government contract, or subcontract thereunder, the principal purpose of which is to furnish services in the United States through the use of service employees, except as exempted by 41 U.S.C. chapter 67, Service Contract Labor Standards; see 22.1002-1(c) through (f). See 29 CFR 4.130 for an illustrative list of services covered by the Service Contract Labor Standards statute.

Service employee means any person engaged in the performance of a service contract other than any person employed in a bona fide executive, administrative, or professional capacity, as those terms are defined in 29 CFR part 541. The term "service employee" includes all such persons regardless of any contractual relationship that may be alleged to exist between a contractor or subcontractor and such persons.

Wage Determinations at SAM.gov means the Government internet website for both Construction Wage Rate Requirements statute and Service Contract Labor Standards statute wage determinations available at https://www.sam.gov.

Subpart 22.1 – Basic Labor Policies

22.101-1 Labor relations.

Agencies must maintain sound relations with industry and labor to ensure—

(a) Prompt receipt of information involving labor relations that may adversely affect the Government acquisition process; and

(b) That the Government obtains needed supplies and services without delay. All matters regarding labor relations must be handled in accordance with agency procedures.

22.101-2 Overtime.

Contractors must perform all contracts, so far as practicable, without using overtime, particularly as a regular employment practice, except when lower overall costs to the Government will result or when it is necessary to meet urgent program needs. Any approved overtime, extra-pay shifts, and multishifts should be scheduled to achieve these objectives.

22.102 Presolicitation.

22.102-1 Overtime.

Solicitations normally must not specify delivery or performance schedules that may require overtime at Government expense.

22.102-2 Contract clause.

(a) The head of the contracting activity may designate programs or requirements for which it is necessary that contractors be required to notify the Government of actual or potential labor disputes that are delaying or threaten to delay the timely contract performance. Insert the clause 52.222-1, Notice to the Government of Labor Disputes, in solicitations and contracts that involve programs or requirements that have been so designated.

(b) The contracting officer must include the clause at 52.222-2, Payment for Overtime Premiums, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold; unless (a) a cost-reimbursement contract for operation of vessels is contemplated, or (b) a cost-plus-incentive-fee contract that will provide a swing from the target fee of at least plus or minus 3 percent and a contractor's share of at least 10 percent is contemplated.

22.103 Evaluation and award.

(a) In negotiating contracts, contracting officers should, consistent with the Government's needs, attempt to--

(1) ascertain the extent that offers are based on the payment of overtime and shift premiums and

(2) negotiate contract prices or estimated costs without these premiums or obtain the requirement from other sources.

(b) When it becomes apparent during negotiations of applicable contracts (see 22.102-2(b)) that overtime will be required in contract performance, the contracting officer must secure from the contractor a request for all overtime to be used during the life of the contract, to the extent that the overtime can be estimated with reasonable certainty. The contractor's request must contain the information required by paragraph (b) of the clause at 52.222-2, Payment for Overtime Premiums.

22.104 Postaward.

22.104-1 General.

(a) Agencies must remain impartial concerning any dispute between labor and contractor management and not undertake the conciliation, mediation, or arbitration of a labor dispute. To the extent practicable, agencies should ensure that the parties to the dispute use all available methods for resolving the dispute, including the services of the National Labor Relations Board, Federal Mediation and Conciliation Service, the National Mediation Board and other appropriate Federal, State, local, or private agencies.

(b) The head of the contracting activity may designate programs or requirements for which it is necessary that contractors be required to notify the Government of actual or potential labor disputes that are delaying or threaten to delay the timely contract performance.

(c) The office administering the contract must report, in accordance with agency procedures, any potential or actual labor disputes that may interfere with performing any contracts under its cognizance. If a contract contains the clause at 52.222-1, Notice to the Government of Labor Disputes, the contractor also must report any actual or potential dispute that may delay contract performance.

22.104-2 Overtime approvals.

(a) The contracting officer must review the contractor's request for overtime. Approval of the use of overtime may be granted by an agency approving official after determining in writing that overtime is necessary to—

(1) Meet essential delivery or performance schedules;

(2) Make up for delays beyond the control and without the fault or negligence of the contractor; or

(3) Eliminate foreseeable extended production bottlenecks that cannot be eliminated in any other way.

(b) Approval by the designated official of use and total dollar amount of overtime is required before inclusion of an amount in paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums.

(c) Contracting officer approval of payment of overtime premiums is required for time-and-materials and labor-hour contracts (see paragraph (a)(8) of the clause at 52.232-7, Payments Under Time-and-Materials and Labor-Hour Contracts).

(d) No approvals are required for paying overtime premiums under other types of contracts.

(e) Approvals by the agency approving official (see paragraph (a) of this section) may be for an individual contract, project, program, plant, division, or company, as practical.

(f) During contract performance, contractor requests for overtime exceeding the amount authorized by paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums, must be submitted as stated in paragraph (b) of the clause to the office administering the contract. That office will review the request and if it approves, send the request to the contracting officer. If the contracting officer determines that the requested overtime should be approved in whole or in part, the contracting officer must request the approval of the agency's designated approving official and modify paragraph (a) of the clause to reflect any approval.

(g) Overtime premiums at Government expense should not be approved when the contractor is already obligated, without the right to additional compensation, to meet the required delivery date.

(h) When the use of overtime is authorized under a contract, the office administering the contract and the auditor should periodically review the use of overtime to ensure that it is allowable in accordance with the criteria in part 31. Only overtime premiums for work in those departments, sections, etc., of the contractor's plant that have been individually evaluated and the necessity for overtime confirmed shall be considered for approval.

(i) Approvals for using overtime shall ordinarily be prospective, but, if justified by emergency circumstances, approvals may be retroactive.

This page intentionally left blank.

Subpart 22.2 - Convict Labor.

22.201 Presolicitation.

22.201-1 General.

Executive Order 11755, December 29, 1973, as amended by Executive Order 12608, September 9, 1987, and Executive Order 12943, December 13, 1994, does not prohibit the contractor, in performing the contract, from employing certain persons as stated in paragraph (b) of the clause at 52.222-3, Convict Labor.

22.201-2 Contract clause.

Insert the clause at 52.222-3, Convict Labor, in solicitations and contracts above the micro-purchase threshold, when the contract will be performed in the United States, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, or the U.S. Virgin Islands; unless—

(a) The contract will be subject to 41 U.S.C. chapter 65 (see subpart 22.6 and 22.602), which contains a separate prohibition against the employment of convict labor;

(b) The supplies or services are to be purchased from Federal Prison Industries, Inc. (see subpart 8.6); or

(c) The acquisition involves the purchase, from any State prison, of finished supplies that may be secured in the open market or from existing stocks, as distinguished from supplies requiring special fabrication.

Subpart 22.3 - Contract Work Hours and Safety Standards Act

22.301 Presolicitation.

22.301-1 General.

(a) The statute at 40 U.S.C. chapter 37, Contract Work Hours and Safety Standards, requires that certain contracts contain a clause specifying that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than 40 hours in any workweek unless paid for all such overtime hours at not less than 1 1⁄2 times the basic rate of pay.

(b) The Secretary under 40 U.S.C. 3706, upon the Secretary's initiative or at the request of any Federal agency, may provide reasonable limitations and allow variations, tolerances, and exemptions to and from any or all provisions of the statute (see 29 CFR 5.15).

(c) The Secretary may make variations, tolerances, and exemptions from the regulatory requirements of applicable parts of 29 CFR when the Secretary finds that such action is necessary and proper in the public interest or to prevent injustice and undue hardship (see 29 CFR 5.14).

(d) In this subpart, the term "laborers or mechanics" includes apprentices, trainees, helpers, watchmen, guards, firefighters, fireguards, and workmen who perform services in connection with dredging or rock excavation in rivers or harbors, but does not include any employee employed as a seaman.

22.301-2 Contract clause.

Insert the clause at 52.222-4, Contract Work Hours and Safety Standards—Overtime Compensation, in solicitations and contracts when the contract may require or involve the employment of laborers or mechanics. However, do not include the clause in solicitations and contracts—

(a) Valued at or below $200,000;

(b) For commercial products and commercial services;

(c) For transportation or the transmission of intelligence;

(d) To be performed outside the United States, Puerto Rico, American Samoa, Guam, the U.S. Virgin Islands, Johnston Island, Wake Island, and the outer Continental Shelf as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331) (29 CFR 5.15);

(e) For work to be done solely in accordance with 41 U.S.C. chapter 65 (see subpart 22.6 and 22.602);

(f) For supplies that include incidental services that do not require substantial employment of laborers or mechanics; or

(g) Exempt under regulations of the Secretary of Labor (29 CFR 5.15).

22.302 Postaward.

(a) When an overtime computation discloses underpayments, the responsible contractor or subcontractor must pay the affected employee any unpaid wages and pay liquidated damages to the Government.

(b) The contracting officer must assess liquidated damages at the rate specified at 29 CFR 5.5(b)(2) per affected employee for each calendar day on which the employer required or permitted the employee to work in excess of the standard workweek of 40 hours without paying overtime wages required by the statute. In accordance with the Federal Civil Penalties Inflation Adjustment Act of 1990 (28 U.S.C. 2461 Note), the Department of Labor adjusts this civil monetary penalty for inflation no later than January 15 each year.

(c) If the contractor or subcontractor fails or refuses to comply with overtime pay requirements of the statute and the funds withheld by Federal agencies for labor standards violations do not cover the unpaid wages due laborers and mechanics and the liquidated damages due the Government, make payments in the following order—

(1) Pay laborers and mechanics the wages they are owed (or prorate available funds if they do not cover the entire amount owed); and

(2) Pay liquidated damages.

(d) If the head of an agency finds that the administratively determined liquidated damages due under paragraph (a) of this section are incorrect, or that the contractor or subcontractor inadvertently violated the statute despite the exercise of due care, the agency head may—

(1) Reduce the amount of liquidated damages assessed for liquidated damages of $500 or less;

(2) Release the contractor or subcontractor from the liability for liquidated damages of $500 or less; or

(3) Recommend that the Secretary reduce or waive liquidated damages over $500.

(e) The procedures required for construction contracts in 22.404-2 also apply to investigations of alleged violations of the Contract Work Hours and Safety Standards on other than construction contracts.

Subpart 22.4 - Labor Standards for Contracts Involving Construction.

22.401 Definitions.

As used in this subpart -

Apprentice means a person—

(1) Employed and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer, and Labor Services (OATELS), or with a State Apprenticeship Agency recognized by OATELS; or

(2) Who is in the first 90 days of probationary employment as an apprentice in an apprenticeship program, and is not individually registered in the program, but who has been certified by the OATELS or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

Construction, alteration, or repair means all types of work done by laborers and mechanics employed by the construction contractor or construction subcontractor on a particular building or work at the site thereof, including without limitations—

(1) Altering, remodeling, installation (if appropriate) on the site of the work of items fabricated off-site;

(2) Painting and decorating;

(3) Manufacturing or furnishing of materials, articles, supplies, or equipment on the site of the building or work;

(4) Transportation of materials and supplies between the site of the work within the meaning of paragraphs (1)(i) and (ii) of the “site of the work” definition, and a facility which is dedicated to the construction of the building or work and is deemed part of the site of the work within the meaning of paragraph (2) of the “site of the work” definition; and

(5) Transportation of portions of the building or work between a secondary site where a significant portion of the building or work is constructed, which is part of the “site of the work” definition in paragraph (1)(ii), and the physical place or places where the building or work will remain (paragraph (1)(i) in the “site of the work” definition).

Laborers or mechanics —

(1) Means—

(i) Workers, utilized by a contractor or subcontractor at any tier, whose duties are manual or physical in nature (including those workers who use tools or who are performing the work of a trade), as distinguished from mental or managerial;

(ii) Apprentices, trainees, helpers, and, in the case of contracts subject to the Contract Work Hours and Safety Standards statute, watchmen, guards, firefighters, fireguards, and workmen who perform services in connection with dredging or rock excavation in rivers or harbors (but does not include any employee employed as a seaman);

(iii) Working foremen who devote more than 20 percent of their time during a workweek performing duties of a laborer or mechanic, and who do not meet the criteria of 29 CFR part 541, for the time so spent; and

(iv) Every person performing the duties of a laborer or mechanic, regardless of any contractual relationship alleged to exist between the contractor and those individuals; and

(2) Does not include workers whose duties are primarily executive, supervisory (except as provided in paragraph (1)(iii) of this definition), administrative, or clerical, rather than manual. Persons employed in a bona fide executive, administrative, or professional capacity as defined in 29 CFR part 541 are not deemed to be laborers or mechanics.

Public building or *public work* means building or work, the construction, prosecution, completion, or repair of which, as defined in this section, is carried on directly by authority of, or with funds of, a Federal agency to serve the interest of the general public regardless of whether title thereof is in a Federal agency.

Site of the work —

(1) Means—

(i) *The primary site of the work.* The physical place or places where the construction called for in the contract will remain when work on it is completed; and

(ii) *The secondary site of the work, if any.* Any other site where a significant portion of the building or work is constructed, provided that such site is—

(A) Located in the United States; and

(B) Established specifically for the performance of the contract or project;

(2) Except as provided in paragraph (3) of this definition, includes fabrication plants, mobile factories, batch plants, borrow pits, job headquarters, tool yards, etc., provided—

(i) They are dedicated exclusively, or nearly so, to performance of the contract or project; and

(ii) They are adjacent or virtually adjacent to the “primary site of the work” as defined in paragraphs (1)(i) of “the secondary site of the work” as defined in paragraph (1)(ii) of this definition;

(3) Does not include permanent home offices, branch plant establishments, fabrication plants, or tool yards of a contractor or subcontractor whose locations and continuance in operation are determined wholly without regard to a particular Federal contract or project. In addition, fabrication plants, batch plants, borrow pits, job headquarters, yards, etc., of a commercial or material supplier which are established by a supplier of materials for the project before opening of bids and not on the project site, are not included in the "site of the work." Such permanent, previously established facilities are not a part of the "site of the work", even if the operations for a period of time may be dedicated exclusively, or nearly so, to the performance of a contract.

Trainee means a person registered and receiving on-the-job training in a construction occupation under a program which has been approved in advance by the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer, and Labor Services (OATELS), as meeting its standards for on-the-job training programs and which has been so certified by that Administration.

Wages means the basic hourly rate of pay; any contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a bona fide fringe benefit fund, plan, or program; and the rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing bona fide fringe benefits to laborers and mechanics pursuant to an enforceable commitment to carry out a financially responsible plan or program, which was communicated in writing to the laborers and mechanics affected. The fringe benefits enumerated in the Construction Wage Rate Requirements statute include medical or hospital care, pensions on retirement or death, compensation for injuries or illness resulting from occupational activity, or insurance to provide any of the foregoing; unemployment benefits; life insurance, disability insurance, sickness insurance, or accident insurance; vacation or holiday pay; defraying costs of apprenticeship or other similar programs; or other bona fide fringe benefits. Fringe benefits do not include benefits required by other Federal, State, or local law.

22.402 Presolicitation.

22.402-1 Applicability.

(a) *Contracts in excess of $2,000 for construction work.*

(1) The requirements of this subpart apply—

(i) Only if the construction work is, or reasonably can be foreseen to be, performed at a particular site so that wage rates can be determined for the locality, and only to construction work that is performed by laborers and mechanics at the site of the work;

(ii) To dismantling, demolition, or removal of improvements if a part of the construction contract, or if construction at that site is anticipated by another contract as provided in subpart 37.3;

(iii) To the manufacture or fabrication of construction materials and components conducted in connection with the construction and on the site of the work by the contractor or a subcontractor under a contract otherwise subject to this subpart; and

(iii) To painting of public buildings or public works, whether performed in connection with the original construction or as alteration or repair of an existing structure.

(2) The requirements of this subpart do not apply to—

(i) The manufacturing of components or materials off the site of the work or their subsequent delivery to the site by the commercial supplier or materialman;

(ii) Contracts requiring construction work that is so closely related to research, experiment, and development that it cannot be performed separately, or that is itself the subject of research, experiment, or development (see paragraph (b) of this section for applicability of this subpart to research and development contracts or portions thereof involving construction, alteration, or repair of a public building or public work);

(iii) Employees of railroads operating under collective bargaining agreements that are subject to the Railway Labor Act; or

(iv) Employees who work at contractors' or subcontractors' permanent home offices, fabrication shops, or tool yards not located at the site of the work. However, if the employees go to the site of the work and perform construction activities there, the requirements of this subpart are applicable for the actual time so spent, not including travel unless the employees transport materials or supplies to or from the site of the work.

(b) *Nonconstruction contracts in excess of $2,000 involving some construction work.*

(1) The requirements of this subpart apply to construction work to be performed as part of nonconstruction contracts (supply, service, research and development, etc.) if—

(i) The construction work is to be performed on a public building or public work;

(ii) The contract contains specific requirements for a substantial amount of construction work exceeding the monetary threshold for application of the Construction Wage Rate Requirements statute (the word *substantial* relates to the type and quantity of construction work to be performed and not merely to the total value of construction work as compared to the total value of the contract); and

(iii) The construction work is physically or functionally separate from, and is capable of being performed on a segregated basis from, the other work required by the contract.

(2) The requirements of this subpart do not apply if—

(i) The construction work is incidental to the furnishing of supplies, equipment, or services (for example, the requirements do not apply to simple installation or alteration at a public building or public work that is incidental to furnishing supplies or equipment under a supply contract; however, if a substantial and segregable amount of construction, alteration, or repair is required, such as for installation of heavy generators or large refrigerator systems or for plant modification or rearrangement, the requirements of this subpart apply); or

(ii) The construction work is so merged with nonconstruction work or so fragmented in terms of the locations or time spans in which it is to be performed, that it is not capable of being segregated as a separate contractual requirement.

22.402-2 Copeland Act.

(a) The Copeland (Anti-Kickback) Act (18 U.S.C. 874 and 40 U.S.C. 3145) makes it unlawful to induce, by force, intimidation, threat of procuring dismissal from employment, or otherwise, any person employed in the construction or repair of public buildings or public works, financed in whole or in part by the United States, to give up any part of the compensation to which that person is entitled under a contract of employment.

(b) The Copeland Act also requires each contractor and subcontractor to furnish weekly a statement of compliance with respect to the wages paid each employee during the preceding week.

22.402-3 Construction Wage Rate Requirements statute.

(a) 40 U.S.C. chapter 31, subchapter IV, Wage Rate Requirements (Construction), formerly known as the Davis-Bacon Act, provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works within the United States, must contain a clause (see 52.222-6) that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor.

(b) The contracting officer must incorporate only the appropriate wage determinations in solicitations and contracts and must designate the work to which each determination or part thereof applies.

(1) If a general wage determination is not available on Wage Determinations at *SAM.gov*, a contracting agency must submit requests for project wage determinations on SF 308 to the Department of Labor (See 29 CFR 1.5 for additional information).

(i) A project wage determination will expire in 180 calendar days from the date of the determination.

(ii) If the award is not made by then, the contracting officer must ask for an extension of the determination.

(2) The contracting officer must not include project wage determinations in contracts or options other than those for which they are issued.

(c) If a solicitation is issued before the wage determination for the primary site of the work is obtained, a notice must be included in the solicitation that the schedule of minimum wage rates to be paid under the contract will be issued as an amendment to the solicitation.

(d) If there is any doubt as to the proper application of wage rate schedules to the types or types of construction involved, the contracting officer must seek help from the Administrator, Wage and Hour Division.

(e) The Secretary of Labor has established an Administrative Review Board which decides appeals of final decisions made by the Department of Labor concerning Construction Wage Rate Requirements statute wage determinations. A contracting agency or other interested party may file a petition for review under the procedures in 29 CFR Part 7 if reconsideration by the Administrator has been sought pursuant to 29 CFR 1.8 and denied.

22.402-4 Solicitation provision and contract clauses implementing labor standards for contracts involving construction.

(a) Insert the following clauses in solicitations and contracts in excess of $2,000 for construction within the United States:

(1) 52.222-6, Construction Wage Rate Requirements.

(2) 52.222-7, Withholding of Funds.
(3) 52.222-8, Payrolls and Basic Records.
(4) 52.222-9, Apprentices and Trainees.
(5) 52.222-10, Compliance with Copeland Act Requirements.
(6) 52.222-11, Subcontracts (Labor Standards).
(7) 52.222-12, Contract Termination—Debarment.
(8) 52.222-13, Compliance with Construction Wage Rate Requirements and Related Regulations.
(9) 52.222-14, Disputes Concerning Labor Standards.
(10) 52.222-15, Certification of Eligibility.

(b) Insert the clause 52.222-16, Approval of Wage Rates, in solicitations and contracts in excess of $2,000 for cost-reimbursement construction to be performed within the United States, except for contracts with a State or political subdivision thereof.

(c) A contract that is not primarily for construction may contain a requirement for some construction work to be performed in the United States. If under 22.402-1(b) the requirements of this subpart apply to the construction work, insert in such solicitations and contracts the applicable construction labor standards clauses required in this section and identify the item or items of construction work to which the clauses apply.

(d) Insert the clause at 52.222-30, Construction Wage Rate Requirements—Price Adjustment (None or Separately Specified Pricing Method), in solicitations and contracts if the contract is expected to be—

(1) A fixed-price contract subject to the Construction Wage Rate Requirements statute that will contain option provisions by which the contracting officer may extend the term of the contract, and the contracting officer determines the most appropriate contract price adjustment method is the method at 22.404-1(h)(6)(i) or (ii); or

(2) A cost-reimbursable type contract subject to the Construction Wage Rate Requirements statute that will contain option provisions by which the contracting officer may extend the term of the contract.

(e) Insert the clause at 52.222-31, Construction Wage Rate Requirements—Price Adjustment (Percentage Method), in solicitations and contracts if the contract is expected to be a fixed-price contract subject to the Construction Wage Rate Requirements statute that will contain option provisions by which the contracting officer may extend the term of the contract, and the contracting officer determines the most appropriate contract price adjustment method is the method at 22.404-1(h)(6)(iii).

(f) Insert the clause at 52.222-32, Construction Wage Rate Requirements—Price Adjustment (Actual Method), in solicitations and contracts if the contract is expected to be a fixed-price contract subject to the Construction Wage Rate Requirements statute that will contain option provisions by which the contracting officer may extend the term of the contract, and the contracting officer determines the most appropriate method to establish contract price is the method at 22.404-1(h)(6)(iv).

(g) Insert the provision at 52.222-5, Construction Wage Rate Requirements—Secondary Site of the Work, in solicitations in excess of $2,000 for construction within the United States.

22.402-5 Executive Orders 13658 and 14026.

Executive Order (E.O.) 13658 established minimum wages for certain workers at $10.10 per hour. The E.O. 13658 rate has increased each year since 2015, rising to $11.25 on January 1, 2022. As of January 30, 2022, E.O. 13658 is superseded by E.O. 14026 to the extent that it is inconsistent with E.O. 14026; the minimum wage rate for certain workers is increased to $15.00 per hour. The wage rate is subject to annual increases by an amount determined by the Secretary of Labor. See subpart 22.19. The clause at 52.222-55, Minimum Wages for Contractor Workers under Executive Order 14026, requires the E.O. 14026 minimum wage rate to be paid if it is higher than other minimum wage rates, such as the subpart 22.4 statutory wage determination amount.

22.403 Evaluation and award.

(a) (1) The Department of Labor may modify a wage determination to make it current by specifying only the items being changed or by reissuing the entire determination with changes incorporated.

(2) All project wage determination modifications expire on the same day as the original determination. The need to include a modification of a project wage determination for the primary site of the work in a solicitation is determined by the time of receipt of the modification by the contracting agency. Therefore, the contracting agency must annotate the modification of the project wage determination with the date and time immediately upon receipt.

(3) The need for inclusion of the modification of a general wage determination for the primary site of the work in a solicitation is determined by the date the modified wage determination is published on the Wage Determinations at *SAM.gov*, or by the date the agency receives actual written notice of the modification from the Department of Labor, whichever occurs first. (Note the distinction between receipt by the agency (modification is effective) and receipt by the contracting officer, which may occur later.) During the course of the solicitation, the contracting officer must monitor the Wage Determinations at *SAM.gov* website to determine whether the applicable wage determination has been revised. Revisions published on the Wage Determinations at *SAM.gov* website or otherwise communicated to the contracting officer within the timeframes prescribed at 22.403(b) and (c) are applicable and must be included in the resulting contract. Monitoring can be accomplished by use of the Wage Determinations at *SAM.gov* website's “Alert Service”.

(b) The following applies when contracting by sealed bidding:

(1) A written action modifying a wage determination must be effective if:

(i) It is received by the contracting agency, or is published on the Wage Determinations at *SAM.gov*, 10 or more calendar days before the date of bid opening; or

(ii) It is received by the contracting agency, or is published on the Wage Determinations at *SAM.gov*, less than 10 calendar days before the date of bid opening, unless the contracting officer finds that there is not reasonable time available before bid opening to notify the prospective bidders. (If the contracting officer finds that there is not reasonable time to notify bidders, a written report of the finding must be placed in the contract file and must be made available to the Department of Labor upon request.)

(2) All written actions modifying wage determinations received by the contracting agency after bid opening, or modifications to general wage determinations published on the Wage Determinations at *SAM.gov* after bid opening, shall not be effective and shall not be included in the solicitation (but see paragraph (b)(6) of this section).

(3) If an effective modification of the wage determination for the primary site of the work is received by the contracting officer before bid opening, the contracting officer must postpone the bid opening, if necessary, to allow a reasonable time to amend the solicitation to incorporate the modification and permit bidders to amend their bids. If the modification does not change the wage rates and would not warrant amended bids, the contracting officer must amend the solicitation to include the number and date of the modification.

(4) If an effective modification of the wage determination for the primary site of the work is received by the contracting officer after bid opening, but before award, the contracting officer must—

(i) award the contract, incorporate the new determination to be effective on the date of contract award, and equitably adjust the contract price for any increased or decreased cost of performance resulting from any changed wage rates;

(ii) award the contract and modify it to include the number and date of the new determination, if the new determination for the primary site of the work does not change any wage rates; or

(iii) cancel the solicitation, but only in accordance with 14.404-1.

(5) If an effective modification is received by the contracting officer after award, the contracting officer must modify the contract to incorporate the wage modification retroactive to the date of award and equitably adjust the contract price for any increased or decreased cost of performance resulting from any changed wage rates. If the modification does not change any wage rates and would not warrant contract price adjustment, the contracting officer must modify the contract to include the number and date of the modification.

(6) If an award is not made within 90 days after bid opening, any modification to a general wage determination which is published on the Wage Determinations at *SAM.gov* before award, shall be effective for any resultant contract unless an extension of the 90-day period is obtained from the Administrator, Wage and Hour Division. An agency head may request such an extension from the Administrator. The request must be supported by a written finding, which must include a brief statement of factual support, that the extension is necessary and proper in the public interest to prevent injustice, undue hardship, or to avoid serious impairment in the conduct of Government business. The contracting officer must follow the procedures in paragraph (b)(4) of this section.

(c) The following applies when contracting by negotiation:

(1) All written actions modifying wage determinations received by the contracting agency before contract award, or modifications to general wage determinations published on the Wage Determinations at *SAM.gov* before award, shall be effective.

(2) If an effective wage modification is received by the contracting officer before award, the contracting officer must—

(i) If the new determination for the primary site of the work changes any wage rates, amend the solicitation to incorporate the new determination and furnish the wage rate information to all prospective offerors that were sent a solicitation if the closing date for receipt of proposals has not yet occurred, or to all offerors that have not been eliminated from the competition if the closing date has passed. All offerors to whom wage rate information has been furnished must be given reasonable opportunity to amend their proposals; or

(ii) If the new determination for the primary site of the work does not change any wage rates, amend the solicitation to include the number and date of the new determination and award the contract.

(3) If an effective wage modification is received by the contracting officer after award, the contracting officer must follow the procedures in paragraph (b)(5) of this section.

(d) If a solicitation is amended after issuance to add the wage determination for the primary site of the work (see 22.402-3(c))—

(1) In sealed bidding, bids may not be opened until a reasonable time after the wage determination for the primary site of the work has been furnished to all bidders.

(2) In negotiated acquisitions, the contracting officer may open proposals and conduct negotiations before obtaining the wage determination for the primary site of the work. However, the contracting officer must incorporate the wage determination for the primary site of the work into the solicitation before submission of best and final offers.

(e) The following written notifications by the Department of Labor must be effective immediately if received by the contracting officer prior to award:

(1) A wage determination found to contain clerical errors;

(2) A solicitation includes the wrong wage determination or the wrong rate schedule; or

(3) A wage determination is withdrawn by the Administrative Review Board.

(f) For appealing a denial of reconsideration of a wage determination see 22.402-3(e).

22.404 Postaward.

22.404-1 Administration.

(a) (1) The contracting officer must furnish to the contractor, Department of Labor Form WH-1321, Notice to Employees Working on Federal and Federally Financed Construction Projects, for posting with the wage rates. The name, address, and telephone number of the Government officer responsible for the administration of the contract must be indicated in the poster to inform workers to whom they may submit complaints or raise questions concerning labor standards.

(2) In accordance with the requirements of the clause at 52.222-11, Subcontracts (Labor Standards), the contractor and subcontractors at any tier are required to submit a fully executed SF 1413, Statement and Acknowledgment, upon award of each subcontract.

(b) Before construction begins, the contracting officer must inform the contractor of the labor standards clauses and wage determination requirements of the contract and of the contractor's and any subcontractor's responsibilities under the contract. Unless it is clear that the contractor is fully aware of the requirements, the contracting officer must issue an explanatory letter and/or arrange a conference with the contractor promptly after award of the contract.

(c) (1) If contract award is made without the required wage determination (i.e., incorporating no determination, containing a clearly inapplicable general wage determination, or containing a project determination which is inapplicable because of an inaccurate description of the project or its location), the contracting officer must—

(i) Modify the contract to incorporate the required wage determination (retroactive to the date of award), and equitably adjust the contract price if appropriate; or

(ii) Terminate the contract.

(2) If a required wage determination (valid determination in effect on the date of award) is not available, the contracting officer must expeditiously request a wage determination from the Department of Labor, including a statement explaining the circumstances and giving the date of the contract award.

(d) If any laborer or mechanic is to be employed in a classification that is not listed in the wage determination applicable to the contract, the contracting officer, pursuant to the clause at 52.222-6, Construction Wage Rate Requirements, must require that the contractor submit to the contracting officer, Standard Form (SF) 1444, Request for Authorization of Additional Classification and Rate, which, along with other pertinent data, contains the proposed additional classification and minimum wage rate including any fringe benefits payments.

(1) Upon receipt of SF 1444 from the contractor, the contracting officer must review the request to determine whether it meets the following criteria:

(i) The classification is appropriate and the work to be performed by the classification is not performed by any classification contained in the applicable wage determination.

(ii) The classification is utilized in the area by the construction industry.

(iii) The proposed wage rate, including any fringe benefits, bears a reasonable relationship to the wage rates in the wage determination in the contract.

(2) If the criteria in paragraph (d)(1) of this section are met and the contractor and the laborers or mechanics to be employed in the additional classification (if known) or their representatives agree to the proposed additional classification, and the contracting officer approves, the contracting officer must submit a report (including a copy of SF 1444) of that action to the Administrator, Wage and Hour Division, for approval, modification, or disapproval of the additional classification and wage rate (including any amount designated for fringe benefits); or

(3) If the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed additional classification, or if the criteria are not met, the contracting officer must submit a report (including a copy of SF 1444) giving the views of all interested parties and the contracting officer's recommendation to the Administrator, Wage and Hour Division, for determination of appropriate classification and wage rate.

(4) (i) Within 30 days of receipt of the information, the Administrator, Wage and Hour Division, will complete action and so advise the contracting officer, or will notify the contracting officer that additional time is necessary.

(ii) Upon receipt of the Department of Labor's action, the contracting officer must forward a copy of the action to the contractor, directing that the classification and wage rate be posted in accordance with paragraph (a) of the clause at 52.222-6 and that workers in the affected classification receive no less than the minimum rate indicated from the first day on which work under the contract was performed in the classification.

(e) In each option to extend the term of the contract, if any laborer or mechanic is to be employed during the option in a classification that is not listed (or no longer listed) on the wage determination incorporated in that option, the contracting officer must require that the contractor submit a request for conformance using the procedures noted in paragraph (d) of this section.

(f) (1) The contracting officer must examine the payrolls and payroll statements submitted in accordance with the clause at 52.222-8, to ensure compliance with the contract requirements. The contracting agency must retain payrolls and statements of compliance for 3 years after completion of the contract and make them available when requested by the Department of Labor at any time during that period. Submitted payrolls must not be returned to a contractor or subcontractor for any reasons, but copies thereof may be furnished to the contractor or subcontractor who submitted them, or to a higher tier contractor or subcontractor. Particular attention should be given to-

(i) The correctness of classifications and rates;

(ii) Fringe benefits payments;

(iii) Hours worked;

(iv) Deductions; and

(v) Disproportionate employment ratios of laborers, apprentices, or trainees, to journeyman.

(2) Contractor payroll records in the Government's possession must be carefully protected from any public disclosure which is not required by law, since payroll records may contain information in which the contractor's employees have a privacy interest, as well as information in which the contractor may have a proprietary interest that the Government may be obliged to protect. Questions concerning release of this information may involve the Freedom of Information Act (FOIA).

(3) (i) The contracting officer must review the contractor's employment and payment records of apprentices and trainees made available pursuant to the clause at 52.222-8, Payrolls and Basic Records, to ensure that the contractor has complied with the clause at 52.222-9, Apprentices and Trainees.

(ii) If a contractor has classified employees as apprentices or trainees without complying with the requirements of the clause at 52.222-9, the contracting officer must reject the classification and require the contractor to pay the affected employees at the rates applicable to the classification of the work actually performed.

(g) For purposes of the clause at 52.222-6, if the interested parties (i.e. contractor, contracting officer, and employees or their representative) cannot agree on the "cash equivalent," the contracting officer must submit the question for final determination to the Department of Labor as prescribed by agency procedures. The information submitted must include—

(1) A comparison of the payments, contributions, or costs in the wage determination with those made or proposed as equivalents by the contractor; and

(2) The comments and recommendations of the contracting officer

(h) The following applies when modifying a contract to exercise an option to extend the term of a contract:

(1) Each time the contracting officer exercises an option to extend the term of a contract for construction, or a contract that includes substantial and segregable construction work, the contracting officer must modify the contract to incorporate the most current wage determination.

(2) A modified wage determination is effective if—

(i) The contracting agency receives a written action from the Department of Labor prior to exercise of the option, or within 45 days after submission of a wage determination request whichever is later; or

(ii) The Department of Labor publishes the modification to a general wage determination on the Wage Determinations at *SAM.gov* before exercise of the option.

(3) If the contracting officer receives an effective modified wage determination either before or after execution of the contract modification to exercise the option, the contracting officer must modify the contract to incorporate the modified wage determination, and any changed wage rates, effective as of the date that the option to extend was effective.

(4) The contracting officer must select the most current wage determination(s) from the same schedule(s) as the wage determination(s) incorporated into the contract.

(5) If a contract with an option to extend the term of the contract has indefinite-delivery or indefinite-quantity construction requirements, the contracting officer must incorporate the wage determination incorporated into the contract at the exercise of the option into task orders issued during that option period. The wage determination will be effective for the complete period of performance of those task orders without further revision.

(6) The contracting officer must include in fixed-price contracts a clause that specifies one of the following methods, suitable to the interest of the Government, to provide an allowance for any increases or decreases in labor costs that result from the inclusion of the current wage determination at the exercise of an option to extend the term of the contract:

(i) The contracting officer may provide the offerors the opportunity to bid or propose separate prices for each option period. The contracting officer must not further adjust the contract price as a result of the incorporation of a new or revised wage determination at the exercise of each option to extend the term of the contract. Generally, this method is used in construction-only contracts (with options to extend the term) that are not expected to exceed a total of 3 years.

(ii) The contracting officer may include in the contract a separately specified pricing method that permits an adjustment to the contract price or contract labor unit price at the exercise of each option to extend the term of the contract. At the time of option exercise, the contracting officer must incorporate a new wage determination into the contract, and must apply the specific pricing method to calculate the contract price adjustment. An example of a contract pricing method that the contracting officer might separately specify is incorporation in the solicitation and resulting contract of the pricing data from an annually published unit pricing book (*e.g.*, the U.S. Army Computer-Aided Cost Estimating System or similar commercial product), which is multiplied in the contract by a factor proposed by the contractor (*e.g.*, .95 or 1.1). At option exercise, the contracting officer incorporates the pricing data from the latest annual edition of the unit pricing book, multiplied by the factor agreed to in the basic contract. The contracting officer must not further adjust the contract price as a result of the incorporation of the new or revised wage determination.

(iii) The contracting officer may provide for a contract price adjustment based solely on a percentage rate determined by the contracting officer using a published economic indicator incorporated into the solicitation and resulting contract. At the exercise of each option to extend the term of the contract, the contracting officer will apply the percentage rate, based on the economic indicator, to the portion of the contract price or contract unit price designated in the contract clause as labor costs subject to the provisions of the Construction Wage Rate Requirements statute. The contracting officer must insert 50 percent as the estimated portion of the contract price that is labor unless the contracting officer determines, prior to issuance of the solicitation, that a different percentage is more appropriate for a particular contract or requirement. This percentage adjustment to the designated labor costs must be the only adjustment made to cover increases in wages and/or benefits resulting from the incorporation of a new or revised wage determination at the exercise of the option.

(iv) The contracting officer may provide a computation method to adjust the contract price to reflect the contractor's actual increase or decrease in wages and fringe benefits (combined) to the extent that the increase is made to comply with, or the decrease is voluntarily made by the contractor as a result of incorporation of, a new or revised wage determination at the exercise of the option to extend the term of the contract. Generally, this method is appropriate for use only if contract requirements are predominately services subject to the Service Contract Labor Standards statute and the construction requirements are substantial and segregable. The methods used to adjust the contract price for the service requirements and the construction requirements would be similar.

(i) For appealing a denial of reconsideration of a wage determination see 22.402-3(e).

22.404-2 Enforcement.

(a) *Policy.* Contracting agencies are responsible for ensuring the full and impartial enforcement of labor standards in the administration of construction contracts. Contracting agencies must maintain an effective program that must include—

(1) Ensuring that contractors and subcontractors are informed, before commencement of work, of their obligations under the labor standards clauses of the contract;

(2) Adequate payroll reviews, on-site inspections, and employee interviews to determine compliance by the contractor and subcontractors, and prompt initiation of corrective action when required;

(3) Prompt investigation and disposition of complaints; and

(4) Prompt submission of all reports required by the regulations on labor standards for contracts involving construction in this part.

(b) *Compliance checking.* The contracting officer must make checks and investigations on all contracts covered by this subpart as may be necessary to ensure compliance with the labor standards requirement of the contract.

(1) *Regular compliance checks.* Regular compliance checking includes the following activities:

(i) Employee interviews to determine correctness of classifications, rates of pay, fringe benefits payments, and hours worked. (See Standard Form 1445.)

(ii) On-site inspections to check type of work performed, number and classification of workers, and fulfillment of posting requirements.

(iii) Payroll reviews to ensure that payrolls of prime contractors and subcontractors have been submitted on time and are complete and in compliance with contract requirements.

(iv) Comparison of the information in this paragraph (b) with available data, including daily inspector's report and daily logs of construction, to ensure consistency.

(2) *Special compliance checks.* Situations that may require special compliance checks include—

(i) Inconsistencies, errors, or omissions detected during regular compliance checks; or

(ii) Receipt of a complaint alleging violations. If the complaint is not specific enough, the complainant must be so advised and invited to submit additional information.

(c) *Investigations*.

(1) *Contracting agency investigations*. Contracting agencies must conduct an investigation when a compliance check indicates that substantial or willful violations may have occurred or violations have not been corrected.

(i) The investigation must—

(A) Include all aspects of the contractor's compliance with contract labor standards requirements;

(B) Not be limited to specific areas raised in a complaint or uncovered during compliance checks; and

(C) Use personnel familiar with labor laws and their application to contracts.

(ii) Do not disclose contractor employees' oral or written statements taken during an investigation or the employee's identity to anyone other than an authorized Government official without that employee's prior signed consent.

(iii) Send a written request to the Administrator, Wage and Hour Division, to obtain—

(A) Investigation and enforcement instructions; or

(B) Available pertinent Department of Labor files.

(iv) Obtain permission from the Department of Labor before disclosing material obtained from Labor Department files, other than computations of back wages and liquidated damages and summaries of back wages due, to anyone other than Government contract administrators.

(v) The contracting officer must review the investigation report on receipt and make preliminary findings. The contracting officer normally must not base adverse findings solely on employee statements that the employee does not wish to have disclosed. However, if the investigation establishes a pattern of possible violations that are based on employees' statements that are not authorized for disclosure, the pattern itself may support a finding of noncompliance.

(vi) After completing the review, the contracting officer must—

(A) Provide the contractor any written preliminary findings and proposed corrective actions, and notice that the contractor has the right to request that the basis for the findings be made available and to submit written rebuttal information.

(B) Upon request, provide the contractor with rationale for the findings. However, under no circumstances will the contracting officer permit the contractor to examine the investigation report. Also, the contracting officer must not disclose the identity of any employee who filed a complaint or who was interviewed, without the prior consent of the employee.

(C)

(1) The contractor may rebut the findings in writing within 60 days after it receives a copy of the preliminary findings. The rebuttal becomes part of the official investigation record. If the contractor submits a rebuttal, evaluate the preliminary findings and notify the contractor of the final findings.

(2) If the contracting officer does not receive a timely rebuttal, the contracting officer must consider the preliminary findings final.

(D) If appropriate, request the contractor to make restitution for underpaid wages and assess liquidated damages. If the request includes liquidated damages, the request must state that the contractor has 60 days to request relief from such assessment.

(vii) After taking the actions prescribed in paragraphs (c)(1)(v) and (c)(1)(vi) of this subsection—

(A) The contracting officer must prepare and forward a report of any violations, including findings and supporting evidence, to the agency head. Standard Form 1446, Labor Standards Investigation Summary Sheet, is the first page of the report; and

(B) The agency head must process the report as follows:

(1) The contracting officer must send a detailed enforcement report to the Administrator, Wage and Hour Division, within 60 days after completion of the investigation, if—

(i) A contractor or subcontractor underpaid by $1,000 or more;

(ii) The contracting officer believes that the violations are aggravated or willful (or there is reason to believe that the contractor has disregarded its obligations to employees and subcontractors under the Construction Wage Rate Requirements statute);

(iii) The contractor or subcontractor has not made restitution; or

(iv) Future compliance has not been assured.

(2) If the Department of Labor expressly requested the investigation and none of the conditions in paragraph (c)(1)(vii)(B)(*1*) of this subsection exist, submit a summary report to the Administrator, Wage and Hour Division. The report must include—

(i) A summary of any violations;

(ii) The amount of restitution paid;

(iii) The number of workers who received restitution;

(iv) The amount of liquidated damages assessed under the Contract Work Hours and Safety Standards statute;

(v) Corrective measures taken; and

(vi) Any information that may be necessary to review any recommendations for an appropriate adjustment in liquidated damages.

(3) If none of the conditions in paragraphs (c)(1)(vii)(B)(*1*) or (*2*) of this subsection are present, close the case and retain the report in the appropriate contract file.

(4) If substantial evidence is found that violations are willful and in violation of a criminal statute, (generally 18 U.S.C. 874 or 1001), forward the report (supplemented if necessary) to the Attorney General of the United States for prosecution if the facts warrant. Notify the Administrator, Wage and Hour Division, when the report is forwarded for the Attorney General's consideration.

(2) *Department of Labor investigations.* The Department of Labor will furnish the contracting officer an enforcement report detailing violations found and any corrective action taken by the contractor, in investigations that disclose—

(i) Underpayments totaling $1,000 or more;

(ii) Aggravated or willful violations (or, when the contracting officer believes that the contractor has disregarded its obligations to employees and subcontractors under the Construction Wage Rate Requirements statute); or

(iii) Potential assessment of liquidated damages under the Contract Work Hours and Safety Standards statute.

(3) *Other investigations.* The Department of Labor will provide a letter summarizing the findings of the investigation to the contracting officer for all investigations that are not described in paragraph (c)(2) of this subsection.

(4) *Cooperation*.

(i) The contracting agency must cooperate with representatives of the Department of Labor in the inspection of records, interviews with workers, and all other aspects of investigations undertaken by the Department of Labor.

(ii) When requested, the contracting agency must furnish to the Secretary any available information on contractors, subcontractors, current and previous contracts, and the nature of the contract work.

(iii) If a Department of Labor representative undertakes an investigation at a construction project, the contracting officer must inquire into the scope of the investigation, and request to be notified immediately of any violations discovered under the Construction Wage Rate Requirements statute, the Contract Work Hours and Safety Standards statute, or the Copeland (Anti-Kickback) Act.

(d) *Report*. A semiannual report on compliance with and enforcement of the construction labor standards requirements of the Construction Wage Rate Requirements statute and Contract Work Hours and Safety Standards statute is required from each contracting agency. The reporting periods are October 1 through March 31 and April 1 through September 30.

The reports must only contain information as to the enforcement actions of the contracting agency and must be prepared as prescribed in Department of Labor memoranda and submitted to the Department of Labor within 30 days after the end of the reporting period. This report has been assigned interagency report control number 1482-DOL-SA.

(e) *Withholding payment*.

(1) If the contractor fails to submit copies of its or its subcontractors' payrolls promptly under clause 52.222-8, the contracting officer must, from any payment due to the contractor, from any current Federal contract or Federally assisted contract with the same prime contractor that is subject to either the Construction Wage Rate Requirements statute or Contract Work Hours and Safety Standards statute requirements, withhold approval of an amount that the contracting officer considers necessary to protect the interest of the Government and the employees of the contractor or any subcontractor.

(2)

(i) If the contracting officer believes a violation exists (see paragraph (a) of this subsection), or upon request of the Department of Labor, the contracting officer must withhold from payments due the contractor an amount equal to the estimated wage underpayment and estimated liquidated damages due the United States under the Contract Work Hours and Safety Standards statute. (See 22.302.)

(ii) Use withheld funds as provided in paragraph (g) of this subsection to satisfy assessed liquidated damages, and unless the contractor makes restitution, validated wage underpayments.

(f) *Suspension of contract payments.* If a contractor or subcontractor fails or refuses to comply with the labor standards clauses of the Construction Wage Rate Requirements statute and related statutes, the agency, upon its own action or upon the written request of the Department of Labor, must suspend any further payment, advance, or guarantee of funds until the violations cease or until the agency has withheld sufficient funds to compensate employees for back wages, and to cover any liquidated damages due.

(g) *Disposition of contract payments withheld or suspended* —

(1) *Forwarding wage underpayments to the Secretary.* Upon final administrative determination, if the contractor or subcontractor has not made restitution, the contracting officer must follow the Department of Labor guidance published in Wage and Hour Division, All Agency Memorandum (AAM) No. 215, Streamlining Claims for Federal Contractor Employees Act. The AAM No. 215 can be obtained at *http://www.dol.gov/whd/govcontracts/dbra.htm;* under Guidance there is a link for All Agencies Memoranda (AAMs).

(2) *Returning of withheld funds to contractor.* When funds withheld exceed the amount required to satisfy validated wage underpayments and assessed liquidated damages, return the funds to the contractor.

(3) *Liquidated damages.* Upon final administrative determination, the contracting officer must dispose of funds withheld or collected for liquidated damages in accordance with agency procedures.

(h) *Reporting terminations*. If a contract or subcontract is terminated for violation of the labor standards clauses, the contracting agency must submit a report to the Administrator, Wage and Hour Division. The report must include the number of the terminated contract.

(i) *Disputes*.

(1) Disputes between the contracting officer and contractors concerning construction contract labor standards enforcement will be settled by the Department of Labor.

(2) The Administrator, Wage and Hour Division, will respond directly to the contractor or subcontractor, with a copy to the contracting agency. The contractor or subcontractor may appeal the Administrator's findings in accordance with the procedures outlined in Labor Department Regulations (29 CFR 5.11). Hearings before administrative law judges are conducted in accordance with 29 CFR part 6, and hearings before the Labor Department Administrative Review Board are conducted in accordance with 29 CFR part 7.

Subpart 22.5 - Project Labor Agreements for Federal Construction Projects.

22.500 Scope.

This subpart prescribes policies and procedures to implement Executive Order 14063, Use of Project Labor Agreements for Federal Construction Projects, dated February 4, 2022 (3 CFR, 2023 Comp., pp 335-338).

22.501 Definitions.

As used in this subpart --

Construction means construction, reconstruction, rehabilitation, modernization, alteration, conversion, extension, repair, or improvement of buildings, structures, highways, or other real property.

Labor organization means a labor organization as defined in 29 U.S.C. 152(5) of which building and construction employees are members.

Large-scale construction project means a Federal construction project within the United States for which the total estimated cost of the construction contract to the Federal Government is $35 million or more.

Project labor agreement means a pre-hire collective bargaining agreement with one or more labor organizations that establishes the terms and conditions of employment for a specific construction project and is an agreement described in 29 U.S.C. 158(f).

22.502 Presolicitation.

22.502-1 Policy.

(a) Executive Order (E.O.) 14063, Use of Project Labor Agreements for Federal Construction Projects, requires agencies to use project labor agreements in large-scale construction projects to promote economy and efficiency in the administration and completion of Federal construction projects.

(b) When awarding a contract in connection with a large-scale construction project, agencies must require use of project labor agreements for contractors and subcontractors engaged in construction on the project, unless an exception at 22.502-2(d) applies.

(c) An agency may require the use of a project labor agreement on projects where the total cost to the Federal Government is less than that for a large-scale construction project, if appropriate.

(1) An agency may, if appropriate, require that every contractor and subcontractor engaged in construction on the project agree, for that project, to negotiate or become a party to a project labor agreement with one or more labor organizations if the agency decides that the use of project labor agreements will—

(i) Advance the Federal Government's interest in achieving economy and efficiency in Federal procurement, producing labor-management stability, and ensuring compliance with laws and regulations governing safety and health, equal employment opportunity, labor and employment standards, and other matters; and

(ii) Be consistent with law.

(2) Agencies may consider the following factors in deciding whether the use of a project labor agreement is appropriate for a construction project where the total cost to the Federal Government is less than that for a large-scale construction project:

(i) The project will require multiple construction contractors and/or subcontractors employing workers in multiple crafts or trades.

(ii) There is a shortage of skilled labor in the region in which the construction project will be sited.

(iii) Completion of the project will require an extended period of time.

(iv) Project labor agreements have been used on comparable projects undertaken by Federal, State, municipal, or private entities in the geographic area of the project.

(v) A project labor agreement will promote the agency's long term program interests, such as facilitating the training of a skilled workforce to meet the agency's future construction needs.

(vi) Any other factors that the agency decides are appropriate.

(d) For indefinite-delivery indefinite-quantity (IDIQ) contracts the use of a project labor agreement may be required on an order-by-order basis rather than for the entire contract. For an order at or above $35 million an agency must require the use of a project labor agreement unless an exception applies. See 22.502-2(d)(3) and 22.502-3(b)(3).

22.502-2 General requirements.

(a) *General.* Project labor agreements established under this subpart must fully conform to all statutes, regulations, and Executive orders.

(b) *Requirements.* A project labor agreement must—

(1) Bind all contractors and subcontractors engaged in construction on the construction project to comply with the project labor agreement;

(2) Allow all contractors and subcontractors to compete for contracts and subcontracts without regard to whether they are otherwise parties to collective bargaining agreements;

(3) Contain guarantees against strikes, lockouts, and similar job disruptions;

(4) Set forth effective, prompt, and mutually binding procedures for resolving labor disputes arising during the term of the project labor agreement;

(5) Provide other mechanisms for labor-management cooperation on matters of mutual interest and concern, including productivity, quality of work, safety, and health; and

(6) Include any additional requirements as the agency deems necessary to satisfy its needs.

(c) *Labor organizations.* An agency may not require contractors or subcontractors to enter into a project labor agreement with any particular labor organization.

(d) *Exceptions to project labor agreement requirements* —

(1) *Exception.* The senior procurement executive may grant an exception from the requirements at 22.502-1(b), providing a specific written explanation of why at least one of the following conditions exists with respect to the particular contract:

(i) Requiring a project labor agreement on the project would not advance the Federal Government's interests in achieving economy and efficiency in Federal procurement. The exception must be based on one or more of the following factors:

(A) The project is of short duration and lacks operational complexity.

(B) The project will involve only one craft or trade.

(C) The project will involve specialized construction work that is available from only a limited number of contractors or subcontractors.

(D) The agency's need for the project is of such an unusual and compelling urgency that a project labor agreement would be impracticable.

(ii) Market research indicates that requiring a project labor agreement on the project would substantially reduce the number of potential offerors to such a degree that adequate competition at a fair and reasonable price could not be achieved. (See 10.002(b)(1) and 36.104). A likely reduction in the number of potential offerors is not, by itself, sufficient to except a contract from coverage under this authority unless it is coupled with the finding that the reduction would not allow for adequate competition at a fair and reasonable price.

(iii) Requiring a project labor agreement on the project would otherwise be inconsistent with Federal statutes, regulations, Executive orders, or Presidential memoranda.

(2) *Considerations.* When determining whether the exception in paragraph (d)(1)(ii) of this subsection applies, contracting officers must consider current market conditions and the extent to which price fluctuations may be attributable to factors other than the requirement for a project labor agreement (*e.g.,* costs of labor or materials, supply chain costs). Agencies may rely on price analysis conducted on recent competitive proposals for construction projects of a similar size and scope.

(3) *Timing of the exception* —

(i) *Contracts other than IDIQ contracts.* The exception must be granted for a particular contract by the solicitation date.

(ii) *IDIQ contracts.* An exception must be granted prior to the solicitation date if the basis for the exception cited would apply to all orders. Otherwise, exceptions must be granted for each order by the time of the notice of the intent to place an order (*e.g.,* 16.505(b)(1)).

22.502-3 Solicitation provision and contract clause.

When a project labor agreement is used for a construction project, the contracting officer must—

(a) (1) Insert the provision at 52.222-33, Notice of Requirement for Project Labor Agreement, in solicitations containing the clause 52.222-34, Project Labor Agreement.

(2) Use the provision with its Alternate I if the agency will require the submission of a project labor agreement from only the apparent successful offeror, prior to contract award.

(3) Use the provision with its Alternate II if an agency allows submission of a project labor agreement after contract award except when Alternate III is used.

(4) Use the provision with its Alternate III when Alternate II of 52.222-34 is used.

(b) (1) Insert the clause at 52.222-34, Project Labor Agreement, in solicitations and contracts associated with the construction project.

(2) Use the clause with its Alternate I if an agency allows submission of the project labor agreement after contract award except when Alternate II is used.

(3) Use the clause with its Alternate II in IDIQ contracts when the agency will have project labor agreements negotiated on an order-by-order basis and anticipates one or more orders may not use a project labor agreement.

This page intentionally left blank.

Subpart 22.6 - Contracts for Materials, Supplies, Articles, and Equipment.

22.601 Presolicitation.

22.601-1 Statutory requirement.

Except for the exemptions at 22.601-3, all contracts subject to 41 U.S.C. chapter 65 (the statute), and entered into by any executive department, independent establishment, or other agency or instrumentality of the United States, or by the District of Columbia, or by any corporation (all the stock of which is beneficially owned by the United States) for the manufacture or furnishing of materials, supplies, articles, and equipment (referred to in this subpart as supplies) in any amount exceeding $20,000, must include or incorporate by reference the stipulations required by the statute pertaining to such matters as minimum wages, maximum hours, child labor, convict labor, and safe and sanitary working conditions.

22.601-2 Applicability.

The requirements of this subpart apply to contracts (including for this purpose, indefinite-delivery contracts, basic ordering agreements, and blanket purchase agreements) for the manufacture or furnishing of supplies that—

(a) Will be performed in the United States, Puerto Rico, or the U.S. Virgin Islands;

(b) Exceed or may exceed $20,000; and

(c) Are not exempt under 22.601-3.

22.601-3 Exemptions.

(a) Contracts for acquisition of the following supplies are statutorily exempt from the requirements of this subpart:

(1) Any item in those situations where the contracting officer is authorized by the express language of a statute to purchase “in the open market” generally (such as commercial products and commercial services, see part 12); or where a specific purchase is made under the conditions described in 6.302-2 in circumstances where immediate delivery is required by the public exigency.

(2) Perishables, including dairy, livestock, and nursery products.

(3) Agricultural or farm products processed for first sale by the original producers.

(4) Agricultural commodities or the products thereof purchased under contract by the Secretary of Agriculture.

(b) Contracts for the following acquisitions are regulatorily exempt from the requirements of this subpart (see 41 CFR 50-201.603):

(1) Public utility services.

(2) Supplies manufactured outside the United States, Puerto Rico, and the U.S. Virgin Islands.

(3) Purchases against the account of a defaulting contractor where the stipulations of the statute were not included in the defaulted contract.

(4) Newspapers, magazines, or periodicals, contracted for with sales agents or publisher representatives, which are to be delivered by the publishers thereof.

(c) (1) Upon the request of the agency head, the Secretary may exempt specific contracts or classes of contracts from the inclusion or application of one or more of the statute’s stipulations; *provided,* that the request includes a finding by the agency head stating the reasons why the conduct of Government business will be seriously impaired unless the exemption is granted.

(2) Those requests for exemption that relate solely to safety and health standards must be transmitted to the Assistant Secretary for Occupational Safety and Health, U.S. Department of Labor, Washington, DC 20210. All other requests must be transmitted to the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210.

22.601-4 Rulings and interpretations of the statute.

As authorized by the statute, the Secretary of Labor has issued rulings and interpretations concerning the administration of the statute (see 41 CFR 50-206). The substance of certain rulings and interpretations is as follows:

(a) If a contract for $20,000 or less is subsequently modified to exceed $20,000, the contract becomes subject to the statute for work performed after the date of the modification.

(b) If a contract for more than $20,000 is subsequently modified by mutual agreement to $20,000 or less, the contract is not subject to the statute for work performed after the date of the modification.

(c) If a contract awarded to a prime contractor contains a provision whereby the prime contractor is made an agent of the Government, the prime contractor is required to include the stipulations of the statute in contracts in excess of

$20,000 awarded for and on behalf of the Government for supplies that are to be used in the construction and equipment of Government facilities.

(d) If a contract subject to the statute is awarded to a contractor operating Government-owned facilities, the stipulations of the statute affect the employees of that contractor the same as employees of contractors operating privately owned facilities.

(e) Indefinite-delivery contracts, including basic ordering agreements and blanket purchase agreements, are subject to the statute unless it can be determined in advance that the aggregate amount of all orders estimated to be placed thereunder for 1 year after the effective date of the agreement will not exceed $20,000. A determination must be made annually thereafter if the contract or agreement is extended, and the contract or agreement modified if necessary.

22.601-5 Solicitation provisions and contract clauses.

Insert the clause at 52.222-20, Contracts for Materials, Supplies, Articles, and Equipment, in solicitations and contracts covered by the statute (see 22.601-2 and 22.601-3).

22.602 Postaward.

In the event of a violation of a stipulation required under 41 U.S.C. Chapter 65, the contracting officer must, in accordance with agency procedures, notify the appropriate regional office of the DOL, Wage and Hour Division (see 29 CFR part 1, Appendix B), and furnish any information available.

Subpart 22.7 – Reserved.

This page intentionally left blank.

Subpart 22.8 – Reserved.

This page intentionally left blank.

Subpart 22.9 - Nondiscrimination Because of Age.

22.901 Presolicitation.

22.901-1 General.

Executive Order 11141, February 12, 1964 (29 FR 2477), states that the Government policy is as follows:

(a) Contractors and subcontractors must not, in connection with employment, advancement, or discharge of employees, or the terms, conditions, or privileges of their employment, discriminate against persons because of their age except upon the basis of a bona fide occupational qualification, retirement plan, or statutory requirement.

(b) Contractors and subcontractors, or persons acting on their behalf, must not specify in solicitations or advertisements for employees to work on Government contracts, a maximum age limit for employment unless the specified maximum age limit is based upon a bona fide occupational qualification, retirement plan, or statutory requirement.

(c) Agencies will bring this policy to the attention of contractors. The use of contract clauses is not required.

22.902 Postaward.

Agencies must bring complaints regarding a contractor's compliance with the policy in Executive Order 11141 to that contractor's attention (in writing, if appropriate), stating the policy, indicating that the contractor's compliance has been questioned, and requesting that the contractor take any appropriate steps that may be necessary to comply.

This page intentionally left blank.

Subpart 22.10 - Service Contract Labor Standards.

22.1000 Scope.

This subpart prescribes policies and procedures implementing the provisions of 41 U.S.C. chapter 67, Service Contract Labor Standards (formerly known as the Service Contract Act of 1965) and related Secretary of Labor regulations and instructions (29 CFR parts 4, 6, 8, and 1925).

22.1001 Definitions.

As used in this subpart—

Contractor includes a subcontractor at any tier whose subcontract is subject to the provisions of the statute.

Multiple year contracts means contracts having a term of more than 1 year regardless of fiscal year funding. The term includes multi-year contracts (see 17.102).

United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, Johnston Island, Wake Island, and the outer Continental Shelf as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331, et seq.), but does not include any other place subject to U.S. jurisdiction or any U.S. base or possession within a foreign country (29 CFR 4.112).

22.1002 Presolicitation.

22.1002-1 Applicability.

(a) [Reserved]

(b) This subpart applies to all Government contracts, the principal purpose of which is to furnish services in the United States through the use of service employees, except as exempted in paragraphs (c) through (g) of this subsection, or any subcontract at any tier thereunder. More information on “principal purpose” can be found here.

(c) The Service Contract Labor Standards statute does not apply to—

(1) Any contract for construction, alteration, or repair of public buildings or public works, including painting and decorating;

(2) Any work required to be done in accordance with the provisions of 41 U.S.C. chapter 65;

(3) Any contract for transporting freight or personnel by vessel, aircraft, bus, truck, express, railroad, or oil or gas pipeline where published tariff rates are in effect;

(4) Any contract for furnishing services by radio, telephone, or cable companies subject to the Communications Act of 1934;

(5) Any contract for public utility services;

(6) Any employment contract providing for direct services to a Federal agency by an individual or individuals; or

(7) Any contract for operating postal contract stations for the U.S. Postal Service.

(d) In addition to the statutory exemptions cited in paragraph (c) of this subsection, the Secretary has exempted the following types of contracts from all provisions of the Service Contract Labor Standards statute:

(1) Contracts entered into by the United States with common carriers for the carriage of mail by rail, air (except air star routes), bus, and ocean vessel, where such carriage is performed on regularly scheduled runs of the trains, airplanes, buses, and vessels over regularly established routes and accounts for an insubstantial portion of the revenue therefrom.

(2) Any contract entered into by the U.S. Postal Service with an individual owner-operator for mail service if it is not contemplated at the time the contract is made that the owner-operator will hire any service employee to perform the services under the contract except for short periods of vacation time or for unexpected contingencies or emergency situations such as illness, or accident.

(3) Contracts for the carriage of freight or personnel if such carriage is subject to rates covered by section 10721 of the Interstate Commerce Act.

(e) (1) The Secretary has exempted from the Service Contract Labor Standards statute contracts and subcontracts in which the primary purpose is to furnish maintenance, calibration, or repair of the following types of equipment, if the conditions at paragraph (e)(2) of this subsection are met:

(i) Automated data processing equipment and office information/word processing systems.

(ii) Scientific equipment and medical apparatus or equipment if the application of micro-electronic circuitry or other technology of at least similar sophistication is an essential element (for example, Product or Service Code (PSC) 6515, “Medical and Surgical Instruments, Equipment, and Supplies;” PSC 6525, “Imaging Equipment and Supplies: Medical, Dental, Veterinary;" PSC 6630, "Chemical Analysis Instruments;" and PSC 6655, "Geophysical Instruments," are largely composed of the types of equipment exempted in this paragraph).

(iii) Office/business machines not otherwise exempt pursuant to paragraph (c)(1)(i) of this subsection, if such services are performed by the manufacturer or supplier of the equipment.

(2) The exemption at paragraph (e)(1) of this subsection applies if all the following conditions are met for a contract (or a subcontract):

(i) The items of equipment to be serviced under the contract are used regularly for other than Government purposes and are sold or traded by the contractor in substantial quantities to the general public in the course of normal business operations.

(ii) The services will be furnished at prices which are, or are based on, established catalog or market prices for the maintenance, calibration, or repair of such equipment. As defined at 29 CFR 4.123(e)(1)(ii)(B)—

(A) An established catalog price is a price included in a catalog price list, schedule, or other form that is regularly maintained by the manufacturer or the contractor, is either published or otherwise available for inspection by customers, and states prices at which sales currently, or were last, made to a significant number of buyers constituting the general public.

(B) An established market price is a current price, established in the usual course of trade between buyers and sellers free to bargain, which can be substantiated from sources independent of the manufacturer or contractor.

(iii) The contractor will use the same compensation (wage and fringe benefits) plan for all service employees performing work under the contract as the contractor uses for these employees and equivalent employees servicing the same equipment of commercial customers.

(iv) The apparent successful offeror certifies to the conditions in paragraph (c)(2)(i) through (iii) of the provision at 52.222-48, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment—Certification.

(3) (i) For source selections where the contracting officer has established a competitive range, if the contracting officer determines that one or more of the conditions in paragraphs (e)(2)(i) through (iii) of an offeror's certification will not be met, the contracting officer must identify the deficiency to the offeror before receipt of the final proposal revisions. Unless the offeror provides a revised offer acknowledging applicability of the Service Contract Labor Standards statute or demonstrating to the satisfaction of the contracting officer an ability to meet all required conditions for exemption, the offer will not be further considered for award.

(ii) The contracting officer must determine in writing the applicability of this exemption to the contract before contract award. If the apparent successful offeror will meet all conditions in paragraph (e)(2) of this subsection, the contracting officer must make an affirmative determination and award the contract without the otherwise applicable Service Contract Labor Standards clause(s).

(iii) If the apparent successful offeror does not certify to the conditions in paragraph (e)(2)(i) through (iii) of this subsection, the contracting officer must incorporate in the contract the Service Contract Labor Standards clause (see 22.1002-2(b)) and, if the contract will exceed $2,500, the appropriate Department of Labor wage determination (see 22.1002-3).

(4) (i) If the Department of Labor determines after award of the contract that any condition for exemption in paragraph (e)(2) of this subsection has not been met, the exemption shall be deemed inapplicable, and the contract must become subject to the Service Contract Labor Standards statute, effective as of the date of the Department of Labor determination. In such case, the procedures at 29 CFR 4.123(e)(1)(iv) and 29 CFR 4.5(c) must be followed.

(ii) If the Department of Labor determines that any conditions in paragraph (e)(2) of this subsection have not been met with respect to a subcontract, the exemption must be deemed inapplicable. The contractor may be responsible for ensuring that the subcontractor complies with the Service Contract Labor Standards statute, effective as of the date of the subcontract award.

(f) (1) Except as provided in paragraph (f)(5) of this subsection, the Secretary has exempted from the Service Contract Labor Standards statute contracts and subcontracts in which the primary purpose is to provide the following services, if the conditions in paragraph (f)(2) of this subsection are met:

(i) Automobile or other vehicle (*e.g.*, aircraft) maintenance services (other than contracts or subcontracts to operate a Government motor pool or similar facility).

(ii) Financial services involving the issuance and servicing of cards (including credit cards, debit cards, purchase cards, smart cards, and similar card services).

(iii) Hotel/motel services for conferences, including lodging and/or meals, that are part of the contract or subcontract for the conference (which must not include ongoing contracts for lodging on an as needed or continuing basis).

(iv) Maintenance, calibration, repair, and/or installation (where the installation is not subject to the Construction Wage Rate Requirements statute, as provided in 29 CFR 4.116(c)(2)) services for all types of equipment where the services are obtained from the manufacturer or supplier of the equipment under a contract awarded on a sole source basis.

(v) Transportation by common carrier of persons by air, motor vehicle, rail, or marine vessel on regularly scheduled routes or via standard commercial services (not including charter services).

(vi) Real estate services, including real property appraisal services, related to housing Federal agencies or disposing of real property owned by the Government.

(vii) Relocation services, including services of real estate brokers and appraisers to assist Federal employees or military personnel in buying and selling homes (which must not include actual moving or storage of household goods and related services).

(2) The exemption for the services in paragraph (f)(1) of this subsection applies if all the following conditions are met for a contract (or for a subcontract):

(i) (A) Except for services identified in paragraph (f)(1)(iv) of this subsection, the contractor will be selected for award based on other factors in addition to price or cost, with the combination of other factors at least as important as price or cost; or

(B) The contract will be awarded on a sole source basis.

(ii) The services under the contract are offered and sold regularly to non-Governmental customers, and are provided by the contractor (or subcontractor in the case of an exempt subcontract) to the general public in substantial quantities in the course of normal business operations.

(iii) The contract services are furnished at prices that are, or are based on, established catalog or market prices. As defined at 29 CFR 4.123(e)(2)(ii)(C)—

(A) An established catalog price is a price included in a catalog, price list, schedule, or other form that is regularly maintained by the contractor, is either published or otherwise available for inspection by customers, and states prices at which sales are currently, or were last, made to a significant number of buyers constituting the general public; and

(B) An established market price is a current price, established in the usual course of trade between buyers and sellers free to bargain, which can be substantiated from sources independent of the manufacturer or contractor.

(iv) Each service employee who will perform the services under the contract will spend only a small portion of his or her time (a monthly average of less than 20 percent of the available hours on an annualized basis, or less than 20 percent of available hours during the contract period if the contract period is less than a month) servicing the Government contract.

(v) The contractor will use the same compensation (wage and fringe benefits) plan for all service employees performing work under the contract as the contractor uses for these employees and equivalent employees servicing commercial customers.

(vi) The contracting officer (or contractor with respect to a subcontract) determines in advance before issuing the solicitation, based on the nature of the contract requirements and knowledge of the practices of likely offerors, that all or nearly all offerors will meet the conditions in paragraph (f)(2)(ii) through (v) of this subsection. If the services are currently being performed under contract, the contracting officer (or contractor with respect to a subcontract) must consider the practices of the existing contractor in making a determination regarding the conditions in paragraphs (f)(2)(ii) through (v) of this subsection.

(vii) (A) The apparent successful offeror certifies that the conditions in paragraphs (f)(2)(ii) through (v) will be met; and

(B) For other than sole source awards, the contracting officer determines that the same certification is obtained from substantially all other offerors that are—

(1) In the competitive range, if discussions are to be conducted (see FAR 15.306)(c)); or

(2) Considered responsive, if award is to be made without discussions (see FAR 15.306(a)).

(3) (i) If the apparent successful offeror does not certify to the conditions, the contracting officer must insert in the contract the applicable Service Contract Labor Standards clause(s) (see 22.1002-2(b)) and, if the contract will exceed $2,500, the appropriate Department of Labor wage determination (see 22.1002-3).

(ii) The contracting officer must award the contract without the otherwise applicable Service Contract Labor Standards clause(s) if—

(A) The apparent successful offeror certifies to the conditions in paragraphs (f)(2)(ii) through (v) of this subsection;

(B) The contracting officer determines that the same certification is obtained from substantially all other offerors that are—

(1) In the competitive range, if discussions are to be conducted (see FAR 15.306); or

(2) Considered responsive, if award is to be made without discussions (see FAR 15.306(a)); and

(C) The contracting officer has no reason to doubt the certification.

(iii) If the conditions in paragraph (f)(3)(ii) of this subsection are not met, then the contracting officer must resolicit, amending the solicitation by removing the exemption provision from the solicitation as prescribed at 22.1002-2(e)(3). The contract will include the applicable Service Contract Labor Standards clause(s) as prescribed at 22.1002-2(b) and, if the contract will exceed $2,500, the appropriate Department of Labor wage determination (see 22.1002-3).

(4) (i) If the Department of Labor determines after award of the contract that any conditions for exemption at paragraph (f)(2) of this subsection have not been met, the exemption shall be deemed inapplicable, and the contract must become subject to the Service Contract Labor Standards statute. In such case, the procedures at 29 CFR 4.123(e)(2)(iii) and 29 CFR 4.5(c) must be followed.

(ii) If the Department of Labor determines that any conditions in paragraph (f)(2) of this subsection have not been met with respect to a subcontract, the exemption must be deemed inapplicable. The contractor may be responsible for ensuring that the subcontractor complies with the Service Contract Labor Standards statute, effective as of the date of the subcontract award.

(5) The exemption at paragraph (f)(1) of this subsection does not apply to solicitations and contracts (subcontracts)—

(i) Awarded under 41 U.S.C. chapter 85, Committee for Purchase from People Who Are Blind or Severely Disabled (see part 8).

(ii) For the operation of a Government facility, or part of a Government facility (but may be applicable to subcontracts for services); or

(iii) Subject to 41 U.S.C. 6707(c) (see 22.1002-3(b)(2)).

(g) See 29 CFR 4.123 for a listing of administrative exemptions, tolerances, and variations. Requests for limitations, variances, tolerances, and exemptions from the Service Contract Labor Standards statute must be submitted in writing through contracting channels and the agency labor advisor to the Wage and Hour Administrator.

(h) If the contracting officer questions the applicability of the Service Contract Labor Standards statute to an acquisition, the contracting officer must request the advice of the agency labor advisor. Unresolved questions must be submitted in a timely manner to the Administrator, Wage and Hour Division, for determination.

22.1002-2 Solicitation provisions and contract clauses.

(a) (1) Service contracts over $2,500 must contain mandatory provisions regarding minimum wages and fringe benefits (see coverage on wage determinations at 22.1002-3), safe and sanitary working conditions, notification to employees of the minimum allowable compensation (see 22.1003), and equivalent Federal employee classifications and wage rates (see paragraph (c) of this subsection).

(2) Under 41 U.S.C. 6707(d), service contracts may not exceed 5 years.

(b) (1) Insert the clause at 52.222-41, Service Contract Labor Standards, in solicitations and contracts (except as provided in paragraph (b)(2) of this subsection) if the contract is subject to the Service Contract Labor Standards statute and is—

(i) Over $2,500; or

(ii) For an indefinite dollar amount and the contracting officer does not know in advance that the contract amount will be $2,500 or less.

(2) The contracting officer must not insert the clause at 52.222-41 (or any of the associated Service Contract Labor Standards statute clauses as prescribed in this subsection for possible use when 52.222-41 applies) in the resultant contract if —

(i) The solicitation includes the provision at—

(A) 52.222-48, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment—Certification; or

(B) 52.222-52, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services—Certification; and

(ii) The contracting officer has made the determination, in accordance with paragraphs (e)(3) or (f)(3) of subsection 22.1002-1, that the Service Contract Labor Standards statute does not apply to the contract. (In such case, insert the clause at 52.222-51, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment—Requirements, or 52.222-53, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services—Requirements, in the contract, in accordance with the prescription at paragraph (e)(2)(ii) or (e)(4)(ii) of this subsection).

(c) (1) Insert the clause at 52.222-42, Statement of Equivalent Rates for Federal Hires, in solicitations and contracts if the contract amount is expected to be over $2,500 and the Service Contract Labor Standards statute is applicable.

(2) The statement required under the clause must set forth those wage rates and fringe benefits that would be paid by the contracting activity to the various classes of service employees expected to be utilized under the contract if 5 U.S.C. 5332 (General Schedule—white collar) and/or 5 U.S.C. 5341 (Wage Board—blue collar) were applicable.

(d) (1) Insert the clause at 52.222-43, Fair Labor Standards Act and Service Contract Labor Standards—Price Adjustment (Multiple Year and Option Contracts), or another clause which accomplishes the same purpose, in solicitations and contracts if the contract is expected to be a fixed-price, time-and-materials, or labor-hour service contract containing the clause at 52.222-41, Service Contract Labor Standards, and is a multiple year contract or is a contract with options to renew which exceeds the simplified acquisition threshold. The clause may be used in contracts that do not exceed the simplified acquisition threshold. The clause at 52.222-43, Fair Labor Standards Act and Service Contract Labor Standards—Price Adjustment (Multiple Year and Option Contracts), applies to both contracts subject to area prevailing wage determinations and contracts subject to the incumbent contractor's collective bargaining agreement in effect during this contract's preceding contract period (see 22.1002-3(a) and (b)). Contracting officers must ensure that contract prices or contract unit price labor rates are adjusted only to the extent that a contractor's increases or decreases in applicable wages and fringe benefits are made to comply with the requirements set forth in the clauses at 52.222-43 (subparagraphs (d) (1), (2) and (3)), or 52.222-44 (subparagraphs (b) (1) and (2)).

(2) The contracting officer must insert the clause at 52.222-44, Fair Labor Standards Act and Service Contract Labor Standards—Price Adjustment, in solicitations and contracts if the contract is expected to be a fixed-price, time-and-materials, or labor-hour service contract containing the clause at 52.222-41, Service Contract Labor Standards, exceeds the simplified acquisition threshold, and is not a multiple year contract or is not a contract with options to renew. The clause may be used in contracts that do not exceed the simplified acquisition threshold. The clause at 52.222-44, Fair Labor Standards Act and Service Contract Labor Standards—Price Adjustment, applies to both contracts subject to area prevailing wage determinations and contracts subject to contractor collective bargaining agreements (see 22.1002-3(a) and (b)).

(3) The clauses prescribed in paragraph (d)(1) of this subsection cover situations in which revised minimum wage rates are applied to contracts by operation of law, or by revision of a wage determination in connection with (i) exercise of a contract option or (ii) extension of a multiple year contract into a new program year.

(e) (1) Insert the provision at 52.222-48, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment—Certification, in solicitations that—

(i) Include the clause at 52.222-41, Service Contract Labor Standards; and

(ii) The contract may be exempt from the Service Contract Labor Standards statute in accordance with 22.1002-1(e).

(2) The contracting officer must insert the clause at 52.222-51, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment—Requirements—

(i) In solicitations that include the provision at 52.222-48; and

(ii) In resulting contracts in which the contracting officer has determined, in accordance with 22.1002-1(e)(3), that the Service Contract Labor Standards statute does not apply.

(3) (i) Except as provided in paragraph (e)(3)(ii) of this subsection, the contracting officer must insert the provision at 52.222-52, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services—Certification, in solicitations that—

(A) Include the clause at 52.222-41, Service Contract Labor Standards, and

(B) The contract may be exempt from the Service Contract Labor Standards statute in accordance with 22.1002-1(f).

(ii) When resoliciting in accordance with 22.1002-1(f)(3)(iii), amend the solicitation by removing the provision at 52.222-52 from the solicitation.

(4) The contracting officer must insert the clause at 52.222-53, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services—Requirements—

(i) In solicitations that include the provision at 52.222-52; and

(ii) In resulting contracts in which the contracting officer has determined, in accordance with 22.1002-1(e)(3), that the Service Contract Labor Standards statute does not apply.

(f) Insert the clause at 52.222-49, Service Contract Labor Standards—Place of Performance Unknown, if using the procedures prescribed in 22.1002-3(a)(2).

22.1002-3 Wage determinations.

The contracting officer must obtain wage determinations for each new solicitation and contract in excess of $2,500.

(a) *Wage determinations based on prevailing rates.* Contractors performing on contracts to which no predecessor contractor's collective bargaining agreement applies must pay their employees at least the wages and fringe benefits found by the Department of Labor to prevail in the locality or, in the absence of a wage determination, the minimum wage set forth in the Fair Labor Standards Act. If the Wage Determinations at the SAM.gov database do not contain the applicable prevailing wage determination for a contract action, the contracting officer must use the e98 process to request a wage determination from the Department of Labor.

(1) If the place of performance is unknown, the contracting officer must obtain a wage determination for each locality where services may be performed.

(2) If the contracting officer believes that there may be offerors interested in performing in unidentified places or areas, the contracting officer may use the following procedures:

(i) Complete the fill-in of the clause at 52.222-49, Service Contract Labor Standards-Place of Performance Unknown (see 22.1002-2(f)).

(ii) The procedures in 14.304 must apply to late receipt of offerors' requests for wage determinations for additional places of performance. However, late receipt of an offeror's request for a wage determination for additional places of performance does not preclude the offeror's competing for the proposed acquisition.

(iii) If the contracting officer receives any timely requests for wage determinations for additional places of performance the contracting officer must—

(A) Obtain wage determinations for the additional places of performance; and

(B) Amend the solicitation to include all wage determinations and, if necessary, extend the time for submission of final offers.

(iv) If the successful offeror did not make a timely request for a wage determination and will perform in a place of performance for which the contracting officer therefore did not request a wage determination, the contracting officer must—

(A) Award the contract;

(B) Obtain a wage determination; and

(C) Incorporate the wage determination in the contract, retroactive to the date of contract award and with no adjustment in contract price, pursuant to the clause at 52.222-49, Service Contract Labor Standards-Place of Performance Unknown.

(3) If the contracting officer subsequently learns of any potential offerors in previously unidentified places before the closing date for submission of offers, the contracting officer must obtain wage determinations for the additional places of performance and amend the solicitation to include all wage determinations. If necessary, the contracting officer must extend the time for submission of final offers.

(b) *Wage determinations based on collective bargaining agreements*.

(1) Early in the acquisition cycle, the contracting officer must determine whether 41 U.S.C. 6707(c) affects the new acquisition. The contracting officer must determine whether there is a predecessor contract covered by the Service Contract Labor Standards statute and, if so, whether the incumbent prime contractor or its subcontractors and any of their employees have a collective bargaining agreement.

(2) 41 U.S.C. 6707(c) provides that a successor contractor must pay wages and fringe benefits (including accrued wages and benefits and prospective increases) to service employees at least equal to those agreed upon by a predecessor contractor under the following conditions-

(i) The services to be furnished under the proposed contract will be substantially the same as services being furnished by an incumbent contractor whose contract the proposed contract will succeed;

(ii) The services will be performed in the same locality; and

(iii) The incumbent prime contractor or subcontractor is furnishing such services through the use of service employees whose wages and fringe benefits are the subject of one or more collective bargaining agreements.

(3) The application of 41 U.S.C. 6707(c) is subject to the following limitations:

(i) 41 U.S.C. 6707(c) will not apply if the incumbent contractor enters into a collective bargaining agreement for the first time and the agreement does not become effective until after the expiration of the incumbent's contract.

(ii) If the incumbent contractor enters into a new or revised collective bargaining agreement during the period of the incumbent's performance on the current contract, the terms of the new or revised agreement must not be effective for the purposes of 41 U.S.C. 6707(c) under the following conditions:

(A)

(1) In sealed bidding, the contracting agency receives notice of the terms of the collective bargaining agreement less than 10 days before bid opening and finds that there is not reasonable time still available to notify bidders (see 22.1003(b)(1)); or

(2) For contractual actions other than sealed bidding, the contracting agency receives notice of the terms of the collective bargaining agreement after award, provided that the start of performance is within 30 days of award (see 22.1003(b)(2)); and

(B) The contracting officer has given both the incumbent contractor and its employees' collective bargaining agent timely written notification of the applicable acquisition dates (see 22.1004-6).

(4) If 41 U.S.C. 6707(c) applies, the contracting officer must obtain a copy of any collective bargaining agreement between an incumbent contractor or subcontractor and its employees. Obtaining a copy of an incumbent contractor's collective bargaining agreement may involve coordination with the administrative contracting officer responsible for administering the predecessor contract. (Paragraph (m) of the clause at 52.222-41, Service Contract Labor Standards, requires the incumbent prime contractor to furnish the contracting officer a copy of each collective bargaining agreement.)

(5) 41 U.S.C. 6707(c) will not apply if the Secretary of Labor determines—

(i) After a hearing, that the wages and fringe benefits in the predecessor contractor's collective bargaining agreement are substantially at variance with those which prevail for services of a similar character in the locality; or

(ii) That the wages and fringe benefits in the predecessor contractor's collective bargaining agreement are not the result of arm's length negotiations. The Department of Labor (DOL) has concluded that contingent collective bargaining agreement provisions that attempt to limit a contractor's obligations by means such as requiring issuance of a wage determination by the DOL, requiring inclusion of the wage determination in the contract, or requiring the Government to adequately reimburse the contractor, generally reflect a lack of arm's length negotiations.

(6) If the contracting officer's review of the incumbent’s collective bargaining agreement indicates that its monetary provisions may be substantially at variance or may not have been reached as a result of arm's length bargaining, the contracting officer must immediately contact the agency labor advisor to consider if further action is warranted.

(7) If the services are being furnished at more than one location and the collectively bargained wage rates and fringe benefits are different at different locations or do not apply to one or more locations, the contracting officer must identify the locations to which the agreements apply.

(8) If the collective bargaining agreement does not apply to all service employees under the contract, the contracting officer must access Wage Determinations at *SAM.gov* to obtain the prevailing wage determination for those service employee classifications that are not covered by the collective bargaining agreement. The contracting officer must separately list in the solicitation and contract the service employee classifications—

(i) Subject to the collective bargaining agreement, and

(ii) Not subject to any collective bargaining agreement.

(9) If the contracting officer has submitted an e98 to Department of Labor requesting a wage determination based on a collective bargaining agreement and the Department of Labor is unable to provide the wage determination by the latest date needed to maintain the acquisition schedule, the contracting officer must incorporate the collective bargaining agreement itself in a solicitation and include a wage determination referencing that collective bargaining agreement created by use of the Wage Determinations at *SAM.gov* website.

(c) *Requests for hearing*.

(1) A contracting agency or other interested party may request a hearing on an issue presented in paragraph (b)(5)(i) of this subsection. To obtain a hearing for the contracting agency, the contracting officer must submit a written request through appropriate channels (ordinarily the agency labor advisor) to: Administrator, Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210.

(2) A request for a substantial variance hearing must include sufficient data to show that the rates at issue vary substantially from those prevailing for similar services in the locality. The request must also include—

(i) The number of the wage determinations at issue;

(ii) The name of the contracting agency whose contract is involved;

(iii) A brief description of the services to be performed under the contract;

(iv) The status of the procurement and any estimated procurement dates, such as bid opening, contract award, and commencement date of the contract or its follow-up option period;

(v) A statement of the applicant's case, setting forth in detail the reasons why the applicant believes that a substantial variance exists with respect to some or all of the wages and/or fringe benefits;

(vi) Names and addresses (to the extent known) of interested parties; and

(vii) Any other data required by the Administrator.

(3) A request for an arm's length hearing must include—

(i) A statement of the applicant's case setting forth in detail the reasons why the applicant believes that the wages and fringe benefits contained in the collective bargaining agreement were not reached as a result of arm's length negotiations;

(ii) A statement regarding the status of the procurement and any estimated procurement dates, such as bid opening, contract award, and commencement date of the contract or its follow-up option period; and

(iii) Names and addresses (to the extent known) of interested parties.

(4) Unless the Administrator determines that extraordinary circumstances exist, the Administrator will not consider requests for a hearing unless received as follows:

(i) For sealed bid contracts, more than 10 days before the award of the contract; or

(ii) For negotiated contracts and for contracts with provisions exceeding the initial term by option, before the commencement date of the contract or the follow-up option period.

22.1002-4 Executive Orders 13658 and 14026.

Executive Order (E.O.) 13658 established minimum wages for certain workers at $10.10 per hour. The E.O. 13658 rate has increased each year since 2015, rising to $11.25 on January 1, 2022. As of January 30, 2022, E.O. 13658 is superseded by E.O. 14026 to the extent that it is inconsistent with E.O. 14026; the minimum wage rate for certain workers is increased to $15.00 per hour. The wage rate is subject to annual increases by an amount determined by the Secretary of Labor. See subpart 22.19. The clause at 52.222-55, Minimum Wages for Contractor Workers under Executive Order 14026, requires the E.O. 14026 minimum wage rate to be paid if it is higher than other minimum wage rates, such as the subpart 22.10 statutory wage determination amount.

22.1003 Evaluation and award.

(a) *Periodic revisions to wage determinations by DOL*.

(1) The Wage and Hour Administrator may issue revisions to prevailing wage determinations periodically. The need for inclusion of a revised prevailing wage determination in a solicitation is determined by the date of receipt of the revised prevailing wage determination by the contracting agency. (Note the distinction between receipt by the agency and receipt by the contracting officer which may occur later.)

(i) For purposes of using Wage Determinations at *SAM.gov*, the time of receipt by the contracting agency must be the first day of publication of the revised prevailing wage determination on the website.

(ii) For purposes of using the e98 process, the time of receipt by the contracting agency must be the date the agency receives actual notice of a new or revised prevailing wage determination from the Department of Labor as an e98 response.

(2) In selecting a prevailing wage determination from the Wage Determinations at *SAM.gov* website for use in a solicitation or other contract action, the contracting officer must monitor the Wage Determinations at *SAM.gov* website to determine whether the applicable wage determination has been revised. Revisions published on the Wage Determinations at *SAM.gov* website or otherwise communicated to the contracting officer within the timeframes prescribed at paragraphs (a)(3) and (4) of this section are effective and must be included in the resulting contract. Monitoring can be accomplished by use of the Wage Determinations at *SAM.gov* website's “Alert Service”.

(3) The following must apply when contracting by sealed bidding: a revised prevailing wage determination shall not be effective if it is received by the contracting agency less than 10 days before the opening of bids, and the contracting officer finds that there is not reasonable time to incorporate the revision in the solicitation.

(4) For contractual actions other than sealed bidding, a revised prevailing wage determination received by the contracting agency after award of a new contract or a modification as specified in 22.1004-1(c) shall not be effective provided that the start of performance is within 30 days of the award or the specified modification. If the contract does not specify a start of performance date which is within 30 days of the award or the specified modification, and if contract performance does not commence within 30 days of the award or the specified modification, any revision received by the contracting agency not less than 10 days before commencement of the work shall be effective.

(5) If the contracting officer has submitted an e98 to the Department of Labor requesting a prevailing wage determination and has not received a response within 10 days, the contracting officer must contact the Wage and Hour Division by telephone to determine when the wage determination can be expected. (The telephone number is provided on the e98 website.)

(b) *Wage determinations based on collective bargaining agreements*.

(1) In sealed bidding, a new or changed collective bargaining agreement shall not be effective under 41 U.S.C. 6707(c) if the contracting agency has received notice of the terms of the new or changed collective bargaining agreement less than 10 days before bid opening and the contracting officer determines that there is not reasonable time to incorporate the new or changed terms of the collective bargaining agreement in the solicitation.

(2) For contractual actions other than sealed bidding, a new or changed collective bargaining agreement shall not be effective under 41 U.S.C. 6707(c) if notice of the terms of the new or changed collective bargaining agreement is received by the contracting agency after award of a successor contract or a modification as specified in 22.1004-1(c), provided that the contract start of performance is within 30 days of the award of the contract or of the specified modification. If the contract does not specify a start of performance date which is within 30 days of the award of the contract or of the specified modification, or if contract performance does not commence within 30 days of the award of the contract or of the specified modification, any notice of the terms of a new or changed collective bargaining agreement received by the agency not less than 10 days before commencement of the work must be effective for purposes of the successor contract under 41 U.S.C. 6707(c).

(3) The limitations in paragraphs (b)(1) and (2) of this section must apply only if timely notification required in 22.1004-6 has been given.

(4) If the contracting officer has submitted an e98 to Department of Labor requesting a wage determination based on a collective bargaining agreement and has not received a response from the Department of Labor within 10 days, the contracting officer must contact the Wage and Hour Division by telephone to determine when the wage determination can be expected. (The telephone number is provided on the e98 website.) If the Department of Labor is unable to provide the wage determination by the latest date needed to maintain the acquisition schedule, the contracting officer must incorporate the collective bargaining agreement itself in a solicitation or other contract action (*e.g.*, exercise of option) and include a wage determination referencing that collective bargaining agreement created by use of the Wage Determinations at *SAM.gov* website.

(c) *Delays*. If a wage determination was obtained through the e98 process, and bid opening has been delayed, for whatever reason, more than 60 days from the date indicated on the previously submitted e98, the contracting officer must submit a new e98. Any revision of a wage determination received by the contracting agency as a result of that communication must supersede the earlier response as the wage determination applicable to the particular acquisition subject to the time frames in 22.1003(a)(3) and (4).

(d) *Notification to contractors and employees*. The contracting officer must take the following steps to ensure that service employees are notified of minimum wages and fringe benefits.

(1) At the time of award, furnish the contractor Department of Labor Publication WH-1313, Notice to Employees Working on Government Contracts, for posting at a prominent and accessible place at the worksite before contract performance begins. The publication advises employees of the compensation (wages and fringe benefits) required to be paid or furnished under the Service Contract Labor Standards statute and satisfies the notice requirements in paragraph (g) of the clause at 52.222-41, Service Contract Labor Standards.

(2) Attach any applicable wage determination to Publication WH-1313.

22.1004 Postaward.

22.1004-1 Revisions to wage determinations.

(a) The Wage and Hour Administrator may issue revisions to prevailing wage determinations periodically. The need for inclusion of a revised prevailing wage determination in a contract is determined by the date of receipt of the revised prevailing wage determination by the contracting agency.

(b) If a wage determination was obtained through the e98 process, and commencement of work under a negotiated contract has been delayed, for whatever reason, more than 60 days from the date indicated on the previously submitted e98, the contracting officer must submit a new e98. Any revision of a wage determination received by the contracting agency as a result of that communication must supersede the earlier response as the wage determination applicable to the particular acquisition subject to the time frames in 22.1003(a)(3) and (4).

(c) The contracting officer must obtain wage determinations for each contract modification which brings the contract above $2,500 and—

(1) Extends the existing contract pursuant to an option clause or otherwise; or

(2) Changes the scope of the contract whereby labor requirements are affected significantly.

(d) The contracting officer must obtain wage determinations for each multiple year contract in excess of $2,500 upon the —

(1) Annual anniversary date if the contract is subject to annual appropriations; or

(2) Biennial anniversary date if the contract is not subject to annual appropriations and its proposed term exceeds 2 years—unless otherwise advised by the Wage and Hour Division.

(e) If the contracting officer has submitted an e98 to Department of Labor requesting a wage determination based on a collective bargaining agreement and the Department of Labor is unable to provide the wage determination by the latest date needed to maintain the acquisition schedule, the contracting officer must incorporate the collective bargaining agreement itself in a contract action (*e.g.*, exercise of option) and include a wage determination referencing that collective bargaining agreement created by use of the Wage Determinations at *SAM.gov* website.

(f) If the Department of Labor discovers and determines, whether before or after a contract award, that a contracting officer made an erroneous determination that the Service Contract Labor Standards statute did not apply to a particular acquisition or failed to include an appropriate wage determination in a covered contract, the contracting officer, within 30 days of notification by the Department of Labor, must include in the contract the clause at 52.222-41 and any applicable wage determination issued by the Administrator. If the contract is subject to 41 U.S.C. 6707(f), the Administrator may require retroactive application of that wage determination. The contracting officer must equitably adjust the contract price to reflect any changed cost of performance resulting from incorporating a wage determination or revision.

22.1004-2 Additional classes of service employees.

(a) If the contracting officer is aware that contract performance involves classes of service employees not included in the wage determination, the contracting officer must require the contractor to classify the unlisted classes so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between the unlisted classifications and the classifications listed in the determination (see paragraph (c) of the clause at 52.222-41, Service Contract Labor Standards). The contractor must initiate the conforming procedure before unlisted classes of employees perform contract work. The contractor must submit Standard Form (SF) 1444, Request For Authorization of Additional Classification and Rate. The contracting officer must review the proposed classification and rate and promptly submit the completed SF 1444 (which must include information regarding the agreement or disagreement of the employees' representative or the employees themselves together with the agency recommendation) and all other pertinent information to the Wage and Hour Division. Within 30 days of receipt of the request, the Wage and Hour Division will (1) approve, modify, or disapprove the request when the parties are in agreement or (2) render a final determination in the event of disagreement among the parties. If the Wage and Hour Division will require more than 30 days to take action, it will notify the contracting officer within 30 days of receipt of the request that additional time is necessary.

(b) Some wage determinations will list a series of classes within a job classification family, for example, Computer Operators, level I, II, and III, or Electronic Technicians, level I, II, and III, or Clerk Typist, level I and II. Generally, level I is the lowest level. It is the entry level, and establishment of a lower level through conformance is not permissible. Further, trainee classifications may not be conformed. Helpers in skilled maintenance trades (for example, electricians, machinists, and automobile mechanics) whose duties constitute, in fact, separate and distinct jobs may also be used if listed on the wage determination, but may not be conformed. Conformance may not be used to artificially split or subdivide classifications listed in the wage determination. However, conforming procedures may be used if the work which an employee performs under the contract is not within the scope of any classification listed on the wage determination, regardless of job title. (See 29 CFR 4.152.)

(c) Subminimum rates for apprentices, student learners, and disabled workers are permissible in accordance with paragraph (q) of the clause at 52.222-41, Service Contract Labor Standards.

22.1004-3 Withholding of contract payments.

(a) Any violations of the clause at 52.222-41, Service Contract Labor Standards, as amended, renders the responsible contractor liable for the amount of any deductions, rebates, refunds, or underpayments (which includes nonpayment) of compensation due employees performing the contract.

(b) The contracting officer may withhold—or, upon written request of the Department of Labor from a level no lower than that of Deputy Regional Administrator, Wage and Hour Division, Department of Labor, must withhold—the amount needed to pay such underpaid employees from accrued payments due the contractor on the contract, or on any other prime contract (whether subject to the Service Contract Labor Standards statute or not) with the contractor.

(c) The agency must place the amount withheld in a deposit fund. Such withheld funds must be transferred to the Department of Labor for disbursement to the underpaid employees on order of the Secretary (or authorized representatives), an Administrative Law Judge, or the Administrative Review Board. In addition, the Department of Labor has given blanket approval to forward withheld funds pending completion of an investigation or other administrative proceeding when disposition of withheld funds remains the final action necessary to close out a contract.

22.1004-4 Termination for default.

As provided by the Service Contract Labor Standards statute, any contractor failure to comply with the requirements of the contract clauses related to the Service Contract Labor Standards statute may be grounds for termination for default (see paragraph (k) of the clause at 52.222-41, Service Contract Labor Standards).

22.1004-5 Enforcement.

(a) Persons or firms found to be in violation of the Service Contract Labor Standards statute will have an active exclusion record contained in the System for Award Management (see part 9). No Government contract may be awarded to any violator so listed because of a violation of the Service Contract Labor Standards statute, or to any firm, corporation, partnership, or association in which the violator has a substantial interest, without the approval of the Secretary of Labor. This prohibition against award to an ineligible contractor applies to both prime and subcontracts.

(b) The contracting officer must cooperate with Department of Labor representatives in the examination of records, interviews with service employees, and all other aspects of investigations undertaken by the Department. When asked, agencies must furnish the Wage and Hour Administrator or a designee, any available information on contractors, subcontractors, their contracts, and the nature of the contract services. The contracting officer must promptly refer, in writing to the appropriate regional office of the Department, apparent violations and complaints received. Employee complaints must not be disclosed to the employer.

(c) Disputes concerning labor standards requirements of the contract are handled under paragraph (t) of the contract clause at 52.222-41, Service Contract Labor Standards, and not under the clause at 52.233-1, Disputes.

22.1004-6 Notification to interested parties under collective bargaining agreements.

(a) The contracting officer should determine whether the incumbent prime contractor's or its subcontractors' service employees performing on the current contract are represented by a collective bargaining agent. If there is a collective bargaining agent, the contracting officer must give both the incumbent contractor and its employees' collective bargaining agent written notification of—

(1) The forthcoming successor contract and the applicable acquisition dates (issuance of solicitation, opening of bids, commencement of negotiations, award of contract, or start of performance, as the case may be); or

(2) The forthcoming contract modification and applicable acquisition dates (exercise of option, extension of contract, change in scope, or start of performance, as the case may be); or

(3) The forthcoming multiple year contract anniversary date (annual anniversary date or biennial date, as the case may be).

(b) This written notification must be given at least 30 days in advance of the earliest applicable acquisition date or the applicable annual or biennial anniversary date in order for the time-of-receipt limitations in 22.1003(b)(1) and (2) to apply. The contracting officer must retain a copy of the notification in the contract file.

22.1004-7 Seniority lists.

If a contract is performed at a Federal facility where employees may be hired/retained by a succeeding contractor, the incumbent prime contractor is required to furnish a certified list of all service employees on the contractor's or subcontractor's payroll during the last month of the contract, together with anniversary dates of employment, to the contracting officer no later than 10 days before contract completion. (See paragraph (n) of the clause at 52.222-41, Service Contract Labor Standards.) At the commencement of the succeeding contract, the contracting officer must provide a copy of the list to the successor contractor for determining employee eligibility for vacation or other fringe benefits which are based upon length of service, including service with predecessor contractors if such benefit is required by an applicable wage determination.

Subpart 22.11 – [Reserved]

This page intentionally left blank.

Subpart 22.12 - [Reserved]

This page intentionally left blank.

Subpart 22.13 - Equal Opportunity for Veterans

22.1300 Scope.

This subpart prescribes policies and procedures for implementing the following:

(a) The Vietnam Era Veterans' Readjustment Assistance Act of 1972, as amended (38 U.S.C. 4211 and 4212) (the Act).

(b) The Veterans Employment Opportunities Act of 1998, Public Law 105-339.

(c) Executive Order 11701, January 24, 1973 (3 CFR, 1971-1975 Comp., p. 752).

(d) The regulations of the Secretary of Labor (41 CFR parts 60-300 and 61-300).

22.1301 Definitions.

As used In this subpart --

Active duty wartime or campaign badge veteran means a veteran who served on active duty in the U.S. military, ground, naval, or air service, during a war or in a campaign or expedition for which a campaign badge has been authorized under the laws administered by the Department of Defense.

Armed Forces service medal veteran means any veteran who, while serving on active duty in the U.S. military, ground, naval, or air service, participated in a United States military operation for which an Armed Forces service medal was awarded pursuant to Executive Order 12985 (61 FR 1209).

Disabled veteran means—

(1) A veteran of the U.S. military, ground, naval, or air service, who is entitled to compensation (or who, but for the receipt of military retired pay, would be entitled to compensation) under laws administered by the Secretary of Veterans Affairs; or

(2) A person who was discharged or released from active duty because of a service-connected disability.

Protected veteran means a veteran who is protected under the non-discrimination and affirmative action provisions of 38 U.S.C. 4212; specifically, a veteran who may be classified as a “disabled veteran,” “recently separated veteran,” “active duty wartime or campaign badge veteran,” or an “Armed Forces service medal veteran,” as defined by this section.

Qualified disabled veteran means a disabled veteran who has the ability to perform the essential functions of the employment positions with or without reasonable accommodation.

Recently separated veteran means any veteran during the three-year period beginning on the date of such veteran's discharge or release from active duty in the U.S. military, ground, naval, or air service.

United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island.

22.1302 Presolicitation.

22.1302-1 Requirements.

(a) (1) Contractors and subcontractors, when entering into contracts and subcontracts subject to the Act, are required to—

(i) List all employment openings, with the appropriate employment service delivery system where the opening occurs, except for—

(A) Executive and senior management positions;

(B) Positions to be filled from within the contractor's organization; and

(C) Positions lasting three days or less;

(ii) Take affirmative action to employ, advance in employment, and otherwise treat qualified individuals, including qualified disabled veterans, without discrimination based upon their status as a protected veteran, in all employment practices;

(iii) Undertake appropriate outreach and positive recruitment activities that are reasonably designed to effectively recruit protected veterans; and

(iv) Establish a hiring benchmark and apply it to hiring of protected veterans in each establishment, on an annual basis, in the manner prescribed in the regulations of the Secretary of Labor.

(2) The Act applies to all contracts and subcontracts for personal property and nonpersonal services (including construction) of $200,000 or more except—

(i) As waived by the Secretary of Labor; or

(ii) In any contract with a State or local government (or any agency, instrumentality, or subdivision), the Act does not apply to any agency, instrumentality, or subdivision of that government that does not participate in work on or under the contract.

(b) The Act requires submission of the annual VETS-4212, Federal Contractor Veterans' Employment Report (VETS-4212 Report) in all cases where the contractor or subcontractor has received an award of $200,000 or more, except for awards to State and local governments, and foreign organizations where the workers are recruited outside of the United States.

22.1302-2 Solicitation provision and contract clauses.

(a)

(1) Insert the clause at 52.222-35, Equal Opportunity for Veterans, in solicitations and contracts if the expected value is $200,000 or more, except when—

(i) Work is performed outside the United States by employees recruited outside the United States; or

(ii) The Director, Office of Federal Contract Compliance Programs of the U.S. Department of Labor, has waived, in accordance with 22.1302-3(a) or the head of the agency has waived, in accordance with 22.1302-3(b), all of the terms of the clause.

(2) If the Director, Office of Federal Contract Compliance Programs of the U.S. Department of Labor, or the head of the agency waives one or more (but not all) of the terms of the clause, use the basic clause with its Alternate I.

(b) Insert the clause at 52.222-37, Employment Reports on Veterans, in solicitations and contracts containing the clause at 52.222-35, Equal Opportunity for Veterans.

22.1302-3 Waivers.

(a) The Director, Office of Federal Contract Compliance Programs, Department of Labor, may waive any or all of the terms of the clause at 52.222-35, Equal Opportunity for Veterans, for—

(1) Any contract if a waiver is in the national interest; or

(2) Groups or categories of contracts if a waiver is in the national interest and it is—

(i) Impracticable to act on each request individually; and

(ii) Determined that the waiver will substantially contribute to convenience in administering the Act.

(b) The head of the agency may waive any requirement in this subpart when it is determined that the contract is essential to the national security, and that its award without complying with such requirements is necessary to the national security. Upon making such a determination, the head of the agency must notify the Deputy Assistant Secretary of Labor in writing within 30 days.

(c) The contracting officer must submit requests for waivers in accordance with agency procedures.

(d) The Deputy Assistant Secretary of Labor may withdraw an approved waiver for a specific contract or group of contracts to be awarded, when in the Deputy's judgment such action is necessary to achieve the purposes of the Act. The withdrawal does not apply to awarded contracts. For procurements entered into by sealed bidding, such withdrawal does not apply unless the withdrawal is made more than 10 calendar days before the date set for the opening of bids.

22.1303 Evaluation and award.

(a) Except for contracts for commercial products or commercial services, or contracts that do not exceed the simplified acquisition threshold, contracting officers must not obligate or expend funds appropriated for the agency for a fiscal year to enter into a contract for the procurement of personal property and nonpersonal services (including construction) with a contractor that has not submitted the required annual VETS-4212, with respect to the preceding fiscal year if the contractor was subject to the reporting requirements of 38 U.S.C. 4212(d) for that fiscal year.

(b) To verify if a proposed contractor is current with its submission of the VETS-4212 Report, the contracting officer must query the Department of Labor's VETS-4212 Database via the Internet at *http://www.dol.gov/vets/vets4212.htm* under “Filing Verification”.

22.1304 Postaward.

(a) The contracting officer must furnish to the contractor appropriate notices for posting when they are prescribed by the Deputy Assistant Secretary of Labor (see *http://www.dol.gov/ofccp/regs/compliance/posters/ofccpost.htm.*

(b) If performance under the clause at 52.222-35, Equal Opportunity for Veterans, may necessitate a revision of a collective bargaining agreement, the contracting officer must advise the affected labor unions that the Department of Labor will give them appropriate opportunity to present their views. However, neither the contracting officer nor any representative of the contracting officer may discuss with the contractor or any labor representative any aspect of the collective bargaining agreement.

(c) The Director, Office of Federal Contract Compliance Programs, is responsible for investigating complaints.

(d) The contracting officer must take necessary action as soon as possible upon notification by the appropriate agency official to implement any sanctions imposed on a contractor by the Department of Labor for violations of the clause at 52.222-35, Equal Opportunity for Veterans. These sanctions (see 41 CFR 60-300.66) may include—

(1) Withholding progress payments;

(2) Termination or suspension of the contract; or

(3) Debarment of the contractor.

This page intentionally left blank.

Subpart 22.14 - Employment of Workers with Disabilities

22.1400 Scope.

(a) This subpart prescribes policies and procedures for implementing section 503 of the Rehabilitation Act of l973, as amended (29 U.S.C. 793) (the Act); Executive Order 11758, January 15, 1974; and the regulations of the Secretary of Labor (41 CFR part 60-741).

(b) Section 503 of the Act applies to all Government contracts in excess of $20,000 for supplies and services (including construction) except as waived by the Secretary of Labor under 22.1401-3.

(c) In this subpart, the terms *contract* and *contractor* include *subcontract* and *subcontractor*.

22.1401 Presolicitation.

22.1401-1 Requirements.

Contractors and subcontractors, when entering into contracts and subcontracts subject to the Act, are required to—

(a) Take affirmative action to employ, and advance in employment, qualified individuals with disabilities, and to otherwise treat qualified individuals without discrimination based on their physical or mental disability;

(b) Undertake appropriate outreach and positive recruitment activities that are reasonably designed to effectively recruit qualified individuals with disabilities; and

(c) Compare the utilization of individuals with disabilities in their workforces to the utilization goal, as prescribed in the regulations of the Secretary of Labor, on an annual basis.

22.1401-2 Contract clause.

(a) (1) Insert the clause at 52.222-36, Equal Opportunity for Workers with Disabilities, in solicitations and contracts that exceed or are expected to exceed $20,000, except when—

(i) Both the performance of the work and the recruitment of workers will occur outside the United States, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island; or

(ii) The Director of OFCCP or agency head has waived, in accordance with 22.1401-3(a) or (b) all the terms of the clause.

(2) If the Director of OFCCP or agency head waives one or more (but not all) of the terms of the clause in accordance with 22.1401-3(a) or (b), use the basic clause with its *Alternate I.*

(b) The requirements of the clause at 52.222-36 in any contract with a State or local government (or any agency, instrumentality, or subdivision) must not apply to any agency, instrumentality, or subdivision of that government that does not participate in work on or under the contract.

22.1401-3 Waivers.

(a) The Director of the Office of Federal Contract Compliance Programs of the U.S. Department of Labor (Director of OFCCP), may waive the application of any or all of the terms of the clause at 52.222-36 for—

(1) Any contract if a waiver is deemed to be in the national interest; or

(2) Groups or categories of contracts if a waiver is in the national interest and it is—

(i) Impracticable to act on each request individually; and

(ii) Determined that the waiver will substantially contribute to convenience in administering the Act.

(b) The head of an agency may waive any requirement in this subpart when it is determined that the contract is essential to the national security, and that its award without complying with such requirements is necessary to the national security. Upon making such a determination, the head of the agency must notify the Director of OFCCP in writing within 30 days.

(c) The contracting officer must submit requests for waivers in accordance with agency procedures.

(d) A waiver granted for a particular class of contracts may be withdrawn for any contract within that class whenever considered necessary by the Director of OFCCP to achieve the purposes of the Act. The withdrawal shall not apply to contracts awarded before the withdrawal. The withdrawal shall not apply to solicitations under any means of formal sealed bidding unless it is made more than 10 days before the date set for bid opening.

22.1402 Postaward.

(a) The contracting officer must furnish to the contractor appropriate notices that state the contractor's obligations and the rights of individuals with disabilities. The contracting officer may obtain these notices from the Office of Federal Contract Compliance Programs (OFCCP) regional office.

(b) If performance under the clause at 52.222-36, Equal Opportunity for Workers with Disabilities, may necessitate a revision of a collective bargaining agreement, the contracting officer must advise the affected labor unions that the Department of Labor will give them appropriate opportunity to present their views. However, neither the contracting officer nor any representative of the contracting officer shall discuss with the contractor or any labor representative any aspect of the collective bargaining agreement.

(c) (1) Following agency procedures, the contracting office must forward any complaints received about the administration of section 503 of the Rehabilitation Act of l973, as amended (29 U.S.C. 793) to—

(i) Director, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210; or

(ii) Any OFCCP regional or area office.

(2) The OFCCP must institute investigation of each complaint and must be responsible for developing a complete case record.

(d) The contracting officer must take necessary action, as soon as possible upon notification by the appropriate agency official, to implement any sanctions imposed on a contractor by the Department of Labor for violations of the clause at 52.222-36, Equal Opportunity for Workers with Disabilities. These sanctions (see 41 CFR 60-741.66) may include—

(1) Withholding from payments otherwise due;

(2) Termination or suspension of the contract; or

(3) Debarment of the contractor.

Subpart 22.15 - Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor

22.1501 Definitions.

As used in this subpart—

Forced or indentured child labor means all work or service—

(1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or

(2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor means the list published by the Department of Labor in accordance with Executive Order 13126 of June 12, 1999, Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor. The list identifies products, by their country of origin, that the Departments of Labor, Treasury, and State have a reasonable basis to believe might have been mined, produced, or manufactured by forced or indentured child labor.

22.1502 Presolicitation.

22.1502-1 Policy.

Agencies must take appropriate action to enforce the laws prohibiting the manufacture or importation of products that have been mined, produced, or manufactured wholly or in part by forced or indentured child labor, consistent with 19 U.S.C. 1307, 29 U.S.C. 201, et seq., and 41 U.S.C. chapter 65. Agencies should make every effort to avoid acquiring such products.

22.1502-2 Solicitation provision and contract clause.

(a) (1) Except as provided in paragraph (c) of this subsection, insert the provision at 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products, in all solicitations that are expected to exceed the micro-purchase threshold and are for the acquisition of end products (regardless of country of origin) of a type identified by country of origin on the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor. The contracting officer must identify in paragraph (b) of the provision at 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products any applicable end products and countries of origin from the List. For solicitations estimated to equal or exceed $50,000, the contracting officer must exclude from the List in the solicitation end products from any countries identified in paragraph (c) of this subsection, in accordance with the specified thresholds.

(2) Insert the clause at 52.222-19, Child Labor—Cooperation with Authorities and Remedies, in all solicitations and contracts for the acquisition of supplies that are expected to exceed the micro-purchase threshold.

(b) When issuing a solicitation for supplies expected to exceed the micro-purchase threshold, the contracting officer must check the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor (the List) (www.dol.gov/ilab/) (see 22.1502-2(a)(1). Appearance of a product on the List is not a bar to purchase of any such product mined, produced, or manufactured in the identified country, but rather is an alert that there is a reasonable basis to believe that such product may have been mined, produced, or manufactured by forced or indentured child labor.

(c) The requirements of this subpart that result from the appearance of any end product on the List do not apply to a solicitation or contract if the identified country of origin on the List is—

(1) Israel, and the anticipated value of the acquisition is $50,000 or more (see part 25 for the Israeli Trade Act);

(2) Mexico, and the anticipated value of the acquisition is $105,767 or more (see part 25 for trade agreements); or

(3) Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Italy, Japan, Korea, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan, Ukraine, or the United Kingdom and the anticipated value of the acquisition is $174,000 or more (see part 25 for trade agreements).

22.1503 Evaluation and award.

(a) Except as provided in paragraph (c) of 22.1502-2, before the contracting officer may make an award for an end product (regardless of country of origin) of a type identified by country of origin on the List the offeror must certify that—

(1) It will not supply any end product on the List that was mined, produced, or manufactured in a country identified on the List for that product, as specified in the solicitation by the contracting officer in the Certification Regarding Knowledge of Child Labor for Listed End Products; or

(2) (i) It has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any end product to be furnished under the contract that is on the List and was mined, produced, or manufactured in a country identified on the List for that product; and

(ii) On the basis of those efforts, the offeror is unaware of any such use of child labor.

(b) Absent any actual knowledge that the certification is false, the contracting officer must rely on the offerors' certifications in making award decisions.

(c) Proper certification will not prevent the head of an agency from imposing remedies in accordance with 22.1504 if it is later discovered that the contractor has furnished an end product or component that has in fact been mined, produced, or manufactured, wholly or in part, using forced or indentured child labor.

22.1504 Postaward.

(a) Whenever a contracting officer has reason to believe that forced or indentured child labor was used to mine, produce, or manufacture an end product furnished pursuant to a contract awarded subject to the certification required 22.1502-2(a)(1) and 22.1503(a), the contracting officer must refer the matter for investigation by the agency's Inspector General, the Attorney General, or the Secretary of the Treasury, whichever is determined appropriate in accordance with agency procedures, except to the extent that the end product is from the country listed 22.1502-2(c), under a contract exceeding the applicable threshold.

(b) The Government may impose remedies set forth in paragraph (c) of this section for the following violations (note that the violations in paragraphs (b)(3) and (b)(4) of this section go beyond violations of the requirements relating to certification of end products):

(1) The contractor has submitted a false certification regarding knowledge of the use of forced or indentured child labor.

(2) The contractor has failed to cooperate as required in accordance with the clause at 52.222-19, Child Labor Cooperation with Authorities and Remedies, with an investigation of the use of forced or indentured child labor by an Inspector General, the Attorney General, or the Secretary of the Treasury.

(3) The contractor uses forced or indentured child labor in its mining, production, or manufacturing processes.

(4) The contractor has furnished an end product or component mined, produced, or manufactured, wholly or in part, by forced or indentured child labor. Remedies in paragraphs (b)(2) and (b)(3) of this section are inappropriate unless the contractor knew of the violation.

(c) The Government may impose the following remedies for violations:

(1) The contracting officer may terminate the contract.

(2) The suspending and debarring official may suspend the contractor in accordance with the procedures in subpart 9.4.

(3) The suspending and debarring official may debar the contractor for a period not to exceed 3 years in accordance with the procedures in subpart 9.4.

Subpart 22.16 - Notification of Employee Rights Under the National Labor Relations Act.

22.1601 Definitions.

United States, as used in this subpart, means the 50 States, the District of Columbia, Puerto Rico, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island.

22.1602 Presolicitation.

22.1602-1 Policy.

(a) This subpart prescribes policies and procedures to implement Executive Order 13496, dated January 30, 2009 (74 FR 6107, February 4, 2009). Executive Order 13496 requires contractors to post a notice informing employees of their rights under Federal labor laws.

(b) The Secretary has determined that the notice must contain employee rights under the National Labor Relations Act (Act), 29 U.S.C. 151 et seq. The Act encourages collective bargaining, and protects the exercise by employees of their freedom to associate, to self-organize, and to designate representatives of their own choosing for the purpose of negotiating the terms and conditions of their employment or other mutual aid or protection.

(c) The requirements of this subpart do not apply to—

(1) Contracts under the simplified acquisition threshold;

(2) Subcontracts of $10,000 or less; and

(3) Contracts or subcontracts for work performed exclusively outside the United States.

(d) (1) If the Secretary finds that the requirements of the Executive Order impair the ability of the Government to procure goods and services on an economical and efficient basis or if special circumstances require an exemption in order to serve the national interest, the Secretary may exempt a contracting department or agency, or groups of departments or agencies, from the requirements of any or all of the provisions of this Executive Order with respect to a particular contract or subcontract, or any class of contracts or subcontracts, including the requirement to include the clause at 52.222-40, or parts of that clause, in contracts.

(2) Requests for exemptions may be submitted in accordance with Department of Labor regulations at 29 CFR 471.3.

22.1602-2 Contract clause.

(a) Insert the clause at 52.222-40, Notification of Employee Rights under the National Labor Relations Act, in all solicitations and contracts, including acquisitions for commercial products, commercial services, and commercially available off-the-shelf items, except acquisitions—

(1) Under the simplified acquisition threshold. For indefinite-quantity contracts, include the clause only if the value of orders in any calendar year of the contract is expected to exceed the simplified acquisition threshold;

(2) For work performed exclusively outside the United States; or

(3) Covered (in their entirety) by an exemption granted by the Secretary.

(b) A contracting agency may modify the clause at 52.222-40, if necessary, to reflect an exemption granted by the Secretary (see 22.1602-1(d)).

22.1603 Postaward.

(a) The Secretary may conduct compliance evaluations or investigate complaints of any contractor or subcontractor to determine if any of the requirements of the clause at 52.222-40, Notification of Employee Rights under the National Labor Relations Act, have been violated.

(b) Contracting departments and agencies must cooperate with the Secretary and provide such information and assistance as the Secretary may require in the performance of the Secretary's functions.

(c) If the Secretary determines that there has been a violation, the Secretary may take such actions as set forth in 29 CFR 471.14.

(d) The Secretary may not terminate or suspend a contract or suspend or debar a contractor if the agency head has provided written objections, which must include a statement of reasons for the objection and a finding that the contractor's performance is essential to the agency's mission, and continues to object to the imposition of such sanctions and penalties. Procedures for enforcement by the Secretary are set out in 29 CFR 471.10 through 29 CFR 471.16.

Subpart 22.17 - Combating Trafficking in Persons.

22.1700 Scope.

This subpart prescribes policy for implementing 22 U.S.C. chapter 78 and Executive Order 13627, Strengthening Protections Against Trafficking in Persons in Federal Contracts, dated September 25, 2012.

22.1701 Applicability.

(a) This subpart applies to all acquisitions.

(b) The requirement at 22.1703-1(b) for a certification and compliance plan applies only to any portion of a contract or subcontract that—

(1) Is for supplies, other than commercially available off-the-shelf (COTS) items, to be acquired outside the United States, or services to be performed outside the United States; and

(2) Has an estimated value that exceeds $700,000.

22.1702 Definitions.

As used in this subpart --

Agent means any individual, including a director, an officer, an employee, or an independent contractor, authorized to act on behalf of the organization.

Coercion means—

(1) Threats of serious harm to or physical restraint against any person;

(2) Any scheme, plan, or pattern intended to cause a person to believe that failure to perform an act would result in serious harm to or physical restraint against any person; or

(3) The abuse or threatened abuse of the legal process.

Commercial sex act means any sex act on account of which anything of value is given to or received by any person.

Debt bondage means the status or condition of a debtor arising from a pledge by the debtor of his or her personal services or of those of a person under his or her control as a security for debt, if the value of those services as reasonably assessed is not applied toward the liquidation of the debt or the length and nature of those services are not respectively limited and defined.

Employee means an employee of the Contractor directly engaged in the performance of work under the contract who has other than a minimal impact or involvement in contract performance.

Forced labor means knowingly providing or obtaining the labor or services of a person—

(1) By threats of serious harm to, or physical restraint against, that person or another person;

(2) By means of any scheme, plan, or pattern intended to cause the person to believe that, if the person did not perform such labor or services, that person or another person would suffer serious harm or physical restraint; or

(3) By means of the abuse or threatened abuse of law or the legal process.

Involuntary servitude includes a condition of servitude induced by means of—

(1) Any scheme, plan, or pattern intended to cause a person to believe that, if the person did not enter into or continue in such conditions, that person or another person would suffer serious harm or physical restraint; or

(2) The abuse or threatened abuse of the legal process.

Recruitment fees means fees of any type, including charges, costs, assessments, or other financial obligations, that are associated with the recruiting process, regardless of the time, manner, or location of imposition or collection of the fee.

(1) Recruitment fees include, but are not limited to, the following fees (when they are associated with the recruiting process) for—

(i) Soliciting, identifying, considering, interviewing, referring, retaining, transferring, selecting, training, providing orientation to, skills testing, recommending, or placing employees or potential employees;

(ii) Advertising;

(iii) Obtaining permanent or temporary labor certification, including any associated fees;

(iv) Processing applications and petitions;

(v) Acquiring visas, including any associated fees;

(vi) Acquiring photographs and identity or immigration documents, such as passports, including any associated fees;

(vii) Accessing the job opportunity, including required medical examinations and immunizations; background, reference, and security clearance checks and examinations; and additional certifications;

(viii) An employer's recruiters, agents or attorneys, or other notary or legal fees;

(ix) Language interpretation or translation, arranging for or accompanying on travel, or providing other advice to employees or potential employees;

(x) Government-mandated fees, such as border crossing fees, levies, or worker welfare funds;

(xi) Transportation and subsistence costs—

(A) While in transit, including, but not limited to, airfare or costs of other modes of transportation, terminal fees, and travel taxes associated with travel from the country of origin to the country of performance and the return journey upon the end of employment; and

(B) From the airport or disembarkation point to the worksite;

(xii) Security deposits, bonds, and insurance; and

(xiii) Equipment charges.

(2) A recruitment fee, as described in the introductory text of this definition, is a recruitment fee, regardless of whether the payment is—

(i) Paid in property or money;

(ii) Deducted from wages;

(iii) Paid back in wage or benefit concessions;

(iv) Paid back as a kickback, bribe, in-kind payment, free labor, tip, or tribute; or

(v) Collected by an employer or a third party, whether licensed or unlicensed, including, but not limited to—

(A) Agents;

(B) Labor brokers;

(C) Recruiters;

(D) Staffing firms (including private employment and placement firms);

(E) Subsidiaries/affiliates of the employer;

(F) Any agent or employee of such entities; and

(G) Subcontractors at all tiers.

Severe forms of trafficking in persons means—

(1) Sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or

(2) The recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

Sex trafficking means the recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purpose of a commercial sex act.

Subcontractor means any supplier, distributor, vendor, or firm that furnishes supplies or services to or for a prime contractor or another subcontractor.

United States means the 50 States, the District of Columbia, and outlying areas.

22.1703 Presolicitation.

22.1703-1 Requirements.

(a) The United States Government has adopted a policy prohibiting trafficking in persons, including certain trafficking-related activities. Additional information about trafficking in persons may be found at the website for the Department of State's Office to Monitor and Combat Trafficking in Persons at http://www.state.gov/j/tip/ . Government solicitations and contracts must—

(1) Prohibit contractors, contractor employees, subcontractors, subcontractor employees, and their agents from the trafficking-related activities listed in paragraph (b) of the clause at 52.222-50, Combating Trafficking in Persons.

(2) Require contractors and subcontractors to notify employees of the prohibited activities referenced in paragraph (a)(1) of this subsection and the actions that may be taken against them for violations.

(3) Require the contractor and subcontractors to—

(i) Disclose to the contracting officer and the agency Inspector General information sufficient to identify the nature and extent of an offense and the individuals responsible for the conduct;

(ii) Provide timely and complete responses to Government auditors' and investigators' requests for documents;

(iii) Cooperate fully in providing reasonable access to their facilities and staff (both inside and outside the U.S.) to allow contracting agencies and other responsible Federal agencies to conduct audits, investigations, or other actions to ascertain compliance with the Trafficking Victims Protection Act (22 U.S.C. chapter 78), Executive Order 13627, or any other applicable law or regulation establishing restrictions on trafficking in persons, the procurement of commercial sex acts, or the use of forced labor; and

(4) Provide suitable remedies, including termination, to be imposed on contractors that fail to comply with the requirements of paragraphs (a)(1) through (3) and (b) of this subsection.

(b) With regard to certification and a compliance plan, Government solicitations and contracts must—

(1) (i) Require the apparent successful offeror to provide, before contract award, a certification (see 52.222-56) that the offeror has a compliance plan if any portion of the contract or subcontract—

(A) Is for supplies, other than COTS items (see 2.101), to be acquired outside the United States, or services to be performed outside the United States; and

(B) The estimated value exceeds $700,000.

(ii) The certification must state that—

(A) The offeror has implemented the plan and has implemented procedures to prevent any prohibited activities and to monitor, detect, and terminate the contract with a subcontractor or agent engaging in prohibited activities; and

(B) After having conducted due diligence, either—

(1) To the best of the offeror's knowledge and belief, neither it nor any of its agents, proposed subcontractors, or their agents, has engaged in any such activities; or

(2) If abuses relating to any of the prohibited activities identified in 52.222-50(b) have been found, the offeror or proposed subcontractor has taken the appropriate remedial and referral actions;

(2) Require annual certifications (see 52.222-50(h)(5)) during performance of the contract, when a compliance plan was required at award;

(3) (i) Require the contractor to obtain a certification from each subcontractor, prior to award of a subcontract, if any portion of the subcontract—

(A) Is for supplies, other than COTS items (see 2.101), to be acquired outside the United States, or services to be performed outside the United States; and

(B) The estimated value exceeds $700,000.

(ii) The certification must state that—

(A) The subcontractor has implemented a compliance plan; and

(B) After having conducted due diligence, either—

(1) To the best of the subcontractor's knowledge and belief, neither it nor any of its agents, subcontractors, or their agents, has engaged in any such activities; or

(2) If abuses relating to any of the prohibited activities identified in 52.222-50(b) have been found, the subcontractor has taken the appropriate remedial and referral actions;

(4) Require the contractor to obtain annual certifications from subcontractors during performance of the contract, when a compliance plan was required at the time of subcontract award; and

(5) Require that any compliance plan or procedures must be appropriate to the size and complexity of the contract and the nature and scope of its activities, including the number of non-U.S. citizens expected to be employed and the risk that the contract or subcontract will involve services or supplies susceptible to trafficking in persons. The minimum elements of the plan are specified at 52.222-50(h).

22.1703-2 Solicitation provisions and contract clauses.

(a) (1) Insert the clause at 52.222-50, Combating Trafficking in Persons, in all solicitations and contracts.

(2) Use the clause with its Alternate I when the contract will be performed outside the United States and the contracting officer has been notified of specific U.S. directives or notices regarding combating trafficking in persons (such as general orders or military listings of "off-limits" local establishments) that apply to contractor employees at the contract place of performance.

(b) Insert the provision at 52.222-56, Certification Regarding Trafficking in Persons Compliance Plan, in solicitations if—

(1) It is possible that at least $700,000 of the value of the contract may be performed outside the United States; and

(2) The acquisition is not entirely for commercially available off-the-shelf items.

22.1704 Postaward.

(a) *Violations.* It is a violation of the Trafficking Victims Protection Act of 2000, as amended, (22 U.S.C. chapter 78), E.O. 13627, or the policies of this subpart if the contractor, contractor employee, subcontractor, subcontractor employee, or agent fails to comply with the requirements of the clause at 52.222-50, Combating Trafficking in Persons.

(b) *Credible information.* Upon receipt of credible information regarding a violation listed in paragraph (a) of this section, the contracting officer must promptly notify, in accordance with agency procedures, the agency Inspector General, the agency debarring and suspending official, and if appropriate, law enforcement officials with jurisdiction over the alleged offense; and may direct the contractor to take specific steps to abate the alleged violation or enforce the requirements of its compliance plan.

(c) *Receipt of agency Inspector General report.*

(1) The head of an executive agency must ensure that the contracting officer is provided a copy of the agency Inspector General report of an investigation of a violation of the trafficking in persons prohibitions in 52.222-50(b).

(2)

(i) Upon receipt of a report from the agency Inspector General that provides support for the allegations, the head of the executive agency must—

(A) Refer the matter to the agency suspending and debarring official; and

(B) In accordance with agency procedures, delegate to an authorized agency official, who may also be the agency suspending or debarring official, the responsibility to—

(1) Expeditiously conduct an administrative proceeding, allowing the contractor the opportunity to respond to the report;

(2) Make a final determination as to whether the allegations are substantiated; and

(3) Notify the contracting officer of the determination.

(ii) Whether or not the official authorized to conduct the administrative proceeding described in paragraph (c)(2)(i)(B) of this section is the suspending and debarring official, the suspending and debarring official has the authority, at any time before or after the final determination as to whether the allegations are substantiated, to use the suspension and debarment procedures in subpart 9.4 to suspend, propose for debarment, or debar the contractor, if appropriate, also considering the factors in paragraph (d)(2) of this section.

(d) *Remedies.* After a final determination in accordance with paragraph (c)(2)(ii) of this section that the allegations of a trafficking in persons violation are substantiated, the contracting officer must—

(1) Enter the violation in FAPIIS (see part 42); and

(2) Consider taking any of the remedies specified in paragraph (e) of the clause at 52.222-50, Combating Trafficking in Persons. These remedies are in addition to any other remedies available to the United States Government.

Subpart 22.18 - Employment Eligibility Verification

22.1801 Definitions.

As used in this subpart—

Commercially available off-the-shelf (COTS) item —

(1) Means any item of supply that is—

(i) A commercial product (as defined in paragraph (1) of the definition of "commercial product" at 2.101);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products. Per 46 CFR 525.1(c)(2), "bulk cargo" means cargo that is loaded and carried in bulk onboard ship without mark or count, in a loose unpackaged form, having homogenous characteristics. Bulk cargo loaded into intermodal equipment, except LASH or Seabee barges, is subject to mark and count and, therefore, ceases to be bulk cargo.

Employee assigned to the contract means an employee who was hired after November 6, 1986 (after November 27, 2009, in the Commonwealth of the Northern Mariana Islands), who is directly performing work, in the United States, under a contract that is required to include the clause prescribed at 22.1802-2. An employee is not considered to be directly performing work under a contract if the employee—

(1) Normally performs support work, such as indirect or overhead functions; and

(2) Does not perform any substantial duties applicable to the contract.

Subcontract means any contract, as defined in 2.101, entered into by a subcontractor to furnish supplies or services for performance of a prime contract or a subcontract. It includes but is not limited to purchase orders, and changes and modifications to purchase orders.

Subcontractor means any supplier, distributor, vendor, or firm that furnishes supplies or services to or for a prime contractor or another subcontractor.

United States means the 50 States, the District of Columbia, Puerto Rico, Guam, the Commonwealth of the Northern Mariana Islands and the U.S. Virgin Islands, as defined in 8 U.S.C. 1101(a)(38).

22.1802 Presolicitation.

22.1802-1 Policy.

(a) This subpart prescribes policies and procedures requiring contractors to utilize the Department of Homeland Security (DHS), United States Citizenship and Immigration Service's employment eligibility verification program (E-Verify) as the means for verifying employment eligibility of certain employees.

(b) Statutes and Executive orders require employers to abide by the immigration laws of the United States and to employ in the United States only individuals who are eligible to work in the United States. The E-Verify program provides an Internet-based means of verifying employment eligibility of workers employed in the United States, but is not a substitute for any other employment eligibility verification requirements.

(c) Contracting officers must include in solicitations and contracts, as prescribed in 22.1802-2, requirements that Federal contractors must—

(1) Enroll as Federal contractors in E-Verify;

(2) Use E-Verify to verify employment eligibility of all new hires working in the United States, except that the contractor may choose to verify only new hires assigned to the contract if the contractor is—

(i) An institution of higher education (as defined at 20 U.S.C. 1001(a));

(ii) A State or local government or the government of a Federally recognized Indian tribe; or

(iii) A surety performing under a takeover agreement entered into with a Federal agency pursuant to a performance bond;

(3) Use E-Verify to verify employment eligibility of all employees assigned to the contract; and

(4) Include these requirements, as required by the clause at 52.222-54, in subcontracts for—

(i) Services, except for commercial services that are part of the purchase of a COTS item (or an item that would be a COTS item, but for minor modifications), performed by the COTS provider, and are normally provided for that COTS item; and

(ii) Construction.

(d) Contractors may elect to verify employment eligibility of all existing employees working in the United States who were hired after November 6, 1986 (after November 27, 2009, in the Commonwealth of the Northern Mariana Islands), instead of just those employees assigned to the contract. The contractor is not required to verify employment eligibility of—

(1) Employees who hold an active security clearance of confidential, secret, or top secret; or

(2) Employees for whom background investigations have been completed and credentials issued pursuant to Homeland Security Presidential Directive (HSPD)-12.

(e) In exceptional cases, the head of the contracting activity may waive the E-Verify requirement for a contract or subcontract or a class of contracts or subcontracts, either temporarily or for the period of performance. This waiver authority may not be delegated.

(f) DHS and the Social Security Administration (SSA) may terminate a contractor's memorandum of understanding (MOU) and deny access to the E-Verify system in accordance with the terms of the MOU. If DHS or SSA terminates a contractor's MOU, the terminating agency must refer the contractor to a suspending and debarring official for possible suspension or debarment action. During the period between termination of the MOU and a decision by the suspending and debarring official whether to suspend or debar, the contractor is excused from its obligations under paragraph (b) of the clause at 52.222-54. If the contractor is suspended, debarred, or subject to a voluntary exclusion as a result of the MOU termination, the contractor is not eligible to participate in E-Verify during the period of its suspension, debarment, or voluntary exclusion. If the contractor is not suspended, debarred, or subject to a voluntary exclusion, then the contractor must reenroll in E-Verify.

22.1802-2 Contract clause.

Insert the clause at 52.222-54, Employment Eligibility Verification, in all solicitations and contracts that exceed $150,000, except those that—

(a) Are only for work that will be performed outside the United States;

(b) Are for a period of performance of less than 120 days; or

(c) Are only for—

(1) Commercially available off-the-shelf items;

(2) Items that would be COTS items, but for minor modifications (as defined at paragraph (3)(ii) of definition of "commercial product" at 2.101;

(3) Items that would be COTS items if they were not bulk cargo; or

(4) Commercial services that are—

(i) Part of the purchase of a COTS item (or an item that would be a COTS item, but for minor modifications);

(ii) Performed by the COTS provider; and

(iii) Are normally provided for that COTS item.

Subpart 22.19 - Increasing the Minimum Wage for Contractors.

22.1900 Scope of subpart.

This subpart prescribes policies and procedures to implement Executive Order (E.O.) 14026, Increasing the Minimum Wage for Federal Contractors, which requires minimum wages for certain workers; Department of Labor (DOL) implementing regulations are found at 29 CFR part 23. This E.O. superseded E.O. 13658; DOL implementing regulations for E.O. 13658 are found at 29 CFR part 10.

22.1901 Definitions.

As used in this subpart—

United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, Johnston Island, Wake Island, and the outer Continental Shelf as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331, *et seq.*).

Worker (in accordance with 29 CFR 23.20)—

(1) (i) Means any person engaged in performing work on, or in connection with, a contract covered by Executive Order 14026, and

(A) Whose wages under such contract are governed by the Fair Labor Standards Act (29 U.S.C. chapter 8), the Service Contract Labor Standards statute (41 U.S.C. chapter 67), or the Wage Rate Requirements (Construction) statute (40 U.S.C. chapter 31, subchapter IV),

(B) Other than individuals employed in a bona fide executive, administrative, or professional capacity, as those terms are defined in 29 CFR part 541,

(C) Regardless of the contractual relationship alleged to exist between the individual and the employer.

(ii) Includes workers performing on, or in connection with, the contract whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(c).

(iii) Also includes any person working on, or in connection with, the contract and individually registered in a bona fide apprenticeship or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship.

(2) (i) A worker performs *on* a contract if the worker directly performs the specific services called for by the contract; and

(ii) A worker performs *in connection with* a contract if the worker's work activities are necessary to the performance of a contract but are not the specific services called for by the contract.

22.1902 Policy.

(a) Pursuant to Executive Order 14026, the minimum hourly wage rate required to be paid to workers performing on, or in connection with, contracts and subcontracts subject to this subpart is—

(1) At least $15.00 per hour beginning January 30, 2022; and

(2) Beginning January 1, 2023, and annually thereafter, an amount determined by the Secretary of Labor. The Administrator of the Wage and Hour Division (the Administrator) will notify the public of the new E.O. minimum wage rate at least 90 days before it is to take effect. (See 22.1904.)

(b) *Relationship with other wage rates.*

(1) Nothing in this subpart shall excuse noncompliance with any applicable Federal or State prevailing wage law or any applicable law or municipal ordinance or any applicable contract establishing a minimum wage higher than the E.O. minimum wage. However, wage increases under such other laws or municipal ordinances are not subject to price adjustment under this subpart.

(2) The E.O. minimum wage rate applies whenever it is higher than any applicable collective bargaining agreement(s) wage rate.

(c) *Application to tipped workers.* Policies and procedures in DOL regulations at 29 CFR 23.240(b) and 23.280 address the relationship between the E.O. minimum wage and wages of workers engaged in an occupation in which they customarily and regularly receive more than $30 a month in tips.

22.1903 Applicability.

(a) This subpart applies to contracts covered by the Service Contract Labor Standards statute (41 U.S.C. chapter 67, formerly known as the Service Contract Act, subpart 22.10), or the Wage Rate Requirements (Construction) statute (40

U.S.C. chapter 31, Subchapter IV, formerly known as the Davis Bacon Act, subpart 22.4), that require performance in whole or in part within the United States (the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, Johnston Island, Wake Island, and the outer Continental Shelf as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331, *et seq.*)). When performance is in part within and in part outside the United States, this subpart applies to the part of the contract that is performed within the United States.

(b) (1) This subpart applies to workers as defined at 22.1901. As provided in that definition—

(i) Workers are covered regardless of the contractual relationship alleged to exist between the contractor or subcontractor and the worker;

(ii) Workers with disabilities whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(c) are covered; and

(iii) Workers who are registered in a bona fide apprenticeship program or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship, are covered.

(2) This subpart does not apply to—

(i) Fair Labor Standards Act (FLSA)-covered individuals performing in connection with contracts covered by the E.O., *i.e.,* those individuals who perform duties necessary to the performance of the contract, but who are not directly engaged in performing the specific work called for by the contract, and who spend less than 20 percent of their hours worked in a particular workweek performing in connection with such contracts;

(ii) Individuals exempted from the minimum wage requirements of the FLSA under 29 U.S.C. 213(a) and 214(a) and (b), unless otherwise covered by the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute. These individuals include but are not limited to—

(A) Learners, apprentices, or messengers whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(a);

(B) Students whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(b); and

(C) Those employed in a bona fide executive, administrative, or professional capacity (29 U.S.C. 213(a)(1) and 29 CFR part 541).

(c) Agency Labor Advisors, as defined at 22.001, are listed at *https://www.sam.gov* and are available to provide guidance and assistance with the application of this subpart.

22.1904 Annual Executive Order Minimum Wage Rate.

(a) For the E.O. minimum wage rate that becomes effective on January 30, 2022, and annually thereafter, the Administrator will—

(1) Notify the public of the new E.O. minimum wage rate at least 90 days before it becomes effective by publishing a notice in the Federal Register;

(2) Publish and maintain on Wage Determinations at *SAM.gov, https://www.sam.gov* or any successor site, the E.O. minimum wage rate; and

(3) Include a general notice on wage determinations which are issued under the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute. The notice will provide information on the E.O. minimum wage and how to obtain annual updates.

(b) (1) The contractor may request a price adjustment only after the effective date of a new annual E.O. minimum wage determination published pursuant to paragraph (a). Prices will be adjusted only for increased labor costs (including subcontractor labor costs) as a result of the annual E.O. minimum wage, and for associated labor costs (including those for subcontractors). Associated labor costs must include increases or decreases that result from changes in social security and unemployment taxes and workers' compensation insurance, but will not otherwise include any amount for general and administrative costs, overhead, or profit.

(2) The wage rate price adjustment under this clause is the lowest amount calculated by subtracting from the new E.O. wage rate the following: The current E.O. minimum wage rate; the current service or construction wage determination rate under the contract (if the wage rate is applicable to that worker); or the actual wage currently paid the worker. If the amount is zero or below, there will be no increase paid for this worker.

(i) Example 1—New E.O. wage rate is $16.10.

Previous E.O. wage rate is $15.70. The current service or construction wage determination rate applicable to this worker under the contract is $15.75.	Analysis: The calculation is $16.10−$15.80 = $.30. The price adjustment for this worker is $.30.
The actual wage currently paid to the worker is $15.80.	
(ii) Example 2—New E.O. wage rate is $15.50.	
Previous E.O. wage rate is $15.10. The current service or construction wage determination rate applicable to this worker under the contract is $15.75.	Analysis: The calculation is $15.50−$15.80 = −$.30. There is no price adjustment for this worker.
The actual wage currently paid to the worker is $15.80.	

(3) The contracting officer must not adjust the contract price for any costs other than those identified in paragraph (b)(1) of this section, and must not provide duplicate price adjustments with any price adjustment under clauses implementing the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute.

22.1905 Enforcement of Executive Order Minimum Wage Requirements.

(a) *Authority.*

(1) Section 5 of the E.O. grants the authority for investigating potential violations of, and obtaining compliance with, the E.O. to the Secretary of Labor. The Secretary of Labor, in promulgating the implementing regulations required by Section 4 of the E.O., has assigned this authority to the Administrator. Contracting agencies do not have authority to conduct compliance investigations under 29 CFR part 10 or part 23 as implemented in this subpart. This does not limit the contracting officer's authority to otherwise enforce the terms and conditions of the contract.

(2) Contracting officers must withhold payment at the direction of the Administrator.

(3) The contracting officer must withhold payment, without a request from the Administrator, if the contractor fails to comply with the requirements in paragraph (e)(2) of 52.222-55, Minimum Wages for Contractor Workers Under Executive Order 14026 to furnish payroll records, until such time as the noncompliance is corrected.

(b) *Complaints.*

(1) Complaints may be filed with the contracting officer or the Administrator by any person, entity, or organization that believes a violation of this subpart has occurred.

(2) The identity of any individual who makes a written or oral statement as a complaint or in the course of an investigation, as well as portions of the statement which would reveal the individual's identity, must not be disclosed in any manner to anyone other than Federal officials without the prior consent of the individual, unless otherwise authorized by law.

(3) Upon receipt of a complaint, or if notified that the Administrator has received a complaint, the contracting officer must report the following information, within 14 days, if available without conducting an investigation, to the Department of Labor, Wage and Hour Division, Office of Government Contracts, 200 Constitution Avenue NW., Room S3006, Washington, DC 20210.

(i) The complaint or description of the alleged violation;

(ii) Available statements by the worker, contractor, or any other person regarding the alleged violation;

(iii) Evidence that clause 52.222-55, Minimum Wages for Contractor Workers Under Executive Order 14026, (or its predecessor for complaints under 29 CFR part 10) was included in the contract;

(iv) Information concerning known settlement negotiations between the parties, if applicable; and

(v) Any other relevant facts known to the contracting officer or other information requested by the Wage and Hour Division.

(c) *Investigations.* Complaints will be investigated by the Administrator, if warranted, in accordance with the procedures in 29 CFR part 23.430.

(d) *Remedies and sanctions* —

(1) *Unpaid wages.* When the Administrator's investigation reveals that a contractor has failed to pay the applicable E.O. minimum wage, the Administrator will notify the contractor and the contracting agency of the unpaid wage violation, and request that the contractor remedy the violation. If the contractor does not remedy the violation, the Administrator may direct

withholding of payments due on the contract or any other contract between the contractor and the Federal Government. Upon final decision and direction of the Administrator, the contracting agency must transfer the withheld funds to the Department of Labor for disbursement in accordance with the procedures at 22.404-2.

(2) *Antiretaliation.* When a contractor has been found to have violated paragraph (i) of clause 52.222-55, Minimum Wages for Contractor Workers Under Executive Order 14026, the Administrator may provide for relief to the worker in accordance with 29 CFR 23.440.

(3) *Debarment.*

(i) The Department of Labor may initiate debarment proceedings under 29 CFR 23.520 whenever a contractor is found to have disregarded its obligations under 29 CFR part 23.

(ii) Contracting officers must consider notifying the agency suspending and debarring official in accordance with agency procedures when a contractor commits significant violations of contract terms and conditions related to this subpart.

(4) *Retroactive inclusion of contract clause.* If a contracting agency fails to include the contract clause in a contract to which E.O. 14026 applies, the contracting agency, on its own initiative or within 15 calendar days of notification by an authorized representative of the Department of Labor, must incorporate the contract clause in the contract retroactive to commencement of performance under the contract through the exercise of any and all authority that may be needed (including, where necessary, its authority to negotiate or amend, its authority to pay any necessary additional costs, and its authority under any contract provision authorizing changes, cancellation and termination).

22.1906 Contract clause.

Insert the clause at 52.222-55, Minimum Wages for Contractor Workers Under Executive Order 14026, in solicitations and contracts that include the clause at 52.222-6, Construction Wage Rate Requirements, or 52.222-41, Service Contract Labor Standards, where work is to be performed, in whole or in part, in the United States.

Subpart 22.20 - [Reserved]

This page intentionally left blank.

Subpart 22.21 - Establishing Paid Sick Leave for Federal Contractors.

22.2101 Definitions.

As used in this subpart—

Accrual year means the 12-month period during which a contractor may limit an employee's accrual of paid sick leave to no less than 56 hours (see 29 CFR 13.5(b)(1)).

Certification issued by a health care provider has the meaning given in 29 CFR 13.2.

Employee—

(1) (i) Means any person engaged in performing work on or in connection with a contract covered by E.O. 13706; and

(A) Whose wages under such contract are governed by the Service Contract Labor Standards statute (41 U.S.C. chapter 67), the Wage Rate Requirements (Construction) statute (40 U.S.C. chapter 31, subchapter IV), or the Fair Labor Standards Act (29 U.S.C. chapter 8);

(B) Including employees who qualify for an exemption from the Fair Labor Standards Act's minimum wage and overtime provisions; and

(C) Regardless of the contractual relationship alleged to exist between the individual and the employer; and

(ii) Includes any person performing work on or in connection with the contract and individually registered in a bona fide apprenticeship or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship.

(2) (i) An employee performs on a contract if the employee directly performs the specific services called for by the contract; and

(ii) An employee performs in connection with a contract if the employee's work activities are necessary to the performance of a contract but are not the specific services called for by the contract.

Health care provider has the meaning given in 29 CFR 13.2.

Multiemployer plan means a plan to which more than one employer is required to contribute and which is maintained pursuant to one or more collective bargaining agreements between one or more employee organizations and more than one employer.

Paid sick leave means compensated absence from employment that is required by E.O. 13706 and 29 CFR part 13.

22.2102 Presolicitation.

22.2102-1 General.

(a) This subpart prescribes policies and procedures to implement E.O. 13706, Establishing Paid Sick Leave for Federal Contractors, dated September 7, 2015, and Department of Labor implementing regulations at 29 CFR part 13.

(b) This subpart applies to—

(1) Contracts that—

(i) Are covered by the Service Contract Labor Standards statute (41 U.S.C. chapter 67, formerly known as the Service Contract Act, subpart 22.10), or the Wage Rate Requirements (Construction) statute (40 U.S.C. chapter 31, Subchapter IV, formerly known as the Davis-Bacon Act, 22.402-3); and

(ii) Require performance in whole or in part within the United States. When performance is in part within and in part outside the United States, this subpart applies to the part of the contract that is performed within the United States; and

(2) Employees performing on or in connection with such contracts whose wages are governed by the Service Contract Labor Standards statute, the Wage Rate Requirements (Construction) statute, or the Fair Labor Standards Act, including employees who qualify for an exemption from the Fair Labor Standards Act's minimum wage and overtime provisions.

(c) The following are excluded from coverage under this subpart:

(1) Employees performing in connection with contracts covered by the E.O. for less than 20 percent of their work hours in a given workweek. This exclusion is inapplicable to employees performing on contracts covered by the E.O., *i.e.,* those employees directly engaged in performing the specific work called for by the contract, at any point during the workweek (see 29 CFR 13.4(e)).

(2) Until the earlier of the date the agreement terminates or January 1, 2020, employees whose covered work is governed by a collective bargaining agreement ratified before September 30, 2016, that—

(i) Already provides 56 hours (or 7 days, if the agreement refers to days rather than hours) of paid sick time (or paid time off that may be used for reasons related to sickness or health care) each year; or

(ii) Provides less than 56 hours (or 7 days, if the agreement refers to days rather than hours) of paid sick time (or paid time off that may be used for reasons related to sickness or health care) each year, provided that each year the contractor provides covered employees with the difference between 56 hours (or 7 days) and the amount provided under the existing agreement in accordance with 29 CFR 13.4(f).

(3) The Government's unilateral exercise of a pre-negotiated option to renew an existing contract that does not contain the clause at 52.222-62 will not automatically trigger the application of that clause. (See definition of "new contract" at 29 CFR 13.2).

(d) Nothing in E.O. 13706 or 29 CFR part 13 shall excuse noncompliance with or supersede any applicable Federal or State law, any applicable law or municipal ordinance, or a collective bargaining agreement requiring greater paid sick leave or leave rights than those established under E.O. 13706 and 29 CFR part 13. For additional details regarding interaction with the Service Contract Labor Standards statute, the Wage Rate Requirements (Construction) statute, the Family and Medical Leave Act, and State and local paid sick time laws, see 29 CFR 13.5(f)(2) through (4).

22.2102-2 Policy.

(a) The Government must require contractors to allow employees performing work on or in connection with a contract covered by E.O. 13706 to accrue and use paid sick leave in accordance with the E.O. and 29 CFR part 13.

(b) In accordance with 29 CFR 13.5(f)(5)(i), the paid sick leave requirements of E.O. 13706 and 29 CFR part 13 may be satisfied by a contractor's voluntary paid time off policy, whether provided pursuant to a collective bargaining agreement or otherwise, where the voluntary paid time off policy meets or exceeds the requirements. For additional details regarding paid time off policies, see 29 CFR 13.5(f)(5)(ii) and (iii).

(c) Employees cannot waive, nor may contractors induce employees to waive, their rights under E.O. 13706 or 29 CFR part 13 (see 29 CFR 13.7).

(d) Contractors may fulfill their obligations under E.O. 13706 and 29 CFR part 13 jointly with other contractors through a multiemployer plan, or may fulfill their obligations through an individual fund, plan, or program (see 29 CFR 13.8).

(e) Unless otherwise provided in this subpart, compliance is the responsibility of the contractor, and enforcement is the responsibility of the Department of Labor.

22.2102-3 Requirements.

In accordance with 29 CFR 13.5, and by operation of the clause at 52.222-62, Paid Sick Leave Under Executive Order 13706, the following contractor requirements apply:

(a) *Accrual.*

(1) Contractors are required to permit an employee to accrue not less than 1 hour of paid sick leave for every 30 hours worked on or in connection with a contract covered by the E.O. (see 29 CFR 13.5(a)(1)).

(2) Contractors are required to inform each employee, in writing, of the amount of paid sick leave the employee has accrued but not used no less than once each pay period or each month, whichever interval is shorter, as well as upon a separation from employment and upon reinstatement of paid sick leave, pursuant to 29 CFR 13.5(b)(4) (see 29 CFR 13.5(a)(2)).

(3) Contractors may choose to provide employees with at least 56 hours of paid sick leave at the beginning of each accrual year rather than allowing the employee to accrue such leave based on hours worked over time (see 29 CFR 13.5(a)(3)).

(b) *Maximum accrual, carryover, reinstatement, and payment for unused leave.*

(1) Contractors may limit the amount of paid sick leave employees are permitted to accrue to not less than 56 hours in each accrual year (see 29 CFR 13.5(b)(1)).

(2) Paid sick leave must carry over from one accrual year to the next. Paid sick leave carried over from the previous accrual year must not count toward any limit the contractor sets on annual accrual (see 29 CFR 13.5(b)(2)).

(3) Contractors may limit the amount of paid sick leave an employee is permitted to have available for use at any point to not less than 56 hours (see 29 CFR 13.5(b)(3)).

(4) Contractors are required to reinstate paid sick leave for employees only when rehired by the same contractor within 12 months after a job separation (see 29 CFR 13.5(b)(4)).

(5) Nothing in E.O. 13706 or 29 CFR part 13 requires contractors to make a financial payment to an employee for accrued paid sick leave that has not been used upon a separation from employment. If a contractor nevertheless makes such a payment in an amount equal to or greater than the value of the pay and benefits the employee would have received pursuant to 29 CFR 13.5(c)(3) had the employee used the paid sick leave, the contractor is relieved of the obligation to reinstate an

employee's accrued paid sick leave upon rehiring the employee within 12 months of the separation pursuant to 29 CFR 13.5(b)(4) (see 29 CFR 13.5(b)(5)).

(c) *Use.* Contractors are required to permit an employee to use paid sick leave in accordance with 29 CFR 13.5(c).

(d) *Request for paid sick leave.* Contractors are required to permit an employee to use any or all of the employee's available paid sick leave upon the oral or written request of an employee that includes information sufficient to inform the contractor that the employee is seeking to be absent from work for a purpose described in 29 CFR 13.5(c) and, to the extent reasonably feasible, the anticipated duration of the leave (see 29 CFR 13.5(d)).

(e) *Certification or documentation for leave of 3 or more consecutive full workdays.* Contractors may require certification issued by a health care provider to verify the need for paid sick leave used for a purpose described in 29 CFR 13.5(c)(1)(i), (ii), or (iii), or documentation from an appropriate individual or organization to verify the need for paid sick leave used for a purpose described in 29 CFR 13.5(c)(1)(iv), only if the employee is absent for 3 or more consecutive full workdays (see 29 CFR 13.5(e)).

22.2102-4 Prohibited acts.

In accordance with 29 CFR 13.6, and by operation of the clause at 52.222-62, Paid Sick Leave Under Executive Order 13706, a contractor may not—

(a) Interfere with an employee's accrual or use of paid sick leave as required by E.O. 13706 or 29 CFR part 13 (see 29 CFR 13.6(a));

(b) Discharge or in any other manner discriminate against any employee for—

(1) Using, or attempting to use, paid sick leave as provided for under E.O. 13706 and 29 CFR part 13;

(2) Filing any complaint, initiating any proceeding, or otherwise asserting any right or claim under E.O. 13706 or 29 CFR part 13;

(3) Cooperating in any investigation or testifying in any proceeding under E.O. 13706 or 29 CFR part 13; or

(4) Informing any other person about his or her rights under E.O. 13706 or 29 CFR part 13 (see 29 CFR 13.6(b)); or

(c) Fail to make and maintain or to make available to authorized representatives of the Wage and Hour Division records for inspection, copying, and transcription as required by 29 CFR 13.25, or otherwise fail to comply with the requirements of 29 CFR 13.25 (see 29 CFR 13.6(c)).

22.2102-5 Contract clause.

Insert the clause at 52.222-62, Paid Sick Leave Under Executive Order 13706, in solicitations and contracts that include the clause at 52.222-6, Construction Wage Rate Requirements, or 52.222-41, Service Contract Labor Standards, where work is to be performed, in whole or in part, in the United States (the 50 States and the District of Columbia).

22.2103 Postaward.

(a) *Authority.* Section 4 of Executive Order (E.O.) 13706 grants to the Secretary the authority for investigating potential violations of, and obtaining compliance with, the E.O. The Secretary of Labor, in promulgating the implementing regulations required by section 3 of the E.O., has assigned this authority to the Administrator of the Wage and Hour Division. Contracting agencies do not have authority to conduct compliance investigations under 29 CFR part 13 as implemented in this subpart. This does not limit the contracting officer's authority to otherwise enforce the terms and conditions of the contract.

(b) *Complaints.*

(1) Complaints are filed with the Administrator of the Wage and Hour Division and may be brought by any person (including the employee), entity, or organization that believes a violation of this subpart has occurred.

(2) The identity of any individual who makes a written or oral statement as a complaint or in the course of an investigation, as well as portions of the statement which would reveal the individual's identity, must not be disclosed in any manner to anyone other than Federal officials without the prior consent of the individual, unless otherwise authorized by law.

(3) If the contracting agency receives a complaint or is notified that the Administrator of the Wage and Hour Division has received a complaint, the contracting officer must report, within 14 days, to the Department of Labor, Wage and Hour Division, Office of Government Contracts, 200 Constitution Avenue NW., Room S3006, Washington, DC 20210, all of the following information that is available without conducting an investigation:

(i) The complaint or description of the alleged violation.

(ii) Available statements by the employee, contractor, or any other person regarding the alleged violation.

(iii) Evidence that clause 52.222-62, Paid Sick Leave Under Executive Order 13706, was included in the contract.

(iv) Information concerning known settlement negotiations between the parties, if applicable.

(v) Any other relevant facts known to the contracting officer or other information requested by the Wage and Hour Division.

(c) *Investigations.* Complaints will be investigated by the Administrator of the Wage and Hour Division, if warranted, in accordance with the procedures in 29 CFR 13.43.

(d) *Remedies and sanctions* —

(1) *Withholding or suspending payment.* The contracting officer must, upon his or her own action or upon written request of the Administrator of the Wage and Hour Division—

(i)

(A) Withhold or cause to be withheld from the contractor under the contract covered by the E.O. or any other Federal contract with the same contractor, so much of the accrued payments or advances as may be considered necessary to pay employees the full amount owed to compensate for any violation of E.O. 13706 or 29 CFR part 13; and

(B) In the event of any such violation, the contracting agency may, after authorization or by direction of the Administrator of the Wage and Hour Division and written notification to the contractor, take action to cause suspension of any further payment, advance, or guarantee of funds until such violations have ceased; or

(ii) Take action to cause suspension of any further payment, advance, or guarantee of funds to a contractor that has failed to make available for inspection, copying, and transcription any of the records identified in 29 CFR 13.25.

(2) *Civil actions to recover greater underpayments than those withheld.*

(i) If the payments withheld under 29 CFR 13.11(c) are insufficient to reimburse all monetary relief due, or if there are no payments to withhold, the Department of Labor, following a final order of the Secretary of Labor, may bring an action against the contractor in any court of competent jurisdiction to recover the remaining amount.

(ii) The Department of Labor must, to the extent possible, pay any sums it recovers in this manner directly to the employees who suffered the violation(s) of 29 CFR 13.6(a) or (b).

(iii) Any sum not paid to an employee because of inability to do so within 3 years must be transferred into the Treasury of the United States as miscellaneous receipts.

(3) *Termination.* Contracting officers may consider the failure of a contractor to comply with the requirements of E.O. 13706 or 29 CFR part 13 as grounds for termination for default or cause.

(4) *Debarment.*

(i) The Department of Labor may initiate debarment proceedings under 29 CFR 13.44(d) and 29 CFR 13.52 whenever a contractor is found to have disregarded its obligations under E.O. 13706 or 29 CFR part 13.

(ii) Contracting officers must consider notifying the agency suspending and debarring official in accordance with agency procedures when a contractor commits significant violations of contract terms and conditions related to this subpart (see subpart 9.4).

(5) *Remedies for interference.*

(i) When the Administrator of the Wage and Hour Division determines that a contractor has interfered with an employee's accrual or use of paid sick leave in violation of 29 CFR 13.6(a), the Administrator of the Wage and Hour Division will notify the contractor and the relevant contracting agency of the interference and request that the contractor remedy the violation.

(ii) If the contractor does not remedy the violation, the Administrator of the Wage and Hour Division must direct the contractor to provide any appropriate relief to the affected employee(s) in the investigative findings letter issued pursuant to 29 CFR 13.51. Such relief may include—

(A) Any pay and/or benefits denied or lost by reason of the violation;

(B) Other actual monetary losses sustained as a direct result of the violation; or

(C) Appropriate equitable or other relief.

(iii) Payment of liquidated damages in an amount equaling any monetary relief may also be directed unless such amount is reduced by the Administrator of the Wage and Hour Division because the violation was in good faith and the contractor had reasonable grounds for believing it had not violated the E.O. or 29 CFR part 13.

(iv) The Administrator of the Wage and Hour Division may additionally direct that payments due on the contract or any other contract between the contractor and the Federal Government be withheld as may be necessary to provide any appropriate monetary relief. Upon the final order of the Secretary of Labor that monetary relief is due, the Administrator of the Wage and Hour Division may direct the relevant contracting agency to transfer the withheld funds to the Department of Labor for disbursement.

(6) *Remedies for discrimination.*

(i) When the Administrator of the Wage and Hour Division determines that a contractor has discriminated against an employee in violation of 29 CFR 13.6(b), the Administrator of the Wage and Hour Division will notify the contractor and the relevant contracting agency of the discrimination and request that the contractor remedy the violation.

(ii) If the contractor does not remedy the violation, the Administrator of the Wage and Hour Division must direct the contractor to provide appropriate relief to the affected employee(s) in the investigative findings letter issued pursuant to 29 CFR 13.51. Such relief may include, but is not limited to—

(A) Employment;

(B) Reinstatement;

(C) Promotion; and

(D) Restoration of leave, or lost pay and/or benefits.

(iii) Payment of liquidated damages in an amount equaling any monetary relief may also be directed unless such amount is reduced by the Administrator of the Wage and Hour Division because the violation was in good faith and the contractor had reasonable grounds for believing the contractor had not violated the E.O. or 29 CFR part 13.

(iv) The Administrator of the Wage and Hour Division may additionally direct that payments due on the contract or any other contract between the contractor and the Federal Government be withheld as may be necessary to provide any appropriate monetary relief. Upon the final order of the Secretary of Labor that monetary relief is due, the Administrator of the Wage and Hour Division may direct the relevant contracting agency to transfer the withheld funds to the Department of Labor for disbursement.

(7) *Recordkeeping.* When a contractor fails to make, maintain, or protect records; or produce records when requested by authorized representatives of the Administrator of the Wage and Hour Division, or otherwise comply with the requirements of 29 CFR 13.25 in violation of 29 CFR 13.6(c), the Administrator of the Wage and Hour Division will request that the contractor remedy the violation. If the contractor fails to produce required records upon request, the contracting officer must, upon his or her own action or upon direction of an authorized representative of the Department of Labor, take such action as may be necessary to cause suspension of any further payment, advance, or guarantee of funds on the contract until such time as the violations are discontinued.

(e) *Inclusion of contract clause.* If a contracting agency fails to include the clause at FAR 52.222-62 in a contract to which the E.O. applies, the contracting officer, on his or her own initiative or within 15 days of notification by an authorized representative of the Department of Labor, must incorporate the contract clause in the contract retroactive to commencement of performance under the contract through the exercise of any and all authority that may be needed (including, where necessary, its authority to negotiate or amend, its authority to pay any necessary additional costs, and its authority under any contract provision authorizing changes, cancellation, and termination).

Subpart 22.22 - Addressing DEI Discrimination by Federal Contractors

22.2200 Scope of subpart.

This subpart prescribes policies and procedures to implement Executive Order (E.O.) 14398, Addressing DEI Discrimination by Federal Contractors, (91 FR 16147, March 31, 2026).

22.2201 Definitions.

As used in this subpart—

Program participation means membership or participation in, or access or admission to: training, mentoring, or leadership development programs; educational opportunities; clubs; associations; or similar opportunities that are sponsored or established by the contractor or subcontractor.

Racially discriminatory DEI activities means disparate treatment based on race or ethnicity in the recruitment, employment (e.g., hiring, promotions), contracting (*e.g.*, vendor agreements), program participation, or allocation or deployment of an entity's resources.

22.2202 Policy.

Executive Order 14398 requires measures to prevent contractors from engaging in any racially discriminatory DEI activities.

22.2203 Contract clause.

Insert the clause at 52.222-90, Addressing DEI Discrimination by Federal Contractors, in solicitations and contracts, including those for commercial products and commercial services, except those that result in contracts for which the place of delivery or performance is outside the United States.

This page intentionally left blank.

PART 23 - SUSTAINABLE ACQUISITION, MATERIAL SAFETY, AND POLLUTION PREVENTION

This page intentionally left blank.

23.000 Scope of part.

This part prescribes acquisition policies and procedures for sustainable acquisition, ensuring proper handling and notification of hazardous materials, and preventing pollution.

Subpart 23.1 - Sustainable Products

23.100 Scope of subpart.

This subpart provides policies and procedures for procuring sustainable products.

23.101 Definitions.

As used in this subpart—

Energy-efficient product means a product that—

(1) Meets Department of Energy (DOE) and Environmental Protection Agency (EPA) criteria for use of the ENERGY STAR® trademark label (see https://www.energy.gov/eere/femp/search-energy-efficient-products); or

(2) Is in the upper 25 percent of efficiency for all similar products as designated by the DOE Federal Energy Management Program (FEMP) (see https://www.energy.gov/eere/femp/search-energy-efficient-products).

EPA-designated item means a product that is listed by EPA in a procurement guideline because it can be made with recovered material and for which EPA has provided recommended recovered material content levels (see https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program#products).

Low standby power device means a product that—

(1) Uses an external standby power device or contains an internal standby power function; and

(2) Uses no more than one watt of electricity in its standby power consuming mode or meets recommended low standby levels as designated by DOE FEMP (see https://www.energy.gov/femp/low-standby-power-product-list).

Ozone-depleting substance means any substance the EPA designates in 40 CFR part 82 as—

(1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or

(2) Class II, including, but not limited to, hydrochlorofluorocarbons.

Sustainable product means—

(1) A product that contains recovered material designated by the EPA under the Comprehensive Procurement Guidelines (42 U.S.C. 6962) (40 CFR part 247) (https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program#products).

(2) An energy-efficient product or low standby power device (42 U.S.C. 8259b) (10 CFR part 436, subpart C) (https://www.energy.gov/eere/femp/search-energy-efficient-products, https://www.energystar.gov/products?s=mega, and https://www.energy.gov/femp/low-standby-power-product-list).

(3) A biobased product that meets the content requirements of the U.S. Department of Agriculture (USDA) under the BioPreferred® program 7 U.S.C. 8102) (7 CFR Part 4270) (https://www.biopreferred.gov/).

(4) A substance identified in the EPA's Significant New Alternatives Policy (SNAP) program as a safe alternative to an ozone-depleting substance (42 U.S.C. 76711) (40 CFR part 82, subpart G) (https://www.epa.gov/snap/unacceptable-and-acceptable-substitutes-tables).

USDA-designated product category means a generic grouping of biobased products that are listed by USDA in a procurement guideline and for which USDA has provided minimum biobased content standards (https://www.biopreferred.gov/resources/categories.html).

23.102 Policy.

(a) Agencies must procure sustainable products to the maximum extent practicable. Procuring a sustainable product is considered practicable, unless the agency cannot acquire the sustainable product—

(1) Competitively within a reasonable performance schedule;

(2) That meets reasonable performance requirements; or

(3) At a reasonable price.

(b) When considering whether the price of a sustainable product is reasonable, agencies should consider whether the product is cost-effective over the life of the product.

23.103 Procedures.

(a) Work with the requiring activity to identify sustainable products that apply to the acquisition.

(b) When it is not practicable to procure a sustainable product (see 23.102(a)), include a justification explaining the circumstances in the contract file.

(c) Ensure the solicitation and contract identify sustainable products that are required to be provided during performance of the contract and those that are covered by a justification described in paragraph (b).

23.104 Priorities.

(a) When both an EPA-designated item containing recovered material and a biobased product in a USDA-designated product category could be used for the same purposes, procure the EPA-designated item.

(b) Treat products from designated countries, as defined in part 25, as eligible for the preference for biobased products provided that those products—

(1) Meet the criteria for the definition of biobased product, except that the products need not meet the requirement that renewable agricultural materials or forestry materials in such product must be domestic; and

(2) Otherwise meet all requirements for participation in the preference program.

23.105 Exceptions.

(a) Contracts performed or supplies delivered outside of the United States are not required to include sustainable products, unless the agency head determines that such application is in the interest of the United States.

(b) Contracts for weapon systems are not required to include sustainable products; however, compliance with applicable agency programs is required for recovered materials (see 23.107(a)1)) (42 U.S.C. 6962) and for alternatives for ozone depleting substances (42 U.S.C. 7671l), unless a written justification exists.

(c) Energy-consuming products or systems designed or procured for combat or combat-related missions are not required to be energy-efficient products (42 U.S.C. 8259b).

(d) Biobased products to be used in military equipment (products or systems designed or procured for combat or combat-related missions), spacecraft systems, or launch support equipment are not required to meet the content requirements of the USDA under the BioPreferred® program (7 U.S.C 8102).

(e) Substitution is not required for class II substances identified as safe alternatives under 42 U.S.C. 7671k, or for products made with or containing such substances, and such substances may be used as substitutes for other class I or class II substances.

23.106 Restrictions.

(a) Do not purchase class II substances, or products containing class II substances, for the purpose of any use prohibited under 42 U.S.C. 7671d(c) (40 CFR 82.84(a)(2)).

(b) Do not purchase products whose sale is prohibited under 42 U.S.C. 7671h, except when the products will be used by persons certified to service vehicles (40 CFR 82.84(a)(4)).

(c) Do not purchase nonessential products as defined under 42 U.S.C. 7671i (40 CFR 82.84(a)(4)).

23.107 Agency programs.

(a) Each agency must implement the following:

(1) A program to promote the procurement of EPA-designated items that contain recovered material. This program applies to an item if the agency procures $10,000 or more worth of the item in a fiscal year. The program must meet the minimum requirements at 40 CFR 247.6.

(2) A program to promote the procurement of biobased products in the USDA BioPreferred® Program. This program applies to a product if the agency procures $10,000 or more worth of the product in a fiscal year. The program must meet the minimum requirements at 7 CFR 4270.5(b).

(b) Agencies may use their own specifications or commercial product descriptions; however, the solicitation and contract should specify that—

(1) EPA-designated items be composed of the highest percentage of recovered materials practicable or meet the EPA's minimum recovered material content standards.

(2) Biobased products in the BioPreferred® Program be composed of the highest percentage of biobased material practicable or meet the USDA's minimum biobased content standards.

23.108 Solicitation provisions and contract clauses.

(a) *General*. Insert the clause at 52.223-23, Sustainable Products, in solicitations and contracts unless a written justification or exception (see 23.103(b) and 23.105, respectively) covers the entire acquisition.

(b) *Products containing recovered material.* Except for the acquisition of COTS items—

(1) Insert the provision at 52.223-4, Recovered Material Certification, in solicitations that require the delivery or specify the use of EPA-designated items; and

(2) Insert the clause at 52.223-9, Estimate of Percentage of Recovered Material Content for EPA-designated Items, in solicitations and contracts exceeding $200,000 that are for, or specify the use of, EPA-designated items containing recovered materials. If technical personnel advise that estimates can be verified, use the clause with its Alternate I.

(c) *Biobased products*.

(1) Insert the provision at 52.223-1, Biobased Product Certification, in solicitations, other than for acquisitions described at 23.105(d), that—

(i) Require the delivery or specify the use of biobased products in USDA-designated product categories; or

(ii) (Include the clause at 52.223-2.

(2) Insert the clause at 52.223-2, Reporting of Biobased Products Under Service and Construction Contracts, in service and construction solicitations and contracts, unless the contract will not involve the use of biobased products in USDA-designated product categories.

(d) *Products containing ozone-depleting substances*. Except for contracts for supplies that will be delivered outside the United States and its outlying areas, or contracts for services that will be performed outside the United States and its outlying areas, insert the following clauses:

(1) 52.223-11, Ozone-Depleting Substances, in solicitations and contracts that may include products that may contain or be manufactured with ozone-depleting substances.

(2) 52.223-12, Maintenance, Service, Repair, or Disposal of Refrigeration Equipment and Air Conditioners, in solicitations and contracts that include the maintenance, service, repair, or disposal of refrigeration equipment or air conditioners.

This page intentionally left blank.

Subpart 23.2 - Energy Savings Performance Contracts

23.200 Scope of subpart.

This subpart prescribes policies and procedures for using an energy savings performance contract. This subpart applies to acquisitions in the United States and its outlying areas. Agencies conducting acquisitions outside of these areas should use their best efforts to comply with this subpart.

23.201 Definition.

As used in this subpart—

Energy savings performance contract, pursuant to 42 U.S.C. 8287 and 10 CFR 436.31, means a contract that requires the contractor to—

(1) Perform services for the design, acquisition, financing, installation, testing, operation, and where appropriate, maintenance and repair, of an identified energy conservation measure or series of measures at one or more locations;

(2) Incur the costs of implementing the energy savings measures, including at least the cost (if any) incurred in making energy audits, acquiring and installing equipment, and training personnel in exchange for a predetermined share of the value of the energy savings directly resulting from implementation of such measures during the term of the contract; and

(3) Guarantee future energy and cost savings to the Government.

23.202 Policy.

(a) Agencies should make maximum use of the authority provided in the National Energy Conservation Policy Act (42 U.S.C. 8287) to use an energy savings performance contract (ESPC) when life-cycle, cost-effective to reduce energy use and cost in the agency's facilities and operations.

(b) To solicit and award an ESPC, use the procedures, selection method, and terms and conditions provided in 10 CFR part 436, subpart B.

(c) For more information see *https://energy.gov/eere/femp/energy-savings-performance-contracts-federal-agencies* .

This page intentionally left blank.

Subpart 23.3 - Material Safety

23.300 Scope of subpart.

This subpart prescribes policies and procedures for the following:

(a) Acquiring deliverable items, other than ammunition and explosives, that require the furnishing of data involving hazardous materials.

(b) Providing notification of radioactive materials prior to delivery.

23.301 Definition.

Hazardous material is defined in the latest version of Federal Standard No. 313, Material Safety Data, Transportation Data, and Disposal Data for Hazardous Materials Furnished to Government Activities.

23.302 Hazardous material identification and safety data.

(a) Offerors and contractors are required to submit hazardous materials data whenever the supplies being acquired are identified as hazardous materials. The latest version of Federal Standard No. 313 includes criteria for identification of hazardous materials.

(b) Safety Data Sheets (SDS's) are required—

(1) As specified in the latest version of Federal Standard No. 313, including revisions adopted during the term of the contract;

(2) For any other material designated by a Government technical representative as potentially hazardous and requiring safety controls.

(c) (c) SDS's must be submitted—

(1) By the apparent successful offeror prior to contract award if hazardous materials are expected to be used during contract performance.

(2) For agencies other than the Department of Defense, again by the contractor with the supplies at the time of delivery.

(d) The contracting officer must provide a copy of all SDS's received to the safety officer or other designated individual.

23.303 Notice of radioactive materials.

(a) The clause at 52.223-7, Notice of Radioactive Materials, requires the contractor to notify the contracting officer prior to delivery of radioactive material.

(b) Upon receipt of the notice, the contracting officer must notify receiving activities so that appropriate safeguards can be taken.

(c) The clause permits the contracting officer to waive the notification if the contractor states that the notification on prior deliveries is still current. The contracting officer may waive the notice only after consultation with cognizant technical representatives.

(d) The contracting officer must specify in the clause at 52.223-7, the number of days in advance of delivery that the contractor will provide notification. The determination of the number of days should be done in coordination with the installation/facility radiation protection officer (RPO). The RPO is responsible for ensuring the proper license, authorization, or permit is obtained prior to receiving radioactive material.

23.304 Contract clauses.

(a) (1) Insert the clause at 52.223-3, Hazardous Material Identification and Safety Data, in solicitations and contracts if the contract will require the delivery of hazardous materials as defined in 23.301.

(2) If the contract is awarded by an agency other than the Department of Defense, the contracting officer shall use the clause at 52.223-3 with its Alternate I..

(b) Insert the clause at 52.223-7, Notice of Radioactive Materials, in solicitations and contracts for supplies that are or that contain—

(1) Radioactive material requiring specific licensing under regulations issued pursuant to the Atomic Energy Act of 1954; or

(2) Radioactive material not requiring specific licensing in which the specific activity is greater than 0.002 microcuries per gram or the activity per item equals or exceeds 0.01 microcuries. Such supplies include, but are not limited to, aircraft, ammunition, missiles, vehicles, electronic tubes, instrument panel gauges, compasses, and identification markers.

This page intentionally left blank.

Subpart 23.4 - Pollution Prevention

23.400 Scope of subpart.

This subpart prescribes policies and procedures for obtaining information needed for Government compliance with the Emergency Planning and Community Right-to-Know Act of 1986, 42 U.S.C. 11001-11050 (EPCRA) and Pollution Prevention Act of 1990, 42 U.S.C. 13101-13109 (PPA).

23.401 Definitions.

As used in this subpart—

Federal facility means a facility owned or operated by a Federal agency in the customs territory of the United States.

Pollution prevention means any practice that—

(1) Reduces the amount of any hazardous substance, pollutant, or contaminant entering any waste stream or otherwise released into the environment (including fugitive emissions) prior to recycling, treatment, or disposal; and

(2) Reduces the hazards to public health and the environment associated with the release of such substances, pollutants, and contaminants. (42 U.S.C. 13102(5))

Toxic chemical means a chemical or chemical category listed in 40 CFR 372.65.

23.402 Emergency planning and toxic chemical release reporting.

Contracts that require performance on a Federal facility must require the contractor to provide information necessary for the agency to comply with the emergency planning and toxic chemical release reporting requirements in EPCRA and PPA.

23.403 Contract clauses.

Insert the clause at 52.223-5, Pollution Prevention and Right-to-Know Information, in solicitations and contracts that provide for performance, in whole or in part, on a Federal facility.

This page intentionally left blank.

PART 24 - PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION

Sec.

This page intentionally left blank.

24.000 Scope of part.

This part explains how the Privacy Act of 1974 (5 U.S.C. 552a) and OMB Circular No. A-130 (December 12, 1985) apply to Government contracts. It also references the Freedom of Information Act (5 U.S.C. 552).

Subpart 24.1 - Protection of Individual Privacy

24.101 Definitions.

As used in this subpart-

Agency means any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency.

Individual means a citizen of the United States or an alien lawfully admitted for permanent residence.

Maintain means maintain, collect, use, or disseminate.

Operation of a system of records means performance of any of the activities associated with maintaining the system of records, including the collection, use, and dissemination of records.

Personally identifiable information means information that can be used to distinguish or trace an individual's identity, either alone or when combined with other information that is linked or linkable to a specific individual. (See Office of Management and Budget (OMB) Circular No. A-130, Managing Federal Information as a Strategic Resource).

Record means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, education, financial transactions, medical history, and criminal or employment history, and that contains the individual's name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a fingerprint or voiceprint or a photograph.

System of records on individuals means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

24.102 General.

(a) When an agency hires a contractor to design, develop, or operate a system of records on individuals, the agency must apply the Privacy Act requirements to the contractor and its employees working on the contract.

(b) Both agency staff and contractor employees may face criminal penalties for violating the Privacy Act. When contractors operate a system of records on individuals to accomplish an agency function, the law treats these contractors as agency employees for purposes of the criminal penalties.

(c) When a contract specifically calls for designing, developing, or operating a system of records on individuals to accomplish an agency function, the agency must apply Privacy Act requirements to the contractor and its employees working on the contract. The system of records operated under the contract is officially considered to be maintained by the agency for the purposes of the Act.

(d) Agencies that, within the limits of their authorities, fail to require contractors to operate systems of records according to the Privacy Act may be civilly liable. If an individual suffers harm due to the contractor’s violation of the Act, the agency may be liable.

24.103 Procedures.

(a) The contracting officer must review requirements to determine if they include designing, developing, or operating a system of records on individuals to accomplish an agency function.

(b) If the contract requires such work, the contracting officer must—

(1) Clearly identify in the contract work statement both the specific system of records and the design, development, or operation work required; and

(2) Provide the contractor with the agency's rules and regulations that implement the Privacy Act.

24.104 Contract clauses.

When a contract requires designing, developing, or operating a system of records on individuals to accomplish an agency function, the contracting officer must include the following clauses in solicitations and contracts:

(a) The clause at 52.224-1, Privacy Act Notification.

(b) The clause at 52.224-2, Privacy Act.

This page intentionally left blank.

Subpart 24.2 - Freedom of Information Act

24.201 Authority.

The Freedom of Information Act (5 U.S.C. 552) requires that information be made available to the public through three methods:

(a) Publication in the *Federal Register*;

(b) Access to read and copy records at convenient locations; or

(c) Providing a copy of a reasonably described record upon request.

24.202 Prohibitions.

(a) An agency must not disclose under the Freedom of Information Act any proposal submitted in response to solicitation for competitive proposals. This prohibition does not apply to a proposal, or any part of a proposal, that is included or incorporated by reference in a contract between the Government and the contractor that submitted the proposal. (See 10 U.S.C. 3309 and 41 U.S.C. 4702.)

(b) An agency must not disclose outside the Government any information obtained under part 15 that is exempt from disclosure under the Freedom of Information Act. (See 10 U.S.C. 3705(c)(3) and 41 U.S.C. 3505(b)(3).)

(c) A dispute resolution communication between a neutral person and a party to alternative dispute resolution proceedings that is protected under 5 U.S.C.574(j) is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552(b)(3)).

24.203 Policy.

(a) The Freedom of Information Act specifies how agencies must make their records available upon public request, sets strict time standards for agency responses, and exempts certain records from public disclosure. Each agency's implementation of these requirements appears in its respective title of the Code of Federal Regulations and is referenced in subpart 24.2 of its implementing acquisition regulations.

(b) Contracting officers may receive requests for records that may be exempt from mandatory public disclosure. The most common exemptions are for trade secrets and confidential commercial or financial information (5 U.S.C. 552(b)(4)). Other exemptions include certain interagency or intra-agency memoranda, classified information, internal personnel rules, personal and medical information about individuals, and law enforcement.

(c) Since these requests often involve complex issues requiring in-depth knowledge of court rulings and policy guidance, contracting officers must comply with their agency's implementing regulations. Contracting officers should obtain necessary guidance from agency officials responsible for Freedom of Information Act compliance. For additional assistance, authorized agency officials may contact the Department of Justice, Office of Information and Privacy. A Freedom of Information Act guide and other resources are available at the Department of Justice website under FOIA reference materials: http://www.usdoj.gov/oip.

This page intentionally left blank.

Subpart 24.3 - Privacy Training

24.301 [Reserved]

24.302 Contract clause.

(a) The contracting officer must insert the clause at FAR 52.224-3, Privacy Training, in solicitations and contracts when, on behalf of the agency, contractor employees will—

(1) Have access to a system of records;

(2) Create, collect, use, process, store, maintain, disseminate, disclose, dispose, or otherwise handle personally identifiable information; or

(3) Design, develop, maintain, or operate a system of records.

(b) When an agency specifies that only its agency-provided training is acceptable, use the clause with its Alternate I.

This page intentionally left blank.

PART 25 - FOREIGN ACQUISITION

This page intentionally left blank.

25.001 General.

(a) 41 U.S.C. chapter 83, Buy American—

(1) Restricts the purchase of supplies, that are not domestic end products, for use within the United States. A foreign end product may be purchased if the contracting officer determines that the price of the lowest domestic offer is unreasonable or if another exception applies (see subpart 25.1); and

(2) Requires, with some exceptions, the use of only domestic construction materials in contracts for construction in the United States (see subpart 25.2).

(b) The restrictions in the Buy American statute are not applicable in acquisitions subject to certain trade agreements (see subpart 25.4). In these acquisitions, end products and construction materials from certain countries receive nondiscriminatory treatment in evaluation with domestic offers. Generally, the dollar value of the acquisition determines which of the trade agreements applies. Exceptions to the applicability of the trade agreements are described in subpart 25.4.

(c) The test to determine the country of origin for an end product under the Buy American statute (see the “domestic end product” definition in 25.003) is different from the test to determine the country of origin for an end product under the trade agreements (see the various country “end product” definitions in 25.003), or the criteria for the representation on end products manufactured outside the United States (see 52.225-18).

(1) The Buy American statute uses a two-part test to define a “domestic end product” or “domestic construction material” (manufactured in the United States and a domestic content test). The domestic content test has been waived for acquisition of commercially available off-the-shelf (COTS) items, except a product that consists wholly or predominantly of iron or steel or a combination of both (excluding COTS fasteners) (see 25.101(a) and 25.201(b)).

(2) Under the trade agreements, the test to determine country of origin is “substantial transformation” (*i.e.*, transforming an article into a new and different article of commerce, with a name, character, or use distinct from the original article).

(3) For the representation at 52.225-18, the only criterion is whether the place of manufacture of an end product is in the United States or outside the United States, without regard to the origin of the components.

25.002 [Reserved]

25.003 Definitions.

As used in this part—

Caribbean Basin country means any of the following countries: Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago.

Caribbean Basin country end product —

(1) Means an article that—

(i)

(A) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(B) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed; and

(ii) Is not excluded from duty-free treatment for Caribbean countries under 19 U.S.C. 2703(b).

(A) For this reason, the following articles are not Caribbean Basin country end products:

(1) Tuna, prepared or preserved in any manner in airtight containers.

(2) Petroleum, or any product derived from petroleum.

(3) Watches and watch parts (including cases, bracelets, and straps) of whatever type including, but not limited to, mechanical, quartz digital, or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the Harmonized Tariff Schedule of the United States (HTSUS) column 2 rates of duty apply (*i.e.,* Afghanistan, Cuba, Laos, North Korea, and Vietnam).

(4) Certain of the following: textiles and apparel articles; footwear, handbags, luggage, flat goods, work gloves, and leather wearing apparel; or handloomed, handmade, and folklore articles.

(B) Access to the HTSUS to determine duty-free status of articles of the types listed in paragraph (1)(ii)(A)(*4*) of this definition is available via the Internet at *https://usitc.gov/tata/hts/index.htm.* In particular, see the following:

(1) General Note 3(c), Products Eligible for Special Tariff treatment.

(2) General Note 17, Products of Countries Designated as Beneficiary Countries under the United States-Caribbean Basin Trade Partnership Act of 2000.

(3) Section XXII, Chapter 98, Subchapter II, Articles Exported and Returned, Advanced or Improved Abroad, U.S. Note 7(b).

(4) Section XXII, Chapter 98, Subchapter XX, Goods Eligible for Special Tariff Benefits under the United States-Caribbean Basin Trade Partnership Act; and

(2) Refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the acquisition, includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

Civil aircraft and related articles means—

(1) All aircraft other than aircraft to be purchased for use by the Department of Defense or the U.S. Coast Guard;

(2) The engines (and parts and components for incorporation into the engines) of these aircraft;

(3) Any other parts, components, and subassemblies for incorporation into the aircraft; and

(4) Any ground flight simulators, and parts and components of these simulators, for use with respect to the aircraft, whether to be used as original or replacement equipment in the manufacture, repair, maintenance, rebuilding, modification, or conversion of the aircraft and without regard to whether the aircraft or articles receive duty-free treatment under section 601(a)(2) of the Trade Agreements Act.

Component means an article, material, or supply incorporated directly into an end product or construction material.

Construction material means an article, material, or supply brought to the construction site by a contractor or subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means—

(1) For components purchased by the contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product or construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the end product.

Critical component means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at 25.105.

Critical item means a domestic construction material or domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at 25.105.

Designated country means any of the following countries:

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as "the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu" (Chinese Taipei)), Ukraine, or United Kingdom);

(2) A Free Trade Agreement (FTA) country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Oman, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

Designated country end product means a WTO GPA country end product, an FTA country end product, a least developed country end product, or a Caribbean Basin country end product.

Domestic construction material means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of the components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029 (unless an alternate percentage is established for a contract in accordance with FAR 25.201(c)). Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a commercially available off-the-shelf (COTS) item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of foreign iron and steel constitutes less than 5 percent of the cost of all the components used in such construction material. The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the construction material and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this section.

Domestic end product means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States;

(ii) An end product manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029 (unless an alternate percentage is established for a contract in accordance with FAR 25.101(d)). Components of foreign origin of the same class or kind as those that the agency determines are not mined, produced, or manufactured in sufficient and reasonably available commercial quantities of a satisfactory quality are treated as domestic. Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of foreign iron and steel constitutes less than 5 percent of the cost of all the components used in the end product. The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the end product and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the definition of “cost of components” in this section.

Domestic offer means an offer of a domestic end product. When the solicitation specifies that award will be made on a group of line items, a domestic offer means an offer where the proposed price of the domestic end products exceeds 50 percent of the total proposed price of the group.

Eligible offer means an offer of an eligible product. When the solicitation specifies that award will be made on a group of line items, an eligible offer means a foreign offer where the combined proposed price of the eligible products and the domestic end products exceeds 50 percent of the total proposed price of the group.

Eligible product means a foreign end product, construction material, or service that, due to applicability of a trade agreement to a particular acquisition, is not subject to discriminatory treatment.

End product means those articles, materials, and supplies to be acquired for public use.

Fastener means a hardware device that mechanically joins or affixes two or more objects together. Examples of fasteners are nuts, bolts, pins, rivets, nails, clips, and screws.

Foreign construction material means a construction material other than a domestic construction material.

Foreign contractor means a contractor or subcontractor organized or existing under the laws of a country other than the United States.

Foreign end product means an end product other than a domestic end product.

Foreign iron and steel means iron or steel products not produced in the United States. Produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, from the initial melting stage through the application of coatings, except metallurgical processes involving refinement of steel additives. The origin of the elements of the iron or steel is not relevant to the determination of whether it is domestic or foreign.

Foreign offer means any offer other than a domestic offer.

Free Trade Agreement country means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Oman, Panama, Peru, or Singapore.

Free Trade Agreement country end product means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement (FTA) country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an FTA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

Israeli end product means an article that—

(1) Is wholly the growth, product, or manufacture of Israel; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Israel into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

Least developed country means any of the following countries: Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia.

Least developed country end product means an article that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

Noneligible offer means an offer of a noneligible product.

Noneligible product means a foreign end product that is not an eligible product.

Predominantly of iron or steel or a combination of both means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

Steel means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

United States means the 50 States, the District of Columbia, and outlying areas.

U.S.-made end product means an article that is mined, produced, or manufactured in the United States or that is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

World Trade Organization Government Procurement Agreement (WTO GPA) country means any of the following countries: Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan, Ukraine, or United Kingdom.

WTO GPA country end product means an article that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

Subpart 25.1 —Buy American—Supplies

25.100 Scope of subpart.

This subpart—

(a) Implements—

(1) 41 U.S.C. chapter 83, Buy American;

(2) Executive Order 10582, December 17, 1954;

(3) Executive Order 13881, July 15, 2019;

(4) Executive Order 14005, January 25, 2021; and

(5) Waiver of the domestic content test of the Buy American statute for acquisition of commercially available off-the-shelf (COTS) items in accordance with 41 U.S.C. 1907, but see 25.101(a)(2)(ii).

(b) Applies to supplies acquired for use in the United States, including supplies acquired under contracts set aside for small business concerns, if—

(1) The supply contract exceeds the micro-purchase threshold; or

(2) The supply portion of a contract for services that involves the furnishing of supplies (e.g., lease) exceeds the micro-purchase threshold.

25.101 General.

(a) The Buy American statute restricts the purchase of supplies that are not domestic end products. For manufactured end products, the Buy American statute, E.O. 13881, and E.O. 14005 use a two-part test to define a domestic end product.

(1) The article must be manufactured in the United States; and

(2)

(i) Except for an end product that consists wholly or predominantly of iron or steel or a combination of both, the cost of domestic components must exceed 60 percent of the cost of all the components, except that the percentage is 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029. But see paragraph (d) of this section. In accordance with 41 U.S.C. 1907, this domestic content test of the Buy American statute has been waived for acquisitions of COTS items (but see paragraph (a)(2)(ii) of this section).

(ii) For an end product that consists wholly or predominantly of iron or steel or a combination of both, the cost of foreign iron and steel must constitute less than 5 percent of the cost of all the components used in the end product (see the definition of “foreign iron and steel” at 25.003). The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the end product and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. This domestic content test of the Buy American statute has not been waived for acquisitions of COTS items in this category, except for COTS fasteners.

(b) The Buy American statute applies to small business set-asides. A manufactured product of a small business concern is a U.S.-made end product, but is not a domestic end product unless it meets the domestic content test in paragraph (a)(2) of this section.

(c) Exceptions that allow the purchase of a foreign end product are listed at 25.103. The unreasonable cost exception is implemented through the use of an evaluation factor applied to low foreign offers that are not eligible offers. The evaluation factor is not used to provide a preference for one foreign offer over another.

(d)

(1) A contract with a period of performance that spans the schedule of domestic content threshold increases specified in paragraph (a)(2)(i) of this section must comply with each increased threshold for the items in the year of delivery, unless the senior procurement executive of the contracting agency allows for application of an alternate domestic content test for that contract under which the domestic content threshold in effect at time of contract award will apply to the entire period of

performance for the contract. This authority is not delegable. The senior procurement executive must consult the Office of Management and Budget's Made in America Office (MIAO) before allowing the use of the alternate domestic content test.

(2) When a senior procurement executive allows for application of an alternate domestic content test for a contract—

(i) See 25.601(a)(1)(ii) or 25.601(b)(1)(v) for use of the appropriate Alternate clause to reflect the domestic content threshold that will apply to the entire period of performance for that contract; and

(ii) Use the fill-in at 52.213-4(b)(1)(xviii)(B) instead of including 52.225-1 Alternate I when using 52.213-4, Terms and Conditions—Simplified Acquisitions (Other Than Commercial Products and Commercial Services).

25.102 Policy.

Except as provided in 25.103, acquire only domestic end products for public use inside the United States.

25.103 Exceptions.

When one of the following exceptions applies, the contracting officer may acquire a foreign end product without regard to the restrictions of the Buy American statute:

(a) *Public interest.* The head of the agency may make a determination that domestic preference would be inconsistent with the public interest. This exception applies when an agency has an agreement with a foreign government that provides a blanket exception to the Buy American statute.

(b) *Nonavailability.* The Buy American statute does not apply with respect to articles, materials, or supplies if articles, materials, or supplies of the class or kind to be acquired, either as end items or components, are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

(1) *Class nonavailability determinations.*

(i) A nonavailability determination has been made for the articles listed in 25.104. This determination does not necessarily mean that there is no domestic source for the listed items, but that domestic sources can only meet 50 percent or less of total U.S. Government and nongovernment demand.

(ii) Before acquisition of an article on the list, the procuring agency is responsible to conduct market research appropriate to the circumstances, including seeking of domestic sources. This applies to acquisition of an article as—

(A) An end product; or

(B) A significant component (valued at more than 50 percent of the value of all the components).

(iii) The determination in paragraph (b)(1)(i) of this section does not apply if the contracting officer learns at any time before the time designated for receipt of bids in sealed bidding or final offers in negotiation that an article on the list is available domestically in sufficient and reasonably available commercial quantities of a satisfactory quality to meet the requirements of the solicitation. The contracting officer must—

(A) Ensure that the appropriate Buy American statute provision and clause are included in the solicitation (see 25.601(a), 25.601(b), or 25.602);

(B) Specify in the solicitation that the article is available domestically and that offerors and contractors may not treat foreign components of the same class or kind as domestic components; and

(C) Submit a copy of supporting documentation to your agency representative at the FAR Council, in accordance with agency procedures, for possible removal of the article from the list.

(2) *Individual nonavailability determinations.*

(i) The head of the contracting activity must first make a determination that an article, material, or supply is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality (i.e., individual nonavailability waiver determinations) in accordance with agency procedures. Prior to award, the agency must comply with the procedures in paragraph (b)(2)(iii) of this section. A determination is not required before January 1, 2030, if there is an offer for a foreign end product that exceeds 55 percent domestic content (see 25.106(b)(2) and 25.106(c)(2)).

(ii) If the contracting officer considers that the nonavailability of an article is likely to affect future acquisitions, the contracting officer may submit a copy of the determination and supporting documentation to its agency representative at the FAR Council, in accordance with agency procedures, for possible addition to the list in 25.104.

(iii) Contracting officers must submit a proposed individual nonavailability waiver for review and posting to MadeinAmerica.gov using the digital waiver portal by the MIAO, unless an exception applies. The contracting officer must not make an award until the contracting officer has received confirmation that the MIAO has completed its review of the proposed nonavailability waiver determination; MIAO has waived the requirement for a review; or an exception to posting the proposed nonavailability waiver determination applies. Agencies will issue final waivers only after completing coordination with the Office of Management and Budget (OMB).

(A) Contracting officers must post a proposed individual nonavailability waiver determination to MadeinAmerica.gov by inputting the required information into a digital waiver. The digital waiver requires the standardized nonavailability waiver determination information listed in the OMB guidance, and additional information, such as the proposed duration of the nonavailability waiver determination and whether the waiver determination is for an indefinite-delivery type contract (i.e., a "multi-procurement waiver" in the digital form) or for a contract that is not an indefinite-delivery type contract (i.e., an "individual waiver" in the digital form).

(B) Unless waived, all proposed nonavailability waiver determination information posted using the digital waiver will be reviewed by MIAO. Certain information from the nonavailability waiver determination will be available to the public at MadeinAmerica.gov immediately upon posting the proposed waiver and prior to review by MIAO. The digital waiver identifies for the contracting officer those fields that will be made public and those fields that are not public because they are for government use only. Contracting officers must not enter source selection information (see 2.101 and 3.104) in any field. Contracting officers must not enter in the public fields any information that cannot be made public.

(C) MIAO plans to complete the majority of nonavailability waiver determination reviews within 15 business days from submission to OMB. Waivers involving certain small dollar transactions (e.g., over the micro-purchase threshold but less than $25,000), will generally be reviewed by MIAO rapidly but waivers for larger and more complex acquisitions, or waivers implicating critical supply chains, may take the full 15 business days. Contracting officers should consider the timeframes above for acquisition planning.

(D) Contracting officers are not required to post proposed individual nonavailability waiver determinations to MadeinAmerica.gov prior to waiver determination issuance when–

(1) The acquisition is conducted under reduced competition due to urgency (see FAR 6.103-2 and 13.101(b)) or where the agency is obligated by law to act more quickly than the review procedures established in this section allow. In these instances, contracting officers must file an urgent requirement report for such waivers using information found in the digital waiver portal within 30 days of award. MIAO will make relevant information available to the public on MadeinAmerica.gov but will not make a determination on such waivers; or

(2) The acquisition is for products that have been determined to be nonavailable on a class basis and are listed in 25.104.

(c) *Unreasonable cost.* The contracting officer may determine that the cost of a domestic end product would be unreasonable, in accordance with 25.106 and subpart 25.5.

(d) *Resale.* The contracting officer may purchase foreign end products specifically for commissary resale.

(e) *Information technology that is a commercial product.* The restriction on purchasing foreign end products does not apply to the acquisition of information technology that is a commercial product, when using fiscal year 2004 or subsequent fiscal year funds (section 535(a) of Division F, Title V, Consolidated Appropriations Act, 2004, and similar sections in subsequent appropriations acts).

25.104 Nonavailable articles.

(a) The following articles have been determined to be nonavailable in accordance with 25.103(b)(1)(i):

(1) Antimony, as metal or oxide.

(2) Bamboo shoots.

(3) Bananas.

(4) Bismuth.

(5) Books, trade, text, technical, or scientific; newspapers; pamphlets; magazines; periodicals; printed briefs and films; not printed in the United States and for which domestic editions are not available.

(6) Brazil nuts, unroasted.

(7) Capers.

(8) Cashew nuts.

(9) Chestnuts.

(10) Chrome ore or chromite.

(11) Cocoa beans.

(12) Coconut and coconut meat, unsweetened, in shredded, desiccated, or similarly prepared form.

(13) Coffee, raw or green bean.

(14) Cork, wood or bark and waste.

(15) Cover glass, microscope slide.
(16) Fair linen, altar.
(17) Fibers of the following types: abaca, abace, agave, coir, flax, jute, jute burlaps, palmyra, and sisal.
(18) Grapefruit sections, canned.
(19) Hemp yarn.
(20) Hog bristles for brushes.
(21) Hyoscine, bulk.
(22) Modacrylic fiber.
(23) Nitroguanidine (also known as picrite).
(24) Oranges, mandarin, canned.
(25) Pineapple, canned.
(26) Quartz crystals.
(27) Rubber, crude and latex (natural).
(28) Rutile.
(29) Silk, raw and unmanufactured.
(30) Spare and replacement parts for equipment of foreign manufacture, and for which domestic parts are not available.
(31) Spices and herbs, in bulk.
(32) Swords and scabbards.
(33) Tapioca flour and cassava.
(34) Tartar, crude; tartaric acid and cream of tartar in bulk.
(35) Tea in bulk.
(36) Tin in bars, blocks, and pigs.
(37) Vanilla beans.
(38) Venom, cobra.
(39) Water chestnuts.

(b) This list will be published in the Federal Register for public comment no less frequently than once every five years.

25.105 Critical components and critical items.

(a) The following is a list of articles that have been determined to be a critical component or critical item and their respective preference factor(s).

(1) -(2) [Reserved]

(b) The list of articles and preference factors in paragraph (a) of this section will be published in the Federal Register for public comment no less frequently than once every 4 years.

(c) For determining reasonableness of cost for domestic end products that contain critical components or are critical items (*see* 25.106(c)).

25.106 Determining reasonableness of cost.

(a) The contracting officer—

(1) Must use the evaluation factors in paragraphs (b) and (c) of this section unless the head of the agency makes a written determination that the use of higher factors is more appropriate. If the determination applies to all agency acquisitions, the agency evaluation factors must be published in agency regulations; and

(2) Must not apply evaluation factors to offers of eligible products if the acquisition is subject to a trade agreement under subpart 25.4.

(b) *For end products that are not critical items and do not contain critical components.*

(1)

(i) If there is a domestic offer that is not the low offer, and the restrictions of the Buy American statute apply to the low offer, the contracting officer must determine the reasonableness of the cost of the domestic offer by adding to the price of the low offer, inclusive of duty—

(A) 20 percent, if the lowest domestic offer is from a large business concern; or

(B) 30 percent, if the lowest domestic offer is from a small business concern. The contracting officer must use this factor, or another factor established in agency regulations, in small business set-asides if the low offer is from a small business concern offering the product of a small business concern that is not a domestic end product (see part 19).

(ii) The price of the domestic offer is reasonable if it does not exceed the evaluated price of the low offer after addition of the appropriate evaluation factor in accordance with paragraph (a) or (b)(1)(i) of this section. See evaluation procedures at subpart 25.5.

(2)

(i) For end products that are not COTS items and do not consist wholly or predominantly of iron or steel or a combination of both, if the procedures in paragraph (b)(1)(i) of this section result in an unreasonable cost determination for the domestic offer or there is no domestic offer received, and the low offer is for a foreign end product that does not exceed 55 percent domestic content, the contracting officer must —

(A) Treat the lowest offer of a foreign end product that is manufactured in the United States and exceeds 55 percent domestic content as a domestic offer; and

(B) Determine the reasonableness of the cost of this offer by applying the evaluation factors listed in paragraph (b)(1)(i) of this section to the low offer.

(ii) The price of the lowest offer of a foreign end product that exceeds 55 percent domestic content is reasonable if it does not exceed the evaluated price of the low offer after addition of the appropriate evaluation factor in accordance with paragraph (a) or (b)(1)(i) of this section. See evaluation procedures at subpart 25.5.

(iii) The procedures in this paragraph (b)(2) will no longer apply as of January 1, 2030.

(c) *For end products that are critical items or contain critical components.*

(1)

(i) If there is a domestic offer that is not the low offer, and the restrictions of the Buy American statute apply to the low offer, the contracting officer must determine the reasonableness of the cost of the domestic offer by adding to the price of the low offer, inclusive of duty—

(A) 20 percent, plus the additional preference factor identified for the critical item or end product containing critical components listed at section 25.105, if the lowest domestic offer is from a large business concern; or

(B) 30 percent, plus the additional preference factor identified for the critical item or end product containing critical components listed at section 25.105, if the lowest domestic offer is from a small business concern. The contracting officer must use this factor, or another factor established in agency regulations, in small business set-asides if the low offer is from a small business concern offering the product of a small business concern that is not a domestic end product (see part 19).

(ii) The price of the domestic offer is reasonable if it does not exceed the evaluated price of the low offer after addition of the appropriate evaluation factor in accordance with paragraph (a) or (b) of this section. See evaluation procedures at subpart 25.5.

(2)

(i) For end products that are not COTS items and do not consist wholly or predominantly of iron or steel or a combination of both, if the procedures in paragraph (c)(1)(ii) of this section result in an unreasonable cost determination for the domestic offer or there is no domestic offer received, and the low offer is for a foreign end product that does not exceed 55 percent domestic content, the contracting officer must —

(A) Treat the lowest offer of a foreign end product that is manufactured in the United States and exceeds 55 percent domestic content as a domestic offer; and

(B) Determine the reasonableness of the cost of this offer by applying the evaluation factors listed in paragraph (c)(1) of this section to the low offer.

(ii) The price of the lowest offer of a foreign end product that exceeds 55 percent domestic content is reasonable if it does not exceed the evaluated price of the low offer after addition of the appropriate evaluation factor in accordance with paragraph (a) or (b) of this section. See evaluation procedures at subpart 25.5.

(iii) The procedures in this paragraph (c)(2) will no longer apply as of January 1, 2030.

This page intentionally left blank.

Subpart 25.2 —Buy American—Construction Materials

25.200 Scope of subpart.

(a) This subpart implements—

(1) 41 U.S.C. chapter 83, Buy American;

(2) Executive Order 10582, December 17, 1954;

(3) Executive Order 13881, July 15, 2019;

(4) Executive Order 14005, January 25, 2021; and

(5) Waiver of the domestic content test of the Buy American statute for acquisitions of commercially available off-the-shelf (COTS) items in accordance with 41 U.S.C. 1907, but see 25.201(b)(2)(ii).

(b) It applies to contracts for the construction, alteration, or repair of any public building or public work in the United States.

25.201 Policy.

(a) Except as provided in 25.202, use only domestic construction materials in construction contracts performed in the United States.

(b) The Buy American statute restricts the purchase of construction materials that are not domestic construction materials. For manufactured construction materials, the Buy American statute, E.O. 13881, and E.O. 14005 use a two-part test to define domestic construction materials.

(1) The article must be manufactured in the United States; and

(2)

(i) Except for construction material that consists wholly or predominantly of iron or steel or a combination of both, the cost of domestic components must exceed 60 percent of the cost of all the components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, but see paragraph (c) of this section. In accordance with 41 U.S.C. 1907, this domestic content test of the Buy American statute has been waived for acquisitions of COTS items (see part 12).

(ii) For construction material that consists wholly or predominantly of iron or steel or a combination of both, the cost of foreign iron and steel must constitute less than 5 percent of the cost of all the components used in such construction material (see the definition of “foreign iron and steel” at 25.003). The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the construction material and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. This domestic content test of the Buy American statute has not been waived for acquisitions of COTS items in this category, except for COTS fasteners.

(c)

(1) A contract with a period of performance that spans the schedule of domestic content threshold increases specified in paragraph (b)(2)(i) of this section must comply with each increased threshold for the items in the year of delivery, unless the senior procurement executive of the contracting agency allows for application of an alternate domestic content test for that contract under which the domestic content threshold in effect at time of contract award will apply to the entire period of performance for the contract. This authority is not delegable. The senior procurement executive must consult the Office of Management and Budget's Made in America Office before allowing the use of the alternate domestic content test.

(2) When a senior procurement executive allows for application of an alternate domestic content test for a contract, see 25.602(a)(3) or (c)(4) for use of the appropriate Alternate clause to reflect the domestic content threshold that will apply to the entire period of performance for that contract.

25.202 Exceptions.

(a) When one of the following exceptions applies, the contracting officer may allow the contractor to acquire foreign construction materials without regard to the restrictions of the Buy American statute:

(1) *Impracticable or inconsistent with public interest.* The head of the agency may determine that application of the restrictions of the Buy American statute to a particular construction material would be impracticable or would be inconsistent with the public interest. The public interest exception applies when an agency has an agreement with a foreign government that provides a blanket exception to the Buy American statute.

(2) *Nonavailability.* The head of the contracting activity may determine that a particular construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities

of a satisfactory quality. The nonavailability waiver determinations of the articles listed at 25.104(a) and the procedures at 25.103(b)(1) also apply if any of those articles are acquired as construction materials. A determination is not required before January 1, 2030, if there is an offer for a foreign construction material that exceeds 55 percent domestic content (see 25.204(a)(1)(ii) and 25.204(a)(2)(ii)).

(3) *Unreasonable cost.* The contracting officer concludes that the cost of domestic construction material is unreasonable in accordance with 25.204.

(4) *Information technology that is a commercial product.* The restriction on purchasing foreign construction material does not apply to the acquisition of information technology that is a commercial product, when using Fiscal Year 2004 or subsequent fiscal year funds in accordance with section 535(a) of Division F, Title V, Consolidated Appropriations Act, 2004, and similar sections in subsequent appropriations acts.

(b) *Determination and findings.* When a determination is made for any of the reasons stated in this section that certain foreign construction materials may be used, the contracting officer must list the excepted materials in the contract. The agency must make the findings justifying the exception available for public inspection.

(c) *Acquisitions under trade agreements.* For construction contracts with an estimated acquisition value of $6,683,000 or more, see subpart 25.4.

25.203 Preaward determinations.

(a) For any acquisition, an offeror may request from the contracting officer a determination concerning the inapplicability of the Buy American statute for specifically identified construction materials.

(b) Before award, the contracting officer must evaluate all requests based on the information provided and may supplement this information with other readily available information.

25.204 Evaluating offers of foreign construction material.

(a)

(1) *For construction material that is not a critical item and does not contain critical components.*

(i) Unless the head of the agency specifies a higher percentage, the contracting officer must add to the offered price 20 percent of the cost of any foreign construction material proposed for exception from the requirements of the Buy American statute based on the unreasonable cost of domestic construction materials. In the case of a tie, the contracting officer must give preference to an offer that does not include foreign construction material excepted at the request of the offeror on the basis of unreasonable cost.

(ii) For construction material that is not a COTS item and does not consist wholly or predominantly of iron or steel or a combination of both, if the procedures in paragraph (a)(1)(i) of this section result in an unreasonable cost determination for the domestic construction material offer or there is no domestic construction material offer received, and the low offer is for foreign construction material that does not exceed 55 percent domestic content, the contracting officer must —

(A) Treat the lowest offer of foreign construction material that is manufactured in the United States and exceeds 55 percent domestic content as a domestic offer; and

(B) Determine the reasonableness of the cost of this offer by applying the evaluation factor listed in paragraph (a)(1)(i) to the low offer.

(iii) The procedures in paragraph (a)(1)(ii) of this section will no longer apply as of January 1, 2030.

(2) *For construction material that is a critical item or contains critical components.*

(i) The contracting officer must add to the offered price 20 percent, plus the additional preference factor identified for the critical item or construction material containing critical components listed at section 25.105, of the cost of any foreign construction material proposed for exception from the requirements of the Buy American statute based on the unreasonable cost of domestic construction materials. In the case of a tie, the contracting officer must give preference to an offer that does not include foreign construction material excepted at the request of the offeror on the basis of unreasonable cost. See 25.105 for the list of critical components and critical items.

(ii) For construction material that is not a COTS item and does not consist wholly or predominantly of iron or steel or a combination of both, if the procedures in paragraph (a)(2)(i) of this section result in an unreasonable cost determination for the domestic construction material offer or there is no domestic construction material offer received, and the low offer is for foreign construction material that does not exceed 55 percent domestic content, the contracting officer must —

(A) Treat the lowest offer of foreign construction material that is manufactured in the United States and exceeds 55 percent domestic content as a domestic offer; and

(B) Determine the reasonableness of the cost of this offer by applying the evaluation factors listed in this paragraph (a)(2) to the low offer.

(iii) The procedures in paragraph (a)(2)(ii) of this section will no longer apply as of January 1, 2030.

(b) If the contracting officer awards a contract to an offeror that proposed foreign construction material not listed in the applicable clause in the solicitation (paragraph (b)(2) of 52.225-9, or paragraph (b)(3) of 52.225-11), the contracting officer must add the excepted materials to the list in the contract clause.

25.205 Postaward determinations.

(a) If a contractor requests a determination regarding the inapplicability of the Buy American statute after contract award, the contractor must explain why it could not request the determination before contract award or why the need for such determination otherwise was not reasonably foreseeable. If the contracting officer concludes that the contractor should have made the request before contract award, the contracting officer may deny the request.

(b) The contracting officer must base evaluation of any request for a determination regarding the inapplicability of the Buy American statute made after contract award on information required by paragraphs (c) and (d) of the applicable clause at 52.225-9 or 52.225-11 and/or other readily available information.

(c) If a determination, under 25.202(a), is made after contract award that an exception to the Buy American statute applies, the contracting officer must negotiate adequate consideration and modify the contract to allow use of the foreign construction material. When the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is at least the differential established in 25.202(a) or in accordance with agency procedures.

25.206 Noncompliance.

The contracting officer must—

(a) Review allegations of Buy American statute violations;

(b) Unless fraud is suspected, notify the contractor of the apparent unauthorized use of foreign construction material and request a reply, to include proposed corrective action; and

(c) If the review reveals that a contractor or subcontractor has used foreign construction material without authorization, take appropriate action, including one or more of the following:

(1) Process a determination concerning the inapplicability of the Buy American statute in accordance with 25.205.

(2) Consider requiring the removal and replacement of the unauthorized foreign construction material.

(3) If removal and replacement of foreign construction material incorporated in a building or work would be impracticable, cause undue delay, or otherwise be detrimental to the interests of the Government, the contracting officer may determine in writing that the foreign construction material need not be removed and replaced. A determination to retain foreign construction material does not constitute a determination that an exception to the Buy American statute applies, and this should be stated in the determination. Further, a determination to retain foreign construction material does not affect the Government's right to suspend or debar a contractor, subcontractor, or supplier for violation of the Buy American statute, or to exercise other contractual rights and remedies, such as reducing the contract price or terminating the contract for default.

(4) If the noncompliance is sufficiently serious, consider exercising appropriate contractual remedies, such as terminating the contract for default. Also consider preparing and forwarding a report to the agency suspending and debarring official in accordance with subpart 9.4. If the noncompliance appears to be fraudulent, refer the matter to other appropriate agency officials, such as the officer responsible for criminal investigation.

Subpart 25.3 [Reserved]

This page intentionally left blank.

Subpart 25.4 —Trade Agreements

25.400 Scope of subpart.

(a) This subpart provides policies and procedures applicable to acquisitions that are covered by—

(1) The World Trade Organization Government Procurement Agreement (WTO GPA), as approved by Congress in the Uruguay Round Agreements Act (Pub. L. 103-465);

(2) Free Trade Agreements (FTA), consisting of—

(i) USMCA (United States-Mexico-Canada Agreement, as approved by Congress in the United States-Mexico-Canada Agreement Implementation Act (Government Procurement Agreement applicable only to the United States and Mexico) (Pub. L. 116-113) (19 U.S.C. chapter 29 (sections 4501-4732));

(ii) Chile FTA (the United States-Chile Free Trade Agreement, as approved by Congress in the United States-Chile Free Trade Agreement Implementation Act (Pub. L. 108-77) (19 U.S.C. 3805 note));

(iii) Singapore FTA (the United States-Singapore Free Trade Agreement, as approved by Congress in the United States-Singapore Free Trade Agreement Implementation Act (Pub. L. 108-78) (19 U.S.C. 3805 note));

(iv) Australia FTA (the United States-Australia Free Trade Agreement, as approved by Congress in the United States-Australia Free Trade Agreement Implementation Act (Pub. L. 108-286) (19 U.S.C. 3805 note));

(v) Morocco FTA (The United States—Morocco Free Trade Agreement, as approved by Congress in the United States—Morocco Free Trade Agreement Implementation Act (Pub. L. 108-302) (19 U.S.C. 3805 note));

(vi) CAFTA-DR (The Dominican Republic-Central America-United States Free Trade Agreement, as approved by Congress in the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act (Pub. L. 109-53) (19 U.S.C. 4001 note));

(vii) Bahrain FTA (the United States-Bahrain Free Trade Agreement, as approved by Congress in the United States-Bahrain Free Trade Agreement Implementation Act (Pub. L. 109-169) (19 U.S.C. 3805 note));

(viii) Oman FTA (the United States-Oman Free Trade Agreement, as approved by Congress in the United States-Oman Free Trade Agreement Implementation Act (Pub. L. 109-283) (19 U.S.C. 3805 note));

(ix) Peru FTA (the United States-Peru Trade Promotion Agreement, as approved by Congress in the United States-Peru Trade Promotion Agreement Implementation Act (Pub. L. 110-138) (19 U.S.C. 3805 note));

(x) Korea FTA (the United States-Korea Free Trade Agreement Implementation Act (Pub. L. 112-41) (19 U.S.C 3805 note));

(xi) Colombia FTA (the United States-Colombia Trade Promotion Agreement Implementation Act (Pub. L. 112-42) (19 U.S.C. 3805 note)); and

(xii) Panama FTA (the United States-Panama Trade Promotion Agreement Implementation Act (Pub. L. 112-43) (19 U.S.C. 3805 note));

(3) The least developed country designation made by the U.S. Trade Representative, pursuant to the Trade Agreements Act (19 U.S.C. 2511(b)(4)), in acquisitions covered by the WTO GPA;

(4) The Caribbean Basin Trade Initiative (CBTI) (determination of the U.S. Trade Representative that end products or construction material granted duty-free entry from countries designated as beneficiaries under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2701, *et seq.*), with the exception of Panama, must be treated as eligible products in acquisitions covered by the WTO GPA);

(5) The Israeli Trade Act (the U.S.-Israel Free Trade Area Agreement, as approved by Congress in the United States-Israel Free Trade Area Implementation Act of 1985 (19 U.S.C. 2112 note)); or

(6) The Agreement on Trade in Civil Aircraft (U.S. Trade Representative waiver of the Buy American statute for signatories of the Agreement on Trade in Civil Aircraft, as implemented in the Trade Agreements Act of 1979 (19 U.S.C. 2513)).

(b) For application of the trade agreements that are unique to individual agencies, see agency regulations.

25.401 Exceptions.

(a) This subpart does not apply to—

(1) Acquisitions set aside for small businesses;

(2) Acquisitions of arms, ammunition, or war materials, or purchases indispensable for national security or for national defense purposes;

(3) Acquisitions of end products for resale;

(4) Acquisitions under subpart 8.2, Acquisition From AbilityOne Participating Nonprofit Agencies, and acquisitions from Federal Prison Industries, Inc., under subpart 8.3;

(5) Other acquisitions not using full and open competition, if authorized by 6.102 or 6.103, when the limitation of competition would preclude use of the procedures of this subpart; or sole source acquisitions justified in accordance with 12.102; and

(6) Goods and services specifically excluded under individual trade agreements, such as exceptions negotiated by the U.S. Trade Representative for particular agencies. See the agency supplementary regulations.

(b) In the World Trade Organization Government Procurement Agreement (WTO GPA) and each FTA, there is a U.S. schedule that lists services that are excluded from that agreement in acquisitions by the United States. Acquisitions of the following services are excluded from coverage by the U.S. schedule of the WTO GPA or an FTA as indicated in this table:

The service(Federal Service Codes from the Federal Procurement Data System Product/Service Code Manual are indicated in parentheses for some services.)	**WTO GPA AND KOREA FTA**	**Bahrain FTA, CAFTA-DR, Chile FTA, Columbia FTA, USMCA, Oman FTA, Panama FTA, and Peru FTA**	**Singapore FTA**	**Australia and Morocco FTA**
(1) All services purchased in support of military services overseas.	X	X	X	X
(2)(i) Automatic data processing (ADP) telecommunications and transmission services (D304), except enhanced (*i.e.*, value-added) telecommunications services.	X	X		
(ii) ADP teleprocessing and timesharing services (D305), telecommunications network management services (D316), automated news services, data services or other information services (D317), and other ADP and telecommunications services (D399)	X	X		
(iii) Basic telecommunications network services (*i.e.*, voice telephone services, packet-switched data transmission services, circuit-switched data transmission services, telex services, facsimile services, and private leased circuit services, but not information services, as defined in 47 U.S.C. 153(24))	*	*	X	X
(3) Dredging	X	X	X	X
(4)(i) Operation and management contracts of certain Government or privately owned facilities used for Government purposes, including Federally Funded Research and Development Centers	X		X	

The service(Federal Service Codes from the Federal Procurement Data System Product/Service Code Manual are indicated in parentheses for some services.)	WTO GPA AND KOREA FTA	Bahrain FTA, CAFTA-DR, Chile FTA, Columbia FTA, USMCA, Oman FTA, Panama FTA, and Peru FTA	Singapore FTA	Australia and Morocco FTA
(ii) Operation of all Department of Defense, Department of Energy, or the National Aeronautics and Space Administration facilities; and all Government-owned research and development facilities or Government-owned environmental laboratories	* *	X	* *	X
(5) Research and development	X	X	X	X
(6) Transportation services (including launching services, but not including travel agent services)	X	X	X	X
(7) Utility services	X	X	X	X
(8) Maintenance, repair, modification, rebuilding and installation of equipment related to ships (J019)		X		X
(9) Nonnuclear ship repair (J998)		X		X

*__Note 1__. Acquisitions of the services listed at (2)(iii) of this table are a subset of the excluded services at (2)(i) and (ii), and are therefore not covered under the WTO GPA.

**__Note 2__. Acquisitions of the services listed at (4)(ii) of this table are a subset of the excluded services at (4)(i), and are therefore not covered under the WTO GPA.

25.402 General.

(a)

(1) The Trade Agreements Act (19 U.S.C. 2501, *et seq.*) provides the authority for the President to waive the Buy American statute and other discriminatory provisions for eligible products from countries that have signed an international trade agreement with the United States, or that meet certain other criteria, such as being a least developed country. The President has delegated this waiver authority to the U.S. Trade Representative. In acquisitions covered by the WTO GPA, Free Trade Agreements, or the Israeli Trade Act, the U.S. Trade Representative has waived the Buy American statute and other discriminatory provisions for eligible products. Offers of eligible products receive equal consideration with domestic offers.

(2) The contracting officer must determine the origin of services by the country in which the firm providing the services is established. See subpart 25.5 for evaluation procedures for supply contracts covered by trade agreements.

(b) The value of the acquisition is a determining factor in the applicability of trade agreements. Most of these dollar thresholds are subject to revision by the U.S. Trade Representative approximately every 2 years. The various thresholds are summarized as follows:

Trade agreement	Supply contract (equal to or exceeding)	Service contract (equal to or exceeding)	Construction contract (equal to or exceeding)
WTO GPA	$174,000	$174,000	$6,683,000
FTAs:			
Australia FTA	105,767	105,767	6,683,000
Bahrain FTA	174,000	174,000	13,749,689
CAFTA-DR (Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua)	105,767	105,767	6,683,000
Chile FTA	105,767	105,767	6,683,000
Colombia FTA	105,767	105,767	6,683,000
Korea FTA	100,000	100,000	6,683,000
Morocco FTA	174,000	174,000	6,683,000
USMCA:			
—Mexico	105,767	105,767	13,749,689
Oman FTA	174,000	174,000	13,749,689
Panama FTA	174,000	174,000	6,683,000
Peru FTA	174,000	174,000	6,683,000
Singapore FTA	105,767	105,767	6,683,000
Israeli Trade Act	50,000		

25.403 World Trade Organization Government Procurement Agreement and Free Trade Agreements.

(a) Eligible products from WTO GPA and FTA countries are entitled to the nondiscriminatory treatment specified in 25.402(a)(1). The WTO GPA and FTAs specify procurement procedures designed to ensure fairness (see 25.408).

(b) *Thresholds.*

(1) To determine whether the acquisition of products by lease, rental, or lease-purchase contract (including lease-to-ownership, or lease-with-option-to purchase) is covered by the WTO GPA or an FTA, calculate the estimated acquisition value as follows:

(i) If a fixed-term contract of 12 months or less is contemplated, use the total estimated value of the acquisition.

(ii) If a fixed-term contract of more than 12 months is contemplated, use the total estimated value of the acquisition plus the estimated residual value of the leased equipment at the conclusion of the contemplated term of the contract.

(iii) If an indefinite-term contract is contemplated, use the estimated monthly payment multiplied by the total number of months that ordering would be possible under the proposed contract, *i.e.,* the initial ordering period plus any optional ordering periods.

(iv) If there is any doubt as to the contemplated term of the contract, use the estimated monthly payment multiplied by 48.

(2) The estimated value includes the value of all options.

(3) If, in any 12-month period, recurring or multiple awards for the same type of product or products are anticipated, use the total estimated value of these projected awards to determine whether the WTO GPA or an FTA applies. Do not divide any acquisition with the intent of reducing the estimated value of the acquisition below the dollar threshold of the WTO GPA or an FTA.

(c) *Purchase restriction.* Under the Trade Agreements Act (19 U.S.C. 2512), in acquisitions covered by the WTO GPA, acquire only U.S.-made or designated country end products or U.S. or designated country services, unless offers for such end products or services are either not received or are insufficient to fulfill the requirements. This purchase restriction does not apply below the WTO GPA threshold for supplies and services, even if the acquisition is covered by an FTA.

25.404 Least developed countries.

For acquisitions covered by the WTO GPA, least developed country end products, construction material, and services must be treated as eligible products.

25.405 Caribbean Basin Trade Initiative.

Under the Caribbean Basin Trade Initiative, the United States Trade Representative has determined that, for acquisitions covered by the WTO GPA, Caribbean Basin country end products, construction material, and services must be treated as eligible products. In accordance with Section 201 (a)(3) of the Dominican Republic—Central America—United States Free Trade Implementation Act (Pub. L. 109-53) (19 U.S.C. 4031), when the CAFTA-DR agreement enters into force with respect to a country, that country is no longer designated as a beneficiary country for purposes of the Caribbean Basin Economic Recovery Act, and is therefore no longer included in the definition of "Caribbean Basin country" for purposes of the Caribbean Basin Trade Initiative.

25.406 Israeli Trade Act.

Acquisitions of supplies by most agencies are covered by the Israeli Trade Act, if the estimated value of the acquisition is $50,000 or more but does not exceed the WTO GPA threshold for supplies (see 25.402(b)). Agencies other than the Department of Defense, the Department of Energy, the Department of Transportation, the Bureau of Reclamation of the Department of the Interior, the Federal Housing Finance Board, and the Office of Thrift Supervision must evaluate offers of Israeli end products without regard to the restrictions of the Buy American statute. The Israeli Trade Act does not prohibit the purchase of other foreign end products. In accordance with Section 201 (a)(3) of the Dominican Republic—Central America—United States Free Trade Implementation Act (Pub. L. 109-53), when the CAFTA-DR agreement enters into force with respect to a country, that country is no longer designated as a beneficiary country for purposes of the Caribbean Basin Economic Recovery Act, and is therefore no longer included in the definition of "Caribbean Basin country" for purposes of the Caribbean Basin Trade Initiative.

25.407 Agreement on Trade in Civil Aircraft.

Under the authority of Section 303 of the Trade Agreements Act, the U.S. Trade Representative has waived the Buy American statute for civil aircraft and related articles that meet the substantial transformation test of the Trade Agreements Act, from countries that are parties to the Agreement on Trade in Civil Aircraft. Those countries are Albania, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Egypt, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Ireland, Italy, Japan, Latvia, Lithuania, Luxembourg, Macao China, Malta, Montenegro, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Taiwan (Chinese Taipei), and the United Kingdom.

25.408 Procedures.

(a) If the WTO GPA or an FTA applies (see 25.401), the contracting officer must—

(1) Comply with the requirements of 5.201, Solicitation notice;

(2) Comply with the requirements of 5.301, General;

(3) Not include technical requirements in solicitations solely to preclude the acquisition of eligible products; and

(4) Specify in solicitations that offerors must submit offers in the English language and in U.S. dollars (see 52.214-34, Submission of Offers in the English Language, and 52.214-35, Submission of Offers in U.S. Currency, or paragraph (c)(5) of 52.215-1, Instruction to Offerors—Competitive Acquisition).

(b) See subpart 25.5 for evaluation procedures.

This page intentionally left blank.

Subpart 25.5 —Evaluating Foreign Offers—Supply Contracts

25.501 General.

The contracting officer—

(a) Must apply the evaluation procedures of this subpart to each line item of an offer unless either the offer or the solicitation specifies evaluation on a group basis (see 25.503);

(b) May rely on the offeror's certification of end product origin when evaluating a foreign offer; and

(c) When trade agreements are involved, must not use the Buy American statute evaluation factors prescribed in this subpart to provide a preference for one foreign offer over another foreign offer.

25.502 Application.

(a) Unless otherwise specified in agency regulations, perform the following steps in the order presented:

(1) Eliminate all offers or offerors that are unacceptable for reasons other than price; *e.g.,* nonresponsive, debarred or suspended, or a prohibited source (see part 40).

(2) Rank the remaining offers by price.

(3) If the solicitation specifies award on the basis of factors in addition to cost or price, apply the evaluation factors as specified in this section and use the evaluated cost or price in determining the offer that represents the best value to the Government.

(b) For acquisitions covered by the WTO GPA (see subpart 25.4)—

(1) Consider only offers of U.S.-made or designated country end products, unless no offers of such end products were received;

(2) If the agency gives the same consideration given eligible offers to offers of U.S.-made end products that are not domestic end products, award on the low offer. Otherwise, evaluate in accordance with agency procedures; and

(3) If there were no offers of U.S.-made or designated country end products, make a nonavailability waiver determination and award on the low offer (see 25.403(c)).

(c) For acquisitions not covered by the WTO GPA, but subject to the Buy American statute (an FTA or the Israeli Trade Act also may apply), the following applies:

(1) If the low offer is a domestic offer or an eligible offer under an FTA or the Israeli Trade Act, award on that offer.

(2) If the low offer is a noneligible offer and there were no domestic offers (see 25.103(b)(3)), award on the low offer. The procedures at 25.106(b)(2) and 25.106(c)(2) do not apply.

(3) If the low offer is a noneligible offer and there is an eligible offer that is lower than the lowest domestic offer, award on the low offer. The procedures at 25.106(b)(2) and 25.106(c)(2) do not apply.

(4) Otherwise, apply the appropriate evaluation factor provided in 25.106 to the low offer. The procedures at 25.106(b)(2) and 25.106(c)(2) do not apply.

(i) If the evaluated price of the low offer remains less than the lowest domestic offer, award on the low offer.

(ii) If the price of the lowest domestic offer is less than the evaluated price of the low offer, award on the lowest domestic offer.

(d) *Ties.*

(1) If application of an evaluation factor results in a tie between a domestic offer and a foreign offer, award on the domestic offer.

(2) If no evaluation preference was applied (*i.e.,* offers afforded nondiscriminatory treatment under the Buy American statute), resolve ties between domestic and foreign offers by a witnessed drawing of lots by an impartial individual.

(3) Resolve ties between foreign offers from small business concerns (under the Buy American statute, a small business offering a manufactured article that does not meet the definition of “domestic end product” is a foreign offer) or foreign offers from a small business concern and a large business concern in accordance with 14.308(a).

25.503 Group offers.

(a) If the solicitation specifies that award will be made only on a group of line items or on all line items contained in the solicitation, or an offer restricts award to a group of line items or to all line items contained in the offer, reject the offer—

(1) If any part of the award would consist of prohibited end products (see part 40); or

(2) If the acquisition is covered by the WTO GPA and any part of the offer consists of items restricted in accordance with 25.403(c).

(b) If an offer restricts award to a group of line items or to all line items contained in the offer, determine for each line item whether to apply an evaluation factor.

(1) First, evaluate offers that do not specify an award restriction on a line item basis in accordance with 25.502, determining a tentative award pattern by selecting for each line item the offer with the lowest evaluated price.

(2) Evaluate an offer that specifies an award restriction against the offered prices of the tentative award pattern, applying the appropriate evaluation factor on a line item basis.

(3) Compute the total evaluated price for the tentative award pattern and the offer that specified an award restriction.

(4) Unless the total evaluated price of the offer that specified an award restriction is less than the total evaluated price of the tentative award pattern, award based on the tentative award pattern.

(c) For acquisitions not covered by the WTO GPA, if the solicitation specifies that award will be made only on a group of line items or all line items contained in the solicitation, determine the category of end products on the basis of each line item, but determine whether to apply an evaluation factor on the basis of the group of items.

(1) If the proposed price of domestic end products exceeds 50 percent of the total proposed price of the group, evaluate the entire group as a domestic offer. Evaluate all other groups as foreign offers.

(2) For foreign offers, if the proposed price of domestic end products and eligible products exceeds 50 percent of the total proposed price of the group, evaluate the entire group as an eligible offer.

(3) Apply the evaluation factor to the entire group in accordance with 25.502.

(d) If no trade agreement applies to a solicitation and the solicitation specifies that award will be made only on a group of line items or all line items contained in the solicitation, determine the category of end products (*i.e.,* domestic or foreign) on the basis of each line item, but determine whether to apply an evaluation factor on the basis of the group of items.

(1) If the proposed price of domestic end products exceeds 50 percent of the total proposed price of the group, evaluate the entire group as a domestic offer. Evaluate all other groups as foreign offers.

(2) Apply the evaluation factor to the entire group in accordance with 25.502, except where 25.502(c)(4) applies and the evaluated price of the low offer remains less than the lowest domestic offer. Where the evaluated price of the low offer remains less than the lowest domestic offer, treat as a domestic offer any group where the proposed price of end products with a domestic content of at least 55 percent exceeds 50 percent of the total proposed price of the group.

(3) Apply the evaluation factor to the entire group in accordance with 25.502(c)(4).

Subpart 25.6 —Solicitation Provisions and Contract Clauses

25.601 Acquisition of supplies.

The following provisions and clauses apply to the acquisition of supplies and the acquisition of services involving the furnishing of supplies.

(a) (1) (i) Insert the clause at 52.225-1, Buy American—Supplies, in solicitations and contracts with a value exceeding the micro-purchase threshold but not exceeding $50,000; and in solicitations and contracts with a value exceeding $50,000, if none of the clauses prescribed in paragraphs (b) and (c) of this section apply, except if—

(A) The solicitation is restricted to domestic end products in accordance with 6.103;

(B) The acquisition is for supplies for use within the United States and an exception to the Buy American statute applies (*e.g.*, public interest, or information technology that is a commercial product), other than individual nonavailability waiver determinations (see 25.103(b)(2)); or

(C) The acquisition is for supplies for use outside the United States.

(ii) The contracting officer must use the clause with its Alternate I to reflect the domestic content threshold that will apply to the entire period of performance, when the senior procurement executive allows for application of an alternate domestic content test for the contract in accordance with 25.101(d). For contracts that the contracting officer estimates will be awarded in calendar year 2022 or 2023, the contracting officer must insert “60” in paragraph (1)(ii)(A) of the definition of “domestic end product.” For contracts that the contracting officer estimates will be awarded in calendar year 2024, 2025, 2026, 2027, or 2028, the contracting officer must insert “65”. For contracts that the contracting officer estimates will be awarded after calendar year 2028 the contracting officer must insert “75”.

(2) Insert the provision at 52.225-2, Buy American Certificate, in solicitations containing the clause at 52.225-1.

(b) (1) (i) Insert the clause at 52.225-3, Buy American—Free Trade Agreements—Israeli Trade Act, in solicitations and contracts if—

(A) The acquisition is for supplies, or for services involving the furnishing of supplies, for use within the United States, and the acquisition value is $50,000 or more, but is less than $174,000;

(B) The acquisition is not for information technology that is a commercial product, using fiscal year 2004 or subsequent fiscal year funds; and

(C) No exception in 25.401 applies. For acquisitions of agencies not subject to the Israeli Trade Act (see 25.406), see agency regulations.

(ii) If the acquisition value is $50,000 or more but is less than $100,000, use the clause with its Alternate II.

(iii) If the acquisition value is $100,000 or more but is less than $105,767, use the clause with its Alternate III.

(iv) The contracting officer must use the clause with its Alternate IV to reflect the domestic content threshold that will apply to the entire period of performance, when the senior procurement executive allows for application of an alternate domestic content test for the contract in accordance with 25.102(d). For contracts that the contracting officer estimates will be awarded in calendar year 2022 or 2023, the contracting officer must insert “60” in paragraph (1)(ii)(A) of the definition of “domestic end product.” For contracts that the contracting officer estimates will be awarded in calendar year 2024, 2025, 2026, 2027, or 2028, the contracting officer must insert “65”. For contracts that the contracting officer estimates will be awarded after calendar year 2028 the contracting officer must insert “75”.

(2) (i) Insert the provision at 52.225-4, Buy American—Free Trade Agreements—Israeli Trade Act Certificate, in solicitations containing the clause at 52.225-3.

(ii) If the acquisition value is $50,000 or more but is less than $100,000, use the provision with its Alternate II.

(iii) If the acquisition value is $100,000 or more, but is less than $105,767, use the provision with its Alternate III.

(c) (1) Insert the clause at 52.225-5, Trade Agreements, in solicitations and contracts valued at $174,000 or more, if the acquisition is covered by the WTO GPA (see subpart 25.4) and the agency has determined that the restrictions of the Buy American statute are not applicable to U.S.-made end products. If the agency has not made such a determination, the contracting officer must follow agency procedures.

(2) Insert the provision at 52.225-6, Trade Agreements Certificate, in solicitations containing the clause at 52.225-5.

(d) Insert the provision at 52.225-7, Waiver of Buy American Statute for Civil Aircraft and Related Articles, in solicitations for civil aircraft and related articles (see 25.407), if the acquisition value is less than $174,000.

(e) Reserved.

(f) Insert the provision at 52.225-18, Place of Manufacture, in solicitations that are predominantly for the acquisition of manufactured end products, (*i.e.*, the estimated value of the manufactured end products exceeds the estimated value of other items to be acquired as a result of the solicitation).

25.602 Acquisition of construction.

The following provisions and clauses apply to the acquisition of construction.

(a) Insert the clause at 52.225-9, Buy American—Construction Materials, in solicitations and contracts for construction that is performed in the United States valued at less than $6,683,000.

(1) List in paragraph (b)(2) of the clause all foreign construction material excepted from the requirements of the Buy American statute.

(2) If the head of the agency determines that a higher percentage is appropriate, substitute the higher evaluation percentage in paragraph (b)(3)(i) of the clause.

(3) The contracting officer must use the clause with its Alternate I to reflect the domestic content threshold that will apply to the entire period of performance, when the senior procurement executive allows for application of an alternate domestic content test for the contract in accordance with 25.201(c). For contracts that the contracting officer estimates will be awarded in calendar year 2022 or 2023, the contracting officer must insert “60” in paragraph (1)(ii)(A) of the definition of “domestic construction material.” For contracts that the contracting officer estimates will be awarded in calendar year 2024, 2025, 2026, 2027, or 2028, the contracting officer must insert “65”. For contracts that the contracting officer estimates will be awarded after calendar year 2028 the contracting officer must insert “75”.

(b)

(1) Insert the provision at 52.225-10, Notice of Buy American Requirement—Construction Materials, in solicitations containing the clause at 52.225-9.

(2) If insufficient time is available to process a determination regarding the inapplicability of the Buy American statute before receipt of offers, use the provision with its *Alternate I.*

(c) Insert the clause at 52.225-11, Buy American—Construction Materials under Trade Agreements, in solicitations and contracts for construction that is performed in the United States valued at $6,683,000 or more.

(1) List in paragraph (b)(3) of the clause all foreign construction material excepted from the requirements of the Buy American statute, other than designated country construction material.

(2) If the head of the agency determines that a higher percentage is appropriate, substitute the higher evaluation percentage in paragraph (b)(4)(i) of the clause.

(3) For acquisitions valued at $6,683,000 or more, but less than $13,749,689, use the clause with its Alternate I. List in paragraph (b)(3) of the clause all foreign construction material excepted from the requirements of the Buy American statute, unless the excepted foreign construction material is from a designated country other than Bahrain, Mexico, and Oman.

(4) The contracting officer must use the clause with its Alternate II to reflect the domestic content threshold that will apply to the entire period of performance, when the senior procurement executive allows for application of an alternate domestic content test for the contract in accordance with 25.201(c). For contracts that the contracting officer estimates will be awarded in calendar year 2022 or 2023, the contracting officer must insert “60” in paragraph (1)(ii)(A) of the definition of “domestic construction material.” For contracts that the contracting officer estimates will be awarded in calendar year 2024, 2025, 2026, 2027, or 2028, the contracting officer must insert “65”. For contracts that the contracting officer estimates will be awarded after calendar year 2028 the contracting officer must insert “75”.

(d)

(1) Insert the provision at 52.225-12, Notice of Buy American Requirement—Construction Materials under Trade Agreements, in solicitations containing the clause at 52.225-11.

(2) If insufficient time is available to process a determination regarding the inapplicability of the Buy American statute before receipt of offers, use the provision with its *Alternate I.*

(3) For acquisitions valued at $6,683,000 or more, but less than $13,749,689, use the provision with its Alternate II.

25.603 Other clause.

Insert the clause at 52.225-14, Inconsistency Between English Version and Translation of Contract, in solicitations and contracts if anticipating translation into another language.

Subpart 25.7 —Contracts Performed Outside the United States

25.701 Contractor personnel in a designated operational area or supporting a diplomatic or consular mission outside the United States.

25.701-1 Scope.

(a) This section applies to contracts requiring contractor personnel to perform outside the United States—

(1) In a designated operational area during—

(i) Contingency operations;

(ii) Humanitarian or peacekeeping operations; or

(iii) Other military operations or military exercises, when designated by the combatant commander; or

(2) When supporting a diplomatic or consular mission—

(i) That has been designated by the Department of State as a danger pay post, see *https://aoprals.state.gov/*; or

(ii) That the contracting officer determines is a post at which application of the clause at FAR 52.225-19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission outside the United States, is appropriate.

(b) Any of the types of operations listed in paragraph (a)(1) of this section may include stability operations such as—

(1) Establishment or maintenance of a safe and secure environment; or

(2) Provision of emergency infrastructure reconstruction, humanitarian relief, or essential governmental services (until feasible to transition to local government).

(c) This section does not apply to personal services contracts (see part 37), unless specified otherwise in agency procedures.

25.701-2 Government support.

(a) Generally, contractors are responsible for providing their own logistical and security support, including logistical and security support for their employees. The agency must provide logistical or security support only when the appropriate agency official, in accordance with agency guidance, determines that—

(1) Such Government support is available and is needed to ensure continuation of essential contractor services; and

(2) The contractor cannot obtain adequate support from other sources at a reasonable cost.

(b) The contracting officer must specify in the contract, and in the solicitation if possible, the exact support to be provided, and whether this support is provided on a reimbursable basis, citing the authority for the reimbursement.

25.701-3 Weapons.

The contracting officer must follow agency procedures and the weapons policy established by the combatant commander or the chief of mission when authorizing contractor personnel to carry weapons (see paragraph (i) of the clause at 52.225-19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission outside the United States).

25.701-4 Contract clause.

Insert the clause at 52.225-19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission outside the United States, in solicitations and contracts, other than personal service contracts with individuals, that will require contractor personnel to perform outside the United States—

(a) In a designated operational area during—

(1) Contingency operations;

(2) Humanitarian or peacekeeping operations; or

(3) Other military operations or military exercises, when designated by the combatant commander; or

(b) When supporting a diplomatic or consular mission—

(1) That has been designated by the Department of State as a danger pay post, see *https://aoprals.state.gov/*; or

(2) That the contracting officer determines is a post at which application of the clause FAR 52.225-19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission outside the United States, is appropriate.

25.702 Contractors performing private security functions outside the United States.

25.702-1 Scope.

This section prescribes policy for implementing section 862 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2008 (Pub. L. 110-181), as amended by section 853 of the NDAA for FY 2009 (Pub. L. 110-417), and sections 831 and 832 of the NDAA for FY 2011 (Pub. L. 111-383) (see 10 U.S.C. Subtitle A, Part V, Subpart G Note).

25.702-2 Definitions.

As used in this section—

Area of combat operations means an area of operations designated as such by the Secretary of Defense when enhanced coordination of contractors performing private security functions working for Government agencies is required.

Other significant military operations means activities, other than combat operations, as part of a contingency operation outside the United States that are carried out by United States Armed Forces in an uncontrolled or unpredictable high-threat environment where personnel performing security functions may be called upon to use deadly force (see 25.702-3(a)(2)).

Private security functions means activities engaged in by a contractor, as follows—

(1) Guarding of personnel, facilities, designated sites, or property of a Federal agency, the contractor or subcontractor, or a third party; or

(2) Any other activity for which personnel are required to carry weapons in the performance of their duties in accordance with the terms of the contract.

25.702-3 Applicability.

(a) This section applies to contracts that require performance outside the United States—

(1) In an area of combat operations as designated by the Secretary of Defense; or

(2) In an area of other significant military operations as designated by the Secretary of Defense, and only upon agreement of the Secretary of Defense and the Secretary of State.

(b) For these designations contact the Department of Defense (DoD) at *https://www.acq.osd.mil/asda/dpc/contact-us.html.*

(c) When the applicability requirements of this subsection are met, contractors and subcontractors must comply with 32 CFR part 159, whether the contract is for the performance of private security functions as a primary deliverable or the provision of private security functions is ancillary to the stated deliverables.

(d) The requirements of section 25.702 do not apply to—

(1) Contracts entered into by elements of the intelligence community in support of intelligence activities; or

(2) Temporary arrangements entered into on a non-DoD contract for the performance of private security functions by individual indigenous personnel not affiliated with a local or expatriate security company. These temporary arrangements must still comply with local law.

25.702-4 Policy.

(a) *General.*

(1) The policy, responsibilities, procedures, accountability, training, equipping, and conduct of personnel performing private security functions in designated areas are addressed at 32 CFR part 159, entitled "Private Security Contractors Operating in Contingency Operations." Contractor responsibilities include ensuring that employees are aware of, and comply with, relevant orders, directives, and instructions; keeping appropriate personnel records; accounting for weapons; registering and identifying armored vehicles, helicopters, and other military vehicles; and reporting specified incidents in which personnel performing private security functions under a contract are involved.

(2) In addition, contractors are required to fully cooperate with any Government-authorized investigation into incidents reported pursuant to paragraph (c)(3) of the clause at 52.225-26, Contractors Performing Private Security Functions Outside the United States, by providing access to employees performing private security functions and relevant information in the possession of the contractor regarding the incident concerned.

(b) *Implementing guidance.* In accordance with 32 CFR part 159—

(1) Geographic combatant commanders will provide the DoD contractors performing private security functions with guidance and procedures for the operational environment in their area of responsibility; and

(2) In a designated area of combat operations, or areas of other significant military operations, as designated by the Secretary of Defense and only upon agreement of the Secretary of Defense and the Secretary of State, the relevant Chief of Mission will provide implementing instructions for non-DoD contractors performing private security functions and their personnel consistent with the standards set forth by the geographic combatant commander. In accordance with 32 CFR 159.4(c), the Chief of Mission has the option of instructing non-DoD contractors performing private security functions

and their personnel to follow the guidance and procedures of the geographic combatant commander and/or a sub-unified commander or joint force commander where specifically authorized by the combatant commander to do so and notice of that authorization is provided to non-DoD agencies.

25.702-5 Remedies.

(a) In addition to other remedies available to the Government—

(1) The contracting officer may direct the contractor, at its own expense, to remove and replace any contractor or subcontractor personnel performing private security functions who fail to comply with or violate applicable requirements. Such action may be taken at the Government's discretion without prejudice to its rights under any other contract provision, *e.g.,* termination for default;

(2) The contracting officer must include the contractor's failure to comply with the requirements of this section in appropriate databases of past performance and consider any such failure in any responsibility determination or evaluation of past performance; and

(3) In the case of award-fee contracts, the contracting officer must consider a contractor's failure to comply with the requirements of this subsection in the evaluation of the contractor's performance during the relevant evaluation period, and may treat such failure as a basis for reducing or denying award fees for such period or for recovering all or part of award fees previously paid for such period.

(b) If the performance failures are severe, prolonged, or repeated, the contracting officer must refer the matter to the appropriate suspending and debarring official.

25.702-6 Contract clause.

(a) Use the clause at 52.225-26, Contractors Performing Private Security Functions Outside the United States, in solicitations and contracts for performance outside the United States in an area of—

(1) Combat operations, as designated by the Secretary of Defense; or

(2) Other significant military operations, as designated by the Secretary of Defense and only upon agreement of the Secretary of Defense and the Secretary of State.

(b) The clause is not required to be used for—

(1) Contracts entered into by elements of the intelligence community in support of intelligence activities; or

(2) Temporary arrangements entered into by non-DoD contractors for the performance of private security functions by individual indigenous personnel not affiliated with a local or expatriate security company.

Subpart 25.8 —Other International Agreements and Coordination

25.801 General.

Treaties and agreements between the United States and foreign governments affect the evaluation of offers from foreign entities and the performance of contracts in foreign countries.

25.802 Procedures.

(a) When placing contracts with contractors located outside the United States, for performance outside the United States, contracting officers must—

(1) Determine the existence and applicability of any international agreements and ensure compliance with these agreements; and

(2) Conduct the necessary advance acquisition planning and coordination between the appropriate U.S. executive agencies and foreign interests as required by these agreements.

(b) The Department of State publishes many international agreements in the "United States Treaties and Other International Agreements" series. Copies of this publication normally are available in overseas legal offices and U.S. diplomatic missions.

(c) Contracting officers must award all contracts with Taiwanese firms or organizations through the American Institute of Taiwan (AIT). AIT is under contract to the Department of State.

This page intentionally left blank.

Subpart 25.9 —Customs and Duties

25.900 Scope of subpart.

This subpart provides policies and procedures for exempting from import duties certain supplies purchased under Government contracts.

25.901 Policy.

United States laws impose duties on foreign supplies imported into the customs territory of the United States. Certain exemptions from these duties are available to Government agencies. Agencies must use these exemptions when the anticipated savings to appropriated funds will outweigh the administrative costs associated with processing required documentation.

25.902 Procedures.

For regulations governing importations and duties, see the Customs Regulations issued by the U.S. Customs Service, Department of the Treasury (19 CFR Chapter 1). Except as provided elsewhere in the Customs Regulations (see 19 CFR 10.100), all shipments of imported supplies purchased under Government contracts are subject to the usual Customs entry and examination requirements. Unless the agency obtains an exemption (see 25.903), those shipments are also subject to duty.

25.903 Exempted supplies.

(a) Subchapters VIII and X of Chapter 98 of the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202) list supplies for which exemptions from duty may be obtained when imported into the customs territory of the United States under a Government contract. For certain of these supplies, the contracting agency must certify to the Commissioner of Customs that they are for the purpose stated in the Harmonized Tariff Schedule (see 19 CFR 10.102-104, 10.114, and 10.121 and 15 CFR part 301 for requirements and formats).

(b) Supplies (excluding equipment) for Government-operated vessels or aircraft may be withdrawn from any customs-bonded warehouse, from continuous customs custody elsewhere than in a bonded warehouse, or from a foreign-trade zone, free of duty and internal revenue tax as provided in 19 U.S.C. 1309 and 1317. The contracting activity must cite this authority on the appropriate customs form when making purchases (see 19 CFR 10.59-10.65).

25.904 Contract clause.

Insert the clause at 52.225-8, Duty-Free Entry, in solicitations and contracts for supplies that may be imported into the United States and for which duty-free entry may be obtained in accordance with 25.903(a), if the value of the acquisition—

(a) Exceeds the simplified acquisition threshold; or

(b) Does not exceed the simplified acquisition threshold, but the savings from waiving the duty is anticipated to be more than the administrative cost of waiving the duty. When used for acquisitions that do not exceed the simplified acquisition threshold, the contracting officer may modify paragraphs (c)(1) and (j)(2) of the clause to reduce the dollar figure.

This page intentionally left blank.

Subpart 25.10 —Additional Foreign Acquisition Regulations

25.1001 Waiver of right to examination of records.

(a) *Policy.* The clause at 52.215-2, Audit and Records—Negotiation, prescribed at 15.210(b)(1), and paragraph (b)(1)(iii) of 12.205, implement 10 U.S.C. 3841 and 41 U.S.C. 4706.

(1) Insert the appropriate basic clause, whenever possible, in negotiated contracts with foreign contractors.

(2) The contracting officer may use 52.215-2 with its *Alternate III* after—

(i) Exhausting all reasonable efforts to include the basic clause;

(ii) Considering factors such as alternate sources of supply, additional cost, and time of delivery; and

(iii) The head of the agency has executed a determination and findings in accordance with paragraph (b) of this section, with the concurrence of the Comptroller General. However, concurrence of the Comptroller General is not required if the contractor is a foreign government or agency thereof or is precluded by the laws of the country involved from making its records available for examination.

(b) *Determination and findings.* The determination and findings must—

(1) Identify the contract and its purpose, and identify if the contract is with a foreign contractor or with a foreign government or an agency of a foreign government;

(2) Describe the efforts to include the basic clause;

(3) State the reasons for the contractor's refusal to include the basic clause;

(4) Describe the price and availability of the supplies or services from the United States and other sources; and

(5) Determine that it will best serve the interest of the United States to use the appropriate alternate clause in paragraph (a)(2) of this section.

25.1002 Use of foreign currency.

25.1002-1 Policy.

(a) Unless an international agreement or the WTO GPA (see 25.408(a)(4)) requires a specific currency, contracting officers must determine whether solicitations for contracts to be entered into and performed outside the United States will require submission of offers in U.S. currency or a specified foreign currency. In unusual circumstances, the contracting officer may permit submission of offers in other than a specified currency.

(b) To ensure a fair evaluation of offers, solicitations generally should require all offers to be priced in the same currency. However, if the solicitation permits submission of offers in other than a specified currency, the contracting officer must convert the offered prices to U.S. currency for evaluation purposes. The contracting officer must use the current market exchange rate from a commonly used source in effect as follows:

(1) For acquisitions conducted using sealed bidding procedures, on the date of bid opening.

(2) For acquisitions conducted using negotiation procedures—

(i) On the date specified for receipt of offers, if award is based on initial offers; otherwise

(ii) On the date specified for receipt of final proposal revisions.

(c) If a contract is priced in foreign currency, the agency must ensure that adequate funds are available to cover currency fluctuations to avoid a violation of the Anti-Deficiency Act (31 U.S.C. 1341, 1342, 1511-1519).

25.1002-2 Solicitation provision.

Insert the provision at 52.225-17, Evaluation of Foreign Currency Offers, in solicitations that permit the use of other than a specified currency. Insert in the provision the source of the rate to be used in the evaluation of offers.

This page intentionally left blank.

Subpart 25.11 [Reserved]

This page intentionally left blank.

PART 26 - OTHER SOCIOECONOMIC PROGRAMS

Sec.

This page intentionally left blank.

Subpart 26.1 - Indian Incentive Program

26.101 Definitions.

As used in this subpart-

Indian means any person who is a member of any Indian tribe, band, group, pueblo, or community that is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs (BIA) (see 25 U.S.C. 1452) and any "Native" as defined in the Alaska Native Claims Settlement Act (see 43 U.S.C. 1602).

Indian organization means the governing body of any Indian tribe or entity established or recognized by the governing body of an Indian tribe for the purposes of 25 U.S.C., chapter 17.

Indian-owned economic enterprise means any Indian-owned (as determined by the Secretary of the Interior) commercial, industrial, or business activity established or organized for the purpose of profit, provided that Indian ownership constitutes not less than 51 percent of the enterprise.

Indian tribe means any Indian tribe, band, group, pueblo, or community, including native villages and native groups (including corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in the Alaska Native Claims Settlement Act, that is recognized by the Federal Government as eligible for services from BIA. See 25 U.S.C. 1452.

Interested party means a prime contractor or an actual or prospective offeror whose direct economic interest would be affected by the award of a subcontract or by the failure to award a subcontract.

26.102 Presolicitation.

26.102-1 Policy.

Agencies may allow an incentive payment to prime contractors equal to 5 percent of the amount paid to a subcontractor that is an Indian organization or Indian-owned economic enterprise (see 25 U.S.C. 1544).

26.102-2 Contract clause.

Contracting officers in civilian agencies may insert the clause at 52.226-1, Utilization of Indian Organizations and Indian-Owned Economic Enterprises, in solicitations and contracts if-

(a) In the opinion of the contracting officer, subcontracting possibilities exist for Indian organizations or Indian-owned economic enterprises; and

(b) Funds are available for any increased costs as described in paragraph (b)(2) of the clause at 52.226-1.

26.103 Postaward.

(a) Contracting officers and prime contractors may rely on the representation of an Indian organization or Indian-owned economic enterprise as to its eligibility, unless an interested party challenges its status or the contracting officer has independent reason to question that status.

(b) Contracting officers must refer challenges to the U.S. Department of the Interior, Bureau of Indian Affairs (BIA), Acquisition Management Director (https://www.bia.gov/as-ia/ocfo/acquisitions). The BIA will determine the eligibility and notify the contracting officer.

This page intentionally left blank.

Subpart 26.2 - Major Disaster and Emergency Assistance Activities

26.201 Definitions.

As used in this subpart—

Emergency response contract means a contract with private entities that provide assistance activities in a major disaster or emergency area, such as debris clearance, distribution of supplies, or reconstruction.

Local firm means a private organization, firm, or individual residing or doing business primarily in a major disaster or emergency area.

Major disaster or emergency area means the area included in the official Presidential declaration(s) and any additional areas identified by the Department of Homeland Security. Major disaster declarations and emergency declarations are published in the Federal Register and are available at https://www.fema.gov/disasters/disaster/declarations.

26.202 Presolicitation.

26.202-1 Policy.

(a) Local area preference. Contracting officers must, when practicable, award emergency response contracts to local firms (see 42 U.S.C. 5150). To support this policy, contracting officers may—

(1) Set aside acquisitions to allow only local firms within a specific geographic area to compete (see part 6); or

(2) Use an evaluation preference.

(b) Transition of work.

(1) Agencies may award emergency response contracts before a major disaster or emergency occurs to ensure immediate relief is available. Structure such contracts to support timely transition of work to local firms after a major disaster or emergency area has been established.

(2) Agencies must transition emergency response contracts to local firms after a major disaster or emergency is declared, unless the head of the agency determines on an individual or class basis that is not practicable. However, agencies are not required to terminate or renegotiate existing contracts to make the transition.

26.202-2 Procedures.

(a) Elevated thresholds. When contracting for emergency response activities, the elevated micro-purchase and simplified acquisition thresholds in 2.101 apply.

(b) Non-local justification requirements. After the President declares a major disaster or emergency, agencies must justify spending any Federal funds on emergency response contracts not awarded to a local firm. Agencies must document such justification in writing, and contracting officers must keep it in the contract file.

(c) Area. A major disaster or emergency area may span counties in several neighboring States. When establishing a geographic area for a local firm set-aside, the contracting officer must stay within the declared area(s), but is not required to include all the counties within the declared areas(s).

(d) Disaster response registry. Contracting officers must consult the Disaster Response Registry via https://www.sam.gov to determine contractor availability for emergency response activities inside the United States and outlying areas.

26.202-3 Solicitation provision and contract clauses.

(a) Insert the provision at 52.226-3, Disaster or Emergency Area Representation, and fill in the geographic area in paragraph (a), in solicitations involving local area set-asides.

(b) Insert the clause at 52.226-4, Notice of Disaster or Emergency Area Set-aside, and fill in the geographic area in paragraph (a), in solicitations and contracts involving local area set-asides.

(c) Insert the clause at 52.226-5, Restrictions on Subcontracting Outside Disaster or Emergency Area, in solicitations and contracts involving local area set-asides.

This page intentionally left blank.

Subpart 26.3 - Historically Black Colleges and Universities and Minority Institutions

26.301 Presolicitation.

26.301-1 General.

(a) As established in Executive Order 12928 of September 16, 1994, agencies should promote participation of Historically Black Colleges and Universities and Minority Institutions in Federal procurement.

(b) This subpart does not apply to contracts performed entirely outside the United States and its outlying areas.

26.301-2 Solicitation provision.

Insert the provision at 52.226-2, Historically Black College or University and Minority Institution Representation, in solicitations that exceed the micro-purchase threshold, and that are for research, studies, supplies, or services of the type normally acquired from higher educational institutions.

This page intentionally left blank.

Subpart 26.4 - Food Donations to Nonprofit Organizations

26.401 Definitions.

As used in this subpart-

Apparently wholesome food means food that meets all quality and labeling standards imposed by Federal, State, and local laws and regulations even though the food may not be readily marketable due to appearance, age, freshness, grade, size, surplus, or other conditions.

Excess food means food that-

(1) Is not required to meet the needs of the agencies; and

(2) Would otherwise be discarded.

Food-insecure means inconsistent access to sufficient, safe, and nutritious food.

Nonprofit organization means any organization that is-

(1) Described in section 501(c) of the Internal Revenue Code of 1986; and

(2) Exempt from tax under section 501(a) of that Code.

26.402 Presolicitation.

26.402-1 Policy.

(a) The Government encourages agencies and their contractors to donate excess, apparently wholesome food to nonprofit organizations helping food-insecure people in the United States (see 42 U.S.C. 1792).

(b) The following limitations apply—

(1) Costs. Agencies may not assume responsibility for the costs and logistics of collecting, transporting, maintaining the safety of, or distributing excess food donations.

(2) Liability. An agency (including an agency that enters into a contract with a contractor) and any contractor making food donations following this policy is exempt from civil and criminal liability to the extent provided under 42 U.S.C. 1791.

26.402-2 Contract clause.

Insert the clause at 52.226-6, Promoting Excess Food Donation to Nonprofit Organizations, in solicitations and contracts greater than $35,000 for providing, serving, or selling food in the United States.

This page intentionally left blank.

Subpart 26.5 - Drug-Free Workplace

26.501 Applicability.

This subpart applies to contracts, except those-

(a) At or below the simplified acquisition threshold; however, the requirements of this subpart apply to all contracts of any value awarded to an individual;

(b) For commercial products and commercial services (see part 12);

(c) Performed outside the United States and its outlying areas or any part of a contract performed outside the United States and its outlying areas;

(d) Awarded by law enforcement agencies, if the head of the law enforcement agency involved determines that applying this subpart would be inappropriate in connection with the law enforcement agency's undercover operations; or

(e) Where application would be inconsistent with the international obligations of the United States or with the laws and regulations of a foreign country.

26.502 Definitions.

As used in this subpart-

Controlled substance means a controlled substance in schedules I through V of section 202 of the Controlled Substances Act (21 U.S.C. 812), and as further defined in regulation at 21 CFR 1308.11-1308.15.

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes.

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, possession, or use of any controlled substance.

Employee means an employee of a contractor directly engaged in performing work under a Government contract. "Directly engaged" includes all direct cost employees and any other contractor employee who has other than a minimal impact or involvement in contract performance.

Individual means an offeror or contractor that has no more than one employee including the offeror or contractor.

26.503 Presolicitation.

26.503-1 Contract clause.

Insert the clause at 52.226-7, Drug-Free Workplace, in solicitations and contracts except as provided in 26.501.

26.504 Evaluation and award.

26.504-1 Policy.

(a) Contracting officers may not consider an offeror, other than an individual, a responsible source unless it agrees to provide a drug-free workplace according to the clause at 52.226-7.

(b) Contracting officers may not award a contract of any dollar value to an individual unless that individual agrees to not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance while performing the contract.

26.505 Postaward.

26.505-1 Suspension of payments, contract termination, and debarment and suspension actions.

(a) Contracting officers may suspend contract payments when they determine in writing that there is adequate evidence of any of the causes at paragraph (d) of this section.

(b) Contracting officers may terminate contracts for default when they determine in writing any of the causes at paragraph (d) of this section exist.

(c) When a contracting officer initiates action under paragraph (a) or (b) of this section, they must refer the case to the agency suspending and debarring official (see part 9).

(d) The specific causes for suspension of contract payments, termination of a contract for default, or suspension and debarment are—

(1) The contractor has failed to comply with the requirements of the clause at 52.226-7, Drug-Free Workplace; or

(2) The number of contractor employees convicted of violations of criminal drug statutes occurring in the workplace indicates that the contractor has failed to make a good faith effort to provide a drug-free workplace.

(e) An agency head may waive a suspension of payments, termination of contract, or suspension or debarment of a contractor under this section, if considered necessary to prevent a severe disruption of the agency operation to the detriment of the Government or the general public. The agency head cannot delegate the waiver authority.

Subpart 26.6 - Texting While Driving

26.601 Presolicitation.

26.601-1 Policy.

Agencies must encourage contractors and subcontractors to adopt and enforce policies that ban text messaging while driving-

(a) Company-owned or rented vehicles or Government-owned vehicles; or

(b) Privately-owned vehicles when on official Government business or when performing any work for or on behalf of the Government.

26.601-2 Contract clause.

Insert the clause at 52.226-8, Encouraging Contractor Policies to Ban Text Messaging While Driving, in all solicitations and contracts.

This page intentionally left blank.

PART 27 - PATENTS, DATA, AND COPYRIGHTS

This page intentionally left blank.

27.000 Scope of part.

This part provides policies, procedures, solicitation provisions, and contract clauses pertaining to patents, data, and copyrights.

27.001 Definition.

United States, as used in this part, means the 50 States and the District of Columbia, U.S. territories and possessions, Puerto Rico, and the Northern Mariana Islands.

Subpart 27.1 - General

27.101 Applicability.

This part applies to all agencies. However, agencies may adopt alternative policies, procedures, solicitation provisions, and contract clauses to the extent necessary to meet the specific requirements of laws, executive orders, treaties, or international agreements.

27.102 [Reserved]

This page intentionally left blank.

Subpart 27.2 - Patents and Copyrights

27.200 Scope of subpart.

This subpart provides policies and procedures regarding—

(a) Patent and copyright infringement liability;

(b) Royalties; and

(c) Security requirements for patent applications containing classified subject matter;

27.201 Patent and copyright infringement liability.

27.201-1 General.

(a) Pursuant to 28 U.S.C. 1498, the exclusive remedy for patent or copyright infringement by or on behalf of the Government is a suit for monetary damages against the Government in the Court of Federal Claims. No injunctive relief is available, and no direct cause of action lies against a contractor that is infringing a patent or copyright with the authorization or consent of the Government (*e.g.*, while performing a contract).

(b) The Government may expressly authorize and consent to a contractor's use or manufacture of inventions covered by U.S. patents by inserting the clause at 52.227-1, Authorization and Consent.

(c) Because of the exclusive remedies granted in 28 U.S.C. 1498, the Government requires notice and assistance from its contractors regarding any claims for patent or copyright infringement by inserting the clause at 52.227-2, Notice and Assistance, Regarding Patent and Copyright Infringement.

(d) The Government may require a contractor to reimburse it for liability for patent infringement arising out of a contract for commercial products or commercial services by inserting the clause at 52.227-3, Patent Indemnity.

27.201-2 Contract clauses.

(a) (1) Insert the clause at 52.227-1, Authorization and Consent, in solicitations and contracts except that use of the clause is—

(i) Optional when using simplified acquisition procedures; and

(ii) Prohibited when both complete performance and delivery are outside the United States.

(2) Use the clause with its Alternate I in all R&D solicitations and contracts for which the primary purpose is R&D work, except do not use this alternate in construction and architect-engineer contracts unless the contract calls exclusively for R&D work.

(3) Use the clause with its Alternate II in solicitations and contracts for communication services with a common carrier where the services are unregulated and not priced by a tariff schedule set by a regulatory body.

(b) Insert the clause at 52.227-2, Notice and Assistance Regarding Patent and Copyright Infringement, in all solicitations and contracts that include the clause at 52.227-1, Authorization and Consent.

(c) (1) Insert the clause at 52.227-3, Patent Indemnity, in solicitations and contracts that may result in the delivery of commercial products or the provision of commercial services, unless—

(i) Part 12 procedures are used;

(ii) The simplified acquisition procedures of Part 13 are used;

(iii) Both complete performance and delivery are outside the United States; or

(iv) The contracting officer determines after consultation with legal counsel that omission of the clause would be consistent with commercial practice.

(2) Use the clause with either its Alternate I (identification of excluded items) or II (identification of included items) if —

(i) The contract also requires delivery of items that are not commercial products or the provision of services that are not commercial services; or

(ii) The contracting officer determines after consultation with legal counsel that limitation of applicability of the clause would be consistent with commercial practice.

(3) Use the clause with its Alternate III if the solicitation or contract is for communication services and facilities by a common carrier, and the services are unregulated and are not priced by a tariff schedule set by a regulatory body.

(d) (1) Insert the clause at 52.227-4, Patent Indemnity—Construction Contracts, in solicitations and contracts for construction or that are fixed-price for dismantling, demolition, or removal of improvements. Do not insert the clause in contracts solely for architect-engineer services.

(2) If the contracting officer determines that the construction will necessarily involve the use of structures, products, materials, equipment, processes, or methods that are nonstandard, noncommercial, or special, the contracting officer may expressly exclude them from the patent indemnification by using the clause with its Alternate I. Note that this exclusion is for items, as distinguished from identified patents (see paragraph (e) of this subsection).

(e) When in the Government's interest, the agency head may exempt specific U.S. patents, as distinguished from items, from the patent indemnity clause. Upon written approval of the agency head, the contracting officer may insert the clause at 52.227-5, Waiver of Indemnity, in solicitations and contracts in addition to the appropriate patent indemnity clause.

(f) When in the Government's interest, the contracting officer may include a patent indemnity clause not otherwise prescribed in the solicitation and contract.

(g) Do not include in any solicitation or contract any clause whereby the Government agrees to indemnify a contractor for patent infringement.

27.202 Royalties.

27.202-1 [Reserved]

27.202-2 [Reserved]

27.202-3 [Reserved]

27.202-4 [Reserved]

27.202-5 Solicitation provisions and contract clause.

(a) (1) Insert a solicitation provision substantially the same as the provision at 52.227-6, Royalty Information, in—

(i) Any solicitation that may result in a negotiated contract for which royalty information is desired and for which certified cost or pricing data are obtained under 15.403; or

(ii) Sealed bid solicitations only if the need for such information is approved at a level above the contracting officer as being necessary for proper protection of the Government's interests.

(2) If the solicitation is for communication services and facilities by a common carrier, use the provision with its Alternate I.

(b) If the clause at 52.227-6 is not included in the solicitation, the contracting officer may require offerors to provide information sufficient to provide this notice to the other offerors.

(c) Insert the clause at 52.227-9, Refund of Royalties, in negotiated fixed-price solicitations and contracts when royalties may be paid under the contract. For fixed-price incentive contracts, change "price" to "target cost and target profit" wherever it appears in the clause. The clause may be used in cost-reimbursement contracts where agency approval of royalties is necessary to protect the Government's interests.

27.203 Security requirements for patent applications containing classified subject matter.

27.203-1 General.

(a) Unauthorized disclosure of classified subject matter, whether in patent applications or resulting from the issuance of a patent, may violate 18 U.S.C. 792, *et seq.* (Chapter 37—Espionage and Censorship), and related statutes, and may be contrary to national security interests.

(b) Upon receipt of a patent application under paragraph (a) or (b) of the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, ascertain the proper security classification of the patent application. If the application contains classified subject matter, inform the contractor how to transmit the application to the United States Patent Office in accordance with procedures provided by legal counsel. If the material is classified "Secret" or higher, notify the contractor within 30 days, if possible, of the Government's determination, pursuant to paragraph (a) of the clause.

(c) Upon receipt of information furnished by the contractor under paragraph (d) of the clause at 52.227-10, promptly submit that information to legal counsel regarding the security of the application.

(d) Act promptly on requests for approval of foreign filing under paragraph (c) of the clause at 52.227-10 to avoid jeopardizing patent rights of the Government or the contractor.

27.203-2 Contract clause.

Insert the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, in all classified solicitations and contracts and in all solicitations and contracts where the nature of the work reasonably might result in a patent application containing classified subject matter.

27.204 [Reserved]

This page intentionally left blank.

Subpart 27.3 - Patent Rights under Government Contracts

27.300 Scope of subpart.

This subpart provides procedures, solicitation provisions, and contract clauses pertaining to inventions made in the performance of work under a Government contract or subcontract for experimental, developmental, or research work.

27.301 Definitions.

As used in this subpart—

Invention means any invention or discovery that is or may be patentable or otherwise protectable under title 35 of the U.S. Code, or any variety of plant that is or may be protectable under the Plant Variety Protection Act (7 U.S .C. 2321, *et seq*.).

Made means—

(1) When used in relation to any invention other than a plant variety, means the conception or first actual reduction to practice of the invention; or

(2) When used in relation to a plant variety, means that the contractor has at least tentatively determined that the variety has been reproduced with recognized characteristics.

Nonprofit organization means a university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)), or any nonprofit scientific or educational organization qualified under a State nonprofit organization statute.

Practical application means to manufacture, in the case of a composition or product; to practice, in the case of a process or method; or to operate, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

Subject invention means any invention of the contractor made in the performance of work under a Government contract.

27.302 [Reserved]

27.303 Contract clauses.

(a) (1) Insert a patent rights clause in all solicitations and contracts for experimental, developmental, or research work as prescribed in this section.

(2) This section also applies to solicitations or contracts for construction work or architect-engineer services that include-

(i) Experimental, developmental, or research work;

(ii) Test and evaluation studies; or

(iii) The design of a Government facility that may involve novel structures, machines, products, materials, processes, or equipment (including construction equipment).

(3) Do not include a patent rights clause in solicitations or contracts for construction work or architect-engineer services that call for or can be expected to involve only "standard types of construction" "Standard types of construction" are those involving previously developed equipment, methods, and processes and in which the distinctive features include only-

(i) Variations in size, shape, or capacity of conventional structures; or

(ii) Purely artistic or aesthetic (as distinguished from functionally significant) architectural configurations and designs of both structural and nonstructural members or groupings, whether or not they qualify for design patent protection.

(b) (1) Unless an alternative patent rights clause is used in accordance with paragraph (c), (d), or (e) of this section, insert the clause at 52.227-11, Patent Rights-Ownership by the Contractor.

(2) To the extent the contract does not elsewhere require the information, and unless agency supplemental regulations specify otherwise, the contracting officer may modify 52.227-11(e) or otherwise supplement the clause to require the contractor to do one or more of the following:

(i) Provide periodic (but not more frequently than annually) listings of all subject inventions required to be disclosed during the period covered by the report.

(ii) Provide a report prior to the closeout of the contract listing all subject inventions or stating that there were none.

(iii) Provide the filing date, serial number, title, patent number and issue date for any patent application filed on any subject invention in any country or, upon request, copies of any patent application so identified.

(iv) Furnish the Government an irrevocable power to inspect and make copies of the patent application file when a Government employee is a co-inventor.

(3) Use the clause with its Alternate I if the Government must grant a foreign government a sublicense in subject inventions pursuant to a specified treaty or executive agreement. The contracting officer may modify Alternate I, if the agency head determines, at contract award, that it would be in the national interest to sublicense foreign governments or international organizations pursuant to any existing or future treaty or agreement. When necessary to effectuate a treaty or agreement, Alternate I may be appropriately modified.

(4) Use the clause with its Alternate II in contracts that may be affected by existing or future treaties or agreements.

(5) Use the clause with its Alternate III in contracts with nonprofit organizations for the operation of a Government-owned facility.

(6) If the contract is for the operation of a Government-owned facility, the contracting officer may use the clause with its Alternate IV.

(7) If the contract is for the performance of services at a Government owned and operated laboratory or at a Government owned and contractor operated laboratory directed by the Government to fulfill the Government's obligations under a Cooperative Research and Development Agreement (CRADA) authorized by 15 U.S.C. 3710a, the contracting officer may use the clause with its Alternate V. This provision is an exercise of an agency's "exceptional circumstances" authority, and the contracting officer must therefore comply with 37 CFR 401.3(e) and 401.4.

(c) Insert a patent rights clause in accordance with the procedures at 27.304-2 if the solicitation or contract is made on behalf of another Government agency.

(d) Insert a patent rights clause in accordance with agency procedures if the solicitation or contract is for DoD, DOE, or NASA, and the contractor is other than a small business concern or nonprofit organization.

(e) (1) Except as provided in paragraph (e)(2) of this section, and after compliance with the applicable procedures in 27.304-1(b), the contracting officer may insert the clause at 52.227-13, Patent Rights—Ownership by the Government, or a clause prescribed by agency supplemental regulations, if—

(i) The contractor is not located in the United States or does not have a place of business located in the United States or is subject to the control of a foreign government;

(ii) Exceptional circumstances apply, and the agency head determines that restriction or elimination of the right to retain title to any subject invention will better promote the policy and objectives of chapter 18 of title 35 of the United States Code;

(iii) A Government authority authorized by statute or executive order to conduct foreign intelligence or counterintelligence activities determines that restriction or elimination of the right to retain any subject invention is necessary to protect the security of such activities; or

(iv) The contract includes the operation of a Government-owned, contractor-operated facility of DOE primarily dedicated to that Department's naval nuclear propulsion or weapons related programs.

(2) If an agency exercises the exceptions at paragraph (e)(1)(ii) or (iii) of this section in a contract with a small business concern or a nonprofit organization, use the clause at 52.227-11 with only those modifications necessary to address the exceptional circumstances and include in the modified clause greater rights determinations procedures equivalent to those at 52.227-13(b)(2).

(3) When using the clause at 52.227-13, Patent Rights-Ownership by the Government, the contracting officer may supplement the clause to require the contractor to-

(i) Furnish a copy of each subcontract containing a patent rights clause (but if a copy of a subcontract is furnished under another clause, a duplicate shall not be requested under the patent rights clause);

(ii) Submit interim and final invention reports listing subject inventions and notifying the contracting officer of all subcontracts awarded for experimental, developmental, or research work;

(iii) Provide the filing date, serial number, title, patent number, and issue date for any patent application filed on any subject invention in any country or, upon specific request, copies of any patent application so identified; and

(iv) Submit periodic reports on the utilization of a subject invention.

(4) Use the clause at 52.227-13 with its Alternate I if-

(i) The Government must grant a foreign government a sublicense in subject inventions pursuant to a treaty or executive agreement; or

(ii) At contract award, the agency head determines, in the national interest, to sublicense foreign governments or international organizations pursuant to any existing or future treaty or agreement. If other rights are necessary to effectuate any treaty or agreement, modify Alternate I as appropriate.

(5) Use the clause at 52.227-13 with its Alternate II in the contract when necessary to effectuate an existing or future treaty or agreement.

27.304 Procedures.

27.304-1 General.

(a) [Reserved]

(b) *Exceptions*. (1) Before using any of the exceptions under 27.303(e)(1) in a contract with a small business concern or a nonprofit organization and before using the exception of 27.303(e)(1)(ii) for any contractor, the agency must follow applicable procedures at 37 CFR 401.

(2) A small business concern or nonprofit organization is entitled to an administrative review of the use of the exceptions at 27.303(e)(1)(i) through (e)(1)(iv) in accordance with agency procedures and 37 CFR part 401.

(c) *Greater rights determinations*. Whenever the contract contains the clause at 52.227-13, Patent Rights—Ownership by the Government, or a patent rights clause modified pursuant to 27.303(e)(2), the contractor (or an employee-inventor of the contractor after consultation with the contractor) may request greater rights to an identified invention within the period specified in the clause. The contracting officer may grant requests for greater rights if the contracting officer determines that the interests of the United States and the general public will be better served. In making these determinations, the contracting officer must consider at least the following objectives (see 37 CFR 401.3(b)):

(1) Promoting the utilization of inventions arising from federally supported research and development.

(2) Ensuring that inventions are used in a manner to promote full and open competition and free enterprise without unduly encumbering future research and discovery.

(3) Promoting public availability of inventions made in the United States by United States industry and labor.

(4) Ensuring that the Government obtains sufficient rights in federally supported inventions to meet the needs of the Government and protect the public against nonuse or unreasonable use of inventions.

(d) *Retention of rights by inventor*. If the contractor elects not to retain title to a subject invention, the agency may consider and, after consultation with the contractor, grant requests for retention of rights by the inventor. Retention of rights by the inventor will be subject to the conditions in paragraphs (d) (except paragraph (d)(1)(i)), (e)(4), (f), (g), and (h) of the clause at , Patent Rights-Ownership by the Contractor.

(e) *Government assignment to contractor of rights in Government employees' inventions*. When a Government employee is a co-inventor of an invention made under a contract with a small business concern or nonprofit organization, the agency employing the co-inventor may license or assign whatever rights it may acquire in the subject invention from its employee to the contractor, subject at least to the conditions of 35 U.S.C. 202-204.

(f) *Revocation or modification of contractor's minimum rights*. Before revoking or modifying the contractor's license, the contracting officer must furnish the contractor a written notice of intention to revoke or modify the license. The agency must allow the contractor at least 30 days (or another time as may be authorized for good cause by the contracting officer) after the notice to show cause why the license should not be revoked or modified. The contractor has the right to appeal, in accordance with applicable regulations in 37 CFR part 404 and agency licensing regulations, any decisions concerning the revocation or modification.

(g) *Exercise of march-in rights*. When exercising march-in rights, agencies shall follow the procedures set forth in 37 CFR 401.6.

(h) *Licenses and assignments under contracts with nonprofit organizations*. If the contractor is a nonprofit organization, paragraph (i) of the clause at 52.227-11 provides that certain contractor actions require agency approval.

27.304-2 Contracts placed by or for other Government agencies.

Apply the following procedures unless an interagency agreement provides otherwise:

(a) When a Government agency requests another Government agency award a contract on its behalf, the request should explain any special circumstances surrounding the contract and specify the patent rights clause. The clause should be selected and modified, if necessary, in accordance with the policies and procedures of this subpart. If, however, the request states that a clause of the requesting agency is required (e.g., because of statutory requirements, a deviation, or exceptional circumstances), then use that clause rather than those of this subpart.

(1) If the request states that an agency clause is required and the work to be performed under the contract is not severable and is funded wholly or in part by the requesting agency, then use the requesting agency clause and no other patent rights clause in the contract.

(2) If the request states that an agency clause is required, and the work to be performed under the contract is severable, then apply the requesting agency clause only to the severable portion of the work. Apply the appropriate patent rights clause to the work for the awarding agency.

(3) If the request states that a requesting agency clause is not required in any resulting contract, then use the appropriate patent rights clause, if any.

(b) Any action requiring an agency determination, report, or deviation involved in the use of the requesting agency's clause is the responsibility of the requesting agency unless the agencies agree otherwise. However, do not alter the requesting agency's clause without prior approval of the requesting agency.

(c) The requesting agency may require, and provide instructions regarding, the forwarding or handling of any invention disclosures or other reporting requirements of the specified clauses. Normally, the requesting agency is responsible for the administration of any subject inventions. Establish this responsibility before awarding any contracts.

27.304-3 Subcontracts.

(a) The policies and procedures in this subpart apply to all subcontracts at any tier.

(b) Whenever a prime contractor or a subcontractor considers including a particular clause in a subcontract inappropriate, or a subcontractor refuses to accept the clause, consult with counsel before resolving the matter.

(c) Government policy holds that contractors must not use their ability to award subcontracts as economic leverage to acquire rights for themselves in inventions resulting from subcontracts.

27.304-4 Appeals.

(a) The designated agency official must provide the contractor with a written statement of the basis, including any relevant facts, for taking any of the following actions:

(1) A refusal to grant an extension to the invention disclosure period under paragraph (c)(4) of the clause at 52.227-11;

(2) A demand for a conveyance of title to the Government;

(3) A refusal to grant a waiver of requirements in the patent rights clause related to Preferences for United States industry; or

(4) A refusal to approve an assignment under 27.304-1(h).

(b) Each agency may establish and publish procedures under which any of these actions may be appealed. These appeal procedures should include administrative due process procedures and standards for fact-finding. The resolution of any appeal must consider both the factual and legal basis for the action and its consistency with the policy and objectives of 35 U.S.C. 200-206 and 2 10.

(c) To the extent that any of the actions described in paragraph (a) of this section are subject to appeal under the Contract Disputes statute, the procedures under that statute will satisfy the requirements of paragraph (b).

27.305 [Reserved]

27.306 Licensing background patent rights to third parties.

(a) A contract with a small business concern or nonprofit organization must not contain a provision allowing the Government to require the licensing to third parties of inventions owned by the contractor that are not subject inventions unless the agency head on a nondelegable basis approves and signs a written justification in accordance with paragraph (b) of this section. The agency head may exercise the authority only upon determining that the—

(1) Use of the invention by others is necessary for the practice of a subject invention or for the use of a work object of the contract; and

(2) Action is necessary to achieve the practical application of the subject invention or work object.

(b) Any determination will be on the record after an opportunity for a hearing, and the agency must notify the contractor of the determination by certified or registered mail. The notification must include a statement that the contractor must bring any action for judicial review of the determination within 60 days after the notification.

Subpart 27.4 - Rights in Data and Copyrights

27.400 Scope of subpart.

This subpart provides policies and procedures regarding rights in data and copyrights, and acquisition of data. This subpart applies to all executive agencies except the Department of Defense.

27.401 Definitions.

As used in this subpart-

Data means recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. The term does not include information incidental to contract administration, such as financial, administrative, cost or pricing, or management information.

Form, fit, and function data means data relating to items, components, or processes that are sufficient to enable physical and functional interchangeability, and data identifying source, size, configuration, mating and attachment characteristics, functional characteristics, and performance requirements. For computer software it means data identifying source, functional characteristics, and performance requirements, but specifically excludes the source code, algorithms, processes, formulas, and flow charts of the software.

Limited rights means the rights of the Government in limited rights data as set forth in a Limited Rights Notice.

Limited rights data means data, other than computer software, that embody trade secrets or are commercial or financial and confidential or privileged, to the extent that such data pertain to items, components, or processes developed at private expense, including minor modifications. (Agencies may, however, adopt the following alternate definition: Limited rights data means data (other than computer software) developed at private expense that embody trade secrets or are commercial or financial and confidential or privileged (see 27.404-2(b)).

Restricted computer software means computer software developed at private expense and that is a trade secret, is commercial or financial and confidential or privileged, or is copyrighted computer software, including minor modifications of the computer software.

Restricted rights means the rights of the Government in restricted computer software as set forth in a Restricted Rights Notice.

Unlimited rights means the rights of the Government to use, disclose, reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, in any manner and for any purpose, and to have or permit others to do so.

27.402 [Reserved]

27.403 Data rights-General.

All contracts requiring data to be produced, furnished, acquired, or used in meeting contract performance requirements, must contain terms that delineate the respective rights and obligations of the Government and the contractor regarding the use, reproduction, and disclosure of that data. Data rights clauses, as applicable, do not specify the type, quantity or quality of data to be delivered but only the respective rights of the Government and the contractor regarding the use, disclosure, or reproduction of the data. Accordingly, the contract must specify the data to be delivered.

27.404 Basic rights in data clause.

This section describes the operation of the clause at 52.227-14, Rights in Data—General, and the use of the provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software.

27.404-1 Unlimited rights data.

The Government acquires unlimited rights in the following data except for copyrighted works as provided in 27.404-3:

(a) Data first produced in the performance of a contract (except to the extent the data constitute minor modifications to data that are limited rights data or restricted computer software).

(b) Form, fit, and function data delivered under contract.

(c) Data (except as may be included with restricted computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair of items, components, or processes delivered or furnished for use under a contract.

(d) All other data delivered under the contract other than limited rights data or restricted computer software (see 27.404-2).

27.404-2 Limited rights data and restricted computer software.

(a) *General*. The basic clause at 52.227-14, Rights in Data-General, enables the contractor to protect qualifying limited rights data and restricted computer software by withholding the data from the Government and instead delivering form, fit, and function data.

(b) *Alternate definition of limited rights data*. For contracts not requiring the development, use, or delivery of items, components, or processes intended to be acquired by or for the Government, an agency may adopt the alternate definition of limited rights data set forth in Alternate I to the clause at 52.227-14. The alternate definition does not require that the data pertain to items, components, or processes developed at private expense. The alternate definition instead requires that the data were developed at private expense and embody a trade secret or are commercial or financial and confidential or privileged.

(c) Protection of limited rights data specified for delivery. (1) The clause at 52.227-14 with its Alternate II enables the Government to require delivery of limited rights data rather than allow the contractor to withhold the data. To obtain delivery, the contract may identify and specify data to be delivered, or the contracting officer may require, by written request during contract performance, the delivery of data that has been withheld or identified to be withheld under paragraph (g)(1) of the clause. In addition, the contract may specifically identify data that are not to be delivered under Alternate II or that, if delivered, will be delivered with limited rights. The limited rights obtained by the Government are set forth in the Limited Rights Notice contained in paragraph (g)(3) of Alternate II. Agencies must not, without permission of the contractor, use limited rights data for purposes of manufacture or disclose the data outside the Government except as set forth in the Notice. Any disclosure by the Government must be subject to prohibition against further use and disclosure by the recipient. Here follow examples of specific purposes an agency may adopt in its supplement and added to the Limited Rights Notice of paragraph (g)(3) of Alternate II of the clause:

(i) Use (except for manufacture) by support service contractors.

(ii) Evaluation by nongovernment evaluators.

(iii) Use (except for manufacture) by other contractors participating in the Government's program of which the specific contract is a part.

(iv) Emergency repair or overhaul work.

(v) Release to a foreign government, or its instrumentalities, if required to serve the interests of the U.S. Government, for information or evaluation, or for emergency repair or overhaul work by the foreign government.

(2) The provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software, helps determine use of the clause at 52.227-14 with its Alternate II by requesting the offeror state whether limited rights data are likely to be delivered. Where limited rights data are expected to be delivered, use Alternate II. Where negotiations are based on an unsolicited proposal, address the need for Alternate II of the clause at 52.227-14 during negotiations or discussions, and include Alternate II by modification, if needed, during contract performance.

(3) If data that would otherwise qualify as limited rights data is delivered as a computer database, treat the data as limited rights data, rather than restricted computer software, for the purposes of paragraph (g) of the clause at 52.227-14.

(d) Protection of restricted computer software specified for delivery. (1) Alternate III of the clause at 52.227-14, enables the Government to require delivery of restricted computer software rather than allow the contractor to withhold such software. To obtain delivery of restricted computer software—

(i) Identify and specify the deliverable computer software in the contract; or

(ii) Require by written request during contract performance, the delivery of computer software that has been withheld or identified to be withheld under paragraph (g)(1) of the clause.

(2) In considering whether to use Alternate III, note that, unlike other data, computer software is itself also an end item. Therefore, use Alternate III where the contract requires delivery of restricted computer software.

(3) Unless otherwise agreed (see paragraph (d)(4) of this subsection), the restricted rights the Government obtains are set forth in the Restricted Rights Notice contained in paragraph (g)(4) (Alternate III). The Government will not use or reproduce such restricted computer software, or disclose it outside the Government, except that the Government may—

(i) Use or copy the software for the computers for which it was acquired, including use at any Government installation to which the computers may be transferred;

(ii) Use or copy the software for a backup computer if any computer for which it was acquired is inoperative;

(iii) Reproduce the software for safekeeping (archives) or backup purposes;

(iv) Modify, adapt or combine the software with other computer software, provided that the modified, adapted, or combined portions of the derivative software incorporating any of the delivered, restricted computer software must be subject to the same restricted rights;

(v) Disclose to and reproduce the software for use by support service contractors or their subcontractors, in accordance with paragraphs (3)(i) through (iv) of this section; and

(vi) Use or copy the software for a replacement computer.

(4) The restricted rights set forth in paragraph (d)(3) of this subsection comprise the minimum rights the Government normally obtains with restricted computer software and will automatically apply when the Government acquires such software under the Restricted Rights Notice of paragraph (g)(4) of Alternate III of the clause at 52.227-14. However, the contracting officer may specify different rights in the contract, consistent with the purposes and needs for which the software is to be acquired. For example, the contracting officer should consider any networking needs or any requirements for use of the computer software from remote terminals. Also, in addressing such needs, the scope of the restricted rights may differ for the documentation accompanying the computer software than for the programs and databases. The contract, or a collateral agreement incorporated in and made part of the contract, must expressly state any additions to, or limitations on, the restricted rights set forth in the Restricted Rights Notice of paragraph (g)(4) of Alternate III of the clause at 52.227-14; modify the notice accordingly.

(5) The provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software, helps determine use of the clause at 52.227-14 with its Alternate III by requesting the offeror state whether restricted computer software is likely to be delivered under the contract. In addition, address the need for Alternate III during negotiations or discussions with an offeror, particularly negotiations upon an unsolicited proposal. However, add Alternate III by modification, if needed, during contract performance.

27.404-3 Copyrighted works.

(a) *Data first produced in the performance of a contract*. (1) Generally, the contractor must obtain permission from the contracting officer prior to asserting rights in any copyrighted work containing data first produced in the performance of a contract. However, contractors are normally authorized, without such prior permission, to assert copyright in technical or scientific articles based on or containing such data that is published in academic, technical or professional journals, symposia proceedings and similar works.

(2) The contractor must make a written request to the contracting officer for permission to assert its copyright in works containing data first produced under the contract. In its request, the contractor should identify the data involved or furnish copies of the data for which permission is requested, as well as a statement as to the intended publication or dissemination media or other purpose for which the permission is requested. Generally, grant the contractor's request when copyright protection will enhance the appropriate dissemination or use of the data unless the—

(i) Data consist of a report that represents the official views of the agency or that the agency is required by statute to prepare;

(ii) Government intends primarily to use the data internally;

(iii) Data are of the type that the agency itself distributes to the public under an agency program;

(iv) Government determines that limitation on distribution of the data is in the national interest; or

(v) Government determines that the data should be disseminated without restriction.

(3) Alternate IV of the clause at 52.227-14 provides a substitute paragraph (c)(1) granting permission for contractors to assert copyright in any data first produced in the performance of the contract without the need for any further requests. Except for contracts for management or operation of Government facilities, and contracts and subcontracts in support of programs conducted at those facilities, or where international agreements require otherwise, use Alternate IV in all contracts for basic or applied research performed solely by colleges and universities. Do not use Alternate IV in contracts with colleges and universities if a purpose of the contract is development of computer software for distribution to the public (including use in solicitations) by or on behalf of the Government. In addition, use Alternate IV in other contracts, as needed, if an agency determines that further permission to assert copyright in data first produced in performance of the contract is unnecessary. Exclude, as necessary, any data, or items or categories of data, from the provisions of Alternate IV expressly in the contract or otherwise add a paragraph (d)(4) to the clause, consistent with 27.404-4(b).

(4) Pursuant to paragraph (c)(1) of the clause at 52.227-14, the contractor grants the Government a paid-up nonexclusive, irrevocable, worldwide license to reproduce, prepare derivative works, distribute to the public, perform publicly and display publicly by or on behalf of the Government, for all data (other than computer software) first produced in the performance of a contract. For computer software, the scope of the Government's license includes all the above rights except the right to distribute to the public. Agencies may also obtain a license of different scope if the contracting officer determines, after consulting with legal counsel, such a license will substantially enhance the dissemination of any data first produced under the contract or if such a license is required to comply with international agreements. If an agency obtains a

different license, the contractor must clearly state the scope of that license in a conspicuous place on the medium on which the data is recorded. For example, if the data is delivered as a report, the cover, or first page, of the report must state the terms of the license.

(5) The clause requires the contractor to affix the applicable copyright notices of 17 U.S .C. 401 or 402, and acknowledgment of Government sponsorship, (including the contract number) to data when it asserts copyright in data. Failure to do so could result in such data being treated as unlimited rights data (see 27.404-5(b)).

(b) Data not first produced in the performance of a contract. (1) Contractors must not deliver any data that is not first produced under the contract without either-

(i) Acquiring for or granting to the Government a copyright license for the data; or

(ii) Obtaining permission from the contracting officer to do otherwise.

(2) The copyright license the Government acquires for such data will normally be of the same scope as discussed in paragraph (a)(4) of this subsection, and paragraph (c)(2) of the clause at 52.227-14 sets forth the license. However, agencies may obtain a license of different scope if the agency determines, after consultation with legal counsel, that such different license will accord with the purpose of acquiring the data. Both the contract and the data when delivered to the Government must clearly state that a license of a different scope applies. If the contractor delivers computer software not first produced under the contract, the contractor must grant the Government the license set forth in paragraph (g)(4) of Alternate III if included in the clause at 52.227-14, or a license agreed to in a collateral agreement made part of the contract.

27.404-4 Contractor's release, publication, and use of data.

(a) In contracts for basic or applied research with universities or colleges, agencies must not restrict the conduct of or reporting on the results of unclassified basic or applied research, except as provided in applicable U.S. statutes. However, agencies may restrict the release or disclosure of computer software that is or is intended to be developed to the point of practical application (including for agency distribution under established programs). This is not a restriction on the reporting of the results of basic or applied research. Agencies may also preclude a contractor from asserting copyright in any computer software for purposes of established agency distribution programs, or where required to accomplish the purpose for acquiring the software.

(b) Except for the results of basic or applied research under contracts with universities or colleges, agencies may, to the extent provided in their FAR supplements, place limitations or restrictions on the contractor's exercise of its rights in data first produced in the performance of the contract, including a requirement to assign copyright to the Government or another party. Include any of these restrictions in the contract.

27.404-5 Unauthorized, omitted, or incorrect markings.

(a) *Unauthorized marking of data*. (1) The Government has, in accordance with paragraph (e) of the clause at 52.227-14, the right either to return data containing unauthorized markings or to cancel or ignore the markings.

(2) Agencies must not cancel or ignore markings without making written inquiry of the contractor and affording the contractor at least 60 days to provide a written justification substantiating the propriety of the markings.

(i) If the contractor either fails to respond or fails to provide a written justification substantiating the propriety of the markings within the time afforded, the Government may cancel or ignore the markings.

(ii) If the contractor provides a written justification substantiating the propriety of the markings, consider the justification.

(A) Upon determining that the markings are authorized, notify the contractor in writing.

(B) If the contracting officer determines, with concurrence of the head of the contracting activity, that the markings are not authorized, furnish the contractor a written determination regarding the appropriateness of the markings. The determination must state that the Government will cancel or ignore the markings, and that the data will no longer be subject to disclosure prohibitions, unless the contractor files suit within 90 days in a court of competent jurisdiction. Absent such a suit, the contracting officer's determination ordinarily becomes the final agency decision. Therefore, do not cancel or ignore the markings until final resolution of the matter, either by the determination becoming the final agency decision or by final disposition of the matter by court decision if the contractor files suit.

(3) Modify the foregoing procedures in accordance with agency regulations implementing the Freedom of Information Act (5 U.S.C. 552) as necessary to respond to a request. In addition, the contractor may bring a claim, in accordance with the Disputes clause of the contract, that may arise as the result of the Government's action to remove or ignore any markings on data, unless the action occurs as the result of a final disposition of the matter by a court of competent jurisdiction.

(b) *Omitted or incorrect notices*. (1) For data delivered under a contract containing the clause without a limited rights notice or restricted rights notice, and without a copyright notice, presume the contractor delivered the data with unlimited rights, and the Government assumes no liability for the disclosure, use, or reproduction of the data. However, to the extent the data has not been disclosed without restriction outside the Government, the contractor may, within 6 months (or a longer period approved by the contracting officer for good cause shown), request permission of the contracting officer to have the omitted limited rights or restricted rights notices, as applicable, placed on qualifying data at the contractor's expense. The contracting officer may permit adding appropriate notices if the contractor—

(i) Identifies the data for which a notice would be added;

(ii) Demonstrates that the omission of the proposed notice was inadvertent;

(iii) Establishes that use of the proposed notice is authorized; and

(iv) Acknowledges that the Government has no liability with respect to any disclosure or use of any such data made prior to the addition of the notice or resulting from the omission of the notice.

(2) The contracting officer may also-

(i) Permit correction, at the contractor's expense, of incorrect notices if the contractor identifies the data on which correction of the notice is to be made, and demonstrates that the correct notice is authorized; or

(ii) Correct any incorrect notices.

27.404-6 Inspection of data at the contractor's facility.

Contracting officers may obtain the right to inspect data at the contractor's facility by use of the clause at 52.227-14 with its Alternate V, which adds paragraph (j) to provide that right. Agencies may also adopt Alternate V for general use. The data subject to inspection may be data withheld or withholdable under paragraph (g)(1) of the clause. The contracting officer or designee (including nongovernmental personnel under the same conditions as the contracting officer) may inspect data at the contractor's facility to verify a contractor's assertion regarding the limited rights or restricted rights status of the data, or for evaluating work performance under the contract. The Government may exercise this right up to 3 years after acceptance of all items to be delivered under the contract. The contract may specify data items not subject to inspection under paragraph (j) of the Alternate. If the contractor demonstrates to the contracting officer that a conflict of interest would possibly result if inspection were made by a particular representative, then designate an alternate representative.

27.405 Other data rights provisions.

27.405-1 Special works.

(a) Contracts primarily for the production or compilation of data first produced in the performance of the contract (or special works) for the Government's own use, must specifically address the Government's rights to use, disclose, modify, distribute, and reproduce the special works. This may include negotiation of terms limiting distribution and use of special works or obtaining indemnity for liabilities that might arise out of the content, performance, or disclosure of special works. The contract may specify the purposes and conditions (including time limitations) under which the contractor may use, release, or reproduce the special works other than for contract performance.

(b) Contracts for the production of audiovisual works, sound recordings, etc., may include limitations and authorizations in connection with talent releases, music licenses, and the like that are consistent with the purposes for which the works are acquired.

(c) This subsection does not apply to limited rights data or to restricted computer software (see 27.404-2).

(d) Examples of special works include—

(1) The production of audiovisual works, including motion pictures or television recordings with or without accompanying sound, or for the preparation of motion picture scripts, musical compositions, soundtracks, translation, adaptation, and the like;

(2) Histories of the respective agencies, departments, services, or units thereof;

(3) Surveys of Government establishments;

(4) Works pertaining to the instruction or guidance of Government officers and employees in the discharge of their official duties;

(5) The compilation of reports, books, studies, surveys, or similar documents that do not involve research, development, or experimental work;

(6) The collection of data containing personally identifiable information such that the disclosure thereof would violate the right of privacy or publicity of the individual to whom the information relates;

(7) Investigatory reports;

(8) The development, accumulation, or compilation of data (other than that resulting from research, development, or experimental work performed by the contractor), the early release of which could prejudice follow-on acquisition activities or agency regulatory or enforcement activities; and

(9) The development of computer software programs, where the program is agency-mission sensitive, and release could prejudice agency mission, programs, or follow-on acquisitions.

(e) When the audiovisual or other special works are produced to accomplish a public purpose other than acquisition for the Government's own use (such as for production and distribution to the public of the works by other than a Federal agency) agencies are authorized to specially negotiate rights in special works that meet agency mission needs yet protect free speech and freedom of expression, as well as the artistic license of the creator of the work.

27.405-2 Existing works.

For contracts exclusively for the acquisition of existing works (without modification), such as motion pictures, television recordings, and other audiovisual works; sound recordings; musical, dramatic, and literary works; pantomimes and choreographic works; pictorial, graphic, and sculptural works; and works of a similar nature, the contract must specifically address the Government's rights to use, disclose, modify, distribute, and reproduce the existing works. Agencies are authorized to specially negotiate rights in existing works. This includes limitations consistent with the purposes for which the government seeks to acquire the works covered by the contract. Examples of these limitations include means of exhibition or transmission, time, type of audience, and geographical location. However, if the contract requires that works of the type indicated in this paragraph are to be modified through editing, translation, or addition of subject matter, etc. (rather than purchased in existing form), then see 27.405-1.

27.405-3 Commercial computer software.

(a) When acquiring commercial computer software, no specific contract clause prescribed in this subpart is necessary, but the contract must specifically address the Government's rights to use, disclose, modify, distribute, and reproduce the software. Part 12 states guidance for acquisition of commercial computer software, and it states that commercial computer software or commercial computer software documentation must be acquired under licenses customarily provided to the public to the extent the license is consistent with Federal law and otherwise satisfies the Government's needs. In addition, the contract must adequately describe the computer programs and/or databases, the media on which it is recorded, and all the necessary documentation.

(b) If the contract incorporates, refers to, or uses a vendor's standard commercial lease, license, or purchase agreement, ensure that the agreement is consistent with paragraph (a) of this subsection. Exercise caution in accepting a vendor's terms and conditions, because they might pertain to commercial sales and might therefore be inappropriate for Government contracts. Address in the contract any inconsistencies in a vendor's standard commercial agreement, and the contract terms must take precedence over the vendor's standard commercial agreement.

(c) If a prime contractor under a contract containing the clause at 52.227-14, Rights in Data—General, with paragraph (g)(4) (Alternate III) in the clause, acquires restricted computer software from a subcontractor (at any tier) as a separate acquisition for delivery to or for use on behalf of the Government, the contracting officer may approve any additions to, or limitations on the restricted rights in the Restricted Rights Notice of paragraph (g)(4) in a collateral agreement incorporated in and made part of the contract.

27.405-4 Other existing data.

(a) No clause contained in this subpart is required for—

(1) Contracts solely for the acquisition of books, periodicals, and other printed items in the exact form in which these items are to be obtained unless reproduction rights are to be acquired; or

(2) Other contracts that require only existing data (other than limited rights data) to be delivered and the data are available without disclosure prohibitions, unless reproduction rights to the data are to be obtained.

(b) Specifically state such rights in the contract. No clause contained in this subpart is required for contracts substantially for on-line data base services in the same form as they are normally available to the general public.

27.406 Acquisition of data.

27.406-1 General.

(a) [Reserved]

(b) Specify in the contract all known data requirements, including the time and place for delivery and any limitations and restrictions on the contractor for handling the data. Further, and to the extent feasible, in major system acquisitions, state data requirements as separate line items. In establishing the contract data requirements and in specifying data items for delivery under the contract, agencies may develop their own contract schedule provisions. Agency procedures may, among other things, provide for listing, specifying, identifying source, assuring delivery, and handling any data required to be delivered, first produced, or specifically used in the performance of the contract.

(c) [Reserved]

27.406-2 Additional data requirements.

(a) In some situations, such as experimental, developmental, research, or demonstration contracts, ascertaining all data requirements at contract award might be unfeasible. Use the clause at 52.227-16, Additional Data Requirements, as necessary to enable subsequent ordering of additional data first produced or specifically used in the performance of these contracts as the actual requirements become known. Normally use the clause in solicitations and contracts involving experimental, developmental, research or demonstration work (other than basic or applied research to be performed under a contract solely by a university or college when the contract amount will be $500,000 or less) unless all the requirements for data are believed known at the time of contracting and the contract specifies them. If the contract is for basic or applied research to be performed by a university or college, and the contracting officer believes the contract effort will in the future exceed $500,000, even though the initial award does not, include as necessary the clause in the initial award.

(b) The clause at 52.227-16 allows ordering data at any time during contract performance or within a period of 3 years after acceptance of all items to be delivered under the contract. Compensate the contractor for converting the data into the prescribed form, for reproduction, or for delivery. To minimize storage costs for the retention of data, the relieve as necessary the contractor of the retention requirements for specified data items at any time during the retention period required by the clause. Permit as necessary the contractor to identify and specify in the contract data not to be ordered for delivery under the clause if the data is not necessary to meet the Government's requirements for data. Also, alter as necessary the clause by deleting the term “or specifically used” in paragraph (a) of the clause if delivery of the data is unnecessary to meet the Government's data requirements. Any data ordered under this clause will be subject to the clause at 52.227-14, Rights in Data—General, (or other equivalent clause setting forth the respective rights of the Government and the contractor) in the contract. Data authorized to be withheld under such clause will not be required to be delivered under the clause at 52.227-16, except as provided in Alternate II or Alternate III, if included (see 27.404-2(c) and (d)).

(c) Absent an established program for dissemination of computer software, agencies should not order additional computer software under the clause at 52.227-16 for the sole purpose of disseminating or marketing the software to the public. In ordering software for internal purposes, consider, consistent with the Government's needs, not ordering particular source codes, algorithms, processes, formulas, or flow charts of the software where the contractor shows that these aid its efforts to disseminate or market the software.

27.406-3 Major system acquisition.

(a) The clause at 52.227-21, Technical Data Declaration, Revision, and Withholding of Payment—Major Systems, implements 41 U.S.C. 2302(e). When using the clause at 52.227-21, the section of the contract specifying data delivery requirements (see 27.406-1(b)) must expressly identify those line items of technical data to which the clause applies. Upon delivery of the technical data, review the technical data and the contractor's declaration relating to it to assure that the data are complete, accurate, and comply with contract requirements. If the data are not complete, accurate, or compliant, request the contractor to correct the deficiencies and withhold payment as necessary. Do not make final payment under the contract until determining that the delivery requirements of those line items of data to which the clause applies have been satisfactorily met.

(b) In a contract for, or in support of, a major system awarded by a civilian agency other than NASA or the U.S. Coast Guard, the following applies:

(1) Require the delivery of any technical data relating to the major system or supplies for the major system, that are to be developed exclusively with Federal funds where delivery of the technical data is needed to ensure competitive acquisition of supplies or services required in substantial quantities in the future. Use the clause at 52.227-22, Major System—Minimum Rights, in addition to the clause at 52.227-14, Rights in Data—General, and other required clauses, to ensure

that the Government acquires at least those rights required by Pub. L. 98-577 in technical data developed exclusively with Federal funds.

(2) Do not require a person that has developed a product or process, offered or to be offered for sale to the public, to provide technical data relating to a major system, or to supplies for a major system, that also relates to the design, development or manufacture of the product or process, as a condition of procurement of the product or process. This prohibition does not apply to such data that might be necessary for the Government to operate or maintain the product, or to use the process, where the Government obtains the data during contract performance.

27.407 Rights to technical data in successful proposals.

As necessary, negotiate terms defining the Government's license rights in technical data in successful proposals.

27.408 [Reserved]

27.409 Solicitation provisions and contract clauses.

(a) Generally, include only one data rights clause in a contract. However, where more than one is needed, the contract should distinguish the portion of contract performance to which each clause pertains.

(b) (1) Insert the clause at 52.227-14, Rights in Data—General, in solicitations and contracts under which data will be produced, furnished, or acquired, unless the contract is—

(i) For the production of special works, although in these cases insert the clause at 52.227-14, Rights in Data—General, and apply it to data other than special works, as appropriate;

(ii) For the acquisition of existing data, commercial computer software, or other existing data;

(iii) A small business innovation research contract (see paragraph (h) of this section);

(iv) To be performed outside the United States (see paragraph (i)(1) of this section);

(v) For architect-engineer services or construction work (see paragraph (i)(2) of this section);

(vi) For the management, operation, design, or construction of a Government-owned facility to perform research, development, or production work (see paragraph (i)(3) of this section); or

(vii) A contract involving cosponsored research and development in which a clause providing for less than unlimited right has been authorized.

(2) If an agency determines, in accordance with 27.404-2(b), to adopt the alternate definition of "Limited Rights Data" in paragraph (a) of the clause, use the clause with its Alternate I.

(3) Upon determining, in accordance with 27.404-2(c), that obtaining limited rights data is necessary, use the clause with its Alternate II. Complete paragraph (g)(3) to include the purposes, if any, for which limited rights data may be disclosed outside the Government.

(4) Upon determining, in accordance with 27.404-2(d), that obtaining restricted computer software is necessary, use the clause with its Alternate III. Specify in the contract, and modify the notice accordingly, any greater or lesser rights regarding the use, reproduction, or disclosure of restricted computer software than those set forth in the Restricted Rights Notice of paragraph (g)(4) of the clause.

(5) Use the clause with its Alternate IV in contracts for basic or applied research (other than those for the management or operation of Government facilities, and contracts and subcontracts in support of programs being conducted at those facilities or where international agreements require otherwise) to be performed solely by universities and colleges. As necessary, use the clause with its Alternate IV in other contracts if in accordance with 27.404-3(a), the agency determines to grant permission for the contractor to assert claim to copyright subsisting in all data first produced without further request being made by the contractor. When using Alternate IV, the contract may exclude items or categories of data from the permission granted, either by express provisions in the contract or by the addition of a paragraph (d)(4) to the clause (see 27.404-4).

(6) In accordance with 27.404-6, if the Government needs the right to inspect certain data at a contractor's facility, use the clause with its Alternate V.

(c) In accordance with 27.404-2(c)(2) and 27.404-2(d)(5), upon the need to have an offeror state in response to a solicitation whether limited rights data or restricted computer software are likely to be used in meeting the data delivery requirements set forth in the solicitation, insert the provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software, in any solicitation containing the clause at 52.227-14, Rights in Data—General. The contractor's response may provide an aid in determining whether the clause should be used with Alternate II and/or Alternate III.

(d) Insert the clause at 52.227-16, Additional Data Requirements, in solicitations and contracts involving experimental, developmental, research, or demonstration work (other than basic or applied research to be performed solely by a university or college where the contract amount will be $500,000 or less) unless all the requirements for data are believed known at the time of contracting and the contract specifies them (see 27.406-2). Use this clause in other contracts as necessary. For example, if the contract is for basic or applied research to be performed by a university or college, and the contracting officer believes the contract effort will in the future exceed $500,000, even though the initial award does not, include the clause in the initial award as necessary.

(e) In accordance with 27.405-1, insert the clause at 52.227-17, Rights in Data-Special Works, in solicitations and contracts primarily for the production or compilation of data (other than limited rights data or restricted computer software) for the Government's internal use, or when there is a specific need to limit distribution and use of the data or to obtain indemnity for liabilities that may arise out of the content, performance, or disclosure of the data. Examples of such contracts are set forth in 27.405-1.

(1) Insert the clause if existing works are to be modified, as by editing, translation, addition of subject matter, etc.

(2) The contract may specify the purposes and conditions (including time limitations) under which the data may be used, released, or reproduced by the contractor for other than contract performance.

(3) Contracts for the production of audiovisual works, sound recordings, etc. may include limitations in connection with talent releases, music licenses, and the like that are consistent with the purposes for which the data is acquired.

(4) The clause may be modified in accordance with paragraphs (c) through (e) of 27.405-1.

(f) [Reserved]

(g) In any event, the contracting officer shall assure that the contract contains terms to obtain sufficient rights for the Government to fulfill the need for which the software is being acquired and is otherwise consistent with 27.405-3).

(h) If the contract is a Small Business Innovation Research (SBIR) contract, insert the clause at 52.227-20, Rights in Data—SBIR Program in all Phase I, Phase II, and Phase III contracts awarded under the Small Business Innovation Research Program established pursuant to 15 U.S.C. 638. The Small Business Administration's "Small Business Innovation Research Program Policy Directive" (September 24, 2002) permits extension of the SBIR protection period.

(i) Agencies may prescribe in their procedures, as appropriate, a clause in contracts—

(1) To be performed outside the United States;

(2) For architect-engineer services and construction work; or

(3) For management, operation, design, or construction of Government-owned research, development, or production facilities, and in contracts and subcontracts in support of programs being conducted at such facilities.

(j) In accordance with 27.406-3(a), insert the clause at 52.227-21, Technical Data Declaration, Revision, and Withholding of Payment—Major Systems, in contracts for major systems acquisitions or for support of major systems acquisitions. This requirement includes contracts for detailed design, development, or production of a major system and contracts for any individual part, component, subassembly, assembly, or subsystem integral to the major system, and other property that may be replaced during the service life of the system, including spare parts. This clause requires specifying in the contract the technical data to which it applies (see 27.406-3(a)).

(k) In accordance with 27.406-3(b), in the case of civilian agencies other than NASA and the U.S. Coast Guard, insert the clause at 52.227-22, Major System-Minimum Rights, in contracts for major systems or contracts in support of major systems.

(l) [Reserved]

This page intentionally left blank.

Subpart 27.5 - [Reserved]

This page intentionally left blank.

PART 28 - BONDS AND INSURANCE

This page intentionally left blank.

28.000 Scope of part.

This part prescribes requirements for obtaining financial protection against losses under contracts that result from the use of the sealed bid or negotiated methods. It covers bid guarantees, bonds, alternative payment protections, security for bonds, and insurance.

28.001 Definitions.

As used in this part-

Attorney-in-fact means an agent, independent agent, underwriter, or any other company or individual holding a power of attorney granted by a surety.

Bid means any response to a solicitation, including a proposal under a negotiated acquisition.

Bid guarantee means a form of security assuring that the bidder-

(1) Will not withdraw a bid within the period specified for acceptance; and

(2) Will execute a written contract and furnish required bonds, including any necessary coinsurance or reinsurance agreements, within the time specified in the bid, unless a longer time allowed, after receipt of the specified forms.

Bidder means any entity that is responding or has responded to a solicitation, including an offeror under a negotiated acquisition.

Bond means a written instrument executed by a bidder or contractor (the "principal"), and a second party (the "surety" or "sureties") (except as provided in 28.204), to assure fulfillment of the principal's obligations to a third party (the "obligee" or "Government"), identified in the bond. If the principal's obligations are not met, the bond assures payment, to the extent stipulated, of any loss sustained by the obligee. The types of bonds and related documents are as follows:

(1) An advance payment bond secures fulfillment of the contractor's obligations under an advance payment provision.

(2) An annual bid bond is a single bond furnished by a bidder, in lieu of separate bid bonds, which secures all bids (on other than construction contracts) requiring bonds submitted during a specific Government fiscal year.

(3) An annual performance bond is a single bond furnished by a contractor, in lieu of separate performance bonds, to secure fulfillment of the contractor's obligations under contracts (other than construction contracts) requiring bonds entered into during a specific Government fiscal year.

(4) A patent infringement bond secures fulfillment of the contractor's obligations under a patent provision.

(5) A payment bond assures payments as required by law to all persons supplying labor or material in the prosecution of the work provided for in the contract.

(6) A performance bond secures performance and fulfillment of the contractor's obligations under the contract.

Consent of surety means an acknowledgment by a surety that its bond given in connection with a contract continues to apply to the contract as modified.

Penal sum or *penal amount* means the amount of money specified in a bond (or a percentage of the bid price in a bid bond) as the maximum payment for which the surety is obligated or the amount of security required to be pledged to the Government in lieu of a corporate or individual surety for the bond.

Reinsurance means a transaction which provides that a surety, for a consideration, agrees to indemnify another surety against loss which the latter may sustain under a bond which it has issued.

Subpart 28.1 - Bonds and Other Financial Protections

28.100 Scope of subpart.

This subpart prescribes requirements and procedures for the use of bonds, alternative payment protections, and all types of bid guarantees.

28.101 Bid guarantees.

28.101-1 Policy on use.

(a) A contracting officer must not require a bid guarantee unless a performance bond or a performance and payment bond is also required (see 28.102 and 28.103). Except as provided in paragraph (c) of this subsection, bid guarantees must be required whenever a performance bond or a performance and payment bond is required.

(b) All types of bid guarantees are acceptable for supply or service contracts (see annual bid bonds and annual performance bonds coverage in 28.001). Only separate bid guarantees are acceptable in connection with construction contracts. Agencies may specify that only separate bid bonds are acceptable in connection with construction contracts.

(c) The chief of the contracting office may waive the requirement to obtain a bid guarantee when a performance bond or a performance and payment bond is required if it is determined that a bid guarantee is not in the best interest of the Government for a specific acquisition (*e.g.,* overseas construction, emergency acquisitions, sole-source contracts). Class waivers may be authorized by the agency head or designee.

28.101-2 Solicitation provision or contract clause.

(a) The contracting officer must insert a provision or clause substantially the same as the provision at 52.228-1, Bid Guarantee, in solicitations or contracts that require a bid guarantee or similar guarantee. For example, the contracting officer may modify this provision-

(1) To set a period of time that is other than 10 days for the return of executed bonds;

(2) For use in connection with construction solicitations when the agency has specified that only separate bid bonds are acceptable in accordance with 28.101-1(b);

(3) For use in solicitations for negotiated contracts; or

(4) For use in service contracts containing options for extended performance.

(b) The contracting officer must determine the amount of the bid guarantee for insertion in the provision at 52.228-1 (see 28.102-2(a)). The amount must be adequate to protect the Government from loss should the successful bidder fail to execute further contractual documents and bonds as required. The bid guarantee amount must be at least 20 percent of the bid price but must not exceed $3 million. When the penal sum is expressed as a percentage, a maximum dollar limitation may be stated.

28.101-3 Authority of an attorney-in-fact for a bid bond.

(a) Any person signing a bid bond as an attorney-in-fact must include with the bid bond evidence of authority to bind the surety.

(b) An original, or a photocopy or facsimile of an original, power of attorney is sufficient evidence of such authority.

(c) For purposes of this section, electronic, mechanically-applied and printed signatures, seals and dates on the power of attorney must be considered original signatures, seals and dates, without regard to the order in which they were affixed.

(d) The contracting officer must-

(1) Treat the failure to provide a signed and dated power of attorney at the time of bid opening as a matter of responsiveness; and

(2) Treat questions regarding the authenticity and enforceability of the power of attorney at the time of bid opening as a matter of responsibility. These questions are handled after bid opening.

(e) (1) If the contracting officer contacts the surety to validate the power of attorney, the contracting officer must document the file providing, at a minimum, the following information:

(i) Name of person contacted.

(ii) Date and time of contact.

(iii) Response of the surety.

(2) If, upon investigation, the surety declares the power of attorney to have been valid at the time of bid opening, the contracting officer may require correction of any technical error.

(3) If the surety declares the power of attorney to have been invalid, the contracting officer must not allow the bidder to substitute a replacement power of attorney or a replacement surety.

(f) Determinations of non-responsibility based on the unacceptability of a power of attorney are not subject to the Certificate of Competency process of part 19 if the surety has disavowed the validity of the power of attorney.

28.101-4 Noncompliance with bid guarantee requirements.

(a) In sealed bidding, noncompliance with a solicitation requirement for a bid guarantee requires rejection of the bid, except in the situations described in paragraph (c) of this subsection when the noncompliance must be waived.

(b) In negotiation, noncompliance with a solicitation requirement for a bid guarantee requires rejection of an initial proposal as unacceptable, if a determination is made to award the contract based on initial proposals without discussion, except in the situations described in paragraph (c) of this subsection when noncompliance must be waived. (See part 15) for conditions regarding making awards based on initial proposals.) If the conditions for awarding based on initial proposals are not met, deficiencies in bid guarantees submitted by offerors determined to be in the competitive range must be addressed during discussions and the offeror must be given an opportunity to correct the deficiency.

(c) Noncompliance with a solicitation requirement for a bid guarantee must be waived in the following circumstances unless the contracting officer determines in writing that acceptance of the bid would be detrimental to the Government's interest when-

(1) Only one offer is received. In this case, the contracting officer may require the furnishing of the bid guarantee before award;

(2) The amount of the bid guarantee submitted is less than required, but is equal to or greater than the difference between the offer price and the next higher acceptable offer;

(3) The amount of the bid guarantee submitted, although less than that required by the solicitation for the maximum quantity offered, is sufficient for a quantity for which the offeror is otherwise eligible for award. Any award to the offeror must not exceed the quantity covered by the bid guarantee;

(4) The bid guarantee is received late, and late receipt is waived under part 14;

(5) A bid guarantee becomes inadequate as a result of the correction of a mistake under part 14 (but only if the bidder will increase the bid guarantee to the level required for the corrected bid);

(6) An otherwise acceptable bid bond was submitted with a signed offer, but the bid bond was not signed by the offeror;

(7) An otherwise acceptable bid bond is erroneously dated or bears no date at all; or

(8) A bid bond does not list the United States as obligee, but correctly identifies the offeror, the solicitation number, and the name and location of the project involved, so long as it is acceptable in all other respects.

28.102 Performance and payment bonds and alternative payment protections for construction contracts.

28.102-1 General.

(a) 40 U.S.C. chapter 31, subchapter III, Bonds (formerly known as the Miller Act), requires performance and payment bonds for any construction contract exceeding $150,000, except that this requirement may be waived-

(1) By the contracting officer for as much of the work as is to be performed in a foreign country upon finding that it is impracticable for the contractor to furnish such bonds; or

(2) As otherwise authorized by the Bonds statute or other law.

(b) (1) Pursuant to 40 U.S.C. 3132, for construction contracts greater than $35,000, but not greater than $150,000, the contracting officer must select two or more of the following payment protections, giving particular consideration to inclusion of an irrevocable letter of credit as one of the selected alternatives:

(i) A payment bond.

(ii) An irrevocable letter of credit (ILC).

(iii) *A tripartite escrow agreement*. The prime contractor establishes an escrow account in a federally insured financial institution and enters into a tripartite escrow agreement with the financial institution, as escrow agent, and all of the suppliers of labor and material. The escrow agreement must establish the terms of payment under the contract and of resolution of disputes among the parties. The Government makes payments to the contractor's escrow account, and the escrow agent distributes the payments in accordance with the agreement, or triggers the disputes resolution procedures if required.

(iv) *Certificates of deposit*. The contractor deposits certificates of deposit from a federally insured financial institution with the contracting officer, in an acceptable form, executable by the contracting officer.

(v) A deposit of the types of security listed in 28.204-1 and 28.204-2.

(2) The contractor must submit to the Government one of the payment protections selected by the contracting officer.

(c) The contractor must furnish all bonds or alternative payment protection, including any necessary reinsurance agreements, before receiving a notice to proceed with the work or being allowed to start work.

28.102-2 Amount required.

(a) *Definition*. As used in this subsection-

Original contract price means the award price of the contract; or, for requirements contracts, the price payable for the estimated total quantity; or, for indefinite-quantity contracts, the price payable for the specified minimum quantity. Original contract price does not include the price of any options, except those options exercised at the time of contract award.

(b) *Contracts exceeding $150,000.* (1) *Performance bonds*. Unless the contracting officer determines that a lesser amount is adequate for the protection of the Government, the penal amount of performance bonds must equal-

(i) 100 percent of the original contract price; and

(ii) If the contract price increases, an additional amount equal to 100 percent of the increase.

(2) *Payment bonds*. (i) Unless the contracting officer makes a written determination supported by specific findings that a payment bond in this amount is impractical, the amount of the payment bond must equal-

(A) 100 percent of the original contract price; and

(B) If the contract price increases, an additional amount equal to 100 percent of the increase.

(ii) The amount of the payment bond must be no less than the amount of the performance bond.

(c) *Contracts exceeding $35,000 but not exceeding $150,000*. Unless the contracting officer determines that a lesser amount is adequate for the protection of the Government, the penal amount of the payment bond or the amount of alternative payment protection must equal-

(1) 100 percent of the original contract price; and

(2) If the contract price increases, an additional amount equal to 100 percent of the increase.

(d) *Securing additional payment protection*. If the contract price increases, the Government must secure any needed additional protection by directing the contractor to-

(1) Increase the penal sum of the existing bond;

(2) Obtain an additional bond; or

(3) Furnish additional alternative payment protection.

(e) *Reducing amounts*. The contracting officer may reduce the amount of security to support a bond, subject to the conditions of 28.203-3(c) or 28.204(b).

28.102-3 Contract clauses.

(a) Insert a clause substantially the same as the clause at 52.228-15, Performance and Payment Bonds—Construction, in solicitations and contracts for construction that contain a requirement for performance and payment bonds if the resultant contract is expected to exceed $150,000. The contracting officer may revise paragraphs (b)(1) and/or (b)(2) of the clause to establish a lower percentage in accordance with 28.102-2(b). If the provision at 52.228-1 is not included in the solicitation, the contracting officer must set a period of time for return of executed bonds.

(b) Insert the clause at 52.228-13, Alternative Payment Protections, in solicitations and contracts for construction, when the estimated or actual value exceeds $35,000 but does not exceed $150,000. Complete the clause by specifying the payment protections selected (see 28.102-1(b)(1)) and the deadline for submission. The contracting officer may revise paragraph (b) of the clause to establish a lower percentage in accordance with 28.102-2(c).

28.103 Performance and payment bonds for other than construction contracts.

28.103-1 General.

(a) Generally, agencies must not require performance and payment bonds for other than construction contracts. However, performance and payment bonds may be used as permitted in 28.103-2 and 28.103-3.

(b) The contractor must furnish all bonds before receiving a notice to proceed with the work.

(c) No bond must be required after the contract has been awarded if it was not specifically required in the contract, except as may be determined necessary for a contract modification.

28.103-2 Performance bonds.

(a) Performance bonds may be required for contracts exceeding the simplified acquisition threshold when necessary to protect the Government's interest. The following situations may warrant a performance bond:

(1) Government property or funds are to be provided to the contractor for use in performing the contract or as partial compensation (as in retention of salvaged material).

(2) A contractor sells assets to or merges with another concern, and the Government, after recognizing the latter concern as the successor in interest, desires assurance that it is financially capable.

(3) Substantial progress payments are made before delivery of end items starts.

(4) Contracts are for dismantling, demolition, or removal of improvements.

(b) The Government may require additional performance bond protection when a contract price is increased.

(c) The contracting officer must determine the contractor's responsibility (see part 9) even though a bond has been or can be obtained.

28.103-3 Payment bonds.

(a) A payment bond is required only when a performance bond is required, and if the use of payment bond is in the Government's interest.

(b) When a contract price is increased, the Government may require additional bond protection in an amount adequate to protect suppliers of labor and material.

28.103-4 Contract clause.

The contracting officer must insert a clause substantially the same as the clause at 52.228-16, Performance and Payment Bonds—Other than Construction, in solicitations and contracts that contain a requirement for both payment and performance bonds. The contracting officer must determine the amount of each bond for insertion in the clause. The amount must be adequate to protect the interest of the Government. The contracting officer must also set a period of time (normally 10 days) for return of executed bonds. *Alternate I* must be used when only performance bonds are required.

28.104 Annual performance bonds.

(a) Annual performance bonds only apply to nonconstruction contracts. They must provide a gross penal sum applicable to the total amount of all covered contracts.

(b) When the penal sums obligated by contracts are approximately equal to or exceed the penal sum of the annual performance bond, an additional bond will be required to cover additional contracts.

28.105 Other types of bonds.

The head of the contracting activity may approve using other types of bonds in connection with acquiring particular supplies or services. These types include advance payment bonds and patent infringement bonds.

28.105-1 Advance payment bonds.

Advance payment bonds may be required only when the contract contains an advance payment provision and a performance bond is not furnished. The contracting officer must determine the amount of the advance payment bond necessary to protect the Government.

28.105-2 Patent infringement bonds.

(a) Contracts providing for patent indemnity may require these bonds only if-

(1) A performance bond is not furnished; and

(2) The financial responsibility of the contractor is unknown or doubtful.

(b) The contracting officer must determine the penal sum.

28.106 Administration.

28.106-1 Bonds and bond-related forms.

The following Standard Forms (SF's) and Optional Forms (OF's), must be used, except in foreign countries, when a bid bond, performance or payment bond, or an individual surety is required. The bond forms must be used as indicated in the instruction portion of each form:

(a) SF 24, Bid Bond (see 28.101).

(b) SF 25, Performance Bond (see 28.102-1 and 28.106-3(b)).

(c) SF 25A, Payment Bond (see 28.102-1 and 28.106-3(b)).

(d) SF 25B, Continuation Sheet (for SF's 24, 25, and 25A).

(e) SF 28, Affidavit of Individual Surety (see 28.203).

(f) SF 34, Annual Bid Bond (see 28.001).

(g) SF 35, Annual Performance Bond (see 28.104).

(h) SF 273, Reinsurance Agreement for a Bonds Statute Performance Bond (see 28.202(a)(4)).

(i) SF 274, Reinsurance Agreement for a Bonds Statute Payment Bond (see 28.202(a)(4)).

(j) SF 275, Reinsurance Agreement in Favor of the United States (see 28.202(a)(4)).

(k) SF 1414, Consent of Surety (see 28.106-5).

(l) SF 1415, Consent of Surety and Increase of Penalty (see 28.106-3).

(m) SF 1416, Payment Bond for Other Than Construction Contracts (see 28.103-3 and 28.106-3(b)).

(n) SF 1418, Performance Bond for Other Than Construction Contracts (see 28.103-2 and 28.106-3(b)).
(o) OF 91, Release of Personal Property from Escrow (see 28.203-3).

28.106-2 Substitution of surety bonds.

(a) A new surety bond covering all or part of the obligations on a bond previously approved may be substituted for the original bond if approved by the head of the contracting activity, or as otherwise specified in agency regulation.

(b) When a new surety bond is approved, the contracting officer must notify the principal and surety of the original bond of the effective date of the new bond.

28.106-3 Additional bond and security.

(a) When additional bond coverage is required and is secured in whole or in part by the original surety or sureties, agencies must use Standard Form1415, Consent of Surety and Increase of Penalty. Standard Form1415 is authorized for local reproduction.

(b) When additional bond coverage is required and is secured in whole or in part by a new surety or by one of the alternatives described in 28.204 in lieu of corporate or individual surety, agencies must use Standard Form25, Performance Bond; Standard Form1418, Performance Bond for Other Than Construction Contracts; Standard Form25A, Payment Bond; or Standard Form1416, Payment Bond for Other Than Construction Contracts.

28.106-4 Contract clause.

(a) The contracting officer must insert the clause at 52.228-2, Additional Bond Security, in solicitations and contracts when bonds are required.

(b) In accordance with section 806(a)(3) of Public Law 102-190, as amended by sections 2091 and 8105 of Public Law 103-355 (10 U.S.C. 4601 note prec.), the contracting officer must insert the clause at 52.228-12, Prospective Subcontractor Requests for Bonds, in solicitations and contracts with respect to which a payment bond will be furnished pursuant to 40 U.S.C. chapter 31, subchapter III, Bonds (see 28.102-1), except for contracts for the acquisition of commercial products or commercial services as defined in part 2.

28.106-5 Consent of surety.

(a) When any contract is modified, the contracting officer must obtain the consent of surety if-

(1) An additional bond is obtained from other than the original surety;

(2) No additional bond is required and-

(i) The modification is for new work beyond the scope of the original contract; or

(ii) The modification does not change the contract scope but changes the contract price (upward or downward) by more than 25 percent or $50,000; or

(3) Consent of surety is required for a novation agreement (see part 42).

(b) When a contract for which performance or payment is secured by any of the types of security listed in 28.204 is modified as described in paragraph (a) of this subsection, no consent of surety is required.

(c) Agencies must use Standard Form 1414, Consent of Surety, for all types of contracts.

28.106-6 Furnishing information.

(a) The surety on the bond, upon its written request, may be furnished information on the progress of the work, payments, and the estimated percentage of completion, concerning the contract for which the bond was furnished.

(b) When a payment bond has been provided, the contracting officer must, upon request, furnish the name and address of the surety or sureties to any subcontractor or supplier who has furnished or been requested to furnish labor or material for the contract. In addition, general information concerning the work progress, payments, and the estimated percentage of completion may be furnished to persons who have provided labor or materials and have not been paid.

(c) When a payment bond has been provided for a contract, the head of the agency or designee must furnish a certified copy of the bond and the contract for which it was given to any person who makes a request therefor and who furnishes an affidavit that the requestor has supplied labor or materials for such work and payment therefor has not been made or that the requestor is being sued on such bond. The person who makes the request must be required to pay such costs of preparation as determined by the head of the agency or designee to be reasonable and appropriate (see 40 U.S.C. 3133).

(d) Section 806(a)(2) of Public Law 102-190, as amended by sections 2091 and 8105 of Public Law 103-355 (10 U.S.C. 4601 note prec.), requires that the Federal Government provide information to subcontractors on payment bonds under contracts for other than commercial products or commercial services as defined in part 2. Upon the written or oral request of a subcontractor/supplier, or prospective subcontractor/supplier, under a contract with respect to which a payment bond has been furnished pursuant to the Bonds statute, the contracting officer must promptly provide to the requester, either orally or in writing, as appropriate, any of the following:

(1) Name and address of the surety or sureties on the payment bond.

(2) Penal amount of the payment bond.

(3) Copy of the payment bond. The contracting officer may impose reasonable fees to cover the cost of copying and providing a copy of the payment bond.

28.106-7 Withholding contract payments.

(a) During contract performance, agencies must not withhold payments due contractors or assignees because subcontractors or suppliers have not been paid.

(b) If, after completion of the contract work, the Government receives written notice from the surety regarding the contractor’s failure to meet its obligation to its subcontractors or suppliers, the contracting officer must withhold final payment. However, the surety must agree to hold the Government harmless from any liability resulting from withholding the final payment. The contracting officer will authorize final payment upon agreement between the contractor and surety or upon a judicial determination of the rights of the parties.

(c) For any withholding incident to the labor standards provisions of the contract, see part 22.

28.106-8 Payment to subcontractors or suppliers.

The contracting officer will only authorize payment to subcontractors or suppliers from an ILC (or any other cash equivalent security) upon a judicial determination of the rights of the parties, a signed notarized statement by the contractor that the payment is due and owed, or a signed agreement between the parties as to amount due and owed.

This page intentionally left blank.

Subpart 28.2 - Sureties and Other Security for Bonds

28.200 Scope of subpart.

This subpart prescribes procedures for the use of sureties and other security to protect the Government from financial losses.

28.201 Requirements for security.

(a) Agencies must obtain adequate security for bonds (including coinsurance and reinsurance agreements) required or used with a contract for supplies or services (including construction). Acceptable forms of security include-

(1) Corporate or individual sureties; or

(2) Any of the types of security authorized in lieu of sureties by 28.204.

(b) Solicitations must not preclude offerors from using the types of surety or other security permitted by this subpart, unless prohibited by law or regulation.

28.202 Acceptability of corporate sureties.

(a) (1) Corporate sureties offered for bonds furnished with contracts performed in the United States or its outlying areas must appear on the list contained in the Department of the Treasury's Listing of Approved Sureties (Treasury Department Circular 570), “Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies.”

(2) The penal amount of the bond should not exceed the surety's underwriting limit stated in the Treasury Department Circular 570. If the penal amount exceeds the underwriting limit, the bond will be acceptable only if-

(i) The amount which exceeds the specified limit is coinsured or reinsured; and

(ii) The amount of coinsurance or reinsurance does not exceed the underwriting limit of each coinsurer or reinsurer.

(3) Coinsurance or reinsurance agreements must conform to the Department of the Treasury (Treasury) regulations in 31 CFR 223.10 and 223.11. When reinsurance is contemplated, the contracting office generally must require reinsurance agreements to be executed and submitted with the bonds before making a final determination on the bonds.

(4) When specified in the solicitation, the contracting officer may accept a bond from the direct writing company in satisfaction of the total bond requirement of the contract. This is permissible until necessary reinsurance agreements are executed, even though the total bond requirement may exceed the insurer's underwriting limitation. The contractor must execute and submit necessary reinsurance agreements to the contracting officer within the time specified on the bid form, which may not exceed 45 calendar days after the execution of the bond. The contractor must use Standard Form (SF) 273, Reinsurance Agreement for a Bonds Statute Performance Bond, and SF 274, Reinsurance Agreement for a Bonds Statute Payment Bond, when reinsurance is furnished with the required performance or payment bonds. SF 275, Reinsurance Agreement in Favor of the United States, is used when reinsurance is furnished with bonds for other purposes.

(b) For contracts performed in a foreign country, sureties not appearing on Treasury Department Circular 570 are acceptable if the contracting officer determines that it is impracticable for the contractor to use Treasury listed sureties.

(c) Treasury issues supplements to Treasury Department Circular 570, notifying all Federal agencies of new approved corporate surety companies and the termination of the authority of any specific corporate surety to qualify as a surety on Federal bonds. Upon receipt of notification of termination of a company’s authority to qualify as a surety on Federal bonds, the contracting officer must review the outstanding contracts and take action necessary to protect the Government, including, where appropriate, securing new bonds with acceptable sureties in lieu of outstanding bonds with the named company.

(d) Treasury Department Circular 570 may be obtained from the U.S. Department of the Treasury, Bureau of the Fiscal Service, Surety Bond Branch, 3201 Pennsy Drive, Building E, Landover, MD 20785 or at https://www.fiscal.treasury.gov/fsreports/ref/suretyBnd/c570.htm.

28.203 Individual sureties.

28.203-1 Acceptability of individual sureties.

(a) An individual surety is acceptable for all types of bonds except position schedule bonds. Assets pledged by an individual surety must meet the eligibility requirements of Treasury's Bureau of the Fiscal Service. Per 31 U.S.C. 9310, individual sureties must pledge eligible obligations, which Treasury refers to as acceptable collateral or eligible collateral. A list of acceptable assets, entitled “Acceptable Collateral for 31 CFR part 225,” may be accessed by going to https://fiscal.treasury.gov/tcmm/resources.html and clicking on “31 CFR Part 225”.

(b) (1) An individual surety must execute the bond (*e.g.*, bid bond (SF 24), performance bond (SF 25), payment bond (SF 25A)).

(2) The net adjusted value of unencumbered assets is their market value minus the margin. The margin tables are available at www.treasurydirect.gov. The net adjusted value of unencumbered assets pledged by the individual surety must equal or exceed the penal amount (*i.e.*, face value) of each bond.

(3) The individual surety must execute the SF 28, Affidavit of Individual Surety, and provide a security interest. One individual surety is adequate support for a bond, provided the net adjusted value of unencumbered assets pledged by that individual surety equals or exceeds the amount of the bond.

(4) An offeror or contractor may submit up to three individual sureties for each bond, in which case the net adjusted value of the pledged unencumbered assets, when combined, must equal or exceed the penal amount of the bond. Each individual surety is jointly and severally liable to the extent of the penal amount of the bond.

(c) Using the information from the SF 28 submitted by the offeror or contractor, the contracting officer must notify the Treasury's collateral operations support team by email at BMT@fiscal.treasury.gov or by phone at 888-568-7343, of the individual surety, the assets to be pledged, and the amount necessary to cover the individual surety bond, *i.e.*, the required amount to be collateralized. Treasury will advise the contracting officer whether the assets are eligible to be pledged, consistent with 28.203-1(a), and of the valuation of the assets offered to be pledged, consistent with the valuation standards in 28.203-1(b)(2). If after 3 business days the contracting officer has not received a response from Treasury, the contracting officer may seek assistance from the Director, Bank Policy and Oversight, at 202-504-3502. The contracting officer must determine whether the individual surety bond is acceptable as to the amount necessary to cover the individual surety bond based on the asset eligibility and valuation assessment from Treasury. The contracting officer must notify both the offeror or contractor and the individual surety of this determination.

(d) If the contracting officer determines the individual surety is acceptable, the contracting officer must request the Treasury's collateral operations support team set up the necessary individual surety pledged asset collateral account.

(e) If the contracting officer determines that no individual surety in support of a bid guarantee is acceptable, the offeror utilizing the individual surety must be rejected as nonresponsible, except as provided in 28.101-4. A finding of nonresponsibility based on unacceptability of an individual surety, need not be referred to the Small Business Administration for a Certificate of Competency. (See part 19 and 61 Comp. Gen. 456 (1982).)

(f) If a contractor submits an unacceptable individual surety, or one that Treasury could not assess the asset eligibility and valuation within a reasonable time, then the contracting officer may permit the contractor to substitute an acceptable surety within a reasonable time.

(g) Evidence of possible criminal or fraudulent activities by an individual surety must be referred to the appropriate agency official in accordance with agency procedures.

28.203-2 Substitution of assets.

An individual surety may request the Government to accept a substitute asset for that currently pledged by submitting a written request, including a revised SF 28, to the responsible contracting officer. Following the requirements set forth in 28.203-1, the contracting officer may agree to the substitution of assets upon determining that the substitute assets to be pledged are adequate to protect the outstanding bond or guarantee obligations.

28.203-3 Release of security interest.

(a) After consultation with legal counsel, the contracting officer must release the security interest on the individual surety's assets using the Optional Form 91, Release of Personal Property from Escrow, or a similar release as soon as possible consistent with the conditions in subparagraphs (a)(1) and (2) of this section. A surety's assets pledged in support of a payment bond may be released to a subcontractor or supplier upon Government receipt of a Federal district court judgment, or a sworn statement by the subcontractor or supplier that the claim is correct along with a notarized authorization of the release by the surety stating that it approves of such release.

(1) *Contracts subject to the Bonds statute.* See section 1.110 and section 28.102-1, paragraph (a). The security interest must be maintained for the later of—

(i) 1 year following final payment;

(ii) Until completion of any warranty period (applicable only to performance bonds); or

(iii) Pending resolution of all claims filed against the payment bond during the 1 year period following final payment.

(2) *Contracts subject to alternative payment protection.* See section 28.102-1, paragraph (b)(1). The security interest must be maintained for the full contract performance period plus 1 year.

(3) *Other contracts not subject to the Bonds statute.* The security interest must be maintained for 90 days following final payment or until completion of any warranty period (applicable only to performance bonds), whichever is later.

(b) Upon written request by the individual surety, the contracting officer may release the security interest on the individual surety's assets in support of a bid guarantee based upon evidence that the offer supported by the individual surety will not result in contract award.

(c) Upon written request by the individual surety, the contracting officer may release a portion of the security interest on the individual surety's assets based upon substantial performance of the contractor's obligations under its performance bond. Release of the security interest in support of a payment bond must comply with the subparagraphs (a)(1) through (3) of this section. In making this determination, the contracting officer will give consideration as to whether the unreleased portion of the security is sufficient to cover the remaining contract obligations, including payments to subcontractors and other potential liabilities. The individual surety must, as a condition of the partial release, furnish an affidavit agreeing that the release of such assets does not relieve the individual surety of its obligations under the bond(s).

28.203-4 Solicitation provision and contract clause.

(a) Insert the provision at 52.228-17, Individual Surety—Pledge of Assets (Bid Guarantee), in solicitations that require the submission of a bid guarantee.

(b) Insert the clause at 52.228-11, Individual Surety—Pledge of Assets, in solicitations and contracts that require the submission of performance or payment bonds.

28.203-5 Exclusion of individual sureties.

(a) An individual may be excluded from acting as a surety on bonds submitted by offerors on procurement by the executive branch of the Federal Government, by the acquiring agency's head or designee utilizing the procedures in part 9. The exclusion must be for the purpose of protecting the Government.

(b) An individual may be excluded for any of the following causes:

(1) Failure to fulfill the obligations under any bond.

(2) Failure to disclose all bond obligations.

(3) Misrepresentation of the value of available assets or outstanding liabilities.

(4) Any false or misleading statement, signature or representation on a bond or affidavit of individual suretyship.

(5) Any other cause affecting responsibility as a surety of such serious and compelling nature as may be determined to warrant exclusion.

(c) An individual surety excluded pursuant to this section must be entered as an exclusion in the System for Award Management (SAM) (see part 9).

(d) Contracting officers must not accept the bonds of individual sureties whose names appear in an active exclusion record in SAM unless the acquiring agency's head or a designee state in writing the compelling reasons justifying acceptance.

(e) An exclusion of an individual surety under this section will also preclude such party from acting as a contractor in accordance with part 9.

28.204 Alternatives in lieu of corporate or individual sureties.

(a) Any person required to furnish a bond to the Government may furnish any of the types of security listed in 28.204-1 through 28.204-3 instead of a corporate or individual surety for the bond. When any of those types of security are deposited, a statement must be incorporated in the bond form pledging the security in lieu of execution of the bond form by corporate or individual sureties. The contractor must execute the bond forms as the principal. Agencies must establish safeguards to protect against loss of the security and must return the security or its equivalent to the contractor when the bond obligation has ceased.

(b) Upon written request by any contractor securing a performance or payment bond by any of the types of security listed in 28.204-1 through 28.204-3, the contracting officer may release a portion of the security only when the conditions allowing the partial release of security in 28.203-3(c) are met. The contractor must, as a condition of the partial release, furnish an affidavit agreeing that the release of such security does not relieve the contractor of its obligations under the bond(s).

(c) The contractor may satisfy a requirement for bond security by furnishing a combination of the types of security listed in 28.204-1 through 28.204-3 or a combination of bonds supported by these types of security and additional surety bonds under 28.202 or 28.203. During the period for which a bond supported by security is required, the contractor may substitute one type of security listed in 28.204-1 through 28.204-3 for another, or may substitute, in whole or combination, additional surety bonds under 28.202 or 28.203.

28.204-1 United States bonds or notes.

Any person required to furnish a bond to the Government has the option, instead of furnishing a surety or sureties on the bond, of depositing certain United States bonds or notes in an amount equal at their par value to the penal sum of the bond (the Act of February 24,1919 (31 U.S.C. 9303) and Treasury Department Circular No.154 (31 CFR part 225)). In addition, a duly executed power of attorney and agreement authorizing the collection or sale of such United States bonds or notes in the event of default of the principal on the bond must accompany the deposited bonds or notes. The contracting officer may-

(a) Turn securities over to the finance or other authorized agency official; or

(b) Deposit them with the Treasurer of the United States, a Federal Reserve Bank (or branch with requisite facilities), or other depository designated for that purpose by the Secretary of the Treasury, under procedures prescribed by the agency concerned and Treasury Department CircularNo.154 (exception: The contracting officer must deposit all bonds and notes received in the District of Columbia with the Treasurer of the United States).

28.204-2 Certified or cashier's checks, bank drafts, money orders, or currency.

Any person required to furnish a bond has an option to furnish a certified or cashier's check, bank draft, Post Office money order, or currency, in an amount equal to the penal sum of the bond, instead of furnishing surety or sureties on the bonds. Those furnishing checks, drafts, or money orders must draw them to the order of the appropriate Federal agency.

28.204-3 Irrevocable letter of credit.

(a) Any person required to furnish a bond has the option to furnish a bond secured by an irrevocable letter of credit (ILC) in an amount equal to the penal sum required to be secured (see 28.204). A separate ILC is required for each bond.

(b) The ILC must be irrevocable, require presentation of no document other than a written demand and the ILC (and letter of confirmation, if any), expire only as provided in paragraph (f) of this subsection, and be issued/confirmed by an acceptable federally insured financial institution as provided in paragraph (g) of this subsection.

(c) To draw on the ILC, the contracting officer must use the sight draft set forth in the clause at 52.228-14, and present it with the ILC (including letter of confirmation, if any) to the issuing financial institution or the confirming financial institution (if any).

(d) If the contractor does not furnish an acceptable replacement ILC, or other acceptable substitute, at least 30 days before an ILC's scheduled expiration, the contracting officer must immediately draw on the ILC.

(e) If, after the period of performance of a contract where ILCs are used to support payment bonds, there are outstanding claims against the payment bond, the contracting officer must draw on the ILC prior to the expiration date of the ILC to cover these claims.

(f) The period for which financial security is required must be as follows:

(1) If used as a bid guarantee, the ILC should expire no earlier than 60 days after the close of the bid acceptance period.

(2) If used as an alternative to corporate or individual sureties as security for a performance or payment bond, the offeror/contractor may submit an ILC with an initial expiration date estimated to cover the entire period for which financial security is required or an ILC with an initial expiration date that is a minimum period of one year from the date of issuance. The ILC must provide that, unless the issuer provides the beneficiary written notice of non-renewal at least 60 days in advance of the current expiration date, the ILC is automatically extended without amendment for one year from the expiration date, or any future expiration date, until the period of required coverage is completed and the contracting officer provides the financial institution with a written statement waiving the right to payment. The period of required coverage must be:

(i) For contracts subject to the Bonds statute, the later of-

(A) one year following the expected date of final payment;

(B) For performance bonds only, until completion of any warranty period; or

(C) For payment bonds only, until resolution of all claims filed against the payment bond during the one-year period following final payment.

(ii) For contracts not subject to the Bonds statute, the later of-

(A) 90 days following final payment; or

(B) For performance bonds only, until completion of any warranty period.

(g) Only federally insured financial institutions rated investment grade must issue or confirm the ILC. Unless the financial institution issuing the ILC had letter of credit business of at least $25 million in the past year, ILCs over $5 million must be confirmed by another acceptable financial institution that had letter of credit business of at least $25 million in the past year.

(1) The offeror/contractor is required by paragraph (d) of the clause at 52.228-14. Irrevocable Letter of Credit, to provide the contracting officer a credit rating from a recognized commercial rating service that indicates the financial institution has the required rating(s) as of the date of issuance of the ILC.

(2) To support the credit rating of the financial institution(s) issuing or confirming the ILC, the contracting officer must verify the following information:

(i) Federal insurance: Each financial institution is federally insured. Verification of federal insurance is available through the Federal Deposit Insurance Corporation (FDIC) institution directory at the website http://www2.fdic.gov/idasp/index.asp.

(ii) Current credit rating. The current credit rating for each financial institution is investment grade and that the credit rating is from a Nationally Recognized Statistical Rating Organization (NRSRO). NRSROs can be located at the website http://www.sec.gov/answers/nrsro.htm maintained by the SEC.

(3) The rating services listed in the website http://www.sec.gov/answers/nrsro.htm use different rating scales (e.g., AAA, AA, A, BBB, BB, B, CCC, CC, C, and D; or Aaa, Aa, A, Baa, Ba, B, Caa, Ca, and C) to provide evaluations of institutional credit risk; however, all such systems specify the range of investment grade ratings (e.g., BBB-AAA or Baa-Aaa in the examples in this section) and permit evaluation of the relative risk associated with a specific institution. If the contracting officer learns that a financial institution's rating has dropped below investment grade level, the contracting officer must give the contractor 30 days to substitute an acceptable ILC or must draw on the ILC using the sight draft in paragraph (g) of the clause at 52.228-14.

(h) A copy of the Uniform Customs and Practice for Documentary Credits, 2007 Edition, International Chamber of Commerce Publication No. 600, is available from:

ICC Books USA, 1212 Avenue of the Americas, 21 st Floor, New York, NY 10036;

Phone: 212-703-5078; Fax: 212-391-6568; E-mail: iccbooks@uscib.org; Via the Internet at:http://www.uscib.org/ucp-600-ud-4465/.

28.204-4 Contract clause.

Insert the clause at 52.228-14, Irrevocable Letter of Credit, in solicitations and contracts for services, supplies, or construction, when a bid guarantee, or performance bonds, or performance and payment bonds are required.

This page intentionally left blank.

Subpart 28.3 - Insurance

28.301 Policy.

Contractors must carry insurance under the following circumstances:

(a) (1) The Government requires any contractor subject to Cost Accounting Standard (CAS) 416 (48 CFR 9904.416) to obtain insurance, by purchase or self-coverage, for the perils to which the contractor is exposed, except when-

(i) The Government, by providing in the contract in accordance with law, agrees to indemnify the contractor under specified circumstances; or

(ii) The contract specifically relieves the contractor of liability for loss of or damage to Government property.

(2) The Government reserves the right to disapprove the purchase of any insurance coverage not in the Government's interest.

(3) Allowability of the insurance program's cost must be determined in accordance with the criteria in 31.205-19.

(b) Contractors, whether or not their contracts are subject to CAS 416, are required by law and this regulation to provide insurance for certain types of perils (*e.g.,* workers' compensation). Insurance is mandatory also when commingling of property, type of operation, circumstances of ownership, or condition of the contract make it necessary for the protection of the Government. The minimum amounts of insurance required by this regulation (see 28.307-2) may be reduced when a contract is to be performed outside the United States and its outlying areas. When more than one agency is involved, the agency responsible for review and approval of a contractor's insurance program must coordinate with other interested agencies before acting on significant insurance matters.

(c) Contractors awarded nonpersonal services contracts for health care services are required to maintain medical liability insurance and indemnify the Government for liability producing acts or omissions by the contractor, its employees and agents (see part 37).

28.302 Notice of cancellation or change.

When the Government requires the contractor to provide insurance coverage, the policies must contain an endorsement that any cancellation or material change in the coverage adversely affecting the Government's interest must not be effective unless the insurer or the contractor gives written notice of cancellation or change as required by the contracting officer. When the coverage is provided by self-insurance, the contractor must not change or decrease the coverage without the administrative contracting officer's prior approval (see 28.308(c)).

28.303 Insurance against loss of or damage to Government property.

When the Government requires or approves insurance to cover loss of or damage to Government property (see part 45), it may be provided by specific insurance policies or by inclusion of the risks in the contractor's existing policies. The policies must disclose the Government's interest in the property.

28.304 Risk-pooling arrangements.

Agencies may establish risk-pooling arrangements. These arrangements are designed to use the services of the insurance industry for safety engineering and the handling of claims at minimum cost to the Government. The agency responsible must appoint a single manager or point of contact for each arrangement.

28.305 Overseas workers' compensation and war-hazard insurance.

(a) "Public-work contract," as used in this subpart, means any contract for a fixed improvement or for any other project, fixed or not, for the public use of the United States or its allies, involving construction, alteration, removal, or repair, including projects or operations under service contracts and projects in connection with the national defense or with war activities, dredging, harbor improvements, dams, roadways, and housing, as well as preparatory and ancillary work in connection therewith at the site or on the project.

(b) The Defense Base Act (42 U.S.C.1651, *et seq*.) extends the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 901) to various classes of employees working outside the United States, including those engaged in performing-

(1) Public-work contracts; or

(2) Contracts approved or financed under the Foreign Assistance Act of1961 (Pub.L.87-195) other than-

(i) Contracts approved or financed by the Development Loan Fund (unless the Secretary of Labor, acting upon the recommendation of a department or agency, determines that such contracts should be covered); or

(ii) Contracts exclusively for materials or supplies.

(c) When the Defense Base Act applies (see 42 U.S.C.1651, *et seq*.) to these employees, the benefits of the Longshoremen's and Harbor Workers' Compensation Act are extended through operation of the War Hazards Compensation Act (42 U.S.C.1701, *et seq*.) to protect the employees against the risk of war hazards (injury, death, capture, or detention). When, by means of an insurance policy or a self-insurance program, the contractor provides the workers' compensation coverage required by the Defense Base Act, the contractor's employees automatically receive war-hazard risk protection.

(d) When the agency head recommends a waiver to the Secretary of Labor, the Secretary may waive the applicability of the Defense Base Act to any contract, subcontract, work location, or classification of employees.

(e) If the Defense Base Act is waived for some or all of the contractor's employees, the benefits of the War Hazards Compensation Act are automatically waived with respect to those employees for whom the Defense Base Act is waived. For those employees, the contractor must provide workers' compensation coverage against the risk of work injury or death and assume liability toward the employees and their beneficiaries for war-hazard injury, death, capture, or detention. The contract must provide either that the costs of this liability or the reasonable costs of insurance against this liability must be allowed as a cost under the contract.

28.306 Insurance under fixed-price contracts.

(a) *General*. Although the Government is not ordinarily concerned with the contractor's insurance coverage if the contract is a fixed-price contract, in special circumstances agencies may specify insurance requirements under fixed-price contracts. Examples of such circumstances include the following:

(1) The contractor is, or has a separate operation, engaged principally in Government work.

(2) Government property is involved.

(3) The work is to be performed on a Government installation.

(4) The Government elects to assume risks for which the contractor ordinarily obtains commercial insurance.

(b) Work on a Government installation. (1) When the clause at 52.228-5, Insurance—Work on a Government Installation, is required to be included in a fixed-price contract by 28.310, the coverage specified in 28.307 is the minimum insurance required and must be included in the contract Schedule or elsewhere in the contract. The contracting officer may require additional coverage and higher limits.

(2) When the clause at 52.228-5, Insurance—Work on a Government Installation, is not required by 28.310 but is included because the contracting officer considers it to be in the Government's interest to do so, any of the types of insurance specified in 28.307 may be omitted or the limits may be lowered, if appropriate.

28.307 Insurance under cost-reimbursement contracts.

Cost-reimbursement contracts (and subcontracts, if the terms of the prime contract are extended to the subcontract) ordinarily require the types of insurance listed in 28.307-2, with the minimum amounts of liability indicated. (See 28.308 for self-insurance.)

28.307-1 Group insurance plans.

(a) *Prior approval requirement*. Under cost-reimbursement contracts, before buying insurance under a group insurance plan, the contractor must submit the plan for approval, in accordance with agency regulations. Any change in benefits provided under an approved plan that can reasonably be expected to increase significantly the cost to the Government requires similar approval.

(b) *Premium refunds or credits*. The plan must provide for the Government to share in any premium refunds or credits paid or otherwise allowed to the contractor. In determining the extent of the Government's share in any premium refunds or credits, any special reserves and other refunds to which the contractor may be entitled in the future must be taken into account.

28.307-2 Liability.

(a) *Workers' compensation and employer's liability*. Contractors are required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they must be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least $100,000 must be required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers. (See 28.305(c) for treatment of contracts subject to the Defense Base Act.)

(b) General liability. (1) The contracting officer must require bodily injury liability insurance coverage written on the comprehensive form of policy of at least $500,000 per occurrence.

(2) Property damage liability insurance must be required only in special circumstances as determined by the agency.

(c) *Automobile liability*. The contracting officer must require automobile liability insurance written on the comprehensive form of policy. The policy must provide for bodily injury and property damage liability covering the operation of all automobiles used in connection with performing the contract. Policies covering automobiles operated in the United States must provide coverage of at least $200,000 per person and $500,000 per occurrence for bodily injury and $20,000 per occurrence for property damage. The amount of liability coverage on other policies must be commensurate with any legal requirements of the locality and sufficient to meet normal and customary claims.

(d) *Aircraft public and passenger liability*. When aircraft are used in connection with performing the contract, the contracting officer must require aircraft public and passenger liability insurance. Coverage must be at least $200,000 per person and $500,000 per occurrence for bodily injury, other than passenger liability, and $200,000 per occurrence for property damage. Coverage for passenger liability bodily injury must be at least $200,000 multiplied by the number of seats or passengers, whichever is greater.

(e) *Vessel liability*. When contract performance involves use of vessels, the contracting officer must require, as determined by the agency, vessel collision liability and protection and indemnity liability insurance.

28.308 Self-insurance.

(a) When it is anticipated that 50 percent or more of the self-insurance costs to be incurred at a segment of a contractor's business will be allocable to negotiated Government contracts, and the self-insurance costs at the segment for the contractor's fiscal year are expected to be $200,000 or more, the contractor must submit, in writing, information on its proposed self-insurance program to the administrative contracting officer and obtain that official's approval of the program. The submission must be by segment or segments of the contractor's business to which the program applies and must include-

(1) A complete description of the program, including any resolution of the board of directors authorizing and adopting coverage, including types of risks, limits of coverage, assignments of safety and loss control, and legal service responsibilities;

(2) If available, the corporate insurance manual and organization chart detailing fiscal responsibilities for insurance;

(3) The terms regarding insurance coverage for any Government property;

(4) The contractor's latest financial statements;

(5) Any self-insurance feasibility studies or insurance market surveys reporting comparative alternatives;

(6) Loss history, premiums history, and industry ratios;

(7) A formula for establishing reserves, including percentage variations between losses paid and losses reserved;

(8) Claims administration policy, practices, and procedures;

(9) The method of calculating the projected average loss; and

(10) A disclosure of all captive insurance company and reinsurance agreements, including methods of computing cost.

(b) Programs of self-insurance covering a contractor's insurable risks, including the deductible portion of purchased insurance, may be approved when examination of a program indicates that its application is in the Government's interest. Agencies must not approve a program of self-insurance for workers' compensation in a jurisdiction where workers' compensation does not completely cover the employer's liability to employees, unless the contractor-

(1) Maintains an approved program of self-insurance for any employer's liability not so covered; or

(2) Shows that the combined cost to the Government of self-insurance for workers' compensation and commercial insurance for employer's liability will not exceed the cost of covering both kinds of risk by commercial insurance.

(c) Once the administrative contracting officer has approved a program, the contractor must submit to that official for approval any major proposed changes to the program. Any program approval may be withdrawn if a contracting officer finds that either-

(1) Any part of a program does not comply with the requirements of this subpart and/or the criteria at 31.205-19; or

(2) Conditions or situations existing at the time of approval that were a basis for original approval of the program have changed to the extent that a program change is necessary.

(d) To qualify for a self-insurance program, a contractor must demonstrate ability to sustain the potential losses involved. In making the determination, the contracting officer must consider the following factors:

(1) The soundness of the contractor's financial condition, including available lines of credit.

(2) The geographic dispersion of assets, so that the potential of a single loss depleting all the assets is unlikely.

(3) The history of previous losses, including frequency of occurrence and the financial impact of each loss.

(4) The type and magnitude of risk, such as minor coverage for the deductible portion of purchased insurance or major coverage for hazardous risks.

(5) The contractor's compliance with Federal and State laws and regulations.

(e) Agencies must not approve a program of self-insurance for catastrophic risks (*e.g.,* see part 50 for special procedures for unusually hazardous or nuclear risks). Should performance of Government contracts create the risk of catastrophic losses, the Government may, to the extent authorized by law, agree to indemnify the contractor or recognize an appropriate share of premiums for purchased insurance, or both.

(f) Self-insurance programs to protect a contractor against the costs of correcting its own defects in materials or workmanship must not be approved. For these purposes, normal rework estimates and warranty costs will not be considered self-insurance.

28.309 Contract clauses for workers' compensation insurance.

(a) The contracting officer must insert the clause at 52.228-3, Workers' Compensation Insurance (Defense Base Act), in solicitations and contracts when the Defense Base Act applies (see 28.305) and—

(1) The contract will be a public-work contract performed outside the United States; or

(2) The contract will be approved or financed under the Foreign Assistance Act of1961 (Pub.L.87-195) and is not excluded by 28.305(b)(2).

(b) The contracting officer must insert the clause at 52.228-4, Workers' Compensation and War-Hazard Insurance Overseas, in solicitations and contracts when the contract will be a public-work contract performed outside the United States and the Secretary of Labor waives the applicability of the Defense Base Act (see 28.305(d)).

28.310 Contract clause for work on a Government installation.

(a) Insert the clause at 52.228-5, Insurance—Work on a Government Installation, in solicitations and contracts if a fixed-price contract is contemplated, the contract amount is expected to exceed the simplified acquisition threshold, and the contract will require work on a Government installation, unless—

(1) Only a small amount of work is required on the Government installation (*e.g.,*a few brief visits per month); or

(2) All work on the Government installation will be performed outside the United States and its outlying areas.

(b) The contracting officer may insert the clause at 52.228-5 in solicitations and contracts described in paragraphs (a)(1) and (2) of this section if it is in the Government's interest to do so.

28.311 Solicitation provision and contract clause on liability insurance under cost-reimbursement contracts.

28.311-1 Contract clause.

In accordance with agency acquisition regulations, the contracting officer must insert the clause at 52.228-7, Insurance—Liability to Third Persons, in solicitations and contracts, other than those for construction contracts and those for architect-engineer services, when a cost-reimbursement contract is contemplated.

28.311-2 Agency solicitation provisions and contract clauses.

Agencies may prescribe their own solicitation provisions and contract clauses to implement the basic policies contained in this subpart 28.3.

28.312 Contract clause for insurance of leased motor vehicles.

The contracting officer must insert the clause at 52.228-8, Liability and Insurance—Leased Motor Vehicles, in solicitations and contracts for the leasing of motor vehicles (see part 8).

28.313 Contract clauses for insurance of transportation or transportation-related services.

(a) The contracting officer must insert the clause at 52.228-9, Cargo Insurance, in solicitations and contracts for transportation or for transportation-related services, except when freight is shipped under rates subject to released or declared value.

(b) The contracting officer must insert a clause substantially the same as that at 52.228-10, Vehicular and General Public Liability Insurance, in solicitations and contracts for transportation or for transportation-related services when the contracting officer determines that vehicular liability or general public liability insurance required by law is not sufficient.

PART 29 - TAXES

This page intentionally left blank.

29.000 Scope of part.

This part provides policies and procedures for using tax clauses in contracts (including foreign contracts), claiming immunity or exemption from taxes, and getting tax refunds. It explains Federal, State, and local taxes on certain supplies and services that executive agencies buy and how these taxes apply to the Federal Government. This information is general guidance for Government personnel and does not cover all tax laws and regulations.

Subpart 29.1 - General

29.101 Resolving tax problems.

Contract tax problems are primarily legal issues and vary widely. Contracting officers must consult the agency's legal counsel when tax issues arise, especially before negotiating with any taxing authority.

This page intentionally left blank.

Subpart 29.2 - Federal Excise Taxes

29.201 General.

(a) Federal excise taxes are taxes on the sale or use of specific supplies or services. Subtitle D of the Internal Revenue Code, Miscellaneous Excise Taxes 26 U.S.C.4041, *et seq*., and its regulations (26 CFR parts 40 through 299) cover Federal excise tax requirements. Direct questions in this area to legal counsel. The most common excise taxes are—

(1) Manufacturers' excise taxes on certain motor-vehicle articles, tires and inner tubes, gasoline, lubricating oils, coal, fishing equipment, firearms, shells, and cartridges sold by manufacturers, producers, or importers; and

(2) Special-fuels excise taxes charged at retail on diesel fuel and special motor fuels.

(b) Executive agencies must take advantage of available Federal excise tax exemptions. When the law exempts the Federal Government from these taxes, the contracting officer must, unless inappropriate for the circumstances, request offers on a tax-exclusive basis. When no exemption exists, request offers on a tax-inclusive basis.

29.202 General exemptions.

Federal manufacturers' or special-fuels excise taxes do not apply in many contracting situations. This includes supplies for any of the following purposes:

(a) The exclusive use of any State or political subdivision, including the District of Columbia (26 U.S.C. 4041 and 4221).

(b) Export shipment to a foreign country or an outlying area of the United States. Shipment must occur within 6 months after title passes to the Government. When claiming this exemption, the words "for export" must appear on the contract or purchase document. The contracting officer must give the seller proof of export (see 26 CFR 48.4221-3).

(c) Further manufacture, or resale for further manufacture (this exemption does not include tires and inner tubes) (26 CFR 48.4221-2).

(d) Use as fuel supplies, ships or sea stores, or legitimate equipment on vessels of war, including—

(1) Aircraft owned by the United States and constituting part of the armed forces; and

(2) Guided missiles and pilotless aircraft owned or chartered by the United States. When claiming this exemption, make the purchase on a tax-exclusive basis. The contracting officer must give the seller an exemption certificate for Supplies for Vessels of War (an example appears in 26 CFR 48.4221-4(d)(2). The IRS will accept one certificate covering all orders under a single contract for up to 12 calendar quarters) (26 U.S.C. 4041 and 4221).

(e) A nonprofit educational organization (26 U.S.C. 4041 and 4221).

(f) Emergency vehicles (26 U.S.C. 4053 and 4064(b)(1)(c)).

29.203 Other Federal tax exemptions.

(a) Under 26 U.S.C.4293, the Secretary of the Treasury has exempted the United States from the communications excise tax imposed in 26 U.S.C.4251, when the supplies and services are for the exclusive use of the United States. (Secretarial Authorization, June 20,1947, Internal Revenue Cumulative Bulletin,1947-1, 205.)

(b) Under 26 U.S.C. 4483(b), the Secretary of the Treasury has exempted the United States from the federal highway vehicle users tax imposed in 26 U.S.C. 4481. The exemption applies whether the United States owns or leases the vehicle. (Secretarial Authorization, Internal Revenue Cumulative Bulletin, 1956-2, 1369.)

29.204 Federal excise tax on specific foreign contract payments.

(a) Title 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7 require acquiring agencies to collect this excise tax (section 5000C tax) through withholding on applicable contract payments (see 29.402-3, 31.205-41(b)(8)). Agencies merely withhold the tax for the Internal Revenue Service (IRS). All substantive issues regarding the underlying section 5000C tax, such as the imposition of or exemption from the tax, are matters under IRS jurisdiction. For questions about interpreting IRS regulations, refer to https://www.irs.gov/help/tax-law-questions.

(b) According to clause 52.229-12, Tax on Certain Foreign Procurements, contractors subject to the section 5000C tax will complete IRS Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, and submit this form with each voucher or invoice. If a completed IRS Form W-14 is not submitted with a payment request, the default withholding percentage is 2 percent for that payment request. Information about IRS Form W-14 is available at www.irs.gov/w14.

(c) (1) Exemptions from withholding in IRS regulations at 26 CFR 1.5000C-1(d)(1) through (4) are covered in the prescription at 29.402-3(a), which means the contracting officer will not include the provision when one of the 29.402-3(a) exceptions applies.

(2) The offeror will claim exemptions under 26 CFR 1.5000C-1(d)(5) through (7) by submitting an IRS Form W-14 with their offer. If not submitted with the offer, exemptions will not apply to the contract.

(3) Any exemption claimed and self-certified on the IRS Form W-14 is subject to IRS audit. Any disputes about imposing and collecting the section 5000C tax are handled by the IRS because this is a tax matter, not a contract issue.

(d) The exemptions in 29.201 through 29.301 do not apply to this section 5000C tax.

(e) Additional information about this excise tax on specific foreign contract payments is available at https://www.irs.gov/government-entities/excise-tax-on-specified-federal-foreign-procurement-payments.

Subpart 29.3 - State and Local Taxes

29.300 Scope of subpart.

This subpart provides the policies and procedures regarding the exemption or immunity of Federal Government purchases and property from State and local taxation.

29.302 Application of State and local taxes to the Government.

(a) Generally, purchases and leases made by the Federal Government are immune from State and local taxation. However, whether a specific purchase or lease is immune is a legal question requiring advice from the agency's legal counsel.

(b) When economically feasible, executive agencies must take full advantage of all exemptions from State and local taxation. When appropriate, the contracting officer must provide a Standard Form 1094, U.S. Tax Exemption Form (see part 53), or other evidence listed in 29.304(a) to establish that the Government is making the purchase.

29.302 Application of State and local taxes to Government contractors and subcontractors.

(a) The Government does not normally designate prime contractors and subcontractors as agents of the Government for claiming immunity from State or local sales or use taxes. Before any activity claims that a contractor is a Government agent, refer the matter to the agency head for review. Include all relevant data and a thorough analysis of all relevant legal precedents with the referral.

(b) When purchases are made by a prime contractor or subcontractor rather than directly by the Government, the right to exemption from sales or use tax may not depend on the Government's immunity from direct taxation by States and localities. Instead, it may depend on provisions of the specific State or local law, or in some cases, the transaction may not be expressly exempt from the tax. Protect the Government's interest by following the procedures in 29.101.

(c) Often, property owned by the Government (including property acquired under progress payments or the Government property clause) is in a contractor's or subcontractor's possession. States or localities may claim the right to tax Government property directly or to tax the contractor's or subcontractor's possession of, interest in, or use of that property. In such cases, the contracting officer must seek review and advice from the agency's legal counsel on the appropriate action.

(d) Indefinite-delivery contracts for equipment rental may require the contractor to provide equipment in any state. States and local governments impose various taxes on equipment leased to the Government, and the tax amounts can vary significantly among jurisdictions.

29.303 North Carolina Sales and Use Tax Act.

(a) The North Carolina Sales and Use Tax Act allows counties and incorporated cities and towns to receive an annual refund from the Secretary of Revenue for sales and use taxes indirectly paid on building materials, supplies, fixtures, and equipment that become part of or are attached to any building or structure built, altered, or repaired for these counties and incorporated cities and towns in North Carolina. In United States v. Clayton, 250 F. Supp. 827 (1965), the court ruled that the United States is entitled to the refund but must follow the Act's refund procedure and regulations to recover what it is due.

(b) To receive the refund, the Act requires claimants to file a written request within 6 months after the end of their fiscal year, supported by records, receipts, and information that the Secretary of Revenue requires. Claimants will not receive a refund for applications filed late or not meeting the Secretary of Revenue's requirements. These requirements appear in regulations stating that to support a refund claim for sales or use taxes paid on purchases of building materials, supplies, fixtures, or equipment by a contractor, the Government must get certified statements from the contractor showing the cost of property purchased from each vendor and the amount of sales or use taxes paid. If a contractor makes several purchases from the same vendor, the certified statement must show the invoice numbers, invoice dates, total invoice amount, and sales and use taxes paid. The statement must also include the cost of any tangible personal property the contractor took from warehouse stock and the amount of sales or use tax paid. The general contractor must obtain and provide to the claimant similar certified statements from subcontractors. The contractor's statement must show any local sales or use taxes separately from State sales or use taxes.

(c) The clause prescribed at 29.401-2 requires contractors to submit certified statements disclosing North Carolina State and local sales and use taxes paid during the 12-month period ending the previous September 30 to contracting officers by November 30 each year. The contracting officer must ensure contractors comply with this requirement and obtain the annual refund to which the Government is entitled. The refund application must be filed annually before March 31 in the manner and form the Secretary of Revenue requires. Get copies of the form from—

State of North Carolina

Department of Revenue
PO Box 25000
Raleigh, NC 27640

29.304 State and local tax exemptions.

(a) *General*. The contract may require the contractor to take specific actions regarding payment, nonpayment, refund, protest, or other handling of a specified tax. Such special treatment may be appropriate when there is doubt about the applicability or allocability of the tax, or when the tax's applicability is being challenged in court.

(b) *Evidence of exemption.* Evidence is needed to establish an exemption from State or local taxes. The type of evidence depends on the grounds for the exemption claimed, the parties involved, and the requirements of the taxing jurisdiction. Examples of evidence include but are not limited to documents that identify a U.S. agency as the buyer, a U.S. tax exemption form (SF 1094), or documents establishing a State or local exemption.

(c) *Furnishing proof of exemption*. If there is a reasonable basis to claim an exemption, provide the seller with evidence of exemption, as follows:

(1) Under a contract containing the clause 52.229-3, Federal, State, and Local Taxes, if requested by the contractor and there is a reasonable basis to support the exemption.

(2) Under a contract containing the clause 52.229-4, Federal, State, and Local Taxes (State and Local Adjustments), if the contractor requests evidence that applies to a tax excluded from the contract price and there is a reasonable basis to support the exemption.

(3) Under a cost-reimbursement contract, if requested by the contractor and approved by the contracting officer or at the contracting officer's discretion.

(4) Under a contract or purchase order with no tax provision, if—

(i) Requested by the contractor and approved by the contracting officer or at the contracting officer's discretion; and

(ii) Either the contract price does not include the tax or, if the transaction or property is tax exempt, the contractor agrees to a reduction in the contract price.

Subpart 29.4 - Contract Clauses

29.401 Domestic contracts.

29.401-1 Indefinite-delivery contracts for leased equipment.

Insert the clause at 52.229-1, State and Local Taxes, in solicitations and contracts for leased equipment when—

(a) Planning a fixed-price indefinite-delivery contract;

(b) The contract will be performed wholly or partly in the United States or its outlying areas; and

(c) The delivery places are not known at the time of contracting.

29.401-2 Construction contracts performed in North Carolina.

Insert the clause at 52.229-2, North Carolina State and Local Sales and Use Tax, in solicitations and contracts for construction to be performed in North Carolina. If the requirement is for vessel repair in North Carolina, use the clause with its Alternate I.

29.401-3 Federal, State, and local taxes.

(a) Except as provided in paragraph (b) of this section, insert the clause at 52.229-3, Federal, State, and Local Taxes, in solicitations and contracts if—

(1) The contract will be performed wholly or partly in the United States or its outlying areas;

(2) Planning a fixed-price contract; and

(3) The contract is expected to exceed the simplified acquisition threshold.

(b) In a noncompetitive contract that meets all conditions in paragraph (a) of this section, the contracting officer may insert the clause at 52.229-4, Federal, State, and Local Taxes (State and Local Adjustments), instead of the clause at 52.229-3, if the price would otherwise include an inappropriate contingency for potential postaward changes in State or local taxes.

29.401-4 New Mexico gross receipts and compensating tax.

(a) *Definition*.

Service, as used in this section, is defined in the Gross Receipts and Compensating Tax Act of the State of New Mexico, Sec 7-9-3(S) NMSA 1978, and means all activities engaged in for other persons for a consideration, which activities involve predominantly the performance of a service as distinguished from selling or leasing property. "Service" includes activities performed by a person for its members or shareholders. In determining what is a service, the intended use, principal objective, or ultimate objective of the contracting parties shall not be controlling. "Service" includes construction activities and all tangible personal property that will become an ingredient or component part of a construction project. That tangible personal property retains its character as tangible personal property until it is installed as an ingredient or component part of a construction project in New Mexico. Sales of tangible personal property that will become an ingredient or component part of a construction project to persons engaged in the construction business are sales of tangible personal property.

(b) *Contract clause*. Insert the clause at 52.229-10, State of New Mexico Gross Receipts and Compensating Tax, in solicitations and contracts issued by the agencies identified in paragraph (c) of this section when all three of these conditions exist:

(1) The contractor will be performing a cost-reimbursement contract.

(2) The contract directs or authorizes the contractor to acquire tangible personal property as a direct cost under the contract and title to such property passes directly to and vests in the United States upon delivery by the vendor.

(3) The contract will be for services to be performed wholly or partly within New Mexico.

(c) *Participating agencies*. (1) The agencies listed below have an agreement with the State of New Mexico to eliminate double taxation of Government cost-reimbursement contracts when contractors and their subcontractors purchase tangible personal property to be used in performing services wholly or partly in New Mexico, and when title to such property will pass to the United States upon delivery of the property to the contractor and its subcontractors by the vendor. Therefore, the clause applies only to solicitations and contracts issued by the—

United States Defense Advanced Research Projects Agency;

United States Defense Threat Reduction Agency;

United States Department of Agriculture;

United States Department of the Air Force;

United States Department of the Army;

United States Department of Energy;
United States Department of Health and Human Services;
United States Department of the Interior;
United States Department of Labor;
United States Department of the Navy;
United States Department of Transportation;
United States General Services Administration;
United States Missile Defense Agency; and
United States National Aeronautics and Space Administration.

(2) Any other Federal agency expecting to award cost-reimbursement contracts to be performed in New Mexico should contact the New Mexico Taxation and Revenue Department to execute a similar agreement.

29.402 Foreign contracts.

29.402-1 Foreign fixed-price contracts.

(a) Insert the clause at 52.229-6, Taxes-Foreign Fixed-Price Contracts, in solicitations and contracts expected to exceed the simplified acquisition threshold when planning a fixed-price contract to be performed wholly or partly in a foreign country, unless the contract will be with a foreign government.

(b) Insert the clause at 52.229-7, Taxes-Fixed-Price Contracts with Foreign Governments, in solicitations and contracts that exceed the simplified acquisition threshold when planning a fixed-price contract with a foreign government.

29.402-2 Foreign cost-reimbursement contracts.

(a) Insert the clause at 52.229-8, Taxes-Foreign Cost-Reimbursement Contracts, in solicitations and contracts when planning a cost-reimbursement contract to be performed wholly or partly in a foreign country, unless the contract will be with a foreign government.

(b) Insert the clause at 52.229-9, Taxes-Cost-Reimbursement Contracts with Foreign Governments, in solicitations and contracts when planning a cost-reimbursement contract with a foreign government.

29.402-3 Tax on certain foreign procurements.

(a) Insert the provision at 52.229-11, Tax on Certain Foreign Procurements—Notice and Representation, in solicitations, including solicitations using part 12 procedures for acquiring commercial products and commercial services, except for—

(1) Acquisitions using simplified acquisition procedures that do not exceed the simplified acquisition threshold;

(2) Emergency acquisitions using the emergency acquisition flexibilities defined in part 18;

(3) Acquisitions using the unusual and compelling urgency authority in part 6;

(4) Contracts with a single individual for personal services that will not exceed the simplified acquisition threshold on an annual calendar year basis for all years of the contract; and

(5) Acquisitions the requiring activity identifies as requirements for certain foreign humanitarian assistance contracts that are payments made by U.S. Government agencies under a contract with a foreign contracting party to obtain goods or services described in or authorized under 7 U.S.C. 1691, et seq., 22 U.S.C. 2151, et seq., 22 U.S.C 2601 et seq., 22 U.S.C. 5801 et seq., 22 U.S.C. 5401 et seq., 10 U.S.C. 402, 10 U.S.C. 404, 10 U.S.C. 407, 10 U.S.C. 2557, and 10 U.S.C. 2561.

(b) Insert the clause at 52.229-12, Tax on Certain Foreign Procurements, in—

(1) Solicitations that contain the provision at 52.229-11, Tax on Certain Foreign Procurements—Notice and Representation; and

(2) Resulting contracts for which the contractor indicated it was a foreign person in solicitation provision 52.229-11, Tax on Certain Foreign Procurements—Notice and Representation.

PART 30 - COST ACCOUNTING STANDARDS ADMINISTRATION

This page intentionally left blank.

30.000 Scope of part.

This part describes policies and procedures for applying the Cost Accounting Standards Board (CASB) rules and regulations (48 CFR chapter 99) to negotiated contracts and subcontracts.

30.001 Definitions.

As used in this part-

Affected CAS-covered contract or subcontract means a contract or subcontract subject to Cost Accounting Standards (CAS) rules and regulations for which a contractor or subcontractor-

(1) Used one cost accounting practice to estimate costs and a changed cost accounting practice to accumulate and report costs under the contract or subcontract; or

(2) Used a noncompliant practice for purposes of estimating or accumulating and reporting costs under the contract or subcontract.

Cognizant Federal agency official (CFAO) means the contracting officer assigned by the cognizant Federal agency to administer the CAS.

Desirable change means a compliant change to a contractor's established or disclosed cost accounting practices that the CFAO finds is desirable and not detrimental to the Government and is, therefore, not subject to the no increased cost prohibition provisions of CAS-covered contracts and subcontracts affected by the change.

Fixed-price contracts and subcontracts means-

(1) The following fixed-price contracts and subcontracts—

(i) Firm-fixed price contracts;

(ii) Fixed-price contracts with economic price adjustment (except when price adjustments are based on actual costs of labor or material); and

(iii) Firm-fixed-price, level-of-effort contracts.

(2) Fixed-price incentive contracts and subcontracts where the price is not adjusted based on actual costs incurred (part 16);

(3) Orders issued under indefinite-delivery contracts and subcontracts where final payment is not based on actual costs incurred (part 16); and

(4) The fixed-hourly rate portion of time-and-materials and labor-hours contracts and subcontracts (part 16).

Flexibly-priced contracts and subcontracts means-

(1) The following types of fixed-price contracts and subcontracts—

(i) Fixed-price contracts with economic price adjustment based on actual costs of labor or material;

(ii) Fixed-price incentive contract;

(iii) Fixed-price contracts with prospective price redetermination.; and

(iv) Fixed-ceiling-price contracts with retroactive price redetermination.

(2) Cost-reimbursement contracts and subcontracts;

(3) Incentive contracts and subcontracts where the price may be adjusted based on actual costs incurred;

(4) Orders issued under indefinite-delivery contracts and subcontracts where final payment is based on actual costs incurred; and

(5) The materials portion of time-and-materials contracts and subcontracts.

Noncompliance means a failure in estimating, accumulating, or reporting costs to-

(1) Comply with applicable CAS; or

(2) Consistently follow disclosed or established cost accounting practices.

Required change means-

(1) A change in cost accounting practice that a contractor is required to make in order to comply with applicable Standards, modifications or interpretations thereto, that subsequently becomes applicable to an existing CAS-covered contract or subcontract due to the receipt of another CAS-covered contract or subcontract; or

(2) A prospective change to a disclosed or established cost accounting practice when the CFAO determines that the former practice was in compliance with applicable CAS and the change is necessary for the contractor to remain in compliance.

Unilateral change means a change in cost accounting practice from one compliant practice to another compliant practice that a contractor with a CAS-covered contract(s) or subcontract(s) elects to make that has not been deemed a desirable change by the CFAO and for which the Government will pay no aggregate increased costs.

Subpart 30.1 - General

30.101 Cost Accounting Standards.

(a) 41 U.S.C. chapter 15, Cost Accounting Standards, requires certain contractors and subcontractors to comply with Cost Accounting Standards (CAS) and to disclose in writing and follow consistently their cost accounting practices.

(b) Contracts that refer to part 30 for the purpose of applying the policies, procedures, standards, and regulations promulgated by the CASB pursuant to 41 U.S.C. chapter 15, must be deemed to refer to the CAS, and any other regulations promulgated by the CASB (see 48 CFR chapter 99, https://www.ecfr.gov/current/title-48/chapter-99), all of which are hereby incorporated in this part 30.

(c) (1) See 48 CFR 9903.201-7 for cognizant Federal agency responsibilities.

(2) The CFAO is responsible for issuing determinations of adequacy and compliance of the Disclosure Statement

(d) (1) See 48 CFR 9903.202-1 to 9903.202-7 for disclosure requirements.

(2) The cognizant auditor is responsible for conducting reviews of Disclosure Statements for adequacy and compliance.

(e) See 48 CFR 9903.3 for CAS rules and regulations.

(f) See 48 CFR 9904 for cost accounting standards.

(g) See 48 CFR 9905 for cost accounting standards for educational institutions.

Subpart 30.2 - Presolicitation

30.201 Applicability.

During acquisition planning the contracting officer must determine if the contract will be a CAS covered contract.

(a) Rules for determining applicability of CAS are found at 48 CFR 9903.201-1.

(b) CAS-covered contracts may be subject to either full or modified coverage. See 48 CFR 9903.201-2 for guidance on determining whether full or modified coverage applies.

(c) Negotiated contracts must be subject to CAS, unless exempt in accordance with 48 CFR 9903.201-1(b).

(d) In accordance with 41 U.S.C. 1502(b)(1)(B), the threshold for determining the tentative applicability of CAS at the contract level is the amount set forth in 10 U.S.C. 3702(a)(1)(A), as adjusted for inflation in accordance with 41 U.S.C. 1908. (See 48 CFR 9903.201-1)

30.202 Waiver.

(a) The head of the agency-

(1) May waive the applicability of CAS for a particular contract or subcontract under the conditions listed in paragraph (b) below; and

(2) Must not delegate this waiver authority to any official in the agency below the senior contract policymaking level.

(b) The head of the agency may grant a waiver when one of the following conditions exists:

(1) The contract or subcontract value is less than 15 million, and the head of the agency determines, in writing, that the segment of the contractor or subcontractor that will perform the contract or subcontract-

(i) Is primarily engaged in the sale of commercial products or commercial services; and

(ii) Has no contracts or subcontracts that are subject to CAS.

(2) The head of the agency determines that exceptional circumstances exist whereby a waiver of CAS is necessary to meet the needs of the agency. Exceptional circumstances exist only when the benefits to be derived from waiving the CAS outweigh the risk associated with the waiver. The determination that exceptional circumstances exist must-

(i) Be in writing; and

(ii) Include a statement of the specific circumstances that justify granting the waiver.

(c) When one of the conditions in paragraph (b) of this section exists, the request for waiver must include the following:

(1) The amount of the proposed award.

(2) The contract or subcontract type.

(3) Whether the segment(s) that will perform the contract or subcontract has CAS-covered contracts or subcontracts.

(4) A description of the item(s) being procured.

(5) A statement why the contractor or subcontractor will not accept the contract or subcontract if CAS applies.

(6) Whether certified cost or pricing data will be obtained, and if so, a discussion of how the data will be used in negotiating the contract or subcontract price.

(7) The benefits to the Government of waiving CAS.

(8) The potential risk to the Government of waiving CAS.

(9) The date by which the waiver is needed.

(10) Any other information that may be useful in evaluating the request.

(d) When neither of the conditions in paragraph (b) of this section exists, the waiver request must be prepared in accordance with 48 CFR 9903.201-5(e) and submitted to the CAS Board.

(e) Each agency must report any waivers granted under paragraph (a) of this subsection to the CAS Board, on a fiscal year basis, not later than 90 days after the close of the Government's fiscal year.

30.203 Exemption.

This part does not apply to sealed bid contracts or to contracts with a small business concern (see 48 CFR 9903.201-1(b) for these and other exemptions).

30.204 Solicitation provisions.

(a) Insert the provision at 52.230-1, Cost Accounting Standards Notices and Certification, in solicitations for proposed contracts subject to CAS as specified in 48 CFR 9903.201.

(b) Insert the provision at 52.230-7, Proposal Disclosure—Cost Accounting Practice Changes, in solicitations for contracts subject to CAS as specified in 48 CFR 9903.201.

30.205 Contract clauses.

(a) *Cost Accounting Standards*.

(1) Insert the clause at 52.230-2, Cost Accounting Standards, in negotiated contracts, unless the contract is exempted (see 48 CFR 9903.201-1), the contract is subject to modified coverage (see 48 CFR 9903.201-2), or the clause prescribed in paragraph (c) of this subsection is used.

(2) The clause at 52.230-2 requires the contractor to comply with all CAS specified in 48 CFR part 9904, to disclose actual cost accounting practices (applicable to CAS-covered contracts only), and to follow disclosed and established cost accounting practices consistently.

(b) *Disclosure and consistency of cost accounting practices*.

(1) Insert the clause at 52.230-3, Disclosure and Consistency of Cost Accounting Practices, in negotiated contracts when the contract amount is over $2.5 million but less than $50 million, and the offeror certifies it is eligible for and elects to use modified CAS coverage (see 48 CFR 9903.201-2), unless the clause prescribed in paragraph (c) of this subsection is used.

(2) The clause at 52.230-3 requires the contractor to comply with 48 CFR 9904.401, 9904.402, 9904.405, and 9904.406 to disclose (if it meets certain requirements) actual cost accounting practices, and to follow consistently its established cost accounting practices.

(c) *Disclosure and Consistency of Cost Accounting Practices—Foreign Concerns*.

(1) Insert the clause at 52.230-4, Disclosure and Consistency of Cost Accounting Practices—Foreign Concerns, in negotiated contracts with foreign concerns, unless the contract is otherwise exempt from CAS (see 48 CFR 9903.201-1). Foreign concerns do not include foreign governments or their agents or instrumentalities.

(2) The clause at 52.230-4 requires the contractor to comply with 48 CFR 9904.401 and 48 CFR 9904.402 to disclose (if it meets certain requirements) actual cost accounting practices, and to follow consistently its disclosed and established cost accounting practices.

(d) *Administration of Cost Accounting Standards*.

(1) Insert the clause at 52.230-6, Administration of Cost Accounting Standards, in contracts containing any of the clauses prescribed in paragraphs (a), (b), (c), or (e) of this subsection.

(2) The clause at 52.230-6 specifies rules for administering CAS requirements and procedures to be followed in cases of failure to comply.

(e) *Cost Accounting Standards—Educational Institutions*.

(1) Insert the clause at 52.230-5, Cost Accounting Standards—Educational Institution, in negotiated contracts awarded to educational institutions, unless the contract is exempted (see 48 CFR 9903.201-1), the contract is to be performed by an FFRDC (see 48 CFR 9903.201-2(c)(5)), or the provision at 48 CFR 9903.201-2(c)(6) applies.

(2) The clause at 52.230-5 requires the educational institution to comply with all CAS specified in 48 CFR part 9905, to disclose actual cost accounting practices as required by 48 CFR 9903.202-1(f), and to follow disclosed and established cost accounting practices consistently.

Subpart 30.3 - Evaluation and Award

30.301 Contractor disclosure statements.

Prior to awarding a CAS covered contract, the contracting officer must—

(a) Ensure that the offeror has made the required solicitation certifications and that the required Disclosure Statements are submitted (also see 48 CFR 9903.201-3 and 9903.202); and

(b) Have received from the CFAO a written determination that the submitted Disclosure Statement is adequate, subject to the exception below.

(1) In order to protect the Government's interest, the head of the agency, without power of delegation, may authorize proceeding with award prior to receiving submission of the required Disclosure Statement (see 48 CFR 9903.202-2).

(2) In this event, the contracting officer must ensure the contractor submits the required Disclosure Statement and the CFAO must make a determination of adequacy as soon as possible after the award.

30.302 Changes to disclosed or established cost accounting practices.

30.302-1 Required changes.

(a) *General*. Offerors must state whether or not the award of a contract would require a change to an established cost accounting practice affecting existing contracts and subcontracts (see 52.230-1). The contracting officer must notify the CFAO if the offeror states that a change in cost accounting practice would be required.

(b) *CFAO responsibilities*. Prior to making an equitable adjustment under the applicable paragraph(s) that address a required change at 52.230-2, Cost Accounting Standards; 52.230-3, Disclosure and Consistency of Cost Accounting Practices; or 52.230-5, Cost Accounting Standards—Educational Institution, the CFAO must determine that—

(1) The cost accounting practice change is required to comply with a CAS, or a modification or interpretation thereof, that subsequently became applicable to one or more contracts or subcontracts; or

(2) The former cost accounting practice was in compliance with applicable CAS and the change is necessary to remain in compliance.

(c) *Notice and proposal preparation*.

(1) When the award of a contract would require a change to an established cost accounting practice, the provision at 52.230-7, Proposal Disclosure—Cost Accounting Practice Changes, requires the offeror to—

(i) Prepare the contract pricing proposal in response to the solicitation using the changed cost accounting practice for the period of performance for which the practice will be used; and

(ii) Submit a description of the changed cost accounting practice to the contracting officer and the CFAO as pricing support for the proposal.

(2) When a change is required to remain in compliance (for reasons other than a contract award) or to comply with a new or modified standard, the clause at 52.230-6, Administration of Cost Accounting Standards, requires the contractor to—

(i) Submit a description of the change to the CFAO not less than 60 days (or other mutually agreeable date) before implementation of the change; and

(ii) Submit rationale to support any contractor written statement that the cost impact of the change is immaterial.

(d) *Equitable adjustments for new or modified standards*.

(1) Required changes made to comply with new or modified standards may require equitable adjustments, but only to those contracts awarded before the effective date of the new or modified standard (see 52.230-2, 52.230-3, or 52.230-5).

(2) When a contractor elects to implement a required change to comply with a new or modified standard prior to the applicability date of the standard, the CFAO must administer the change as a unilateral change (see 30.302-2). Contractors must not receive an equitable adjustment that will result in increased costs in the aggregate to the Government prior to the applicability date unless the CFAO determines that the unilateral change is a desirable change.

30.302-2 Unilateral and desirable changes.

(a) *Unilateral changes*.

(1) The contractor may unilaterally change its disclosed or established cost accounting practices, but the Government must not pay any increased cost, in the aggregate, as a result of the unilateral change.

(2) Prior to making any contract price or cost adjustments under the applicable paragraph(s) addressing a unilateral change at 52.230-2, 52.230-3, or 52.230-5, the CFAO must determine that—

(i) The contemplated contract price or cost adjustments will protect the Government from the payment of the estimated increased costs, in the aggregate; and

(ii) The net effect of the contemplated adjustments will not result in the recovery of more than the increased costs to the Government, in the aggregate.

(b) *Desirable changes*.

(1) Prior to taking action under the applicable paragraph(s) addressing a desirable change at 52.230-2, 52.230-3, or 52.230-5, the CFAO must determine the change is a desirable change and not detrimental to the interests of the Government.

(2) Until the CFAO has determined a change to a cost accounting practice is a desirable change, the change is a unilateral change.

(3) Some factors to consider in determining if a change is desirable include, but are not limited to, whether—

(i) The contractor must change the cost accounting practices it uses for Government contract and subcontract costing purposes to remain in compliance with the provisions of part 31;

(ii) The contractor is initiating management actions directly associated with the change that will result in cost savings for segments with CAS-covered contracts and subcontracts over a period for which forward pricing rates are developed or 5 years, whichever is shorter, and the cost savings are reflected in the forward pricing rates; and

(iii) Funds are available if the determination would necessitate an upward adjustment of contract cost or price.

(c) *Notice and proposal preparation*.

(1) When a contractor makes a unilateral change, the clause at 52.230-6, Administration of Cost Accounting Standards, requires the contractor to—

(i) Submit a description of the change to the CFAO not less than 60 days (or other mutually agreeable date) before implementation of the change; and

(ii) Submit rationale to support any contractor written statement that the cost impact of the change is immaterial.

(2) If a contractor implements the change in cost accounting practice without submitting the notice as required in paragraph (c)(1) of this subsection, the CFAO may determine the change a failure to follow a cost accounting practice consistently and process it as a noncompliance in accordance with 30.404.

(d) *Retroactive changes*.

(1) If a contractor requests that a unilateral change be retroactive, the contractor must submit supporting rationale.

(2) The CFAO must promptly evaluate the contractor's request and must, as soon as practical, notify the contractor in writing whether the request is or is not approved.

(3) The CFAO must not approve a date for the retroactive change that is before the beginning of the contractor's fiscal year in which the request is made.

(e) Contractor accounting changes due to external restructuring activities. The requirements for contract price and cost adjustments do not apply to compliant cost accounting practice changes that are directly associated with external restructuring activities that are subject to and meet the requirements of 10 U.S.C. 3761. However, the disclosure requirements in 52.230-6(b) must be followed.

30.302-3 Processing changes to disclosed or established cost accounting practices.

(a) Scope. This section applies to required, unilateral, and desirable changes in cost accounting practices.

(b) Procedures. Upon receipt of the contractor's notification and description of the change in cost accounting practice, the CFAO should review the proposed change concurrently for adequacy and compliance. The CFAO must—

(1) If the description of the change is both adequate and compliant, notify the contractor in writing and—

(i) For required or unilateral changes (except those requested to be determined desirable changes), request the contractor submit a general dollar magnitude (GDM) proposal by a specified date, unless the CFAO determines the cost impact is immaterial; or

(ii) For unilateral changes that the contractor requests to be determined desirable changes, inform the contractor that the request must include supporting rationale and—

(A) For any request based on the criteria in 30.302-2(b)(3)(ii), the data necessary to demonstrate the required cost savings; or

(B) For any request other than those based on the criteria in 30.302-2(b)(3)(ii), a GDM proposal and any other data necessary for the CFAO to determine if the change is a desirable change.

(2) If the description of the change is inadequate, request a revised description of the new cost accounting practice; and

(3) If the disclosed practice is noncompliant, notify the contractor in writing that, if implemented, the CFAO will determine the cost accounting practice to be noncompliant and process it accordingly.

(c) *Evaluating requests for desirable changes*.

(1) When a contractor requests a unilateral change be determined a desirable change, the CFAO must promptly evaluate the contractor's request and, as soon as practical, notify the contractor in writing whether the change is a desirable change or the request is denied.

(2) If the CFAO determines the change is a desirable change, the CFAO must negotiate any cost or price adjustments that may be needed to resolve the cost impact (see 30.405).

(3) If the request is denied, the change is a unilateral change and must be processed accordingly.

This page intentionally left blank.

Subpart 30.4 - Postaward

30.401 CAS administration.

(a) The CFAO must perform CAS administration for all contracts and subcontracts in a business unit, even when the contracting officer retains other administration functions. The CFAO must make all CAS-related required determinations and findings for all CAS-covered contracts and subcontracts, including—

(1) Whether a change in cost accounting practice or noncompliance has occurred; and

(2) If a change in cost accounting practice or noncompliance has occurred, how any resulting cost impacts are resolved.

(b) Within 30 days after the award of any new contract subject to CAS, the contracting officer making the award must request the CFAO to perform administration for CAS matters (see subpart 42). For subcontract awards, the contractor awarding the subcontract must follow the procedures at 52.230-6(l), (m), and (n).

(c) In performing CAS administration, the CFAO must request and consider the advice of the auditor as appropriate.

30.402 Materiality.

(a) In determining materiality, the CFAO must use the criteria in 48 CFR 9903.305.

(b) A CFAO determination of materiality—

(1) May be made before or after a general dollar magnitude proposal has been submitted, depending on the particular facts and circumstances; and

(2) Shall be based on adequate documentation.

(c) When the CFAO determines the cost impact is immaterial, the CFAO shall-

(1) Make no contract adjustments and conclude the cost impact process;

(2) Document the rationale for the determination; and

(3) In the case of noncompliance issues, inform the contractor that—

(i) The noncompliance should be corrected; and

(ii) If the noncompliance is not corrected, the Government reserves the right to make appropriate contract adjustments should the cost impact become material in the future.

(d) For required, unilateral, and desirable changes, and CAS noncompliances, when the amount involved is material, the CFAO must follow the applicable provisions in this part.

30.403 Changes to disclosed or established cost accounting practices.

(a) See subpart 30.3 above for required, unilateral, and desirable changes.

(b) *GDM proposal*.

(1) The GDM proposal—

(i) Provides information to the CFAO on the estimated overall impact of a change in cost accounting practice on affected CAS-covered contracts and subcontracts that were awarded based on the previous cost accounting practice;

(ii) Assists the CFAO in determining whether individual contract price or cost adjustments are required;

(iii) The contractor may submit a detailed cost-impact (DCI) proposal in lieu of a GDM proposal provided the DCI proposal is in accordance with paragraph (d) of this section;

(iv) Must calculate the cost impact in accordance with paragraph (e) of this section;

(v) May use one or more of the following methods to determine the increase or decrease in cost accumulations:

(A) A representative sample of affected CAS-covered contracts and subcontracts.

(B) The change in indirect rates multiplied by the total estimated base computed for each of the following groups:

(1) Fixed-price contracts and subcontracts.

(2) Flexibly-priced contracts and subcontracts.

(C) Any other method that provides a reasonable approximation of the total increase or decrease in cost accumulations for all affected fixed-price and flexibly-priced contracts and subcontracts.

(vi) May be in any format acceptable to the CFAO but, as a minimum, must include the following data: and

(A) A GDM estimate of the total increase or decrease in cost accumulations by Executive agency, including any impact the change may have on contract and subcontract incentives, fees, and profits, for each of the following groups:

(1) Fixed-price contracts and subcontracts.

(2) Flexibly-priced contracts and subcontracts.

(B) For unilateral changes, the increased or decreased costs to the Government for each of the following groups:

(1) Fixed-price contracts and subcontracts.

(2) Flexibly-priced contracts and subcontracts.

(vii) When requested by the CFAO, must identify all affected CAS-covered contracts and subcontracts.

(c) *GDM proposal evaluation*. The CFAO must promptly evaluate the GDM proposal. If the cost impact is immaterial, the CFAO must notify the contractor in writing and conclude the cost-impact process with no contract adjustments. Otherwise, the CFAO must—

(1) Negotiate and resolve the cost impact (see 30.405). If necessary, the CFAO may request that the contractor submit a revised GDM proposal by a specified date with specific additional data needed to resolve the cost impact; or

(2) Request that the contractor submit a DCI proposal by a specified date if the CFAO determines that the GDM proposal is not sufficient to resolve the cost impact.

(d) Detailed cost-impact proposal. If the contractor is required to submit a DCI proposal, the CFAO must promptly evaluate the DCI proposal and follow the procedures at 30.405 to negotiate and resolve the cost impact. The DCI proposal—

(1) Must calculate the cost impact in accordance with paragraph (e) of this section;

(2) Must show the estimated increase or decrease in cost accumulations for each affected CAS-covered contract and subcontract unless the CFAO and contractor agree to—

(i) Include only those affected CAS-covered contracts and subcontracts exceeding a specified amount; and

(ii) Estimate the total increase or decrease in cost accumulations for all affected CAS-covered contracts and subcontracts.

(3) May be in any format acceptable to the CFAO but, as a minimum, must include the requirements at paragraphs (b)(1)(vi) of this section; and

(4) When requested by the CFAO, must identify all affected contracts and subcontracts.

(e) Calculating cost impacts. The cost impact calculation must—

(1) Include all affected CAS-covered contracts and subcontracts regardless of their status or the fiscal year(s) in which the costs are incurred;

(2) Combine the cost impact for all affected CAS-covered contracts and subcontracts for all segments if the effect of a change results in costs flowing between those segments;

(3) For unilateral changes—

(i) Determine the increased or decreased cost to the Government for flexibly-priced contracts and subcontracts as follows:

(A) When the estimated cost to complete using the changed practice exceeds the estimated cost to complete using the current practice, the difference is increased cost to the Government.

(B) When the estimated costs to complete using the changed practice is less than the estimated cost to complete using the current practice, the difference is decreased cost to the Government.

(ii) Determine the increased or decreased cost to the Government for fixed-price contracts and subcontracts as follows:

(A) When the estimated cost to complete using the changed practice is less than the estimated cost to complete using the current practice, the difference is increased cost to the Government.

(B) When the estimated cost to complete using the changed practice exceeds the estimated cost to complete using the current practice, the difference is decreased cost to the Government.

(iii) Calculate the total increase or decrease in contract and subcontract incentives, fees, and profits associated with the increased or decreased cost to the Government in accordance with 48 CFR 9903.306(c). The associated increase or decrease is based on the difference between the negotiated incentives, fees, and profits and the amounts that would have been negotiated had the cost impact been known at the time the contracts and subcontracts were negotiated; and

(iv) Calculate the increased cost to the Government in the aggregate.

(4) For required or desirable changes, negotiate an equitable adjustment as provided in the Changes clause of the contract.

(f) Remedies. If the contractor does not submit the accounting change description or the proposals required in paragraph (b) or (d) of this section within the specified time, or any extension granted by the CFAO, the CFAO must—

(1) Estimate the GDM of the cost impact on affected CAS-covered contracts and subcontracts; and

(2) Take one or both of the following actions:

(i) Withhold an amount not to exceed 10 percent of each subsequent payment related to the contractor's CAS-covered contracts (up to the estimated GDM of the cost impact), until the contractor furnishes the required information.

(ii) Issue a final decision in accordance with part 33 and unilaterally adjust the contract(s) by the estimated amount of the cost impact.

30.404 Processing noncompliances.

(a) *General.* Prior to making any contract price or cost adjustments under the applicable paragraph(s) addressing noncompliance at 52.230-2, 52.230-3, or 52.230-5, the CFAO must determine that—

(1) The contemplated contract price or cost adjustments will protect the Government from the payment of increased costs, in the aggregate;

(2) The net effect of the contemplated contract price or cost adjustments will not result in the recovery of more than the increased costs to the Government, in the aggregate;

(3) The net effect of any invoice adjustments made to correct an estimating noncompliance will not result in the recovery of more than the increased costs paid by the Government, in the aggregate; and

(4) The net effect of any interim and final voucher billing adjustments made to correct a cost accumulation noncompliance will not result in the recovery of more than the increased cost paid by the Government, in the aggregate.

(b) Notice and determination. (1) Within 15 days of receiving a report of alleged noncompliance from the auditor, the CFAO must—

(i) Notify the auditor that the CFAO disagrees with the alleged noncompliance; or

(ii) Issue a notice of potential noncompliance to the contractor and provide a copy to the auditor.

(2) The notice of potential noncompliance must—

(i) Notify the contractor in writing of the exact nature of the noncompliance; and

(ii) Allow the contractor 60 days or other mutually agreeable date to-

(A) Agree or submit reasons why the contractor considers the existing practices to be in compliance; and

(B) Submit rationale to support any written statement that the cost impact of the noncompliance is immaterial.

(3) The CFAO must—

(i) If applicable, review the reasons why the contractor considers the existing practices to be compliant or the cost impact to be immaterial;

(ii) Make a determination of compliance or noncompliance consistent with part 1; and

(iii) Notify the contractor and the auditor in writing of the determination of compliance or noncompliance and the basis for the determination.

(4) If the CFAO makes a determination of noncompliance, the CFAO must follow the procedures in paragraphs (c) through (h) of this section, as appropriate, unless the CFAO also determines the cost impact is immaterial. If immaterial, the CFAO must—

(i) Inform the contractor in writing that-

(A) The noncompliance should be corrected; and

(B) If the noncompliance is not corrected, the Government reserves the right to make appropriate contract adjustments should the noncompliance become material in the future; and

(ii) Conclude the cost-impact process with no contract adjustments.

(c) Correcting noncompliances. (1) The clause at 52.230-6 requires the contractor to submit a description of any cost accounting practice change needed to correct a noncompliance within 60 days after the earlier of-

(i) Agreement with the CFAO that there is a noncompliance; or

(ii) Notification by the CFAO of a determination of noncompliance.

(2) The CFAO should review the proposed change to correct the noncompliance concurrently for adequacy and compliance. The CFAO must—

(i) When the description of the change is both adequate and compliant-

(A) Notify the contractor in writing;

(B) Request that the contractor submit by a specified date a GDM proposal, unless the CFAO determines the cost impact is immaterial; and

(C) Follow the procedures at paragraph (b)(4) of this section if the CFAO determines the cost impact is immaterial.

(ii) If the description of the change is inadequate, request a revised description of the new cost accounting practice; or

(iii) If the disclosed practice is noncompliant, notify the contractor in writing that, if implemented, the CFAO will determine the cost accounting practice to be noncompliant and process it accordingly.

(d) *GDM proposal content*. The GDM proposal-

(1) Must calculate the cost impact in accordance with paragraph (h) of this section;

(2) May use one or more of the following methods to determine the increase or decrease in contract and subcontract price or cost accumulations, as applicable:

(i) A representative sample of affected CAS-covered contracts and subcontracts affected by the noncompliance.

(ii) When the noncompliance involves cost accumulation, the change in indirect rates multiplied by the applicable base for flexibly-priced contracts and subcontracts.

(iii) Any other method that provides a reasonable approximation of the total increase or decrease in contract and subcontract prices and cost accumulations.

(3) The contractor may submit a DCI proposal in lieu of a GDM proposal provided the DCI proposal is in accordance with paragraph (f) of this section;

(4) May be in any format acceptable to the CFAO but, as a minimum, must include the following data: and

(i) The total increase or decrease in contract and subcontract prices and cost accumulations, as applicable, by Executive agency, including any impact the noncompliance may have on contract and subcontract incentives, fees, and profits, for each of the following groups:

(A) Fixed-price contracts and subcontracts.

(B) Flexibly-priced contracts and subcontracts.

(ii) The increased or decreased costs to the Government for each of the following groups:

(A) Fixed-price contracts and subcontracts.

(B) Flexibly-priced contracts and subcontracts.

(iii) The total overpayments and underpayments for fixed-price and flexibly-priced contracts made by the Government during the period of noncompliance.

(5) When requested by the CFAO, must identify all affected CAS-covered contracts and subcontracts.

(e) *GDM proposal evaluation.* The CFAO must promptly evaluate the GDM proposal. If the cost impact is immaterial, the CFAO must follow the requirements in paragraph (b)(4) of this section. Otherwise, the CFAO must—

(1) Negotiate and resolve the cost impact (see 30.405). If necessary, the CFAO may request the contractor submit a revised GDM proposal by a specified date, with specific additional data needed to resolve the cost impact; or

(2) Request that the contractor submit a DCI proposal by a specified date if the CFAO determines that the GDM proposal is not sufficient to resolve the cost impact.

(f) *Detailed cost-impact proposal.* If the contractor is required to submit a DCI proposal, the CFAO must promptly evaluate the DCI proposal and follow the procedures at 30.405 to negotiate and resolve the cost impact. The DCI proposal—

(1) Must calculate the cost impact in accordance with paragraph (h) of this section; and

(2) Must show the increase or decrease in price and cost accumulations, as applicable for each affected CAS-covered contract and subcontract unless the CFAO and contractor agree to—

(i) Include only those affected CAS-covered contracts and subcontracts having-

(A) Contract and subcontract values exceeding a specified amount when the noncompliance involves estimating costs; and

(B) Incurred costs exceeding a specified amount when the noncompliance involves accumulating costs; and

(ii) Estimate the total increase or decrease in price and cost accumulations for all affected CAS-covered contracts and subcontracts using the results in paragraph (f)(2)(i) of this section;

(3) May be in any format acceptable to the CFAO but, at a minimum, must include the information in paragraph (d)(4) of this section; and

(4) When requested by the CFAO, must identify all affected CAS-covered contracts and subcontracts.

(g) *Interest.* The CFAO must—

(1) Separately identify interest on any increased cost paid, in the aggregate, as a result of the noncompliance;

(2) Compute interest from the date of overpayment to the date of repayment using the rate specified in 26 U.S.C. 6621(a)(2).

(h) *Calculating cost impacts.* The cost impact calculation must—

(1) Include all affected CAS-covered contracts and subcontracts regardless of their status or the fiscal year in which the costs are incurred;

(2) Combine the cost impact for all affected CAS-covered contracts and subcontracts for all segments if the effect of a change results in costs flowing between those segments;

(3) For noncompliances that involve estimating costs, determine the increased or decreased cost to the Government for fixed-price contracts and subcontracts as follows:

(i) When the negotiated contract or subcontract price exceeds what the negotiated price would have been had the contractor used a compliant practice, the difference is increased cost to the Government.

(ii) When the negotiated contract or subcontract price is less than what the negotiated price would have been had the contractor used a compliant practice, the difference is decreased cost to the Government.

(4) For noncompliances that involve accumulating costs, determine the increased or decreased cost to the Government for flexibly-priced contracts and subcontracts as follows:

(i) Determine when the noncompliant practice was first implemented.

(ii) Determine when the noncompliant practice was replaced with a compliant practice.

(iii) Calculate the cost using the compliant practice for the same time period.

(iv) Calculate the difference between the noncompliant practice costs and the calculated compliant practice costs.

(5) Calculate the total increase or decrease in contract and subcontract incentives, fees, and profits associated with the increased or decreased costs to the Government in accordance with 48 CFR 9903.306(c). The associated increase or decrease is based on the difference between the negotiated incentives, fees, and profits and the amounts that would have been negotiated had the contractor used a compliant practice;

(6) Determine the cost impact of each noncompliance that affects both cost estimating and cost accumulation by combining the cost impacts in paragraphs (h)(3), (h)(4), and (h)(5) of this section;

(7) Calculate the increased cost to the Government in the aggregate; and

(8) If the contractor does not correct the noncompliance or submit the proposal required in paragraph (d) or (f) of this section within the specified time, or any extension granted by the CFAO, the CFAO must follow the procedures at section 30.302-3.

30.405 Resolving cost impacts.

(a) General. (1) The CFAO must coordinate with the affected contracting officers before negotiating and resolving the cost impact when the estimated cost impact is at least $100,000. The CFAO has the sole authority for negotiating and resolving the cost impact.

(2) The CFAO may resolve a cost impact attributed to a change in cost accounting practice or a noncompliance by adjusting a contract, some contracts, all contracts, or by any other allowed method.

(3) In resolving the cost impact, the CFAO—

(i) Must not combine the cost impacts of any of the following:

(A) A required change and a unilateral change.

(B) A required change and a noncompliance.

(C) A desirable change and a unilateral change.

(D) A desirable change and a noncompliance.

(ii) Must not combine the cost impacts of any of the following unless all of the cost impacts are increased costs to Government:

(A) One or more unilateral changes.

(B) One or more noncompliances.

(C) Unilateral changes and noncompliances.

(iii) May consider the cost impacts of a unilateral change affecting two or more segments to be a single change if—

(A) The change affects the flow of costs between segments; or

(B) It implements a common cost accounting practice for two or more segments.

(4) For desirable changes, the CFAO should consider the estimated cost impact of associated management actions on contract costs in resolving the cost impact.

(b) *Negotiations.* The CFAO must—

(1) Negotiate and resolve the cost impact on behalf of all Government agencies; and

(2) At the conclusion of negotiations, prepare a negotiation memorandum and send copies to the auditor and affected contracting officers.

(c) *Contract adjustments.* (1) The CFAO may adjust some or all contracts with a material cost impact, subject to the provisions in paragraphs (c)(2) through (c)(6) of this section.

(2) In selecting the contract or contracts to be adjusted, the CFAO should assure, to the maximum extent practical and subject to the provisions in paragraphs (c)(3) through (c)(6) of this section, that the adjustments reflect a *pro rata* share of the cost impact based on the ratio of the cost impact of each Executive agency to the total cost impact.

(3) For unilateral changes and noncompliances, the CFAO must—

(i) To the maximum extent practical, not adjust the price upward for fixed-price contracts;

(ii) If contract adjustments are made, prevent payment of aggregate increased costs by taking one or both of the following actions:

(A) Reduce the contract price on fixed-price contracts.

(B) Disallow costs on flexibly-priced contracts.

(iii) The CFAO may, after coordination with the affected contracting officers, increase or decrease individual contract prices, including contract cost ceilings or target costs on flexibly-priced contracts. In such cases, the CFAO must limit any upward contract price adjustments on affected contracts to the amount of downward price adjustments to other affected contracts (48 CFR 9903.201-6(b)).

(4) For noncompliances that involve estimating costs, the CFAO-

(i) Must, to the maximum extent practical, not adjust the price upward for fixed-price contracts;

(ii) Must, if contract adjustments are made, prevent payment of aggregate increased costs by reducing the contract price on fixed-price contracts;

(iii) May, after coordination with the affected contracting officers, increase or decrease individual contract prices, including cost ceilings or target costs on flexibly-priced contracts. In such cases, the CFAO must limit any upward contract price adjustments to affected contracts to the amount of downward price adjustments to other affected contracts, (48 CFR 9903.201-6(d));

(iv) Must require the contractor to correct the noncompliance, i.e., ensure that compliant cost accounting practices will now be utilized to estimate proposed contract costs; and

(v) Must require the contractor to adjust any invoices that were paid based on noncompliant contract prices to reflect the adjusted contract prices, after any contract price adjustments are made to resolve the noncompliance.

(5) For noncompliances that involve cost accumulation, the CFAO-

(i) Must require the contractor to—

(A) Correct noncompliant contract cost accumulations in the contractor's cost accounting records for affected contracts to reflect compliant contract cost accumulations; and

(B) Adjust interim payment requests and final vouchers to reflect the difference between the costs paid using the noncompliant practice and the costs that should have been paid using the compliant practice.

(ii) Must adjust contract prices. In adjusting contract prices, the CFAO must prevent payment of aggregate increased costs by disallowing costs on flexibly-priced contracts.

(A) The CFAO may, after coordination with the affected contracting officers, increase or decrease individual contract prices, including cost ceilings or target costs on flexibly-priced contracts. In such cases, the CFAO must limit any upward contract price adjustments to affected contracts to the amount of downward price adjustments to other affected contracts (48 CFR 9903.201-6(d)).

(B) Must require the contractor to—

(1) Correct contract cost accumulations in the contractor's cost accounting records to reflect the contract price adjustments; and

(2) Adjust interim payment requests and final vouchers to reflect the contract price adjustments.

(6) When contract adjustments are made, the CFAO must—

(i) Execute the bilateral modifications if the CFAO and contractor agree on the amount of the cost impact and the adjustments (see part 42); or

(ii) When the CFAO and contractor do not agree on the amount of the cost impact or the contract adjustments, issue a final decision in accordance with part 33 and unilaterally adjust the contract(s).

(d) *Alternate methods*. (1) The CFAO may use an alternate method instead of adjusting contracts to resolve the cost impact if the Government and contractor agree on the use of an alternate method.

(2) The CFAO may not use an alternate method when application of the alternate method would result in—

(i) The Government paying more, in the aggregate, than would be paid if the CFAO did not use the alternate method;

(ii) An under recovery of monies by the Government; or

(iii) Distortions of incentive provisions and relationships between target costs, ceiling costs, and actual costs for incentive type contracts.

(3) When using an alternate method that excludes the costs from an indirect cost pool, the CFAO must—

(i) Apply such exclusion only to the determination of final indirect cost rates (see part 42); and

(ii) Adjust the exclusion to reflect the Government participation rate for flexibly-priced contracts and subcontracts.

30.406 Subcontract administration.

When a negotiated CAS price adjustment or a determination of noncompliance is required at the subcontract level, the CFAO for the subcontractor must furnish a copy of the negotiation memorandum or the determination to the CFAO for the contractor of the next higher-tier subcontractor. The CFAO of the contractor or the next higher-tier subcontractor is not permitted to change such negotiation memorandum or determination. If the subcontractor refuses to submit a GDM or DCI proposal, contract remedies are made at the prime contractor level.

This page intentionally left blank.

PART 31 - CONTRACT COST PRINCIPLES AND PROCEDURES

31.000 Scope of part.

This part contains cost principles and procedures for—

(a) The pricing of contracts, subcontracts, and modifications to contracts and subcontracts whenever cost analysis is performed (see 15.404-1(c)); and

(b) The determination, negotiation, or allowance of costs when required by a contract clause.

31.001 Applicability.

The cost principles and procedures in this part apply to contracts with—

(a) Commercial organizations;

(b) Educational institutions;

(c) Construction and architect-engineering;

(d) State, local, and federally recognized Indian tribal governments; and

(e) Nonprofit organizations.

31.002 Definitions.

As used in this part—

Accrued benefit cost method means an actuarial cost method under which units of benefits are assigned to each cost accounting period and are valued as they accrue; i.e., based on the services performed by each employee in the period involved. The measure of normal cost under this method for each cost accounting period is the present value of the units of benefit deemed to be credited to employees for service in that period. The measure of the actuarial accrued liability at a plan's inception date is the present value of the units of benefit credited to employees for service prior to that date. (This method is also known as the unit credit cost method without salary projection.)

Actual costs means (except for subpart 31.6) amounts determined on the basis of costs incurred, as distinguished from forecasted costs. Actual costs include standard costs properly adjusted for applicable variances.

Actuarial accrued liability means pension cost attributable, under the actuarial cost method in use, to years prior to the current period considered by a particular actuarial valuation. As of such date, the actuarial accrued liability represents the excess of the present value of future benefits and administrative expenses over the present value of future normal costs for all plan participants and beneficiaries. The excess of the actuarial accrued liability over the actuarial value of the assets of a pension plan is the unfunded actuarial liability. The excess of the actuarial value of the assets of a pension plan over the actuarial accrued liability is an actuarial surplus and is treated as a negative unfunded actuarial liability.

Actuarial assumption means an estimate of future conditions affecting pension cost; *e.g.,* mortality rate, employee turnover, compensation levels, earnings on pension plan assets, and changes in values of pension plan assets.

Actuarial cost method means a technique which uses actuarial assumptions to measure the present value of future pension benefits and pension plan administrative expenses, and that assigns the cost of such benefits and expenses to cost accounting periods. The actuarial cost method includes the asset valuation method used to determine the actuarial value of the assets of a pension plan.

Actuarial gain and loss means the effect on pension cost resulting from differences between actuarial assumptions and actual experience.

Actuarial valuation means the determination, as of a specified date, of the normal cost, actuarial accrued liability, actuarial value of the assets of a pension plan, and other relevant values for the pension plan.

Allocate means to assign an item of cost, or a group of items of cost, to one or more cost objectives. This term includes both direct assignment of cost and the reassignment of a share from an indirect cost pool.

Compensation for personal services means all remuneration paid currently or accrued, in whatever form and whether paid immediately or deferred, for services rendered by employees to the contractor.

Cost input means the cost, except general and administrative (G&A) expenses, which for contract costing purposes is allocable to the production of goods and services during a cost accounting period.

Cost objective means (except for subpart 31.6) a function, organizational subdivision, contract, or other work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capitalized projects, etc.

Deferred compensation means an award made by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of the receipt of compensation by the employee. This definition must not include the amount of year end accruals for salaries, wages, or bonuses that are to be paid within a reasonable period of time after the end of a cost accounting period.

Defined-benefit pension plan means a pension plan in which the benefits to be paid, or the basis for determining such benefits, are established in advance and the contributions are intended to provide the stated benefits.

Defined-contribution pension plan means a pension plan in which the contributions to be made are established in advance and the benefits are determined thereby.

Directly associated cost means any cost which is generated solely as a result of the incurrence of another cost, and which would not have been incurred had the other cost not been incurred.

Estimating costs means the process of forecasting a future result in terms of cost, based upon information available at the time.

Expressly unallowable cost means a particular item or type of cost which, under the express provisions of an applicable law, regulation, or contract, is specifically named and stated to be unallowable.

Final cost objective means (except for subparts 31.3 and 31.6) a cost objective that has allocated to it both direct and indirect costs and, in the contractor's accumulation system, is one of the final accumulation points.

Fiscal year means the accounting period for which annual financial statements are regularly prepared, generally a period of 12 months, 52 weeks, or 53 weeks.

Funded in regard to a pension cost means the portion of pension cost for a current or prior cost accounting period that has been paid to a funding agency.

Home office means an office responsible for directing or managing two or more, but not necessarily all, segments of an organization. It typically establishes policy for, and provides guidance to, the segments in their operations. It usually performs management, supervisory, or administrative functions, and may also perform service functions in support of the operations of the various segments. An organization which has intermediate levels, such as groups, may have several home offices which report to a common home office. An intermediate organization may be both a segment and a home office.

Immediate-gain actuarial cost method means any of the several actuarial cost methods under which actuarial gains and losses are included as part of the unfunded actuarial liability of the pension plan, rather than as part of the normal cost of the plan.

Independent research and development (IR&D) cost means the cost of effort which is neither sponsored by a grant, nor required in performing a contract, and which falls within any of the following four areas:

(1) Basic research;

(2) Applied research;

(3) Development; and

(4) Systems and other concept formulation studies.

Indirect cost pools means (except for subparts 31.3 and 31.6) groupings of incurred costs identified with two or more cost objectives but not identified specifically with any final cost objective.

Insurance administration expenses means the contractor's costs of administering an insurance program; *e.g.,* the costs of operating an insurance or risk-management department, processing claims, actuarial fees, and service fees paid to insurance companies, trustees, or technical consultants.

Intangible capital asset means an asset that has no physical substance, has more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the benefits it yields.

Job means a homogeneous cluster of work tasks, the completion of which serves an enduring purpose for the organization. Taken as a whole, the collection of tasks, duties, and responsibilities constitutes the assignment for one or more individuals whose work is of the same nature and is performed at the same skill/responsibility level-as opposed to a position, which is a collection of tasks assigned to a specific individual. Within a job, there may be pay categories which are dependent on the degree of supervision required by the employee while performing assigned tasks which are performed by all persons with the same job.

Job class of employees means employees performing in positions within the same job.

Nonqualified pension plan means any pension plan other than a qualified pension plan as defined in this part.

Normal cost means the annual cost attributable, under the actuarial cost method in use, to current and future years as of a particular valuation date excluding any payment in respect of an unfunded actuarial liability.

Pay-as-you-go cost method means a method of recognizing pension cost only when benefits are paid to retired employees or their beneficiaries.

Pension plan means a deferred compensation plan established and maintained by one or more employers to provide systematically for the payment of benefits to plan participants after their retirements, provided that the benefits are paid for life or are payable for life at the option of the employees. Additional benefits such as permanent and total disability and death payments, and survivorship payments to beneficiaries of deceased employees, may be an integral part of a pension plan.

Pension plan participant means any employee or former employee of an employer or any member or former member of an employee organization, who is or may become eligible to receive a benefit from a pension plan which covers employees of such employer or members of such organization who have satisfied the plan's participation requirements, or whose beneficiaries are receiving or may be eligible to receive any such benefit. A participant whose employment status with the employer has not been terminated is an active participant of the employer's pension plan.

Profit center means (except for subparts 31.3 and 31.6) the smallest organizationally independent segment of a company charged by management with profit and loss responsibilities.

Projected benefit cost method means either-

(1) Any of the several actuarial cost methods that distribute the estimated total cost of all of the employees' prospective benefits over a period of years, usually their working careers; or

(2) A modification of the accrued benefit cost method that considers projected compensation levels.

Proposal means any offer or other submission used as a basis for pricing a contract, contract modification, or termination settlement or for securing payments thereunder.

Qualified pension plan means a pension plan comprising a definite written program communicated to and for the exclusive benefit of employees that meets the criteria deemed essential by the Internal Revenue Service as set forth in the Internal Revenue Code for preferential tax treatment regarding contributions, investments, and distributions. Any other plan is a nonqualified pension plan.

Self-insurance charge means a cost which represents the projected average loss under a self-insurance plan.

Service life means the period of usefulness of a tangible capital asset (or group of assets) to its current owner. The period may be expressed in units of time or output. The estimated service life of a tangible capital asset (or group of assets) is a current forecast of its service life and is the period over which depreciation cost is to be assigned.

Spread-gain actuarial cost method means any of the several projected benefit actuarial cost methods under which actuarial gains and losses are included as part of the current and future normal costs of the pension plan.

Standard cost means any cost computed with the use of preestablished measures.

Tangible capital asset means an asset that has physical substance, more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the services it yields.

Variance means the difference between a preestablished measure and an actual measure.

Welfare benefit fund means a trust or organization which receives and accumulates assets to be used either for the payment of postretirement benefits, or for the purchase of such benefits, provided such accumulated assets form a part of a postretirement benefit plan.

31.003 Availability of accounting guide.

Contractors needing assistance in developing or improving their accounting systems and procedures may request a copy of the Defense Contract Audit Agency Pamphlet No. 7641.90, Information for Contractors at http://www.dcaa.mil.

31.004 Deviations.

(a) *Civilian agencies*.

(1) Individual deviations from the cost principles in this part require approval by the agency head.

(2) Class deviations from the cost principles in this part require approval by the Civilian Agency Acquisition Council.

(b) *DoD and NASA*. See agency supplements for the approval of deviations from the cost principles in this part.

Subpart 31.1 - Applicability

31.100 Scope of subpart.

(a) This subpart describes the applicability of cost principles and procedures to various types of contracts and subcontracts and are grouped by organization type (e.g., commercial, nonprofit, and educational institutions).

(b) This subpart also describes advance agreements, the requirement for certification of indirect cost rates, and penalties on certain unallowable costs.

31.101 [Reserved]

31.102 Fixed-price contracts.

(a) The applicable subparts of part 31 must be used in the pricing of fixed-price contracts, subcontracts, and modifications to contracts and subcontracts whenever—

(1) Cost analysis is performed, or

(2) A fixed-price contract clause requires the determination or negotiation of costs.

(b) (1) The application of cost principles to fixed-price contracts and subcontracts must not be construed as a requirement to negotiate agreements on individual elements of cost in arriving at agreement on the total price.

(2) The final price accepted by the parties reflects agreement only on the total price.

31.103 Contracts with commercial organizations.

This category includes contracts, subcontracts, and modifications to contracts and subcontracts negotiated with organizations other than educational institutions (see 31.104), construction and architect-engineer contracts (see 31.105), State and local governments (see 31.107) and nonprofit organizations (see 31.108) on the basis of cost.

(a) The cost principles and procedures in subpart 31.2 must be used in pricing negotiated contracts and contract modifications with commercial organizations whenever cost analysis is performed as required by 15.404-1(c).

(b) The contracting officer must incorporate the cost principles and procedures in subpart 31.2 by reference in contracts with commercial organizations as the basis for—

(1) Determining reimbursable costs under—-

(i) Cost-reimbursement contracts and cost-reimbursement subcontracts under contracts performed by commercial organizations; and

(ii) The cost-reimbursement portion of time-and-materials contracts except when material is priced on a basis other than at cost (see 16.601(c)(3));

(2) Negotiating indirect cost rates (see subpart 42.7);

(3) Proposing, negotiating, or determining costs under terminated contracts (see 49.103 and 49.113);

(4) Price revision of fixed-price incentive contracts (see 16.204 and 16.403);

(5) Price redetermination of price redetermination contracts (see 16.205 and 16.206); and

(6) Pricing changes and other contract modifications.

31.104 Contracts with educational institutions.

This category includes contracts, subcontracts, and modifications to contracts and subcontracts performed by educational institutions (defined as institutions of higher educations in the OMB Uniform Guidance at 2 CFR part 200, subpart A, and 20 U.S.C. 1001).

(a) The contracting officer must incorporate the cost principles and procedures in subpart 31.3 by reference in cost-reimbursement contracts with educational institutions as the basis for—

(1) Determining reimbursable costs under cost-reimbursement contracts and cost-reimbursement subcontracts performed by educational institutions;

(2) Negotiating indirect cost rates; and

(3) Settling costs of cost-reimbursement terminated contracts (see subpart 49.3 and 49.109-7).

(b) The cost principles in this subpart are to be used as a guide in evaluating costs in connection with negotiating fixed-price contracts and termination settlements.

31.105 Construction and architect-engineer contracts.

(a) This category includes all contracts and contract modifications negotiated on the basis of cost with organizations other than educational institutions (see 31.104), State and local governments (see 31.107), and nonprofit organizations except those exempted under OMB Uniform Guidance at 2 CFR part 200, appendix VIII (see 31.108) for construction management or construction, alteration or repair of buildings, bridges, roads, or other kinds of real property. It also includes architect-engineer contracts related to construction projects. It does not include contracts for vessels, aircraft, or other kinds of personal property.

(b) *Definition*.

Construction equipment, as used in this section, means equipment (including marine equipment) in sound workable condition, either owned or controlled by the contractor or the subcontractor at any tier, or obtained from a commercial rental source, and furnished for use under Government contracts.

(c) Except as specified in paragraph (d) of this section, the cost principles and procedures in subpart 31.2 must be used in the pricing of contracts and contract modifications in this category if cost analysis is performed as required by 15.404-1(c).

(d) The contracting officer must incorporate by reference the cost principles and procedures in subpart 31.2 (as modified by paragraph (d) of this section) in contracts in this category as the basis for—

(1) Determining reimbursable costs under cost-reimbursement contracts and subcontracts;

(2) Negotiating indirect cost rates;

(3) Proposing, negotiating, or determining costs under terminated contracts;

(4) Price revision of fixed-price incentive contracts; and

(5) Pricing changes and other contract modifications.

(e) (1) The allowability of costs for construction and architect-engineer contracts must be determined in accordance with subpart 31.2 except as follows:

(i) When an advance agreement is used to address costs, such as home office overhead, partner’s compensation, employment of consultants, and equipment usage costs due to varying factors of construction projects (see 31.110).

(ii) Allowable ownership and operating costs of construction equipment must be determined as follows:

(A) Actual cost data must be used when such data can be determined for both ownership and operating costs for each piece of equipment, or groups of similar serial or series equipment, from the contractor's accounting records.

(B) When actual cost data cannot be determined, the contracting officer may specify the use of a particular schedule of predetermined rates or any part thereof to determine ownership and operating costs of construction equipment.

(C) Costs otherwise unallowable under this part must not become allowable through the use of an advance agreement (see 31.110(c)) (e.g., schedules need to be adjusted for Government contract costing purposes if they are based on replacement cost, include unallowable interest costs, or use improper cost of money rates or computations).

(D) Contracting officers should review the computations and factors included within the specified schedule and ensure that unallowable or unacceptably computed factors are not allowed in cost submissions.

(E) Predetermined schedules of construction equipment use rates (e.g., the Construction Equipment Ownership and Operating Expense Schedule published by the U.S. Army Corps of Engineers, industry sponsored construction equipment cost guides, or commercially published schedules of construction equipment use cost) provide average ownership and operating rates for construction equipment.

(1) The allowance for ownership costs should include the cost of depreciation and may include facilities capital cost of money.

(2) The allowance for operating costs may include costs for such items as fuel, filters, oil, and grease; servicing, repairs, and maintenance; and tire wear and repair.

(3) Costs of labor, mobilization, demobilization, overhead, and profit are generally not reflected in schedules, and separate consideration may be necessary.

(F) When a schedule of predetermined use rates for construction equipment is used to determine direct costs, all costs of equipment that are included in the cost allowances provided by the schedule must be identified and eliminated from the contractor's other direct and indirect costs charged to the contract.

(1) If the contractor's accounting system provides for site or home office overhead allocations, all costs which are included in the equipment allowances may need to be included in any cost input base before computing the contractor's overhead rate.

(2) In periods of suspension of work pursuant to a contract clause, the allowance for equipment ownership must not exceed an amount for standby cost as determined by the schedule or contract provision.

(iii) The following costs of renting construction equipment must be treated as follows:

(A) Costs, such as maintenance and minor or running repairs incident to operating such rented equipment, that are not included in the rental rate are allowable.

(B) Costs incident to major repair and overhaul of rental equipment are unallowable.

(C) The allowability of charges for construction equipment rented from any division, subsidiary, or organization under common control, will be determined in accordance with 31.205-36(b)(3) and (b)(4).

(2) Costs incurred, at the job site, in performance of the work, such as the cost of superintendence, timekeeping and clerical work, engineering, utility costs, supplies, material handling, restoration and cleanup, etc., are allowable as direct or indirect costs, provided the accounting practice used is in accordance with the contractor's established and consistently followed cost accounting practices for all work.

(3) Rental and any other costs, less any applicable credits, incurred in acquiring the temporary use of land, structures, and facilities are allowable.

(4) Costs, less any applicable credits, incurred in constructing or fabricating structures and facilities of a temporary nature are allowable.

31.106 [Reserved]

31.107 Contracts with State, local, and federally recognized Indian tribal governments.

(a) Subpart 31.6 provides principles and standards for determining costs applicable to contracts, subcontracts, and modifications to contracts and subcontracts with State, local, and federally recognized Indian tribal governments. They apply to contracts with State, local, and federally recognized Indian tribal governments, except contracts with—

(1) Publicly financed educational institutions subject to subpart 31.3; and

(2) Publicly owned hospitals and other providers of medical care subject to requirements promulgated by the sponsoring Government agencies.

(b) The Office of Management and Budget (OMB) will approve any other exceptions in particular cases when adequate justification is presented.

31.108 Contracts with nonprofit organizations.

Subpart 31.7 provides principles and standards for determining costs applicable to contracts and contract modifications with nonprofit organizations other than educational institutions (see subpart 31.3), State and local governments (see subpart 31.6), and those nonprofit organizations exempted under the OMB Uniform Guidance at 2 CFR part 200, appendix VIII (see subpart 31.2 for the cost principles applicable to nonprofit organizations exempt from the cost principles in the OMB Uniform Guidance at 2 CFR part 200).

31.109 Indirect cost rate certification and penalties on unallowable costs.

(a) Certain contracts require certification of the indirect cost rates proposed for final payment purposes (see 42.703-2).

(b) If unallowable costs are included in final indirect cost settlement proposals, penalties may be assessed (see 42.703-2 and 42.709).

31.110 Advance agreements.

(a) To avoid possible subsequent disallowance or dispute based on reasonableness, allocability, or allowability of costs under the specific cost principles at subparts 31.2, 31.3, 31.6, and 31.7, contracting officers should seek an advance agreement on the treatment of special or unusual costs and on statistical sampling methodologies at 31.201-6(c).

(b) Advance agreements may be useful for—

(1) Compensation for personal services, including but not limited to allowances for off-site pay, incentive pay, location allowances, hardship pay, cost of living differential, and termination of defined benefit pension plans;

(2) Use charges for fully depreciated assets;

(3) Deferred maintenance costs;

(4) Precontract costs;

(5) Independent research and development and bid and proposal costs;

(6) Royalties and other costs for use of patents;

(7) Selling and distribution costs;

(8) Travel and relocation costs, as related to special or mass personnel movements, as related to travel via contractor-owned, -leased, or -chartered aircraft, or as related to maximum per diem rates;

(9) Costs of idle facilities and idle capacity;

(10) Severance pay to employees on support service contracts;

(11) Plant reconversion;

(12) Professional services (e.g., legal, accounting, and engineering);

(13) General and administrative costs (e.g., corporate, division, or branch allocations) attributable to the general management, supervision, and conduct of the contractor's business as a whole. These costs are particularly significant in construction, jobsite, architect-engineer, facilities, and Government-owned contractor operated (GOCO) plant contracts (see 31.203(h));

(14) Costs of construction plant and equipment (see 31.105);

(15) Costs of public relations and advertising; and

(16) Statistical sampling methods (see 31.201-6(c)(4)).

(c) The contracting officer is not authorized to agree to a treatment of costs inconsistent with this part. For example, an advance agreement may not provide that, notwithstanding 31.205-20, interest is allowable.

(d) Advance agreements may be negotiated before or after contract award but should be negotiated before the contractor incurs costs associated with the advance agreement.

(e) The cognizant ACO, or other contracting officer established in part 42, must negotiate advance agreements when—

(1) Negotiation authority is delegated to the administrative contracting officer (ACO); or

(2) The advance agreement affects more than one contracting office or more than one agency.

(f) The ACO must coordinate the proposed agreement with the contracting officer before executing the advance agreement.

(g) Unless delegated to the ACO, the contracting officer may negotiate an advance agreement affecting one or more contracts for a single contracting office.

(h) Before negotiating an advance agreement—

(1) Determine if other contracting offices have a significant unliquidated dollar balance in contracts with the same contractor;

(2) Inform any such office or agency of the matters under consideration for negotiation; and

(3) As appropriate, invite the office or agency and the responsible audit agency to participate in prenegotiation discussions and/or subsequent negotiations.

(i) Advance agreements must be in writing, include a statement regarding applicability and duration and be—

(1) Bilateral; and

(2) Incorporated into the applicable current and future contract(s).

(j) Advance agreements and a memorandum providing the information specified in 15.406-3 must be distributed to the cognizant audit agency, ACO, and other contracting officers, as applicable.

This page intentionally left blank.

Subpart 31.2 - Contracts with Commercial Organizations

31.201 General.

31.201-1 Composition of total cost.

(a) (1) The total cost, including standard costs properly adjusted for applicable variances, of a contract is the sum of the direct and indirect costs allocable to the contract, incurred or to be incurred, plus any allocable cost of money pursuant to 31.205-10, less any allocable credits.

(2) In determining what constitutes a cost, any generally accepted method of determining or estimating costs that is equitable and consistently applied may be used.

(b) While the total cost of a contract includes all costs properly allocable to the contract, the allowable costs to the Government are limited to those allocable costs that are allowable pursuant to this part.

31.201-2 Determining allowability.

(a) A cost is allowable only when the cost complies with all of the following requirements:

(1) Reasonableness.

(2) Allocability.

(3) Standards promulgated by the Cost Accounting Standards (CAS) Board, if applicable, otherwise, generally accepted accounting principles and practices appropriate to the circumstances.

(4) Terms of the contract.

(5) Any limitations set forth in this subpart.

(b) (1) Certain cost principles in this subpart incorporate the measurement, assignment, and allocability rules of selected CAS and limit the allowability of costs to the amounts determined using the criteria in those selected standards.

(2) Only those CAS or portions of standards specifically made applicable by the cost principles in this subpart are mandatory unless the contract is CAS-covered (see 48 CFR chapter 99).

(3) Business units that are not otherwise subject to these standards under a CAS clause are subject to the selected standards only for the purpose of determining allowability of costs on Government contracts.

(4) Including the selected standards in the cost principles does not subject the business unit to any other CAS regulations.

(5) The applicability of the CAS regulations is determined by the CAS clause, if any, in the contract and the requirements of the standards themselves.

(c) When contractor accounting practices are inconsistent with subpart 31.2, costs resulting from such inconsistent practices that exceed the amount that would have resulted from using practices consistent with this subpart are unallowable.

(d) (1) A contractor is responsible for accounting for costs appropriately and for maintaining records, including supporting documentation, adequate to demonstrate that costs claimed have been incurred, are allocable to the contract, and comply with applicable cost principles in this subpart.

(2) The contracting officer may disallow all or part of a claimed cost that is inadequately supported.

31.201-3 Determining reasonableness.

(a) A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a reasonable person in the conduct of competitive business.

(1) No presumption of reasonableness must be attached to the incurrence of costs.

(2) If the contracting officer, or the contracting officer’s representative, challenges a specific cost, the burden of proof is on the contractor to prove that the cost is reasonable.

(b) Determining cost reasonableness depends on a number of factors, including—

(1) Whether it is the type of cost generally recognized as ordinary and necessary for the conduct of the contractor's business or contract performance;

(2) Generally accepted sound business practices, arm's length bargaining, and Federal and State laws and regulations;

(3) The contractor's responsibilities to the Government, other customers, the owners of the business, employees, and the public at large; and

(4) Any significant deviations from the contractor's established practices.

(c) Reasonableness of specific costs must be examined with particular care in connection with firms or their separate divisions that may not be subject to effective competitive restraints.

31.201-4 Determining allocability.

A cost is allocable to a Government contract if it—

(a) Is assignable or chargeable to one or more cost objectives on the basis of relative benefits received or other equitable relationship;

(b) Is incurred specifically for the contract;

(c) Benefits both the contract and other work, and can be distributed to them in reasonable proportion to the benefits received; or

(d) Is necessary to the overall operation of the business, although a direct relationship to any particular cost objective cannot be shown.

31.201-5 Credits.

(a) A credit (e.g., income, rebate, or allowance) relating to an allowable cost under a cost contract, received by or accruing to the contractor, must be credited to the Government.

(b) The credit must be a cost reduction to the contract or a cash refund. (See 31.105-6(i)(3) for pension adjustments and asset reversions).

31.201-6 Accounting for unallowable costs.

(a) Expressly unallowable costs or mutually agreed to be unallowable costs (including mutually agreed to be unallowable directly associated costs) must be identified and excluded from any billing, claim, or proposal applicable to a Government contract.

(1) A directly associated cost is any cost that is generated solely as a result of incurring another cost, and that would not have been incurred had the other cost not been incurred.

(2) When an unallowable cost is incurred, its directly associated costs are also unallowable.

(b) (1) Costs that specifically become designated as unallowable or as unallowable directly associated costs of unallowable costs as a result of a written decision furnished by a contracting officer must be identified if included in or used in computing any billing, claim, or proposal applicable to a Government contract.

(2) This identification requirement also applies to any costs incurred for the same purpose under like circumstances as the costs specifically identified as unallowable under paragraph (a) or (b) of this section.

(c) (1) The practices for accounting for and the presentation of unallowable costs must be in accordance with those described in 48 CFR 9904.405.

(2) Statistical sampling is an acceptable practice for contractors to follow in accounting for and presenting unallowable costs, provided the following criteria are met:

(i) The statistical sampling results in an unbiased sample that is a reasonable representation of the sampling universe.

(ii) Any large dollar value or high risk transaction is separately reviewed for unallowable costs and excluded from the sampling process.

(iii) The statistical sampling permits audit verification.

(3) For any indirect cost in the selected sample that is subject to the penalty provisions at 42.709, the amount projected to the sampling universe from that sampled cost is also subject to the same penalty provisions.

(4) Use of statistical sampling methods for identifying and segregating unallowable costs should be the subject of an advance agreement (see 31.110).

(i) The advance agreement should specify the basic characteristics of the sampling process.

(ii) The cognizant administrative contracting officer (ACO) or Federal official must request input from the cognizant auditor before entering into any such agreements.

(5) In the absence of an advance agreement, if an initial review of the facts results in a challenge of the statistical sampling methods by the contracting officer or the contracting officer's representative, the burden of proof must be on the contractor to establish that such a method meets the criteria in paragraph (c)(2) of this section.

(d) If a directly associated cost is included in a cost pool that is allocated over a base that includes the unallowable cost with which it is associated, the directly associated cost must remain in the cost pool.

(1) Since the unallowable costs will attract their allocable share of costs from the cost pool, no further action is required to assure disallowance of the directly associated costs.

(2) In all other cases, the directly associated costs, if material in amount, must be purged from the cost pool as unallowable costs.

(e) (1) In determining the materiality of a directly associated cost, consideration should be given to the significance of the —

(i) Actual dollar amount,

(ii) Cumulative effect of all directly associated costs in a cost pool, and

(iii) Ultimate effect on the cost of Government contracts.

(2) Salary expenses of employees who participate in activities that generate unallowable costs must be treated as directly associated costs to the extent of the time spent on the proscribed activity, provided the costs are material in accordance with paragraph (e)(1) of this section (except when such salary expenses are unallowable).

(i) The time spent on proscribed activities should be compared to total time spent on company activities to determine if the costs are material.

(ii) Time spent by employees outside the normal working hours should not be considered except when it is evident that an employee engages so frequently in company activities during periods outside normal working hours as to indicate that such activities are a part of the employee's regular duties.

(3) When a selected item of cost at 31.205 provides that directly associated costs be unallowable, such directly associated costs are unallowable only if determined to be material in amount in accordance with the criteria provided in paragraphs (e)(1) and (e)(2) of this section, except in those situations where allowance of any of the directly associated costs involved would be considered to be contrary to public policy.

31.201-7 Construction and architect-engineer contracts.

Specific principles and procedures for evaluating and determining costs in connection with contracts and subcontracts for construction and architect-engineer contracts related to construction projects are in 31.105.

31.202 Direct costs.

(a) (1) No final cost objective must have allocated to it as a direct cost any cost, if other costs incurred for the same purpose in like circumstances have been included in any indirect cost pool to be allocated to that or any other final cost objective.

(2) Direct costs of the contract must be charged directly to the contract.

(3) All costs specifically identified with other final cost objectives of the contractor are direct costs of those cost objectives and are not to be charged to the contract directly or indirectly.

(b) For reasons of practicality, the contractor may treat any direct cost of a minor dollar amount as an indirect cost if the accounting treatment—

(1) Is consistently applied to all final cost objectives; and

(2) Produces substantially the same results as treating the cost as a direct cost.

31.203 Indirect costs.

(a) (1) For contracts subject to full CAS coverage, allocation of indirect costs must be based on the applicable CAS regulations.

(2) For all other contracts, paragraphs (b) through (h) of this section apply.

(b) (1) After direct costs have been determined and charged directly to the contract or other work, indirect costs are those remaining to be allocated to intermediate or two or more final cost objectives.

(2) No final cost objective must have allocated to it as an indirect cost any cost, if other costs incurred for the same purpose, in like circumstances, have been included as a direct cost of that or any other final cost objective.

(c) (1) The contractor must accumulate indirect costs by logical cost groupings with due consideration of the reasons for incurring such costs.

(2) The contractor must determine each grouping so as to permit use of an allocation base that is common to all cost objectives to which the grouping is to be allocated.

(3) The base selected must allocate the grouping on the basis of the benefits accruing to intermediate and final cost objectives.

(4) When substantially the same results can be achieved through less precise methods, the number and composition of cost groupings should be governed by practical considerations and should not unduly complicate the allocation.

(d) (1) Once an appropriate base for allocating indirect costs has been accepted, the contractor must not fragment the base by removing individual elements.

(2) All items properly includable in an indirect cost base must bear a pro rata share of indirect costs irrespective of their acceptance as Government contract costs (*e.g.*, when a cost input base is used for the allocation of general and administrative (G&A) costs, the contractor must include in the base all items that would properly be part of the cost input base, whether allowable or unallowable, and these items must bear their pro rata share of G&A costs).

(e) The method of allocating indirect costs may require revision when there is a significant change in the nature of the business, the extent of subcontracting, fixed-asset improvement programs, inventories, the volume of sales and production, manufacturing processes, the contractor's products, or other relevant circumstances.

(f) Separate cost groupings for costs allocable to offsite locations may be necessary to permit equitable distribution of costs on the basis of the benefits accruing to the several cost objectives.

(g) A base period for allocating indirect costs is the cost accounting period during which such costs are incurred and accumulated for allocation to work performed in that period.

(1) For contracts subject to full or modified CAS coverage, the contractor shall follow the criteria and guidance in 48 CFR 9904.406 for selecting the cost accounting periods to be used in allocating indirect costs.

(2) The base period for allocating indirect costs must be the contractor's fiscal year used for financial reporting purposes in accordance with generally accepted accounting principles.

(3) The fiscal year will normally be 12 months, but a different period may be appropriate (e.g., when a change in fiscal year occurs due to a business combination or other circumstances).

(h) Special care should be exercised in applying the principles of paragraphs (c), (d), and (e) of this section when Government-owned contractor-operated (GOCO) plants are involved. The distribution of corporate, division or branch office G&A expenses to such plants operating with little or no dependence on corporate administrative activities may require more precise cost groupings, detailed accounts screening, and carefully developed distribution bases.

(i) Indirect costs that meet the definition of excessive pass-through charge in 52.215-23, are unallowable.

31.204 Application of principles and procedures.

(a) Costs are allowable to the extent they are reasonable, allocable, and determined to be allowable under 31.201, 31.202, 31.203, 31.205.

(b) (1) For the following subcontract types, costs incurred as reimbursements or payments to a subcontractor are allowable to the extent the reimbursements or payments are for costs incurred by the subcontractor that are consistent with this part:

(i) Cost-reimbursement.

(ii) Fixed-price incentive.

(iii) Price redeterminable (*i.e.,* fixed-price contracts with prospective price redetermination and fixed-ceiling-price contracts with retroactive price redetermination).

(2) The requirements of paragraph (b)(1) of this section apply to any tier above the first firm-fixed-price subcontract or fixed-price subcontract with economic price adjustment provisions.

(c) Costs incurred as payments under firm-fixed-price subcontracts or fixed-price subcontracts with economic price adjustment provisions or modifications, for which subcontract cost analysis was performed are allowable if the price was negotiated in accordance with 31.102.

(d) Section 31.205 does not cover every element of cost.

(1) Failure to include any item of cost does not imply that it is either allowable or unallowable.

(2) The determination of allowability must be based on the principles and standards in this subpart and the treatment of similar or related selected items.

(3) When more than one section in 31.205 is relevant to a contractor cost, the cost must be apportioned among the applicable sections, and the determination of allowability of each portion must be based on the guidance contained in the applicable section.

(4) When a cost to which more than one section in 31.205 is relevant and cannot be apportioned, the determination of allowability must be based on the guidance contained in the section that addresses the specific cost.

31.205 Selected costs.

31.205-1 Public relations and advertising costs.

(a) *Definitions*. As used in this section—

Public relations means all functions and activities dedicated to-

(1) Maintaining, protecting, and enhancing the image of a concern or its products; or

(2) Maintaining or promoting reciprocal understanding and favorable relations with the public at large, or any segment of the public. Public relations includes activities associated with areas such as advertising, customer relations, etc.

Advertising means the use of media to promote the sale of products or services and to accomplish the activities referred to in paragraph (d) of this section, regardless of the medium employed, when the advertiser has control over the form and content of what will appear, the media in which it will appear, and when it will appear. Advertising media include but are not limited to conventions, exhibits, free goods, samples, magazines, newspapers, trade papers, direct mail, dealer cards, window displays, outdoor advertising, radio, and television.

(b) Public relations and advertising costs include the costs of media time and space, purchased services performed by outside organizations, as well as the applicable portion of salaries, travel, and fringe benefits of employees engaged in the functions and activities of public relations and advertising.

(c) The only allowable advertising costs are those that are—

(1) Specifically required by contract, or that arise from requirements of Government contracts, and that are exclusively for—

(i) Acquiring scarce items for contract performance; or

(ii) Disposing of scrap or surplus materials acquired for contract performance;

(2) Costs of activities to promote sales of products normally sold to the Government, including trade shows, which contain a significant effort to promote exports from the United States. Such costs are allowable, notwithstanding paragraphs (e)(1), (e)(3), (e)(4)(ii), and (e)(5) of this section. However, such costs do not include the costs of memorabilia (e.g., models, gifts, and souvenirs), alcoholic beverages, entertainment, and physical facilities that are used primarily for entertainment rather than product promotion; or

(3) Allowable in accordance with 31.205-34.

(d) Allowable public relations costs include the following:

(1) Costs specifically required by contract.

(2) Costs of—

(i) Responding to inquiries on company policies and activities;

(ii) Communicating with the public, press, stockholders, creditors, and customers; and

(iii) Conducting general liaison with news media and Government public relations officers, to the extent that such activities are limited to communication and liaison necessary to keep the public informed on matters of public concern such as notice of contract awards, plant closings or openings, employee layoffs or rehires, financial information, etc.

(3) Costs of participation in community service activities (e.g., blood bank drives, charity drives, savings bond drives, and disaster assistance)(except see paragraph (e)(8) of this section.)

(4) Costs of plant tours and open houses (except see paragraph (e)(5) of this section).

(5) Costs of keel laying, ship launching, commissioning, and roll-out ceremonies, to the extent specifically provided for by contract.

(e) Unallowable public relations and advertising costs include the following:

(1) All public relations and advertising costs whose primary purpose is to promote the sale of products or services by stimulating interest in a product or product line (except for those costs made allowable under 31.205-38(b)(5)), or by disseminating messages calling favorable attention to the contractor for purposes of enhancing the company image to sell the company's products or services.

(2) All costs of trade shows and other special events which do not contain a significant effort to promote the export sales of products normally sold to the Government.

(3) Costs of sponsoring meetings, conventions, symposia, seminars, and other special events when the principal purpose of the event is other than dissemination of technical information or stimulation of production.

(4) Costs of ceremonies such as corporate celebrations and new product announcements.

(5) Costs of promotional material, motion pictures, videotapes, brochures, handouts, magazines, and other media that are designed to call favorable attention to the contractor and its activities.

(6) Costs of souvenirs, models, imprinted clothing, buttons, and other mementos provided to customers or the public.

(7) Costs of memberships in civic and community organizations.

(8) Costs associated with the donation of excess food to nonprofit organizations in accordance with the 42 U.S.C. 1792 (see subpart 26.4).

31.205-2 [Reserved]

31.205-3 Bad debts.

Bad debts, including actual or estimated losses arising from uncollectible accounts receivable due from customers and other claims, and any directly associated costs such as collection costs, and legal costs are unallowable.

31.205-4 Bonding costs.

(a) Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the contractor or where the contractor requires similar assurance.

(b) Government and contractor assurance includes such bonds as bid, performance, payment, advance payment, infringement, and fidelity bonds.

(c) Costs of bonding required pursuant to the terms of the contract are allowable.

(d) Costs of bonding required by the contractor in the general conduct of its business are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

31.205-5 [Reserved]

31.205-6 Compensation for personal services.

(a) *General.* Compensation for personal services is allowable subject to the requirements of this cost principle in this section and the following:

(1) Compensation for personal services must be for work performed by the employee in the current year and must not represent a retroactive adjustment of prior years' salaries or wages (except see paragraphs (f), (g), (i), (j), (l), and (n) of this section).

(2) The total compensation for individual employees or job classes of employees must be reasonable for the work performed (except as otherwise specified in this section).

(3) The compensation must be based upon and conform to the terms and conditions of the contractor’s established compensation plan or practice followed so consistently as to imply, in effect, an agreement to make the payment.

(4) No presumption of allowability will exist where the contractor introduces major revisions of existing compensation plans or new plans and the contractor has not provided the cognizant administrative contracting officer, either before implementation or within a reasonable period after it, an opportunity to review the allowability of the changes.

(5) Costs that are unallowable under other paragraphs of subpart 31.2 are not allowable under this section solely on the basis that they constitute compensation for personal services.

(6) (i) Compensation costs for certain individuals require special consideration, such individuals include—

(A) Owners of closely held corporations, members of limited liability companies, partners, sole proprietors, or members of their immediate families; and

(B) Persons who are contractually committed to acquire a substantial financial interest in the contractor’s enterprise.

(ii) For these individuals, compensation must—

(A) Be reasonable for the personal services rendered; and

(B) Not be a distribution of profits (which is not an allowable contract cost).

(iii) For owners of closely held companies, compensation in excess of the costs that are deductible as compensation under the Internal Revenue Code (26 U.S.C.) and regulations under it is unallowable.

(b) *Reasonableness*. (1) *Compensation pursuant to labor-management agreements*. Costs of compensation established under arm's length labor-management agreements negotiated under the terms of the National Labor Relations Act or similar state statutes are allowable and reasonable unless the costs are unwarranted by the character and circumstances of the work or discriminatory against the Government.

(i) The terms of a labor-management agreement designed to apply to a given set of circumstances and conditions of employment (e.g., work involving extremely hazardous activities or work not requiring recurrent use of overtime) is unwarranted when applied to a Government contract involving significantly different circumstances and conditions of employment (e.g., work involving less hazardous activities or work continually requiring use of overtime).

(ii) A cost is discriminatory against the Government if it results in employee compensation, in whatever form, in excess of that being paid for similar non-Government work under comparable circumstances.

(2) *Compensation not covered by labor-management agreements*.

(i) Compensation for each employee or job class of employees must be reasonable for the work performed. Compensation is reasonable if the aggregate of each measurable and allowable element amounts to a reasonable total. In determining the reasonableness of total compensation, consider only allowable individual elements of compensation.

(ii) In addition to the requirements of section 31.201-3, in determining the reasonableness of compensation for particular employees or job classes of employees, consider factors that may be relevant including, but not limited to, conformity with compensation practices of other firms—

(A) Of the same size;

(B) In the same industry;

(C) In the same geographic area; and

(D) Engaged in similar non-Government work under comparable circumstances.

(c) *Form of payment*. (1) Compensation for personal services includes compensation paid, or to be paid, to employees in the form of—

(i) Cash;

(ii) Corporate securities, such as stocks, bonds, and other financial instruments (see paragraph (c)(2) of this section regarding valuation); or

(iii) Other assets, products, or services.

(2) When compensation is paid with securities of the contractor or of an affiliate, the following additional restrictions apply:

(i) Valuation placed on the securities is the fair market value on the first date the number of shares awarded is known, determined upon the most objective basis available.

(ii) Accruals for the cost of securities before issuing the securities to the employees are subject to adjustment according to the possibilities that the employees will not receive the securities and that their interest in the accruals will be forfeited.

(d) *Income tax differential pay*. (1) Differential allowances for additional income taxes resulting from foreign assignments are allowable.

(2) Differential allowances for additional income taxes resulting from domestic assignments are unallowable.

(3) Payments for increased employee income or Federal Insurance Contributions Act taxes incident to allowable reimbursed relocation costs are allowable under 31.205-35(a)(10).

(e) *Bonuses and incentive compensation*. (1) Bonuses and incentive compensation are allowable if the—

(i) Awards are paid or accrued under an agreement entered into in good faith between the contractor and the employees before the services are rendered or pursuant to an established plan or policy followed by the contractor so consistently as to imply an agreement to make such payment; and

(ii) Basis for the award is supported.

(2) When the bonus and incentive compensation payments are deferred, the costs are subject to the requirements of paragraphs (e)(1) and (j) of this section.

(f) *Severance pay*. (1) Severance pay is a payment, in addition to regular salaries and wages, by contractors to workers whose employment is being involuntarily terminated. (See paragraph (i)(6) of this section for payments for early retirement incentive plans).

(2) Severance pay is allowable only if it is required by—

(i) Law;

(ii) Employer-employee agreement;

(iii) Established policy that constitutes an implied agreement on the contractor's part; or

(iv) Circumstances of the particular employment.

(3) Payments made in the event of employment with a replacement contractor where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment, or continued employment by the contractor at another facility, subsidiary, affiliate, or parent company of the contractor are not severance pay and are unallowable.

(4) (i) Actual normal turnover severance payments must be allocated to all work performed in the contractor's plant.

(ii) If the contractor uses the accrual method to account for normal turnover severance payments, that method will be acceptable if the amount of the accrual is—

(A) Reasonable in light of payments actually made for normal severances over a representative past period; and

(B) Allocated to all work performed in the contractor's plant.

(5) Abnormal or mass severance pay is of such a hypothetical nature that accruals for this purpose are not allowable; however, the Government will consider allowability on a case-by-case basis.

(6) (i) In accordance with 10 U.S.C. 3744(a)(13) and 41 U.S.C. 4304(a)(13) the costs of severance payments to foreign nationals employed under a service contract performed outside the United States are unallowable to the extent that such payments exceed amounts typically paid to employees providing similar services in the same industry in the United States. Further, in accordance with 10 U.S.C. 3744(a)(14), 41 U.S.C. 4304(a)(14) and 10 U.S.C. 1592, all such costs of severance payments that are otherwise allowable are unallowable if the termination of employment of the foreign national is the result of the closing of, or the curtailment of activities at, a United States facility in that country at the request of the government of that country; this does not apply if the closing of a facility or curtailment of activities is made pursuant to a status-of-forces or other country-to-country agreement.

(ii) 10 U.S.C. 3744(b) and 41 U.S.C. 4304(b) permit the head of the agency to waive these cost allowability limitations under certain circumstances (see 37.113 and the solicitation provision at 52.237-8).

(g) *Backpay*. Backpay is a retroactive adjustment of prior years' salaries or wages and is unallowable except payments to the following:

(1) Employees resulting from underpaid work actually performed are allowable, if required by a negotiated settlement, order, or court decree.

(2) Union employees for the difference in their past and current wage rates for working without a contract or labor agreement during labor management negotiation are allowable.

(3) Nonunion employees based upon results of union agreement negotiation are allowable only if—

(i) A formal agreement or understanding exists between management and the employees concerning these payments; or

(ii) An established policy or practice exists and is followed by the contractor so consistently as to imply an agreement to make such payments.

(h) Compensation based on changes in the prices of corporate securities or corporate security ownership, such as stock options, stock appreciation rights, phantom stock plans, and junior stock conversions is unallowable as follows:

(1) Any compensation which is calculated, or valued, based on changes in the price of corporate securities.

(2) Any compensation represented by dividend payments or which is calculated based on dividend payments.

(3) Contractor payments to an employee in lieu of the employee receiving or exercising a right, option, or benefit that would have been unallowable under this paragraph (h).

(i) *Pension costs*. (1) Pension plans are normally segregated into two types of plans: defined-benefit and defined-contribution pension plans.

(i) The contractor must measure, assign, and allocate the costs of defined-benefit pension plans and the costs of defined-contribution pension plans in accordance with 48 CFR 9904.412 and 48 CFR 9904.413.

(ii) Pension costs are allowable subject to the referenced standards and the cost limitations and exclusions in this section.

(A) Except for nonqualified pension plans using the pay-as-you-go cost method, to be allowable in the current year, the contractor must fund pension costs by the time set for filing of the Federal income tax return or any extension. Pension costs assigned to the current year, but not funded by the tax return time, are not allowable in any subsequent year. For nonqualified pension plans using the pay-as-you-go method, to be allowable in the current year, the contractor must allocate pension costs in the cost accounting period that the pension costs are assigned.

(B) Pension payments must be paid pursuant to an agreement entered into in good faith between the contractor and employees before the work or services are performed and to the terms and conditions of the established plan. The cost of changes in pension plans are not allowable if the changes are discriminatory to the Government or are not intended to be applied consistently for all employees under similar circumstances in the future.

(C) Except as provided for early retirement benefits in paragraph (i)(6) of this section, one-time-only pension supplements not available to all participants of the basic plan are not allowable as pension costs, unless the supplemental benefits represent a separate pension plan and the benefits are payable for life at the option of the employee.

(D) Increases in payments to previously retired plan participants covering cost-of-living adjustments are allowable if paid in accordance with a policy or practice consistently followed.

(2) *Defined-benefit pension plans*. The cost limitations and exclusions pertaining to defined-benefit plans are as follows:

(i) (A) *(1)* Except for nonqualified pension plans, pension costs (see 48 CFR 9904.412-40(a)(1)) assigned to the current accounting period, but not funded during it, are not allowable in subsequent years (except that a payment made to a fund by the time set for filing the Federal income tax return or any extension thereof is considered to have been made during such taxable year).

(2) Any portion of pension costs computed for a cost accounting period, that exceeds the amount required to be funded pursuant to a waiver granted under the provisions of the Employee Retirement Income Security Act (ERISA) (Chapter 18 of title 29, U.S.C.), will be allowable in those future accounting periods in which the funding of such excess amounts occurs (see 48 CFR 9904.412-50(c)(5)).

(B) For nonqualified pension plans, except those using the pay-as-you-go cost method, allowable costs are limited to the amount allocable in accordance with 48 CFR 9904.412-50(d)(2).

(C) For nonqualified pension plans using the pay-as-you-go cost method, allowable costs are limited to the amounts allocable in accordance with 48 CFR 9904.412-50(d)(3).

(ii) (A) Any amount funded in excess of the pension cost assigned to a cost accounting period is not allowable in that period and must be accounted for as set forth at 48 CFR 9904.412-50(a)(4).

(B) The excess amount is allowable in the future period to which it is assigned, to the extent it is not otherwise unallowable.

(iii) (A) Increased pension costs are unallowable if the increase is caused by a delay in funding beyond 30 days after each quarter of the year to which they are assignable.

(B) If a composite rate is used for allocating pension costs between the segments of a company and if, because of differences in the timing of the funding by the segments, an inequity exists, allowable pension costs for each segment will be limited to that particular segment's calculation of pension costs as provided for in 48 CFR 9904.413-50(c).

(C) The contractor must make determinations of unallowable costs in accordance with the actuarial method used in calculating pension costs.

(iv) (A) The contracting officer will consider the allowability of the cost of indemnifying the Pension Benefit Guaranty Corporation (PBGC) under ERISA section 4062 or 4064 arising from terminating an employee deferred compensation plan on a case-by-case basis if—

(1) Insurance was required by the PBGC under ERISA section 4023; and

(2) It was obtained and the indemnification payment is not recoverable under the insurance.

(B) Consideration will be primarily for the purpose of appraising the extent to which the indemnification payment is allocable to Government work.

(C) If a beneficial or other equitable relationship exists, the Government will participate, despite the requirements of 31.205-19(c)(3) and (d)(3), in the indemnification payment to the extent of its fair share.

(v) (A) Increased pension costs resulting from the withdrawal of assets from a pension fund and the transfer of those assets to another employee benefit plan fund (or the transfer of those assets to another account within the same fund) are unallowable except to the extent authorized by an advance agreement (see paragraph (i)(3) if the withdrawal of assets from a pension fund is a plan termination under ERISA).

(B) The advance agreement must—

(1) State the amount of the Government's equitable share in the gross amount withdrawn or transferred; and

(2) Provide that the Government receives a credit equal to the amount of the Government's equitable share of the gross withdrawal or transfer.

(3) *Pension adjustments and asset reversions*. (i) For segment closings, pension plan terminations, or curtailment of benefits, the amount of the adjustment must be—

(A) For contracts and subcontracts that are subject to full CAS coverage, the amount measured, assigned, and allocated in accordance with 48 CFR 9904.413-50(c)(12); and

(B) For contracts and subcontracts that are not subject to full CAS coverage, the amount measured, assigned, and allocated in accordance with 48 CFR 9904.413-50(c)(12), except the numerator of the fraction at 48 CFR 9904.413-50(c)(12)(vi) is the sum of the pension plan costs allocated to all non-CAS-covered contracts and subcontracts that are subject to subpart 31.2 or for which certified cost or pricing data were submitted.

(ii) (A) For all other situations where assets revert to the contractor, or such assets are constructively received by it for any reason, the contractor must, at the Government's option, make a refund or give a credit to the Government for its equitable share of the gross amount withdrawn.

(B) The Government's equitable share must reflect the Government's participation in pension costs through those contracts for which certified cost or pricing data were submitted or that are subject to subpart 31.2.

(C) Excise taxes on pension plan asset reversions or withdrawals under this paragraph (i)(3)(ii) are unallowable in accordance with 31.205-41(c)(6).

(4) *Defined-contribution pension plans.* In addition to defined-contribution pension plans, this paragraph also covers profit sharing, savings plans, and other such plans, provided the plans fall within the definition of a pension plan.

(i) (A) Allowable pension cost is limited to the net contribution required to be made for a cost accounting period after taking into account dividends and other credits, where applicable.

(B) Any portion of pension cost computed for a cost accounting period that exceeds the amount required to be funded pursuant to a waiver granted under the provisions of ERISA will be allowable in those future accounting periods in which the funding of such excess amounts occurs (see 48 CFR 9904.412-50(c)(5)).

(ii) The provisions of paragraphs (i)(2)(ii) and (i)(2)(iv) of this section apply to defined-contribution plans.

(5) *Pension plans using the pay-as-you-go cost method*.

(i) Pension costs for a pension plan using the pay-as-you-go cost method are allowable to the extent they are not otherwise unallowable.

(ii) When using the pay-as-you-go cost method, the contractor must measure, assign, and allocate the cost of pension plans in accordance with 48 CFR 9904.412 and 9904.413.

(6) *Early retirement incentives*. (i) An early retirement incentive is an incentive given to an employee to retire early.

(ii) (A) For contract costing purposes, costs of early retirement incentives are allowable subject to the pension cost criteria in paragraphs (i)(2)(i) through (i)(2)(iv) of this section if the—

(1) Contractor measures, assigns, and allocates the costs in accordance with the contractor's accounting practices for pension costs;

(2) Incentives are in accordance with the terms and conditions of an early retirement incentive plan; and

(3) Contractor applies the plan only to active employees (i.e., the cost of extending the plan to employees who retired or were terminated before the adoption of the plan is unallowable).

(B) The present value of the total incentives given to any employee in excess of the amount of the employee's annual salary for the previous fiscal year before the employee's retirement is unallowable.

(1) The contractor must compute the present value in accordance with its accounting practices for pension costs.

(2) The contractor must account for any unallowable costs in accordance with 48 CFR 9904.412-50(a)(2).

(j) *Deferred compensation other than pensions.* The costs of deferred compensation awards are allowable subject to the following:

(1) The costs must be measured, assigned, and allocated in accordance with 48 CFR 9904.415.

(2) The costs of deferred compensation awards are unallowable if the awards are made in periods subsequent to the period when the work being remunerated was performed.

(k) *Compensation incidental to business acquisitions*. The following costs are unallowable: (1) Payments to employees under agreements in which they receive special compensation, in excess of the contractor's normal severance pay practice, if their employment terminates following a change in the management control over, or ownership of, the contractor or a substantial portion of its assets.

(2) Payments to employees under plans introduced in connection with a change, whether actual or prospective, in the management control over, or ownership of, the contractor or a substantial portion of its assets in which those employees receive special compensation, which is contingent upon the employee remaining with the contractor for a specified period of time.

(l) *Fringe benefits*. (1) Fringe benefits are in addition to regular wages and salaries and are allowances and services provided by the contractor to its employees as compensation (e.g., the cost of vacations, sick leave, holidays, military leave, employee insurance, and supplemental unemployment benefit plans).

(2) Except as provided in subpart 31.2, the costs of fringe benefits are allowable if they are reasonable and required by law, employer-employee agreement, or an established policy of the contractor.

(m) *Employee rebate and purchase discount plans.* Rebates and purchase discounts provided to employees on products or services produced by the contractor or affiliates are unallowable.

(n) *Postretirement benefits (PRB) other than pensions* . (1) PRB covers all benefits, other than cash benefits and life insurance benefits paid by pension plans, provided to employees, their beneficiaries, and covered dependents during the period following the employees' retirement (e.g., postretirement health care; life insurance provided outside a pension plan; and other welfare benefits, such as tuition assistance, day care, legal services, and housing subsidies provided after retirement).

(2) To be allowable, PRB costs must be incurred pursuant to law, employer-employee agreement, or an established policy of the contractor, and must comply with the following:

(i) *Pay-as-you-go*. PRB costs are not accrued during the working lives of employees. Costs are assigned to the period in which—

(A) Benefits are actually provided; or

(B) The costs are paid to an insurer, provider, or other recipient for current year benefits or premiums.

(ii) *Terminal funding.* PRB costs are not accrued during the working lives of the employees.

(A) Terminal funding occurs when the entire PRB liability is paid in a lump sum upon the termination of employees (or upon conversion to such a terminal-funded plan) to an insurer or trustee to establish and maintain a fund or reserve for the sole purpose of providing PRB to retirees.

(B) Terminal funded costs must be amortized over a period of 15 years.

(iii) *Accrual basis*. PRB costs are accrued during the working lives of employees. Accrued PRB costs must—

(A) Be measured and assigned in accordance with one of the following two methods:

(1) Generally accepted accounting principles. However, transitions from the pay-as-you-go method to the accrual accounting method must be handled in accordance with the following:

(i) In the year of transition from the pay-as-you-go method to accrual accounting for purposes of Government contract cost accounting, the transition obligation must be the excess of the accumulated PRB obligation over the fair value of plan assets determined in accordance with paragraph (n)(2)(iii)(E) of this section; the fair value must be reduced by the prepayment credit as determined in accordance with paragraph (n)(2)(iii)(F) of this section.

(ii) PRB cost attributable to the transition obligation assigned to the current year that is in excess of the amount assignable to accounting periods on the basis of a straight line amortization of the transition obligation over the average remaining working lives of active employees covered by the PRB plan or a 20-year period, whichever period is longer, is unallowable. However, if the plan is comprised of inactive participants only, the PRB cost attributable to the transition obligation assigned to the current year that is in excess of the amount assignable to accounting periods on a straight line amortization of the transition obligation over the average future life expectancy of the participants is unallowable.

(iii) For a plan that transitioned from pay-as-you-go to accrual accounting for Government contract cost accounting prior to July 22, 2013, the unallowable amount of PRB cost attributable to the transition obligation amortization must continue to be based on the cost principle in effect at the time of the transition until the original transition obligation schedule is fully amortized.

(2) Contributions to a welfare benefit fund determined in accordance with applicable Internal Revenue Code. Allowable PRB costs based on such contributions must—

(i) Be measured using reasonable actuarial assumptions, which must include a health care inflation assumption unless prohibited by the Internal Revenue Code provisions governing welfare benefit funds;

(ii) Be assigned to accounting periods on the basis of the average working lives of active employees covered by the PRB plan or a 15-year period, whichever period is longer. However, if the plan is comprised of inactive participants only, the cost must be spread over the average future life expectancy of the participants; and

(iii) Exclude Federal income taxes, whether incurred by the fund or the contractor (including any increase in PRB costs associated with such taxes), unless the fund holding the plan assets is tax-exempt under the provisions of 26 U.S.C. 501(c).

(B) Be paid to an insurer or trustee to establish and maintain a fund or reserve for the sole purpose of providing PRB to retirees. The assets must be segregated in the trust, or otherwise effectively restricted, so that they cannot be used by the employer for other purposes.

(C) Be calculated in accordance with generally accepted actuarial principles and practices as promulgated by the Actuarial Standards Board.

(D) Eliminate from costs of current and future periods the accumulated value of any prior period costs that were unallowable in accordance with paragraph (n)(3) of this section, adjusted for interest under paragraph (n)(4) of this section.

(E) Calculate the unfunded actuarial liability (unfunded accumulated postretirement benefit obligation) using the market (fair) value of assets that have been accumulated by funding costs assigned to prior periods for contract accounting purposes.

(F) Recognize as a prepayment credit the fair market value of assets that were accumulated by deposits or contributions that were not used to fund costs assigned to previous periods for contract accounting purposes.

(G) Comply with the following when changing from one accrual accounting method to another: the contractor must—

(1) Treat the change in the unfunded actuarial liability (unfunded accumulated postretirement benefit obligation) as a gain or loss; and

(2) Present an analysis demonstrating that all costs assigned to prior periods have been accounted for in accordance with paragraphs (n)(2)(iii)(D), (E), and (F) of this section to ensure that no duplicate recovery of costs exists. Any duplicate recovery of costs due to the change from one method to another is unallowable. The analysis and new accrual accounting method may be a subject appropriate for an advance agreement in accordance with 31.110.

(3) To be allowable, PRB costs must be funded by the time set for filing the Federal income tax return or any extension thereof, or paid to an insurer, provider, or other recipient by the time set for filing the Federal income tax return or extension thereof. PRB costs assigned to the current year, but not funded, paid or otherwise liquidated by the tax return due date as extended are not allowable in any subsequent year.

(4) Increased PRB costs caused by delay in funding beyond 30 days after each quarter of the year to which they are assignable are unallowable.

(5) The Government must receive an equitable share of any amount of previously funded PRB costs which revert or inure to the contractor. Such equitable share must reflect the Government's previous participation in PRB costs through those contracts for which certified cost or pricing data were required or which were subject to subpart 31.2.

(o) *Limitation on allowability of compensation*.

Table 31-1 Employee Compensation Limits

Contract Award Date	**Applicable Agencies**	**Covered Employees**	**31.205-6**
Before June 24, 2014	Executive Agencies Other than DoD, NASA and Coast Guard	Senior Executive	(o)(2)
Before December 31, 2011	DoD, NASA and Coast Guard	Senior Executive	(o)(2)
On/after December 31, 2011, and before June 24, 2014	DoD, NASA, and Coast Guard	All Employees	(o)(3)
On/after June 24, 2014	All Executive Agencies	All Employees	(o)(4)

(1) *Definitions*. As used in this paragraph (o)—

Compensation means the total amount of wages, salary, bonuses, deferred compensation (see paragraph (j) of this section), and employer contributions to defined contribution pension plans (see paragraphs (i)(4) and (q) of this section), for the fiscal year, whether paid, earned, or otherwise accruing, as recorded in the contractor's cost accounting records for the fiscal year.

Senior executive means—

(A) Prior to January 2, 1999—

(1) The Chief Executive Officer (CEO) or any individual acting in a similar capacity at the contractor's headquarters;

(2) The four most highly compensated employees in management positions at the contractor's headquarters, other than the CEO; and

(3) If the contractor has intermediate home offices or segments that report directly to the contractor's headquarters, the five most highly compensated employees in management positions at each such intermediate home office or segment.

(B) Effective January 2, 1999, the five most highly compensated employees in management positions at each home office and each segment of the contractor, whether or not the home office or segment reports directly to the contractor's headquarters.

Fiscal year means the fiscal year established by the contractor for accounting purposes.

Contractor's headquarters means the highest organizational level from which executive compensation costs are allocated to Government contracts.

(2) *Senior executive compensation limit for contracts awarded before June 24, 2014*.

(i) *Applicability*. This paragraph (o)(2) applies to the following:

(A) To all executive agencies, other than DoD, NASA and the Coast Guard, for contracts awarded before June 24, 2014;

(B) To DoD, NASA, and the Coast Guard for contracts awarded before December 31, 2011;

(ii) Costs incurred after January 1, 1998, for the compensation of a senior executive in excess of the benchmark compensation amount determined applicable for the contractor fiscal year by the Administrator, Office of Federal Procurement Policy (OFPP), under 41 U.S.C. 1127 as in effect prior to June 24, 2014, are unallowable (10 U.S.C. 3744(a)(16) and 41 U.S.C. 4304(a)(16), as in effect prior to June 24, 2014). This limitation is the sole statutory limitation on allowable senior executive compensation costs incurred after January 1, 1998, under contracts awarded before June 24, 2014, and applies whether or not the affected contracts were previously subject to a statutory limitation on such costs. (Note that pursuant to section 804 of Pub. L. 105-261, the definition of senior executive in paragraph (o)(1) of this section changed for compensation costs incurred after January 1, 1999.) See https://trumpwhitehouse.archives.gov/wp-content/uploads/2017/11/ContractorCompensationCapContractsAwardedBeforeJune24.pdf.

(3) All employee compensation limit for contracts awarded before June 24, 2014.

(i) *Applicability.* This paragraph (o)(3) applies to DOD, NASA, and the Coast Guard for contracts awarded on or after December 31, 2011, and before June 24, 2014.

(ii) Costs incurred after January 1, 2012, for the compensation of any contractor employee in excess of the benchmark compensation amount, determined applicable for the contractor fiscal year by the Administrator, Office of Federal Procurement Policy (OFPP) under 41 U.S.C. 1127 as in effect prior to June 24, 2014, are unallowable (10 U.S.C. 3744(a)(16) as in effect prior to June 24, 2014.) This limitation is the sole statutory limitation on allowable employee compensation costs incurred after January 1, 2012, under contracts awarded on or after December 31, 2011, and before June 24, 2014. (Note that pursuant to section 803 of Pub. L. 112-81, 10 U.S.C. 3744, Allowable costs under defense contracts, was amended by striking “senior executives” and inserting “any contractor employee”, making unallowable the excess compensation costs incurred after January 1, 2012, under affected contracts.) See https://trumpwhitehouse.archives.gov/wp-content/uploads/2017/11/ContractorCompensationCapContractsAwardedBeforeJune24.pdf.

(4) All employee compensation limit for contracts awarded on or after June 24, 2014.

(i) *Applicability*. This paragraph (o)(4) applies to executive agency contracts awarded on or after June 24, 2014, and any subcontracts thereunder.

(ii) Costs incurred on or after June 24, 2014, for the compensation of employees in excess of the benchmark compensation amount determined applicable for the contractor fiscal year by the Administrator, Office of Federal Procurement Policy (OFPP) are unallowable under 10 U.S.C. 3744(a)(16) and 41 U.S.C. 4304(a)(16), as in effect on or after June 24, 2014, pursuant to section 702 of Public Law 113-67. This limitation is the sole statutory limitation on allowable employee compensation costs incurred on or after June 24, 2014, under contracts awarded on or after June 24, 2014. See https://trumpwhitehouse.archives.gov/wp-content/uploads/2017/11/ContractorCompensationCapContractsAwardedBeforeJune24.pdf.

(iii) *Exceptions*. An agency head may establish one or more narrowly targeted exceptions for scientists, engineers, or other specialists upon a determination that such exceptions are needed to ensure that the executive agency has continued access to needed skills and capabilities. In making such a determination, the agency must consider, at a minimum, for each contractor employee in a narrowly targeted excepted position—

(A) The amount of taxpayer funded compensation to be received by each employee; and

(B) The duties and services performed by each employee.

(p) Employee stock ownership plans (ESOP). (1) An ESOP is a stock bonus plan designed to invest primarily in the stock of the employer corporation.

(2) The contractor's contributions to an Employee Stock Ownership Trust (ESOT) may be in the form of cash, stock, or property.

(3) Costs of ESOPs are allowable subject to the following conditions:

(i) The contractor measures, assigns, and allocates costs in accordance with 48 CFR 9904.415.

(ii) Contributions by the contractor in any one year that exceed the deductibility limits of the Internal Revenue Code for that year are unallowable.

(iii) When the contribution is in the form of stock, the value of the stock contribution is limited to the fair market value of the stock on the date that title is effectively transferred to the trust.

(iv) When the contribution is in the form of cash-

(A) Stock purchases by the ESOT in excess of fair market value are unallowable; and

(B) When stock purchases are in excess of fair market value, the contractor must credit the amount of the excess to the same indirect cost pools that were charged for the ESOP contributions in the year in which the stock purchase occurs. However, when the trust purchases the stock with borrowed funds which will be repaid over a period of years by cash contributions from the contractor to the trust, the contractor must credit the excess price over fair market value to the indirect cost pools pro rata over the period of years during which the contractor contributes the cash used by the trust to repay the loan.

(v) When the fair market value of unissued stock or stock of a closely held corporation is not readily determinable, the valuation will be made on a case-by-case basis taking into consideration the guidelines for valuation used by the IRS.

31.205-7 Contingencies.

(a) *Definition.*

Contingency, as used in this subpart, means a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at the present time.

(b) (1) Costs for contingencies are generally unallowable for historical costing purposes because such costing deals with costs incurred and recorded on the contractor's books.

(2) A contingency factor may be recognized when it is applicable to a past period to give recognition to minor unsettled factors in the interest of expediting settlement (*e.g.*, terminations).

(c) In connection with estimates of future costs, contingencies fall into two categories:

(1) Those that may arise from presently known and existing conditions, the effects of which are foreseeable within reasonable limits of accuracy; *e.g.,* anticipated costs of rejects and defective work). Contingencies of this category are to be included in the estimates of future costs so as to provide the best estimate of performance cost.

(2) Those that may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the contractor and to the Government (*e.g.*, results of pending litigation). Contingencies of this category are to be excluded from cost estimates under the several items of cost but should be disclosed separately (including the basis upon which the contingency is computed) to facilitate the negotiation of appropriate contractual coverage. (See 31.205-6(f) and 31.205-19.)

31.205-8 Contributions or donations.

Contributions or donations, including cash, property and services, regardless of recipient, are unallowable (except see 31.205-1(d)(3)).

31.205-9 [Reserved]

31.205-10 Cost of money.

(a) Cost of money-

(1) Is an imputed cost that is not a form of interest on borrowings (see 31.205-20);

(2) Is an incurred cost for—

(i) Cost-reimbursement purposes under applicable cost-reimbursement contracts; and

(ii) Progress payment purposes under fixed-price contracts; and

(3) Refers to—

(i) Facilities capital cost of money (see 48 CFR 9904.414); and

(ii) Cost of money as an element of the cost of capital assets under construction (see 48 CFR 9904.417).

(b) Cost of money is allowable when—

(1) It is measured, assigned, and allocated to contracts in accordance with 48 CFR 9904.414 or measured and added to the cost of capital assets under construction in accordance with 48 CFR 9904.417, as applicable;

(2) The requirements of 31.205-52, which limit the allowability of cost of money, are followed; and

(3) The estimated facilities capital cost of money is specifically identified and proposed in cost proposals relating to the contract under which the cost is to be claimed.

(c) Actual interest cost in lieu of the calculated imputed cost of money is unallowable.

31.205-11 Depreciation.

(a) (1) Depreciation on a contractor's plant, equipment, and other capital facilities is an allowable contract cost, subject to the limitations in this cost principle.

(2) For tangible personal property, only estimated residual values that exceed 10 percent of the capitalized cost of the asset need to be used in establishing depreciable costs.

(i) Where either the declining balance method of depreciation or the class life asset depreciation range system is used, the residual value does not need to be deducted from capitalized cost to determine depreciable costs.

(ii) Depreciation cost that would significantly reduce the book value of a tangible capital asset below its residual value is unallowable.

(b) (1) Contractors with contracts subject to 48 CFR 9904.409 must adhere to the requirement of that standard for all fully CAS-covered contracts and may elect to adopt the standard for all other contracts.

(2) All requirements of 48 CFR 9904.409 are applicable if the election in paragraph (b)(1) of this section is made, and contractors must continue to follow it until notification of final acceptance of all deliverable items under negotiated Government contracts.

(c) For contracts that are not subject to 48 CFR 9904.409, allowable depreciation must not exceed the amount used for financial accounting purposes and must be determined in a manner consistent with the depreciation policies and procedures followed in the same segment on non-Government business (except see paragraphs (g) and (h) of this section).

(d) Depreciation, rental, or use charges are unallowable on property acquired from the Government at no cost to the contractor or any division, subsidiary, or affiliate of the contractor under common control.

(e) The depreciation on an item that meets the criteria for allowance at price under 31.205-26(f) may be based on that price, provided the same policies and procedures are used for costing all business of the using division, subsidiary, or organization under common control.

(f) (1) No depreciation or rental is allowed on property that is fully depreciated by the contractor or by any division, subsidiary, or affiliate of the contractor under common control.

(2) A reasonable charge for using fully depreciated property may be agreed upon and allowed (except see 31.110(b)(2)).

(3) In determining the charge, consideration must be given to cost, total estimated useful life at the time of negotiations, effect of any increased maintenance charges or decreased efficiency due to age, and the amount of depreciation previously charged to Government contracts or subcontracts.

(g) Whether or not the contract is subject to CAS, the following apply:

(1) The requirements of 31.205-52.

(2) In the event of a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances, allowable depreciation of the impaired assets is limited to the amounts that would have been allowed had the assets not been written down (see 31.205-16(g)). However, this does not preclude a change in depreciation resulting from other causes such as permissible changes in estimates of service life, consumption of services, or residual value.

(3) (i) In the event the contractor reacquires property involved in a sale and leaseback arrangement, allowable depreciation of reacquired property must be based on the net book value of the asset as of the date the contractor originally became a lessee of the property in the sale and leaseback arrangement—

(A) Adjusted for any allowable gain or loss determined in accordance with 31.205-16(b); and

(B) Less any amount of depreciation expense included in the calculation of the amount that would have been allowed had the contractor retained title under 31.205-11(h)(1) and 31.205-36(b)(2).

(ii) As used in this paragraph (g)(3), reacquired property is property that generated either any depreciation expense or any cost of money considered in the calculation of the limitations under 31.205-11(h)(1) and 31.205-36(b)(2) during the most recent accounting period prior to the date of reacquisition.

(h) A finance lease, as defined in Financial Accounting Standards Board's Accounting Standards Codification (FASB ASC) 842, Leases, is subject to the requirements of this cost principle. (See 31.205-36 for Operating Leases.)

(1) Lease costs under a sale and leaseback arrangement are allowable only up to the amount that would be allowed if the contractor retained title, computed based on the net book value of the asset on the date the contractor becomes a lessee of the property adjusted for any gain or loss recognized in accordance with 31.205-16(b); and

(2) If it is determined that the terms of the finance lease have been significantly affected by the fact that the lessee and lessor are related, depreciation charges are not allowable in excess of those that would have occurred if the lease contained terms consistent with those found in a lease between unrelated parties.

31.205-12 Economic planning costs.

(a) Economic planning costs are the costs of general long-range management planning that is concerned with the future overall development of the contractor's business and that may take into account the eventual possibility of economic dislocations or fundamental alterations in those markets in which the contractor currently does business.

(b) Economic planning costs do not include organization or reorganization costs covered by 31.205-27. (See 31.205-38 for market planning costs other than economic planning costs.)

(c) Economic planning costs are allowable.

31.205-13 Employee morale, health, welfare, food service, and dormitory costs and credits.

(a) Aggregate costs incurred on activities designed to improve working conditions, employer-employee relations, employee morale, and employee performance (less income generated by these activities) are allowable, subject to the limitations in this section. Examples of allowable activities are—

(1) House publications;

(2) Health clinics;

(3) Wellness/fitness centers;

(4) Employee counseling services; and

(5) Food and dormitory services for the contractor's employees at or near the contractor's facilities, including—

(i) Operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations; and

(ii) Similar types of services.

(b) (1) Costs of gifts are unallowable.

(2) Gifts do not include awards for performance made pursuant to 31.205-6(e) or awards made in recognition of employee achievements pursuant to an established contractor plan or policy.)

(c) Costs of recreation are unallowable, except for the costs of employees' participation in company sponsored sports teams or employee organizations designed to improve company loyalty, teamwork, or physical fitness.

(d) (1) The allowability of food and dormitory losses are determined by the following:

(i) Losses from operating food and dormitory services are allowable only if the contractor's objective is to operate such services on a break-even basis.

(ii) Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates that would not be conducive to the accomplishment of the objective in paragraph (d)(1)(i) of this section are not allowable, except as described in paragraph (d)(1)(iii) of this section.

(iii) A loss may be allowed if the contractor can demonstrate that unusual circumstances exist such that even with efficient management, operating the services on a break-even basis would require charging inordinately high prices, or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. The following are examples of unusual circumstances:

(A) The contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available.

(B) The contractor's charged, but unproductive, labor costs would be excessive if the services were not available.

(C) If termination or reduction of food or dormitory operations will not otherwise yield net cost savings.

(2) Costs of food and dormitory services must include an allocable share of indirect expenses pertaining to these activities.

(e) When the contractor has an arrangement authorizing an employee association to provide or operate a service, such as vending machines in the contractor's plant, and retain the profits, such profits must be treated in the same manner as if the contractor were providing the service (except see paragraph (f) of this section).

(f) Contributions by the contractor to an employee organization, including funds from vending machine receipts or similar sources, are allowable only to the extent that the contractor demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if directly incurred by the contractor.

31.205-14 Entertainment costs.

(a) Costs of amusement, diversions, social activities, and any directly associated costs, such as tickets to shows or sporting events, meals, lodging, rentals, transportation, and gratuities are unallowable.

(b) Costs of membership in social, dining, country clubs, or other organizations having the same purposes are also unallowable, regardless of whether the cost is reported as taxable income to the employees.

(c) Costs made specifically unallowable under this cost principle are not allowable under any other cost principle.

31.205-15 Fines, penalties, and mischarging costs.

(a) Costs of fines and penalties resulting from violations of, or failure of the contractor to comply with, Federal, State, local, or foreign laws and regulations, are unallowable except when incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer.

(b) Costs incurred in connection with, or related to, the mischarging of costs on Government contracts are unallowable when the costs are caused by, or result from, alteration or destruction of records, or other false or improper charging or recording of costs. Such costs include those incurred to measure or otherwise determine the magnitude of the improper charging, and costs incurred to remedy or correct the mischarging, such as costs to rescreen and reconstruct records.

31.205-16 Gains and losses on disposition or impairment of depreciable property or other capital assets.

(a) (1) Gains and losses from the sale, retirement, or other disposition (except see 31.205-19) of depreciable property must be included in the year in which they occur as credits or charges to the cost grouping(s) in which the depreciation or amortization applicable to those assets was included (except see paragraph (e) of this section).

(2) No gain or loss must be recognized as a result of the transfer of assets in a business combination (see 31.205-52).

(b) Notwithstanding paragraph (c) of this section, when costs of depreciable property are subject to the sale and leaseback limitations in 31.205-11(h)(1) or 31.205-36(b)(2)—

(1) The gain or loss is the difference between the net amount realized and the undepreciated balance of the asset on the date the contractor becomes a lessee; and

(2) When the application of paragraph (b)(1) of this section results in a loss—

(i) The allowable portion of the loss is zero if the fair market value exceeds the undepreciated balance of the asset on the date the contractor becomes a lessee; and

(ii) The allowable portion of the loss is limited to the difference between the fair market value and the undepreciated balance of the asset on the date the contractor becomes a lessee if the fair market value is less than the undepreciated balance of the asset on the date the contractor becomes a lessee.

(c) (1) Gains and losses on disposition of tangible capital assets, including those acquired under capital leases (also known as a finance lease) (see 31.205-11(h)), must be considered as adjustments of depreciation costs previously recognized.

(2) The gain or loss for each asset disposed of is the difference between the net amount realized, including insurance proceeds from involuntary conversions, and its undepreciated balance.

(d) The gain recognized for contract costing purposes must be limited to the difference between the acquisition cost (or for assets acquired under a finance lease, the value at which the leased asset is capitalized) of the asset and its undepreciated balance, except see paragraph (e) of this section,

(e) Special considerations apply to an involuntary conversion occurs when a contractor’s property is destroyed by events that are out of the owner's control, such as fire, windstorm, flood, accident, theft, etc., and an insurance award is recovered. The following apply to involuntary conversions:

(1) When there is an insurance award and the converted asset is not replaced, gain or loss must be recognized in the period of disposition. The gain recognized for contract costing purposes must be limited to the difference between the acquisition cost of the asset and its undepreciated balance.

(2) When the converted asset is replaced, the contractor must either—

(i) Adjust the depreciable basis of the new asset by the amount of the total realized gain or loss; or

(ii) Recognize the gain or loss in the period of disposition, in which case the Government must participate to the same extent as outlined in paragraph (f)(1) of this section.

(f) Gains and losses on the disposition of depreciable property must not be recognized as a separate charge or credit when —

(1) Gains and losses are processed through the depreciation reserve account and reflected in the depreciation allowable under 31.205-11; or

(2) The property is exchanged as part of the purchase price of a similar item, and the gain or loss is taken into consideration in the depreciation cost basis of the new item.

(g) Gains and losses arising from mass or extraordinary sales, retirements, or other disposition other than through business combinations must be considered on a case-by-case basis.

(h) Gains and losses of any nature arising from the sale or exchange of capital assets other than depreciable property must be excluded in computing contract costs.

(1) With respect to long-lived tangible and identifiable intangible assets held for use, no loss must be allowed for a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances (*e.g.*, environmental damage, idle facilities arising from a declining business base, etc.).

(2) If depreciable property or other capital assets have been written down from carrying value to fair value due to impairments, gains or losses upon disposition must be the amounts that would have been allowed had the assets not been written down.

31.205-17 Idle facilities and idle capacity costs.

(a) *Definitions*. As used in this section—

Costs of idle facilities or idle capacity means costs such as maintenance, repair, housing, rent, and other related costs (*e.g.,* property taxes, insurance, and depreciation).

Facilities means plant or any portion thereof (including land integral to the operation), equipment, individually or collectively, or any other tangible capital asset, wherever located, and whether owned or leased by the contractor.

Idle capacity means the unused capacity of partially used facilities. It is the difference between that which a facility could achieve under 100 percent operating time on a one-shift basis, less operating interruptions resulting from time lost for repairs, setups, unsatisfactory materials, and other normal delays, and the extent to which the facility was actually used to meet demands during the accounting period. A multiple-shift basis may be used in the calculation instead of a one-shift basis if it can be shown that this amount of usage could normally be expected for the type of facility involved.

Idle facilities means completely unused facilities that are excess to the contractor's current needs.

(b) The costs of idle facilities are unallowable unless the facilities—

(1) Are necessary to meet fluctuations in workload; or

(2) Were necessary when acquired and are now idle because of changes in requirements, production economies, reorganization, termination, or other causes that could not have been reasonably foreseen. (Costs of idle facilities are allowable for a reasonable period, ordinarily not to exceed one year, depending upon the initiative taken to use, lease, or dispose of the idle facilities (except see 31.205-42)).

(c) Costs of idle capacity are costs of doing business and are a factor in the normal fluctuations of usage or overhead rates from period to period. Such costs are allowable when the capacity is necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics, or security practices. Widespread idle capacity throughout an entire plant or among a group of assets having substantially the same function may be idle facilities.

(d) Any costs to be paid directly by the Government for idle facilities, or idle capacity reserved for defense mobilization production must be the subject of a separate agreement (see 31.110(b)(9)).

31.205-18 Independent research and development and bid and proposal costs.

(a) *Definitions.* As used in this section—

Applied research means effort that—

(1) Normally follows basic research, but may not be severable from the related basic research;

(2) Attempts to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques; and

(3) Attempts to advance the state of the art. Applied research does not include efforts whose principal aim is design, development, or test of specific items or services to be considered for sale; these efforts are within the definition of the term development, defined in this section.

Bid and proposal (B&P) costs means the costs incurred in preparing, submitting, and supporting bids and proposals (whether or not solicited) on potential Government or non-Government contracts. The term does not include the costs of effort sponsored by a grant or cooperative agreement or required in the performance of a contract.

Company means all divisions, subsidiaries, and affiliates of the contractor under common control.

Development means the systematic use, under whatever name, of scientific and technical knowledge in the design, development, test, or evaluation of a potential new product or service (or of an improvement in an existing product or service) for the purpose of meeting specific performance requirements or objectives. Development includes the functions of design engineering, prototyping, and engineering testing, but excludes—

(1) Subcontracted technical effort that is for the sole purpose of developing an additional source for an existing product; and

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools, and techniques not intended for sale.

Independent research and development (IR&D) means a contractor's IR&D cost that consists of projects falling within the four following areas:

(1) Basic research,

(2) Applied research,

(3) Development, and

(4) Systems and other concept formulation studies. The term does not include the costs of effort sponsored by a grant or required in the performance of a contract. IR&D effort must not include technical effort expended in developing and preparing technical data specifically to support submitting a bid or proposal.

Systems and other concept formulation studies means analyses and study efforts either related to specific IR&D efforts or directed toward identifying desirable new systems, equipment or components, or modifications and improvements to existing systems, equipment, or components.

(b) *Composition and allocation of costs.* The requirements of 48 CFR 9904.420 are incorporated in their entirety and must apply as follows—

(1) *Fully-CAS-covered contracts.* Contracts that are fully-CAS-covered must be subject to all requirements of 48 CFR 9904.420.

(2) *Modified CAS-covered and non-CAS-covered contracts.*

(i) Non-CAS-covered contracts or contracts that contain terms or conditions requiring modified CAS coverage must be subject to all requirements of 48 CFR 9904.420 except 48 CFR 9904.420-50(e)(2) and 48 CFR 9904.420-50(f)(2).

(ii) Non-CAS-covered contracts or modified CAS-covered contracts awarded when the contractor has CAS-covered contracts requiring compliance with 48 CFR 9904.420, must be subject to all the requirements of 48 CFR 9904.420.

(iii) When the requirements of 48 CFR 9904.420-50(e)(2) and 48 CFR 9904.420-50(f)(2) are not applicable, the following apply:

(A) *(1)* IR&D and B&P costs must be allocated to final cost objectives on the same basis of allocation used for the general and administrative (G&A) expense grouping of the profit center (see 31.002) in which the costs are incurred.

(2) When IR&D and B&P costs clearly benefit other profit centers or benefit the entire company, those costs must be allocated through the G&A of the other profit centers or through the corporate G&A, as appropriate.

(B) If allocations of IR&D or B&P through the G&A base do not provide equitable cost allocation, the contracting officer may approve use of a different base.

(c) *Allowability.* Except as provided in paragraphs (d) and (e) of this section, costs for IR&D and B&P are allowable as indirect expenses on contracts if those costs are allocable and reasonable.

(d) *Deferred IR&D costs*. (1) IR&D costs incurred in previous accounting periods are unallowable, except when a contractor has developed a specific product at its own risk in anticipation of recovering the development costs in the sale price of the product and—

(i) The total amount of IR&D costs applicable to the product can be identified;

(ii) The proration of such costs to sales of the product is reasonable;

(iii) The contractor had no Government business during the time that the costs were incurred or did not allocate IR&D costs to Government contracts except to prorate the cost of developing a specific product to the sales of that product; and

(iv) No costs of current IR&D programs are allocated to Government work except to prorate the costs of developing a specific product to the sales of that product.

(2) (i) When deferred costs are recognized, the contract (except firm-fixed-price and fixed-price with economic price adjustment contracts) will include a specific provision setting forth the amount of deferred IR&D costs that are allocable to the contract.

(ii) The contracting officer must document the circumstances and reason for accepting the deferred costs in the negotiation memorandum.

(e) *Cooperative arrangements*. (1) IR&D costs may be incurred by contractors working jointly with one or more non-Federal entities pursuant to a cooperative arrangement (e.g., joint ventures, limited partnerships, teaming arrangements, and collaboration and consortium arrangements).

(2) IR&D costs may include costs contributed by contractors in performing cooperative research and development agreements, or similar arrangements, entered into under—

(i) 15 U.S.C. 3710(a);

(ii) 51 U.S.C. 20113(e) for the National Aeronautics and Space Administration;

(iii) 10 U.S.C. 4021 for DoD; or

(iv) Other equivalent authority.

(3) IR&D costs incurred by a contractor pursuant to these types of cooperative arrangements should be considered as allowable IR&D costs if the work performed would have been allowed as contractor IR&D had there been no cooperative arrangement.

(4) Costs incurred in preparing, submitting, and supporting offers on potential cooperative arrangements are allowable if they are allocable, reasonable, and not otherwise unallowable.

31.205-19 Insurance and indemnification.

(a) Insurance by purchase or by self-insuring includes—

(1) Coverage the contractor is required to carry or to have approved, under the terms of the contract; and

(2) Any other coverage the contractor maintains in connection with the general conduct of its business.

(b) (1) For purposes of applying the provisions of this section, the Government considers insurance provided by captive insurers (*i.e.*, insurers owned by or under control of the contractor) as self-insurance.

(2) If the captive insurer also sells insurance to the general public in substantial quantities and it can be demonstrated that the charge to the contractor is based on competition, the Government will consider the insurance as purchased insurance.

(c) Whether or not the contract is subject to CAS, self-insurance charges are allowable subject to paragraph (e) of this section and the following limitations:

(1) The contractor must measure, assign, and allocate costs in accordance with 48 CFR 9904.416.

(2) The contractor must comply with part 28; however, approval of a contractor's insurance program in accordance with part 28 does not constitute a determination as to the allowability of the program's cost.

(3) If purchased insurance is available, any self-insurance charge plus insurance administration expenses in excess of the cost of comparable purchased insurance plus associated insurance administration expenses is unallowable.

(4) Self-insurance charges for risks of catastrophic losses are unallowable (see 28.308(e)).

(d) Purchased insurance costs are allowable, subject to paragraph (e) of this section and the following limitations:

(1) For contracts subject to full CAS coverage, the contractor must measure, assign, and allocate costs in accordance with 48 CFR 9904.416.

(2) For all contracts, premiums for insurance purchased from fronting insurance companies (insurance companies not related to the contractor but who reinsure with a captive insurer of the contractor) are unallowable to the extent they exceed the sum of—

(i) The amount that would have been allowed had the contractor insured directly with the captive insurer; and

(ii) Reasonable fronting company charges for services rendered.

(3) Actual losses are unallowable unless expressly provided for in the contract, except-

(i) Losses incurred under the nominal deductible provisions of purchased insurance, in keeping with sound business practice, are allowable; and

(ii) Minor losses, such as spoilage, breakage, and disappearance of small hand tools that occur in the ordinary course of business and that are not covered by insurance, are allowable.

(e) Self-insurance and purchased insurance costs are subject to the following cost limitations:

(1) Costs of insurance required or approved pursuant to the contract are allowable.

(2) Costs of insurance maintained by the contractor in connection with the general conduct of its business are allowable subject to the following limitations:

(i) Types and extent of coverage must follow sound business practice, and the rates and premiums must be reasonable.

(ii) Costs allowed for business interruption or other similar insurance must be limited to exclude coverage of profit.

(iii) The cost of property insurance premiums for insurance coverage in excess of the acquisition cost of the insured assets is allowable only when the contractor has a formal written policy assuring that in the event the insured property is involuntarily converted, the new asset must be valued at the book value of the replaced asset plus or minus adjustments for differences between insurance proceeds and actual replacement cost. If the contractor does not have such a formal written policy, the cost of premiums for insurance coverage in excess of the acquisition cost of the insured asset is unallowable.

(iv) Costs of insurance for the risk of loss of Government property are allowable to the extent that the—

(A) Contractor is liable for such loss;

(B) Contracting officer has not revoked the Government's assumption of risk (see 45.104(b)); and

(C) Insurance does not cover loss of Government property that results from willful misconduct or lack of good faith on the part of any of the contractor's managerial personnel (see the clause at FAR 52.245-1(h)(1)(ii)).

(v) Costs of insurance on the lives of officers, partners, proprietors, or employees are allowable only to the extent that the insurance represents additional compensation (see 31.205-6).

(3) The cost of insurance to protect the contractor against the costs of correcting its own defects in materials and workmanship is unallowable.

(4) The cost of insurance to cover fortuitous or casualty losses resulting from defects in materials or workmanship are allowable as a normal business expense.

(5) Premiums for retroactive or backdated insurance written to cover known losses that have occurred are unallowable.

(6) The Government is obligated to indemnify the contractor only to the extent authorized by law, as expressly provided for in the contract, except as provided in paragraph (d)(3) of this section.

(7) Late premium payment charges related to employee deferred compensation plan insurance incurred pursuant to 29 U.S.C. 1307 or 29 U.S.C. 1323 are unallowable.

31.205-20 Interest and other financial costs.

(a) The following costs are unallowable:

(1) Interest on borrowings, however represented.

(2) Bond discounts.

(3) Costs of financing and refinancing capital (net worth plus long-term liabilities).

(4) Legal and professional fees paid in connection with preparing prospectuses (except see 31.205-28).

(5) Costs of preparing and issuing stock rights (except see 31.205-28).

(b) Interest assessed by State or local taxing authorities under the conditions specified in 31.205-41(b)(3) is allowable.

31.205-21 Labor relations costs.

(a) Costs incurred in maintaining satisfactory relations between the contractor and its employees, including costs of shop stewards, labor management committees, employee publications, and other related activities, are allowable.

(b) As required by Executive Order 13494, Economy in Government Contracting, costs of any activities undertaken to persuade employees of any entity to exercise, or not to exercise, or concerning the manner of exercising, the right to organize and bargain collectively, through representatives of the employees' own choosing are unallowable. Examples of unallowable costs are—

(1) Preparing and distributing materials;

(2) Hiring or consulting legal counsel or consultants;

(3) Meetings (including paying the salaries of the attendees at meetings held for this purpose); and

(4) Planning or conducting activities by managers, supervisors, or union representatives during work hours.

31.205-22 Lobbying and political activity costs.

(a) Costs associated with the following activities are unallowable:

(1) Attempts to influence the outcomes of any Federal, State, or local election, referendum, initiative, or similar procedure, through in-kind or cash contributions, endorsements, publicity, or similar activities.

(2) Establishing, administering, contributing to, or paying the expenses of a political party, campaign, political action committee, or other organization established for the purpose of influencing the outcomes of elections.

(3) Any attempt to influence the introduction of Federal, state, or local legislation, or enactment or modification of any pending Federal, state, or local legislation—

(i) Through communication with any member or employee of the Congress or state legislature including efforts to influence state or local officials to engage in similar lobbying activity, or with any government official or employee in connection with a decision to sign or veto enrolled legislation; or

(ii) By preparing, distributing or using publicity or propaganda, or by urging members of the general public or any segment thereof to contribute to or participate in any mass demonstration, march, rally, fund raising drive, lobbying campaign or letter writing or telephone campaign.

(4) Legislative liaison activities, including attendance at legislative sessions or committee hearings, gathering information regarding legislation, and analyzing the effect of legislation, when such activities are carried on in support of or in knowing preparation for an effort to engage in unallowable activities.

(5) Costs incurred in attempting to improperly influence (see 3.401), either directly or indirectly, an employee or officer of the Executive branch of the Government to give consideration to or act regarding a regulatory or contract matter.

(b) Costs associated with the following activities are excepted from paragraph (a) of this section:

(1) Providing a technical and factual presentation of information on a topic directly related to the performance of a contract through a hearing testimony, statements, or letters to the Congress or a state legislature, or subdivision, member, or cognizant staff member thereof, in response to a documented request (including a Congressional Record notice requesting testimony or statements for the record at a regularly scheduled hearing) made by the recipient member, legislative body,

or subdivision, or a cognizant staff member thereof, provided such information is readily obtainable and can be readily put in deliverable form; and provided that costs under this section for transportation, lodging or meals are unallowable unless incurred for the purpose of offering testimony at a regularly scheduled Congressional hearing pursuant to a written request for such presentation made by the Chairman or Ranking Minority Member of the Committee or Subcommittee conducting such hearing.

(2) Any lobbying made unallowable by paragraph (a)(3) of this section to influence state or local legislation in order to directly reduce contract cost, or to avoid material impairment of the contractor's authority to perform the contract.

(3) Any activity specifically authorized by statute to be undertaken with funds from the contract.

(c) When a contractor seeks reimbursement for indirect costs, total lobbying costs must be separately identified in the indirect cost rate proposal, and thereafter treated as other unallowable activity costs.

(d) Contractors must maintain adequate records to demonstrate that the certification of costs as being allowable or unallowable (see 42.703-2) pursuant to this section complies with the requirements of this section.

(e) Existing procedures should be utilized to resolve in advance any significant questions or disagreements concerning the interpretation or application of this section.

31.205-23 Losses on other contracts.

Losses on other contracts, including the contractor’s contributed portion under cost-sharing contracts, are unallowable.

31.205-24 [Reserved]

31.205-25 Manufacturing and production engineering costs.

(a) The following costs of manufacturing and production engineering effort are allowable:

(1) Developing and deploying new or improved materials, systems, processes, methods, equipment, tools and techniques that are, or are expected to be, used in producing products or services.

(2) Developing and deploying pilot production lines;

(3) Improving current production functions, such as plant layout, production scheduling and control, methods and job analysis, equipment capabilities and capacities, inspection techniques, and tooling analysis (including tooling design and application improvements).

(4) Material and manufacturing producibility analysis for production suitability and to optimize manufacturing processes, methods, and techniques.

(b) This cost principle does not cover—

(1) Basic and applied research effort related to new technology, materials, systems, processes, methods, equipment, tools and techniques (see 31.205-18); and

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools and techniques that are intended for sale (see 31.205-18).

(c) Where manufacturing or production development costs are capitalized or required to be capitalized under the contractor's capitalization policies, allowable cost will be determined in accordance with the requirements of 31.205-11.

31.205-26 Material costs.

(a) (1) Material costs include the costs of items, such as raw materials, parts, subassemblies, components, and manufacturing supplies, whether purchased or manufactured by the contractor, and may include collateral items such as inbound transportation and in-transit insurance.

(2) In computing material costs, the contractor must consider reasonable overruns, spoilage, or defective work (unless otherwise provided in any contract provision relating to inspecting and correcting defective work).

(b) The contractor must—

(1) Adjust the costs of material for income and other credits, including available trade discounts, refunds, rebates, allowances, and cash discounts, and credits for scrap, salvage, and material returned to vendors; and

(2) Credit such income and other credits either directly to the cost of the material or allocate such income and other credits as a credit to indirect costs. When the contractor can demonstrate that failure to take cash discounts was reasonable, the contractor does not need to credit lost discounts.

(c) Reasonable adjustments arising from differences between periodic physical inventories and book inventories may be included in arriving at costs when such adjustments relate to the period of contract performance.

(d) (1) When materials are purchased specifically for and are identifiable solely with performance under a contract, the actual purchase cost of those materials should be charged to the contract.

(2) If material is issued from stores, any generally recognized method of pricing such material is acceptable if that method is consistently applied and the results are equitable.

(e) Allowance for materials, supplies and services that are sold or transferred between any divisions, subdivisions, subsidiaries, or affiliates of the contractor under a common control—

(1) Must be on the basis of cost incurred in accordance with this subpart; or

(2) May be at price when—

(i) It is the established practice of the transferring organization to price interorganizational transfers at other than cost for commercial work of the contractor or any division, subsidiary or affiliate of the contractor under a common control; and

(ii) The item being transferred qualifies for an exception under 15.403-1(b) and the contracting officer has not determined the price to be unreasonable.

(f) When a commercial product or commercial service under paragraph (e) of this section is sold or transferred at a price based on a catalog or market price, the contractor—

(1) Should adjust the price to reflect the quantities being acquired; and

(2) May adjust the price to reflect the actual cost of any modifications necessary because of contract requirements.

31.205-27 Organization costs.

(a) (1) Except as provided in paragraph (b) of this section, expenditures in connection with the following are unallowable —

(i) Planning or executing the organization or reorganization of the corporate structure of a business, including mergers and acquisitions,

(ii) Resisting or planning to resist the reorganization of the corporate structure of a business or a change in the controlling interest in the ownership of a business, and

(iii) Raising capital (net worth plus long-term liabilities.

(2) Such expenditures include incorporation fees and costs of attorneys, accountants, brokers, promoters and organizers, management consultants and investment counselors, whether or not employees of the contractor.

(3) Unallowable reorganization costs include the cost of any change in the contractor's financial structure, excluding administrative costs of short-term borrowings for working capital, resulting in alterations in the rights and interests of security holders, whether or not additional capital is raised.

(b) The cost of activities primarily intended to provide compensation will not be considered organizational costs subject to this section but will be governed by 31.205-6. These activities include acquiring stock for—

(1) Executive bonuses;

(2) Employee savings plans; and

(3) Employee stock ownership plans.

31.205-28 Other business expenses.

The following types of recurring costs are allowable:

(a) Registry and transfer charges resulting from changes in ownership of securities issued by the contractor.

(b) Cost of shareholders’ meetings.

(c) Normal proxy solicitations.

(d) Preparing and publishing reports to shareholders.

(e) Preparing and submitting required reports and forms to taxing and other regulatory bodies.

(f) Incidental costs of directors’ and committee meetings.

(g) Other similar costs.

31.205-29 Plant protection costs.

Allowable plant protection costs include—

(a) Wages, uniforms, and equipment of personnel engaged in plant protection;

(b) Depreciation on plant protection capital assets; and

(c) Necessary expenses to comply with military requirements.

31.205-30 Patent costs.

(a) The following patent costs are allowable when incurred as a requirement of a Government contract (except see 31.205-33):

(1) Costs of preparing invention disclosures, reports, and other documents.

(2) Costs for searching the art to the extent necessary to make the invention disclosures.

(3) Other costs in connection with the filing and prosecution of a United States patent application where title or royalty-free license is to be conveyed to the Government.

(b) General counseling services relating to patent matters, such as advice on patent laws, regulations, clauses, and employee agreements, are allowable.

(c) Other than those for general counseling services, patent costs not required by the contract are unallowable (see 31.205-37).

31.205-31 Plant reconversion costs.

(a) Plant reconversion costs are those incurred in restoring or rehabilitating the contractor's facilities to approximately the same condition that existed immediately prior to the start of the Government contract, with the exception of reasonable wear and tear.

(b) Reconversion costs are unallowable except for the cost of removing Government property and the restoration or rehabilitation costs caused by such removal.

(c) In circumstances, where equity so dictates, additional costs may be allowed to the extent agreed upon before costs are incurred. Care should be exercised to avoid duplication of costs through allowance as contingencies, additional profit or fee, or in other contracts.

31.205-32 Precontract costs.

Precontract costs are costs incurred before the effective date of the contract directly pursuant to the negotiation and in anticipation of the contract award when such incurrence is necessary to comply with the proposed contract delivery schedule. These costs are allowable to the extent that they would have been allowable if incurred after the date of the contract (see 31.110).

31.205-33 Professional and consultant service costs.

(a) *Definition.*

Professional and consultant services, as used in this section, means services provided by persons who are members of a particular profession or possess a special skill and who are not officers or employees of the contractor (*e.g.*, services acquired by contractors or subcontractors in order to enhance their legal, economic, financial, or technical positions).

(b) Professional and consultant services are generally acquired to obtain information, advice, opinions, alternatives, conclusions, recommendations, training, or direct assistance, such as for studies, analyses, evaluations, liaison with Government officials, or other forms of representation.

(c) Costs of professional and consultant services are allowable subject to this section when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government (except see 31.205-30 and 31.205-47).

(d) Costs of professional and consultant services performed under any of the following circumstances are unallowable:

(1) Services to improperly obtain, distribute, or use information or data protected by law or regulation (*e.g.*, 52.215-1(e), Restriction on Disclosure and Use of Data).

(2) Services that are intended to improperly influence the contents of solicitations, the evaluation of proposals or quotations, or the selection of sources for contract award, whether award is by the Government, or by a prime contractor or subcontractor.

(3) Any other services obtained, performed, or otherwise resulting in violation of any statute or regulation prohibiting improper business practices or conflicts of interest.

(4) Services performed that are inconsistent with the purpose and scope of the services contracted for or otherwise agreed upon.

(e) In determining the allowability of costs (including retainer fees), no single factor or combination of factors is necessarily determinative; therefore, the contracting officer must consider the following factors:

(1) The nature and scope of the service rendered in relation to the service required.

(2) The necessity of contracting for the service, considering the contractor's capability in the particular area.

(3) The past pattern of acquiring such services and their costs, particularly in the years prior to the award of Government contracts.

(4) The impact of Government contracts on the contractor's business.

(5) Whether the proportion of Government work to the contractor's total business is such as to influence the contractor in favor of incurring the cost, particularly when the services rendered are not of a continuing nature and have little relationship to work under Government contracts.

(6) Whether the service can be performed more economically by employment rather than by contracting.

(7) The qualifications of the individual or concern rendering the service, and the customary fee charged, especially on non-Government contracts.

(8) Adequacy of the contractual agreement for the service (e.g., description of the service, estimate of time required, rate of compensation, termination provisions)

(f) Retainer fees are allowable when supported by evidence that—

(1) The services covered by the retainer agreement are necessary and customary;

(2) The level of past services justifies the amount of the retainer fees (if no services were rendered, fees are not automatically unallowable);

(3) The retainer fee is reasonable in comparison with maintaining an in-house capability to perform the covered services, when factors such as cost and level of expertise are considered; and

(4) The actual services performed are documented in accordance with the following—

(i) Fees for services rendered are allowable only when supported by evidence of the nature and scope of the service furnished (see also 31.205-38(c)); and

(ii) Evidence necessary to determine that work performed is proper, does not violate law or regulation, and includes —

(A) Details of all agreements (e.g., work requirements, rate of compensation, and nature and amount of other expenses, if any) with the individuals or organizations providing the services and details of actual services performed;

(B) Invoices or billings submitted by consultants, including sufficient detail as to the time expended and nature of the actual services provided; and

(C) Consultants' work products and related documents, such as trip reports indicating persons visited and subjects discussed, meeting minutes, and collateral memoranda and reports.

31.205-34 Recruitment costs.

(a) The following costs are allowable:

(1) Costs for employment agencies, not in excess of standard commercial rates.

(2) Costs of operating an employment office needed to secure and maintain an adequate labor force.

(3) Costs of operating an aptitude and educational testing program.

(4) Travel costs of employees engaged in recruiting personnel.

(5) Travel costs of applicants for interviews.

(6) Costs of help-wanted advertising.

(b) Help-wanted advertising costs are unallowable if the advertising—

(1) Does not describe specific positions or classes of positions; or

(2) Includes material that is not relevant for recruitment purposes, such as extensive illustrations or descriptions of the company's products or capabilities.

31.205-35 Relocation costs.

(a) Relocation costs are costs incident to the permanent change of assigned work location (for a period of 12 months or more) of an existing employee or upon recruitment of a new employee. The following types of relocation costs are allowable:

(1) Costs of travel of the employee and members of the employee's immediate family (see 31.205-46) and transportation of household items and personal effects to the new location.

(2) Costs of finding a new home, such as advance trips by the employee and/or the spouse, to locate living quarters, and temporary lodging during the transition period for the employee and members of the employee's immediate family.

(3) Closing costs incident to the disposition of the actual residence owned by the employee when notified of the transfer (*e.g.*, brokerage fees, legal fees, appraisal fees, points, and finance charges), except that these costs, when added to the costs described in paragraph (a)(4) of this section, must not exceed 14 percent of the sales price of the property sold.

(4) Continuing costs of ownership of the vacant former actual residence being sold, such as maintenance of building and grounds (exclusive of fixing up expenses), utilities, taxes, property insurance, and mortgage interest, after the settlement date or lease date of a new permanent residence, except that these costs, when added to the costs described in paragraph (a)(3) of this section, must not exceed 14 percent of the sales price of the property sold.

(5) The cost of a mortgage title policy is allowable if it is a cost incident to acquiring a home in a new location.

(6) Other necessary and reasonable expenses normally incident to relocation, such as disconnecting and connecting household appliances; automobile registration; driver's license and use taxes; cutting and fitting rugs, draperies, and curtains; forfeited utility fees and deposits; and purchase of insurance against damage to or loss of personal property while in transit.

(7) Costs incident to acquiring a home in the new work location, except that—

(i) These costs are not allowable for existing employees or newly recruited employees who were not homeowners before the relocation; and

(ii) The total costs must not exceed 5 percent of the purchase price of the new home.

(8) Mortgage interest differential payments, except that these costs are not allowable for existing or newly recruited employees who, before the relocation, were not homeowners and the total payments are limited to an amount determined as follows:

(i) The difference between the mortgage interest rates of the old and new residences times the current balance of the old mortgage times 3 years.

(ii) When mortgage differential payments are made on a lump-sum basis and the employee leaves or is transferred again in less than 3 years, the amount initially recognized must be proportionately adjusted to reflect payments only for the actual time of the relocation.

(9) Rental differential payments covering situations where relocated employees retain ownership of a vacated home in the old location and rent at the new location. The rented quarters at the new location must be comparable to those vacated, and the allowable differential payments may not exceed the actual rental costs for the new home, less the fair market rent for the vacated home times 3 years.

(10) Costs of canceling an unexpired lease.

(11) Payments for increased employee income or Federal Insurance Contributions Act (26 U.S.C. chapter 21) taxes incident to allowable reimbursed relocation costs.

(12) Payments for spouse employment assistance.

(b) The costs in paragraph (a) of this section must meet the following criteria to be considered allowable:

(1) The move must be for the benefit of the employer.

(2) Reimbursement must be in accordance with an established policy or practice that is consistently followed by the employer and is designed to motivate employees to relocate promptly and economically.

(3) The costs must not be otherwise unallowable under subpart 31.2.

(4) Amounts to be reimbursed must not exceed the employee's actual expenses, except as provided for in paragraphs (b)(5) and (b)(6) of this section.

(5) For miscellaneous costs of the type discussed in paragraph (a)(6) of this subsection, a lump-sum amount, not to exceed $5,000, may be allowed in lieu of actual costs.

(6) (i) Reimbursement on a lump-sum basis may be allowed for any of the following relocation costs when adequately supported by data on the individual elements (e.g., transportation, lodging, and meals) comprising the build-up of the lump-sum amount to be paid based on the circumstances of the particular employee's relocation:

(A) Costs of finding a new home, as discussed in paragraph (a)(2) of this section.

(B) Costs of travel to the new location, in accordance with paragraph (a)(1) of this section (but not costs for the transportation of household goods).

(C) Costs of temporary lodging, in accordance with paragraph (a)(2) of this section.

(ii) When reimbursement on a lump-sum basis is used, any adjustments to reflect actual costs are unallowable.

(c) The following types of costs are unallowable:

(1) Loss on the sale of a home.

(2) Costs incident to acquiring a home in the new location as follows:

(i) Real estate brokers' fees and commissions.

(ii) Costs of litigation.

(iii) Real and personal property insurance against damage or loss of property.

(iv) Mortgage life insurance.

(v) Owner's title policy insurance when such insurance was not previously carried by the employee on the old residence.

(vi) Property taxes and operating or maintenance costs.

(3) Continuing mortgage principal payments on a residence being sold.

(4) Costs incident to furnishing equity or nonequity loans to employees or making arrangements with lenders for employees to obtain lower-than-market rate mortgage loans.

(d) If relocation costs for an employee have been allowed as an allocable indirect or direct cost, and the employee resigns within 12 months for reasons within the employee's control, the contractor must refund or credit the relocation costs to the Government.

(e) Subject to the requirements of this section, the costs of family movements and of personnel movements of a special or mass nature are allowable. The cost, however, should be assigned on the basis of work (contracts) or time period benefited.

(f) Relocation costs (both outgoing and return) of employees who are hired for performance on specific contracts or long-term field projects are allowable if the—

(1) Term of employment is 12 months or more;

(2) Employment agreement specifically limits the duration of employment to the time spent on the contract or field project for which the employee is hired;

(3) Employment agreement provides for return relocation to the employee's permanent and principal home immediately prior to the outgoing relocation, or other location of equal or lesser cost; and

(4) Relocation costs are determined in accordance with this section.

(5) The costs to return employees, who are released from employment upon completion of field assignments pursuant to their employment agreements, are not subject to the refund or credit requirement of paragraph (d) of this section.

31.205-36 Rental costs.

(a) This section is applicable to the cost of renting or leasing real or personal property acquired under operating leases as defined in Financial Accounting Standards Board's Accounting Standards Codification (FASB ASC) 842, Leases. (See 31.205-11 for capital leases.)

(b) The following costs are allowable—

(1) Rental costs under operating leases, when the rates are reasonable at the time of the lease decision, after consideration of—

(i) Rental costs of comparable property, if any;

(ii) Market conditions in the area;

(iii) The type, life expectancy, condition, and value of the property leased;

(iv) Alternatives available; and

(v) Other provisions of the agreement.

(2) Rental costs under a sale and leaseback arrangement only up to the amount the contractor would be allowed if the contractor retained title, and the computation of which is based on the net book value of the asset on the date the contractor becomes a lessee of the property adjusted for any gain or loss recognized in accordance with 31.205-16(b).

(3) Charges in the nature of rent for property between any divisions, subsidiaries, or organization under common control—

(i) To the extent that they do not exceed the normal costs of ownership, such as depreciation, taxes, insurance, facilities capital cost of money, and maintenance (excluding interest or other unallowable costs pursuant to part 31); and

(ii) Provided that no part of such costs must duplicate any other allowed cost

(4) Rental cost of personal property leased from any division, subsidiary, or affiliate of the contractor under common control, that has an established practice of leasing the same or similar property to unaffiliated lessees must be allowed in accordance with paragraph (b)(1) of this section.

(c) The allowability of rental costs under unexpired leases in connection with terminations is subject to 31.205-42(e).

31.205-37 Royalties and other costs for use of patents.

(a) Royalties on a patent or amortization of the cost of purchasing a patent or patent rights necessary for the proper performance of the contract and applicable to contract products or processes are allowable unless—

(1) The Government has a license or the right to a free use of the patent;

(2) The patent has been adjudicated to be invalid, or has been administratively determined to be invalid;

(3) The patent is considered to be unenforceable; or

(4) The patent is expired.

(b) Care should be exercised in determining reasonableness when the royalties may have been arrived at as a result of less-than-arm's-length bargaining, including royalties—

(1) Paid to persons, including corporations, affiliated with the contractor;

(2) Paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government contract would be awarded; or

(3) Paid under an agreement entered into after the contract award.

(c) The royalty amount allowed for a patent formerly owned by a contractor should not exceed the cost that would have been allowed had the contractor retained title.

31.205-38 Selling costs.

(a) (1) Selling encompasses all efforts to market the contractor's products or services, some of which are addressed in other sections of 31.205.

(2) The costs of any selling efforts other than those addressed in this cost principle are unallowable.

(b) Selling activity includes the following broad categories:

(1) *Advertising*. Advertising is defined at 31.205-1(b), and advertising costs are subject to the allowability provisions of 31.205-1(d) and (f).

(2) *Corporate image enhancement*. Corporate image enhancement activities, including broadly targeted sales efforts, other than advertising, are included within the definition of public relations at 31.205-1(a), and the costs of such efforts are subject to the allowability provisions at 31.205-1(e) and (f).

(3) *Bid and proposal costs*. Bid and proposal costs are defined at 31.205-18 and are subject to the allowability provisions of that section.

(4) *Market planning*. Market planning involves market research and analysis and general management planning concerned with development of the contractor's business. Long-range market planning costs are subject to the allowability provisions of 31.205-12. Other market planning costs are allowable.

(5) *Direct selling*. Direct selling efforts are those acts or actions to induce particular customers to purchase particular products or services of the contractor. Direct selling is characterized by person-to-person contact and includes such efforts as familiarizing a potential customer with the contractor's products or services, conditions of sale, service capabilities, etc. It also includes negotiation, liaison between customer and contractor personnel, technical and consulting efforts, individual demonstrations, and any other efforts having as their purpose the application or adaptation of the contractor's products or services for a particular customer's use. The cost of direct selling efforts is allowable.

(c) Notwithstanding any other limitation of this section, seller or agent compensation, fees, commissions, percentages, retainer or brokerage fees, whether or not contingent upon the award of contracts, are allowable only when paid to bona fide employees or established commercial or selling agencies maintained by the contractor for the purpose of securing business.

31.205-39 Service and warranty costs.

(a) Service and warranty costs include those arising from the fulfillment of any contractual obligation of a contractor to provide services, such as installation, training, correcting defects in the products, replacing defective parts, and making refunds in the case of inadequate performance.

(b) When consistent with the terms of the contract, service and warranty costs are allowable. However, care should be exercised to avoid duplication of the allowance as an element of both estimated product cost and risk.

31.205-40 Special tooling and special test equipment costs.

(a) Except as provided in paragraph (b), the cost of special tooling and special test equipment used in performing one or more Government contracts is allowable and must be allocated to the specific Government contract or contracts for which it is acquired.

(b) Depreciation or amortization is the only allowable cost for special tooling and special test equipment—

(1) Acquired or replaced by the contractor before the effective date of the contract, whether or not altered or adapted for use in performing the contract; or

(2) Specifically excluded in the contract schedule.

(c) The cost to adapt contractor-owned special tooling or special test equipment for use under a contract is an allowable cost. The cost to return the equipment to its prior configuration is also an allowable cost.

31.205-41 Taxes.

(a) *Definition*.

Exemption, as used in this section, means freedom from taxation, in whole or in part, and includes a tax abatement or reduction resulting from mode of assessment, method of calculation, or otherwise.

(b) The following types of costs are allowable:

(1) Federal, State, and local taxes (see part 29) that are required to be and are paid or accrued in accordance with generally accepted accounting principles.

(2) Taxes otherwise allowable under paragraph (b)(1) of this section, but upon which a claim of illegality or erroneous assessment exists, are allowable provided the contractor, before paying such taxes—

(i) Promptly requests instructions from the contracting officer concerning such taxes; and

(ii) Takes all action directed by the contracting officer arising out of paragraph (b)(2)(i) of this section or an independent decision of the Government as to the existence of a claim of illegality or erroneous assessment, to—

(A) Determine the legality of the assessment; or

(B) Secure a refund of such taxes.

(3) Interest or penalties incurred by the contractor for non-payment of any tax at the direction of the contracting officer or by reason of the failure of the contracting officer to ensure timely direction after a prompt request.

(4) The Environmental Tax, also known as the Superfund Tax, (section 59A of the Internal Revenue Code).

(c) The following types of costs are not allowable:

(1) Federal income and excess profits taxes.

(2) Taxes in connection with financing, refinancing, refunding operations, or reorganizations (see 31.205-20 and 31.205-27).

(3) Taxes from which exemptions are available to the contractor directly, or available to the contractor based on an exemption afforded the Government, except when the contracting officer determines that the administrative burden incident to obtaining the exemption outweighs the corresponding benefits accruing to the Government. When partial exemption from a tax is attributable to Government contract activity, taxes charged to such work in excess of that amount resulting from application of the preferential treatment. These provisions intend that the tax preference attributable to the Government contract activity be realized by the Government.

(4) Special assessments on land that represent capital improvements.

(5) Taxes (including excises) on real or personal property, or on the value, use, possession or sale of such property, which is used solely in connection with work other than on Government contracts.

(6) Any excise tax in subtitle D, Chapter 43 of the Internal Revenue Code of 1986, which includes excise taxes imposed in connection with qualified pension plans, welfare plans, deferred compensation plans, or other similar types of plans.

(7) Income tax accruals designed to account for the tax effects of differences between taxable income and pretax income as reflected by the books of account and financial statements.

(8) Any tax imposed under 26 U.S.C. 5000C.

(d) Taxes on property used solely in connection with non-Government or Government work should be considered directly applicable to the respective category of work unless the amounts involved are insignificant or comparable results would otherwise be obtained, for example—

(1) Taxes on contractor-owned work-in-process that is used solely in connection with non-Government work should be allocated to such work;

(2) Taxes on contractor-owned work-in-process inventory (and Government-owned work-in-process inventory when taxed) used solely in connection with Government work should be charged to such work; and

(3) The cost of taxes incurred on property used in both Government and non-Government work must be apportioned to all such work based upon the use of such property on the respective final cost objectives.

(e) Any taxes, interest, or penalties that were allowed as contract costs and are refunded to the contractor must be credited or paid to the Government as directed by the contracting officer.

(1) If a contractor or subcontractor obtains a foreign tax credit that reduces its Federal income tax return because of the payment of any tax or duty allowed as contract costs, and if those costs were reimbursed by a foreign government, the amount of the reduction must be paid to the United States Treasury at the time the Federal income tax return is filed.

(2) Any interest actually paid or credited to a contractor incident to a refund of tax, interest, or penalty must be paid or credited to the Government only to the extent that such interest accrued over the period during which the contractor had been reimbursed by the Government for the taxes, interest, or penalties.

31.205-42 Termination costs.

The following cost principles apply to contract terminations and are used in conjunction with the other cost principles in this subpart:

(a) *Common items.* The contracting officer should consider the contractor's plans and orders for current and planned production when determining if items can reasonably be used on other work of the contractor.

(1) The costs of items reasonably usable on the contractor's other work must not be allowable unless the contractor submits evidence that the items could not be retained at cost without sustaining a loss.

(2) Contemporaneous purchases of common items by the contractor must be regarded as evidence that such items are reasonably usable on the contractor's other work.

(3) Any acceptance of common items as allocable to the terminated portion of the contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(b) *Costs continuing after termination.*

(1) Despite all reasonable efforts by the contractor, costs that cannot be discontinued immediately after the effective date of termination are generally allowable.

(2) Costs continuing after the effective date of the termination due to the negligent or willful failure of the contractor to discontinue the costs must be unallowable.

(c) *Initial costs.* Initial costs, including starting load and preparatory costs, are allowable as follows:

(1) Starting load costs, not fully absorbed because of termination, are nonrecurring labor, material, and related overhead costs incurred in the early part of production and result from factors such as—

(i) Excessive spoilage due to inexperienced labor;

(ii) Idle time and subnormal production due to testing and changing production methods;

(iii) Training; and

(iv) Lack of familiarity or experience with the product, materials, or manufacturing processes.

(2) Preparatory costs incurred in preparing to perform the terminated contract include such costs as those incurred for initial plant rearrangement and alterations, management and personnel organization, and production planning. They do not include special machinery and equipment and starting load costs.

(3) When initial costs are included in the settlement proposal as a direct charge, such costs must not be included in overhead. Initial costs attributable to only one contract must not be allocated to other contracts.

(4) If initial costs are claimed and they have not been segregated on the contractor's books, they must be segregated for settlement purposes from cost reports and schedules reflecting that high unit cost incurred during the early stages of the contract.

(5) If the settlement proposal is on the inventory basis, initial costs should normally be allocated on the basis of total end items called for by the contract immediately before termination; however, if the contract includes end items of a diverse nature, some other equitable basis may be used, such as machine or labor hours.

(d) *Loss of useful value.* Loss of useful value of special tooling, and special machinery and equipment is generally allowable, provided the—

(1) Special tooling, or special machinery and equipment is not reasonably capable of use in the other work of the contractor;

(2) Government's interest is protected by transfer of title or by other means deemed appropriate by the contracting officer; and

(3) Loss of useful value for any one terminated contract is limited to that portion of the acquisition cost, which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract, and other Government contracts for which the special tooling, or special machinery and equipment was acquired.

(e) *Rental under unexpired leases.* Rental costs under unexpired leases, less the residual value of such leases, are allowable when reasonably necessary for the performance of the terminated contract, if—

(1) The amount of rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable; and

(2) The contractor makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

(f) *Alterations of leased property.* The cost of alterations and reasonable restorations required by the lease may be allowed when the alterations were necessary for performing the contract.

(g) *Settlement expenses*. (1) Settlement expenses, including the following, are generally allowable:

(i) Accounting, legal, clerical, and similar costs reasonably necessary for—

(A) The preparation and presentation of settlement claims, including supporting data, to the contracting officer; and

(B) The termination and settlement of subcontracts.

(ii) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the contract.

(iii) Indirect costs related to salary and wages incurred as settlement expenses in paragraphs (g)(1)(i) and (g)(1)(ii); normally, such indirect costs must be limited to payroll taxes, fringe benefits, occupancy costs, and immediate supervision costs.

(2) If settlement expenses are significant, a cost account or work order must be established to separately identify and accumulate them.

(h) *Subcontractor claims.*

(1) Subcontractor claims, including the allocable portion of the claims common to the contract and to other work of the contractor, are generally allowable.

(2) An appropriate share of the contractor's indirect expense may be allocated to the amount of settlements with subcontractors provided that the amount allocated is reasonably proportionate to the relative benefits received and is otherwise consistent with 31.201-4 and 31.203(d). The indirect expense so allocated must exclude the same and similar costs claimed directly or indirectly as settlement expenses.

31.205-43 Trade, business, technical, and professional activity costs.

The following types of costs are allowable:

(a) Memberships in trade, business, technical, and professional organizations.

(b) Subscriptions to trade, business, professional, or other technical periodicals.

(c) When the principal purpose of a meeting, convention, conference, symposium, or seminar is the dissemination of trade, business, technical or professional information or the stimulation of production or improved productivity—

(1) Costs of organizing, setting up, and sponsoring the meetings, conventions, symposia, etc., including rental of meeting facilities, transportation, subsistence, and incidental costs;

(2) Costs of attendance by contractor employees, including travel costs (see 31.205-46); and

(3) Costs of attendance by individuals who are not employees of the contractor when—

(i) Such costs are not also reimbursed to the individual by the employing company or organization, and

(ii) The individual's attendance is essential to achieve the purpose of the conference, meeting, convention, symposium, etc.

31.205-44 Training and education costs.

Costs for employee training and education that are related to the field in which the employee works, or may reasonably be expected to work, are allowable except for the following:

(a) Overtime compensation for training and education is unallowable.

(b) The cost of salaries for attending undergraduate level classes or part-time graduate level classes during working hours is unallowable, except when unusual circumstances do not permit attendance at such classes outside of working hours.

(c) Costs of tuition, fees, training materials, textbooks, subsistence, salary, and any other payments in connection with full-time graduate level education, are unallowable for any portion of the program that exceeds two school years or the length of the degree program, whichever is less.

(d) Grants to educational or training institutions, including the donation of facilities or other properties, scholarships, and fellowships are considered contributions and are unallowable.

(e) Training or education costs for other than bona fide employees are unallowable, except that the costs incurred for educating employee dependents (primary and secondary level studies) when the employee is working in a foreign country where suitable public education is not available may be included in overseas differential pay.

(f) Contractor contributions to college savings plans for employee dependents are unallowable.

31.205-45 [Reserved]

31.205-46 Travel costs.

(a) *Costs for transportation, lodging, meals, and incidental expenses*. (1) Costs incurred by contractor personnel on official company business are allowable, subject to the limitations contained in this section.

(i) Costs for transportation may be based on mileage rates, actual costs incurred, or on a combination thereof, provided the method used results in a reasonable charge.

(ii) Costs for lodging, meals, and incidental expenses may be based on per diem, actual expenses, or a combination thereof, provided the method used results in a reasonable charge.

(2) Except as provided in paragraph (a)(3) of this section, costs incurred for lodging, meals, and incidental expenses, must be considered to be reasonable and allowable only to the extent that they do not exceed, on a daily basis, the maximum per diem rates in effect at the time of travel as set forth in the—

(i) Federal Travel Regulation (FTR), prescribed by the General Services Administration, for travel in the United States, available at chapters 300 through 304 of title 41 CFR;

(ii) Joint Travel Regulations (JTR), prescribed by the Department of Defense, for the United States and its outlying areas, available at https://www.travel.dod.mil/Policy-Regulations/Joint-Travel-Regulations/; or

(iii) Standardized Regulations (Government Civilians, Foreign Areas), section 925, Maximum Travel Per Diem Allowances of Foreign Areas, prescribed by the Department of State, for travel in areas not covered in (a)(2)(i) and (ii) of this paragraph, available at https://allowances.state.gov/content.asp?content_id=134&menu_id=75.

(3) In unusual situations, actual costs in excess of the maximum per diem rates are allowable provided that such amounts do not exceed the higher amounts authorized for Federal civilian employees as permitted in the regulations referenced in paragraph (a)(2) (i), (ii), or (iii) or this section. For such higher amounts to be allowable, the following conditions must be met:

(i) One of the conditions warranting approval of the actual expense method, as set forth in the regulations referred in paragraph (a)(2)(i), (ii), or (iii) of this section, must exist.

(ii) A written justification for use of the higher amounts must be approved by an official of the contractor's organization.

(iii) If it becomes necessary to exercise the authority to use the higher actual expense method repetitively or on a continuing basis in a particular area, the contractor must obtain advance approval from the contracting officer.

(iv) Documentation to support actual costs incurred must be in accordance with the contractor's established practices, subject to paragraph (a)(7) of this section, and a receipt is required for each expenditure of $75.00 or more. The approved justification required by paragraph (a)(3)(ii) of this section and, if applicable, paragraph (a)(3)(iii) of this section must be retained.

(4) Paragraphs (a)(2) and (a)(3) of this section do not incorporate the regulations cited in paragraphs (a)(2)(i), (ii), and (iii) of this section in their entirety. Only the maximum per diem rates, the definitions of lodging, meals, and incidental expenses, and the regulatory coverage dealing with unusual situations are addressed.

(5) Contracting officers should consider an advance agreement to address compliance with paragraphs (a)(2) and (3) of this section (see 31.110).

(6) (i) The maximum per diem rates referenced in paragraph (a)(2) of this section generally would not constitute a reasonable daily charge—

(A) When no lodging costs are incurred; and/or

(B) On partial travel days (e.g., day of departure and return).

(ii) (A) The contractor must make appropriate downward adjustments from the maximum per diem rates under these circumstances.

(B) While these adjustments need not be calculated in accordance with the FTR or JTR, they must result in a reasonable charge.

(7) Costs must be allowable only if the following information is documented-

(i) Date and place (city, town, or other similar designation) of the expenses;

(ii) Purpose of the trip; and

(iii) Name of person on trip and that person’s title or relationship to the contractor.

(b) *Excess airfare costs*. (1) Airfare costs in excess of the lowest priced airfare available to the contractor during normal business hours are unallowable except when the lowest price airfare results in—

(i) Circuitous routing;

(ii) Travel during unreasonable hours;

(iii) Excessively prolonged travel;

(iv) Increased costs that would offset transportation savings;

(v) Unreasonable or inadequate conditions for the physical or medical needs of the traveler; or

(vi) An inability to meet mission requirements.

(2) Airfare costs in excess of the lowest priced airfare that meet the criteria in paragraph (b)(1) of this section are allowable if documented and justified.

(c) *Cost of travel by contractor-owned, -leased, or -chartered aircraft*. This includes the cost of lease, charter, operation (including personnel), maintenance, depreciation, insurance, and other related costs.

(1) Such costs are limited to the allowable airfare described in paragraph (b) of this section for the flight destination unless this manner of travel is specifically required by the contract or a higher amount is approved by the contracting officer.

(2) A higher amount may be agreed to when the criteria in paragraph (b) of this section are met, or when an advance agreement under paragraph (5) of this section has been executed.

(3) In all cases, travel by contractor-owned, -leased, or -chartered aircraft must be fully documented and justified.

(4) For each contractor-owned, -leased, or -chartered aircraft used for any business purpose which is charged or allocated, directly or indirectly, to a Government contract, the contractor must maintain and make available manifest/logs for all flights on such company aircraft. As a minimum, the manifest/log must indicate—

(i) Date, time, and points of departure;

(ii) Destination, date, and time of arrival;

(iii) Name of each passenger and relationship to the contractor;

(iv) Authorization for trip; and

(v) Purpose of trip.

(5) Where an advance agreement is proposed (see 31.110), consideration may be given to the following:

(i) Whether scheduled commercial airlines or other suitable, less costly, travel accommodations are available at reasonable times, with reasonable frequency, and serve the required destinations conveniently.

(ii) Whether increased flexibility in scheduling results in time savings and more effective use of personnel that would outweigh additional travel costs.

(d) (1) Costs of contractor-owned or leased automobiles, as used in this paragraph, include the costs of lease, operation (including personnel), maintenance, depreciation, insurance, etc., and are allowable, if reasonable, to the extent that the automobiles are used for company business.

(2) That portion of the cost of company-furnished automobiles that relates to personal use by employees (including transportation to and from work) is compensation for personal services and is unallowable.

31.205-47 Costs related to legal and other proceedings.

(a) *Definitions.* As used in this section-

Costs means costs including administrative and clerical expenses; the costs of legal services, whether performed by in-house or private counsel; the costs of the services of accountants, consultants, or others retained by the contractor to assist it; costs of employees, officers, and directors; and any similar costs incurred before, during, and after commencement of a judicial or administrative proceeding, which bears a direct relationship to the proceedings.

Fraud means acts—

(1) Of fraud or corruption or attempts to defraud the Government or to corrupt its agents;

(2) That constitute a cause for debarment or suspension under 9.406-2(a) and 9.407-2(a); and

(3) That violate the False Claims Act, 31 U.S.C., sections 3729-3731, or 41 U.S.C. chapter 87, Kickbacks.

Penalty does not include restitution, reimbursement, or compensatory damages.

Proceeding includes an investigation.

(b) Costs incurred in connection with any proceeding brought by a Federal, State, local, or foreign government for a violation of, or failure to comply with, law or regulation by the contractor (including its agents or employees) (41 U.S.C. 4310 and 10 U.S.C. 3750); a contractor or subcontractor employee submitting a whistleblower complaint of reprisal in accordance with 41 U.S.C. 4712 or 10 U.S.C.4701; or third party, in the name of the United States under the False Claims Act (31 U.S.C. 3730), are unallowable if the result is—

(1) In a criminal proceeding, a conviction;

(2) In a civil or administrative proceeding, either—

(i) A finding of contractor liability where the proceeding involves an allegation of fraud or similar misconduct; or

(ii) The imposition of a monetary penalty, or an order issued by the agency head to the contractor or subcontractor to take corrective action under 41 U.S.C. 4712 or 10 U.S.C. 4701, where the proceeding does not involve an allegation of fraud or similar misconduct; or

(3) A final decision by an appropriate official of an executive agency to:

(i) Debar or suspend the contractor;

(ii) Rescind or void a contract; or

(iii) Terminate a contract for default by reason of a violation or failure to comply with a law or regulation; or

(4) Disposition of the matter by consent or compromise if the proceeding could have led to any of the outcomes listed in paragraphs (b) (1) through (3) of this section (but see paragraphs (c) and (d) of this section); or

(5) Not covered by paragraphs (b) (1) through (3) of this section, but where the underlying alleged contractor misconduct was the same as that which led to a different proceeding whose costs are unallowable by reason of paragraphs (b) (1) through (3) of this section.

(c) (1) To the extent costs are not otherwise unallowable, costs incurred in connection with any proceeding commenced by the United States (see paragraph (b) of this section) that is resolved by consent or compromise pursuant to an agreement entered into between the contractor and the United States, and which are unallowable (solely because of paragraph (b) of this section), may be allowed if specifically provided in such agreement.

(2) (i) In the event of a settlement of any proceeding brought by a third party under the False Claims Act in which the United States did not intervene, reasonable costs incurred by the contractor in connection with such a proceeding that are not otherwise unallowable by regulation or by separate agreement with the United States may be allowed if the contracting officer, in consultation with legal, determines that there was very little likelihood that the third party would have been successful on the merits.

(ii) In the event of disposition, by consent or compromise of a proceeding brought by a whistleblower for alleged reprisal in accordance with 41 U.S.C. 4712 or 10 U.S.C. 4701, reasonable costs incurred by a contractor or subcontractor in connection with such a proceeding that are not otherwise unallowable by regulation, or by agreement with the United States, may be allowed if the contracting officer, in consultation with legal, determines that there was very little likelihood that the claimant would have been successful on the merits.

(d) To the extent that the costs are not otherwise unallowable, costs incurred in connection with a proceeding under paragraph (b) of this section commenced by a State, local, or foreign government may be allowable when the contracting officer determines that the costs were incurred either as a:

(1) Direct result of a specific term or condition of a Government contract; or

(2) Result of compliance with specific written direction of the contracting officer.

(e) Costs incurred in connection with proceedings described in paragraph (b) of this section which are not made unallowable by that paragraph, may be allowable to the extent that—

(1) The costs are reasonable in relation to the activities required to deal with the proceeding and the underlying cause of action;

(2) The costs are not otherwise recovered from the Government or a third party, either directly as a result of the proceeding; and

(3) The percentage of costs allowed does not exceed the percentage determined to be appropriate considering the complexity of procurement litigation, generally accepted principles governing the award of legal fees in civil actions involving the United States as a party.

(i) Such percentage must not exceed 80 percent of the legal costs incurred.

(ii) Agreements reached under paragraph (c) of this section must be subject to this limitation. If, however, an agreement described in paragraph (c)(1) of this section explicitly states the amount of otherwise allowable incurred legal fees and limits the allowable recovery to 80 percent or less of the stated legal fees, no additional limitation need be applied.

(4) The amount of reimbursement allowed for legal costs in connection with any proceeding described in paragraph (c)(2) of this section must be determined by the contracting officer but must not exceed 80 percent of otherwise allowable legal costs incurred. No additional limitations need be applied.

(f) Costs not covered elsewhere in this section are unallowable if incurred in connection with—

(1) Defense against Government claims or appeals or the prosecution of claims or appeals against the Government;

(2) Organization, reorganization, (including mergers and acquisitions) or resisting mergers and acquisitions (see 31.205-27);

(3) Defense of antitrust suits;

(4) Defense of suits brought by employees or former employees of the contractor under 18 U.S.C. 1031, where the contractor was found liable or settled;

(5) Costs of legal, accounting, and consultant services and directly associated costs incurred in connection with the defense or prosecution of lawsuits or appeals between contractors arising from—

(i) An agreement or contract concerning a teaming arrangement, a joint venture, or similar arrangement of shared interest; or

(ii) Dual sourcing, coproduction, or similar programs, except when incurred as a result of compliance with specific terms and conditions of the contract or subcontract or written instructions from the contracting officer or when agreed to in writing by the contracting officer;

(6) Patent infringement litigation, unless otherwise provided for in the contract.

(7) Representation of, or assistance to, individuals, groups, or legal entities that the contractor is not legally bound to provide arising from an action where the party was convicted of the violation of a law or regulation or was found liable in a civil or administrative proceeding.

(8) Protests of Government solicitations or contract awards, or the defense against protests of such solicitations or contract awards, unless the costs of defending against a protest are incurred pursuant to a written request from the contracting officer.

(9) A Congressional investigation or inquiry into an issue that is the subject matter of a proceeding resulting in a disposition as described in paragraphs (b)(1) through (5) of this section (see 10 U.S.C. 3744(a)(17)).

(g) (1) Costs that may be unallowable under 31.205-47, including directly associated costs, must be segregated and accounted for separately by the contractor.

(2) When a proceeding covered by paragraph (b) and paragraphs (f)(4) and (f)(7) of this section is pending—

(i) The contracting officer must withhold payment of such costs; or

(ii) When determined to be in the best interests of the Government, the contracting officer may provide for conditional payment upon provision of adequate security, or other adequate assurance, and agreement by the contractor to repay all unallowable costs, plus interest, if the costs are subsequently determined to be unallowable.

31.205-48 Research and development costs.

(a) *Definition*.

Research and development, as used in this section, means the type of technical effort described in 31.205-18 but sponsored by a grant or required in the performance of a contract.

(b) When costs are incurred in excess of either the price of a contract or amount of a grant for research and development, the excess is unallowable under any other Government contract.

31.205-49 Goodwill.

(a) Goodwill is an unidentifiable intangible asset that originates under the purchase method of accounting for a business combination when the price paid by the acquiring company exceeds the sum of the identifiable individual assets acquired less liabilities assumed, based upon their fair values.

(b) The excess amount paid is commonly referred to as goodwill.

(c) Goodwill may arise from the acquisition of a company as a whole or a portion thereof.

(d) Any costs for amortization, expensing, write-off, or write-down of goodwill are unallowable.

31.205-50 [Reserved]

31.205-51 Costs of alcoholic beverages.

Costs of alcoholic beverages are unallowable.

31.205-52 Asset valuations resulting from business combinations.

(a) For tangible capital assets, when the purchase method of accounting for a business combination is used, whether or not the contract or subcontract is subject to CAS, the allowable depreciation and cost of money must be based on the capitalized asset values measured and assigned in accordance with 48 CFR 9904.404-50(d), if allocable, reasonable, and not otherwise unallowable.

(b) For intangible capital assets, when the purchase method of accounting for a business combination is used, allowable amortization and cost of money must be limited to the total of the amounts that would have been allowed had the combination not taken place.

Subpart 31.3 - Contracts With Educational Institutions

31.301 Purpose.

This subpart provides the principles for determining the cost of work performed by educational institutions under contracts and contract modifications with the Government.

31.302 General.

The OMB Uniform Guidance at 2 CFR part 200, subpart E and appendix III, provides principles for determining the costs applicable to work performed by educational institutions under contracts with the Government.

31.303 Requirements.

(a) Contracts that refer to this subpart for determining allowable costs under contracts with educational institutions must be deemed to refer to and must have the allowability of costs determined by the contracting officer in accordance with, the OMB Uniform Guidance at 2 CFR part 200, subpart E and appendix III, in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

Subpart 31.4 - [Reserved]

This page intentionally left blank.

Subpart 31.5 - [Reserved]

This page intentionally left blank.

Subpart 31.6 - Contracts With State, Local, and Federally Recognized Indian Tribal Governments

31.601 Purpose.

This subpart provides the principles for determining allowable cost of contracts, subcontracts, and modifications to contracts and subcontracts with State, local, and federally recognized Indian tribal governments.

31.602 General.

The OMB Uniform Guidance at 2 CFR part 200, subpart E and appendices V and VII sets forth the principles for determining the allowable costs of contracts and subcontracts with State, local, and federally recognized Indian tribal governments. These principles are for cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in financing a particular contract.

31.603 Requirements.

(a) Contracts that refer to this subpart for determining allowable costs under contracts with State, local and Indian tribal governments must be deemed to refer to and must have the allowability of costs determined by the contracting officer in accordance with, the OMB Uniform Guidance at 2 CFR part 200, subpart E and appendices V and VII, in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

(c) In accordance with 10 U.S.C. 3744, 41 U.S.C. 4304, 31 U.S.C. 3730, and 41 U.S.C. 4310, the following are unallowable:

(1) Costs of entertainment, including amusement, diversion, and social activities, and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities).

(2) Costs incurred to influence (directly or indirectly) legislative action on any matter pending before Congress, a State legislature, or a legislative body of a political subdivision of a State.

(3) Costs incurred in defense of any civil or criminal fraud proceeding or similar proceeding (including filing of any false certification) brought by the United States where the contractor is found liable or has pleaded nolo contendere to a charge of fraud or similar proceeding (including filing of a false certification).

(4) Payments of fines and penalties resulting from violations of, or failure to comply with, Federal, state, local, or foreign laws and regulations, except when incurred as a result of compliance with specific terms and conditions of the contract or specific written instructions from the contracting officer authorizing in advance such payments in accordance with applicable regulations in the FAR or an executive agency supplement to the FAR.

(5) Costs of any membership in any social, dining, or country club or organization.

(6) Costs of alcoholic beverages.

(7) Contributions or donations, regardless of the recipient.

(8) Costs of advertising designed to promote the contractor or its products.

(9) Costs of promotional items and memorabilia, including models, gifts, and souvenirs.

(10) Costs for travel by commercial aircraft which exceed the amount of the standard commercial fare.

(11) Costs incurred in making any payment (commonly known as a golden parachute payment), which is—

(i) In an amount in excess of the normal severance pay paid by the contractor to an employee upon termination of employment; and

(ii) Paid to the employee contingent upon, and following, a change in management control over, or ownership of, the contractor or a substantial portion of the contractor's assets.

(12) Costs of commercial insurance that protects against the costs of the contractor for correction of the contractor's own defects in materials or workmanship.

(13) Costs of severance pay paid by the contractor to a foreign national employed by the contractor under a service contract performed—

(i) Outside the United States, to the extent that the amount of the severance pay paid in any case exceeds the amount paid in industry involved under the customary or prevailing practice for firms in that industry providing similar services in the United States, as determined in accordance with the FAR; or

(ii) In a foreign country, if the termination of the employment of the foreign national is the result of the closing of, or curtailment of activities, at a United States facility in that country at the request of the government of that country.

(14) (i) Unless an exception at 31.205-47(c) or (d) applies, costs incurred by a contractor in connection with any criminal, civil, or administrative proceedings that result in dispositions described at 31.205-47(b)(1) through (5) commenced by:

(A) A Federal, State, local, or foreign government, for a violation of, or failure to comply with, law or regulation by the contractor (including its agents or employees);

(B) A contractor or subcontractor employee submitting a whistleblower complaint of reprisal in accordance with 41 U.S.C. 4712 or 10 U.S.C. 4701; or

(C) A third party in the name of the United States under the False Claims Act, 31 U.S.C. 3730.

(ii) For any proceedings in paragraph (c)(14)(i) of this section that does not result in a disposition described at 31.205-47(b)(1) through (5), or to which exceptions at 31.205-47(c) apply, the cost of that proceeding must be subject to the limitations in 31.205-47(e).

(15) Costs incurred in connection with a Congressional investigation or inquiry into an issue that is the subject matter of a proceeding resulting in a disposition as described at 31.205-47(b)(1) through (5).

Subpart 31.7 - Contracts with Nonprofit Organizations

31.701 Definition.

Nonprofit organization means a business entity organized and operated exclusively for charitable, scientific, or educational purposes, of which no part of the net earnings inure to the benefit of any private shareholder or individual, of which no substantial part of the activities is carrying on propaganda or otherwise attempting to influence legislation or participating in any political campaign on behalf of any candidate for public office, and which are exempt from federal income taxation under section 501 of the Internal Revenue Code.

31.702 General.

The OMB Uniform Guidance at 2 CFR part 200, subpart E and appendix IV, sets forth principles for determining the costs applicable to work performed by nonprofit organizations (as defined in the OMB Uniform Guidance at 2 CFR part 200) under contracts with the Government. See 31.108 for exceptions to the cost principles for nonprofit organizations.

31.703 Requirements.

(a) Contracts that refer to this subpart for determining allowable costs must be deemed to refer to and must have the allowability of costs determined by the contracting officer in accordance with, the OMB Uniform Guidance at 2 CFR part 200, subpart E and appendix IV in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost. However, under 10 U.S.C. 3744 and 41 U.S.C. 4304, the costs cited in 31.603(c) are unallowable.

This page intentionally left blank.

PART 32 - CONTRACT FINANCING

This page intentionally left blank.

32.000 Scope of part.

This part addresses policies and procedures for contract financing, funding and other payment matters. It implements 10 U.S.C. Chapter 277, 41 U.S.C. Chapter 45, and 50 U.S.C. Chapter 55, which authorize contract financing guarantees. This part addresses—

(a) Payment methods, including partial payments and progress payments based on percentage or stage of completion;

(b) Loan guarantees, advance payments, and progress payments based on costs;

(c) Administration of debts to the Government arising out of contracts;

(d) Contract funding, including the use of contract clauses limiting costs or funds;

(e) Assignment of claims to aid in private financing;

(f) Selected payment clauses;

(g) Financing of purchases of commercial products and commercial services;

(h) Financing of other than commercial purchases;

(i) Performance-based payments;

(j) Electronic funds transfer payments; and

(k) Fast payment procedures.

32.001 Definitions.

As used in this part—

Commercial interim payment means any payment that is not a commercial advance payment or a delivery payment. These payments are contract financing payments and not subject to the interest penalty provisions of the Prompt Payment Act in subpart 32.9.

Contract action means an action resulting in a contract, as defined in subpart 2.1, including actions for additional supplies or services outside the existing contract scope, but excludes actions that are within the scope and under the terms of the existing contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes.

Contract financing payment means an authorized Government disbursement of monies to a contractor prior to acceptance of supplies or services by the Government.

(1) Contract financing payments may include-

(i) Advance payments;

(ii) Performance-based payments;

(iii) Commercial advance, installment, and interim payments;

(iv) Progress payments based on cost under the clause at 52.232-16, Progress Payments;

(v) Progress payments based on a percentage or stage of completion (see 32.102(e)), except those made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, or the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and

(vi) Interim payments under a cost reimbursement contract, except for a cost reimbursement contract for services when Alternate I of the clause at 52.232-25, Prompt Payment, is used.

(2) Contract financing payments do not include-

(i) Invoice payments;

(ii) Payments for partial deliveries; or

(iii) Lease and rental payments.

Customary contract financing means that financing deemed by an agency to be available for routine use by contracting officers. Most customary contract financing arrangements should be usable by contracting officers without specific reviews or approvals by higher management.

Delivery payment means a payment for accepted supplies or services, including payments for accepted partial deliveries. Commercial financing payments are liquidated by deduction from these payments. Delivery payments are invoice payments for prompt payment purposes.

Designated billing office means the office or person (governmental or nongovernmental) designated in the contract where the contractor first submits invoices and contract financing requests. The contract might designate different offices to receive invoices and contract financing requests. The designated billing office might be-

(1) The Government disbursing office;

(2) The contract administration office;

(3) The office accepting the supplies delivered or services performed by the contractor;

(4) The contract audit office; or

(5) A nongovernmental agent.

Designated payment office means the office designated in the contract to make invoice payments or contract financing payments. Normally, this will be the Government disbursing office.

Due date means the date on which payment should be made.

Invoice payment means a Government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Government.

(1) Invoice payments include-

(i) Payments for partial deliveries that have been accepted by the Government;

(ii) Final cost or fee payments where amounts owed have been settled between the Government and the contractor;

(iii) For purposes of subpart 32.9 only, all payments made under the clause at , Payments Under Fixed-Price Construction Contracts, and the clause at , Payments Under Fixed-Price Architect-Engineer Contracts; and

(iv) Interim payments under a cost-reimbursement contract for services when Alternate I of the clause at , Prompt Payment, is used

(2) Invoice payments do not include contract financing payments.

Liquidate means to decrease a payment for an accepted supply item or service under a contract for the purpose of recouping financing payments previously paid to the contractor.

Unusual contract financing means any financing not deemed customary contract financing by the agency. Unusual contract financing is financing that is legal and proper under applicable laws, but that the agency has not authorized contracting officers to use without specific reviews or approvals by higher management.

32.002 Applicability of subparts.

(a) The following sections are applicable to all purchases:

(1) Sections 32.000 through 32.009.

(2) Subpart 32.3, Loan Guarantees for Defense Production.

(3) Subpart 32.6, Contract Debts.

(4) Subpart 32.7, Contract Funding.

(5) Subpart 32.8, Assignment of Claims.

(6) Subpart 32.9, Prompt Payment.

(7) Subpart 32.11, Electronic Funds Transfer.

(8) Subpart 32.12, Fast Payment Procedure.

(b) Subpart 32.2, Commercial Product and Commercial Service Purchase Financing, is applicable only to purchases of commercial products and commercial services under authority of part 12.

(c) The following subparts of this part are applicable to all purchases made under any authority other than part 12:

(1) Subpart 32.1, Financing for Other Than a Commercial Purchase.

(2) Subpart 32.4, Advance Payments for Other Than Commercial Acquisitions.

(3) Subpart 32.5, Progress Payments Based on Costs.

(4) Subpart 32.10, Performance-Based Payments.

32.003 Simplified acquisition procedures financing.

Unless agency regulations otherwise permit, contract financing must not be provided for purchases made under the authority of part 13.

32.004 Contract performance in foreign countries.

The enforceability of contract provisions for security of Government financing in a foreign jurisdiction is dependent upon local law and procedure. Prior to providing contract financing where foreign jurisdictions may become involved, the contracting officer must ensure the Government's security is enforceable. This may require the provision of additional or different security than that normally provided for in the standard contract clauses.

32.005 Consideration for contract financing.

(a) *Requirement.* (1) When a contract financing clause is included at the inception of a contract, there must be no separate consideration for the contract financing clause. The value of the contract financing to the contractor is expected to be reflected in either:

(i) A bid or negotiated price that will be lower than such price would have been in the absence of the contract financing, or

(ii) Contract terms and conditions, other than price, that are more beneficial to the Government than they would have been in the absence of the contract financing.

(2) Adequate new consideration is required for changes to, or the addition of, contract financing after award.

(b) *Amount of new consideration.* The contractor may provide new consideration by monetary or nonmonetary means, provided the value is adequate. The fair and reasonable consideration should approximate the amount by which the price would have been less had the contract financing terms been contained in the initial contract. In the absence of definite information on this point, the contracting officer should apply the following criteria in evaluating whether the proposed new consideration is adequate:

(1) The value to the contractor of the anticipated amount and duration of the contract financing at the imputed financial costs of the equivalent working capital.

(2) The estimated profit rate to be earned through contract performance.

(c) *Interest.* Except as provided in subpart 32.4, Advance Payments for Other Than Commercial Acquisitions, the contract must not provide for any other type of specific charges, such as interest, for contract financing.

32.006 Reduction or suspension of contract payments upon finding of fraud.

32.006-1 General.

(a) Under 10 U.S.C. 3806(j), the statutory authority implemented by this section is available to the Department of Defense (DoD) and the National Aeronautics and Space Administration; this statutory authority is not available to the United States Coast Guard. Under 41 U.S.C. 4506, this statutory authority is available to all agencies subject to Division C of subtitle I of title 41.

(b) 10 U.S.C. 3806(c) and 41 U.S.C. 4506 provide for a reduction or suspension of further payments to a contractor when the agency head determines there is substantial evidence that the contractor's request for advance, partial, or progress payments is based on fraud. This authority does not apply to commercial interim payments under subpart 32.2, or performance-based payments under subpart 32.10.

(c) The agency head may not delegate his or her responsibilities under these statutes below Level IV of the Executive Schedule.

(d) Authority to reduce or suspend payments under these statutes is in addition to other Government rights, remedies, and procedures.

(e) In accordance with these statutes, agency head determinations and decisions under this section may be made for an individual contract or any group of contracts affected by the fraud.

32.006-2 Definition.

Remedy coordination official, as used in this section, means the person or entity in the agency who coordinates within that agency the administration of criminal, civil, administrative, and contractual remedies resulting from investigations of fraud or corruption related to procurement activities. (See 10 U.S.C. 3806(a) and 41 U.S.C. 4506(a).)

32.006-3 Responsibilities.

(a) Agencies must establish appropriate procedures to implement the policies and procedures of this section.

(b) Government personnel must report suspected fraud related to advance, partial, or progress payments in accordance with agency regulations.

32.006-4 Procedures.

(a) In any case that an agency’s remedy coordination official finds substantial evidence that a contractor’s request for advance, partial, or progress payments under a contract awarded by that agency is based on fraud, the remedy coordination official must recommend that the agency head reduce or suspend further payments to the contractor. The remedy coordination official must submit to the agency head a written report setting forth the remedy coordination official’s findings that support each recommendation.

(b) Upon receiving a recommendation from the remedy coordination official under paragraph (a) of this section, the agency head must determine whether substantial evidence exists that the request for payment under a contract is based on fraud.

(c) If the agency head determines that substantial evidence exists, the agency head may reduce or suspend further payments to the contractor under the affected contract(s). Such reduction or suspension must be reasonably commensurate with the anticipated loss to the Government resulting from the fraud.

(d) When determining whether to reduce or suspend further payment(s), at a minimum, the agency head must consider—

(1) Any recommendation from investigating officers that disclosure of the allegations of fraud to the contractor may compromise an ongoing investigation;

(2) The anticipated loss to the Government as a result of the fraud;

(3) The contractor's overall financial condition and ability to continue performance if payments are reduced or suspended;

(4) How essential the contractor is to the national defense, or to the execution of the agency's official business; and

(5) Assessment of all documentation concerning the alleged fraud, including documentation submitted by the contractor in its response to the notice required by paragraph (e) of this section.

(e) Before making a decision to reduce or suspend further payments, the agency head must, in accordance with agency procedures-

(1) Notify the contractor in writing of the action proposed by the remedy coordination official and the reasons why (such notice must be sufficiently specific to allow the contractor to collect and present evidence addressing the aforesaid reasons); and

(2) Provide the contractor an opportunity to submit information within a reasonable time, in response to the action proposed by the remedy coordination official.

(f) When more than one agency has contracts affected by the fraud, the agencies must consider designating one agency as the lead agency for making the determination and decision.

(g) The agency must retain in its files the written justification for each-

(1) Decision of the agency head whether to reduce or suspend further payments; and

(2) Recommendation provided to the agency head in connection with such decision.

(h) Not later than 180 calendar days after the date of the reduction or suspension action, the remedy coordination official must—

(1) Review the agency head's determination on which the reduction or suspension decision is based; and

(2) Provide a recommendation to the agency head as to whether the reduction or suspension should continue.

32.006-5 Reporting.

(a) In accordance with 41 U.S.C. 4506(h), the head of an agency, other than the DoD, must prepare a report for each fiscal year in which a recommendation has been received pursuant to 32.006-4(a). Reports within the DoD must be prepared in accordance with 10 U.S.C. 3806(h)..

(b) In accordance with 41 U.S.C. 4506(h) and 10 U.S.C. 3806(h), each report must contain—

(1) Each recommendation made by the remedy coordination official;

(2) The actions taken on the recommendation(s), with reasons for such actions; and

(3) An assessment of the effects of each action on the Government.

32.007 Contract financing payments.

(a) Agency heads must not establish a time frame for making contract financing payments that is less than 7 days or exceeds 30 days from receipt of a proper contract financing request, subject to the provisions outlined in 32.009.

(b) A proper contract financing request must comply with the terms and conditions specified by the contract. The contractor must correct any defects in requests submitted in the manner specified in the contract or as directed by the contracting officer.

(c) The Government will not pay an interest penalty to the contractor as a result of delayed contract financing payments.

32.008 Notification of overpayment.

If the contractor notifies the contracting officer of a duplicate payment or that the Government has otherwise overpaid, the contracting officer must follow the procedures at 32.604.

32.009 Providing accelerated payments to small business contractors and to prime contractors that subcontract with a small business concern.

32.009-1 General.

(a) (1) Pursuant to 31 U.S.C. 3903(a), agencies other than the Department of Defense (DoD) must provide accelerated payments, to the fullest extent permitted by law, with a goal of 15 days after receipt of a proper invoice and all other required documentation, if a specific payment date is not established by contract, to—

(i) Small business contractors; and

(ii) Prime contractors that subcontract with a small business concern, if the prime contractor agrees to make payments to the small business subcontractor within 15 days of receiving the accelerated payment from the Government, after receipt of a proper invoice and all other required documentation from the small business subcontractor, to the maximum extent practicable, without any further consideration from or fees charged to the subcontractor.

(2) Pursuant to 10 U.S.C. 3801(b), DoD must provide accelerated payments, to the fullest extent permitted by law, with a goal of 15 days after receipt of a proper invoice and all other required documentation, to—

(i) Small business contractors; and

(ii) Prime contractors that subcontract with a small business concern, if the prime contractor agrees to make payments to the small business subcontractor within 15 days of receiving the accelerated payment from the Government, after receipt of a proper invoice and all other required documentation from the small business subcontractor, to the maximum extent practicable, without any further consideration from or fees charged to the subcontractor.

(b) This acceleration does not provide any new rights under the Prompt Payment Act and does not affect the application of the Prompt Payment Act late payment interest provisions.

(c) Agencies may use the Governmentwide commercial purchase card as a method of payment (see 32.1108) to facilitate accelerated payment, to earn refunds, and to reduce invoice processing costs.

32.009-2 Contract clause.

Insert clause 52.232-40, Providing Accelerated Payments to Small Business Subcontractors, in all solicitations and contracts.

Subpart 32.1 - Financing for Other Than a Commercial Purchase

32.100 Scope of subpart.

This subpart addresses policies and procedures applicable to contract financing and payment for any purchases other than purchases of commercial products or commercial services in accordance with part 12.

32.101 Authority.

The basic authority for the contract financing described in this part is contained in 41 U.S.C. chapter 45, 10 U.S.C. chapter 277, and Subchapter II of the Defense Production Act of 1950 (50 U.S.C. Chapter 55).

32.102 Description of contract financing methods.

(a) Advance payments are advances of money by the Government to a prime contractor before, in anticipation of, and for the purpose of complete performance under one or more contracts. They are expected to be liquidated from payments due to the contractor incident to performance of the contracts. Since they are not measured by performance, they differ from partial, progress, or other payments based on the performance or partial performance of a contract. Advance payments may be made to prime contractors for the purpose of making advances to subcontractors.

(b) Progress payments based on costs are made on the basis of costs incurred by the contractor as work progresses under the contract. This form of contract financing does not include-

(1) Payments based on the percentage or stage of completion accomplished;

(2) Payments for partial deliveries accepted by the Government;

(3) Partial payments for a contract termination proposal; or

(4) Performance-based payments.

(c) Loan guarantees are made by Federal Reserve banks, on behalf of designated guaranteeing agencies, to enable contractors to obtain financing from private sources under contracts for the acquisition of supplies or services for the national defense.

(d) [Reserved]

(e) (1) Progress payments based on a percentage or stage of completion are authorized by the statutes cited in 32.101.

(2) This type of progress payment may be used as a payment method under agency procedures. Agency procedures must ensure that payments are commensurate with work accomplished, which meets the quality standards established under the contract. In accordance with 10 U.S.C. 3804, progress payments must not exceed 80 percent of the eligible costs of work accomplished on undefinitized contract actions.

(f) Performance-based payments are contract financing payments made on the basis of-

(1) Performance measured by objective, quantifiable methods;

(2) Accomplishment of defined events; or

(3) Other quantifiable measures of results.

32.103 Progress payments under construction contracts.

When there is unsatisfactory progress by a contractor during any period for which a progress payment is to be made, a percentage of the progress payment may be retained. Retainage should not be used as a substitute for good contract management, and the contracting officer should not withhold funds without cause. Determinations to retain and the specific amount to be withheld must be made by the contracting officer on a case-by-case basis. Such decisions will be based on the contracting officer's assessment of past performance and the likelihood that such performance will continue. The amount of retainage withheld must not exceed 10 percent of the approved estimated amount in accordance with the terms of the contract and may be adjusted as the contract approaches completion to recognize improved performance, the ability to rely on alternative safeguards, and other factors. Upon completion of all contract requirements, retained amounts must be paid promptly.

32.104 Providing contract financing.

(a) Prudent contract financing can be a useful working tool in Government acquisition by expediting the performance of essential contracts. Contracting officers must consider the criteria in this part when determining whether to include contract financing in solicitations and contracts. Resolve doubts that lack of financing could affect performance by including contract financing in the solicitation. The contracting officer must—

(1) Provide Government financing only to the extent actually needed for prompt and efficient performance, considering the availability of private financing and the probable impact on working capital of the predelivery expenditures and production lead-times associated with the contract, or groups of contracts or orders (*e.g.,* issued under indefinite-delivery contracts, basic ordering agreements, or their equivalent);

(2) Administer contract financing to aid, not impede, the acquisition;

(3) Avoid any undue risk of monetary loss to the Government through the financing;

(4) Include the form of contract financing deemed to be in the Government's best interest in the solicitation (see 32.106 and 32.113); and

(5) Monitor the contractor's use of the contract financing provided and the contractor's financial status.

(b) If the contractor is a small business concern, the contracting officer must give special attention to meeting the contractor's contract financing need. However, a contractor's receipt of a certificate of competency from the Small Business Administration has no bearing on the contractor's need for or entitlement to contract financing.

(c) Subject to specific agency regulations and paragraph (d) of this section, the contracting officer-

(1) May provide customary contract financing in accordance with 32.113; and

(2) Must not provide unusual contract financing except as authorized in 32.114.

(d) Unless prohibited by agency procedures, the contracting officer may provide contract financing in the form of performance-based payments (see subpart 32.10) or customary progress payments (see subpart 32.5) if the following conditions are met:

(1) The contractor-

(i) Will not be able to bill for the first delivery of products for a substantial time after work must begin (normally 4 months or more for small business concerns, and 6 months or more for others), and will make expenditures for contract performance during the predelivery period that have a significant impact on the contractor's working capital; or

(ii) Demonstrates actual financial need or the unavailability of private financing.

(2) If the contractor is not a small business concern-

(i) For an individual contract, the contract price is $3.5 million or more; or

(ii) For an indefinite-delivery contract, a basic ordering agreement or a similar ordering instrument, the contracting officer expects the aggregate value of orders or contracts that individually exceed the simplified acquisition threshold to have a total value of $3.5 million or more. The contracting officer must limit financing to those orders or contracts that exceed the simplified acquisition threshold.

(3) If the contractor is a small business concern-

(i) For an individual contract, the contract price exceeds the simplified acquisition threshold; or

(ii) For an indefinite-delivery contract, a basic ordering agreement or a similar ordering instrument, the contracting officer expects the aggregate value of orders or contracts to exceed the simplified acquisition threshold.

32.105 Uses of contract financing.

(a) Contract financing methods covered in this part are intended to be self-liquidating through contract performance. Consequently, agencies must only use the methods for financing of contractor working capital, not for the expansion of contractor-owned facilities or the acquisition of fixed assets. However, under loan guarantees, exceptions may be made for-

(1) Facilities expansion of a minor or incidental nature, if a relatively small part of the guaranteed loan is used for the expansion and the contractor's repayment would not be delayed or impaired; or

(2) Other instances of facilities expansion for which contract financing is appropriate under agency procedures.

(b) The limitations in this section do not apply to contracts under which facilities are being acquired for Government ownership.

32.106 Order of preference.

The contracting officer must consider the following order of preference when a contractor requests contract financing, unless an exception would be in the Government's best interest in a specific case:

(a) Private financing without Government guarantee. It is not intended, however, that the contracting officer require the contractor to obtain private financing-

(1) At unreasonable terms; or

(2) From other agencies.

(b) Customary contract financing other than loan guarantees and certain advance payments (see 32.113).

(c) Loan guarantees.

(d) Unusual contract financing (see 32.114).

(e) Advance payments (see exceptions in 32.402(b)).

32.107 Need for contract financing not a deterrent.

(a) If the contractor or offeror meets the standards prescribed for responsible prospective contractors at 9.104, the contracting officer must not treat the contractor's need for contract financing as a handicap for a contract award, *e.g.,* as a responsibility factor or evaluation criterion.

(b) The contractor should not be disqualified from contract financing solely because the contractor failed to indicate a need for contract financing before the contract was awarded.

32.108 Financial consultation.

Each contracting office should have available and use the services of contract financing personnel competent to evaluate credit and financial problems. The contracting officer should consult the appropriate contract financing office to resolve any questions concerning-

(a) The financial capability of an offeror or contractor to perform a contract; or

(b) What form of contract financing is appropriate in a given case, the contracting officer should consult the appropriate contract financing office.

32.109 Termination financing.

To encourage contractors to invest their own funds in performance despite the susceptibility of the contract to termination for the convenience of the Government, the contract financing procedures under this part may be applied to the financing of terminations either in connection with or independently of financing for contract performance (see part 49).

32.110 Payment of subcontractors under cost-reimbursement prime contracts.

If the contractor makes financing payments to a subcontractor under a cost-reimbursement prime contract, the contracting officer should accept the financing payments as reimbursable costs of the prime contract only under the following conditions:

(a) The payments are made under the criteria in subpart 32.5 for customary progress payments based on costs, 32.202-1 for commercial product or commercial service purchase financing, or 32.1003 for performance-based payments, as applicable.

(b) If customary progress payments are made, the payments do not exceed the progress payment rate in 32.501-1, unless unusual progress payments to the subcontractor have been approved in accordance with 32.501-2.

(c) If customary progress payments are made, the subcontractor complies with the liquidation principles of 32.503-8, 32.503-9, and 32.503-10.

(d) If performance-based payments are made, the subcontractor complies with the liquidation principles of 32.1004(d).

(e) The subcontract contains financing payments terms as prescribed in this part.

32.111 Contract clauses for noncommercial purchases.

(a) The contracting officer must insert the following clauses, appropriately modified with respect to payment due dates, in accordance with agency regulations-

(1) The clause at 52.232-1, Payments, in solicitations and contracts when a fixed-price supply contract, a fixed-price service contract, or a contract for nonregulated communication services is contemplated;

(2) The clause at 52.232-2, Payment under Fixed-Price Research and Development Contracts, in solicitations and contracts when a fixed-price research and development contract is contemplated;

(3) The clause at 52.232-3, Payments under Personal Services Contracts, in solicitations and contracts for personal services;

(4) The clause at 52.232-4, Payments under Transportation Contracts and Transportation-Related Services Contracts, in solicitations and contracts for transportation or transportation-related services;

(5) The clause at 52.232-5, Payments under Fixed-Price Construction Contracts, in solicitations and contracts for construction when a fixed-price contract is contemplated;

(6) The clause at 52.232-6, Payments under Communication Service Contracts with Common Carriers, in solicitations and contracts for regulated communication services by common carriers; and

(7) The clause at 52.232-7, Payments under Time-and-Materials and Labor-Hour Contracts, in solicitations and contracts when a time-and-materials or labor-hour contract is contemplated. If the contracting officer determines that it is necessary to withhold payment to protect the Government's interests, paragraph (a)(7) of the clause permits the contracting officer to unilaterally issue a modification requiring the contractor to withhold 5 percent of amounts due, up to a maximum of $50,000 under the contract. The contracting officer must ensure that the modification specifies the percentage and total amount of the withhold payment. Normally, there should be no need to withhold payment for a contractor with a record of timely submittal of the release discharging the Government from all liabilities, obligations, and claims, as required by paragraph (g) of the clause.

(b) The contracting officer must insert the following clauses, appropriately modified with respect to payment due dates in accordance with agency regulations:

(1) The clause at 52.232-8, Discounts for Prompt Payment, in solicitations and contracts when a fixed-price supply contract or fixed-price service contract is contemplated.

(2) A clause, substantially the same as the clause at 52.232-9, Limitation on Withholding of Payments, in solicitations and contracts when a supply contract, research and development contract, service contract, time-and-materials contract, or labor-hour contract is contemplated that includes two or more terms authorizing the temporary withholding of amounts otherwise payable to the contractor for supplies delivered or services performed.

(c) The contracting officer must insert the following clauses, appropriately modified with respect to payments due dates, in accordance with agency regulations:

(1) The clause at 52.232-10, Payments under Fixed-Price Architect-Engineer Contracts, in fixed-price architect-engineer contracts.

(2) The clause at 52.232-11, Extras, in solicitations and contracts when a fixed-price supply contract, fixed-price service contract, or a transportation contract is contemplated.

32.112 Nonpayment of subcontractors under contracts other than for commercial products and commercial services.

32.112-1 Subcontractor assertions of nonpayment.

(a) In accordance with Section 806(a)(4) of Pub. L. 102-190 as amended (10 U.S.C. 4601 note prec.), upon the assertion by a subcontractor or supplier of a prime contractor that the subcontractor or supplier has not been paid in accordance with the payment terms of the subcontract, purchase order, or other agreement with the prime contractor, the contracting officer may determine—

(1) For a construction contract, whether the contractor has made-

(i) Progress payments to the subcontractor or supplier in compliance with the Prompt Payment Act (31 U.S.C. Chapter 39); or

(ii) Final payment to the subcontractor or supplier in compliance with the terms of the subcontract, purchase order, or other agreement with the prime contractor;

(2) For a contract other than construction, whether the contractor has made progress payments, final payments, or other payments to the subcontractor or supplier in compliance with the terms of the subcontract, purchase order, or other agreement with the prime contractor; or

(3) For any contract, whether the contractor's certification of payment of a subcontractor or supplier submitted with its payment request to the Government is accurate.

(b) If, in making the determination in paragraphs (a)(1) and (2) of this subsection, the contracting officer finds the prime contractor is not in compliance, the contracting officer may-

(1) Encourage the contractor to make timely payment to the subcontractor or supplier; or

(2) If authorized by the applicable payment clauses, reduce or suspend progress payments to the contractor.

(c) If the contracting officer determines that a certification referred to in paragraph (a)(3) of this section is inaccurate in any material respect, the contracting officer must initiate administrative or other remedial action.

32.112-2 Subcontractor requests for information.

(a) In accordance with Section 806(a)(4) of Pub. L. 102-190 as amended (10 U.S.C. 4601 note prec.), upon the request of a subcontractor or supplier under a Federal contract other than for a commercial product or commercial service, the contracting officer must promptly inform the subcontractor or supplier as to—

(1) Whether the prime contractor has submitted requests for progress payments or other payments to the Federal Government under the contract; and

(2) Whether final payment under the contract has been made by the Federal Government to the prime contractor.

(b) In accordance with 5 U.S.C. 552(b)(1), this section does not apply to matters that are-

(1) Specifically authorized under criteria established by an Executive order to be kept classified in the interest of national defense or foreign policy; and

(2) Properly classified pursuant to such Executive order.

32.113 Customary contract financing.

The solicitation must specify the customary contract financing offerors may propose. The following are customary contract financing when provided in accordance with this part and agency regulations:

(a) Financing of shipbuilding, or ship conversion, alteration, or repair, when agency regulations provide for progress payments based on a percentage or stage of completion.

(b) Financing of construction or architect-engineer services purchased under the authority of part 36.

(c) Financing of contracts for supplies or services awarded under the sealed bid method of procurement in accordance with part 14 through progress payments based on costs in accordance with subpart 32.5.

(d) Financing of contracts for supplies or services awarded under the competitive negotiation method of procurement in accordance with part 15, through either progress payments based on costs in accordance with subpart 32.5, or performance-based payments in accordance with subpart 32.10 (but not both).

(e) Financing of contracts for supplies or services awarded under a sole-source acquisition as defined in 2.101 and using the procedures of part 15, through either progress payments based on costs in accordance with subpart 32.5, or performance-based payments in accordance with subpart 32.10 (but not both).

(f) Financing of contracts for supplies or services through advance payments in accordance with subpart 32.4.

(g) Financing of contracts for supplies or services through guaranteed loans in accordance with subpart 32.3.

(h) Financing of contracts for supplies or services through any appropriate combination of advance payments, guaranteed loans, and either performance-based payments or progress payments (but not both) in accordance with their respective subparts.

32.114 Unusual contract financing.

Any contract financing arrangement that deviates from this part is unusual contract financing. Unusual contract financing must be authorized only after approval by the head of the agency or as provided for in agency regulations.

Subpart 32.2 - Commercial Product and Commercial Service Purchase Financing

32.200 Scope of subpart.

This subpart provides policies and procedures for commercial financing arrangements under commercial purchases pursuant to part 12.

32.201 Statutory authority.

(a) 10 U.S.C. 3805 and 41 U.S.C.4505 provide that payment for commercial products or commercial services may be made under such terms and conditions as the head of the agency determines are appropriate or customary in the commercial marketplace and are in the best interest of the United States.

(b) 31 U.S.C. 3324(d)(2) authorizes advance payments for subscriptions or other charges for newspapers, magazines, periodicals, or other publications (i.e., any publication printed, microfilmed, photocopied, or magnetically or otherwise recorded for auditory or visual usage).

32.202 General.

32.202-1 Policy.

(a) *Use of financing in contracts.* It is the responsibility of the contractor to provide all resources needed for performance of the contract. Thus, for purchases of commercial products or commercial services, financing of the contract is normally the contractor's responsibility. However, in some markets the provision of financing by the buyer is a commercial practice. In these circumstances, the contracting officer may include appropriate financing terms in contracts for commercial purchases when doing so will be in the best interest of the Government.

(b) *Authorization.* Commercial interim payments and commercial advance payments may be made under the following circumstances-

(1) The contract item financed is a commercial supply or service;

(2) The contract price exceeds the simplified acquisition threshold;

(3) The contracting officer determines that it is appropriate or customary in the commercial marketplace to make financing payments for the item;

(4) Authorizing this form of contract financing is in the best interest of the Government (see paragraph (e) of this section);

(5) Adequate security is obtained (see 32.202-4);

(6) Prior to any performance of work under the contract, the aggregate of commercial advance payments must not exceed 15 percent of the contract price;

(7) The contract is awarded on the basis of competitive procedures or, if only one offer is solicited, adequate consideration is obtained (based on the time value of the additional financing to be provided) if the financing is expected to be substantially more advantageous to the offeror than the offeror's normal method of customer financing; and

(8) The contracting officer obtains concurrence from the payment office concerning liquidation provisions when required by 32.206(e).

(c) *Difference from other than commercial financing.* Government financing of commercial purchases under this subpart is expected to be different from that used for other than commercial purchases under subpart 32.1 and its related subparts. While the contracting officer may adapt techniques and procedures from the other than commercial subparts for use in implementing commercial contract financing arrangements, the contracting officer must have a full understanding of effects of the differing contract environments and of what is needed to protect the interests of the Government in commercial contract financing.

(d) *Unusual contract financing.* Any contract financing arrangement not in accord with the requirements of agency regulations or this part is unusual contract financing and requires advance approval in accordance with agency procedures. If not otherwise specified, such unusual contract financing must be approved by the head of the contracting activity.

(e) *Best interest of the Government.* The statutes cited in 32.201 do not allow contract financing by the Government unless it is in the best interest of the United States. Agencies may establish standards to determine whether contract financing is in the best interest of the Government. These standards may be for certain types of procurements, certain types of items, or certain dollar levels of procurements.

32.202-2 Types of payments for commercial product and commercial service purchases.

These definitions incorporate the requirements of the statutory commercial financing authority and the implementation of the Prompt Payment Act.

Commercial advance payment, as used in this section, means a payment made before any performance of work under the contract. The aggregate of these payments must not exceed 15 percent of the contract price. These payments are contract financing payments and are not subject to the interest penalty provisions of the Prompt Payment Act in subpart 32.9. These payments are not subject to subpart 32.4, Advance Payments for Other Than Commercial Acquisitions.

Commercial interim payment as defined in 32.001.

Delivery payment as defined in 32.001.

32.202-3 Conducting market research about financing terms.

Contract financing may be a subject included in the market research conducted in accordance with part 10. If market research for contract financing is conducted, the contracting officer should consider-

(a) The extent to which other buyers provide contract financing for purchases in that market;

(b) The overall level of financing normally provided;

(c) The amount or percentages of any payments equivalent to commercial advance payments (see 32.202-2);

(d) The basis for any payments equivalent to commercial interim payments (see 32.001), as well as the frequency, and amounts or percentages; and

(e) Methods of liquidation of contract financing payments and any special or unusual payment terms applicable to delivery payments (see 32.001).

32.202-4 Security for Government financing.

(a) Policy. (1) 10 U.S.C. 3805 and 41 U.S.C.4505 require the Government to obtain adequate security for Government financing. The contracting officer must specify in the solicitation the type of security the Government will accept. If the Government is willing to accept more than one form of security, the offeror must be required to specify the form of security it will provide. If acceptable to the contracting officer, the resulting contract must specify the security (see 32.206(b)(1)(iv)).

(2) Subject to agency regulations, the contracting officer may determine the offeror's financial condition to be adequate security, provided the offeror agrees to provide additional security should that financial condition become inadequate as security (see paragraph (c) of the clause at 52.232-29, Terms for Financing of Purchases of Commercial Products and Commercial Services). Assessment of the contractor's financial condition must consider both net worth and liquidity. If the contracting officer finds the offeror's financial condition is not adequate security, the contracting officer must require other adequate security. Paragraphs (b), (c), and (d) of this section list other (but not all) forms of security that the contracting officer may find acceptable.

(3) The value of the security must be at least equal to the maximum unliquidated amount of contract financing payments to be made to the contractor. The value of security may be adjusted periodically during contract performance, as long as it is always equal to or greater than the amount of unliquidated financing.

(b) Paramount lien. (1) The statutes cited in 32.201 provide that if the Government's security is in the form of a lien, such lien is paramount to all other liens and is effective immediately upon the first payment, without filing, notice, or other action by the United States.

(2) When the Government's security is in the form of a lien, the contract must specify what the lien is upon, *e.g.,* the work in process, the contractor's plant, or the contractor's inventory. Contracting officers may be flexible in the choice of assets. The contract must also give the Government a right to verify the existence and value of the assets.

(3) Provision of Government financing must be conditioned upon a contractor certification that the assets subject to the lien are free from any prior encumbrances. Prior liens may result from such things as capital equipment loans, installment purchases, working capital loans, various lines of credit, and revolving credit arrangements.

(c) *Other assets as security.* Contracting officers may consider the guidance at 28.203 and 28.204 in determining which types of assets may be acceptable as security. For the purpose of applying the guidance in part 28 to this section, the term "surety" and/or "individual surety" should be interpreted to mean "offeror" and/or "contractor."

(d) *Other forms of security.* Other acceptable forms of security include-

(1) An irrevocable letter of credit from a federally insured financial institution;

(2) A bond from a surety, acceptable in accordance with part 28 (note that the bond must guarantee repayment of the unliquidated contract financing);

(3) A guarantee of repayment from a person or corporation of demonstrated liquid net worth, connected by significant ownership to the contractor; or

(4) Title to identified contractor assets of adequate worth.

(e) *Management of risk and security.* In establishing contract financing terms, the contracting officer must be aware of certain risks. For example, very high amounts of financing early in the contract (front-end loading) may unduly increase the risk to the Government. The security and the amounts and timing of financing payments must be analyzed as a whole to determine whether the arrangement will be in the best interest of the Government.

32.203 Determining contract financing terms.

When the criteria in 32.202-1(b) are met, the contracting officer may either specify the financing terms in the solicitation (see 32.204) or permit each offeror to propose its own customary financing terms (see 32.205). When the contracting officer has sufficient information on financing terms that are customary in the commercial marketplace for the item, those terms may be specified in the solicitation.

32.204 Procedures for contracting officer-specified commercial contract financing.

The financing terms must be included in the solicitation. Contract financing must not be a factor in the evaluation of resulting proposals, and proposals of alternative financing terms must not be accepted (but see 14.208 and 15.206 concerning amendments of solicitations). However, an offer stating that the contracting officer-specified contract financing terms will not be used by the offeror does not alter the evaluation of the offer, nor does it render the offer nonresponsive or otherwise unacceptable. In the event of award to an offeror who declined the proposed contract financing, the contract financing provisions must not be included in the resulting contract. Contract financing must not be a basis for adjusting offerors' proposed prices, because the effect of contract financing is reflected in each offeror's proposed prices.

32.205 Procedures for offeror-proposed commercial contract financing.

(a) Under this procedure, each offeror may propose financing terms. The contracting officer must then determine which offer is in the best interests of the United States.

(b) *Solicitations.* The contracting officer must include in the solicitation the provision at 52.232-31, invitation to Propose Financing Terms. The contracting officer must also-

(1) Specify the delivery payment (invoice) dates that will be used in the evaluation of financing proposals; and

(2) Specify the interest rate to be used in the evaluation of financing proposals (see paragraph (c)(4) of this section).

(c) Evaluation of proposals. (1) When contract financing terms vary among offerors, the contracting officer must adjust each proposed price for evaluation purposes to reflect the cost of providing the proposed financing in order to determine the total cost to the Government of that particular combination of price and financing.

(2) Contract financing results in the Government making payments earlier than it otherwise would. In order to determine the cost to the Government of making payments earlier, the contracting officer must compute the imputed cost of those financing payments and add it to the proposed price to determine the evaluated price for each offeror.

(3) The imputed cost of a single financing payment is the amount of the payment multiplied by the annual interest rate, multiplied by the number of years, or fraction thereof, between the date of the financing payment and the date the amount would have been paid as a delivery payment. The imputed cost of financing is the sum of the imputed costs of each of the financing payments.

(4) The contracting officer must calculate the time value of proposal-specified contract financing arrangements using as the interest rate the nominal discount rate specified in Appendix C of the Office of Management and Budget (OMB) Circular A-94, "Guidelines and Discount Rates for Benefit-Cost Analysis of Federal Programs," appropriate to the period of contract financing. Where the period of proposed financing does not match the periods in the OMB Circular, the interest rate for the period closest to the finance period must be used. Appendix C is updated yearly and is available from the Office of Economic Policy in the Office of Management and Budget (OMB).

32.206 Solicitation provisions and contract clauses.

(a) The contract must include the paragraph entitled "Payment" of the clause at 52.212-4, Contract Terms and Conditions —Commercial Products and Commercial Services. If the contract will provide for contract financing, the contracting officer must construct a solicitation provision and contract clause. This solicitation provision must be constructed in accordance with 32.204 or 32.205. If the procedure at 32.205 is used, the solicitation provision at 52.232-31, Invitation to Propose Financing

Terms, must be included. The contract clause must be constructed in accordance with the requirements of this subpart and any agency regulations.

(b) Each contract financing clause must include:

(1) A description of the-

(i) Computation of the financing payment amounts (see paragraph (c) of this section);

(ii) Specific conditions of contractor entitlement to those financing payments (see paragraph (c) of this section);

(iii) Liquidation of those financing payments by delivery payments (see paragraph (e) of this section);

(iv) Security the contractor will provide for financing payments and any terms or conditions specifically applicable thereto (see 32.202-4); and

(v) Frequency, form, and any additional content of the contractor's request for financing payment (in addition to the requirements of the clause at 52.232-29, Terms for Financing of Purchases of Commercial Products and Commercial Services); and

(2) Unless agency regulations authorize alterations, the unaltered text of the clause at 52.232-29, Terms for Financing of Purchases of Commercial Products and Commercial Services.

(c) Computation of amounts, and contractor entitlement provisions. (1) Contracts must provide that delivery payments must be made only for completed supplies and services accepted by the Government in accordance with the terms of the contract. Contracts may provide for commercial advance and commercial interim payments based upon a wide variety of bases, including (but not limited to) achievement or occurrence of specified events, the passage of time, or specified times prior to the delivery date(s). The basis for payment must be objectively determinable. The clause written by the contracting officer must specify, to the extent access is necessary, the information and/or facilities to which the Government must have access for the purpose of verifying the contractor's entitlement to payment of contract financing.

(2) If the contract is awarded using the offeror-proposed procedure at 32.205, the clause constructed by the contracting officer under paragraph (b)(1) of this section must contain the following:

(i) A statement that the offeror's proposed listing of earliest times and greatest amounts of projected financing payments submitted in accordance with paragraph (d)(2) of the provision at 52.232-31, Invitation to Propose Financing Terms, is incorporated into the contract, and
